Hearing on Proposed Amendment of Marketing Agreement, as Amended, and Order, as Amended

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Public hearing on proposed rulemaking.

SUMMARY: The hearing is being held to consider proposed changes in the marketing order. The principal issue to be considered is updating allotment bases for producers.

DATES: The hearing will be held November 1, 3, 8, 11, 14, 1977, at the locations listed under supplementary information below.

ADDRESSES: See the list of locations under supplementary information below.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader (202-447-3545).

SUPPLEMENTARY INFORMATION: Notice is hereby given of a public hearing to be held in the Holiday Inn, 500 Hathaway Road, New Bedford, Mass., beginning at 9 a.m., local time, November 1, 1977; in the Cherry Hill Inn, Route 38 and Haddonfield Road, Cherry Hill, N.J., beginning at 9 a.m., local time, November 3, 1977; in the McMillan Memorial Library, Wisconsin Rapids, Wis., beginning at 9 a.m., local time, November 8, 1977; in the Aero Club at the Bandon State Airport, Bandon, Oreg., beginning at 9 a.m., local time, November 11, 1977; and in the Long Beach Grange Hall, Long Beach, Wash., beginning at 9 a.m., local time, on November 14, 1977, with respect to proposed amendment of the marketing agreement, as amended, and Order No. 929, as amended, regulating the handling of cranberries grown in the States of Massachusetts, Rhode Island, Connecticut, New Jersey, Wisconsin, Michigan, Minnesota, Oregon, Washington, and Long Island in the State of New York.

The hearing is called pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

The purpose of the hearing is to receive evidence with respect to the economic and marketing conditions which relate to the proposed amendment, hereinafter set forth, and any appropriate modifications thereof, of the marketing agreement, as amended, and the order, as amended.

The proposed amendment, set forth below, has not received the approval of the Secretary of Agriculture.

PROPOSED BY THE CRANBERRY MARKETING COMMITTEE

PROPOSAL NO. 1

Revise § 929.20 (a) by deleting the first two sentences and substituting in lieu thereof the following. As amended § 929.20 reads as follows:

§ 929.20 Establishment and membership.

There is hereby established a Cranberry Marketing Committee consisting of seven members, each of whom shall have an alternate. Except as hereafter provided, members and their alternates shall be growers or employees, agents, or duly authorized representatives of growers. The committee may be increased by one public member and alternate nominated by the committee and selected by the Secretary. The public member and alternate shall be neither a grower nor a handler. The committee, with the approval of the Secretary, shall prescribe qualifications and the procedure for nominating the public member. . . .

PROPOSAL NO. 2

Revise § 929.32(a) to read as follows:

§ 929.32 Procedure.

(a) Five members of the committee, or alternates acting for members, shall constitute a quorum and any action of the committee shall require at least five concurring votes: *Provided*, That in the event of the addition of a public member to the committee, six members shall constitute a quorum and any action of the committee shall require at least six concurring votes.

PROPOSAL NO. 3

Revise § 929.48 by deleting paragraph (b), redesignating paragraph (c) as paragraph (d) and adding new paragraphs (b) and (c). As amended, § 929.48 reads as follows:

§ 929.48 Base quantities.

(a) . . .

(b) Periodically, but at least once each three years, the committee shall review the use being made of base quantities and recommended to the Secretary any

change in the formula for determining base quantities which may be deemed appropriate.

(c) (1) A reserve equal to 2 percent of the total base quantities shall be established annually: *Provided*, That such reserve shall include any base quantity that becomes available due to any reduction or invalidation because of non-use of base quantity under paragraph (c) (4) of this section. Such reserve may be used for the issuance of base quantities to new producers and adjustments in base quantities for producers with existing base quantities with 25 percent being made available for new producers and 75 percent available for adjustments for producers with existing base quantities. Any unallocated portion of the 25 percent available to new producers may at the discretion of the committee be prorated among producers with existing base quantities on an equitable basis.

(2) The committee shall recommend rules for establishing procedures whereby persons may apply for base quantities under paragraph (c) (1) of this section. Such rules shall be subject to approval by the Secretary. Rules may establish guides or standards for equitable and thorough consideration of pertinent factors relating to each case, including but not limited to, on-site inspection of applicant's acreage, past production of cranberries by applicant, acreage planted, average yields, and other economic and marketing factors.

(3) Each person filing an application hereunder for new base quantity or adjustment in an established base quantity shall be notified by the committee of its determination thereon.

(4) A condition for the continuing validity of a producer's base quantity is production of cranberries thereunder in a proprietary capacity. If no bona fide effort is made to produce and sell cranberries thereunder for five consecutive seasons, commencing with the 1978-79 season, the base quantity may be reduced or declared invalid due to lack of use and cancelled at the end of the fifth season of nonproduction. The committee shall establish criteria, subject to approval by the Secretary, whereby the committee may determine whether a bona fide effort has been made to produce and sell cranberries, including one that the producer must have sold at least 50 percent of his base quantity each year, unless prevented from doing so by acts of God or other circumstances beyond his control.

PROPOSAL NO. 4

Revise paragraph (a) of § 929.49 by deleting the fourth sentence and inserting in lieu thereof the following:

§ 929.49 Marketable quantity, allotment percentage, and annual allotment.

(a) *Marketable quantity and allotment percentage.* . . . No handler shall purchase or handle on behalf of any grower cranberries not within such grower's annual allotment: *Provided*, That such restriction shall not apply to cranberries transferred pursuant to paragraph (c) of this section or to cranberries purchased from or handled on behalf of any grower for disposition to such outlets as the committee, with the approval of the Secretary, finds are non-competitive with normal outlets for cranberries. . . .

PROPOSAL NO. 5

Revise paragraph (d) of § 929.56 to read as follows:

§ 929.56 Special provisions relating to withheld (restricted) cranberries.

(d) In the event any portion of the funds deposited with the committee pursuant to paragraph (a) of this section cannot, for reasons beyond the committee's control, be expended to purchase unrestricted (free percentage) cranberries to replace those released, such unexpended funds shall, after deducting expenses incurred by the committee in connection with the purchase and disposition of cranberries pursuant to paragraph (c) of this section, be offered and paid or credited proportionately to handlers on the basis of the volume of cranberries withheld by each handler. In the event that the offer is not accepted or directions given by a handler to credit the funds within 90 days, the funds will accrue to the committee's general account.

PROPOSED BY DECAS CRANBERRY COMPANY, INC.

PROPOSAL NO. 6

Revise § 929.48 by adding thereto the following paragraph:

§ 929.48 Base quantities.

Periodically, every three years, base quantities for all established acres be recomputed and issued to all growers, replacing their existing base quantities. This computation to be accomplished by averaging the two crop years from which the greatest sales were made during the six previous crop years. The first such computation shall be in a year to be decided by the Cranberry Marketing Committee, but not later than sometime prior to the harvest of 1980. Such computation shall be made and the results thereof made known to each respective grower not later than May 1st of the year decided upon by the Cranberry Marketing Committee, but not to exceed the date of May 1, 1980.

PROPOSAL NO. 7

Revise § 929.49 by deleting "May 1, 1974", in the last sentence of paragraph (b) and inserting in lieu thereof "September 1, 1978". As amended, such sentence reads as follows:

PROPOSED RULES

55095

§ 929.49 Marketable quantity, allotment percentage, and annual allotment.

(a)
(b) Issuance of annual allotments: On or before September 1, 1978, and by the same date each year thereafter, the committee shall issue to each grower an annual allotment determined by applying the allotment percentage established pursuant to paragraph (a) of this section to the grower's base quantity.

PROPOSED BY THE FRUIT AND VEGETABLE DIVISION AGRICULTURAL MARKETING SERVICE

PROPOSAL NO. 8

Make such changes as may be necessary to make the entire marketing agreement and the order conform with any amendment thereto that may result from this hearing.

Copies of this notice of hearing and the order may be obtained from the Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250.

Dated: October 7, 1977.

IRVING W. THOMAS,
Acting Administrator.

[7 CFR Part 932]

[Docket No. AO-352-A3]

OLIVES GROWN IN CALIFORNIA

Recommended Decision and Opportunity To File Written Exceptions on Proposed Further Amendment of Marketing Agreement and Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This decision recommends certain changes in the marketing order regulating the handling of olives grown in California, based on industry proposals considered at a public hearing on April 5-6, 1977. The principal changes would: Provide authority to determine olive sizes by additional means other than a count-per-pound basis; change the name of the administrative committee; authorize addition of a public member to the committee; and provide that minimum standards for natural condition and packaged olives shall be those contained in the U.S. Standards for Grades of Canned Ripe Olives or modifications thereof. In addition, authority to make producer nominations to the committee by mail voting and to charge interest on overdue assessments is included. Other minor administrative changes would also be made.

DATE: Comments are due on or before December 12, 1977.

ADDRESS: Comments should be filed with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250 (202-447-3545).

SUPPLEMENTARY INFORMATION: Notice is hereby given of the filing with the Hearing Clerk of this recommended decision with respect to proposed further amendment of the marketing agreement, as amended, and Order No. 932, as amended (7 CFR Part 932), regulating the handling of olives grown in California (hereinafter, in the text of the Findings and Conclusions, collectively referred to as the "order").

Interested persons may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington, D.C. 20250, on or before December 12, 1977. The exceptions should be filed in quadruplicate. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The above notice of filing of the decision and of opportunity to file exceptions thereto is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

Preliminary statement. The proposed amendment of the marketing agreement, as amended, and order, as amended, was formulated on the record of a public hearing held at Fresno, Calif., on April 5-6, 1977. Notice of the hearing was published in the March 2, 1977, issue of the FEDERAL REGISTER (42 FR 12063). The proposals contained in the notice of hearing were submitted by the Olive Administrative Committee, Lindsay Olive Co., and Oberti Olive Co.

Material issues. The material issues of record are as follows:

1. Provide authority to determine olive size by methods other than the current count-per-pound method.
2. Change the name of the administrative agency to California Olive Committee.
3. Include "segmented" as a style of limited use olives.
4. Provide for addition of a public member to the committee.
5. Clarify nomination procedure for persons to fill producer member positions on the committee, including authority to conduct nominations by mail.
6. Broaden the authority for alternate members' attendance at meetings and authorize payment of expenses incurred by alternate members of the committee under specified circumstances.
7. Authorize changes in committee voting requirements when voting is by mail.
8. Authorize interest and late payment charges on overdue assessments.
9. Change reporting procedures on research projects.

PROPOSED RULES

10. Provide that minimum size requirements for natural condition olives be the same as the size designations contained in the current U.S. Standards for Grades of Canned Ripe Olives, or such other sizes as may be recommended by the committee and approved by the Secretary.

11. Provide that canned ripe olives, other than those of the tree-ripened type, shall grade at least U.S. Grade C and conform to the size designations contained in the current U.S. Standards for Grades of Canned Ripe Olives, or such modifications thereof as may be recommended by the committee and approved by the Secretary.

12. Make conforming changes.

Findings and conclusions. The following findings and conclusions on the material issues are based on the record of the hearing:

(1) Section 932.12 of the order defines "size" to mean the number of whole olives contained in a pound with the further specification that size may be referred to in terms of count ranges. Thus, under the order, determination of olive sizes is limited to this "count-per-pound" method and can be changed only by an amendment of the order. The record indicates that it may be desirable and practicable at a future time to determine olive sizes in terms of length, diameter, weight, volume, or a combination thereof.

There are objectionable features attached to the count-per-pound method of size determination. For example, such method requires that size for pitted olives be determined prior to pitting, whereas a determination based upon diameter could be made after the olives are pitted. A shift to diameter sizing or similar basis would provide greater flexibility in processing and timing of inspection which could lead to improved efficiency of operations. While proponents agreed that an acceptable method for sizing on a basis other than count-per-pound had not been perfected, they expressed confidence that difficulties associated with limitations of sizing machinery and variation in shapes within and among olive varieties could be resolved through research and testing. Work to resolve such difficulties is being undertaken and if it is successful the order should permit adoption through rulemaking without the delay involved in an amendment proceeding.

Opponents to this procedure indicated that successful development of sizing on a basis other than count-per-pound would likely involve a rather long period. Consequently, they expressed the view that amendment now to permit adoption on a basis other than an amendment proceeding would be premature.

However, addition of authority on a permissive basis with adoption contingent upon a recommendation by the committee based upon ample justification and approval by the Secretary appears to be reasonable. This would permit change on a timely basis if a satisfactory alternative is developed which

is acceptable to the industry and the Secretary. Participation in such development by the industry and opportunity for input by interested persons by the rulemaking process provided under the Administrative Procedure Act should assure that the interest of all concerned would be observed. Therefore, it is concluded that the order should be so amended.

(2) The order should be amended to change the name of the agency which administers the order from Olive Administrative Committee to California Olive Committee. All the olives regulated under the order are grown in California. It was advanced and supported that this should be reflected as the name of the committee. The name California Olive Committee would more clearly identify the agency and this should be helpful in activities relative to advertising and public relations work.

(3) The order should be amended to include segmented olives among the styles of limited use olives. In 1972, the olive industry developed a new style of olive into which limited use size olives could be made and which is referred to as "Quartered" or "Segmented" style. These olives are pitted and cut lengthwise into four (or more) approximately equal parts and this style of olive has been readily accepted in the market.

The order currently authorizes the committee to specify additional styles of limited use olives and establish any requirements applicable to such styles. Under this authority, the committee, with the approval of the Secretary, specified in an administrative rule (§ 932.110) quartered and segmented olives as additional styles which could be produced from limited use olives. The recommended amendment which is effected by revision of § 932.23a makes no substantive change but merely includes the segmented style in the basic provisions of the order among the other limited use styles. Since segmented style means the olive has been cut lengthwise into four or more approximately equal parts, the term "Quartered" is superfluous and is therefore not included in the recommended amendment.

(4) The order should be amended as hereinafter set forth to provide that a public member and alternate may be added to the committee. Relative thereto, provision should be made for appropriate eligibility requirements and procedures for nominating persons to fill the public member position under the order.

A public member could be helpful in bringing the viewpoint of the general public into the committee deliberations. Such viewpoint could be particularly valuable in planning, implementing, and evaluating the committee's market development plans. The public member should serve in the same capacity as any other member and thus would be able to initiate proposals to be considered by the committee; vote on committee actions; and should be reimbursed for expenses incurred in the performance of committee duties. A public member should not be engaged in the commercial

production, marketing, buying, grading, or processing of agricultural commodities. Nor should any such member be an officer, director, member, or employee of any firm engaged in those activities.

The procedure and guidelines for nominating persons to fill public member positions on the committee should be established as an administrative rule. Thus, prior to selection of a public member, the committee should recommend appropriate procedures and guidelines to the Secretary for his approval. Numerous methods were suggested for nominating the public member including establishment of a subcommittee to develop lists of potential nominees; nomination by committee members; solicitation of potential nominees through use of publications in the area; and request any interested person to attend a committee meeting and seek the nomination. The committee should weigh these and other appropriate suggestions and recommend a procedure and qualifications for establishment under the order that is designed to result in nomination of persons who could make a contribution in the role of a public member.

Under the order, the Secretary has discretion to select committee members from those persons nominated in accordance with order requirements, or from other eligible persons. This should apply to the public member. However, it is customary for nominations to be made by the industry, therefore, the committee should make specific nominations.

The term of office for public members insofar as possible should coincide with those of producer and handler members, that is, a two-year term beginning June 1 and ending on May 31 of odd numbered years. If the order is amended, the committee should, as soon as practicable, subsequent to completion of this amendatory action, recommend appropriate rules and procedures and nominate persons for public member for the remainder of the current term of office which would end May 31, 1979.

At the hearing questions were raised as to whether the vote of a public member should be considered as a producer vote or handler vote under § 932.36. This section, among other things, requires at least five affirmative votes by producer members and five affirmative votes by handler members to validate any recommendation to the Secretary relative to grade or size regulations. Since the public member is neither a producer nor a handler, the public member's vote should not be categorized into either group. Hence, the requirements of that section with respect to quorum and voting requirements should continue to relate to quorum and grower and handler members as specified.

The notice of hearing contained proposals to reduce from three to two the number of geographic districts from which producer members of the committee are to be nominated, and reallocate producer membership between these two districts. No evidence was offered in support of these proposals. Therefore, no

amendatory action is recommended with respect to such proposals.

The notice of hearing contained a proposal which would provide that not more than two producer member positions may be filled by growers who deliver olives to the same handler. At the hearing, modifications of this proposal were offered; one that the number of producer member positions be increased to three per single handler affiliation and another that the number be increased to four. The basis on which this proposal was advanced was that producer representation with regard to handler affiliation should be broadened. The implication was that in the consideration of issues under the order, grower members are inclined to reflect the position of the handler of their olives rather than a position arrived at independently.

Currently, the grower positions on the committee are allocated among three subdivisions of the production area (districts) without regard to handler affiliation. The districts are delineated so as to distribute membership geographically. The allocation is designed to assure consideration of variations in olives related to locality of production. Within districts, each grower, regardless of handler affiliation and similar considerations, is eligible to be nominated for a grower position on the committee. The primary criteria is that the candidate be a grower in the district from which nominees are to be chosen. Consistent with this, nominees for grower member positions of the committee have been elected by growers in the respective districts. Nominees thus have been considered by the growers and the Department on the basis of their competence and their apparent concern for the welfare of the industry.

A further complication suggested possible observance of the kind of handler—cooperative or independent—handling the growers' olives, indicating that some in the industry believe the organizational structure of the handler the growers employ should be taken into account in grower nominations.

It was advanced that a provision which requires identification of a grower member with a particular handler would be objectionable in that the impression could be created that the grower is obligated to the handler for the position on the committee. Concern was expressed that in such circumstances the grower member's vote could be unduly influenced by the handler, or should such member act at variance with the handler's views, the handler could terminate his contract with the grower. In recognition of the possible validity of such concern, it was suggested that secret ballots might be taken on controversial issues. However, this was deemed undesirable since it would not allow growers to know how they are being represented on such issues by grower members.

A brief analysis of committee voting in recent years was entered into the hearing record. This analysis indicated that from August 1973 through June of 1975, of 51 propositions before the com-

PROPOSED RULES

mittee upon which votes were taken, 49 were decided by unanimous vote. From August 1975 through December 1976, 73 matters were voted upon and 67 were decided by a unanimous vote. Though the hearing record indicates divisions of opinion on the committee, it also indicates that a very great area of agreement must also exist. The record thus appears to reflect that the committee functions appropriately in reaching decisions. Hence, it is concluded that the evidence of record does not support a finding that allocating producer membership on the basis of handler affiliation would improve committee operation, or broaden producer participation and it could result in polarization among different groups of producers. The most recent producer nomination meetings resulted in significant changes as related to handler affiliation of nominees, thus indicating that when producers are sufficiently concerned, the present nomination procedures are amply accommodating. Therefore, adoption of the proposal to allocate producer positions on the committee on the basis of handler affiliation is not recommended.

(5) Currently, the order requires that nominees to fill grower member positions on the committee shall be elected at meetings of growers in the respective districts. At such meetings each grower may cast one vote for each member and alternate member nominee to be elected from that district. At the hearing, dissatisfaction was expressed concerning the lack of grower participation in nomination meetings. It was contended that to some extent participation was discouraged by permitting an individual to cast a vote for each of a number of producing entities in which he had a qualifying interest. It was advanced, without opposition, that the order should be amended to provide that each producer present should be permitted to cast not more than one ballot for each nominee to be elected regardless of the number of producing entities in which he has an interest. In other words, individual persons should be precluded from voting more than once on a specific nomination at a nomination meeting even though they may have an interest in more than one business entity which separately qualifies as a producer. This was not intended to deprive any producer of a vote, but each producer would be required to be represented at the meeting by a separate individual person.

The order permits individuals who have a proprietary interest in more than one producing entity to be represented at nomination meetings by their officers or employees. Hence, such growers can arrange to have an officer or employee attend and vote for each producer entity in which the individual has an interest. It is therefore concluded that the order should be so amended.

Further, in the matter of grower participation in grower nominations, it was advanced that such could be encouraged if growers were permitted to vote by mail. It was contended that requiring growers to attend and vote in person in some

instances worked a hardship in that some growers had to drive relatively long distances, and others often had conflicting business matters to attend to on the same date as the nomination meeting. It was indicated that if suitable procedures could be worked out for obtaining the names of prospective grower nominees in each district, and presenting such to growers on a ballot to be returned by mail, more growers would participate. It was agreed that greater participation in the grower nominee elections is desirable. A number of suggestions were made as to possible procedures for obtaining the names of candidates and for presenting the names to growers to be voted upon by mail. None of the suggestions were supported by a preponderance of evidence and each appears to require further definition and clarification. Therefore, it would not be practicable at this time to include a set procedure. Alternatively, however, such a procedure could be developed by the committee and recommended to the Secretary for adoption as an administrative rule. This would permit the necessary clarification and development and avoid the problems often associated with an untried, inflexible procedure in the basic provisions of the order, and the necessity of changing such through the process of order amendment. Thus, any needed changes can be effected through rulemaking procedures provided in the Administrative Procedure Act which does not involve a formal hearing.

While it is not certain that mail balloting would increase grower participation in the election of nominees for grower positions on the committee, it appears reasonable that it would do so. It would provide the grower more flexibility in voting, avoid travel hardships, and resolve conflicts with business demands. If for some reason such procedure should not prove successful or desirable, a shift can be made back to nominations at assembled meetings. It is therefore concluded that the order should be amended to authorize mail balloting by growers in election of nominees for grower member positions on the committee, contingent upon establishment through rulemaking of appropriate procedures for the conduct of such elections.

(6) The order should be amended to permit the committee or the committee chairman to request one or more alternate members to attend any or all committee meetings even though the respective member or members are in attendance at the same meeting, and to authorize the committee to pay expenses incurred by alternate members in attending committee meetings or performing other committee duties when such is so requested.

The order does not now specifically provide for reimbursement of an alternate member's expenses incurred in attending committee meetings when the member for whom that person is an alternate attends the same meeting. The evidence of record maintains that at times it is desirable to have both the

member and alternate attend meetings. For example, alternates serve on subcommittees. Later, when the committee is considering a recommendation of a subcommittee, attendance by the alternate members who participated in formulating the recommendation would be desirable. It may be appropriate also for the committee to pay expenses other than those incurred in attending committee meetings, incurred by members or alternates in attending technical training sessions such as the annual California Olive Association's Technical Conference, or similar type activities.

The authority to request attendance of alternate members at committee meetings should not be construed to mean that all alternate members should regularly attend all committee meetings and be reimbursed for expenses relative thereto. The payment of expenses of alternate members for attending meetings or performing service should be limited to those incurred when the attendance or performance of services has been requested by the committee or its chairman.

(7) Current provisions of the order specify that the committee may vote on issues by mail or telegram upon due notice to all members, providing that at least ten affirmative votes, of which at least five shall be grower member and five shall be handler member votes, shall be necessary for a vote to carry, provided that one dissenting vote shall prevent adoption of any proposition when voting is by the foregoing method.

Assembled meetings of the committee are not held according to a set schedule. They are called when the proposition before the committee is such that discussion of the issues is deemed to be necessary. Minor matters can be disposed of through a committee telegram or mail vote when the issues are clearly defined, and a fairly high degree of committee unanimity can be expected. The one dissenting vote rule, however, has hampered the use of this procedure which was intended to expedite decisions on minor matters. There have been a number of occasions when one dissenting vote has prevented adoption of a proposition submitted by mail ballot. This necessitated calling an assembled meeting of the committee. In recent years all propositions submitted to a mail ballot which failed because of one or more dissenting votes, were subsequently passed by the committee at an assembled meeting. It was generally agreed that use of mail balloting by the committee is desirable but should be confined to minor matters, and that such voting should be subject to safeguards to prevent abuse. However, it was also agreed that the one vote veto had proved impractical. It was advanced at the hearing that the order should be amended to require at least 14 affirmative votes, seven of which must be producer votes and seven of which must be handler votes, for adoption of any proposition on the basis of a mail or telegraphic vote, and the one vote veto provision should be deleted. Since there are only eight producer members and

eight handler members, serious concern was expressed that the 14 votes could prove to be more restrictive than the current requirement, i.e., five producer votes and five handler votes, with no dissenting votes. In such event, the use of the mail voting, with its attendant savings in committee meeting costs; to resolve minor administrative questions would be frustrated. Therefore, it is concluded that the amendment should also provide that if the committee finds the 14 affirmative vote requirement too stringent, it may recommend and the Secretary may approve changes in the number of affirmative votes required for a proposition submitted by mail balloting to carry, with the limitation that that number shall not be less than ten affirmative votes, of which five shall be grower member votes and five handler member votes. It is therefore concluded that the order should be amended consistent with the foregoing.

(8) The order should be amended to provide that the committee may levy interest or late payment charges on unpaid assessments. Such charge should be at a rate recommended by the committee and approved by the Secretary. In some instances handlers have not paid assessments on a timely basis. Thus, such handlers have the use of funds due the committee without interest. This is unfair to those handlers who pay their assessments promptly. Currently, the committee bills the handlers on a quarterly basis, with the first two quarters billed on December 1, with a due date of December 15; the third quarter billed on March 1, with a due date of March 15; and the fourth quarter billed on June 1, with a due date of June 15. Any interest or late payment charge levied by the committee should become effective from the day after the customary due date of such assessment.

Late payment of assessments is costly in time and effort on the part of the committee's administrative staff. Furthermore, handlers who do pay promptly are carrying an unfair share of the financial costs of the program for periods of time. An interest or late payment charge at levels approximating commercial rates in the area should discourage delinquencies.

The establishment of an interest rate or late payment charge, or a combination of the two, should be subject to a recommendation by the committee and approval by the Secretary. Any such rate established should continue in effect until such time as the committee recommends and the Secretary approves a change.

(9) Section 932.45 of the order should be amended to authorize the committee to prepare and mail reports on research projects to the Secretary on a timely basis as soon as such projects are completed. The order now requires the committee to prepare and mail such reports annually, as soon as practicable after the close of each crop year. No purpose is served by delaying the submission of such reports. Hence, they should be submitted as soon as they are available,

rather than waiting until after the end of the year. Therefore, the order should be amended accordingly. As in the past, copies of these reports on research projects should also be made available at the committee office for examination by producers, handlers, or other interested persons.

(10) Current provisions of the order provide that no handler shall process any lot of natural condition olives for use in the production of packaged olives which have not been size-graded, either by sample or by lot and classified into separate size designations in accordance with the size designations specified in the U.S. Standards for Grades of Canned Ripe Olives, or such sizes as may be recommended by the committee and established by the Secretary. Such provisions further provide that for purposes of the order two additional size designations set forth therein shall be considered to be included in said designations. The size designations are intended to indicate the value of the olives. Basically, within each given variety group, the larger the olives, the greater the value per ton. The incoming regulations also provide that each handler shall dispose of into non-canning use an aggregate quantity of olives equal to that which is shown on the inspection certificate to be smaller than a specified weight per pound. These minimum weights are specified by variety groups and vary according to the characteristics of the olives in each particular sub-variety group. This disposition provision recognizes that olives smaller than a specified minimum are relatively less desirable for canning as they produce a less satisfying product.

The notice of hearing contained a proposal to provide that the determination as to separate size designations for natural condition olives should at all times be consistent with those contained in the then current U.S. Standards for Grades of Canned Ripe Olives. At the hearing it was contended that it would be illogical to have standards under the order which do not coincide with the U.S. Standards.

However, this appears not to take into account the fact that the order establishes in § 932.51 a disposition obligation which involves sizes that are smaller than those included in the designations specified in the U.S. Standards. Similarly, under current provisions of the order certain sizes of olives which are not authorized for use in the whole or pitted styles of canned ripe olives may be made into the limited use styles. Size grading of a given lot of natural condition olives at the incoming level establishes the size composition of that lot. Thus, the volume of each size designation eligible for use in whole, whole pitted, limited use, and those required to be disposed of into non-canning outlets is determined. No evidence was presented to support a proposition that the provision with respect to size specified as non-canning in the order should be rescinded. Hence, it should be retained. Consequently, the size grading at the incoming level should be sufficient to establish handlers' non-canning obligation. To do so will require the retention

of the designations "Petite" and "Subpetite" now included in the order.

Currently, changes in provisions may be made by amendment of the order, or if authority to do so is provided in the order, through issuance of administrative rules. At the hearing it was maintained that changes in the size designation under the order should be allowed on the basis of a committee recommendation and approval of the Secretary as this would enable the committee to cope with changes in the olive marketing situation more expeditiously. While it has not been implemented heretofore, the present provision of the order does authorize the committee, with approval of the Secretary, to consider the olive situation in the light of the objectives of the order and to recommend such adjustments in size designations for natural condition olives as appear to be warranted by the prevailing circumstances. Such adjustments could be effected by issuance of an administrative rule in accordance with provisions of the Administrative Procedure Act. This procedure allows for input of interested persons during consideration by the committee and the Department. Currently, the order contemplates that any recommendation of the committee with respect to a change in size designations is to be based upon appropriate research and study, the results of which support the recommendation. In view of the objectionable inflexibility which would be introduced into the order by specifying that the size designations applicable to natural condition olives shall at all times be those contained in the U.S. Standards and the desirability of maintaining the committee's prerogatives under the order, it is concluded that the order should continue to provide not only for size designations specified in the U.S. Standards, but such other sizes as may be recommended by the committee and established by the Secretary under the order.

Change in the size designations required under the order could make it desirable to adjust the sizes required to be disposed of for non-canning use. Consequently, the order should be amended to provide for appropriate adjustments, and, in the event that sizes are specified in terms other than weight at some future time as discussed in connection with the proposed amendment of § 932.12, the order should permit the specification of disposition requirements in conformity with such terms. Therefore, it is concluded that the order should be so amended.

(11) Current provisions of the order specify that canned ripe olives (other than those of the tree-ripened type) shall grade at least U.S. Grade C as defined in the then current U.S. Standards for Grades of Canned Ripe Olives, or as modified by the committee with the approval of the Secretary. Such provisions also provide that processed olives for use in the production of whole and whole pitted styles of canned ripe olives shall conform to the size designations of single size or of the blended sizes "Family", "King", or "Royal" as set forth in said

U.S. Standards, but the olives in each varietal group shall be of a size not smaller than a specified size set forth in the order with allowable tolerances. Such provisions provide for modification of grade and changes in the allowable size tolerances, but no changes in the size designations or minimum sizes for outgoing olives are authorized.

The notice of hearing contained a proposal to amend the order to provide that processed olives for use in the production of canned ripe olives, other than those of the tree-ripened type, shall grade at least U.S. Grade C as such is defined in the then current U.S. Standards for Grades of Canned Ripe Olives, and that canned whole and pitted ripe olives, other than those of the tree-ripened type, must at all times conform to the applicable size designations set forth in such standards.

At the hearing it was observed that the U.S. Standards for Grades of Canned Ripe Olives were in the process of being revised. A notice of proposed rulemaking concerning the revision had been published in the FEDERAL REGISTER and the period for filing written comment for consideration in connection with final disposition had expired. It was pointed out that one of the principal objectives of the revision of U.S. Standards was to reduce the ten sizes specified in the current standards to five. According to the record, the size designations and their names in such standards has resulted in considerable criticism, are confusing to consumers and others, and if the designations are changed in the standards, the order should be changed in conformity therewith.

The record contains a considerable amount of speculative comment regarding the possible specifications of the revised standards, and how much specifications might affect the industry. The need for testing size designations differing from those now used was stressed, as was a need to resolve problems associated with pitting olives size graded in a wider size range than at present.

Proponents of the proposal to require size-grades at all times to coincide with those in the U.S. Standards averred that it would be illogical to continue a standard for outgoing olives under the order which might be materially different than that contained in the U.S. Standards. They stressed the desirability of reducing the number of size designations prescribed in the order to the number then expected to be set forth in the revised standards as soon as possible. However, they recognized that conforming the size designations of the order to the standards would require a changeover period during which the new designations of the standards or a modification of them could be tested. To facilitate such changeover they proposed an amendment to the exemption provisions of the order to allow the Secretary to relieve handlers from any or all order requirements for a period of time to allow orderly integration of the new size designations into the order whenever such are changed in the standards. It is observed that the order

contains a provision which permits exemption of olives from any or all order requirements to facilitate marketing research. Such provision contemplates research with control by the committee. However, wholesale exemption from order provisions to effect a changeover from one standard to another would be inconsistent with the purposes of the order which contemplates limitations to effect orderly marketing. From this viewpoint, providing such an exemption would be objectionable.

Concern was expressed over the possibility that persons other than those in the industry could influence specifications of the U.S. Standards to the detriment of the industry, particularly if the order were aligned automatically to the standards as proposed. Opponents of the proposal stated that for this and other reasons it would be preferable to have changes in size designations specified in the outgoing regulations contingent upon a recommendation of the committee with approval by the Secretary. Consistent with this, it was indicated that it would be appropriate to provide that the size designations therein would be those specified in the U.S. Standards or such other sizes as may be recommended by the committee and approved by the Secretary under the order. Thus, it was indicated, an orderly transition could be effected.

Currently, the order specifies twelve single size and three blended size designations for the packing of olives. In addition to the count-per-pound ranges denoting these designations, each such designation has a related name. Currently, the single size designations are Subpetite, Petite, Small (Select or Standard), Medium, Large, Extra Large, Mammoth, Giant, Jumbo, Colossal, Super Colossal, and Special Super Colossal. The blended size designations are Family, King, and Royal. Due to specification of Subpetite and Petite designations and the variations permitted by changes in the tolerances allowed for specified designations under order provisions, the size designations under the order have varied somewhat from those in the U.S. Standards.

The record indicates that changes in the size designations prescribed in the order are desirable to reduce the number of such designations and to relate names to them which are more meaningful. It would likewise appear desirable for the size designations under the order to be as closely aligned with those in the U.S. Standards as practicable. The record does not, however, reveal the specific size designations that would be specified in the revised U.S. Standards, although indications were that they likely would be those which had been proposed. However, one cannot draw a specific conclusion with regard to such size designations on the basis of an assumption.

A further complication is the fact that § 932.52(a)(2)(i-iv) specifies lower size limits by variety groups for canned whole ripe olives and paragraph (a)(3) of this section specifies the same size requirements for the whole pitted style. These requirements are not dealt with in the

PROPOSED RULES

then current U.S. Standards and likely would not be dealt with in the proposed amended standards, and, in the circumstances, it is not possible to assess how such requirements would relate to the standards later issued. Further, in the proposed amended standards some of the names of the size designations would be eliminated. Hence, the absence from the record of revised standards which specify a reduced number of size designations obviously creates a degree of uncertainty in this proceeding. Amendment of the order to provide that the size designations of such revised standards, when and if issued, shall automatically become the size designations under the order would be highly questionable, inasmuch as growers and handlers did not know what the designations would be.

Changes currently are permitted under the order relative to the adjustment of tolerances and to the smaller sizes which may be authorized for limited use (halved, sliced, minced, and similar styles). A number of such changes have been effected in the form of administrative rules based upon recommendations of the committee and approval of the Secretary. This has proved an appropriate means of effecting such changes, and such method could be used to effect changes in the size designations under the order if such were authorized by order provisions. This method could provide for an orderly transition from one standard to another, and would avoid the problems involved in effecting a change when objectionable features are found in the standards and it would not require exemption while modification relative to new U.S. Standards could be effected. It would permit adoption of the size designations of the amended U.S. Standards or appropriate modifications thereof. It is therefore concluded that the order should be amended to provide that the size designations under the order should be those contained in the U.S. Standards, or appropriate modifications thereof, as recommended by the committee and approved by the Secretary as hereinafter set forth.

With respect to grades for canned ripe olives, § 932.52(a)(1) of the order currently provides that no handler shall use processed olives in the production of packaged olives or ship such packaged olives unless they grade at least U.S. Grade C, as such grade is defined in the then current U.S. Standards for Grades of Canned Ripe Olives, or as modified by the committee with the approval of the Secretary. In other words, the minimum grade for canned ripe olives is at all times U.S. Grade C, but authority is provided to modify that standard for marketing order purposes by means of rule-making. This authority to modify grade requirements has been utilized in the past by the committee, and resulting modifications are contained in § 932.149 of the rules and regulations. As previously noted, the notice of hearing included a proposal to amend the order to require that canned ripe olives grade at least U.S. Grade C, as such grade is defined in the then current U.S. Standards

for Grades of Canned Ripe Olives. As proposed, authority for the committee to modify, with the approval of the Secretary, such grade requirement would no longer be included in the order. No specific testimony was offered regarding amending the order to remove the authority which permits the committee to recommend modification of such minimum grade under the order.

In the circumstances, it appears that the current provisions of the order with respect to the minimum grade are appropriate, and it is concluded that no change should be made in such provisions.

(12) Some of the amendments to the order recommended for adoption make it necessary that a minor conforming change be made in § 932.52(a)(6) of the order. This subparagraph provides that size designations used in the outgoing regulations (§ 932.52) mean the same as those designations used in the incoming regulations (§ 932.51) and the provision currently includes a parenthetical phrase, "(mammoth, extra large, medium, etc.)". Changes in the descriptive terms used to designate olive sizes in the U.S. Standards for Grades of Canned Ripe Olives or in such terms used for marketing order purposes could result in different terms, thus making any reference to size designations in this subparagraph obsolete. Therefore, deletion of the parenthetical phrase in § 932.52(a)(6) is recommended.

Rulings on briefs of interested persons. At the conclusion of the hearing, the Administrative Law Judge fixed June 8, 1977, as the final date for interested persons to file proposed findings and conclusions, and written arguments or briefs, based upon the evidence received at the hearing.

Briefs and proposed findings and conclusions were filed on behalf of certain interested persons. These briefs, proposed findings and conclusions, and the evidence in the record were considered in making the findings and conclusions set forth herein. To the extent that the suggested findings and conclusions filed by interested persons are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or to reach such conclusions are denied.

General findings. Upon the basis of the record, it is found that:

(1) The findings hereinafter set forth are supplementary, and in addition, to the previous findings and determinations which were made in connection with the issuance of the marketing agreement and order and each previously issued amendment thereto. Except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein, all of said prior findings and determinations are hereby ratified and affirmed;

(2) The marketing agreement and order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(3) The marketing agreement and order, as amended, and as hereby proposed to be further amended, regulate the handling of olives grown in the production area in the same manner as, and are applicable only to persons in the respective classes of commercial and industrial activity specified in, the marketing agreement and order upon which hearings have been held;

(4) The marketing agreement and order, as amended, and as hereby proposed to be further amended, are limited in their application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act, and the issuance of several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the act;

(5) The marketing agreement and order prescribe, so far as practicable, such different terms applicable to different parts of the production area as are necessary to give due recognition to the difference in the production and marketing of olives grown in the production area; and

(6) All handling of olives grown in the production area as defined in the marketing agreement and order, as amended, and as hereby proposed to be further amended, is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

Recommended amendment of the marketing agreement and order. The following amendment of the marketing agreement and order, as amended, is recommended as the detailed means by which the foregoing conclusions may be carried out:

1. Section 932.12 is revised to read:

§ 932.12 Size.

"Size" means the number of whole olives contained in a pound and may be referred to in terms of size ranges: *Provided*, That, upon recommendation of the committee and approval of the Secretary, size may be specified in terms of weight, diameter, volume, length, or combinations thereof, of individual olives.

2. Section 932.18 is revised to read:

§ 932.18 Committee.

"Committee" means the California Olive Committee established pursuant to § 932.25.

3. Section 932.23a is revised to read:

§ 932.23a Limited use.

"Limited use" means the use of processed olives in the production of packaged olives of the halved, segmented, sliced, chopped, or minced styles, as defined in the then current U.S. Standards for Grades of Canned Ripe Olives, including modifications of the requirements for such styles under this part, and such additional styles (and the requirements applicable thereto) as may be specified pursuant to § 932.52(a)(7).

4. The center heading appearing between §§ 932.24 and 932.25 is revised to read:

CALIFORNIA OLIVE COMMITTEE

5. Section 932.25 is revised to read:

§ 932.25 Establishment and membership.

A California Olive Committee consisting of 16 members, with an alternate for each such member who shall have the same qualifications as the member for whom he is an alternate, is hereby established to administer the terms and provisions of this part. Eight of the members and their alternates shall be producers or officers or employees of producers, and eight of the members and their alternates shall be handlers or directors, officers, or employees of handlers. The eight members of the committee who are producers or officers or employees of producers are referred to in this subpart as "producer members" of the committee; and the eight members of the committee who are handlers or directors, officers, or employees of handlers are referred to in this subpart as "handler members" of the committee. In addition, there may be a "public member" and an alternate who shall not be a producer or handler nor an officer or employee or director of any producer or handler. District representation of the producer members shall be two from District 1, four from District 2, and two from District 3. Allocation of the handler members shall be four members to represent cooperative marketing organizations, herein referred to as "cooperative handlers", and four members to represent handlers who are not cooperative marketing organizations, herein referred to as "independent handlers": *Provided*, That whenever during the crop year in which nominations are made and in the preceding crop year, the cooperative handlers or the independent handlers, handled as first handler 65 percent or more of the total quantity of olives so handled by all handlers, allocation shall be five members to represent the group which so handled 65 percent or more of such olives and three members to represent the group which handled 35 percent or less. The public member or alternate public member shall be selected from any place within the area. The committee may, with the approval of the Secretary, provide such other allocation of producer or handler membership, or both, as may be necessary to assure equitable representation.

6. Section 932.28 is revised to read:

§ 932.28 Eligibility.

Each producer member of the committee shall, at the time of his selection and during his term of office, be a producer in the district for which selected and, except for producers who are members of cooperative handlers, shall not be engaged in the handling of olives either in a proprietary capacity, or as a director, officer, or employee of a handler. Each handler member of the committee shall, at the time of his selection and during his term of office, be a handler in the group he represents or a director, officer, or employee of such

PROPOSED RULES

handler. Each public member and alternate public member of the committee shall at the time of selection and during the term of office not be engaged in the commercial production, marketing, buying, grading, or processing of any agricultural product nor shall such member or alternate be an officer, director, member, or employee of any firm engaged in such activities.

7. Section 932.29 is amended by revising paragraph (a), and adding a new paragraph (c), to read:

§ 932.29 Nominations.

(a) *Producer members.* (1) Nominations for producer members of the committee, and their respective alternates, shall be made at meetings of producers held by the committee at such times and places as it shall designate. The names of nominees shall be submitted to the Secretary prior to April 16 of the year in which nominations are made. The committee shall prescribe such procedure for the conduct of such meetings and voting on the candidates selected thereat as shall be fair to all persons concerned. In lieu of meetings for the purpose of nominating producer members of the committee, such nominations may be made by means of mail balloting. Prior to conducting producer nominations by mail balloting, the committee shall adopt, with approval of the Secretary, appropriate procedures to be observed.

(2) Only producers, including duly authorized officers or employees of producers, who are present shall participate in the nomination of producer members and alternate members when nominations are made at meetings. Each producer in attendance shall be entitled to cast only one vote, regardless of the number of business units he may represent, for each nominee to be selected in the district in which he produces olives. No producer shall participate in the selection of nominees in more than one district. If a producer produces olives in more than one district, he shall select the district in which he will so participate and notify the committee of his choice.

(b) . . .

(c) *Public member.* (1) Nominations for public member and alternate public member of the committee shall be made at a meeting called by the committee. The names of the nominees shall be submitted to the Secretary prior to April 16 of the year in which nominations are made. The committee shall prescribe such procedure for the selection and voting for each candidate as shall be fair to all persons concerned.

8. Section 932.30 is revised to read:

§ 932.30 Alternates.

An alternate for a member of the committee shall act in the place and stead of such member (a) during his absence, and (b) in the event of his removal, resignation, disqualification, or death, until a successor for such member's unexpired term has been selected and has

qualified. Except as otherwise specifically provided in this subpart, the provisions of this part applicable to members also apply to alternate members. The committee or the chairman of the committee may request one or more alternates to attend any or all meetings notwithstanding the expected or actual attendance of the respective member.

9. Section 932.36 is revised to read:

§ 932.36 Procedure.

Decisions of the committee shall be by majority vote of the members present and voting and a quorum must be present: *Provided*, That decisions requiring a recommendation to the Secretary on matters pertaining to grade or size regulations shall require at least five affirmative votes from producer members and five affirmative votes from handler members. A quorum shall consist of at least ten members of whom at least five shall be producer members and at least five shall be handler members. Except in case of an emergency, a minimum of five days advance notice shall be given with respect to any meeting of the committee. In case of an emergency, to be determined within the discretion of the chairman of the committee, as much advance notice of a meeting as is practicable in the circumstances shall be given. The committee may vote by mail or telegram upon due notice to all members, but any proposition to be so voted upon first shall be explained accurately, fully, and identically by mail or telegram to all members. When voted on by such method, at least 14 affirmative votes, of which seven shall be producer member votes and seven shall be handler member votes, shall be required for adoption. The committee may recommend and the Secretary may approve changes in the number of affirmative votes required for adoption of any proposition voted upon by means of a mail ballot: *Provided*, That the number of affirmative votes required for adoption shall not be less than ten, of which five shall be producer member votes and five shall be handler member votes.

10. Section 932.37 is revised to read:

§ 932.37 Compensation and expenses.

The members of the committee, and alternates when acting as members, shall serve without compensation; but they shall be reimbursed for necessary expenses, as approved by the committee, incurred by them in the performance of their duties under this part. An alternate member shall be reimbursed for necessary expenses, as approved by the committee, incurred in attending committee meetings at the request of the committee or its chairman, notwithstanding that the committee member for whom he serves as alternate also attends such meeting, and for performing other committee business at the request of the committee or its chairman.

11. Section 932.39 is revised by adding a new paragraph (c) which reads as follows:

PROPOSED RULES

§ 932.39 Assessments.

(c) Any assessment not paid by a handler within a period of time prescribed by the committee may be subject to an interest or late payment charge, or both. The period of time, rate of interest, and late payment charge shall be as recommended by the committee and approved by the Secretary. Subsequent to such approval, all assessments not paid within the period of time prescribed shall be subject to the interest or late payment charge, or both.

12. Section 932.45(e) is revised to read as follows:

§ 932.45 Production research, and marketing research and development projects.

(e) The committee shall, as soon as practicable, prepare and mail reports on current production research and marketing research and development projects to the Secretary and make a copy of such reports available at the committee office for examination by producers, handlers, or other interested persons.

13. Section 932.51(a)(1) is amended to read as follows:

§ 932.51 Incoming regulations.

(a) *Minimum standards for natural condition olives.* (1) Except as otherwise provided in this section, no handler shall process any lot of natural condition olives for use in the production of packaged olives which has not first been:

(i) Weighed on scales sealed by the State of California Department of Weights and Measures, an official certified weight certificate issued thereon, and a copy of such certificate furnished to the Federal or Federal-State Inspection Service and the committee; and

(ii) Size-graded, either by sample or by lot, under the supervision of any such inspection service and classified into separate size designations and a certification issued with respect thereto by such inspection service. Such size designations shall be in accordance with those set forth in the then current U.S. Standards for Grades of Canned Ripe Olives or such modifications thereof as may be recommended by the committee and approved by the Secretary: *Provided*, That, for the purpose of this section, the size designations in said standards shall be deemed to include the following two additional size designations:

Designation(s)	Approximate count (per pound)	Average count (per pound)
Subpetite.....	151 and up.	
Petite.....	180 141 to 180, inclusive.	

Such certification shall show, in addition to the quantities by weight of the olives in the lot that are classified as being in each size or size designation, the quantity of olives classified as culls by the handler: *Provided*, That when the Secretary, upon the recommendation of the committee, issues a definition of and

classification for "culls", the aforesaid quantity of culls shall be determined on the basis of such definition and in accordance with such classification.

14. Section 932.52 is revised to read:

§ 932.52 Outgoing regulations.

(a) *Minimum standards for packaged olives.* No handler shall use processed olives in the production of packaged olives or ship such packaged olives unless they have first been inspected as required pursuant to § 932.53 and meet each of the following applicable requirements:

(1) Canned ripe olives, other than those of the "tree-ripened" type, shall grade at least U.S. Grade C, as such grade is defined in the then current U.S. Standards for Grades of Canned Ripe Olives or as modified by the committee, with the approval of the Secretary for purposes of this part.

(2) Canned whole ripe olives, other than those of the "tree-ripened" type, shall conform to the size designations set forth in the then current U.S. Standards for Grades of Canned Ripe Olives, or such other sizes by variety or variety group as may be recommended by the committee and approved by the Secretary.

(3) Subject to the provisions set forth in subparagraph (4) of this paragraph, processed olives to be used in the production of canned pitted ripe olives, other than those of the "tree-ripened" type, shall meet the same size requirements as prescribed pursuant to subparagraph (2) of this paragraph. Olives smaller than those so prescribed, as recommended by the committee and approved by the Secretary, may be authorized, including authorization by variety or variety groups, for limited use. Each such minimum size may also include a size tolerance (specified as a percent) as recommended by the committee and approved by the Secretary.

(4) The Secretary may, upon recommendation of the committee, restrict the total quantity of limited use size olives for limited use during any crop year. Such restricted quantity shall be apportioned among the handlers by applying a percentage established annually by the Secretary upon recommendation by the committee, to each handler's total receipts of limited use olives during such crop year.

(5) Canned ripe olives of the "tree-ripened" type and green olives shall meet such grade, size, and pack requirements as may be established by the Secretary based upon the recommendation of the committee or other available information.

(6) The size designations used in this section mean the size designations described in paragraph (a)(1)(ii) of § 932.51.

(7) For the purposes of this part the committee may, with the approval of the Secretary, specify the styles of olives, including the requirements with respect thereto, for limited use.

Signed at Washington, D.C. on October 7, 1977.

IRVING W. THOMAS,
Acting Administrator.

[4910-13]

DEPARTMENT OF
TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 77-GL-20]

GENERAL ELECTRIC CORP. CF6-6D
AND CF6-6D1 ENGINES

Proposed Airworthiness Directives

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to adopt an airworthiness directive (AD) which would require modification of the 11-13 Stage Compressor Spool, Part Number (P/N) 9021M66 (all assembly part numbers) with General Electric Service Bulletin 72-682. This proposed AD is needed to prevent possible 13th stage rim failures due to fatigue failure. There have been seven failures of the 13th stage rim; three were uncontained, two of which resulted in under cowl oil fires.

DATES: Comments must be received on or before December 5, 1977.

ADDRESSES: Send comments on the proposal in duplicate to:

Federal Aviation Administration, Office of the Regional Counsel, Attention: Rules Docket (AGL-7), Docket No. 77-GL-20, 2300 East Devon Avenue, Des Plaines, Ill. 60018.

The applicable General Electric Service Bulletin 72-682 may be obtained from:

General Electric Co., Cincinnati, Ohio 45215.

Copies of the service information incorporated in this AD are contained in the Rules Docket, Office of the Regional Counsel, 2300 East Devon Avenue, Des Plaines, Ill. 60018; and at the Rules Docket, Room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

M. Mixell, Engineering and Manufacturing Branch, Flight Standards Division, AGL-214, Federal Aviation Administration, 2300 E. Devon Avenue, Des Plaines, Ill. 60018. Telephone 312-694-4500, extension 309.

SUPPLEMENTARY INFORMATION: There have been seven failures of the 13th stage rim, three of which were uncontained; two of these resulted in under cowl oil fires. Rim failures occur when a segment of the rim which has developed a fatigue crack extending between several bolt holes fails due to tensile overload. The fatigue crack is initiated by

fretting in the bolt holes of the 13th stage disc from contact with the bolts. This problem is not life related and has not been established as being related to maintenance or operating procedures.

Since this condition is likely to exist or develop in other engines of the same type design, the proposed airworthiness directive would require installation of bushings in the disc bolt holes in accordance with General Electric Service Bulletin 72-682 to prevent fretting and subsequently, high stress concentrations in the disc bolt holes.

Although failure mode and effect are known and suitable corrective action is available, specific details of the problem such as crack propagation rate, can only be estimated at this time. Accordingly, the ultrasonic inspection outlined in General Electric Service Bulletin 72-673 is not considered an adequate compliance action and is therefore not included in this proposal. When the crack propagation rate is determined, consideration will be given to revising the requirements of this proposal.

COMMENTS INVITED

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket number and be submitted in duplicate to the address specified above. All communications received on or before the closing date for comments will be considered by the Administrator before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each FAA-public contact, concerned with the substance of the proposed AD, will be filed in the Rules Docket.

In accordance with Departmental Regulatory Reform, dated March 23, 1976, an evaluation of the anticipated impacts has been made and it is expected within a normal range of pertinent considerations the proposal will be neither costly or controversial.

DRAFTING INFORMATION

The principal authors of this document are M. Mixell, Flight Standards Division, Great Lakes Region, and J. Brennan, Office of the Regional Counsel, Great Lakes Region.

THE PROPOSED AMENDMENT

Accordingly, the Federal Aviation Administration proposes to amend § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) by adding the following new airworthiness directive:

GENERAL ELECTRIC. Applies to CF6-6D and CF6-6D1 engines installed in aircraft certificated in all categories.

To prevent failure of the 11-13 Stage Compressor Spool, P/N 9021M66 (all assembly part numbers), thirteen stage rim modify the 11-13 Spool in accordance with General Electric Service Bulletin 72-682 not later than June 30, 1979.

PROPOSED RULES

The manufacturer's specifications and procedures identified in this directive are incorporated herein and made part hereof pursuant to 5 U.S.C. 553(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to General Electric Co., Cincinnati, Ohio 45215. These documents may also be examined at the Great Lakes Regional Office, 2300 East Devon Avenue, Des Plaines, Ill. 60018, and at FAA Headquarters, 800 Independence Avenue SW., Washington, D.C. 20591. A historical file of this airworthiness directive which includes incorporated material in full is maintained by the FAA at its headquarters in Washington, D.C., and at the Great Lakes Region.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

NOTE.—The incorporation by reference in the preceding document was approved by the Director of the Federal Register on June 19, 1967.

Issued in Des Plaines, Ill., on September 30, 1977.

LEON C. DAUGHERTY,
Acting Director,
Great Lakes Region.

FEDERAL AIRWAYS

Proposed Alteration and Extension; Withdrawal of Notice of Proposed Rulemaking

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Withdrawal of notice of proposed rulemaking.

SUMMARY: The notice of proposed rulemaking (NPRM) concerning alteration and extension of airways in the San Antonio, Tex., area is withdrawn to permit its consolidation with additional proposed airway changes in a subsequent airspace docket.

DATES: October 13, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. Everett L. McKisson, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Ave. SW., Washington, D.C. 20591, telephone 202-426-3715.

SUPPLEMENTARY INFORMATION: On August 4, 1977, the FAA published for comment a proposal to alter several

airways in the San Antonio, Tex., area. Subsequent to the publication of this NPRM, additional airway changes have been planned which would affect some of the airway changes proposed in this docket. For this reason, it is advisable to include all of the proposed airway changes in this area in a single docket and to withdraw Airspace Docket No. 77-SW-27.

DRAFTING INFORMATION

The principal authors of this document are Mr. Everett L. McKisson, Air Traffic Service, and Mr. Jack P. Zimmerman, Office of the Chief Counsel.

WITHDRAWAL OF THE PROPOSAL

Accordingly, pursuant to the authority delegated to me by the Administrator, Airspace Docket No. 77-SW-27, notice of proposed rulemaking, (42 FR 39401), is hereby withdrawn.

(Secs. 307(a), 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.65.)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on October 5, 1977.

WILLIAM E. BROADWATER,
Chief, Airspace and Air
Traffic Rules Division.

FEDERAL AIRWAY

Proposed Alteration; Withdrawal of Notice of Proposed Rule Making

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Withdrawal of notice of proposed rulemaking.

SUMMARY: The notice of proposed rulemaking (NPRM) concerning alteration of V-222 airway between Junction, Tex., and Industry, Tex., is withdrawn to permit its consolidation with additional proposed airway changes in a subsequent airspace docket.

DATES: Effective October 13, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. Everett L. McKisson, Airspace Regulations Branch (AAT-230), Air Air Traffic Service, Federal Aviation Administration, 800 Independence Ave. S.W., Washington, D.C. 20591, telephone 202-426-3715.

SUPPLEMENTARY INFORMATION: On August 18, 1977, the FAA published for comment a proposal to realign a segment of V-222 between Junction, Tex., and Industry, Tex., to bypass the San Antonio, Tex., terminal. Subsequent to

PROPOSED RULES

the publication of this NPRM, additional airway changes have been planned which would affect the route proposed in this airspace docket. For this reason, it is advisable to include the proposed change to V-222 in a single docket with other proposed airway changes in the San Antonio area and to withdraw Airspace Docket 77-WA-14.

DRAFTING INFORMATION

The principal authors of this document are Mr. Everett L. McKisson, Air Traffic Service, and Mr. Jack P. Zimmerman, Office of the Chief Counsel.

WITHDRAWAL OF THE PROPOSAL

Accordingly, pursuant to the authority delegated to me by the Administrator, Airspace Docket No. 77-WA-14, notice of proposed rule making, (42 FR 41648), is hereby withdrawn.

(Secs. 307(a), 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) 1354(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.65)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

[Airspace Docket No. 77-SW-43]

TRANSITION AREA

Proposed Alteration

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to alter the Bay City, Tex., transition area to provide controlled airspace for aircraft executing the new NDB instrument approach procedure to the Bay City Municipal Airport,¹ using the newly established NDB located on the airport.

DATES: Comments must be received on or before November 14, 1977.

ADDRESSES: Send comments on the proposal to:

Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101.

The official docket may be examined at the following location:

Office of the Regional Counsel, Southwest Region, Federal Aviation Admin-

istration, 4400 Blue Mound Road, Fort Worth, Tex. 76106.

An informal docket may be examined at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

FOR FURTHER INFORMATION CONTACT:

John A. Jarrell, Airspace and Procedures Branch (ASW-535), Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101. Telephone 817-624-4911, extension 302.

SUPPLEMENTARY INFORMATION: In Subpart G § 71.181 (42 FR 440) of FAR Part 71, the description of the Bay City, Tex., transition area reflects the controlled airspace provided for the present instrument approach procedure to the Bay City Municipal Airport. The new NDB instrument approach procedure will require alteration of the transition area to provide the necessary controlled airspace for this procedure.

COMMENTS INVITED

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. 1689, Fort Worth, Tex. 76101. All communications received on or before November 14, 1977, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rule making (NPRM) by submitting a request to the Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101, or by calling 817-624-4911, extension 302. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should contact the office listed above.

THE PROPOSAL

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71)

¹ Map filed as part of original.

PROPOSED RULES

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 21410; RM-2935]

FM BROADCAST STATION IN ALEXANDRIA, IND.

Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: Action taken herein proposes the assignment of a first FM channel to Alexandria, Indiana. Petitioner, Triplett Broadcasting Co., Inc., states that the proposed station would provide a vehicle for local advertising as well as public service, local news and entertainment programming.

DATES: Comments must be received on or before November 18, 1977, and reply comments must be received on or before December 8, 1977.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau, (202-632-7792).

SUPPLEMENTARY INFORMATION:

Adopted: October 4, 1977.

Released: October 7, 1977.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations, (Alexandria, Ind.), Docket No. 21410, RM-2935.

1. Petitioner, proposal and comments. (a) Petition for rule making, filed July 25, 1977, by Triplett Broadcasting Co., Inc. ("petitioner"), proposing the assignment of Channel 244A to Alexandria, Indiana, as a first FM assignment to that community.

(b) The channel could be assigned in conformity with the minimum distance separation requirements with the transmitter site located 8 kilometers (5 miles) west of the community.

(c) Petitioner states that it is ready to file an application for the channel, if assigned.

2. Community Data—(a) Location. Alexandria, in Madison County, is located approximately 29 kilometers (18 miles) northwest of Muncie, Indiana.

(b) Population. Alexandria, 5,600; Madison County, 138,451.²

(c) Local Broadcast Service. Alexandria has no local aural broadcast service.

¹ Public Notice of the petition was given on August 12, 1977, Report No. 1070.

² Population figures are taken from the 1970 U.S. Census.

to alter the Bay City, Tex., transition area. The FAA believes this action will enhance IFR operations at the Bay City Municipal Airport by providing controlled airspace for aircraft executing instrument approach procedures established for the airport. Subpart G of Part 71 was republished in the FEDERAL REGISTER on January 3, 1977 (42 FR 440).

DRAFTING INFORMATION

The principal authors of this document are John A. Jarrell, Airspace and Procedures Branch, and Robert C. Nelson, Office of the Regional Counsel.

THE PROPOSED AMENDMENT

Accordingly, pursuant to the authority delegated to me, the FAA proposes to amend § 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (42 FR 440) by altering the Bay City, Tex., transition area as follows:

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Bay City Municipal Airport (28°58'23" N. latitude, 85°51'48" W. longitude) and within 3.5 miles either side of the 313° bearing from the NDB extending from the 5-mile radius to 11.5 miles northwest of the airport.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348 (a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Fort Worth, Tex., on September 30, 1977.

HENRY L. NEWMAN,
Director, Southwest Region.

[Docket No. R-77-466]

FEDERAL CRIME INSURANCE PROGRAM Offer To Pay Finders Fee to Property and Life Insurance Agents, Brokers, and Certain Nonprofit Corporations and Organizations

Correction

In FR Doc. 77-29339 appearing in the issue of Thursday, October 6, 1977 on page 54432, the title and the signature at the end of the document on page 54434 should read as follows:

"JAY JANIS,
Under Secretary of
Housing and Urban Development."

PROPOSED RULES

3. *Economic data.* Petitioner states that Alexandria is located at the hub of Indiana's best farming area and has experienced a population growth of over 21 percent since 1970. It has submitted detailed social, economic and historical information to demonstrate the need for a first local broadcast service in Alexandria. Petitioner asserts that the proposed station would provide a vehicle for local advertising as well as public service, local news and entertainment programming.

4. In light of the above information and the fact that this request would provide the community with its first local full-time aural broadcast service, we believe consideration of the proposal to assign Channel 244A to Alexandria, Indiana, in a rulemaking proceeding is warranted.

5. Comments are invited on a proposal to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules, for the community listed below:

City	Channel No.	
	Present	Proposed
Alexandria, Ind.		244A

6. The Commission's authority to institute rulemaking proceedings; showings required; cut-off procedures; and filing requirements are contained below and are incorporated herein.

NOTE.—A showing of continuing interest is required by paragraph 2 below before a channel will be assigned.

7. Interested parties may file comments on or before November 18, 1977, and reply comments on or before December 8, 1977.

FEDERAL COMMUNICATIONS
COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b) (6) of the Commission's rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in this notice of proposed rulemaking.

2. *Showings required.* Comments are invited on the proposal(s) discussed in this notice of proposed rulemaking. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in this notice of proposed rulemaking. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission rules.)

5. *Number of copies.* In accordance with the provisions of § 1.420 of the Commission's rules and regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D.C.

[Docket No. 21412; RM-2902]

FM BROADCAST STATION IN ELIZABETH CITY, N.C.

Proposed Changes in Table of Assignments
AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: Action taken herein proposes the assignment of a second FM channel to Elizabeth City, North Carolina. Petitioner, Campbell Broadcasting, Inc., states a second FM service, representing a second nighttime aural service, would be provided to a substantial area.

DATES: Comments must be filed on or before November 18, 1977, and reply comments must be filed on or before December 8, 1977.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau (202-632-7792).

SUPPLEMENTARY INFORMATION:

Adopted: October 4, 1977.

Released: October 7, 1977.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations, (Elizabeth City, N.C.), Docket No. 21412, RM-2902.

1. *Petitioner, proposal and comments.* (a) Petition for rulemaking, filed May 27, 1977, by Campbell Broadcasting, Inc. ("petitioner"), licensee of AM Station WGAI, Elizabeth City, North Carolina, proposing the assignment of Channel 244A to Elizabeth City as its second FM assignment.

(b) The channel may be assigned without affecting any existing FM assignments in the Table. There were no oppositions to the proposal.

(c) Petitioner states that it proposes to file immediately an application for the channel, if assigned.

2. *Community Data—(a) Location.* Elizabeth City, seat of Pasquotank County, is located approximately 64 kilometers (40 miles) south of Norfolk, Virginia.

(b) *Population.* Elizabeth City, 14,069; Pasquotank County, 25,824.²

(c) *Local broadcast service.* Elizabeth City is presently served by Class C FM Station WMYK on Channel 229; full-time AM Station WCNC, and full-time AM Station WGAI, which is licensed to petitioner.

(d) *Economic considerations.* Petitioner states that Elizabeth City's population increased between 1960 and 1970 and has experienced a steadily growing economy in recent years. We are told that agriculture has been the mainstay of the area's economy, the principal crops being soy beans, potatoes, and grain corn. It points out that Elizabeth City has become an increasingly popular tourism site, producing revenues of approximately five million dollars for the area in 1976.

3. *Preclusion studies.* Petitioner's engineering study showed that the only significant area of preclusion that would result from the proposed assignment would be on the co-channel. However, this area contains no communities of over 1,000 population. Petitioner states that no first FM service would be provided by the proposed assignment, but that second FM service would be provided to 1,824 persons in an area of 130 square kilometers.

¹ Public Notice was given of the petition on June 15, 1977 (Report No. 1053).

² Population figures are taken from the 1970 U.S. Census.

(50 square miles). It states that the second FM service would represent a second nighttime aural service.

4. *Additional considerations.* The proposed assignment would result in intermixing a Class A channel with a Class C channel. The Commission has a policy against intermixture of classes of FM channels, but an exception can be made when a Class C channel is unavailable and a petitioner is willing to apply for the channel in spite of the intermixture situation. Yakima, Wash., 45 F.C.C. 2d 548, 550 (1973); Key West, Fla., 45 F.C.C. 2d 142, 145 (1974). Since petitioner is willing to apply for and operate on Channel 244A at Elizabeth City, this assignment could be made.

5. In view of the above, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, with regard to Elizabeth City, North Carolina, as follows:

City	Channel Nos.	
	Present	Proposed
Elizabeth City, N.C.	229	229, 244A

6. The Commission's authority to institute rule making proceedings; showings required; cut-off procedures; and filing requirements are contained below and are incorporated herein.

NOTE.—A showing of continuing interest is required by paragraph 2 below before a channel will be assigned.

7. Interested parties may file comments on or before November 18, 1977, and reply comments on or before December 8, 1977.

FEDERAL COMMUNICATIONS
COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.81(b) (6) of the Commission's rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in this notice of proposed rulemaking.

2. *Showings required.* Comments are invited on the proposal(s) discussed in this notice of proposed rulemaking. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply

comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission rules.)

(b) With respect to petitions for rulemaking which conflict with the proposal(s) in this notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in this notice of proposed rulemaking. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission rules.)

5. *Number of copies.* In accordance with the provisions of § 1.420 of the Commission's rules and regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D.C.

[Docket No. 21411; RM-2879; RM-2914]

FM BROADCAST STATIONS IN LOS BANOS AND DENAIR, CALIFORNIA

Proposed Changes in Table of Assignments
AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rule making.

SUMMARY: Action herein substitution of a Class B channel for a Class A channel in Los Banos, California, and the assignment of a first Class A channel to Denair, California. Petitioner, John R. McAdam, states that he would be able to provide service to the increasing number of residents in the western portion of Merced County if he were permitted to operate on a Class B frequency. Petitioner, Denair Broadcasting Company, states that the proposed Class A channel for Denair would provide that community with its first full-time local aural broadcast service.

PROPOSED RULES

DATES: Comments must be filed on or before November 18, 1977, and reply comments on or before December 8, 1977.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau, (202-632-7792).

SUPPLEMENTARY INFORMATION:

Adopted: October 4, 1977.

Released: October 7, 1977.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations, (Los Banos and Denair, Calif.), Docket No. 21411, RM-2879, RM-2914.

1. *Petitioner, proposals and comments.* (a) Notice of Proposed Rule Making is hereby given concerning amendment of the FM Table of Assignments (§ 73.202 (b) of the Commission's rules) as it relates to Los Banos and Denair, Calif.

(b) Petition for rule making¹ was filed on behalf of John R. McAdam ("KLBS"), licensee of Stations KLBS and KLBS-FM, Los Banos, California, proposing the substitution there of Class B Channel 284 for Channel 240A and modification of its license to specify operation on the new channel.

(c) A counterproposal² was filed by Denair Broadcasting Company ("DBC"), proposing the assignment of Channel 285A to Denair, Calif. The spacing requirements of the Commission's rules would preclude making both proposed assignments.

(d) On June 28, 1977, KLBS amended its petition by proposing, in addition to the substitution of assignments at Los Banos, the assignment of Channel 240A rather than Channel 285A at Denair, Calif.

(e) Both KLBS and DBC state they will apply for their respective channels, if assigned, and proceed at once to construct a station, if authorized.

2. *Demographic data—(a) Location.* Los Banos, in Merced County, is located approximately 161 kilometers (100 miles) southeast of San Francisco. Denair, an unincorporated community, in Stanislaus County, is situated 144 kilometers (90 miles) east of San Francisco.

(b) *Population.* Los Banos, 9,188; Merced County, 104,629; Denair, 1,128; Stanislaus County, 194,506.³

(c) *Local broadcast service.* Los Banos is presently served by one daytime-only AM Station (KLBS) and one FM station (KLBS-FM, Channel 240A), both licensed to petitioner John R. McAdam. Denair has no local aural broadcast service.

(d) *Economic considerations.* DBC states that Denair and the Stanislaus

¹ Public Notice was given of the petition on May 9, 1977 (Report No. 1044).

² Public Notice was given of the counterproposal on June 28, 1977 (Report No. 1058).

³ Population figures are taken from the 1970 U.S. Census.

PROPOSED RULES

County area are known for their agriculture and light industry. It points out that, although Denair is an unincorporated community, it has its own schools, chamber of commerce, fire department and shopping center.

3. KLBS states that farming is the largest activity in the Los Banos area with Merced County recording \$394 million in farming receipts in 1975, a 10 percent increase since 1974. It notes that livestock and related products accounted for 46 percent of the county's farming receipts in 1975. Further it states that processing, packaging, warehousing, and shipping of farm products also play an important part in the county's economy.

4. *Preclusion studies.* No preclusion study is required for Denair since the proposal is for a first FM assignment. Four communities (Merced, pop. 22,670; Atwater, pop. 11,640; Lone Pine, pop. 1,800 and Bishop, pop. 3,498), would be precluded as a result of the assignment of Channel 284 to Los Banos. Merced has two FM stations and two AM stations, one full-time and one daytime-only; Bishop has one FM and one full-time AM station; Lone Pine has no local aural broadcast service; and Atwater, which is 11 kilometers (7 miles) from Merced, also has no local service.

5. *Additional considerations.* KLBS states that, if it is to fulfill its obligation of providing service to the increasing number of residents of the western portion of Merced County, it must be permitted to operate on a Class B frequency. KLBS has submitted a showing of first and second FM service which would be provided. However, this showing utilized contours based on presently authorized power. Petitioner is requested to submit a proper Roanoke Rapids¹ showing based on a Class B station operating at Los Banos with KLB's proposed maximum facilities (50 kilowatts and 152 meters (500 feet) AAT), existing stations operating with reasonable facilities or greater in the event the station is already authorized greater facilities, and all unoccupied assignments in the area operating with reasonable facilities values. The above showing should include the extent of nighttime service provided by standard broadcast stations, so that it would be possible to see whether first and second aural service would be provided—see Anamosa-Iowa City, Iowa, 40 F.C.C. 2d 250 (1974). Petitioner KLBS should also show whether there are any alternate channels available for Lone Pine and Atwater.

6. DBC's counterproposal requests the assignment of Channel 285A to Denair, California, which is mutually exclusive with KLBS's proposal of Channel 284 to Los Banos (there is a 55 kilometer (34 mile) separation, whereas 105 kilometers (65 miles) is required). However, in its amended petition, KLBS states that its consulting engineer has studied DBC's counterproposal and has determined

that Channel 240A, presently assigned to KLBS-FM, could be assigned to Denair in conformity with the minimum distance separation requirements.

7. By deleting Channel 240A from Los Banos and assigning it to Denair, it would be possible to assign Class B Channel 284 to Los Banos. In the event Channel 284 is not assigned to Los Banos, Channel 285A could be assigned to Denair. Channels 284 and 240A could be assigned to Los Banos and Denair, respectively, in conformity with the minimum distance separation requirements, provided the transmitter site of Channel 284 is located approximately 8 kilometers (5 miles) southeast of Los Banos.

8. Regarding modification of KLBS-FM's license to Channel 284 if assigned, the Commission's policy, as expressed in Cheyenne, Wyoming, 62 F.C.C. 2d 63 (1976), is that the public interest is best served where other interested parties are afforded an opportunity to apply for such a Class B channel, newly assigned to a community. However, in the absence of such interest, the license could be modified. Since no person has yet expressed an interest in the proposed assignment of Channel 284 to Los Banos, we are proposing to modify the license of Station KLBS-FM. Should an opposition to the proposed modification, together with a proper expression of interest, be submitted in comments, appropriate consideration will be afforded to any competing application for the channel, if assigned. KLBS should indicate whether it would wish to pursue its proposal if such interest were expressed.

9. An Order to Show Cause to the petitioner will not be issued since assent of the licensee of the station whose authorization is to be modified is clearly indicated by its request for the rule making proceeding.

10. In view of the above, the Commission proposes to amend the FM Table of Assignments (§ 73.202(b) of the Commission's rules) with regard to the cities listed below as follows:

City	Channel No.	
	Present	Proposed
Denair, Calif.		240A
Los Banos, Calif.	240A	284
or		
Denair, Calif.		285A
Los Banos, Calif.	240A	210A

11. The Commission's authority to institute rulemaking proceedings; showings required; cut-off procedures; and filing requirements are contained below and are incorporated herein.

NOTE.—A showing of continuing interest is required by paragraph 2 below before a channel will be assigned.

12. Interested parties may file comments on or before November 18, 1977, and reply comments on or before December 8, 1977.

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

¹ Roanoke Rapids-Goldsboro, N.C., 9 F.C.C. 2d 672 (1967).

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), 307(b), and 316 of the Communications Act of 1934, as amended, and § 0.281(b) (6) of the Commission's rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in this notice of proposed rulemaking.

2. *Showings required.* Comments are invited on the proposal(s) discussed in this notice of proposed rulemaking. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420 (d) of Commission rules.)

(b) With respect to petitions for rulemaking which conflict with the proposal(s) in this notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in this notice of proposed rulemaking. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission rules.)

5. *Number of copies.* In accordance with the provisions of § 1.420 of the Commission's rules and regulations, an original and four copies of all comments, reply comments, pleadings, briefs; or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

[Docket No. 21413; RM-2934]

FM BROADCAST STATION IN STONINGTON, CONN.

Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: Action taken herein proposes the assignment of a first FM channel to Stonington, Conn. Petitioner, Blackmore Broadcasting, states that the proposed FM station would provide the community with a first full-time local aural broadcast service.

DATES: Comments must be filed on or before November 18, 1977, and reply comments must be filed on or before December 8, 1977.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau (202-632-7792).

SUPPLEMENTARY INFORMATION:

Adopted: October 4, 1977.

Released: October 6, 1977.

In the matter of amendment of § 73.202(b), *Table of Assignments*, FM Broadcast Stations. (Stonington, Conn.), Docket No. 21413, RM-2934.

1. *Petitioner, Proposal and Comments.* (a) Petition for rulemaking, filed July 25, 1977, by Blackmore Broadcasting ("petitioner"), proposing the assignment of Channel 272A as a first FM assignment to Stonington, Conn.

(b) The channel could be assigned in conformity with our minimum distance separation requirements. No responses to the petition were received.

(c) Petitioner states that, if the channel is assigned, it will inaugurate a first local broadcast voice in Stonington at the earliest possible date.

2. *Community Data.*—(a) *Location.* Stonington, in New London County, is located on the southeastern Connecticut shoreline.

(b) *Population.* Stonington—15,940; New London County—230,348.²

(c) *Local Broadcast Service.* There is no local broadcast service in Stonington.

3. *Economic Data.* Petitioner has furnished sufficient information regarding social and economic factors which demonstrates Stonington's need for an FM channel assignment. It appears that tourism plays an important role in the area's economy in addition to the usual industrial and retail activities. Petitioner notes that, according to the Town Plan-

¹ Public Notice of the petition was given on August 8, 1977, Report No. 1069.

² Population figures are taken from the 1970 U.S. Census.

PROPOSED RULES

ner of Stonington, the population of the area is now about 17,000 and has been growing at the steady rate of 1 percent a year for the past sixteen years. It adds that the 1974 retail trade of the Stonington area totalled \$44.7 million, \$2,692 per capita.

4. In light of the above information and the fact that the proposed FM station would provide the community with a first full-time local aural broadcast service, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the rules, with regard to Stonington, Conn., as follows:

City	Channel No.	
	Present	Proposed
Stonington, Conn.		272A

5. The Commission's authority to institute rule making proceedings; showings required; cut-off procedures; and filing requirements are contained below and are incorporated herein.

NOTE.—A showing of continuing interest is required by paragraph 2 below before a channel will be assigned.

6. Interested parties may file comments on or before November 18, 1977, and reply comments on or before December 8, 1977.

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b) (6) of the Commission's rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in this notice of proposed rulemaking.

2. *Showings required.* Comments are invited on the proposal(s) discussed in this notice of proposed rulemaking. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission rules.)

(b) With respect to petitions for rulemaking which conflict with the proposal(s) in this notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the

date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in this notice of proposed rulemaking. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission rules.)

5. *Number of copies.* In accordance with the provisions of Section 1.420 of the Commission's rules and regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street NW., Washington, D.C.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

[49 CFR Part 395]

[Docket No. MC-78; Notice No. 77-7]

100-MILE EXEMPTION—DRIVER'S LOGS

Proposed Rulemaking

AGENCY: Federal Highway Administration; DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This Notice is issued to solicit comments on a proposed modification of the exemption presently provided for drivers of motor carriers who operate wholly within a 50-mile radius of their garage or terminal. As proposed, a driver need not complete a daily log if driving is performed within a 100-mile radius of the place where the driver reports for work. *Provided*, the driver returns to that place within 12 hours, and at least 8 consecutive hours off duty separates each 12 hours on duty. All comments will be considered before any final rulemaking action is taken.

DATES: Comments must be received on or before December 30, 1977.

ADDRESS: Submit comments (original and 2 copies) to: Robert A. Kaye, Director, Bureau of Motor Carrier Safety,

Federal Highway Administration, Department of Transportation, 400 Seventh Street, SW., Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT:

Principal Program Contact:

Gerald J. Davis, Chief, Driver Requirements Branch, Regulations Division, Bureau of Motor Carrier Safety, Federal Highway Administration, Department of Transportation, Washington, D.C. 20590, (202-426-9767).

Principal Lawyer:

Attorney Gerald M. Tierney, Motor Carrier and Highway Safety Law Division, Office of the Chief Counsel, Federal Highway Administration, Department of Transportation, Washington, D.C. 20590, (202-426-0824).

SUPPLEMENTARY INFORMATION:

On August 9, 1935, Congress enacted the Motor Carrier Act to the Department of the Interstate Commerce Commission to establish regulations regarding the maximum hours of service of motor carrier employees. That act was modified in 1967 by the DOT Act (49 U.S.C. 1655) which transferred responsibility for administering the safety provisions of the Motor Carrier Act to the Department of Transportation and Federal Highway Administration. A catalyst for this Congressional mandate was a high accident/death rate on our Nation's highways.

Today's hours of service limitations, modified somewhat over the years, provide that a driver shall not drive for periods in excess of 10 hours following 8 consecutive hours off duty, or drive for any period after having been on duty 15 hours following 8 consecutive hours off duty. On-duty time is limited to 60 hours in any 7 consecutive days, except that carriers operating every day of the week may permit drivers to remain on duty not more than 70 hours in any period of 8 consecutive days.

Since the establishment of the hours of service regulations approximately 40 years ago, a driver's daily log form has been used to aid motor carriers and drivers alike in their efforts to observe the hours of service regulations. The log has a grid format and is completed by the driver daily to record the hours for each duty status. The original log is submitted to the motor carrier and a copy (carbon or otherwise) is retained by the driver.

A motor carrier, simply by looking at the submitted log, may determine the number of hours available to the driver for on duty purposes. This is especially important for motor carriers which dispatch drivers from a terminal each day. By referring to the driver's log, the carrier can assign dispatches based on economy and safety of operations. Where a driver has infrequent contact with his terminal over a period of days, i.e., a cross country dispatch, the daily submission of the log via the mail permit the carrier to control its drivers and schedule future dispatches within the hours of service limitations.

The driver is the first line of defense in the area of highway safety and needs to know the number of hours available to be on duty and be confident that the maximum hours of service limitations will not be exceeded. The limitations are a general scale beyond which a driver is considered to be too fatigued to safely operate a commercial motor vehicle. A driver cannot remember the hours he was driving, on duty not driving, in the sleeper berth, or off-duty driving during the preceding 7 or possibly 8 days. Hence, the driver is required to prepare and to keep current his driver's daily log.

Currently, 2 types of operations are exempt from the daily log requirements. First, there are lightweight vehicle operations. Lightweight vehicles are defined in § 390.17 of 49 CFR as vehicles with a gross vehicle weight rating 10,000 pounds or less which neither transport passengers nor hazardous materials of an amount that requires placarding. This type vehicle is normally used in local operations characterized by numerous stops during the course of a tour of duty. Rarely does a work day exceed 10 hours.

The second operation is that conducted wholly within a 50-mile radius of the garage or terminal at which the regularly employed driver reports to work. Many times this type of operation is termed "local pick-up and delivery". Although exempted from the daily log requirements, the motor carrier which employs the driver must maintain accurate records for 1 year showing the total number of hours the driver is on duty each day and the time the driver reports for and is released from duty each day. These records normally are internal motor carrier documents such as delivery sheets and time/punch cards used for payment purposes.

Since the advent of the 50-mile exemption, numerous changes affecting pick-up and delivery operations have occurred. Among the most obvious changes have been: The improvement and increase in the number of limited access highways; improved highway designs; the expansion of most metropolitan areas; and improved truck and bus designs.

This Notice seeks comments regarding a proposed modification of the present 50-mile exemption from daily log preparation. The proposed modifications are:

1. Increase to 100 miles the exempted radius from the place the driver reports for work.
2. Make the exemption available to casual or intermittent drivers as well as regularly employed drivers.
3. Require that the records showing the total number of hours the driver is on duty to be maintained at the motor carrier's principal place of business, unless permission is received to maintain the records at another location.
4. Provide that a driver must return to the place he reported for work within 12 hours and that at least 8 consecutive hours off duty must separate each 12 hours on duty.

Motor carriers using a driver for the first time or intermittently will continue to obtain from the driver a signed statement giving the total time on-duty during the preceding 7 days, per § 395.8(r).

Previously, there has been some confusion regarding the location where the work records are to be maintained. To facilitate location uniformity and ease of access, all records related to the exemption provided in § 395.8(t) shall be forwarded to the carrier's principal place of business where they shall be maintained 12 months from the date of receipt. However, upon a written request to, and with the approval of the Director, Regional Motor Carrier Safety Office, for the region in which a motor carrier has its principal place of business, a motor carrier may forward and maintain such records at a regional or terminal office.

The hours of service recordkeeping procedures permitted by this exemption do not lend themselves to a ready determination of whether a driver is in a driving, on duty not driving, or off-duty status (sleeper berths normally are not used in pick-up and delivery operations). Further, pick-up and delivery operations normally do not exceed 10 hours. In order to insure the removal of fatigued drivers from highly congested city highways without restricting economy of operations, a limitation of a 12 consecutive hour work period is being proposed.

The essential purpose of hours of service regulations is to assure that drivers are alert and responsive to the demands and pressures of operating a commercial vehicle on public highways in mixed traffic with general motoring public. Because of the nature of their work, drivers engaged in commercial interstate operations are exempt from the maximum hours and overtime requirements of the Fair Labor Standards Act.

It is the policy of the Federal Government to minimize the information reporting burden, consistent with its needs for information to implement statutory objectives. The subject proposal is consistent with this policy.

NOTE.—This document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

Accordingly, it is proposed that 49 CFR Chapter III be amended as follows:

§ 395.8 Driver's daily log.

- (t) Exemptions. (1) The rules in this section do not apply if:
 - (i) The driver does not operate, more than one day per month, beyond a 100-mile radius of the place at which the driver reports for work.
 - (ii) The driver returns to the place he/she reported for work within 12 hours;
 - (iii) At least 8 consecutive hours off-duty separates each 12 hours on duty;
 - (iv) The motor carrier which employs the driver maintains accurate and true records showing:

(A) The total number of hours the driver is on duty each day.

(B) The time at which the driver reports for duty each day.

(C) The time at which the driver is released from duty each day, and

(D) The total on duty time for the preceding 7 days in accordance with paragraph (r) of this section for drivers used first time or intermittently; and

(v) The records required in subdivision (iv) of this subparagraph, are retained in accordance with the retention requirements applicable to motor carriers for

daily logs set forth in paragraph (s) of this section.

(Sec. 204, Interstate Commerce Act, as amended, (49 U.S.C. 304), sec. 6, Department of Transportation Act (49 U.S.C. 1655), and the delegations of authority by the Secretary of Transportation and the Federal Highway Administrator at 49 CFR 1.48 and 301.60, respectively).

Issued on September 30, 1977.

KENNETH L. PIERSON,
Acting Director, Bureau
of Motor Carrier Safety.

DEPARTMENT OF AGRICULTURE

Forest Service

DESOTO TIMBER MANAGEMENT PLAN

Availability of Final Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the DeSoto Timber Management Plan, DeSoto National Forest, Miss., USDA-FS-RS-FES (Adm.) 77-08.

Management actions include timber harvesting, and other timber management activities, road construction and reconstruction, prescribed burning and the use of pesticides. The unit contains 501,391 acres of National Forest land in Forest, George, Greene, Jackson, Jones, Pearl River, Perry, Stone, and Wayne Counties, Miss.

This final environmental statement was transmitted to CEQ on October 5, 1977. Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Building, Room 3210, 12th Street and Independence Avenue SW., Washington, D.C. 20250.

USDA, Forest Service, 1720 Peachtree Street NW., Room 804, Atlanta, Ga. 30309.

USDA, Forest Service, 350 Milner Building, Box 1291, Jackson, Miss. 39205.

A limited number of single copies are available upon request to Forest Supervisor, B. F. Finison, Box 1291, Jackson, Miss., 39205.

Copies of the environmental statement have been sent to various Federal, State, and Local agencies as outlined in the CEQ guidelines.

Dated: October 5, 1977.

ROBERT F. WILLIAMS,
Regional Environmental
Coordinator.

[6320-01]

CIVIL AERONAUTICS BOARD

[Order 77-10-23]

CHARTER TRIPS BETWEEN BELGIUM AND THE UNITED STATES

Order Granting Waivers

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 6th day of October, 1977.

By an exchange of diplomatic notes on June 23, 1977, and June 27, 1977, the United States and Belgium renewed an

Understanding governing, inter alia, the charterworthiness of passenger charter trips operated by the carriers of both countries between their respective territories. The Understanding is extended from July 1, 1977, through December 31, 1978, and is renewable thereafter.¹

In principal effect, the Understanding reinstates the provision that the Belgian civil aviation authorities will permit all United States carriers certificated to provide passenger charter service to and from Belgium to exercise the right to pick up and set down in Belgium such passenger charter traffic moving between a point or points in the United States and a point or points in Belgium (one way or round trip, nonstop or via intermediate countries, as well as to or from points beyond or behind) for all charter type traffic as is or may be authorized by the Civil Aeronautics Board.

Amendments relative to charterworthiness in the Understanding provide that:

1. The United States civil aviation authorities will accept as charterworthy passenger charter air traffic originated in Belgium and organized and operated in conformity with the charterworthiness rules of the Belgian civil aviation authorities applicable to charter flights to the United States.

2. The Belgian civil aviation authorities reserve the right to require the filing of a passenger list for each affinity charter group at least thirty days before the arrival of the flight.

The Understanding represents the recognition by both the Belgian aviation authorities and the United States Government that if passenger charter operations between their territories are to be facilitated, there must be an accommodation as to the differing rules governing charter operations in effect under the laws and regulations of the two countries. In some respects the Belgian charter rules are more restrictive than those applied by the Board, and in some respects they are more liberal, involving concepts which are contrary to those applied by the Board. However, considering the primary responsibility of the Belgian aviation authorities with respect to Belgium-originating charters (which are composed primarily of Belgian citizens), and the similar primary responsibility of the U.S. with respect to United States-originating charters, and the provisions of the agreement, the Board finds that the public interest requires waiver of those requirements of the U.S. charter

regulations which would otherwise preclude U.S. and Belgian carriers from operating Belgium-originating charters in accordance with Belgian regulations. This is not to say that the Board would necessarily conclude that the regulations applied by Belgium for Belgium-originating passenger charters would be satisfactory to meet Board requirements for U.S.-originating charters operated in accordance with U.S. regulations.

Under current Board charter regulations, U.S. carriers are required to conform to the U.S. charter rules for Belgium-originating as well as United States-originating charters, in the absence of the grant of a waiver or other exception in the regulations. The same is true with respect to the only Belgian carrier currently holding a foreign air carrier permit, SABENA. Each of the Board's charter regulations provides, nevertheless, for waiver of the requirements contained therein upon a finding that such waiver is in the public interest and that there are special or unusual circumstances warranting the grant of such a waiver.² The grant of waivers will, in accordance with section 1102 of the Act, implement the obligation assumed by the United States in the amended Understanding as renewed effective July 1, 1977.

In view of the foregoing, and in consideration of the renewed Understanding effectuated by the exchange of diplomatic notes of June 23, 1977 and June 27, 1977, the Board's responsibilities under section 1102 of the Act, and the effect of the Understanding in providing assurance that the United States-originating public will have the opportunity to travel to Belgium under charter rules found by the Board to be in the public interest, the Board finds that the provisions of the renewed Understanding represent a special circumstance which warrants an extension of waivers of the Board's various charter regulations to the extent necessary to permit U.S. certificated carriers and SABENA to operate charters originating in Belgium pursuant to the Belgian charter rules, and that the grant of such waivers would be in the public interest. Similarly, the Board finds that it is in the public interest to exempt U.S. indirect air carriers, pursuant to section 101(3) of the Act, from the provisions of Title IV of the Act insofar as is necessary to permit any such air carrier to organize Belgium-originating charters operated under Belgian rules pursuant to

¹ See secs. 207.16, 208.3a, 213.13, 214.3, 371.3, 372.3, 372a.3, 373.30, 378.30, and 378a.3 of the Board's Economic and Special Regulations.

the provisions of the renewed Understanding.³

In light of the renewed Understanding providing for acceptance as charterworthy those Belgium-originating charters operated pursuant to Belgian charter regulations, no useful purpose would be served by requiring waiver applications with respect to individual charter flights or series of flights. Accordingly, the Board finds that it is in the public interest to implement a blanket waiver from the charter regulations for all U.S. certificated carriers, and for Sabena, for the duration of the amended and renewed Understanding (or the Understanding as it may further be extended). The exemptions for indirect air carriers will apply for the same duration.⁴

Accordingly, it is ordered *That*: 1. To the extent respectively applicable, waivers of the provisions of sections 207.11, 208.6, and 212.8 of the Board's Economic Regulations (except with respect to the provisions of such sections governing charters to direct air carriers and direct foreign air carriers for commercial traffic), and of such other provisions of the Board's charter regulations as would otherwise be inconsistent with the waivers granted here, are granted for all U.S. air carriers authorized to provide passenger charter service (including off-route charter service) between Belgium and the United States,⁵ and Sabena (including its off-route charter service between Belgium and the United States), insofar as is necessary to permit such air carriers and the foreign air carrier Sabena to operate passenger charters originating in Belgium and destined for the United States in accordance with rules governing the charterworthiness of such charters as applied by the Belgian aviation authorities: *Provided, however*, That such waivers shall apply only to the extent contemplated by the renewed Understanding incorporated in the exchange of diplomatic notes between the United States and Belgium of June 23, 1977, and June 27, 1977 (or such Understanding as it may further be amended, modified, or extended); *And provided further*, That the waivers granted here

² The Board has declined to exercise jurisdiction over foreign indirect air carriers organizing foreign-originating charters. Accordingly, no additional authority is needed to permit Belgian indirect air carriers to organize Belgium-originating charters according to Belgian rules.

³ As noted, similar waivers were granted by the Board in Order 76-7-93 and 77-4-91 with respect to the United Kingdom and also had previously been granted with respect to Canadian-originating charters (Order 74-5-37, dated May 8, 1974) and Swiss-originating charters (Order 76-1-2, dated January 2, 1976), pursuant to a charter Agreement and Understanding with those countries.

⁴ Pursuant to sec. 401(e)(6) of the Act, and in the absence of any Board regulations precluding such operations, U.S. carriers holding certificates of public convenience and necessity issued by the Board pursuant to sec. 401(d)(1) of the Act are authorized to provide off-route charter service between Belgium and the United States in accordance with Board regulations.

shall not relieve such carriers from the requirements contained in Parts 207, 208, and 212 of the Board's Economic Regulations other than those relating to the charterworthiness of charters performed pursuant to those regulations.

2. All U.S. indirect air carriers of passengers be and they hereby are relieved, pursuant to section 101(3) of the Act, from the provisions of Title IV of the Act, insofar as is necessary to permit any such indirect air carrier to organize Belgium-originating passenger charters pursuant to the rules governing the charterworthiness of such charters as applied by the Belgian aviation authorities in accordance with the provisions of the renewed Understanding incorporated in the exchange of diplomatic notes between the United States and Belgium of June 23, 1977 and June 27, 1977.

3. This order may be modified, amended, or revoked by the Board without notice or hearing.

4. The waivers, exemptions, and authorization granted herein shall terminate upon the expiration of the Understanding on Passenger Charter Air Services incorporated in an exchange of diplomatic notes between the United States and Belgium of June 23, 1977 and June 27, 1977, or such Understanding as it may be amended, modified, or extended; and

5. This order shall be served upon all U.S. air carriers holding a certificate of public convenience and necessity issued by the Board, SABENA, the Departments of State and Transportation, and the Ambassador of Belgium.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

All Members concurred.

PHYLLIS T. KAYLOR,
Secretary.

[Docket 31327; Order 77-10-13]

SABENA BELGIAN WORLD AIRLINES

Order Dismissing Complaint

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 6th day of October, 1977.

By tariff revisions¹ scheduled to become effective September 25, 1977, Sabena Belgian World Airlines (Sabena) proposes to establish a new specific commodity rate (SCR) for Item 0838 (endives) from Brussels to New York at 59 cents per kg. with a minimum weight of 1,200 kgs.²

A complaint requesting suspension and investigation of this rate has been filed by Seaboard World Airlines, Inc. (Seaboard). Seaboard asserts that Sabena

¹ Revisions to Tariff C.A.B. No. 50 issued by Air Tariffs Corp., Agent.

² The prevailing Brussels-New York SCR for this item is 81 cents per kg. with a minimum weight of 100 kgs.

has neither submitted economic justification for its proposal—other than to state that the rate filing has been made pursuant to an order of the Government of Belgium—nor alleged that the rate has any generative potential. Seaboard also states that the rate will yield only 17.36¢ per ton-mile, 12 percent below Seaboard's costs per available ton-mile (ATM) of 19.75¢ for the first quarter of 1977, and that, a fortiori, the rate will not cover Seaboard's costs per revenue ton-mile (RTM). Seaboard takes issue with Order 77-8-76, August 17, 1977,³ insofar as Seaboard assumes the Board's position is that, in an excess-capacity situation, newly generated westbound traffic need not bear a full share of capacity costs. Seaboard states that this position necessarily means U.S. east-bound shippers must defray carrier costs that are not covered by the westbound generated revenues if a carrier is to recover its full costs of operations; that, potentially, the Board's incremental costing theory can lead to disastrous economic results as greater amounts of traffic move at below-cost rates; and that specific commodity traffic represents Seaboard's single largest traffic group, and the Board should not promote a long-term policy which would preclude a carrier from covering its full costs of operations by encouraging below-cost pricing of such a significant segment of its traffic. Finally, Seaboard states that, during the first seven months of 1977, it achieved a westbound load factor of 63 percent, and the Board's finding of substantial excess capacity in this service is, therefore, questionable.

In answer to the complaint, Sabena states that its not providing justification for the rate is irrelevant since Sabena is not legally required to submit justification; that the rate's failure to cover Seaboard's costs is also irrelevant since Seaboard no longer serves Brussels; and that Seaboard's arguments against Order 77-8-76 represent an improper attempt to seek reconsideration of that order. Sabena reiterates that the filing has been made pursuant to an order by the Government of Belgium, and maintains that Seaboard's complaint completely fails to establish any grounds for suspension and, accordingly, should be dismissed.

The Board has decided to dismiss the complaint.

Seaboard has not alleged that implementation of the proposed rate will cause a loss of its traffic or even a dilution of its revenues. Rather, Seaboard challenges "the Board's incremental costing theory." We are not persuaded that the Board's policy, in dealing with rate proposals in situations of directional traffic imbalance and underutilized capacity, "will lead to disastrous economic results." Rather we expect it to afford carriers an opportunity to explore new revenue-generating possibilities. In such circumstances, the Board

³ Order 77-8-76 dismissed Seaboard complaints against various westbound North Atlantic cargo rates proposed by KLM-Royal Dutch Airlines.

favors pricing policies that seek to exploit potential new sources of service demand, so long as such prices reflect the costs of the particular service provided. While we do not necessarily disagree with Seaboard that an inordinate volume of cargo traffic now moves at questionable specific commodity rates, that "problem" cannot be resolved in the one-at-a-time review of particular specific commodity rates. The considerations raised by Seaboard go to the overall level and structure of North Atlantic rates and must be resolved in that context.

Seaboard does not serve the market for which the rate is intended; therefore, its experience bears little relevance to the matters of directional imbalance and excess capacity. A review of the proponent's experience is more appropriate. Information published by the International Air Transport Association reveals that, during the first five months of 1977, Sabena's westbound cargo tonnage was 68 percent of that moving eastbound. While Sabena has, in fact, failed to present any generation estimate, the proposed rate nevertheless has the potential for improving the economics of the carrier's cargo operation by generating new revenues and utilizing otherwise unused westbound capacity.

Accordingly, it is ordered That: The complaint of Seaboard World Airlines, Inc., in Docket 31327 be dismissed.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

All Members concurred.

PHYLLIS T. KAYLOR,
Secretary.

NATIONAL CANCER INSTITUTE— NATIONAL INSTITUTES OF HEALTH Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897), and the regulations issued thereunder as amended (15 CFR Part 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77-00148. Applicant: National Cancer Institute, National Institutes of Health, Claims Review Section, Building 31, Room B1B-10, National Institutes of Health, Bethesda, Md. 20014. Article: Free Flow Electrophoresis, Model FF5. Manufacturer:

Garching Instruments, West Germany. Intended use of article: The article is intended to be used in studies of human leukemic cells to determine the RNA tumor virus information present in these cells and to develop biological markers for effective diagnosis and prognosis of the disease.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article is of unique design which provides free flow electrophoresis capable of achieving reproducible separations of large quantities of cells. The National Bureau of Standards advises in its memorandum dated September 15, 1977, that (1) the capabilities of the article as described above are pertinent to the applicant's intended purpose, and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897), and the regulations issued thereunder as amended (15 CFR Part 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77-00276. Applicant: National Radio Astronomy Observatory Associated Universities, Inc., 2010 North Forbes Boulevard, Suite 100, Tucson, Ariz. 85705. Article: Repair of Varian Klystron Type VRB2113A30 SN704414J6. Manufacturer: Varian Associates of Canada. Intended use of article: The article is intended to be used as a phase-locked local oscillator in a millimeter wave radio astronomy receiver. This receiver is used in conjunction with a microwave antenna to measure the intensity, polari-

zation frequency and direction of cosmic radiation.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides a 105-111 gigahertz frequency range with 75 milliwatts guaranteed minimum output power. The National Bureau of Standards (NBS) advises in its memorandum dated September 1, 1977, that (1) the capability of the article described above is pertinent to the applicant's research purposes, and (2) it knows of no domestic instrument of equivalent scientific value to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

Office of Import Programs

ROCKFORD SCHOOL OF MEDICINE, UNIVERSITY OF ILLINOIS ET AL.

Consolidated Decision on Applications for Duty-Free Entry of Electron Microscopes

The following is a consolidated decision on applications for duty-free entry of electron microscopes pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301). (See especially Section 301.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77-00227. Applicant: Rockford School of Medicine of the University of Illinois, 1601 Parkview Avenue, Rockford, Ill. 61101. Article: Electron Microscope, Model H-500 and Accessory. Manufacturer: Perkin-Elmer (Hitachi), Japan. Intended use of article: The article is intended to be used for studies of basic chemicals (i.e., Bence-Jones protein), viral particles and other organisms including bacteria, tissue being evaluated from research work on animals as well as from biopsy material obtained from humans. Specific projects to be conducted include the study of Bence-Jones protein, relationship of structure to clinical condition of patient and the evaluation of the fine structure of membrane alteration in the course of platelet aggregation. In addition, the article will be used for educational purposes in an elec-

tron microscopy course. Application received by Commissioner of Customs: May 5, 1977. Advice submitted by the Department of Health, Education, and Welfare on: August 10, 1977. Article ordered: September 15, 1976.

Docket Number: 77-00243. Applicant: Northern Regional Research Center, ARS-USDA, 1815 N. University Street, Peoria, Ill. 61604. Article: Electron Microscope, Model HU-12A and accessories. Manufacturer: Hitachi Ltd., Japan. Intended use of article: The article is intended to be used in support of the following research: (1) Study of the prevalence of fungal viruses in agriculturally important fungi; (2) examination of insect tissue in researching alternative biological methods for controlling pest insect populations; (3) examination of spore wall ornamentation on all Actinomyces in the Culture Collection (ca. 4,000 strains); (4) examination of two different aspects of yeast ultrastructures to clarify taxonomic and phylogenetic problems; and (5) study of the oval inclusion of the paraspore of *Bacillus thuringiensis*, to determine if the inclusion is structurally different or similar to the paraspore. Application received by Commissioner of Customs: May 12, 1977. Advice submitted by the Department of Health, Education, and Welfare on: August 11, 1977. Article ordered: August 13, 1976.

Docket Number: 77-00246. Applicant: Wayne State University, Detroit, Mich. 48202. Article: Electron Microscope, Model EM 301 with Resolution Stage and accessories. Manufacturer: Philips Electronics Instruments, NVD, The Netherlands. Intended use of article: The article is intended to be used for the study of the cytological fine structure of: (1) Gamete maturation in parasitic nematodes; (2) sperm/egg interaction prior to syngamy in nematodes; (3) membrane fusion events during (a) maturation of sperm, and (b) nematode fertilization of oocytes; (4) embryonic differentiation in amphibians; (5) hormone effects on cellular ultrastructure of receptor cells in teleosts and amphibians; (6) cellular architecture responsible for wide range of cellular and subcellular motility in both vertebrate and invertebrate species; (7) protein subunit identification of viral capsomeres; and (8) nucleic acid molecular structure following hybridization techniques. In addition, the article will be used to train doctorate researchers in critical high resolution work employing the latest biological techniques. Application received by Commissioner of Customs: May 23, 1977. Advice submitted by the Department of Health, Education, and Welfare on: August 11, 1977. Article ordered: May 12, 1977.

Docket Number: 77-00248. Applicant: The University of Oklahoma Health Sciences Center, Department of Anatomical Sciences, Biochemical Sciences Building, P.O. Box 26901, Oklahoma City, Okla. 73190. Article: Electron Microscope, Model Elmiskop 102 and accessories. Manufacturer: Siemens AG, West Germany. Intended use of article: The article is intended to be used to study the

ultrastructure of animal nervous tissue, endocrine glands, blood vessels, tumors, human carcinoma of the breast, and melanoma of the skin. The experiments to be conducted include testing of the cerebral vascular permeability (blood-brain barrier), changes in the endocrine secretion after various experimental modifications, atherosclerosis of the arteries including aorta, and pathogenesis of tumor formation in animals and humans. In addition, the article will be used to train graduate students to grasp the electron microscopic techniques and application, to interpret the electron micrographs, and to employ the knowledge and skill to attack the research problems. The courses will include: Advanced Cytology, Ultrastructure, Electron Microscopy, Research for Doctor's Dissertation, Anatomical Techniques, Advanced Histology, Advanced Embryology, Histochemistry, and Advanced Neuroanatomy. Application received by Commissioner of Customs: May 23, 1977. Advice submitted by the Department of Health, Education, and Welfare on: August 11, 1977. Article ordered: April 14, 1977.

Comments: No comments have been received in regard to any of the foregoing applications.

Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for the purposes for which the articles are intended to be used, was being manufactured in the United States at the time the articles were ordered.

Reasons: Each foreign article has a specified resolving capability equal to or better than 3.5 Angstroms. The Department of Health, Education, and Welfare advises in the respectively cited memoranda, that the additional resolving capability of the foreign articles is pertinent to the purposes for which each of the foreign articles to which the foregoing applications relate is intended to be used. HEW advises that it knows of no domestic instrument which could provide the pertinent feature at the time the articles were ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which was being manufactured in the United States at the time the articles were ordered.

THAT MAN MAY SEE, INC.

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific

tific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77-00231. Applicant: That Man May See, Inc., 95 Kirkham Street, San Francisco, Calif. 94122. Article: Electron Microscope, JEM 100C/SEG with side entry goniometer, with eucentric goniometer stage and accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article will be used for studies of the following materials and phenomena: (i) Ocular tissues from clinical and experimental studies in order to elucidate the pathogenesis of such diseases as glaucoma, retinitis pigmentosa, viral infections, tumors, etc.; (ii) the nature of junctional complexes forming the various ocular barriers will be studied with special attention given to the subcellular components of such junctions; and (iii) ocular tissues afflicted with diseases of unknown cause will be studied at high magnification searching for viruses or other causative organisms, etc. The experiments to be conducted have a two-fold objective: determination of the pathogenesis of such diseases as glaucoma and determination of better modes of therapy. In addition, the article will be used for teaching electron microscopy techniques to investigators, ophthalmology residents, and medical students.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the article was ordered June 22, 1976.

Reasons: The foreign article has a specified resolving capability 5 Angstroms with its eucentric side entry goniometer stage. The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated August 10, 1977 that the resolving capability of the foreign article described above is pertinent to the purposes for which the foreign article is intended to be used. HEW also advises that it knows of no domestic instrument which provides the pertinent feature of the article which was being manufactured in the United States at the time the article was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the article was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the article was ordered.

UNITED STATES MERCHANT MARINE ACADEMY

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR Part 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77-00213. Applicant: U.S. Department of Commerce, Maritime Administration, U.S. Merchant Marine Academy, Steamboat Road, Kings Point, N.Y. 11024. Article: TD-35 Varimax Test and Research Engine Rig and accessories. Manufacturer: Tecquipment Ltd., United Kingdom. Intended use of article: The article is intended to be used for instruction of Marine Engineering students in the courses Internal Combustion Engines E 464 and Internal Combustion Engines E 465.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the foreign article was ordered (February 10, 1977).

Reasons: The foreign article provides variable valve adjustment and a variable engine compression ratio of at least 4.5:1 to 20:1 while the article is operating. The National Bureau of Standards advises in its memorandum dated September 12, 1977 that (1) the specifications of the article described above are pertinent to the applicant's intended educational purposes and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article which was available at the time the article was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used which was being manufactured in the United States at the time the article was ordered.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

[3510-25]

UNIVERSITY OF MINNESOTA

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77-00158. Applicant: University of Minnesota, Minneapolis, Minn. 55455. Article: Electron Microscope, Model JEM-100C/SEG, Haskris Water Recirculator and accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article will be used for the following research purposes: BF-DF studies of phase distribution in metal alloys; lattice imaging high resolution defect studies of metal alloys; X-ray microanalysis of phases in minerals, metals, frozen microemulsion, frozen biological tissues for spatial distribution maps of elements (Z 11); crystal structure determination of fine second phases using micro diffraction; secondary electron imaging of fracture surfaces and catalytically poisoned surfaces; low dose STEM imaging of radiation sensitive polymer crystal and spherulites. The article will also be used in the courses Mat Sci 8520 Electron Microscopy and Diffraction and Mat Sci Electron Microscopy Laboratory in which students will be familiarized with techniques of use and interpretation in electron microscopy and the range of applications for transmission, scanning and scanning transmission electron microscopy and electron diffraction.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States, at the time the article was ordered (March 10, 1977).

Reasons: The description of the applicant's research and/or educational purposes establishes the fact that a conventional transmission electron microscope comparable to the foreign article is pertinent to the purposes for which the article

is intended to be used. We are advised by the National Bureau of Standards (NBS) in its memorandum dated August 19, 1977 that it knows of no conventional transmission electron microscope which was being manufactured in the United States at the time the foreign article was ordered. ("Conventional transmission electron microscopes" are not to be confused with "scanning electron microscopes" which were manufactured domestically at the time the article was ordered and are still being manufactured in the United States.)

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the article was ordered.

UNIVERSITY OF TEXAS MEDICAL BRANCH, ET AL.

Consolidated Decision on Applications for Duty-Free Entry of Ultramicrotomes

The following is a consolidated decision on applications for duty-free entry of ultramicrotomes pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR Part 301). (See especially § 301.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77-00228. Applicant: University of Texas Medical Branch, Department of Physiology and Biophysics, Galveston, Tex. 77550. Article: Ultratome, Model LKB 2128-010 UM IV and Knifemaker, Model LKB 7800B and Accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used to prepare ultrathin sections of retinas (or part of them) which have been embedded in hardened epoxy resins such as Epon or Spurr media. The neuronal organizations in the vertebrate retinas are to be studied to correlate functions of retinal neurons with their structures. The article will also be used in a graduate program in neurophysiology in which students will be trained in the morphological (electron microscopic) functional identification of neurons in the central nervous system. Application received by Commissioner of Customs: May 5, 1977. Advice submitted by the Department of

Health, Education, and Welfare on: August 10, 1977.

Docket Number: 77-00229. Applicant: Auburn University, Department of Anatomy and Histology, School of Veterinary Medicine, Auburn, Ala. 36830. Article: Ultratome III Ultramicrotome, Model LKB 800A and Knifemaker, Model LKB 7800B and Accessories. Manufacturer: LKB 8800A and Knifemaker, Model LKB use of article: The article is intended to be used for studies of normal tissues, organs, and organ structures of major species of domestic animals and selected species of laboratory animals and wildlife. Comparative studies will be focused on determining, at the subcellular level, morphologic features of organs which contribute to the establishment of blood-organ barriers. Among the areas in this category to be investigated are the blood-retinal barrier, blood-thymic barrier, and blood-brain barrier. The article will also be used for educational purposes in the following courses:

VM 326 Microscopic Anatomy I.—Microscopic anatomy of the form, structure, and characteristics of the basic tissues of animals. VM 327 Microscopic Anatomy II.—Microscopic anatomy of the tissue, composition of organs and organ systems. VM 328 Microscopic Anatomy III.—Microscopic anatomy of the reproductive organs. VAH 570 Histological Techniques.—A detailed study of the techniques employed in the preparation of cytological and histological materials. VAH 623 Neuroanatomy.—Structure of the central and peripheral nervous systems. VAH 626 Anatomy of the Special Senses.—Study of taste, smell, sight, and hearing. VAH 627 Advanced Histology of Domestic Animals.—A detailed study of the basic tissues. VAH 628 Advanced Organology of Domestic Animals.—A detailed study of organs and organ systems, utilizing the light microscope and electron micrographs to interpret morphology.

Application received by Commissioner of Customs: May 6, 1977. Advice submitted by the Department of Health, Education, and Welfare on: August 10, 1977.

Docket Number: 77-00245. Applicant: East Texas Chest Hospital, P.O. Box 2003, 9 miles northeast on U.S. Highway 271, Tyler, Tex. 75710. Article: Ultramicrotome, Model LKB 8800A with Cryokit, 14800-1 and accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used in preparing thin sections, from frozen and plastic embedded tissues required for the study of chest related diseases. These studies will include morphology of normal tissues as well as adaption of animal models of respiratory diseases. The objectives pursued in the course of the investigations will consist of defining the pathogenesis, at the ultrastructural level of respiratory diseases, and through these understandings, contribute insight with regard to subcellular susceptibility. Application received by Commissioner of Customs: May 23, 1977. Advice submitted by the Department of Health, Education, and Welfare on: August 11, 1977.

Comments: No comments have been received with respect to any of the foregoing applications.

Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles for such purposes as these articles are intended to be used, is being manufactured in the United States.

Reasons: Each of the foreign articles provides a range of cutting speeds equal to or greater than 0.1 to 20 millimeters per second. The most closely comparable domestic instrument is the Model MT-2B ultramicrotome which is manufactured by Ivan Sorvall, Inc. (Sorvall). The Model MT-2B has a range of cutting speeds from 0.02 to 3.2 millimeters per second. The conditions for obtaining high-quality sections that are uniform in thickness, depend to a large extent on the hardness, consistency, toughness and other properties of the specimen materials, the properties of the embedding materials, and geometry of the block. In connection with a prior application (Docket Number 69-00665-33-46500), which relates to the duty-free entry of an article that is identical to those to which the foregoing applications relate, the Department of Health, Education, and Welfare (HEW) advised that "Smooth cuts are obtained when the speed of cutting, (among such other) factors as knife edge condition and angle, is adjusted to the characteristics of the material being sectioned. The range of cutting speeds and a capability for the higher cutting speeds is, therefore, a pertinent characteristic of the ultramicrotome to be used for sectioning materials that experience has shown difficult to section." In connection with another prior application (Docket Number 70-00077-33-46500) which also relates to an article that is identical to those described above, HEW advised that "ultrathin sectioning of a variety of tissues having a wide range in density, hardness, etc." requires a maximum range in cutting speed and, further, that the "production of ultrathin serial sections of specimens that have a great variation in physical properties is very difficult." Accordingly, HEW advises in its respectively cited memoranda, that cutting speeds in excess of 4 millimeters per second are pertinent to the satisfactory sectioning of the specimen materials and the relevant embedding materials that will be used by the applicants in their respective experiments.

For these reasons, we find that the Sorvall Model MT-2B ultramicrotome is not of equivalent scientific value to the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which is being manufactured in the United States.

[3510-25]

VIRGINIA POLYTECHNIC INSTITUTE, ET AL.

Consolidated Decision on Applications for Duty-Free Entry of Electron Microscopes

The following is a consolidated decision on applications for duty-free entry of electron microscopes pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301). (See especially Section 301.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77-00241. Applicant: Virginia Polytechnic Institute and State University, Biology Department, Derring Hall, Blacksburg, Va. 24061. Article: Electron Microscope, Model JEM-100C/SEG and Accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used for studies of the following materials:

(a) The gametophytic and sporophytic tissues of the fern *Dawsonia*; (b) the cultured callus tissue of *Nicotiana tabacum* (tobacco); and (c) Crystalline materials, mainly rock-forming silicates, especially those showing domain textures and exsolution. The article will also be used extensively in the following courses:

1. Introduction to Electron Microscopy—a graduate and advanced undergraduates level research course intended to acquaint potential investigators with the basic procedures of fixation, staining, embedding, sectioning, operation of a basic transmission microscope and ultrastructural interpretation.

2. General Cytology—an undergraduate/graduate course designed to familiarize biology students and those in other life sciences with basic cytological techniques.

3. Advanced Cytology—a graduate course concentrating on organelle structure and function.

4. Crystal Chemistry of the rock-forming Minerals; Crystallography and Crystal Structure Analysis—to teach methods of investigating atomic and unit-cell scale structures of crystalline matter, particularly rock-forming minerals and sulfides.

Application received by Commissioner of Customs: May 12, 1977. Advice sub-

mitted by the Department of Health, Education, and Welfare on: August 11, 1977. Article ordered: May 5, 1977.

Docket Number: 77-00242. Applicant: University of California, San Francisco, Department of Otolaryngology, Coleman Memorial Laboratory HSE-863, 3rd and Parnassus Streets, San Francisco, Calif. 94143. Article: Electron Microscope, Model JEM-100S with plate camera and accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used to examine biological material including mammalian cochlea, the organ of Corti and adjacent nuchal tissue in the spiral ganglion in order to study the interrelationship of cochlear hair cells and their neural projections. The article will also be used in an introductory course to biological electron microscopy for residents and research fellows in otolaryngology to teach techniques of specimen preparation and transmission electron microscope operation. Other students, postdoctoral fellows, and faculty will be trained on an informal basis. Application received by Commissioner of Customs: May 12, 1977. Advice submitted by the Department of Health, Education, and Welfare on: August 11, 1977. Article ordered: March 4, 1977.

Comments: No comments have been received in regard to any of the foregoing applications.

Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for such purposes as these articles are intended to be used as being manufactured in the United States at the time the articles were ordered.

Reasons: Each article provides a eucentric goniometer stage with ± 60 degree tilt and a guaranteed resolution of 7 Angstroms point to point. The Department of Health, Education, and Welfare (HEW) advises in the respectively cited memoranda, that the features described above are pertinent to the purposes for which each of the foreign articles to which these applications relate is intended to be used. HEW also advises that it knows of no domestic instrument which provided the pertinent features of each article at the time of order.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate for such purposes as these articles are intended to be used, which was being manufactured in the United States at the time the articles were ordered.

Economic Development Administration

ROUND TWO OF THE LOCAL PUBLIC WORKS CAPITAL DEVELOPMENT AND INVESTMENT PROGRAM

Architect-Engineer Fees: Eligibility for Reimbursement When Performed by Force Account

Notice is hereby given, pursuant to authority contained in the Local Public Works Capital Development and Investment Act (Act), as amended (42 U.S.C. 6701), that certain architectural and engineering expenses incurred by recipients of grants under this program are eligible for reimbursement from grant funds even when performed directly by the recipient (that is, by "force account"). The Economic Development Administration (EDA) is publishing this notice because a number of questions have been raised on this matter. This notice announces EDA's formal position and previous documents inconsistent with this notice are no longer in effect.

As required by section 106(e) of the Act, no part of the construction (including demolition and other site preparation activities), renovation, repair, or other improvement of any public works project for which a grant is made under Round II may be performed directly by any department, agency, or instrumentality of any State or local government. Any costs incurred by grantees for construction activities which were performed directly by the grantee (by force account) are not eligible for reimbursement.

The prohibition against the use of grant funds to reimburse expenses incurred by force account extends to all expenses incurred from "construction activities". Architectural and engineering work or related planning may be reimbursed from grant funds when performed by force account when the grantee had already undertaken architectural design or preliminary engineering or related work but was required to undertake additional architectural or engineering work or related planning in order to permit construction of the project. Such "additional" architectural and engineering (A/E) work which is necessary to update plans and specifications is not part of "construction activities" and is not, consequently, subject to the prohibition of force accounts set forth in 13 CFR 317.18(e). "Additional A/E work" includes A/E work performed after submission of an application under Round I of the Local Public Works program. "Additional A/E work" may also include work performed to update plans and specifications any time before the grantee accepts bids for construction of the project. After the grantee accepts bids, A/E work will be considered as "additional A/E work" only if the grantee has modified the project with

EDA's approval and must perform "additional" A/E work or related planning to permit construction of the project as modified.

Other A/E work, such as inspection fees and test borings, are "construction activities" and subject to the prohibition of force accounts and other relevant regulations. Such work may be reimbursed, but only if performed by contract in compliance with the regulations and grant agreement.

Dated: October 4, 1977.

ROBERT T. HALL,
Assistant Secretary for
Economic Development.

Foreign-Trade Zones Board

[Docket No. 10-77]

FOREIGN-TRADE ZONE—SPARTANBURG COUNTY, SOUTH CAROLINA

Application and Public Hearing

Notice is hereby given that an application has been submitted to the Foreign-Trade Zones Board (the Board) by the South Carolina State Ports Authority, Charleston, S.C., requesting authority to establish a general-purpose foreign-trade zone within the Greenville-Spartanburg Customs Port of Entry. The proposed zone would be located on a 20 acre parcel situated on the south side of U.S. 29, one-half mile west of Interstate 85 in Spartanburg County, S.C. Some 9.5 miles from the City of Spartanburg's center, the site is bounded on the west by South Carolina Highway 63 and on the south by South Carolina Highway 316. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act of 1934, as amended (19 U.S.C. 81), and the regulations of the Board (15 CFR Part 400). It was formally filed on October 3, 1977. The Ports Authority, an agency of the State of South Carolina, is authorized to make the application under Section 54-3-230 of the Code of Laws of South Carolina (1976).

The South Carolina Ports Authority is the sponsor of Foreign-Trade Zone No. 21, Dorchester County, S.C., approved in 1975, within the Charleston Customs port of entry. Owned by Carolina Trade Zone, Inc., (CTZ) the Charleston area facility is operated under contract with the Ports Authority. In response to interest expressed by the South Carolina Piedmont area's civic and business communities in providing zone services in that part of the State, the Ports Authority has engaged CTZ to operate a second zone facility on a site which the latter has under option to purchase near the City of Spartanburg. As with the State's original zone, the project is actively supported by the South Carolina State Development Board.

Plans call for the initial construction of 96,000 square feet in warehouse type facilities with expansion possibilities of up to 366,000 square feet. Well situated in terms of highway transportation con-

nections and motor carrier service, the proposed zone site is also served by three trunk line railroads, with a rail spur of the Southern Railway already available at the site. The Greenville-Spartanburg Airport, with modern air cargo handling capabilities, is 10 miles from the proposed facility.

The application includes economic data and information concerning the need for zone services in the area. Several firms have indicated their intention to use the zone for storage, assembly, processing and distribution. Among the products involved are textile machinery and parts, textiles, electronic controls and measuring devices, tires and rubber, and electrical products.

In accordance with the Board's regulations, an examiners committee has been appointed to investigate the application and report thereon to the Board. The committee consists of Hugh J. Dolan (Chairman), Office of the Secretary, U.S. Department of Commerce, Washington, D.C. 20230; James R. Cahill, Director, Inspection and Control Division, U.S. Customs Region IV, 7370 NW, 36th Street, Miami, Fla. 33166; and Colonel William W. Brown, District Engineer, U.S. Army Engineer District, Charleston, P.O. Box 919, Charleston, S.C. 29402.

In connection with its investigation of the proposal, the examiners committee will hold a public hearing on November 9, 1977, beginning at 2 p.m., in the East Courtroom, Spartanburg County Courthouse, Magnolia Street, Spartanburg, S.C. The purpose of the hearing is to help inform interested persons about the proposal, to provide them with an opportunity to express their views, and to obtain information useful to the committee.

Interested persons or their representatives will be given the opportunity to present their views at the hearing. Such persons should by November 2 notify the Board's executive secretary in writing at the address below of their desire to be heard. In lieu of an oral presentation, written statements may be submitted to the examiners committee, care of the executive secretary, at any time from the date of this notice through December 9, 1977. Evidence submitted during the post-hearing period is not desired unless it is clearly shown that the matter is new and material and that there are good reasons why it could not be presented at the hearing. A copy of the application and accompanying exhibits will be available during this time for public inspection at each of the following locations:

U.S. Customs Service, Route 5, Greenville-Spartanburg Airport, Greer, S.C. 29651.
Office of the Executive Secretary, Foreign Trade Zones Board, U.S. Department of Commerce, Room 6886-B, Washington, D.C. 20230.

Dated: October 7, 1977.

JOHN J. DA PONTE, JR.,
Executive Secretary,
Foreign-Trade Zones Board.

National Oceanic and Atmospheric Administration

CARIBBEAN FISHERY MANAGEMENT COUNCIL

Statement of Organization, Practices, and Procedures

Pursuant to section 302(f) (6) of the Fishery Conservation and Management Act of 1976 (Pub. L. 94-265), each Regional Fishery Management Council is responsible for determining its organization and prescribing its practices and procedures for carrying out its functions under the Act in accordance with such uniform standards as are prescribed by the Secretary of Commerce. Further, each Council must publish and make available to the public a statement of its organization, practices, and procedures. As required by the Act, the Caribbean Fishery Management Council has prepared and is hereby publishing its Statement of Organization, Practices, and Procedures.

Dated: October 7, 1977.

JACK W. GEHRINGER,
Deputy Director, National
Marine Fisheries Service.

CARIBBEAN FISHERY MANAGEMENT COUNCIL,
SUITE 806, BANCO DE PONCE BUILDING, HATO
REY, P.R. 00918

STATEMENT OF ORGANIZATION, PRACTICES, AND PROCEDURES

1. *Name of Council:* Caribbean Fishery Management Council.

2. *Location:* The permanent offices of the Council are located at Suite 806, Banco de Ponce Building, Hato Rey, P.R. 00918. Postal address: P.O. 1001, Hato Rey, P.R. 00919. Telephones: FTS 753-4926, 753-4927, 753-4928; Commercial 753-6910.

3. *Council Legal Authority:* The legal authority or basis for the existence of the Caribbean Fishery Management Council is Pub. L. 94-265, otherwise known as Fishery Conservation and Management Act of 1976. Specifically, Section 302(a)(4) of the Act establishes the Caribbean Council as one of eight Regional Fishery Management Councils.

4. *Purpose:* The purpose of the Caribbean Fishery Management Council is to exercise its responsibilities and functions in accordance with the Fishery Conservation and Management Act of 1976 (Pub. L. 94-265:16 USC1601), and any other applicable law.

5. *Council Composition:* The Caribbean Fishery Management Council shall consist of the Territory of the United States Virgin Islands and the Commonwealth of Puerto Rico, and shall have authority over the fisheries in the Caribbean Sea and Atlantic Ocean seaward of such States.

The Caribbean Council shall have 7 voting members, including 4 appointed by the Secretary of Commerce pursuant to Section 302, Subsection (b)(1) (at least one of whom shall be appointed from each such State).

The non-voting members of the Council shall be those established on Section 302(a) (A)(B)(D) of Pub. L. 94-265.

6. *Officers and Term of Office:* A Chairman and a Vice-Chairman are elected from the voting members of the Caribbean Council. Both officers serve for a period of one year

¹ Wherever the term "State" is used in this document it shall be interpreted as defined by Pub. L. 94-265, under Section 3, Definitions (21).

They may succeed themselves if elected. Elections will be held at the first Council meeting after new members take office in August.

7. *Staff.* The voting members of the Caribbean Fishery Management Council will hire an Executive Director and other support staff as deemed necessary, for carrying out the decisions and desires of the Council.

A. *Functions—Executive Director:* The Executive Director directs the organizational and administrative aspects of Council operations, including hiring and supervising of support staff. Serves as the Chief Liaison Officer for the Council in contacts with government and private agencies. He is responsible for the implementation of Council policies and decisions. Under Council supervision, he accounts for and controls resources allocated to the Council. He is responsible for developing agenda for Council and public meetings, and for the preparation of reports. Represents the Council before public or official groups when required, and coordinates incoming and outgoing communications with all Council members.

B. *Functions—Other Staff:* To be provided. C. *Experts and Consultants:* The Council may contract with experts, consultants, and other personnel, as needed, to provide technical assistance.

D. *Details of Government Employees:* The Council may request the head of any Federal agency to detail to the Council, on a Reimbursable basis, any personnel of such agency to assist the Council in the performance of its functions under the Act.

The length of such details shall be mutually determined by the Council, the Federal employee, and his or her agency. Federal employees so detailed retain all benefits, rights and status as they are entitled to their regular employment. The Council may negotiate arrangements with States or local government to utilize employees of those governments.

The Executive Director shall negotiate and the Council shall approve any such agreement.

F. Employment Practices:

(1) *Nondiscrimination.*—All activities supported in whole or in part by Federal funds must operate under a policy of equal employment opportunity. Council staff positions shall be filled solely on the basis of merit, fitness, competence, and qualifications. Employment actions shall be free from discrimination based on race, religion, color, national origin, sex, age, or physical handicap.

(2) *Personnel Actions.*—Subject to these instructions, and within budgetary constraints, the Council may establish positions, recruit, hire, compensate and dismiss personnel. Involuntary separation shall be for cause alone, with reasonable advance notice given to the employee.

(3) *Salary and Wage Administration.*—In setting rates to pay for Council staff, the principle of equal pay for substantially equal work should be followed. Variations in basic rates of pay should be in proportion to substantial differences in the difficulty and responsibilities of the work performed. Overtime payment shall be in accordance to the Federal Labor Standards Act.

The duties of any new position shall be contained in a brief description to be submitted to the NOAA Personnel Office servicing NMFS Regional Office assigned to the Council prior to the submission of a budget in which the salary of that position is requested. The Council will be provided a salary range appropriate to the position. The Council may fill the position at any salary level within that range. However, it shall be the policy of the Council to pay

persons so hired at the beginning rate; Provided, that exceptionally qualified individuals may be considered for a higher salary, at the discretion of the Council. The annual pay for any staff position may not exceed the equivalent of the top step of GS-15 of the Federal General Schedule at any time. After a position has been filled, the employee may be promoted annually and recognized for superior performance within the specific salary ranges in accordance with Council policies.

(4) *Leave.*—Paid annual leave shall be granted to Council staff members at the same rate used by the Federal Government for its employees. For leave purposes only, credit shall be given to prior State, Federal or military service, not to exceed a total of twelve (12) years.

(5) *Holidays.*—The following official holidays will be observed by the Council.

- (a) New Year's Day (January 1)
- (b) Three Kings Day (January 6)
- (c) Good Friday
- (d) Washington's Birthday (February)
- (e) Memorial Day (last Monday in May)
- (f) Independence Day (July 4)
- (g) Puerto Rican Constitution Day (July 25)

(h) Labor Day (first Monday in September)

(i) Columbus Day (second Monday in October)

(j) Veteran's Day (fourth Monday in October)

(k) Puerto Rican Election Day (November 7)

(l) Thanksgiving Day (fourth Thursday in November)

(m) Christmas Day (December 25)

(In addition to recognized federal holidays, the above holidays account for days on which the Council's staff will not have access to its offices because of standard office building management procedures in the location of the Council's offices. However, if such a local holiday should fall during a Council meeting it shall not be observed as an official holiday of the Council.)

In addition to the above, the Executive Director is authorized to grant administrative leave to the Council staff on any local holiday when normal routine would make performance of staff functions impracticable, if such is consistent with the current workload of the staff.

Business will be conducted from 8 a.m. to 4:30 p.m.

(6) *Employee Benefits.*—The Council shall provide its employees the opportunity to participate in group medical insurance, life insurance and retirement plans and pay a reasonable proportion of the cost of such plans.

(7) *Standards of Conduct.*—The Council is responsible for maintaining high standards of ethical conduct among themselves and their staff. Such standards include the following principles:

No employee of the Council shall use his or her official authority or influence derived from his or her position with the Council for the purpose of interfering with or affecting the result of an election to or a nomination for any national, state, county or municipal elective office.

No employee of the Council shall be deprived of employment, position, work, compensation, or benefit provided for or made possible by the Act on account of any political activity or lack of such activity in support of or in opposition to any candidate or any political party in any national, state, county, or municipal election or on account of his or her political affiliation.

No Council member or employee shall pay, or offer, or promise, or solicit, or receive from any person, firm, or corporation, either as a

political contribution or a personal emolument any money, or anything of value in consideration of either support, or the use of influence, or the promise of support, or influence in obtaining for any person, any appointive office, place or employment under the Council.

No employee of the Council shall have a direct or indirect financial interest that conflicts with the fair and impartial conduct of his or her Council duties.

No Council member or employee of the Council shall use or allow the use, for other than official purposes, of information obtained through or in connection with his or her Council employment which has not been made available to the general public.

No Council member or employee of the Council shall engage in criminal, infamous, dishonest, notoriously immoral or disgraceful conduct prejudicial to the Council.

No Council member or employee of the Council shall use Council property on other than official business. Such property shall be protected and preserved from improper or deleterious operation or use.

(8) *Personnel Files.*—A file for each Council member containing appointment papers, security reports, biographical data and other official papers will be centrally maintained at Council Headquarters under security and safeguard conditions required of files subject to the Privacy Act. This file will be available to the member, and to other persons only pursuant to the Privacy Act.

(9) *Security Investigations.*—When it is anticipated that security classified information will be kept or handled in the Council offices, certain employees shall be designated by the Executive Director to be permitted access to the information in accordance with Federal standards and shall receive appropriate security clearance from the Office of Investigations and Security of the Department of Commerce.

F. *Line Authority:* Council members must submit all requests for task performance that they desire to be carried out by the Executive Director or his Staff to the Council Chairman for his approval and transmittal. The Chairman of the Council, or the Vice-Chairman in his absence, are the only ones so designated to exercise line supervision over the Executive Director.

Similarly, the other members of the Executive Staff receive their line supervision solely from the Executive Director. Council members needing assistance from the Staff in the performance of their duties, should clear the availability of personnel and services with the Executive Director.

A. *Standing Committees of Council Members:*

A. *Names:* The Caribbean Fishery Management Council shall establish the following Standing Committees:

- (1) Finance Committee.
- (2) Grievance Committee.

B. Composition:

(1) The Standing Committee on Finance shall be composed of three voting members; provided that Council Chairman shall automatically be a member of this Committee. The remaining two members of said Committee shall be selected by Council vote.

(2) The Grievance Committee shall be composed of three members of the Council (voting and or non-voting) who shall be selected by vote of the Council.

C. *Functions:* The functions of the above Standing Committees are as follows:

(1) *Finance Committee.*—In general, the Finance Committee is to exercise a planning and control function over Council expenditures and the budget. This responsibility extends to the establishment and monitoring of appropriate procedures in the areas of contract award and administration, procurement procedures, property management, and accounting and budgetary control. A report

shall be given by the Finance Committee to the Council quarterly.

(2) *Grievance Committee.*—In general, to hear grievances from public, members, and staff in all matters pertaining to Council functions.

9. Meetings:

A. General:

(1) The Council shall meet at least quarterly at the call of the Chairman of the Council or upon request of a majority of the voting members.

(2) Advisory bodies will meet with the approval of the Council.

(3) The Council shall comply with all the requirements of Pub. L. 92-463 (Federal Advisory Committee Act) and regulations issued by the Secretary of Commerce with respect to the conduct of meeting.

B. *Frequency and Duration:* The Council shall meet in a plenary session at least quarterly, or as needed. The workload of the Council will determine the duration of the Council meeting. Normally, a Council meeting will begin on the third Tuesday of the month at 9:00 a.m.; and end at noon on the following Thursday. However, Council members will be expected to arrive at the location of the meeting on the day before it begins to participate in Committee meetings to review materials for the meeting prepared by the staff.

The Chairman, Vice-Chairman, and other members of the Advisory Panel, and the Scientific and Statistical Committee, as designated by the Council Chairman may attend each plenary meeting.

C. *Location:* The meeting place of the Council should be large enough to accommodate the anticipated public attendance and be easily accessible to those interested in attending. It is desirable that any meeting or hearing conducted under the authority of the Council be held in the particular area of interest within the Council's jurisdiction, consistent with budgetary constraints.

D. *Agenda:* Suggested agenda for all Council meetings should be drawn up by the Executive Director and approved by the Chairman. The Chairman will be assisted in the task by the Vice-Chairman, the Executive Staff, and members of the Council who wish to contribute. The final agenda and supporting documents shall be distributed to the Council members for their review on the day before the meeting begins.

E. *Minutes of Meeting:* Detailed minutes of each meeting must be kept and their accuracy certified by the Executive Director. Suggested minimum contents of such minutes are listed below:

- (1) The time and place of meeting;
- (2) A list of Council or Advisory Panel members, Staff, and others present;
- (3) A complete and informative summary of matters discussed and conclusions reached;
- (4) A listing with copies of all reports and papers received, issued, or approved by the Council or Advisory Panel;

(5) An accounting of any portions of the meeting which were closed to the public;

(6) The names of members of the public who attend, the number or an estimate where a register is impractical or the members of the public decline to be identified;

(7) An explanation of the extent of public participation including a list of those presenting written or oral statements; and

(8) A copy of the agenda.

F. *Authority of the Chair:* All formal meetings will be conducted in accordance with *Robert's Rules of Order*.

10. A. Scientific and Statistical Committee:

(1) *General.*—The Caribbean Fishery Management Council is required to establish and maintain, and appoint the members of a Scientific and Statistical Committee to assist the Council in the development, collection, and evaluation of statistical, biological, economic, social and other scientific information as is relevant to the Council's development or amendment of any fishery management plan.

(2) *Committee name.*—Scientific and Statistical Committee of the Caribbean Fishery Management Council.

(3) *Composition.*—The Committee is a multidisciplinary body composed of scientists knowledgeable in the fisheries to be managed. The members of the Committee and a Chairman and Vice-Chairman are appointed by the Council.

(4) *Function.*—The Scientific and Statistical Committee provides expert scientific and technical advice to the Council on the development of fishery management policy, on the preparation of fishery management plans, and on the effectiveness of such plans once in operation. The Committee aids the Council in identifying scientific resources available for the development of plans, in establishing the objectives of plans, in establishing criteria for judging plan effectiveness, and in the review of plans.

B. Advisory Panel:

(1) *General.*—The Caribbean Fishery Management Council is required to establish such advisory panels as are necessary or appropriate to assist the Council in carrying out the functions of the Act. The Secretary of Commerce is authorized to pay the actual expenses of members of such panels while engaged in the performance of Council business.

(2) *Panel Names.*—The Caribbean Fishery Management Council has, to date, established one General Advisory Panel.

(3) *Composition.*—The composition of the above Advisory Panel is as follows: Sports fishermen, commercial fishermen, divers and fish dealers, and other interested individuals and is established to provide advice to the Council for each Fishery Management Plan developed by the Council or by the Secretary of Commerce. The Advisory Panel is geographically and functionally representative (including consumer representation) of the affected commercial industry and of the

recreational sector of the fishery. These individuals should be knowledgeable of, and interested in the conservation and management of the applicable fishery. Panel should be sufficient in number to permit a balance representation of interests.

(4) *Function.*—The following functions are identified for the Advisory Panel:

(a) The General Advisory Panel provides advice and guidance to the Council. The Panel aids the Council in establishing the goals, objectives, and procedures of the plan during its preparation and review; assists the Council and its other appointed committees and panels in generating the necessary data for the plan via their linkage to the fishing community; assists the Council in developing criteria for judging plan effectiveness; and serves as a communication link between the fishing community and the Council during the monitoring of plan effectiveness.

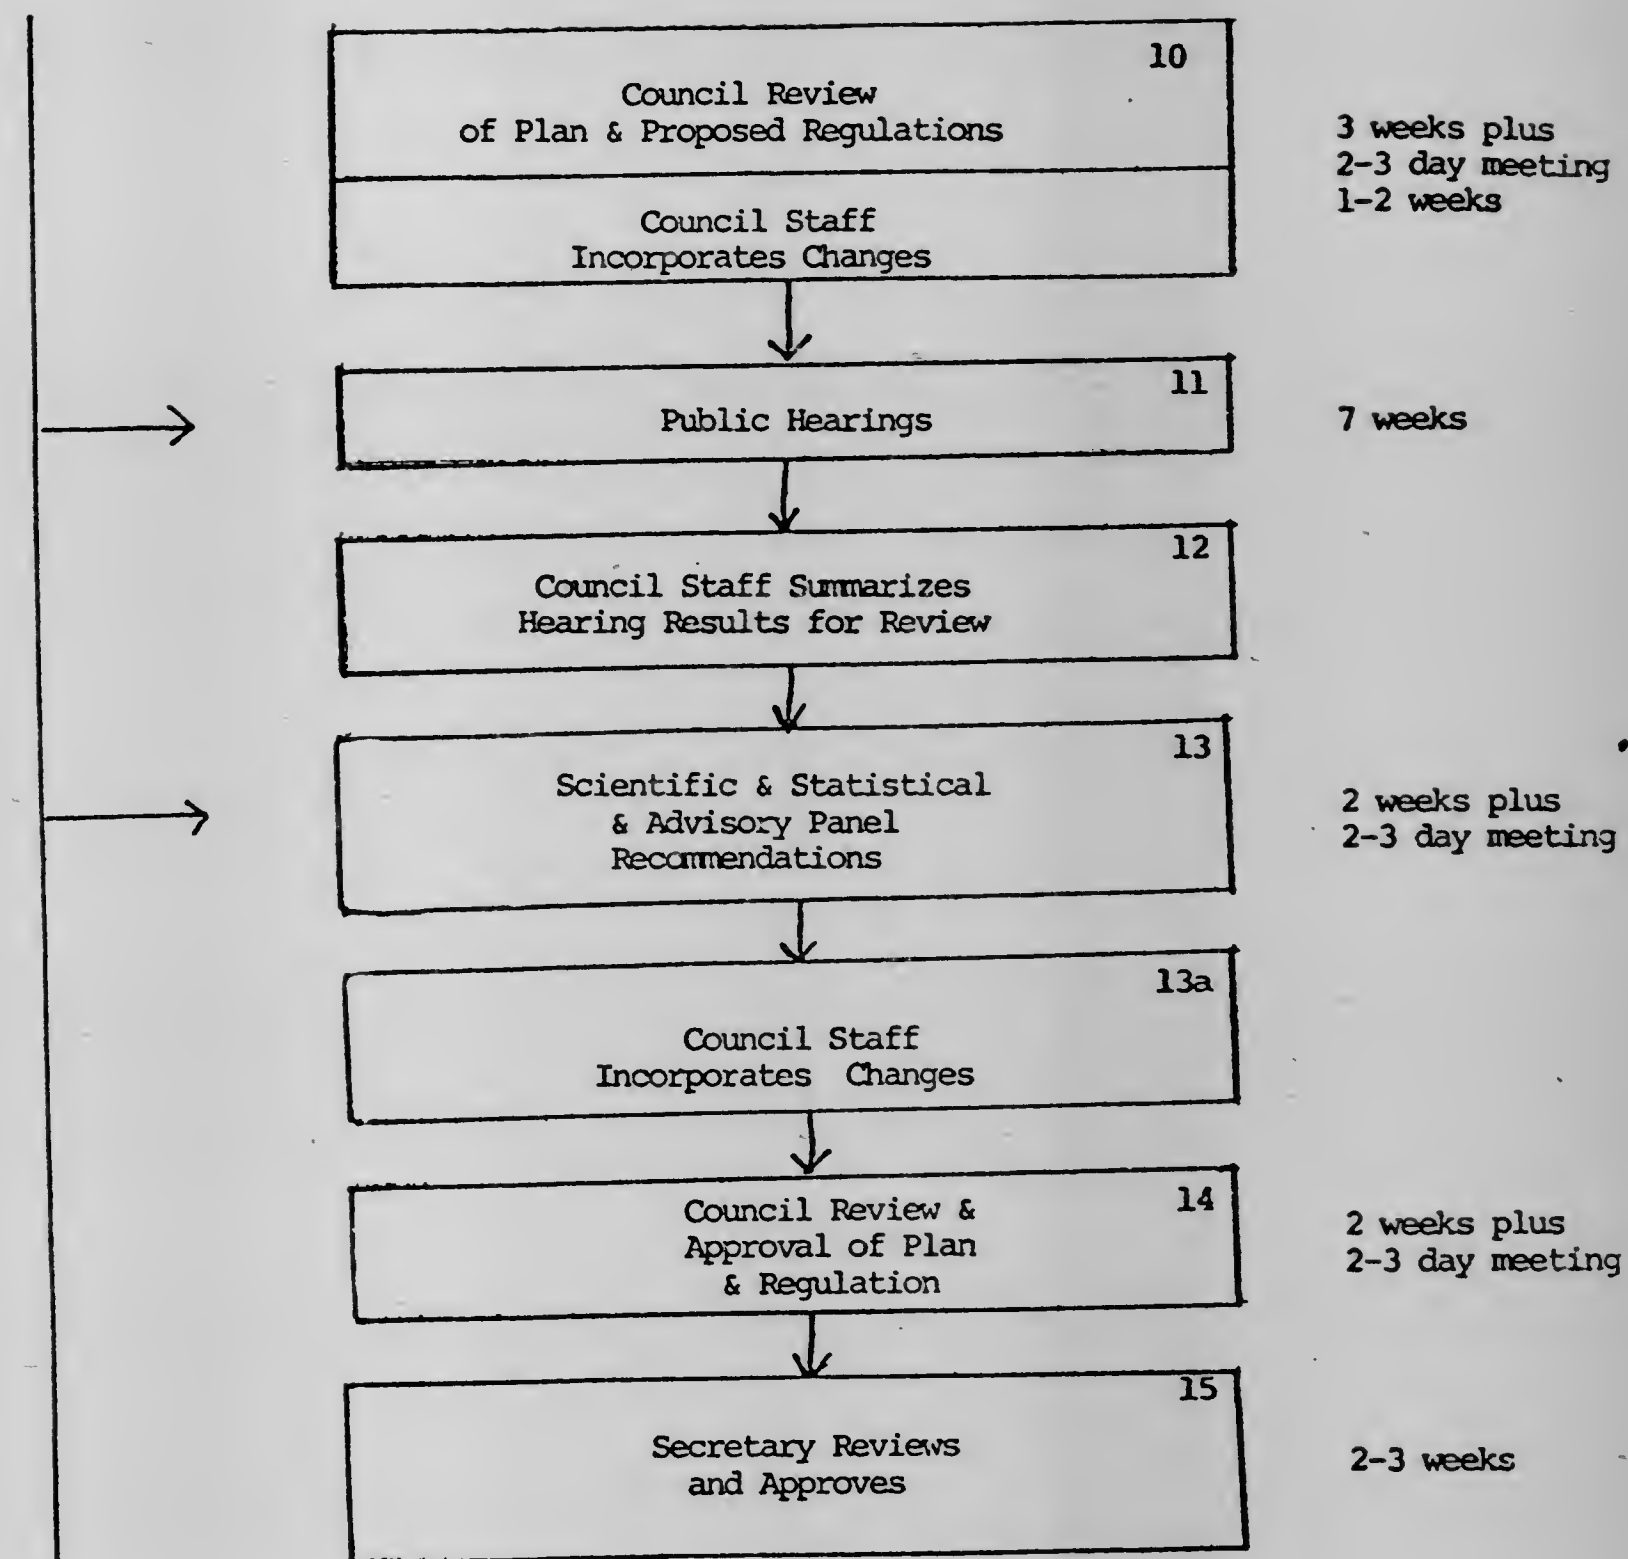

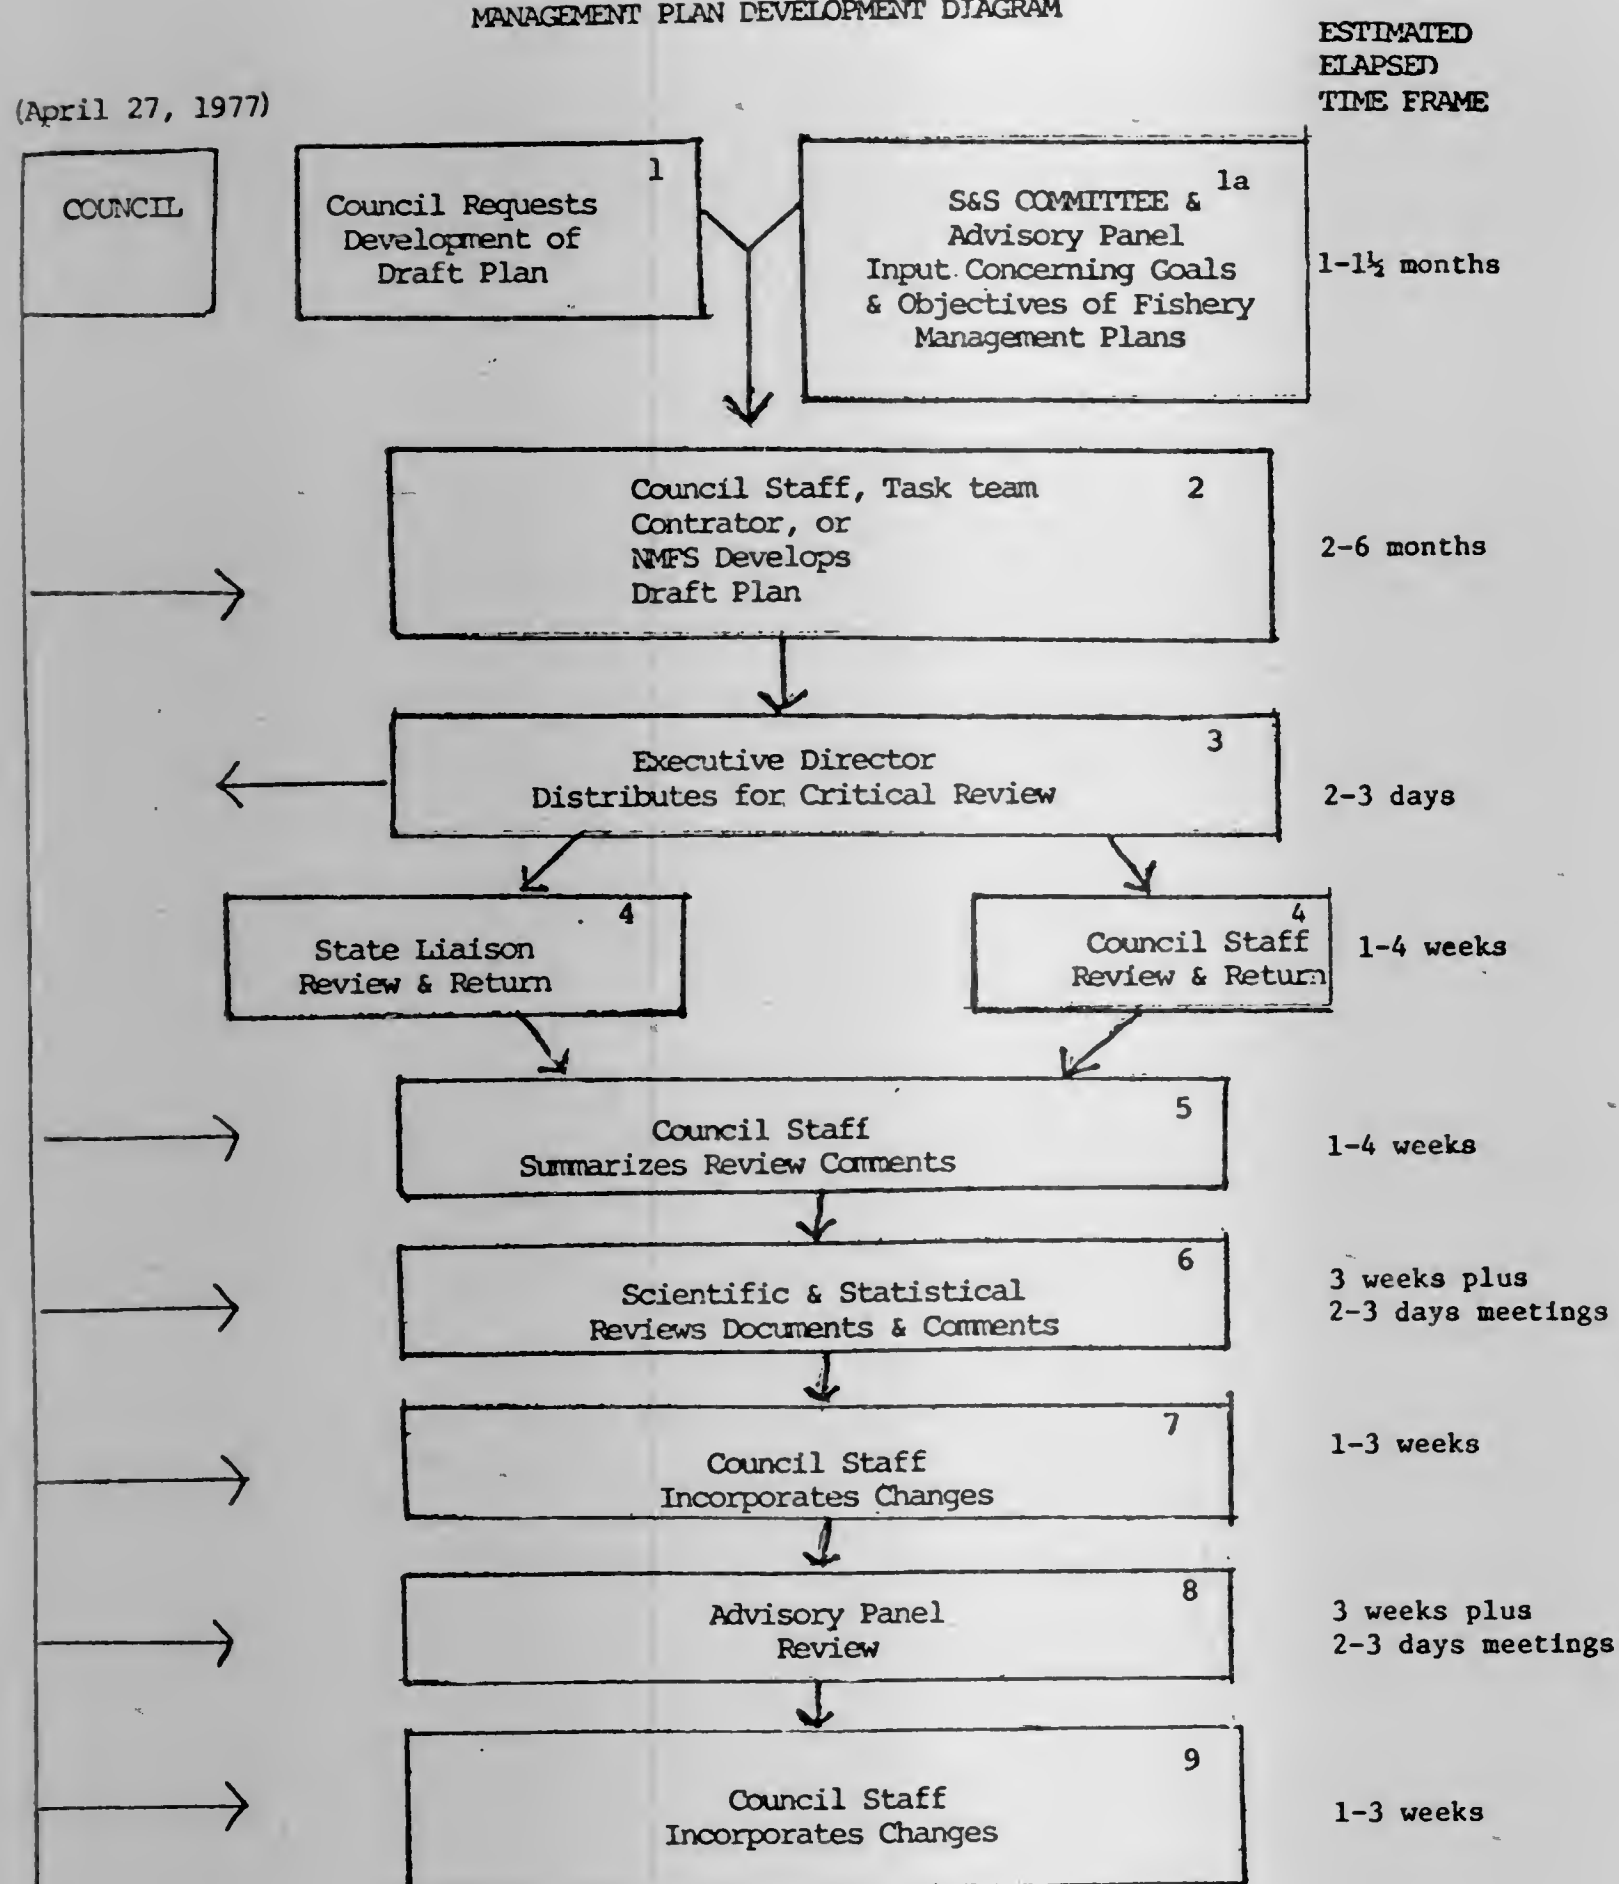

(b) The panel meets in the area encompassed by the Council's constituent States as deemed necessary by the Council. No staff is assigned to these panels, but the staff support may be requested from the Chairman of the Council or the Executive Director.

11. *Organization of Management Plan Development Teams:* Management plan teams will be organized for each fishery management unit identified by the Council. Team members will be selected from State and Federal conservation agencies, universities, and private institutions or individuals known to possess specific knowledge or expertise considered desirable in the preparation of management plans. The Scientific and Statistical Committee will submit to the Council a list of recommended members, participating agencies or institutions, and suggest a lead agency to direct the plan preparation. The Council will confirm the composition of a team and identify the lead agency, individual, or organization. Following formation of the management team and guidance from the Council concerning the general objectives and scheduling of plan preparation, the team will organize the plan and its contents in accordance with a standard outline. Scientific inputs to the plan will be drawn from published reports and papers of participating State and Federal agencies, universities and any other relevant data source, including information derived from oral testimonies. It will be the responsibility of the team leader to insure that the best available data is analyzed and use in drawing up draft plans.

The Team Leader will be responsible for scheduling meetings, typing and reproducing preliminary drafts, coordinating the activities of the team, and distributing tasks among its team members. After the team presents a Draft Fishery Management Plan to the Council, the plan development process will proceed as outlined in the following diagram and explanation.

MANAGEMENT PLAN DEVELOPMENT PROCEDURE

(1) The Council initiates a request for a management plan through the Executive Director. The Council staff prepares detailed documentation on the information requirements of a management plan for each management unit and sets of optional, tentative goals and objectives which are submitted to the Scientific and Statistical Committee and Advisory Panel for review and comment to the Council. The Scientific and Statistical Committee comments to the Council on the data requirements and makes recommendations on the agencies, institutions, or other entities which have the expertise to develop the draft management plan and recommends methods of preparation. The Council reviews, revises and adopts a set of goals and objectives and selects the group who will develop the draft.

(2) The Council authorizes its staff to begin negotiations for a contractual or other agreement with a person or organization to either prepare a plan, or to lead a task team in preparation of the plan. If the task team approach has been designated by the Council, upon the recommendation of the staff, the staff will also recommend a person or organization to act as team leader. A team leader will then recommend to the Council names of other individuals to serve on the team. The Council will have ultimate approval of any contract or other agreement, and of all team members. Consistent with applicable regulations, contracts may be let to individual team members for consulting services. In some fisheries, the Council staff may be utilized to prepare a draft plan. The contractor, staff, or Task Team develops a draft management plan according to requirements of P.L. 94-265, pertinent regulations and the goals and objectives as approved by the Council. This should include a draft environmental assessment, which should be in the form of a draft Environmental Impact Statement. Development of a set of proposed management regulations with optional alternatives may be requested by the Council as appropriate.

(3) The contractor, staff or group(s) completes the plan draft using the format required by the regulations and that for Environmental Impact Statement, and forwards the document to the Council through the Executive Director. The Executive Director distributes copies to the Council Management Committee for each fishery plan, the Council technical staff, and to the state liaison officers with the request for a critical review of the document. Copies are distributed to Council members.

(4) The reviewers are allowed three to four weeks for critical review of the document. The state liaison officers provide particular review emphasis on management applicability and omission of available technical data as well as a general critical review. Staff reviews applicability to requirements of P.L. 94-265 and the interim regulations as well as a general critical review of scientific content.

(5) Review comments are returned to Council staff who summarize them by reference page number and by source. Important omissions and possible errors noted are forwarded to contractor (if any) for comment and clarification. The plan may be revised to include this omitted information and the correction of errors by Council staff. Summarized comments and copies of the plan are forwarded to Scientific and Statistical Committee members three weeks prior to their scheduled meeting. The summarized comments are intended as a time-saving device to aid Scientific and Statistical Committee members in their own review.

(6) Scientific and Statistical Committee reviews draft plan and provides comment to

Council. Representatives from the appropriate Advisory Panel may be invited to participate in the meeting as requested by the staff, the Council, or the Scientific and Statistical Committee.

(7) The Council staff in cooperation with contractor, if any, the Scientific and Statistical Committee members and possibly specific consultants revise the plan considering Scientific and Statistical Committee's comments. The revised document now contains the best available scientific knowledge and is transmitted to members of the Advisory Panel at least three weeks prior to their scheduled meeting along with summarized lists of comments and changes. Council Management Committee reviews document changes.

(8) Advisory Panel reviews document, as amended, and provides comments. Representatives from the Scientific and Statistical Committee may also be invited to participate in the meeting as requested by the staff, the Council or the Advisory Panel. Council Management Committee participates in discussions.

(9) Council staff prepares document for Council review and provides sets of alternative regulations, summarizes all comments and areas of disagreement on scientific or operational aspects and adds draft EIS, if necessary.

(10) Chairman of the Scientific and Statistical Committee and the Advisory Panel advise Council on their review of document content. Council reviews and adopts a revised document and adopts proposed regulations if appropriate. Council staff revises the amended document according to the directives of the Council for public hearings. Appropriate distribution of the revised document will be made for the public hearings.

(11) Public hearings are duly held in appropriate locations. Management Committee members or other Council members designated by the Council Chairman, chair these public hearings.

(12) Council staff forwards a summary of the public hearing results to Scientific and Statistical Committee and Advisory Panels and the Council the weeks prior to scheduled meetings. Copies are also provided to Management Committee members.

(13) The Scientific and Statistical Committee and the Advisory Panel meet jointly, in whole or in part, as directed by the Council Chairman to review public comments and recommend changes in plan or regulations.

NOTE.—If the public hearing comments are such that a review and the development of recommendations by either or both of the Scientific and Statistical Committee and the Advisory Panel are not necessary, then the Council Chairman may direct that some or all members of these bodies meet with the Council and eliminate procedure step 13.

(14) The Council reviews the public comments and recommendations by the Advisory Panel and Scientific and Statistical Committee and instructs staff in revision of the plan. The approved revised plan is transmitted to the Secretary by the staff on instruction by the Council along with proposed regulations, if any.

12. Financial Management System: A financial management system will be maintained which follows the requirements of Office of Management and Budget Circular No. A-110, "Grants and Agreements with Institutions of Higher Education, Hospitals, and other Non-Profit Organizations: Uniform Administrative Regulations."

(1) Standards for code of employment conduct in contract awards and administration will be those in effect in the Federal Government.

(2) Procurement procedures are presented as Appendix "A".

(3) Property Management procedures will conform to Federal standards.

(4) Accounting and budgetary control procedures.

(a) Budgetary procedures will follow those prescribed in the Council Operations Handbook (Appendix D-1) and OMB and NMFS supplemental instructions.

(b) Accounting procedures will conform generally to those specified in Attachment F to OMB Circular A-110 and to the Model Accounting System suggested by the NMFS. The Council will strive to simplify and modify the accounting system as experience dictates such need, keeping in mind that it must include careful recording of transactions in a manner which will provide a clear track for audit both internally and by the Government.

13. Amendment: This statement of Organization, Practices and Procedures shall be adopted by a majority vote of the Council. Any amendment will go into effect upon publication in the FEDERAL REGISTER.

CARIBBEAN FISHERY MANAGEMENT COUNCIL, SUITE 806, BANCO DE PONCE BUILDING, HATO REY, P. R. 00918

STATEMENT OF ORGANIZATION, PRACTICES, AND PROCEDURES

Appendix "A" Procurement Procedures

I. General Provisions:

- .01 Definitions:
- (1) Business
- (2) Change Order
- (3) Construction
- (4) Contract
- (5) Conspicuously
- (6) Confidential Information
- (7) Contract Modification
- (8) Contractor
- (9) Debarment
- (10) Employee
- (11) Financial Interest
- (12) Gratuity
- (13) Immediate Family
- (14) Person
- (15) Procurement
- (16) Purchase Request
- (17) Subcontractor
- (18) Suspension
- (19) Supplies
- .02 Competition
- .03 Purchasing Procedures
- .04 Sources of Supply
- .05 Procurement from Government Sources
- .06 Determination of Need
- .07 Lease vs. Purchase
- .08 Specifications
- .09 Award
- .10 Non-Competitive Practices

II. Formal Advertising:

- .01 Use of Formal Advertising
- .02 Formal Advertising Defined
- .03 Late Bids, Modification of Bids, or Withdrawal of Bids
- .04 Mistakes on Bids
- .05 Rejection of Bids
- .06 Content of Invitation for Bids
- .07 Basis of Selection
- .08 Adequacy of Competition
- .09 Lists and Sources of Supply and Services
- .10 Price Analysis
- .11 Cost Principles and Procedures
- .12 Preaward Surveys

III. Sole Source Procurements:

- .01 Review by Executive Director or his Designee
- .02 Factors
- .03 Approval by NOAA

IV. Award:

- .01 Responsiveness of Bidder
- .02 Responsible Bidder

.03 Sources of Information Regarding Responsibility of Prospective Contractors

V. Contract Types:

- .01 Scope of Section
- .02 Cost Plus Percent of Cost Contracts
- .03 Fixed Price Contracts
- .04 Cost Reimbursement Type Contracts
- .05 Time and Materials and Labor Hour Contracts
- .06 Indefinite Delivery Type Contracts
- .07 Indefinite Quantity Contracts
- .08 Letter Contracts
- .09 Purchase Orders

VI. Contract Administration:

- .01 Responsibility
- .02 Council Staff
- .03 Post-Award Orientation
- .04 Contractor Performance Reports and Request for Payment
- .05 Acceptance of Contract Deliverables
- .06 Delinquencies
- .07 Contract Modification
- .08 Approval Authority
- .09 Processing Contract Modifications
- .10 Constructive Changes
- .11 Contract Termination
- (1) Types of Termination
- (2) Procedures
- .12 Closing Contracts

VII. Protests, Contract Disputes, and Appeals:

- .01 Applicability of Section
- .02 Authority of Executive Director
- .03 Authority of Administrative Officer
- .04 Appeal to Council
- .05 Hearing Before Council
- .06 Bid Protests
- .07 Filing of Protest
- .08 Decision
- .09 Effect of Decision

VIII. Procurement Code of Conduct:

- .01 Statement of Policy
- .02 Conflict of Interest
- .03 Employees and Council Members Not to Benefit
- .04 Gratuities and Kickbacks Illegal
- .05 Covenants Relating to Contingent Fees
- .06 Restriction on Employment of Present and Former Council Employees
- .07 Use of Confidential Information

IX. Negotiated procurements:

I. General Provisions:

- .01 Definitions. The words and terms defined in this section shall have the meanings set forth below, unless (1) the context in which they are used clearly requires a different meaning, or (2) a different definition is prescribed for a particular Section or portion thereof.

(1) Business means any corporation, partnership, joint stock company, joint venture, or any legal entity through which goods or services are provided.

(2) Change Order means a written order signed by the Executive Director directing the contractor to make changes, which the Changes clause of the contract authorizes the Executive Director to order without the consent of the contractor.

(3) Construction means the erection, alteration, or repair of a building, structure, or other improvement to real property.

(4) Contract means all types of agreements and orders for the procurement, or disposal, or supplies, services, construction, or any other item. It includes awards and notices of award; contracts of a fixed price, cost, cost-plus-a-fixed-fee, or incentive types; letter contracts, and purchase orders. It also includes supplemental agreements with respect to any of the foregoing.

(5) Conspicuously means written in such special or distinctive format, print, or manner that a reasonable person against whom it is to operate ought to have noticed it.

(6) Confidential Information means any which is available to an employee only because of his status as an employee and is not a matter of public knowledge or available to the public on request.

(7) Contract Modification means any written alteration on the specification, delivery point, rate of delivery, contract period, price, quantity, or other contract provisions of any existing contract.

(8) Contractor shall mean any person having a contract with the Council.

(9) Debarment means the disqualification of a person to receive invitations to bid or requests for proposals, or the award of a contract by the Council for a specified period of time.

(10) Employee includes any individual drawing a salary from the Council and any nonsalaried or governmental employee performing services for the Council, and members of the Council's Scientific and Statistical Committee and Advisory Panel.

(11) Financial Interest shall mean:

(a) Ownership of any interest or involvement in any relationship from or as a result of which the owner has, within the past three years, received or is presently or in the future entitled to receive more than \$500.00 per year, or

(b) Ownership of more than a 1 percent interest in any business, or

(c) Holding a position in a business such as an officer, director, trustee, partner, employee or the like or holding any position of management.

(12) Gratuity means a payment, loan, subscription, advance, deposit of money, services, offer of employment, or anything of more than nominal value, present or promised, unless consideration of substantially equal or greater value is received.

(13) Immediate Family means a spouse, children, grandchildren, parents, and brothers, sisters, and in-laws.

(14) Person means any business, individual, union, committee, club or other organization or group of people.

(15) Procurement includes purchasing, renting, leasing or otherwise obtaining supplies or services. It also includes all functions that pertain to the obtaining of such supplies, services, and items, including description of requirements, selection and solicitation of sources, preparation and award of contract, and all phases of contract administration.

(16) Purchase Request means a document requesting that a contract be obtained for a described item.

(17) Subcontractor means any business which holds an agreement or purchase order to perform any part of the work or to make or furnish any article or service required for the performance of a Council-funded contract, or subcontract thereunder.

(18) Suspension means the disqualification of any person to receive invitations for bid or requests for proposals, or to be awarded a contract by the Council for a temporary period pending the completion of an investigation, and any legal proceedings that may ensue.

(19) Supplies includes all property except land or interest in land.

.02 Competition. All purchases and contracts except purchases from federal sources shall be made on a competitive basis to the maximum practicable extent. Purchases from non-federal sources shall be made by formal advertising or by negotiation.

.03 Purchasing Procedures. The following procedures are used by the Council for all procurements:

(1) Procurements Over \$2,500.—For procurements of \$2,500 or more the Administrative Officer shall solicit a sufficient number of prospective bidders in accordance with Section II so as to elicit adequate competi-

tive bids, open them simultaneously, and recommend award to the Executive Director of the responsible bidder whose bid is most advantageous to the Council, price and other factors considered.

(2) Procurements Less Than \$2,500.—For procurements ranging in value of less than \$2,500, but of \$500 or more, the Executive Director or his designee shall obtain quotations from at least two vendors and select the vendor whose quotation is most advantageous to the Council, price and other factors considered.

(3) Procurements of Less Than \$500.—Procurements of less than \$500 in value may be made directly by the Executive Director or his designee without quotations or bids.

(4) Records.—A record of all formal and informal quotations on bids shall be maintained by the Executive Director.

.04 Sources of Supply. Irrespective of whether the procurement of supplies or services from nonfederal sources is to be effected by formal advertising or negotiation, competitive proposals ("bids" in the case of procurement by formal advertising, "proposals" in the case of procurement by negotiation) shall be solicited from all such qualified sources as are deemed necessary by the Executive Director or his designee to assure such full and free competition as is consistent with procurement of types of supplies and services necessary to meet the requirements of the Council.

.05 Procurement From Government Sources. Prior to the award of any contract for the purchase of supplies, federal sources which are available to the Council shall be considered and when such sources are most advantageous to the Council's needs, price and other factors considered, the procurement shall be made from federal supply sources. Competitive bids or letters are not required when the procurement list established by the federal sources is based upon a competitive bid procedure.

.06 Determination of Need. When considering the necessity for a procurement, (either goods or services) the Executive Director or his designee shall:

(1) Certify the requirement with respect to need and extent.

(2) Ensure that the procurement is not duplicating work already undertaken by another Council or governmental agency.

(3) Be certain that the task cannot be accomplished by Council personnel.

(4) Determine that the requirement cannot be fulfilled using other available sources.

.07 Lease vs. Purchase. Leasing will be used where it is in the Council's interest. The criteria to be considered in deciding to lease rather than purchase include the following:

(1) The Council requirement is of a short duration, and purchase would be more costly than leasing.

(2) The probability that the equipment will become obsolete and that replacement within a short period will be necessary; and

(3) The equipment is special or technical, and the lessor will provide the equipment, as well as maintenance and repair services, at a lower cost than would otherwise be available to the Council.

Lease versus purchase decisions are based on an economic analysis and the Council's files shall be documented to support the final decision.

.08 Specifications. The work "specification" is a clear and accurate description of the technical requirements for material, product, or service, including the procedure by which it will be determined that the requirements have been met. Specifications for items or materials contain also preservation, packing, and marking requirements.

(1) Use of Federal Specifications. In all purchases of property by the Council, specific-

7
7
U
M
I

cations promulgated by the General Services Administration or the United States Department of Commerce shall be used unless the Executive Director or his designee determines that such specifications are inappropriate for Council purposes.

(2) Use of Council Specifications. In the purchase of services such as consultants or technical advice the Council shall device specifications. Such specifications may be prepared by Council staff, which may seek the recommendations of Advisory Panel, Scientific and Statistical Committee, or other sources selected by the Council.

.09 Award. Unless all bids are rejected, award may be made by the Executive Director or his designee by written notice, within the time for acceptance specified in the bid, to that responsible bidder whose bid on the judgment of the Executive Director, conforms to the invitation for bids and will be most advantageous to the Council, price and other factors considered. Award shall be made by mailing or otherwise furnishing to the successful bidder a properly executed award document or notice of award. All provisions of the invitation for bids, including any acceptable changes or additions made by the bidder in the bid, shall be clearly and accurately set forth in the award document.

.10 Non-Competitive Practices. Non-competitive practices such as possible anti-trust violations and identical bids shall be reported by the Executive Director or his designee according to the procedures set out in Title 41 Code of Federal Regulations, Federal Procurement Regulations; Subpart 1-1.9 and 1-1.16.

II. Formal Advertising:
.01 Use of Formal Advertising. Contract for property and services are made by formal advertising in all cases in which the use of such method is feasible and practicable under the existing conditions and circumstances. Formal advertising is not required when government sources of supply are used, provided the procurement list established by the government source is based upon a competitive bid procedure.

.02 Formal Advertising Defined. Formal advertising means procurement by competitive bids and award. It involves the following basic steps:

(1) Preparation of the Invitation for Bids.—Preparation of the invitation for bids, describing the requirements of the Council clearly, accurately, and completely, but avoiding unnecessarily restrictive specifications or requirements which might unduly limit the number of bidders. The term "invitation for bids" means the complete assembly of related documents furnished prospective bidders for the purpose of bidding.

(2) Publicizing the Invitation for Bids.—In procurement activities using formal advertising the Executive Director or his designee will select the means which will make information available to potential suppliers. Such means may include but are not limited to publication in local trade newspapers and journals and publications in the "Daily Journal of Commerce." When notice is given by publication, the Executive Director or his designee will publish the notice at least 10 days before the issuance of the invitation for bids or requests for proposals.

(3) Receipt and Opening of Bids.—(a) Receipt. All bids received prior to the time set for opening shall be kept unopened in a locked receptacle. If a bid is opened by mistake, the person who opens the bid will immediately sign the envelope and deliver it to the Administrative Officer. The Administrative Officer shall immediately write on the envelope an explanation of the opening, the date and time opened, and sign the statement. No information shall be disclosed prior to the public bid opening.

(b) Opening. The Administrative Officer

shall decide when the set time for bid opening has arrived and shall so declare to those present. All bids received prior to the time set for opening shall then be publicly opened, recorded and when practicable, read aloud to the persons present. If impracticable to read the whole bid, the total amount bid shall be read. Bids may be examined by interested persons but original bids may not be allowed to pass out of the hands of Council employees.

(4) Awarding the Contract. After bids are publicly opened, they shall be tabulated and evaluated by the Administrative Officer and a recommendation shall be made to the Executive Director for award. Award shall be made to that responsible bidder whose bid conforms to the invitation for bids and will be not advantageous to the Council, price and other factors considered and notwithstanding any other provision hereof. However, all contracts for Fishery Management Plan preparation are subject to prior approval by the Council.

.03 Late Bids, Modification of Bids, or Withdrawal of Bids.

(1) Any bid received at the place designated in the solicitation after the exact time specified for receipt will not be considered unless it is received before award is made and either:

(a) It was sent by registered or certified mail not later than the fifth calendar day prior to the date specified for the receipt of bids; or

(b) It was sent by mail or telegram (if authorized) and it is determined by the Executive Director or his designee that the late receipt was due solely to mishandling by the Council staff after receipt in the designated place.

(2) Modification or withdrawal of bids are subject to the same conditions as set out in (a) above.

.04 Mistakes in Bids. Mistakes in bids shall be handled according to the provisions of Title 41, Code of Federal Regulations, Federal Procurement Regulations; part 1-2.5.1-2.406.

.05 Rejection of Bids. Bids may be rejected by the Executive Director or his designee as follows:

(1) Nonconforming Bids.—Any bid which fails to conform to the essential requirements of the invitation for bids shall be rejected as non-responsive.

(2) Debarred or Ineligible Bidders.—Bids received from any person or concern debarred or ineligible shall be rejected.

(3) Rejection of All Bids.—The Executive Director or his designee may reject any and all bids. Each bidder shall be notified of the reason why all bids were rejected.

.06 Content of Invitation for Bids. For supply and service contracts, invitations for bids shall contain the following information if applicable to the procurement involved:

(1) Name and address of Council
(2) Date of issuance
(3) Date, hour, and place of opening
(4) Number of pages
(5) A description of supplies or services to be furnished in sufficient detail to permit full and free competition

(6) The time of delivery or performance
(7) A statement in the invitation that "Bids must set forth full, accurate, and complete information as required by this invitation for bids (including attachments)."

(8) Bid guarantee, performance and payment bond requirements, if any

(9) A requirement that all bids must allow a period for acceptance by the Executive Director or his designee of not less than a minimum period stipulated in the invitation for bids and that bids offering less than the minimum stipulated acceptance period will be rejected.

(10) In the cases where bidders are required to have special technical qualifications due to the complexity of the equipment or service being procured, a statement of such qualification.

(11) Directions for obtaining copies of any documents, such as plans, drawings, and specifications which have been incorporated by reference.

(12) A statement of Council Policy regarding late bids, modification of bids, and withdrawal of bids.

.07 Basis of Selection. Records of formal advertised procurements will reflect the following as a basis of selection.

(1) Adequacy of Competition
(2) Responsiveness of Bidder
(3) Responsibility of Bidder

.08 Adequacy of Competition. Two or more capable sources must be available to assure full and free competition. Two sources are not adequate when there are more sources fully qualified to compete in the area.

.09 Lists and Sources of Supply and Services. Lists of bidders and sources of supply will be maintained by the Council and consulted prior to solicitations. Consideration will be given to the source lists available from the Small Business Administration under their 8-A Minority Set-Aside Program as well as the directories of minority business establishments published by the Department of Commerce, Office of Minority Business Enterprise.

.10 Price Analysis. When bids are received, the Council will conduct price analysis to determine the reasonableness of the bid price. The price analysis consists of an examination and evaluation of the prospective price without evaluating the separate cost elements such as labor, materials, overhead, etc., and proposed profit. Methods of price analysis include:

(1) The comparison of the price quotations submitted when the number of bids is adequate;

(2) The comparison of prior quotations and contract prices with current quotations for the same or similar items or services;

(3) The use of rough yardsticks (such as dollars per man years are specified) to point up apparent gross inconsistencies which should be subjected to greater pricing inquiry;

(4) The comparison of prices in published price lists issued on a competitive basis; and

(5) The comparison of proposed prices with estimates of cost independently developed by Council staff.

.11 Cost Principles and Procedures. Title 41 Code of Federal Regulations, Federal Procurement Regulations; Part 15, serves as a guide for contract cost principles and procedures.

.12 Preaward Surveys. A preaward survey is an evaluation of a prospective contractor's performance capability under the terms of a proposed contract. Such evaluation is used by the Council as an aid in determining responsibility.

The evaluation is accomplished by use of:

(1) Data on hand,

(2) Data from another purchaser such as State and Federal agencies,

(3) On site inspections of facilities to be used for performance of the proposed contract, or

(4) Any other means deemed advisable by the Council.

III. Sole Source Procurements:

.01 Review by Executive Director or his Designee. When a procurement will be non-competitive (i.e., sole source), the Executive Director or his designee shall review the proposed action for assurance that competitive procurement is not feasible. This action includes both examination of the reasons for the procurement being non-competitive

and steps to foster competitive conditions for subsequent procurements.

.02 Factors. Factors considered in approving a sole source procurement include but are not limited to:

(1) What capability does the proposed contractor have that is important to the specific effort and makes him clearly unique in comparison to another contractor in the same general field?

(2) What prior experience of a highly specialized nature does the proposed contractor have that is vital to the proposed effort?

(3) What facilities and equipment does the proposed contractor have that is specialized and vital to the effort?

(4) Does the proposed contractor have a substantial investment of some kind that would have to be duplicated at the Council's expense by another source entering the field?

(5) If schedules are involved, why are they critical and why can the proposed contractor best meet them?

(6) If lack of drawings or specifications is a guiding factor, why is the proposed contractor best able to perform under those conditions? Why are drawings and specifications lacking? What is the leadtime required to get drawings and specifications suitable for completion?

(7) Is the effort to be a continuation of a previous effort performed by the proposed contractor?

(8) Is competition precluded because of the existence of patent rights, copyrights, or secret processes?

(9) Are parts or components being procured as replacement parts in support of equipment especially designed by a manufacturer? Is the data available adequate to assure that another contractor's components will perform the same function in the equipment as those components being replaced?

.03 Approval by NOAA. Prior to the award of a sole source contract in excess of \$5,000, the Executive Director or his designee shall forward this review and justification to the appropriate NOAA Grants Officer for approval as required by OMB Circular A-110.

IV. Award:

.01 Responsiveness of Bidder. To be responsive, a bid should comply in all material respects with the invitation for bids, both as to the method and timeliness of submission and as to the substance of any resulting contract. If the offeror's bid is not in conformance with the invitation for bids, the deficiencies will be documented and the offeror's bid rejected. The determination will reflect the fact

.02 Responsible Bidder. A determination will be made and documented prior to award as to the responsibility of the bidder. This will be included in the procurement file.

A bidder is considered responsible when it has been established that he has the technical capability, financial capacity and manpower required to perform as he has bid. To be responsible an offeror should:

(1) Have adequate financial resources, or the ability to obtain such resources as required during performance of the contract;

(2) Be able to comply with the required or proposed delivery or performance schedule, taking into consideration all existing business commitments;

(3) Have a satisfactory record of performance;

(4) Have a satisfactory record of integrity and business ethics;

(5) Be otherwise qualified and eligible to receive an award under applicable public policy laws and regulations.

.03 Sources of Information Regarding Responsibility of Prospective Contractor. Examples of sources of information which may be used by the Council staff to determine responsibility include:

(1) Lists of debarred, suspended, or ineligible concerns or individuals;

(2) Representations and other information contained in or attached to bids and proposals; replies to questionnaires; financial data such as balance sheets, profit and loss statements, cash forecasts, and financial histories of the contractor and affiliated concerns; current and past production records; personnel records; lists of tools, equipment, and facilities; written statements or commitments concerning financial assistance and subcontracting arrangements; and analysis of operational control procedures. Where it is considered necessary, the Council staff may require prospective contractors to submit statements concerning their ability to meet any of the minimum standards;

(3) Other information existing within the Council's organization, including records on file and knowledge or personnel within the organization;

(4) Other sources such as suppliers, subcontractors, and customers of the prospective contractor; banks and financing institutions; commercial credit agencies; state and Federal Government agencies; purchasing and trade associations; better business bureaus and chambers of commerce; and

(5) The conduct of a preaward survey.

V. Contract Types:

.01 Scope of Section. This section prescribes policies and general principles for determining contract types to be used by the Council. It will serve as a guide for determining the type of contract appropriate for the particular procurement.

.02 Cost-Plus-Percent-Of-Cost Contracts. The cost plus a percentage of cost contract is prohibited by federal law and will not be used by the Council.

.03 Fixed Price Contracts. Fixed price contracts include the firm fixed price contract; the fixed price contract with escalation; and the fixed price contract with incentive. Only the firm fixed price contract and the fixed price contract with escalation can be used as a result of formal advertising. They may also be used in contracts achieved through negotiation where competition is adequate or a state or quasi-public agency is involved.

(1) Firm Fixed Price Contract.—The firm fixed price contract is the type of contract that results from either public advertising procurements with sealed bids or negotiated procurements which have had adequate competition or consideration for the work to be performed by the state or quasi-public agency. The fixed price contract is particularly suitable for construction and for procurements of standard commercial items, modified commercial items, or for items when specifications are reasonably definite. Price competition should exist, and costs should be predictable with reasonable certainty when this type of contract is used.

(2) Fixed Price Contract with Escalation.—When delivery or performance extends over a period of time, a contractor may seek to protect himself against unusual risk by listing a number of circumstances under which his offered price may need adjustment. This type of contract is used in the procurement of items that are directly affected by industry-wide wage rates for example.

(3) Fixed Price Incentive Contract.—An incentive contract is aimed at motivating the contractor to increase his efficiency and reduce his costs while producing the best possible item. A fixed price incentive contract will provide for establishment of the final contract price by application of an agreed upon formula relating profit to total actual contract costs. This type of contract should not be used where there is insufficient cost experience with the item or services being produced and where insufficient competition exists to ensure competitive pricing.

.04 Cost Reimbursement Type Contracts. The cost reimbursement type of contract provides for payment to the contractor of allowable costs incurred in the performance of the contract, to the extent prescribed in the contract. This type of contract establishes an estimate of total cost for the purpose of obligation of funds, and a ceiling reflected by the funds actually obligated which the contractor may not exceed (except at his own risk) without prior approval or subsequent ratification of the buyer. The use of cost-reimbursement type contracts should be documented by a determination that such a method of contracting is likely to be less costly than other methods; or that it is impractical to secure property or services of the kind or quality required without the use of such type of contract.

(1) Cost Contract.—This is the simplest of the cost reimbursement type of contract. Under this type of contract, the contractor receives no fee but the buyer agrees to reimburse the contractor for allowable costs. Cost contracts are usually entered into for work done by educational and other non-profit institutions and would include established indirect costs as determined acceptable for other federal contracts for each such entity.

(2) Cost-Plus-Fixed-Fee Contract.—The cost plus fixed fee contract is a cost reimbursement type of contract which provides for the payment of a fixed fee to the contractor. The fixed fee, once negotiated, does not vary with actual costs, but may be adjusted as a result of any subsequent changes in the work or services to be performed under the contract. This type of contract is appropriate when there is insufficient cost data upon which to base a fixed price.

(3) Cost-Plus-Incentive-Fee Contract.—This contract like the cost-plus-fixed-fee contract, provides for reimbursement of the contractor's allowable costs. But the cost incentive fee contract establishes a fee formula that rewards the contractor for cost underruns and penalizes for cost overruns of the target cost. A target cost, a target fee, a minimum and maximum fee and a fee adjustment formula are set forth in the contract. The target cost is the best estimate of the cost of completing the work. If the contractor's actual costs are less than the target cost, he receives a fee larger than the target fee; if his costs are greater than the target cost, his fee is adjusted downward.

(4) Cost-Plus-Award-Fee Contract.—This is a variation of the Cost-Plus-Incentive-Fee contract and is used in the procurement of technical services such as design, architecture, programming, and engineering when the work to be performed can be defined with sufficient detail at the outset to permit objective grading of the contractor's performance after completion. This type of contract closely resembles the CPIF in function in that each has a minimum and maximum fee between which the contractor receives a return based upon the level of performance achieved.

(5) Variations of Cost, Cost-Plus-Fixed Contracts.—Contracts may be considered by introducing Special Provisions. These provisions include:

(a) A limitation-of-cost provision to protect the Council from the contractor spending more money than authorized by the Contract. Ceilings on maximum contractor cost—at some percentage over the established cost, insuring a limit on the money that the contractor may spend and be reimbursed—could be used to indicate the maximum value of the project to the Council.

(b) A ceiling on overhead rates. Establishing a ceiling on a contractor's overhead, in a cost-reimbursement contract, is considered only after discerning that conditions prevail which warrant such an inclusion in a contract. For example:

- (1) a contractor who is just starting and has not yet established an overhead rate;
- (2) an established contractor who has not previously been

All requirements for a particular item or service, however, must be filled during the life of the contract for the ordering activities shown in the contract. Requirements contracts are used for commercial or modified commercial items which have a recurring demand. The advantages of this type of contract are:

- (1) Flexibility of quantity and delivery schedule;
- (2) orders are placed only after needs arise;
- (3) production lead time is not a factor, since the contractor anticipates demand and stocks the produce in anticipation of calls;
- (4) savings may be realized because of reduction in number of individual purchase actions; and
- (5) prompt availability of items from the vendor permit low-level stockage by the procuring organization.

.07 Indefinite Quantity Contract. This type of contract follows the same form as the previous two types and is used for the same categories of items. In this type contract, the buyer guarantees that he will order an agreed minimum quantity of the product or service during the contract period. In addition, there is a stated maximum quantity that will not be exceeded. Individual orders authorized under the contract may also be limited as to the maximum and minimum quantities.

.08 Letter Contracts. A letter contract is a written preliminary contractual instrument which authorizes immediate commencement of manufacture of supplies, or performance of service, including but not limited to, planning and the procurement of necessary materials. This type of contract is intended to service one essential purpose—to get the contractor started without delay, for in emergencies time may not permit negotiation of a definitive contract.

To protect the buyer's interest, letter contracts normally include agreement:

- (1) That the contractor will commence work without delay;
- (2) As to the extent and method of payment in case of contract termination for convenience or default;
- (3) That the contractor will not incur monetary obligations in excess of the limit set for them in the letter contract;
- (4) As to the anticipated type of definitive contract to be entered into at a later date;
- (5) As to certain definitive contract clauses;
- (6) That the contractor will be obligated to provide price and cost information that can be reasonably expected by the buyer within one month; and
- (7) That the contractor will enter into negotiations promptly and in good faith to arrive at a definitive contract with the buyer.

.09 Purchase Orders. Purchase orders are a simplified form of a definitive contract that normally contains preprinted contractual provisions. They are normally used when supplies or services are bought on a fixed-price basis, and the price does not exceed \$2,500.

VI. Contract Administration:

.01 Responsibility. Contract administration is the responsibility of the Executive Director or his designee. The Executive Director may act for the Council to award, amend or modify a contract or take any action to change a contractual commitment on behalf of the Council. The Executive Director and the Council staff see that administrative functions are performed to achieve the desired results and to protect the Council's interest. The Executive Director is also responsible for maintaining a complete file of documentation related to each contract.

The Executive Director shall designate a member of the Council staff to act as Contract Monitor upon the award of a contract.

.02 Council Staff. The Council staff is responsible for the technical and project managerial aspects of contract administration. They ensure compliance with the technical requirements of the contract, determine the degree and acceptability of progress by the contractor, and when appropriate, certify to such progress by the contractor. All correspondence between the contract monitor and the contractor should be coordinated with the Executive Director and a copy provided for the contract file. Duties of a staff member assigned to monitor a contract include:

- (a) Familiarization with the terms and conditions of the contract in order to assure compliance with the provisions thereof.
- (b) After award, the holding of discussions with the contractor to arrive at a common understanding of individual responsibilities and working arrangements. Such discussions should occur immediately after award and as required throughout the period of the contract performance. Such meetings are not meant to be negotiations of tasks to be performed. Tasks and their scope must be decided during formal contract negotiations prior to award.

(c) The arrangement of a schedule of operation in accordance with the contract requirements and certification, when appropriate, of satisfactory accomplishment on the contractor requests for progress and final payments. Performance reports should show work actually accomplished. The Executive Director should be promptly informed of delays in progress of work and of any problems encountered that may require contract amendments or other administrative action.

(d) Recommending to the Executive Director any proposed changes in specifications, extra work extensions in contract time or any other technical matter arising under the contract.

(e) The initiation and acquisition of approvals that may be necessary for changes in the statement of work requirements which would require a contract modification.

(f) Monitoring to assure that no work authorizations or orders to the contract, either oral or written, are issued unless authorized according to Council policy.

(g) The furnishing of Council material to the contractor as may be provided in the contract and authorized by the Executive Director.

(h) Obtaining and evaluating all technical and progress reports from the contractor required by the contract.

(i) Evaluating contractor progress.

(j) Reviewing the contract at least 90 days prior to scheduled completion date to determine any need for modification or renewal of the contract or extension of performance time. The Executive Director should be notified at least 60 days prior to scheduled completion of a contract if any extension of the contract period will be required or if a need for additional work under the contract is anticipated. The Executive Director should also be notified upon satisfactory completion of work under a contract.

(k) Recommending the disposition of any problems which might arise in the areas of rights in data, patents, Council property, and other subjects addressed in the contract provisions.

(l) Representing the best interests of the Council in all dealings with contractor.

.03 Post-Award Orientation.

(1) Before performance of the contract begins, the Contract Monitor designated by the Executive Director shall call a post-award conference to ensure that the contractor fully understands every contractual provision.

Subjects discussed should include as appropriate:

- (a) The statement of work content to ensure proper interpretation.
- (b) The specifications, when applicable.
- (c) The contractor's plan for the conduct of the contract.
- (d) The contractor's performance reports, content, and dates of submittal.
- (e) The contract provisions which are germane, for example, the key personnel clause, progress payments, etc.
- (f) Council furnished property.

(2) In less complex contracts, a post-award letter may be sufficient. When used, the letter is to identify the Contract Monitor and call attention to the reporting requirements.

.04 Contractor Performance Reports and Requests for Payment. The Contract Monitor should evaluate the contractor's performance at each interval when progress payments or performance reports are due. If the performance has been poor, or the contractor non-responsive, the Contract Monitor should arrange a discussion, in detail, with the contractor concerning performance shortcomings and proposed corrective action. Where contract requirements are not adequately met, final payment should be withheld until corrective action has been taken to the satisfaction of the Executive Director.

.05 Acceptance of Contract Deliverables. It is the Contract Monitor's responsibility to determine that the work is complete and conforms with the technical requirements of the contract. Once formal acceptance has been accomplished, the contractor is normally excused from further performance or correction of unsatisfactory work. The Contract Monitor should provide written notification to the Executive Director when the contract work has been judged complete and technically acceptable.

.06 Delinquencies. When a delinquency appears imminent, prompt action must be taken to protect the Council's rights. In administering a delinquent contract, Council staff should do nothing that might waive the Council's rights to terminate for default. In the event of a delinquency not of a minor nature, the Executive Director may take one of the following actions:

- (1) Extend the contract delivery schedule.
- (2) Terminate the contract for default.
- (3) Terminate the contract for the convenience of the Council.

(4) Terminate the contract on the basis of agreement for a no-cost settlement.

(5) Obtain a written agreement from the Contractor that the Council's consent to continued performance will not operate as a waiver of either its rights to terminate for the existing default, or any other of its rights.

.07 Contract Modification. A contract modification is considered to be any written alteration of contract provisions, i.e., work statement, specification, period of performance, time and rate of delivery, quantity, price, cost, fee, or other provisions of an existing contract whether accomplished in accordance with a contract provision or by mutual actions of the parties to the contract.

.08 Approval Authority. Only the Executive Director has the authority to approve a contract modification.

.09 Processing Contract Modifications. The Contract Monitor is responsible for monitoring the contract and recommending changes in existing contracts. In such capacity, he will generally be responsible for initiating the necessary documents involving technical changes. In preparing the documents, he shall review the statement of work and the applicable specification and then delineate the proposed changes there. The Contract Monitor should also evaluate

whether these proposed changes are within the general scope of the contract or are considered new procurement and set forth the rationale supporting his position. If the Contract Monitor believes the changes to be in the general scope, the proposed changes, recommendations, and rationale are forwarded to the Executive Director for concurrence.

If the modification is adjudged to be "new work" then the minimum standards for competition must be met as set forth in these regulations. New work cannot be added on to existing contracts without the appropriate considerations of procuring through competitive means.

.10 Construction Changes. A construction change occurs when a contractor is caused to react in a manner other than that which the contract requires. For example, a contractor may have painted all of a product blue since no color was specified. The Contract Monitor states that they should be red. The Contractor could claim the cost of the added materials and labor to comply with the directions of the Contract Monitor.

.11 Contract Termination.

(1) Types:

(a) Completion. Most contracts are in force until satisfactory completion, or in the case of cost reimbursement contracts, until other satisfactory results are achieved or the funds allocated for their performance have been exhausted.

(b) Termination for Convenience. The Executive Director may terminate for the convenience of the Council at any time during performance even though the contractor is performing properly; the Contractor assumes this risk under the contract terms, whenever he does business with a federal grantee. When the Council makes use of this right, however, it compensates the contractor for his cost and earned fee or profit for his preparations and for any completed and accepted work that relates to the terminated part of the contract. Termination for convenience would be used in cases where the Council has a change in requirements or a change in funding priority of projects. Other examples would be loss of key contractor scientific or engineering personnel, unsatisfactory progress, or changes in emphasis by the Council.

(c) Termination for Default. The Council may terminate for default when the contractor fails to perform his part of the bargain properly.

(2) Procedures.—Generally, the provisions of the contract will govern procedures to be followed in termination. It is the duty of the Contract Monitor to recommend the termination of a contract to the Executive Director. The Executive Director shall instruct the Contract Monitor in the settlement process with the contractor.

.12 Closing Contracts. Upon completion of the contract work, the Council shall close out the contract as rapidly and as effectively as possible and make final payment to the contractor. To this end, the Executive Director shall ensure that all work is promptly inspected to the extent necessary to determine acceptability. The Executive Director should also call upon the Contract Monitor to determine that the work is complete and conforms with the technical requirements of the contract, and that all items contractually required have been submitted and are acceptable.

VII. Protests, Contract Disputes and Appeals:

.01 Applicability of this Section. This section applies to claims arising out of contracts entered into the Council after the adoption of these rules.

.02 Authority of the Executive Director. The Executive Director is authorized to settle, compromise, pay or otherwise adjust any claim by or against, or any controversy with, a contractor or bidder relating to a contract

entered into by the Council, including a claim or controversy initiated after award of a contract, based on breach of contract, mistake, misrepresentation or other cause for contract modification or rescission. In the event a settlement or compromise involves or could involve adjustments and/or payments aggregating \$10,000 or more, then the Executive Director shall prepare written justification and obtain approval in advance, from the full Council and its legal advisor. When a claim cannot be resolved by mutual agreement, the Executive Director shall promptly issue a decision in writing. A copy of that decision shall be mailed or otherwise furnished to the contractor and shall state the reasons for the action taken on the claim, and shall inform the contractor of his right to administrative relief as provided in this section.

The decision of the Executive Director is final and shall be conclusive unless fraudulent, or the contractor appeals to the Council. If the Executive Director does not issue a written decision within one hundred and twenty (120) days after receipt of a claim, or within such longer period as might be established by the parties to the contract in writing, then the contractor may proceed as if an adverse decision has been received.

.03 Authority of the Administrative Officer. The Administrative Officer is authorized subject to the approval of the Executive Director of any settlement, to negotiate with contractors in order to settle any claim which may arise under a contract entered into by the Council.

.04 Appeal to the Council. The Council has jurisdiction over each controversy arising under, or in connection with, the interpretation, performance or payment of a contract of the Council provided that:

- (a) The contractor has not instituted action over such controversy in court, and
- (b) The contractor has mailed notice to the Council of his election to appeal within 90 days of his receipt of the decision from the Executive Director, or at the contractor's election, within a reasonable time after the Executive Director fails or refuses to issue a decision.

.05 Hearing Before Council. The Council shall hold appeal hearings to the fullest extent possible in an informal, expeditious, and inexpensive manner and shall issue a decision in writing or take other appropriate action on each appeal submitted and shall provide a copy of the decision to the contractor and the Executive Director to be included in the contract file.

.06 Bid Protests. The Council shall have authority to determine protests and other controversies of prospective bidders, bidders or contractors in connection with the solicitation or selection for award of a contract.

.07 Filing of Protest. Any prospective bidder, bidder or contractor who is aggrieved in connection with the solicitation of selection for award of a contract may file a protest with the Council. The protest or notice of other controversy must be filed promptly and in any event within two calendar weeks after such aggrieved person knows or should have known of the facts giving rise thereto. All protests or notices of other controversy must be in writing.

.08 Decision. The Council shall promptly issue a decision in writing and in no event more than thirty (30) calendar days after receipt of such protest or notice of other controversy, unless the parties agree in writing to a longer period. A copy of that decision shall be mailed or otherwise furnished to the aggrieved party and shall state the reasons for the action taken.

.09 Effect of Decision. The decision by the Council shall be final and conclusive.

VIII. Procurement Code of Conduct:

.01 Statement of Policy. It is the policy of the Caribbean Fishery Management Coun-

cil to purchase goods and services needed by the Council in a fair and impartial manner.

Employees and Council members shall discharge their duties and responsibilities in a manner which will inspire confidence in the integrity of the Council. Any effort to realize personal gain through Council activities or employment beyond remuneration provided by the Council, is a violation of a public trust, as is any conduct which would create a justifiable impression in the public that such trust is being violated.

.02 Conflict of Interest. It shall be improper for any employee or Council member to participate directly or indirectly through decision, approval, disapproval, recommendations, preparation of any part of a purchase request, influencing the content of any specification or purchase standard, rendering of advice, investigation, auditing, or otherwise, in any:

- (1) Proceeding or application;
- (2) Request for ruling or other determination;
- (3) Claim or controversy; or
- (4) Other matter pertaining to any contracts, grant, subcontract, or subgrant, and any solicitation or proposal therefor, where to his knowledge there is a financial interest possessed by:

(a) Himself or his immediate family;

(b) A business other than a public agency in which he or a member of his immediate family serves as an officer, director, trustee, partner, or employee; or

(c) Any person or business with whom he or a member of his immediate family is negotiating or has an arrangement concerning prospective employment. Notice of this prohibition shall be conspicuously set forth in every contract, and solicitations therefor.

.03 Employees and Council Members Not to Benefit.—(1) Disclosure of Benefits Received from Contracts. Any employee or Council member who has or obtains any benefit from any contract with a business in which the employee or Council member has a financial interest, shall report such benefit to the full Council. In the event that such employee or Council member knows or should have known of such benefit, and fails to report such benefit to the full Council, he shall be in violation of the ethical standards of this section. However, this provision shall not apply to a contract with a business where the employee's or Council's interest in the business has been placed in an independently managed trust.

(2) Notice. Notice of this prohibition shall be conspicuously set forth in every contract or solicitation therefor.

.04 Gratuities and Kickbacks Illegal.—(1) Gratuities.—It is improper for any person to offer, give or agree to give to any employee or Council member or for any employee or Council member to solicit, demand, accept or agree to accept from another person, anything of a pecuniary value for or because of:

- (a) An official action taken or to be taken, or which could be taken; or
- (b) A legal duty violated or to be violated, or which could be violated by such employee or former employee.

(2) Kickbacks. It is improper for any payment, gratuity, or benefit to be made by or on behalf of a subcontractor under a contract to the prime contractor or higher tier subcontractor or any person associated therewith as an inducement for the award of a subcontract or order.

(3) Notice. The prohibition against gratuities and kickbacks shall be conspicuously set forth in every contract, and solicitations therefor.

.05 Covenant Relating to Contingent Fees.—(1) Representation of Contractor. Every person, before being awarded a contract with this Council, shall represent that

he has not retained a person to solicit or secure the contract with this Council upon an agreement or understanding for a commission, percentage, brokerage or contingent fee, excepting for bona fide employees or bona fide established commercial selling agencies maintained by the person so representing for the purpose of securing business or an attorney rendering professional legal services, employed, consistent with applicable canons of ethics.

(2) *Intentional Violation Unlawful.* The intentional violation of the representation specified in Subparagraph (a) above is cause for termination of a contract.

(3) *Notice.* The representation prescribed in Subparagraph (a) shall be conspicuously set forth in all contracts, and solicitations therefor.

(6) *Restriction on Employment of Present and Former Council Employees.*

(1) *Contemporaneous Employment Prohibited.* It shall be improper for any Council employee or member to become or be an employee of a party contracting with the Council, while in the service of the Council. Notice of this provision shall be conspicuously set forth in every contract, and solicitations therefor. This provision may be waived by the Council to allow a member of the Scientific and Statistical Committee or the Advisory Panel to participate as an individual consultant on a task team preparing a draft Fishery Management Plan.

(b) *Disqualification of Former Employees in Matters Connected with Former Duties.*

(1) *Permanent Disqualification of Former Employees.* For a period of two years after Council employment, it shall be improper for a former employee to knowingly act as agent or attorney for anyone other than the Council in connection with any judicial or other proceeding, application, request for a ruling, or other determination, contract, grant, claim, controversy, charge, or other particular matter involving a contract where the Council is a party or has a direct and substantial interest and in which he participated personally and substantially as an employee, through decision, approval, disapproval, recommendation, the rendering of advice, investigation, or otherwise while so employed.

(2) *Post-Employment Restriction on Representation.* It shall be improper for a person having been an employee of the Council, within one year after his employment has ceased, to appear personally before the Council or its committees or membership in connection with any proceeding application, claim, request or other particular matter involving a contract where the Council is a party or directly and substantially interested and which was under his official responsibility as an employee, or member of the Council at any time within a period of one year prior to the termination of such responsibility.

The term "Official responsibility" as used herein, means the direct administrative or operating authority whether intermediate or final, and either exercisable alone or with others, and either personally or through subordinate to approve, disapprove, or otherwise direct Council actions.

(3) *Disqualification of Partners.* It shall be unlawful for a person, being a partner of an employee, Council member, former employee or former Council member, to act as agent or attorney for anyone other than the Council, in connection with any judicial or other proceeding, application, request for a ruling or other determination, contract, grant, claim, controversy, charge, or other

particular matter involving a contract where the Council is a party or has a direct substantial interest and in which such employee or Council member participates or has participated personally and substantially as a Council employee or member through decision, approval, disapproval, recommendation, the rendering of advice, investigation, or otherwise, or which is or was the subject of his official responsibility.

(7) *Use of Confidential Information.*—It shall be improper for any employee, Council member, former employee, or former Council member of this Council to use confidential information for his actual or anticipated personal gain, or the actual or anticipated personal gain of any other person.

IX. *Negotiated Procurements:* Procurements may be negotiated if it is impracticable and unfeasible to use formal advertising. Generally, procurements may be negotiated by the Council through the Executive Director if:

(1) The public exigency will not permit the delay incident to advertising;

(2) The material or service to be procured is available from only one person or firm (sole-source);

(3) The aggregate amount does not exceed \$10,000;

(4) The contract is for personal or professional services or for any service to be rendered by a state or quasi-public agency including a university, college, or other educational institution;

(5) The material or services are to be procured and used outside the limits of the United States and its possessions;

(6) No acceptable bids have been received after formal advertising;

(7) The purchases are for highly perishable materials or medical supplies, for material or services where the prices are established by law, for technical items or equipment requiring standardization and interchangeability of parts with existing equipment, for experimental, developmental, or research work, for supplies purchased for authorized resale, or for technical or specialized supplies requiring substantial initial investment for manufacture; or

(8) The procurements are otherwise authorized by law, rules, or regulations.

Notwithstanding the existence of circumstances justifying negotiations, competition shall be obtained to the maximum extent practicable.

SEA GRANT REVIEW PANEL Partially Closed Meeting

The Sea Grant Review Panel will meet on October 26 and 27, 1977 from 9 a.m. to 5 p.m. each day, in the I.G.P.P. Conference Room, Scripps Institution of Oceanography, University of California at San Diego, La Jolla, Calif.

The Panel was established in December 1976 under Section 209 of the National Sea Grant Program Act (Public Law 94-461), and advises the Secretary of Commerce with respect to:

(a) Applications or proposals for, and performance under, grants and contracts awarded under Sections 205 and 206 of the Act;

(b) The Sea Grant Fellowship Program, established under Section 208 of the Act;

(c) The designation and operation of Sea Grant Colleges and Sea Grant Regional Consortia, (which are provided for in Section 207 of the Act) and the operation of Sea Grant programs;

(d) The formulation and application of the planning guidelines and priorities established by the Secretary under Section 204(2) of the Act and applied by the Director in accordance with Section 204(c)(1); and

(e) Such other matters as the Secretary refers to the Panel for review and advice.

The Panel's meeting agenda is as follows:

OCTOBER 26, 1977: (9 A.M. TO 5 P.M.)

9 a.m. Preliminary Remarks and Discussion of Agenda.

9:15 a.m. A. Presentation by University of California.

11 a.m. B. Institutional and Coherent Area Program Discussion. University of Georgia, University of Alaska, University of Maryland, Virginia Institute of Marine Science, University of Maine/University of New Hampshire, State University System of Florida, Mississippi-Alabama Sea Grant Consortium, University of Washington, University of North Carolina, State University of New York/Cornell.

C. Sea Grant College Candidates Discussion. The following universities are eligible on the basis of time to be considered for designation as Sea Grant Colleges: University of Southern California, Louisiana State University, University of Georgia.

4 p.m. D. Closed Session Discussion regarding Agenda Items B and C.

5 p.m. Recess.

OCTOBER 27, 1977: (9 A.M. TO 5 P.M.)

9 a.m. E. Discussion of guidelines and plans respecting National Projects, International Projects and Fellowships.

F. Discussion of two-year grant cycle, steps taken to implement, and proposed method of operation.

G. Sea Grant record and future role with respect to Equal Employment Opportunity.

H. Discussion with Sea Grant Directors.

5 p.m. Adjourn.

All agenda items will be open to public attendance, except for Agenda Item D, a one hour portion at the end of the discussion of all institutions under Agenda Items B and C, in accordance with 5 U.S.C. 552b(c)(6), as determined by the Assistant Secretary for Administration, pursuant to subsection 10(d) of the Federal Advisory Committee Act (Public Law 92-463) as amended. Approximately twenty seats will be available to the public on a first-come, first-served basis. If time permits before the scheduled adjournment, the Chairman will solicit oral comments by the attendees. Written statements may be submitted at any time before or after the meeting.

Minutes of the meeting will be available 30 days thereafter on written request addressed to the National Sea Grant Program, 3300 Whitehaven Street NW., Washington, D.C. 20235.

FOR FURTHER INFORMATION CONTACT:

Dr. Hugh J. McLellan, Acting Associate Director for Programs, at above address. Telephone 202-634-4019.

Dated: October 7, 1977.

R. L. CARNAHAN,
Acting Assistant Administrator
for Administration, National
Oceanic and Atmospheric
Administration.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

CERTAIN MAN-MADE FIBER TEXTILE PRODUCTS FROM MEXICO

Increasing Import Restraint Levels

OCTOBER 7, 1977.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Increasing the levels of restraint applicable to Category 225 (body supporting garments) and Category 2338 (trousers, not knit) to account for unused carryforward granted during the agreement year which began on May 1, 1976.

SUMMARY: Paragraph 7(a)(ii) of the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of May 12, 1975, as amended, between the Governments of the United States and Mexico provides for the application of carryforward to certain specific category ceilings. Carryforward is an amount borrowed from the level of restraint applicable to the affected category in the succeeding agreement year and is deducted from that year's level. The purpose of this notice is to advise that the levels of restraint established for Categories 225 and 238 during the agreement year which began on May 1, 1977 are being increased by increments of carryforward granted in those categories last year, but not used. The current year levels for both categories reflect reductions for the full amount of the carryforward.

EFFECTIVE DATE: October 7, 1977.

FOR FURTHER INFORMATION CONTACT:

Donald R. Foote, International Trade Specialist, Office of Textiles, U.S. Department of Commerce, Washington, D.C. 20230 (202-377-5423).

SUPPLEMENTARY INFORMATION: On April 27, 1977, a letter, dated April 22, 1977, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs was published in the FEDERAL REGISTER (42 FR 21506), which established the levels of restraint applicable to certain specific categories of man-made fiber textile products, produced or manufactured in Mexico and exported to the United States during the twelve-month period which began on May 1,

1977 and extends through April 30, 1978.

The notice which accompanied the letter, also dated April 22, 1977, stated that the levels of restraint established for Categories 225 and 238 had been reduced to account for carry-forward applied to those categories during the agreement year which began on May 1, 1976.

In the letter published below the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs to increase the levels of restraint established for Categories 225 and 238 to the designated amounts.

ROBERT E. SHEPHERD,
Chairman, Committee for the
Implementation of Textile
Agreements, and Deputy As-
sistant Secretary for Re-
sources and Trade Assistance.

COMMITTEE FOR THE IMPLEMENTATION OF
TEXTILE AGREEMENTS

OCTOBER 7, 1977.

Commissioner of Customs,
Department of the Treasury,
Washington, D.C.

Dear Mr. Commissioner: On April 22, 1977, the Chairman, Committee for the Implementation of Textile Agreements, directed you to prohibit entry of man-made fiber textile products in certain specified categories, produced or manufactured in Mexico and exported to the United States during the agreement year which began on May 1, 1977 in excess of designated levels of restraint. The Chairman further advised you that the levels of restraint are subject to adjustment.

Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, pursuant to paragraph 7(a)(ii) of the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of May 12, 1975, as amended, between the Governments of the United States and Mexico, and in accordance with the provisions of Executive Order 11651 of March 5, 1972, you are directed to amend, effective on October 7, 1977, the levels of restraint established in the directive of April 22, 1977 for man-made fiber textile products in Categories 225 and 238 to the following amounts:

Category:	Amended 12-month level of restraint ¹
225 -----dozen-----	2,200,787
238 -----do-----	958,495

¹ The levels of restraint have not been adjusted to reflect any entries after April 30, 1977.

² The actions taken with respect to the Government of Mexico and with respect to

³ The term "adjustment" refers to those provisions of the Bilateral Cotton Wool and Man-Made Fiber Textile Agreement of May 12, 1975 as amended between the Governments of the United States and Mexico, which provide, in part, that: (1) Within the aggregate and applicable group limits, specific levels of restraints may be exceeded by designated percentages; (2) these levels may be increased for carryover and carryforward up to 11 percent of the applicable category limit; (3) consultation levels may be increased within the aggregate and applicable group limits upon agreement between the two governments; and (4) administrative arrangements or adjustments may be made to resolve minor problems arising in the implementation of the agreement.

imports of man-made fiber textile products from Mexico have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

ROBERT E. SHEPHERD,
Chairman, Committee for the
Implementation of Textile
Agreements, and Deputy As-
sistant Secretary for Re-
sources and Trade Assist-
ance.

CONSUMER PRODUCT SAFETY COMMISSION

NATIONAL ADVISORY COMMITTEE FOR THE FLAMMABLE FABRICS ACT

Meeting

AGENCY: Consumer Product Safety Commission.

ACTION: Notice of Meeting: National Advisory Committee for the Flammable Fabrics Act.

SUMMARY: This notice announces a meeting of the National Advisory Committee on Monday, October 31, 1977 from 10:30 a.m. to 4 p.m., and Tuesday, November 1, 1977 from 9:30 a.m. to 4 p.m. The meeting on October 31 will be held at the National Bureau of Standards (NBS) in Gaithersburg, Maryland. On November 1, the meeting will be held in the 3rd Floor Conference Room, 1111 18th Street NW., Washington, D.C.

CONTACT PERSON FOR ADDITIONAL INFORMATION:

Dee Wilson, Assistant Secretary, Office of the Secretary, Suite 300, 1111 18th Street NW., Washington, D.C. 20207 (202-634-7700).

SUPPLEMENTARY INFORMATION: The National Advisory Committee provides advice and recommendations on Commission proposals and plans to reduce the frequency and severity of burn injuries involving flammable fabrics.

The meeting on Monday, October 31 will be devoted to an orientation session primarily for the benefit of new committee members combined with a tour of the NBS fire facilities with emphasis on textile flammability. On Tuesday, November 1, the following topics are scheduled for discussion: options for CPSC activities in the collection of fire/burn injury data; proposed amendments to children's sleepwear standard; and possible revisions in the draft upholstered furniture standard.

The meeting is open to the public; however, space is limited. Persons who wish to make oral or written presentations to the National Advisory Commit-

tee should notify the Office of the Secretary (see address above) by October 24, 1977. The notification should list the name of the individual who will make the presentation, the person, company, group or industry on whose behalf the presentation will be made, the subject matter, and the approximate time requested. Time permitting, these presentations and other statements from the audience to members of the committee may be allowed by the presiding officer.

Dated: October 7, 1977.

SADYE E. DUNN,
Deputy Secretary.

DEPARTMENT OF DEFENSE

Department of the Army ARMY SCIENTIFIC ADVISORY PANEL Partially Closed Meeting

In accordance with Section 10 of the Federal Advisory Committee Act (Pub. L. 92-463), the following meeting is announced:

Name of committee: Army Scientific Advisory Panel.
Date: October 31-November 1, 1977.
Place: The U.S. Army Armament Research and Development Command, Picatinny Arsenal, N.J.

MONDAY, OCTOBER 31, 1977

Agenda:
(0830-0900 hours) Open session. Chairman's welcome, Commander's welcome and Command briefing.
(0840-1700) Closed session. Presentation and discussions on "Combat Developments."

TUESDAY, NOVEMBER 1, 1977

(0830-0900) Open session. Systems Engineering presentation and discussion.
(0900-1500 hours) Closed session.
Panel Meeting: Ad Hoc Group Chairmen reports with Panel discussions on electronic warfare/intelligence, command and control, nuclear protection, and technology.

The presentations and discussions scheduled for 0900-1500 hours, October 31, will cover combat development activities which are classified in the interest of national defense. The 0900-1500 hours, November 1, panel meeting is for receiving and discussing reports containing classified material, inseparable portions of which are also classified in the interest of national defense. Therefore, under the provisions of exemptions contained in Section 552b(c) (1), Title 5, U.S.C., these portions are closed to the public.

The 0830-0900, October 31, and November 1, portions of the meeting will be open to the public. Any additional information concerning the meeting may be obtained from Dr. Marvin E. Lasser, Chief Scientist, Department of the Army, Executive Director, Army Scientific Advisory Panel, Washington, D.C. 20310, (202) 695-1447.

MARVIN E. LASSER,
Executive Director.

[3810-70]

Office of the Secretary DEFENSE SCIENCE BOARD TASK FORCE ON NATIONAL/TACTICAL INTERFACE Advisory Committee Meeting

The Defense Science Board Task Force on National/Tactical Interface will meet in closed session on November 3 and 4, 1977 in the Office of the Assistant Secretary of Defense (Communications, Command, Control, and Intelligence), Di-

rectorate of Surveillance and Warning Systems, at the Pentagon.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Director of Defense Research and Engineering on overall research and engineering policy and to provide long-range guidance to the Department of Defense in these areas.

The Task Force will provide an analysis of the major issues concerning the interface between national and tactical intelligence systems and their potential for satisfying the requirements of tactical/theater military commanders and those of national authorities and agencies.

In accordance with Section 10(d) of Appendix I, Title 5, United States Code, it has been determined that this Task Force meeting concerns matters listed in Section 552b(c) of Title 5 of the United States Code, specifically subparagraph (1) thereof, and that accordingly this meeting will be closed to the public.

MAURICE W. ROCHE,
Director, Correspondence and
Directives OASD (Comptrol-
ler).

OCTOBER 7, 1977.

[6170-01]

DEPARTMENT OF ENERGY FUEL OIL MARKETING ADVISORY COMMITTEE SUBCOMMITTEE Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given that an ad hoc subcommittee of the Fuel Oil Marketing Advisory Committee will hold meetings in accordance with the schedule set forth below.

Concern has been expressed that a problem exists in the heating oil jobber trade which currently manifests itself in a growing number of bankruptcies and other terminations of these businesses. The effect may be particularly acute among the smaller heating oil jobbers/retailers. The objective of the subcommittee is to conduct a study and make recommendations to the parent Committee concerning the relative competitive viability of marketers of heating oil. Some of the matters the subcommittee will be analyzing are: number of heating oil jobbers/retailers; the attrition rate of jobbers/retailers; and the factors that have caused problems concerning discounts, cash flow, and supplier jobber/retailer relationships.

Meetings will be held as follows:

Monday, October 17, 1977, 1:30 p.m., Room 2105, 2000 M Street NW., Washington, D.C.
Tuesday, November 1, 1977, 10 a.m., Cottonwood Room, Hyatt Regency, 1200 Louisiana Avenue, Houston, Tex.

Friday, November 18, 1977, 10 a.m., Room 2105, 2000 M Street NW., Washington, D.C.
Tuesday, November 29, 1977, 10 a.m., Studio 6, Barlizon Plaza Hotel, 106 Central Park, South, New York, N.Y.
Sunday, December 4, 1977, 1:30 p.m., Green Room, Fairmont Hotel, Atop Nob Hill, San Francisco, Calif.

It is imperative that a study of the situation be completed prior to the onset of the peak heating season. Accordingly, less than the normal 15-day notice is being given for the initial subcommittee meeting due to the urgency of completing the study in time to make recommendations to the parent Committee at their December 5, 1977 meeting and to submit the final report to the Deputy Secretary, Department of Energy, by December 20, 1977.

The meetings are open to the public. The Chairman is empowered to conduct the meetings in a manner that in his judgment will facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the subcommittee will be permitted to do so, either before or after the meetings. Members of the public who wish to make oral statements should inform Georgia Hildreth, Advisory Committee Management Office (202) 566-9996 and reasonable provision will be made for their appearance on the agenda.

The transcripts of the meetings will be available for public review and copying at the Freedom of Information Public Reading Room, Room 2107, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. Any person may purchase a copy of the transcript from the reporter.

Issued at Washington, D.C., on October 7, 1977.

WILLIAM S. HEFFELFINGER,
Director of Administration.

[6170-01]

Economic Regulatory Administration [FPC Doc. No. CP74-160, et al.]

PACIFIC INDONESIA LNG CO., ET AL. Oral Argument and Intent To Act on Proposal to Import Liquefied Natural Gas Into United States From Indonesia

On November 30, 1973, Pacific Indonesia LNG Co. (Pac Indonesia), filed with the Federal Power Commission (the FPC), an application pursuant to Section 3 of the Natural Gas Act for authority to import liquefied natural gas (LNG) into the United States from the Republic of Indonesia. Subsequently, Pac Indonesia, Western LNG Terminal Associates (Terminal Associates) and related companies filed various applications with the Commission, pursuant to Section 7 of the Natural Gas Act, to construct, own, and operate facilities for

the receipt, storage, and regasification of the LNG at Oxnard, Point Conception and/or Los Angeles on the coast of California and to deliver the resulting volumes of natural gas to customers within the State of California.

The FPC consolidated all of these various proceedings and allowed intervenors in any one of them to intervene in the consolidated proceeding. Hearings began on December 16, 1975, and were concluded on February 25, 1977. Judge Samuel Z. Gordon issued an initial decision on July 22, 1977, in which he approved, subject to conditions, the applications as amended of Pac Indonesia and Terminal Associates under Section 3 of the Natural Gas Act. All briefs on exceptions and opposing exceptions to the initial decision were filed with the FPC by September 16, 1977, so that as of October 1, 1977, the case was ripe for final action.

On October 1, however, the Department of Energy (DOE) was activated pursuant to Executive Order No. 12009, September 13, 1977 (42 FR 46267) and the function to approve natural gas importation under Section 3 of the Natural Gas Act was automatically transferred to and vested in the Secretary of Energy pursuant to sections 301 and 402(f) of the Department of Energy Organization Act (Pub. L. 95-91) (the Act). The Secretary immediately delegated to the Federal Energy Regulatory Commission (FERC) the authority to carry out this function with respect to pending cases assigned to FERC by rule (DOE Delegation Order No. 0204-1, para. 11, October 1, 1977). By a DOE Final Rule issued October 1, 1977, entitled "Transfer of Proceedings to the Secretary of Energy and the Federal Energy Regulatory Commission," this proceeding was to continue in effect under FERC jurisdiction until the forwarding of the record to the Secretary. The Final Rule requires FERC to forward the record of certain named proceedings, including PAC Indonesia, after the timely filing of all briefs on and opposing exceptions to the initial decision of the presiding Administrative Law Judge. On October 5, 1977, the record was forwarded in compliance with the Final Rule. Pursuant to paragraph 6 of DOE Delegation Order No. 0204-4, issued October 1, 1977, the Secretary has delegated the authority to issue a final order in this proceeding to the Administrator of the Economic Regulatory Administration (ERA).

The ERA is aware that the natural gas proceedings, including PAC Indonesia, and Pertamina, the state-owned oil and gas company of the Republic of Indonesia, contains provisions allowing termination or renegotiation of the contract if appropriate U.S. import authorizations are not obtained by October 6, 1977. However, in view of the recent transfers and delegations just detailed, the size and complexity of the record (there are more than 4,500 transcript pages and 200 exhibits) and the importance of the issues involved and their relation to na-

tional energy policy, additional time beyond October 6 is necessary and required by the public interest to issue a final order in this proceeding. It is my intention to issue such a final order in this proceeding, including pending motions, thirty (30) days from the conclusion of the oral argument next discussed.

I hereby give notice that the ERA will hear oral argument in this proceeding, to be held at Room 323, U.S. Courthouse, 312 North Spring Street, Los Angeles, Calif., on October 20, 1977, commencing at 9 a.m., and to continue the following day at the same time and location if necessary. All parties to this proceeding are invited to participate, and may present argument on any issue in this proceeding. The Administrator is particularly interested in argument on the following issues:

(1) The legal and practical relationship of Federal responsibilities over LNG terminal facility siting under the Natural Gas Act to State responsibilities in this area; and

(2) Whether it would be appropriate to achieve a coordinated Federal-State decision on the site-specific issue pursuant to the joint board procedure contained in Section 17 of the Natural Gas Act or some analogous procedure.

Persons who wish to participate in the oral argument must send or bring notice thereof to the Office of the Executive Secretariat, Department of Energy, Box No. QA, Room 3317, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461, on or before October 14, 1977. This notice should indicate the issues which will be addressed, the argument time desired, and a person (with address and phone number) to accept ERA notification of the grant of argument time and the allotted time for argument. ERA will provide this notification by October 19, 1977.

ERA reserves the right to restrict the number of persons to be heard and to establish the procedures governing the conduct of the argument. Argument may be limited, based on the number of persons requesting argument time and the amount of time sought. The Administrator of ERA will be the presiding official at this argument and will determine, and announce at the commencement of the argument, further procedural rules. A transcript of the argument will be made and may be purchased from the official reporter.

For further information concerning procedures for oral argument, contact Robert C. Gillette, 2000 M Street NW., Room 2214B, Washington, D.C. 20461, or telephone 202-254-5201.

DAVID J. BARDIN,
Acting Administrator, Economic Regulatory Administration.

OCTOBER 6, 1977.

**PERUSAHAAN PERTAMBANGAN
MINYAK DAN GAS BUMI NEGARA**

Petition For Declaratory Order Authorizing
Importation of Natural Gas

AGENCY: Department of Energy, Eco-
nomic Regulatory Administration.

ACTION: Notice.

FURTHER INFORMATION:

Robert C. Gillette, 2000 M Street NW.,
Room 2214B, Washington, D.C. 20461.
(202-254-5201).

Notice is hereby given that on Octo-
ber 5, 1977, Perusahaan Pertambangan
Minyak Dan Gas Bumi Negara ("Per-
tamina"), an instrumentality of the
Government of Indonesia, filed a Peti-
tion for Declaratory Order Authorizing
Importation of Natural Gas with the
Economic Regulatory Administration of
the Department of Energy.

In its Petition, Pertamina indicates
that it can make available to United
States purchasers seven to nine billion
cubic feet of liquefied natural gas
("LNG") at a cost of \$3.88 per MMBtu.
The LNG would be delivered this winter
to appropriate facilities on the East
Coast. Pertamina further indicates that
standby arrangements have been made
for the delivery of four such tanker loads
of LNG with deliveries tentatively sched-
uled for December 1977 and January and
March 1978. The Pertamina Petition
states however that no actual arrange-
ments for the receipt or distribution of
the LNG involved have been made with
any East Coast terminal operator, im-
porter or purchaser. Pertamina requests
authorization to import the LNG in
question so that further steps may then
be taken by those firms that wish to
acquire the product.

Pertamina specifically requests im-
mediate authorization to import one ship-
load of LNG in December 1977, authori-
zation by October 27, 1977 to import one
shipload of LNG in January 1978, and
authorization by November 4, 1977 to
import two shiploads of LNG in March
1978.

Any person who wishes to comment on
the Pertamina Petition or to request that
a hearing be convened in connection
with the matter should file an appropri-
ate submission with the Office of Ad-
ministrative Review of the Economic
Regulatory Administration, Room 8002,
2000 M Street NW., Washington, D.C.
20461. All such submissions should be
filed on or before October 21, 1977.

Comments are specifically requested as
to the following issues: (i) Whether the
LNG which Pertamina proposes to ex-
port to the United States is needed to
satisfy current or future supply require-
ments; (ii) whether particular terminal
operators, marketers, distributors or
wholesale purchasers exist who would
be willing to purchase the LNG involved
under the terms and conditions that are
outlined in the Pertamina petition; (iii)
whether the price for the LNG as speci-
fied in the Pertamina petition should be

approved as consistent with the public
interest; and (iv) the precedential impli-
cations involved in the approval of the
type of submission which Pertamina has
filed in this matter. Copies of the Per-
tamina Petition (Case No. DEX-0001)
are available in the Public Docket Room
of the Office of Administrative Review,
Room B-120, 2000 M Street NW., Wash-
ington, D.C. 20461, Monday through Fri-
day, between the hours of 1 p.m. and 5
p.m., e.d.t., except Federal holidays.

Issued in Washington, D.C., October 6,
1977.

DAVID J. BARDIN,
Acting Administrator, Economic
Regulatory Administration.

**ENVIRONMENTAL PROTECTION
AGENCY**

[FRL 804-2]

**POLYBROMINATED BIPHENYLS (PBBs)
Meeting**

AGENCY: Environmental Protection
Agency.

ACTION: Notice of intent; notice of
public meeting.

SUMMARY: A Work Group is being
formed, chaired by EPA, with inter-
agency participation to investigate the
control of PBBs. A public meeting is
scheduled for December 1, 1977, in Lan-
sing, Mich. to solicit comments and in-
formation from industry, environmen-
talists, and the public on PBBs.

DATE: The Public Meeting will be held
on December 1, 1977, at 9:30 a.m.

ADDRESSES: The meeting will be held
at the Olds Plaza Hotel, 125 West Michi-
gan, Lansing, Mich. Persons who wish to
make a presentation at the meeting
should write or call: Joni T. Respasch,
U.S. Environmental Protection Agency,
Office of Toxic Substances WH-557, 401
M Street SW., Washington, D.C. 20460.
Phone 202-426-9000 or 755-5482.

FOR FURTHER INFORMATION CON-
TACT:

Larry C. Dorsey, U.S. Environmental
Protection Agency, Office of Toxic
Substances WH-557, 401 M Street
SW., Washington, D.C. 20460. Phone
202-426-9000 or 755-5482.

SUPPLEMENTARY INFORMATION:
The following offices have been invited
to participate on the Work Group:
Office of Toxic Substances, Lead Office,
EPA Chairman, George F. Wirth
Office of Air and Waste Management,
EPA Air Quality Planning and Stand-
ards

Office of Water and Hazardous Mate-
rials, EPA Solid Waste Program
Office of Water and Hazardous Mate-
rials, EPA Office of Water Planning and
Standards
Office Research and Development, EPA
Health and Ecological Effects

Office of Enforcement, EPA Toxic Sub-
stances Branch

Office of Planning and Management,
EPA

Planning and Evaluation

Office of General Counsel, EPA

Office of Regional and Intergovernmen-
tal Operations, EPA

Regional Representatives, EPA—Region
II and V

Occupational Safety and Health Ad-
ministration

Consumer Product Safety Commission

National Institute of Occupational
Safety and Health

Center for Disease Control

Food and Drug Administration

The major issues, identified to date, con-
cerning the possible need to control
PBBs are listed below. Participants in the
public meeting are encouraged to address
and comment on these issues:

1. Should PBBs be used in any form or
should we restrict specific uses of PBBs?
2. If PBBs are not allowed to be used in
the U.S., should we allow PBBs to be manu-
factured for export?
3. What is the appropriate form of control?
Should control be a regulation restricting
production, end uses, etc?
4. What will be the impact on existing
State laws?
5. What type of controls, if any, should be
placed on articles containing PBBs?
6. What type of controls, if any, should be
placed on disposal of PBBs?

Tentative schedule

First work group meeting...	Oct. 4, 1977.
Work group meetings.....	Oct. 11, 1977.
First public participation meeting, EPA region V, to be held in Lansing, Mich.	Dec. 1, 1977.
Second public participation meeting, EPA region II.	Feb. 3, 1978.
Draft of regulation to Assist- ant Administrator for Of- fice of Toxic Substances.	Mar. 1, 1978.
Proposed PBB regulation to EPA Steering Committee.	Apr. 4, 1978.
Proposed PBB regulation to EPA Administrator.	Apr. 24, 1978.
Proposed PBB regulation published in the Federal Register and draft envi- ronmental impact state- ment to the Council on Environmental Quality.	May 1, 1978.
Informal hearing on pro- posed PBB regulation.	July —, 1978.
Promulgation of final regu- lation.	Sept. —, 1978.

1 Every following Tuesday.

Dated: October 6, 1977.

DOUGLAS M. COSTLE,
Administrator.

Co. (WB20), Glenwood, N.J. Request for
Special Temporary Authority to conduct
Developmental Digital Radio Transmission
Tests from the Glenwood, N.J. (WB20)
earth station to four Receive-only small
aperture terminals.

PR. SSA-15-77 RCA American Communica-
tions, Inc., Cerramar Beach Hotel, San
Juan, P.R. Request for Special Temporary
Authority to originate transmissions of
audio and data from its facility at 60 Broad
Street, New York, N.Y. on behalf of the
Associated Press & United Press Interna-
tional. The transmissions will be relayed to
the RCA Vernon Valley, N.J. earth station
via the existing licensed microwave system
for relay via RCA Satcom II satellite to a
receive-only earth station to be located at
the Cerramar Beach Hotel, San Juan, P.R.

RCA proposes to set up and conduct these
demonstrations during 10-6 through 10-
13-77.

AZ. 687-DSE-P/L-77 Mesa Community
Cable Television, Inc., Mesa, Ariz. For au-
thority to construct, own and operate a
domestic communications receive-only
earth station at this location. Lat. 33°22'-
49" N. Long. 111° 53'25" W. Rec. freq:
3700-4200 MHz. Emission 36000F9. With a
5 meter antenna.

NE. 688-DSE-P/L-77 Added Attractions,
Inc., McCook, Nebr. For authority to con-
struct, own and operate a domestic com-
munications satellite receive-only earth
station at this location. Lat. 40°12'32" N.
Long. 100°39'37" W. Rec. freq: 3700-4200
MHz. 36000F9. With a 6 meter antenna.

FL. 689-DSE-P/L-77 Warner-CCC, Inc.,
Niceville, Fla. For authority to construct,
own and operate a domestic communica-
tions satellite receive-only earth station at
this location. Lat. 30°30'00" N. Long. 86°-
26'35" W. Rec. freq: 3700-4200 MHz. Emsi-
sion 36000F9. With a 6 meter antenna.

WY. 690-DSE-ML-77 Frontier Broadcasting
Co. d.b.a. Cable TV (KB61), Cheyenne,
Wyo. Modification of license to permit the
reception of signals from Micro-Cable Com-
munications Corp. which has agreed to
furnish the programming of the Madison
Square Gardens Events to Frontier.

MS. 691-DSE-ML-77 American Television &
Communications Corp. (WB46), Jackson,
Miss. Modification of license to permit the
reception of signals from the Madison
Square Garden Event.

TX. 692-DSE-ML-77 Valley Cable TV, Inc.
(KD33), Pharr, Tex. Modification of li-
cense to permit the reception of signals of
the Christian Broadcasting Network and
WYAH-TV, Ch. 27, Portsmouth, Va.

LA. 693-DSE-ML-77 American Television &
Communications Corp. (KD50), West Mon-
roe, La. Modification of license to permit
the reception of signals from the Madison
Square Garden Events.

FL. 694-DSE-ML-77 American Video Corp.
(WB65), Pompano Beach, Fla. Modifica-
tion of license to permit the reception of
signals from the Madison Square Garden
Events.

OK. 695-DSE-ML-77 Tulsa Cable Television,
Inc. (KB49), Tulsa, Okla. Modification of
license to permit the reception of signals
from the Madison Square Garden Events.

[Report No. 878]

**COMMON CARRIER SERVICES
INFORMATION**

Applications Accepted for Filing

OCTOBER 3, 1977.

The applications listed herein have
been found, upon initial review, to be
acceptable for filing. The Commission re-
serves the right to return any of these
applications, if upon further examina-
tion, it is determined they are defective
and not in conformance with the Com-
mission's rules and regulations or its
policies.

Final action will not be taken on any
of these applications earlier than 31
days following the date of this notice,
except for radio applications not re-
quiring a 30 day notice period (See sec-
tion 309(c) of the Communications Act),
applications filed under Part 68, applica-
tions filed under Part 63 relative to small
projects, or as otherwise noted. Unless

specified to the contrary, comments or
petitions may be filed concerning radio
and Section 214 applications within 30
days of the date of this notice and within
20 days for Part 68 applications.

In order for an application filed under
Part 21 of the Commission's rules (Do-
mestic Public Radio Services) to be con-
sidered mutually exclusive with any
other such application appearing herein,
it must be substantially complete and
tendered for filing by whichever date is
earlier: (a) The close of business one
business day preceding the day on which
the Commission takes action on the pre-
viously filed application; or (b) within
60 days after the date of the public notice
listing the first prior filed application
(with which the subsequent application is
in conflict) as having been accepted for
filing. In common carrier radio services
other than those listed under Part 21,
the cut-off date for filing a mutually ex-
clusive application is the close of business
one business day preceding the day on
which the previously filed application is
designated for hearing. With limited ex-
ceptions, an application which is sub-
sequently amended by a major change
will be considered as a newly filed applica-
tion for purposes of the cut-off rule.
(See §§ 1.227(b) (3) and 21.30(b) of the
Commission's rules.)

**FEDERAL COMMUNICATIONS
COMMISSION,
VINCENT J. MULLINS,
Secretary.**

**APPLICATIONS ACCEPTED FOR FILING
DOMESTIC PUBLIC MOBILE RADIO SERVICE**

22207-CD-P-(3)-77 Otis L. Hale d.b.a. Mo-
billion Communications (KLB500) C.P. to
change antenna system operating on 152.21
MHz at Loc. No. 2 and to change antenna
system, replace transmitter and relocate fa-
cilities operating on 152.09 MHz, base and
459.05 MHz, repeater, from Loc. No. 2:
Shinnel Mountain, 9 miles WNW of Little
Rock, Ark.

22208-CD-P-(3)-77 Jim Mayfield (KLB-
710) C.P. for additional facilities to op-
erate on 152.06 MHz, base and 454.05 MHz,
repeater at a new site described as Loc.
No. 2: Atop Sierra Grande Mountain, 42.49
miles NW of Clayton, NM; and for addi-
tional facilities to operate on 459.025 MHz,
control to be located at a new site described
as Loc. No. 3: 420 South First Street, Clay-
ton, N. Mex.

22209-CD-AL-(2)-77 Paging, Inc. Consent
to Assignment of License from Paging, Inc.,
assignor to Radio Call Co. of Va., Inc.,
assignee. Stations: KU0626, Bristol, VA and
KU0570, Bristol, Tenn.

22210-CD-P-77 Empire Paging Corp. (KRS-
674) C.P. for additional facilities to op-
erate on 454.150 MHz to be located at a new
site described as Loc. No. 22: 0.55 mile
West of Milmay, N.J.

22218-CD-P-77 Answer, Inc. of San An-
tonio (KKG559) C.P. to change antenna
system and relocate facilities operating on
454.250 MHz from Loc. No. 1: 411 E. Du-
rango, San Antonio, Tex. to Loc. No. 3:
7711 Louis Pasteur Drive, San Antonio, Tex.

22219-CD-P-77 Airsignal of Nevada, Inc.
(KWT989) C.P. to relocate facilities op-
erating on 35.22 MHz at Loc. No. 1 to be
located at Cambridge Towers, 3890 South
Swenson, Las Vegas, Nev.

22220-CD-MP-(6)-77 Airsignal of Nevada,
Inc. (KOK334) M.P. to relocate facilities
operating on 152.09, 152.12, 152.15, 152.18

and 152.21 MHz at Loc. No. 4 to be located at Loc. No. 3: Cambridge Towers, 3890 South Swenson, Las Vegas, Nev.
22221-CD-P-77 Airtel of Nevada, Inc. (KOK334) C.P. to relocate facilities operating on 454.100 MHz at Loc. No. 3 to be located at Cambridge Towers, 3890 South Swenson, Las Vegas, Nev.

RURAL RADIO SERVICE

61402-CR-P/L-77 Wyoming Telephone Co., Inc. (new) C.P. and License for a new rural subscriber station to operate on 157.80 and 157.92 MHz to be located at Sublette, Wyo.
61403-CR-P/L-77 Wyoming Telephone Co., Inc. (new) C.P. and License for a new rural subscriber station to operate on 157.80 and 157.92 MHz to be located at Sublette, Wyo.

POINT TO POINT MICROWAVE RADIO SERVICE

[Docket Nos. 21414, 21415; File Nos. 8-A-RL-67, 186-A-L-67]

INLAND AIR LINES, INC. AND RAMP 66, INC.

Designating Applications for Consolidated Hearing on Stated Issues; Order

Adopted: October 6, 1977.
Released: October 7, 1977.

In re application of Inland Air Lines, Inc., North Myrtle Beach, South Carolina, Docket No. 21414, File No. 8-A-RL-67; Ramp 66, Inc., North Myrtle Beach South Carolina, Docket No. 21415, File No. 186-A-L-67; for an Aeronautical Advisory Station to serve Grand Strand Airport, North Myrtle Beach, S.C.

1. Inland Air Lines (hereinafter called Inland) and Ramp 66, Inc. (hereinafter called Ramp 66) have filed an application for authority to operate an aeronautical advisory station at the same airport. Inland seeks renewal of its current station license while Ramp 66 has filed for a new station authorization. In that § 87.251(a) of the Commission's rules provides that only one aeronautical advisory station may be authorized at a landing area, the above-captioned applications are mutually exclusive. Accordingly, it is necessary to designate these applications for comparative hearing in order to determine which, if any, should be granted.

2. In view of the foregoing: *It is ordered*, That pursuant to the provisions of Section 309(e) of the Communications Act of 1934, as amended, and § 0.331 of the Commission's rules, the above-captioned applications are hereby designated for hearing in a consolidated proceeding at a time and place to be specified in a subsequent order on the following comparative issues:

(a) To determine which applicant would provide the public with better aeronautical advisory service based on the following considerations:

(1) Location of the fixed-base operation and proposed radio station in relation to the landing area and traffic patterns;

(2) Hours of operation;

(3) Personnel available to provide advisory service;

(4) Experience of applicant and employees in aviation and aviation communications, including but not limited to operation of stations in the Aviation Services (Part 87) that may be or have been authorized to the applicant;

(5) Ability to provide information pertaining to primary and secondary communications as specified in Section 87.257 of the Commission's rules;

(6) Proposed radio system including control and dispatch points; and

(7) The availability of the radio facilities to other fixed-base operators;

(b) To determine the manner in which Inland has operated aeronautical advisory station KBF6 at Grand Strand Airport; and

(c) To determine in light of the evidence adduced on the foregoing issues which of the applications should be granted.

3. *It is further ordered*, That the burden of proof and the burden of proceeding with the introduction of evidence is on each applicant with respect to its application except issue (b) where the burdens are on Inland and issue (c) which is conclusory.

4. *It is further ordered*, That to avail themselves of an opportunity to be heard, Inland and Ramp 66, pursuant to § 1.221 (c) of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date set for hearing and present evidence on the issues specified in this Order. Failure to file a written appearance within the time specified may result in dismissal of the application with prejudice.

CHARLES A. HIGGINBOTHAM,
Chief, Safety and Special
Radio Services Bureau.

[Docket Nos. ER76-229, ER76-633, ER76-661]

CENTRAL LOUISIANA ELECTRIC CO.

Compliance Filing

OCTOBER 6, 1977.

Take notice that on September 27, 1977, Central Louisiana Electric Co. tendered for filing, pursuant to Ordering Paragraph (B) of the Commission's Order Approving Settlement Agreement issued September 15, 1977, in this proceeding, its revised Rate Schedule WR-1,

which is applicable to wholesale service for resale rendered by Central Louisiana Electric Co. (CLECO) on and after June 1, 1977.

CLECO also tendered for filing pursuant to that order a revised Service Schedule C-Supplemental Power, to the Electric System Interconnection Agreement between CLECO and Cajun Electric Power Cooperative, Inc. dated April 27, 1976.

Any person desiring to be heard or to protest said filing should file comments with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. on or before October 20, 1977. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. R177-136]

CHEVRON U.S.A. INC.

Petition for Order Authorizing Refund Payment Plan

OCTOBER 6, 1977.

Take notice that on September 26, 1977, Chevron U.S.A. Inc. (Chevron), filed a petition requesting the Commission to issue an order authorizing a plan for the payment of refunds owed by Chevron under Opinion No. 598. As provided in Opinion No. 598, which established just and reasonable rates for sales of gas from the Southern Louisiana Area, Chevron had elected to discharge its refund obligation by the commitment of gas reserves to the interstate market. Chevron states that it has not discharged entirely its refund obligation, and as of October 1, 1977, Chevron estimates that it will owe to interstate pipelines approximately \$21 million in refunds under Opinion No. 598.

In its petition Chevron proposes to make cash refunds on October 31, 1977 to seven interstate pipelines amounting to \$11,765,602. Chevron proposes to use the balance of the refunds owing, approximately \$9,673,555 owed to Tennessee Gas Pipeline Co. (Tennessee), to explore for and develop new gas reserves for sale to Tennessee in accordance with the provision of an agreement with Tennessee dated July 7, 1977. According to Chevron this agreement provides that Chevron will spend a total amount of money equal to 250 percent of its finally determined refund obligation to Tennessee to explore for and develop gas reserves. Forty percent of this amount will derive from the refunds owned to Tennessee by Chevron; the balance of the funds will be contributed by Chevron. If such funds are not expended by December 31, 1981, Chevron will refund to Tennessee an amount equal to Chevron's refund obligation to Tennessee, less forty

percent of the total amount spent by Chevron prior to December 31, 1981. Tennessee has the right to purchase the gas reserves found by Chevron on the leases.

Any person desiring to be heard or to make any protest with reference to said petition should on or before October 28, 1977, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[Project No. 2763]

CITY OF GOLDEN, COLO. AND VIDLER TUNNEL CO.

Meeting

OCTOBER 5, 1977.

Public notice is hereby given that a meeting will be held on October 18, 1977, at 10 a.m., at the Federal Energy Regulatory Commission in Room 5200, 825 North Capitol Street, Washington, D.C., respecting the application for preliminary permit for Project No. 2763, known as the Sheephorn Project, filed by the City of Golden, Colo. and the Vidler Tunnel Co. All parties have been notified of the meeting.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-29836 Filed 10-12-77; 8:45 am]

[6740-02]

[Project No. 2765]

JEAN LARA AND MICHAEL HANAGAN Application of Minor License

OCTOBER 5, 1977.

Public notice is hereby given that an application was filed under the Federal Power Act, 16 U.S.C. §§ 791a-825r, on June 7, 1976, and revised on July 1, 1977, by Jean Lara and Michael Hanagan (Correspondence to: Mr. Harvey A. Katz, 294 New London Turnpike, Glastonbury, Conn. 06033) for a minor license for Project No. 2765 known as the Shafer Holdings Project. Project No. 2765 is located on the Scantic River in the Town of Somersville, Tolland County, Conn.

The Shafer Holdings Project, originally constructed in 1820, consists of: (1) a stone and concrete dam 15-feet high and 92-feet long which forms a pond with a storage capacity of 125 acre-feet;

(2) a 7-foot deep by 12-foot wide canal 270-feet long from an intake at the dam to the turbine; (3) one 140kW generator located in the basement of a small industrial building adjacent to the dam; and (4) an outlet canal from the turbine to the Scantic River. The project is operated as run-of-the-river. The project supplies electricity during the winter months for heating an industrial building where motorcycle parts are manufactured.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 12, 1977, file with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure, 18 CFR § 1.8 or § 1.10 (1977). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-29837 Filed 10-12-77; 8:45 am]

[6740-02]

[Docket Nos. CP76-492, CP77-644]

NATIONAL FUEL GAS SUPPLY CORP. Application and Consolidation

OCTOBER 5, 1977.

Take notice that on September 27, 1977, National Fuel Gas Supply Corp. (NFG), 308 Seneca Street, Oil City, Pa., 16301, filed in Docket No. CP77-644 an application pursuant to Sections 7 (b) and (c) of the Natural Gas Act for a certificate of public convenience and necessity. Said application seeks authorization to construct and operate facilities, to abandon certain other facilities, and to transport gas through Potter and Cameron Counties, Pa., all as more fully set forth in the application on file with the Commission and open to public inspection.

NFG proposes to construct two segments of pipeline and a related 2,000 Hp compressor facility in order to replace the existing pipeline between Costello and Roulette, Pa., and in order to connect NFG's Storage Corp.'s East Independence-Ellisburg pipeline (as proposed in Docket No. CP76-492) with the facilities of Columbia Gas Transmission Corp. (Columbia) and Transcontinental Gas Pipe Line Corp. (Transco).

The proposed "North" pipeline segment would be approximately 25 miles long and 16 inches in diameter. Said segment, it is stated, would be used to transport gas formerly transported through the Costello-Roulette line which is proposed to be abandoned, and, to transport

gas for customers of NFG's Storage Corp. whose gas is being transported by Columbia or Transco.

The proposed "South" segment would be approximately 6 miles long and 12 inches in diameter and would connect existing facilities of Columbia with two proposed 1,000 Hp compressors to be installed at a new facility near Wharton, Pa.

Construction is planned to begin in June, 1978, and completed by October of the same year. The estimated total cost is \$9,153,378 and will be financed by sales of short-term securities in early calendar year 1978 and by later refinancing with long-term securities.

Applicant also proposes the short-term use of a 1,000 Hp compressor to supplement capacity on its existing 8" Roulette-Hebron line for the period April 1, 1978, to October 31, 1978. Said compressor, it is proposed, will be mounted on skids for easy removal and located sufficiently distant from existing residences to avoid noise disturbance.

NFG proposes to abandon in place 16 miles of 12-inch pipeline running between Costello and Roulette, Pa. It is stated that the pipeline was constructed nearly 30 years ago of reconditioned pipe and that its salvage value is not sufficient to warrant such an operation.

Rates for the proposed service, it is said, have been established through allocations of cost of service based on annual and peak day volumes to be used by NFG and customers of NFG's Storage Corp. It is proposed that the customers served through Transco will be charged 5.80 cents per Mcf for transportation in each direction in accordance with Rate Schedule T-2 of NFG. For those customers served through Columbia, a charge of 10.50 cents per Mcf will be charged for like service in accordance with Rate Schedule T-3. Several variations in rates for limited periods during two years beginning April 1, 1978, are also said to be necessary.

NFG additionally proposes to provide service to NFG's Storage Corp. during the period of construction through August of 1978. NFG requests authority to transport gas for Storage Corp. from Ellisburg, Pa., to the storage facilities in East and West Independence, Allegany County, N.Y. Transportation would flow through NFG's existing Penn-York line and the gas would be available to Storage Corp.'s customers at a cost of 12.94 cents per Mcf payable by Storage Corp. to NFG.

It also appears that the instant application may involve common questions of law and fact with the on-going proceeding in Docket No. CP76-492 and thus should be consolidated for hearing pursuant to our authority granted by Section 3.5(a) (6) of the Commission's Rules and Regulations.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 30 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should file

on or before October 20, 1977, with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, a petition to intervene or a protest in accordance with the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act, (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in the hearing therein must file a petition to intervene in accordance with the Commission's Rules. Persons who have heretofore filed in Docket No. CP76-492, et al., need not file again.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP77-641]

NATURAL GAS PIPELINE CO. OF AMERICA

Pipeline Application

OCTOBER 6, 1977.

Take notice that on September 26, 1977, Natural Gas Pipeline Co. of America (Applicant), 122 South Michigan Avenue, Chicago, Ill. 60603, filed in Docket No. CP77-641 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to transport natural gas for Sea Robin Pipeline Co. (Sea Robin) and to exchange gas with United Gas Pipe Line Co. (United), all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that pursuant to a transportation agreement dated September 2, 1977, between Applicant and Sea Robin, Applicant proposes to transport for Sea Robin quantities of gas Sea Robin is entitled to purchase in the Eugene Island Block 305 Field area of offshore Louisiana. Applicant will transport Sea Robin's gas through its proposed 16-inch gathering pipeline from Eugene Island Block 305 to a point of connection with Sea Robin's existing offshore facilities in Eugene Island Block 295.

Applicant will charge Sea Robin an initial monthly rate of \$5,493 for all gas transported.

Applicant further states that pursuant to an exchange agreement dated August 16, 1977, between Applicant and United, Applicant will cause Sea Robin to deliver to United for Applicant's account near Erath, La., gas Applicant will purchase in the South Marsh Block 142, 143 area, the Eugene Island Block 333 area and the Eugene Island Block 305 area, offshore Louisiana. United will redeliver to

¹ Said pipeline is the subject of an application filed at Docket No. CP77-384.

Applicant equivalent volumes of gas at an existing delivery point between the parties in Vermilion Parish, La., and when required at an existing alternate delivery point in Cameron Parish, La.

Any person desiring to be heard or to make any protest with reference to said application, on or before October 28, 1977, should file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77-619]

NORTHERN STATES POWER CO.

Cancellation

OCTOBER 5, 1977.

Take notice that Northern States Power Co. (Northern States), on September 28, 1977, tendered for filing notice of cancellation of FPC Rate Schedule No. 165, a Municipal Service Agreement dated February 20, 1964, as supplemented, between the City of Marshall, Minn., and Northern States. Northern States proposes an effective date of October 21, 1977, and therefore requests waiver of the Commission's notice requirements.

Northern States indicates that copies of this filing have been sent to the City of Marshall.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington,

NOTICES

D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 17, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ES77-63]

PACIFIC POWER AND LIGHT CO.

Application

OCTOBER 5, 1977.

Take notice that on September 30, 1977, Pacific Power & Light Co. (Applicant), a corporation organized under the laws of the state of Maine and qualified to transact business in the States of Oregon, Wyoming, Washington, California, Montana and Idaho, with its principal business office at Portland, Oreg., filed an application with the Federal Power Commission, pursuant to Section 204 of the Federal Power Act, seeking an order authorizing it to enter into a Financing Agreement (Financing Agreement) with the County of Sweetwater, Wyoming (County), pursuant to which Applicant will incur the obligation to make payments equal to the required payment of the principal, premium, if any, and interest on Pollution Control Revenue Bonds (Bonds) not to exceed \$55,000,000 in aggregate principal amount, to be issued by the County, pursuant to an Indenture of Trust (the Indenture) to be entered into between the County and a bank to be selected to act as Trustee (Trustee).

Any person desiring to be heard or to make any protest with reference to said application should, on or before October 27, 1977, file with the Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The application is on file with the Commission and available for public inspection.

[Docket No. CP77-626]

SEA ROBIN PIPELINE CO.

Pipeline Application

OCTOBER 6, 1977.

Take notice that on September 21, 1977 Sea Robin Pipeline Co. (Sea Robin) filed an application in Docket No. CP77-626 pursuant to Section 7(c) of the Natural Gas Act, as amended, for a temporary and permanent certificate of public convenience and necessity authorizing the increase in delivery capacity to Columbia Gas Transmission Co., (Columbia) at Erath, Vermillion Parish, La.

Sea Robin states that prior to expiration of the current year it may be required to deliver a quantity of gas to Columbia in excess of its present capacity and requests authorization to increase the delivery capacity of its metering facilities serving Columbia from 100,000 Mcf per day to 200,000 Mcf per day. Sea Robin states that anticipated deliveries to Columbia's account and for the accounts of others will require the replacement of two existing 10-inch meter tubes with 12-inch meter tubes at metering facilities located at the terminus of Sea Robin's offshore transmission system near Erath. The cost of facilities required is estimated at \$27,100, all as more fully described in the application which is on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said application, on or before October 25, 1977, should file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[6740-02]

[Docket No. CP73-339; C175-45, et al.]

TENNESSEE GAS PIPELINE CO., A
DIVISION OF TENNECO INC.

Pipeline Application

OCTOBER 5, 1977.

Take notice that on September 28, 1977 Tennessee Gas Pipeline Co., a division of Tenneco Inc. (Tennessee), Post Office Box 2511, Houston, Tex. 77001, filed in Docket No. CP73-339 an application to amend the order issued in said docket on March 7, 1977, by requesting authorization to add two additional delivery points to the transportation service authorized therein for Continental Oil Co. (Continental). The two proposed delivery points are at the outlet side of Continental's Egan Plant, located in Acadia Parish, La. and the point of intersection of Continental's and Tennessee's facilities located in Calcasieu Parish, La.

Continental will install minor facilities at the facilities at the proposed points. There will be no change in the rate per Mcf per 100 miles to be charged Continental for this transportation service.

Tennessee states that it has entered into an amendment with Continental, dated May 17, 1977, to an existing Gas Transportation Agreement, dated November 14, 1972. Tennessee states that the proposed service will not effect Tennessee's ability to serve its existing customers.

Any person desiring to be heard or to make any protest with reference to said application, on or before October 19, 1977, should file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

tion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. CP77-627]

TENNESSEE GAS PIPELINE CO., A DIVISION OF TENNECO, INC., COLUMBIA
GULF TRANSMISSION CO.

Pipeline Application

OCTOBER 5, 1977.

Take notice that on September 22, 1977 Tennessee Gas Pipeline Co., a division of Tenneco Inc. (Tennessee) and Columbia Gulf Transmission Co. (Columbia Gulf) filed a joint application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation by Tennessee and Columbia Gulf of compression and related facilities, all as more fully set forth in the application on file with the Commission and open to public inspection.

Specifically, Tennessee and Columbia Gulf request authorization to construct, operate, and own an undivided 2" and 3" interest, respectively, in a 1,310 horsepower compressor unit and related facilities to be situated on the existing producer platform in East Cameron Block 33, Offshore Louisiana, which platform is jointly owned by Continental Oil Co. (Continental), Cities Service Oil Co. (Cities), and Getty Oil Co. (Getty) and operated by Continental.

Tennessee and Columbia Gulf state that Continental, Cities, and Getty each own a one-third leasehold interest in the Block 33 reserves; that Continental's and Cities' reserves are committed to Tennessee and Getty's reserves are committed to Columbia Gas Transmission Co. (Columbia Gas) under Gas Purchase and Sales Agreements; that such agreements provide for Tennessee and Columbia Gas to furnish any compression facilities necessary for the delivery of such reserves; and that Tennessee and Columbia Gulf and Continental, as operator, have determined that compression on the Block 33 platform would be required to enable gas from Block 33 to enter Applicants' systems.

Tennessee and Columbia Gulf state that Tennessee's share of the direct cost of the compressor facilities will be \$694,000 and Columbia Gulf's share will be \$347,000.

Any person desiring to be heard or to make any protest with reference to said application, on or before October 19, 1977, should file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

FEDERAL MARITIME COMMISSION

CERTIFICATES OF FINANCIAL
RESPONSIBILITY (OIL POLLUTION)

Certificates Issued

Notice is hereby given that the following vessel owners and/or operators have established evidence of financial responsibility, with respect to the vessels indicated, as required by Section 311(p)(1) of the Federal Water Pollution Control Act, and have been issued Federal Maritime Commission Certificates of Financial Responsibility (Oil Pollution) pursuant to Part 542 of Title 46 CFR.

In addition, notice is also given that the following operators have established evidence of financial responsibility, with respect to the vessels indicated, as required by subsection (c) of Section 204 of the Trans-Alaska Pipeline Authorization Act, and have been issued Federal Maritime Commission Certificates of Financial Responsibility (Alaska Pipeline) pursuant to Part 543 of Title 46 CFR.

FEDERAL TRADE COMMISSION
PRIVACY ACT OF 1974Systems of Records; Annual Publication;
Correction

In FR Doc. 77-27339, appearing in FEDERAL REGISTER issue for Tuesday, September 20, 1977, pages 47403 through 47423, inclusive, the Federal Trade Commission published its Systems of Records under the Privacy Act of 1974. The following corrections are required.

Page 47403, column 2, paragraph 8 (FTC-35), line 14 should read "news media and special interest (i.e., organizations to be reached".

Page 47410, column 2, under FTC-17, lines 7 through 10: Categories of individuals covered by the system should read: "Individuals who have requested publications from the Los Angeles Regional Office, and individuals who receive local Call for Comment."

Page 47410, column 2, under FTC-17, lines 17 and 18: "call for comment" should read "Call for Comment".

Page 47417, column 1, under FTC-34, lines 11 and 12: the words "comoleted" and "comonay" should read "completed" and "company", respectively.

Page 47417, column 2, line 4: the word "oersonnel" should read "personnel."

Page 47417, column 2, lines 6 and 7 which read "Referral to experts, when considered appropriate by Commission staff" should be deleted.

Page 47420, column 1, under FTC-42, line 34: delete the asterik (*) after the word "Commission" and beneath the line "Federal Trade Commission" insert "6th Street and Pennsylvania Avenue, N.W., Washington, D.C. 20580."

Page 47422, column 1, under FTC-49, line 1: the last word in the line "Appeal" should read "Appeals".

Page 47423, column 1, under FTC-52, line 3: insert after "Optimum Systems, Inc." the address "5615 Fishers Lane".

Dated: October 3, 1977.

CAROL M. THOMAS,
Secretary.

GENERAL SERVICES
ADMINISTRATION[Federal Property Management Regs.:
Temporary Reg. E-47, Supp. 3]

TELEPROCESSING SERVICES PROGRAM

OCTOBER 3, 1977.

1. Purpose. This supplement extends the mandatory provisions of the Teleprocessing Services Program (TSP) of September 30, 1978.

NOTICES

2. Effective date. This regulation is effective on October 13, 1977.

3. Expiration date. This regulation expires on September 30, 1978, unless sooner superseded or revised.

4. Explanation. The expiration date for TSP was September 30, 1977. Its mandatory provisions have been effective only since August 1, 1977, in accordance with Supplement 2 to E-47. Additional time is required to complete development of certain evolving features of TSP and to clarify existing procedures for the program before publishing a permanent regulation.

5. Effect on other issuances. Supplement 2 to FPMR Temporary regulation E-47 is canceled.

Dated: October 3, 1977.

Transfer of Property

Pursuant to section 2 of Pub. L. 537, Eightieth Congress, approved May 19, 1948 (16 U.S.C. 667c), notice is hereby given that:

1. By letter from the General Services Administration, New York, N.Y. Regional Office, dated November 17, 1976, approximately 360 acres of land improved with one building, identified as Desecheo Island, Mono Passage, Aguadilla, Puerto Rico, were transferred to the Department of the Interior for use by the Fish and Wildlife Service.

2. The above described property was conveyed for use as a migratory bird refuge in accordance with the provisions of Section 1 of said Pub. L. 537 (16 U.S.C. 667b), as amended by Public Law 92-432.

Dated: October 4, 1977.

DEPARTMENT OF HEALTH,
EDUCATION, AND WELFARE

Office of Education

NATIONAL ADVISORY COUNCIL ON
INDIAN EDUCATION

Schedule

AGENCY: The National Advisory Council on Indian Education.

ACTION: Notice.

SUMMARY: The notice sets forth the schedule and proposed agenda of the forthcoming meeting of the National Ad-

visory Council on Indian Education. It also describes the functions of the Council. Notice of these meetings is required under the Federal Advisory Committee Act (5 U.S.C. Appendix 1, 10(a)(2)). This document is intended to notify the general public of their opportunity to attend.

DATES: Full Council Meeting: November 4-5, 1977, 9 a.m. to 5 p.m., and November 6, 1977, 9 a.m. to 3 p.m. Executive Committee Meeting: November 3, 1977, 7 p.m. to 10 p.m. Subcommittee Meetings: November 4-5, 1977, 7 p.m. to 10 p.m.

ADDRESS: Radisson St. Paul Hotel, 11 East Kellogg Blvd., St. Paul, Minnesota 55101.

FOR FURTHER INFORMATION CONTACT:

Stuart A. Tonemah, Executive Director, Office of the National Advisory Council on Indian Education, Suite 326, 425 13th Street NW., Washington, D.C. 20004 (202-376-8882).

The National Advisory Council on Indian Education is established under Section 442 of the Indian Education Act, Title IV of Pub. L. 92-318, (20 U.S.C. 1221g).

The Council is directed to:

(1) Submit to the Commissioner of Education a list of nominees for the position of Deputy Commissioner of the Office of Indian Education/OE;

(2) Advise the Commissioner of Education with respect to the administration (including the development of regulations and of administrative practices and policies) of any program in which Indian children or adults participate from which they can benefit, including Title III of the Act of September 30, 1950 (Pub. L. 81-874) and Section 810, Title VIII of the Elementary and Secondary Education Act of 1965 (as added by Title IV of Pub. L. 92-318 and amended by Pub. L. 93-380), and with respect to adequate funding thereof;

(3) Review applications for assistance under Title III of the Act of September 30, 1950 (Pub. L. 81-874), Section 810 of Title VIII of the Elementary and Secondary Education Act of 1965 as amended and Section 314 of the Adult Education Act (as added by Title IV of Pub. L. 92-318), and make recommendations to the Commissioner with respect to their approval;

(4) Evaluate programs and projects carried out under any program of the Department of Health, Education, and Welfare in which Indian children or adults can participate or from which they can benefit, and disseminate the results of such evaluations.

(5) Provide technical assistance to local educational agencies and to Indian educational agencies, institutions, and organizations to assist them in improving the education of Indian children;

(6) Assist the Commissioner in developing criteria and regulations for the administration and evaluation of grants made under Section 303(b) of the Act of September 30, 1950 (Pub. L. 81-875) as added by Title IV, Part A, of Pub. L. 92-318; and

(7) Submit to the Congress not later than March 31 of each year a report on its activities, which shall include any recommendations it may deem necessary for the improvement of Federal education programs in which Indian children and adults participate or

from which they can benefit, which report shall include a statement of the Council's recommendations to the Commissioner with respect to the funding of any such programs.

The meeting on November 3-6, 1977, will be open to the public. This meeting will be held at the Radisson St. Paul Hotel, St. Paul, Minn.

The proposed agenda includes: (1) Executive Director's Report; (2) action on previous meeting minutes; (3) committee reports and discussion; (4) special reports; (5) review the NACIE fiscal year 1978 budget; (6) plans for future NACIE activities; (7) regular council business.

Records shall be kept of all Council proceedings and shall be available for public inspection at the Office of the National Advisory Council on Indian Education located at 425 13th Street NW., Suite 326, Washington, D.C. 20004.

Dated: October 5, 1977.

STUART A. TONEMAH,
Executive Director, National
Advisory Council on Indian
Education.

Federal Housing Commissioner

[Docket No. N-77-803]

THERMAL INSULATION, UREA-BASED,
FOAMED IN PLACE

Use of Materials Bulletin No. 74

AGENCY: Department of Housing and Urban Development, Office of Assistant Secretary for Housing, Federal Housing Commissioner.

ACTION: Notice.

SUMMARY: This Notice promulgates HUD's new Use of Materials Bulletin No. 74, which sets forth the conditions for acceptance of foamed urea-based insulation, and stipulates certain limitations for its use. The current shortage of conventional building insulation has stimulated a demand for foamed urea-based

FEDERAL REGISTER, VOL. 42, NO. 198—THURSDAY, OCTOBER 13, 1977

insulation whose reliability and performance has been controversial.

EFFECTIVE DATE: September 2, 1977.
FOR FURTHER INFORMATION CONTACT:

Donald K. Baxter, Chief Materials Acceptance Branch, Architecture and Engineering Division, Office of Technical Support, Department of Housing and Urban Development, Washington, D.C. 20410 (202-755-5929).

SUPPLEMENTARY INFORMATION:

1. Purpose.—HUD Use of Materials Bulletin No. 74, dated September 15, 1977, is being issued to provide HUD field offices with a basis for accepting urea-based, foamed in place thermal insulation.

2. Scope.—The Bulletin sets forth the physical properties, test methods, installation guidelines, and labeling requirements for urea based foam insulation, and stipulates that such insulation is limited for us only in enclosed building cavities such as walls, partitions and floors.

3. Background.—The recent demand for thermal insulating materials has strained the existing manufacturing facilities for conventional thermal insulations such as fibrous glass, mineral wool and cellulose insulations. Meanwhile, problems with foamed in place insulations have caused insulating contractors and the general public to become wary of job-applied foam insulations. Complaints included odors, excessive shrinkage, deterioration and collapse, corrosion of adjoining materials, and hazards to health.

4. Development.—The bulletin was developed in cooperation with the urea foam industry, the Canadian government and the National Bureau of Standards. As experience is gained the requirements may be revised. When a suitable industry standard or a Federal Specification becomes available, the bulletin will be withdrawn.

5. Requirements.—The detailed requirements of the bulletin are attached.

Issued at Washington, D.C., on October 7, 1977.

PAUL WILLIAMS,
Acting Assistant Secretary,
Housing—Federal Housing
Commissioner.

DEPARTMENT OF HOUSING AND URBAN
DEVELOPMENT

FEDERAL HOUSING ADMINISTRATION

Use of Materials Bulletin No. 74, Thermal Insulation, Urea-Based, Foamed in Place

Subject to good workmanship, compliance with local codes, and the methods of application listed herein, the materials described in the bulletin may be considered suitable for HUD Housing programs.

The eligibility of a property under these programs is determined on the property as an entity and involves the consideration of underwriting and other factors not indicated herein. Thus, com-

pliance with this bulletin should not be construed as qualifying the property as a whole, or any part thereof, as to its eligibility.

The methods of application for the materials listed herein are to be considered as part of the HUD Minimum Property Standards and shall remain effective until this bulletin is cancelled or superseded.

1. SCOPE

1.1 This is a provisional bulletin and applies to urea-based thermal insulation for use in walls in building constructions. This bulletin sets forth conditions of acceptance, which include material properties, test methods, installation guidelines, and material, application and labeling requirements for the use of foamed-in-place urea-based resin insulation. The material is accepted for use only in enclosed building cavities such as walls, partitions, and floors.

1.2 For more information on uses, see par. 7.3.

1.3 This provisional bulletin is prepared in S.I. units of measurement, often referred to as the metric system. The approximate equivalents in customary units are given in parenthesis. For assistance in converting between the two systems of measurement, the reader is referred to ASTM E 380.

2. APPLICABLE PUBLICATIONS

2.1 The following publications are applicable to this provisional bulletin.

2.1.1 American Society for Testing and Materials (ASTM).

C 177—Steady-State Thermal Transmission Properties by Means of the Guarded Hot Plate.

C 236—Thermal Conductance and Transmittance of Built-Up Sections by Means of the Guarded Hot Box.

C 518—Steady-State Thermal Transmission Properties by Means of the Heat Flow Meter.

D 257—D-C Resistance or Conductance of Insulating Materials.

D 1622—Apparent Density of Rigid Cellular Plastics.

E 84—Surface Burning Characteristics of Building Materials.

E 119—Fire Tests of Building Construction and Materials.

E 380—Metric Practice Guide.

2.1.2 National Fire Protection Association (NFPA).

89M—Heat Producing Appliance Clearances.

3. GENERAL REQUIREMENTS (ADDITIONAL REQUIREMENTS ARE GIVEN IN PAR. 7)

3.1 Acceptable material shall be urea-based thermosetting foam, suitable for filling closed cavities through small holes and suitable also for filling open cavities by trowelling during foaming prior to enclosure.

3.2 Manufacturers of the material shall provide to their distributors or applicators its effective thermal resistance values (par. 7.3.3).

3.3 Where urea-based foam is used to insulate the exterior walls of new construction, the interior face of the wall shall be covered with gypsum wallboard

complying with and mechanically fastened in accordance with the requirements of the Minimum Property Standards (MPS). The gypsum wallboard shall have a minimum thickness of 12.7mm (½ in.). Other suitable materials having a finish rating of 15 minutes (minimum) per ASTM E-119 may be used in lieu of gypsum wallboard.

Exterior walls of new construction, multi-story housing shall be firestopped at each floor level and at the ceiling of the uppermost story.

The urea-based insulation shall be installed with no portion exposed at the completion of construction or in existing construction. This requirement includes attention to architectural detailing at the base and ceiling, around doors and windows, and around openings penetrating the wall cavity for utilities or other purposes.

3.4 Adequate clearance between the insulation and heat sources shall be provided. Consult NFPA 90B, Warm Air Heating and Air Conditioning Systems Protection of insulation at penetrations (heat sources) is critical.

3.5 To assure quality control each manufacturer shall ship the resin in a pre-mixed liquid state in sealed containers to their distributors or applicators.

4. DETAIL REQUIREMENTS

4.1 Resin properties.

4.1.1 Free aldehyde content.—When tested as specified in par. 6.2.1, the free aldehyde content shall not exceed 1.0 percent.

4.2 Curing properties.

4.2.1 Setting time.—When tested as specified in par. 6.2.2, the foam shall set in not less than 20 s and not more than 60 s for application in closed cavities, and not less than 10 s and not more than 60 s for application in open cavities. At the setting time, the surface of the foam at the fracture shall be smooth and homogeneous.

4.2.2 Volume resistivity of fresh foam.—When tested as specified in par. 6.2.3, the volume resistance shall not be less than 5 kΩ-cm (5,000 ohms-centimeter).

4.2.3 Water drainage.—When tested as specified in par. 6.2.4, no water shall leak from the cavity.

4.2.4 Shrinkage during curing.—When tested as specified in par. 6.2.5, the linear shrinkage in any direction shall not be more than 4.0 percent.

4.2.5 Fungi growth inhibition.—When tested as specified in par. 6.2.6, the area of fungi growth in the test frame containing the foam specimen shall not be greater than 10 percent of that in the control test frame, and there shall be no fungi growth on the foam itself.

4.3 Dry foam properties.

4.3.1 Density.—When tested as specified in par. 6.1.4, the density of the dry foam shall be within the range of 10.4–15 kg/m³ (0.7–0.9 lb/ft³).

4.3.2 Thermal resistance.—When tested as specified in par. 6.2.7, the thermal resistance shall not be less than 2.2 m² °C/W (12 ft² h F/Btu).

4.3.3 Corrosiveness.—The material shall be tested as specified in par. 6.2.8. For aluminum, copper, and steel there shall not be any perforations when the metal specimens are observed over a chrome reflected 40 W appliance light bulb. For galvanized steel there shall be no pitting of the metal specimen and its loss in mass shall not exceed 0.2 g (0.01 oz).

4.3.4 Water absorption.

4.3.4.1 Floating test.—When tested as specified in par. 6.2.9.1, the water absorption shall not exceed 15 percent by volume.

4.3.4.2 Droplet test.—When tested as specified in par. 6.2.9.2, the drops of methyl violet solution applied to a horizontal surface of the foam shall not be absorbed within 1 h.

4.3.5 Surface burning characteristics.—When tested as specified in par. 6.2.10, the flame spread classification shall not exceed 25.

4.3.6 Ash content.—When tested as specified in par. 6.2.11, the volume of the ash shall not be more than 2 percent of the original volume of the foam.

4.3.3 Corrosiveness.—The material shall be tested as specified in par. 6.2.8. For aluminum, copper, and steel there shall not be any perforations when the metal specimens are observed over a chrome reflected 40 W appliance light bulb. For galvanized steel there shall be no pitting of the metal specimen and its loss in mass shall not exceed 0.2 g (0.01 oz).

4.3.4 Water absorption.

4.3.4.1 Floating test.—When tested as specified in par. 6.2.9.1, the water absorption shall not exceed 15 percent by volume.

4.3.4.2 Droplet test.—When tested as specified in par. 6.2.9.2, the drops of methyl violet solution applied to a horizontal surface of the foam shall not be absorbed within 1 h.

4.3.5 Surface burning characteristics.—When tested as specified in par. 6.2.10, the flame spread classification shall not exceed 25.

4.3.6 Ash content.—When tested as specified in par. 6.2.11, the volume of the ash shall not be more than 2 percent of the original volume of the foam.

5. LABELING

5.1 Containers of urea-based resin and foaming agent shall bear labels:

5.1.1 Identifying the manufacturer of the product.

5.1.2 Showing storage temperatures and corresponding dates (shelf-life) after which resin and foaming agent are not usable.

5.1.3 Including the following statement: This material shall be applied by licensed applicators only and in strict accordance with HUD/FHA Minimum Property Standards, HUD/FHA Use of Materials Bulletin No. 74, and the manufacturer's instructions.

5.1.4 Including a warning to minimize the risk to life and health involved in the application of the product, such as but not limited to: Warning! Avoid Contact With Eyes, Nose and Skin! If contact is made rinse thoroughly with quantities of water.

5.2 If a flame spread classification for the foam insulation is included on the label, the following classification statement shall also be included: Values of flame spread rating are not intended to reflect hazards presented by this or any other material under actual fire conditions.

6. TESTING

6.1 Specimen preparation.

6.1.1. Sampling.—Sampling shall be done at random.

6.1.2 Preparation of specimens.—Unless otherwise specified in the test procedure, the foam shall be prepared and applied in accordance with the manufacturer's instructions. The temperature of the unreacted materials prior to foaming shall be within the range 15–30° C (59–86° F).

Unless otherwise specified in the test procedure, specimen shall be foamed in closed cavities at ambient conditions of 23±2° C (73±4° F) and 50±5 percent RH.

6.1.3 Conditioning.—Specimens for

tests 6.2.7 to 6.2.10 inclusive shall be maintained in the closed cavities in the vertical position at 23±2° C (73±4° F) and 50±5 percent RH for 28 days prior to testing.

6.1.4 Density.—The density of the dry foam shall be within the range 11–15 kg/m³ (0.7–0.9 lb/ft³), when determined according to ASTM D 1622. Foam used for tests 6.2.2 to 6.2.6 inclusive shall be such that upon drying for 28 days at 23±2° C (73±4° F) and 50±5 percent RH a density within the above range would be realized.

6.2 Test procedures.

6.2.1 Free aldehyde content.—Prepare a standard sulphite solution as follows. Dissolve, without heating, approximately 250g Na₂SO₃·7H₂O in about 200 ml distilled water. Dilute to one litre. Adjust the pH of the sulphite solution to 8.9 with H₂SO₄ and NaOH solutions. The solution is stable only for a short period of time and it should be used immediately after adjustment of the pH. Place 20 ml distilled water in an Erlenmeyer flask. Accurately weigh approximately 2g resin solution (ready for foaming) and add it to the flask. Stir the mixture well, add approximately 10g crushed ice and mix thoroughly. Add 50.0 ml of the standard sulphite solution and titrate immediately with 0.01N H₂SO₄ to pH 8.9. Perform the procedure in duplicate and run a blank.

Calculate the percentage formaldehyde content of the resin as follows:

$$\text{percent formaldehyde} = \frac{3(A-B)D}{C}$$

where:

A = ml of 0.01N H₂SO₄ for the specimen
B = ml of 0.01N H₂SO₄ for the blank
C = mass of resin solution
D = normality of the H₂SO₄ solution

6.2.2 Setting time.—A conical specimen with a bottom diameter of approximately 30 cm (12 in) and a height of approximately 30 cm (12 in) shall be made by foaming from a hose. Start a stopwatch immediately after the cone has been formed and immediately commence slicing the cone with a spatula. Record the time when the foam no longer slices as if it were whipped cream but shears off leaving a smooth surface. This time is the setting time. Evaluate the surfaces of the slices visually for smoothness and homogeneity.

6.2.3 Volume resistivity of fresh foam.—Determine the volume resistivity of the foam in 15 min after foaming as specified in ASTM D 257 using metal plate electrodes, 90×90 mm (3.5×3.5 in) and voltage of 110 volts. The specimen shall be a cube of side 90 mm (3.5 in), and shall be prepared by applying foam between the electrodes.

6.2.4 Water drainage.—Prepare a cavity approximately 2440×400×90 mm (8 ft×16 in×3.5 in) from wood and plywood. Fill the cavity by foaming in place or trowelling. Leave the cavity with the long dimension in a vertical position for 24 h, during which time the bottom and underside of the wooden structure are examined for water. The cavity shall be built such that any free water from the

foam can easily run out at the bottom.

6.2.5 Shrinkage during curing.—Fill three cavities each measuring 480×480×90 mm (18×18×3.5 in) made from wood and plywood with foam. Maintain the cavities with the long dimensions in a vertical position for 28 days at 23±2° C (73±4° F) and 50±5 percent RH. Then open the cavities and measure the linear shrinkage in the two principal directions. Report the average of all six determinations as the linear shrinkage. If fractures in the specimens occur, the data should be discounted and the test repeated.

6.2.6 Fungi growth inhibition.—Prepare two test frames, measuring 480×480×90 mm (18×18×3.5 in) from Douglas Fir plywood and white spruce. Submerge the test frames in tap water for 48 h. Remove the test frames and dry the surface with paper towel. Drill a hole in one test frame and foam in the material under test. Maintain the two test frames in a vertical position for 28 days at 23±2° C (73±4° F) and 50±5 percent RH. Then open up both test frames and remove and examine the cured foam. Determine the area of fungi growth in the control and in the specimen test frame.

6.2.7 Thermal resistance.—The thermal resistance shall be determined as specified in ASTM C 177, ASTM C 518 or ASTM C 236, using a specimen 75 mm (3 in) thick, tested with a mean temperature differential across the specimen of 22±3° C (72±5° F). In cases of dispute, ASTM C 177 or ASTM C 236 shall be used. Specimen surfaces may be those obtained during foaming or they may be obtained by slicing the material to remove not more than 5 mm (0.2 in) from each side.

6.2.8 Corrosiveness.

6.2.8.1 Apparatus and Materials.

(a) An oven capable of maintaining 50±2° C (122±4° F) and another oven capable of maintaining 70±2° C (158±4° F).

(b) A small container, approximately 90×50 mm (3.5×2.0 in), made of inert material such as polypropylene and equipped with a lid so designed that water condensing on it will not drip but will run to the walls of the container.

(c) A large container capable of housing the small container in item (b) but which will fit inside the oven.

(d) Metal test specimens, approximately 50×50 mm (2×2 in) by 0.08 mm (0.003 in) thick free of tears, punctures or crimps as follows:

(i) 3003 bare aluminum.

(ii) ASTM B 152, type ETP, Cabra No. 110, soft copper.

(iii) Low carbon, commercial quality, cold rolled, shim steel.

(e) Test specimens, section of truss plates approximately 50×50 mm (2×2 in) by 1.0 mm (0.04 in) made from hot-dipped galvanized sheet-steel conforming to Grade A or B, ASTM 446 with a total zinc coating of 275 –0, +31 g/m² (0.9, –0, +0.1 oz/ft²). At least 40% of the zinc shall be on any one side of the test specimens. Test specimens shall have at least 6 perforations.

(f) Trichloroethylene, analytical reagent grade.

(g) Balance, capable of determining the mass of the galvanized specimen to an accuracy of 1 mg.

(h) 40 W appliance light bulb.
(i) Distilled water, nitric acid 15.9 N, ammonium hydroxide (sp gr 0.90), chromium trioxide, silver nitrate, hydrochloric acid, reagent grade chemicals.

(j) Several non-corrosive plastic supports and a 150 g (0.33 lb) mass.

6.2.8.2 Specimen of Insulation Material.

A representative sample of the insulation material shall be submitted for test, portions of which shall be used for each test.

6.2.8.3 Procedure.

6.2.8.3.1 Make two replicate tests for each determination.

6.2.8.3.2 Wash the metal specimens with trichloroethylene to remove any oil or grease. Dry at room temperature.

6.2.8.3.3 Prepare foam specimens from blocks obtained from the test in par. 6.2.5. Cut a specimen 60 mm×60 mm 2.4×2.4 in square and 15 mm (0.6 in) thick from the block such that one of the 60×60 mm (2.4×2.4 in) surfaces is that obtained from foaming and not slicing the foam. All other surfaces of the specimen shall be obtained by slicing the foam. Compress the specimen between flat, parallel, non-corrosive plastic surfaces for 2 min. at 700±70 kPa (102±10 psi) to form wafers. Prepare 16 such wafers, noting which surfaces have been obtained from foaming. These surfaces shall be placed adjacent to the metal specimens in the tests.

6.2.8.3.4 Weigh the galvanized specimen and record its mass.

6.2.8.3.5 Place a non-corrosive plastic screen support in the small container. Place a foam wafer on the support at least 5 mm (0.2 in) above the bottom of the container. Place the metal specimen on the wafer; put another wafer on the metal specimen and then place on top of the sandwich a non-corrosive plastic screen and the 150 g (0.33 lb) mass. The 150 g (0.33 lb) mass shall not block airflow to the top wafer. Cover with the lid of the small container such that the container is closed but not sealed.

6.2.8.3.6 Place the small container in the large container, add sufficient distilled water to the large container and close the large container but do not seal it.

6.2.8.3.7 Place the assembly in an oven at 70±2° C (158±4° F) for 24 h.

6.2.8.3.8 Remove the assembly from the 70° C (158° F) oven, seal the large container and transfer the assembly to an oven maintained at 50±2° C (122±4° F). Maintain the assembly at this temperature for 28 days.

6.2.8.3.9 Upon completion of the test remove the assembly from the oven and dismantle. The large container shall still have some water in it; if there is no water present at the end of the test, then results for those materials passing the test are suspect and the test should be repeated.

6.2.8.3.10 Thoroughly wash the metal specimens under running water and lightly brush them to remove loose corrosion products. Remove the remaining corrosion products from the aluminum,

copper and steel specimens by immersing them in a solution of 10 parts distilled water to 1 part 15.9 N nitric acid. Remove the remaining corrosion products from the galvanized specimens by the procedure recommended in ASTM G1 in the method for the chemical cleaning of zinc after testing. Rinse all metal specimens in distilled water and dry.

6.2.8.3.11 Examine the aluminum, copper and steel specimens over a chrome-reflected, 40 W appliance bulb for perforations.

6.2.8.3.12 Examine the galvanized specimen for pitting and weigh the specimen and its control. The control shall be a specimen having the same number of perforations, be of the same geometric form and be from the same batch of truss plates as the specimen. The control shall not be exposed in the oven but shall be cleaned identically to the specimen. Subtract the loss in mass of the control from the loss in mass of the specimen.

6.2.9 Water absorption.

6.2.9.1 Floating test.

Cut three cubes, each 180×180×180 mm (7×7×7 in) from a block of foam. Accurately weigh each cube and place it on a distilled water surface. After 7 days at 23±2° C (73±4° F) and 50±5 percent RH, remove the cubes and accurately weigh them. Calculate the percentage water absorption on a volume basis. The surface in contact with the water shall be that obtained from foaming.

6.2.9.2 Droplet test.

Prepare a 3 percent solution of methyl violet in distilled water. Apply 5 drops, each 0.03 ml, of the solution by means of a syringe to a freshly cut horizontal surface of the foam and to a surface obtained from foaming. Measure the time required for the drops to be completely absorbed through the surface of the foam. This point in time may be ascertained under direct lighting as the moment when the area to which the drop has been applied becomes dull. Perform the test at 23±2° C (73±4° F) and 50 percent RH.

6.2.10 Surface Burning Characteristics.—The flame spread classification* shall be determined according to ASTM E 84 on a specimen at least 50 mm (2 in) thick. The surface tested shall be that obtained from foaming.

6.2.11 Ash content.—A foam specimen of known volume is placed in a muffle furnace at ambient temperature. The temperature of the furnace is raised to 950±50° C (1740±90° F) and maintained at that temperature for 16 h. Upon cooling the specimen, the volume of the ash is measured, and calculated as a percentage of the volume of the original foam specimen.

7. ADDITIONAL REQUIREMENTS AND NOTES

7.1 Requirements.—The following requirements in this bulletin should be specified in its application:

(a) The application procedure (par. 7.2).

*Values of flame spread classification are not intended to reflect hazards presented by this or any other material under actual fire conditions.

(b) Resistance to combined high temperature and high humidity (par. 7.3.2).

(c) The effective thermal resistance required (par. 7.3.3).

7.2 Application.—The material shall be installed in accordance with the manufacturer's specific instructions and the general guidelines given in par. 8. Manufacturers shall provide to their distributors or applicators a copy of their instructions for application.

7.3 Intended uses.

7.3.1 The material is intended for use as thermal insulation in walls of building constructions, and is accepted for use only in enclosed building cavities such as walls, partitions, and floors.

7.3.2 Resistance to combined high temperature and high humidity.—Available research data have indicated that the stability of urea-based foam insulation may be suspect when the material is subjected to an environmental condition of combined high temperature and high humidity. The foam insulation should not be applied in areas which experience prolonged periods of high temperature and high humidity. Since prolonged periods of high temperature and high humidity may be encountered in attics and ceilings, urea-based foam insulation shall not be applied in these locations.

7.3.3 Effective thermal resistance.—Data gathered from limited field observations of urea-based foam insulations in building constructions has shown that shrinkage of foam insulations has been between 1 and 11 percent on a linear basis after installation. These data suggest that the average linear shrinkage of the foams is about 6 percent. Because of shrinkage a reduction in thermal insulating ability of installed foams is anticipated. The thermal insulating ability of installed foams is herein referred to as the effective thermal resistance. The effective thermal resistance of foam installed in empty cavity walls shall be determined according to the method described in par. 7.3.3.1 or 7.3.3.2.

7.3.3.1 If the average percent shrinkage of the foam expected to occur in building constructions over a period of at least 2 years has not been established, then the average expected shrinkage of 6 percent shall be used to determine the effective thermal resistance. In this case the effective thermal resistance of the foam is 72 percent of the thermal resistance that would be obtained on a laboratory specimen of the same thickness as that of the cavity. The effective thermal resistance value may be calculated from the following:

$$\text{effective thermal resistance (m}^2\text{-C/w)} = \frac{R (\text{m}^2\text{-C/w)} \times T (\text{cm}) \times 72}{750}$$

$$\text{effective thermal resistance (ft}^2\text{-h-F/Btu)} = \frac{R (\text{ft}^2\text{-h-F/Btu)} \times T (\text{in}) \times 72}{300}$$

where
T=the thickness of the cavity
R=the thermal resistance of the foam determined in accordance with par. 6.2.7.

NOTE.—A 3-inch specimen is used in par. 6.2.7 test. Thus 3×100 (300) in formula reduces the result to proper units and percentage, respectively.

7.3.3.2 If the average percent shrinkage of the foam expected to occur in building construction over a period of at least 2 years can be established by the manufacturer or the Department of Housing and Urban Development this value of average percent shrinkage may be used to determine the effective thermal resistance. The percent reduction in the thermal insulating ability of the installed foam corresponding to the established percent shrinkage is illustrated in figure 1. In this case, the effective thermal resistance of the foam can be determined by using the reduction factors corresponding to the percent shrinkage

given in table 1 and is calculated from the following:

$$\text{effective thermal resistance (m}^2\text{-C/w)} = \frac{R (\text{m}^2\text{-C/w)} \times T (\text{cm}) \times RF}{750}$$

$$\text{effective thermal resistance (ft}^2\text{-h-F/Btu)} = \frac{R (\text{ft}^2\text{-h-F/Btu)} \times T (\text{in}) \times RF}{300}$$

where
T=the thickness of the cavity
R=the thermal resistance of the foam determined in accordance with par. 6.2.7.
RF=the reduction factor corresponding to the average established percent shrinkage given in table 1.

NOTICES

7.3.3.3 For applications where the foam is installed in cavity walls already containing a mineral fiber batt against one wall, shrinkage of the foam is also anticipated to reduce the expected thermal resistance of the resulting insulation system. The effective thermal resistance of this insulation system is not determined at this time.

7.4 The publications identified in par. 2.1.2 are available from the American Society for Testing and Materials, 1916 Race Street, Philadelphia, Pa. 19103.

7.5 The publication identified in par. 2.1.2 is available from the National Fire Protection Association, 470 Atlantic Avenue, Boston, Mass. 02210.

8. GENERAL GUIDELINES FOR APPLICATION

Each manufacturer's recommended set of application instructions differs slightly from those of the other manufacturers because of variations in foam formulation and differences in design of the gun for applying the foam. It is not feasible to recommend a detailed set of application guidelines that would be universally applicable to each of the urea-based foam systems which are currently available in the United States.

This section presents a general set of guidelines to assist contractors, inspectors and users in ascertaining that the proper application procedures and certain safety precautions are being followed. These general guidelines should be used in conjunction with the manufacturer's specific instructions for application (par. 7.2).

The general set of guidelines includes: Foam installation should be performed by an applicator who has been trained or approved by the foam manufacturer. Installation by an inexperienced applicator may result in an unacceptable foam which may perform poorly.

Foams shall not be applied in ceilings or attics (par. 7.3.2).

Foams shall not be applied in exposed applications (par. 3.3). U.S. model building codes require that all foam plastics used on the inside of buildings in walls be protected by a thermal barrier of fire-resistant materials having a finish rating of not less than fifteen minutes. In addition, exposed urea-based foams may be subject to photodegradation.

Prior to the application of foams in warehouses or similar buildings where foodstuffs may be stored in the open, it should be determined if this type of application presents a safety hazard. Possible safety hazards presented by the application of foams to buildings which store foodstuffs in the open have not been addressed in this bulletin.

Foaming equipment should be kept clean and well-maintained. Manufacturers have cleaning and maintenance recommendations for their equipment.

Dates after which the resins and foaming agents are not usable should be clearly labeled on the resin and foaming-agent containers (par. 5.1.2). These dates (or shelf-lives), as recommended by the manufacturers, should never be exceeded.

The resins and foaming agents should be stored within the temperature range recommended by the manufacturer. Some U.S. manufacturers have recommended that 21 °C (70 °F) is the maximum storage temperature for their materials. The Canadian Government Specification Board has proposed a storage temperature range of 10 to 30 °C (50 to 86 °F). In general, as the storage temperature is increased the shelf-life is shortened.

The temperatures of the resins and foaming agents as they enter the foaming gun should normally be within the range of 15 to 30 °C (59 to 86 °F), unless otherwise specified by the foam manufacturer. One U.S. manufacturer recommends that his materials enter the gun at temperatures not less than 21 °C (70 °F). The maximum temperature of 30 °C (86 °F) should never be exceeded. For cold weather applications, the resins and foaming agents should be kept in a heated area (normally the applicator's van) during foam production, and the supply-lines from the storage containers to the foaming gun may have to be insulated.

The temperature of the exterior surface of the cavity in which foams are to be applied should be within the range of -5 to 30 °C (23 to 86 °F). It is recommended that these temperature limits should not be exceeded for a period of four days after application.

The resins and foaming agents should be pumped to the foaming gun at pressures recommended by the foam manufacturers.

Power lines in excess of 200 volts within cavities in which foams are to be applied should be shut off until the foams have dried or until the cavities are sealed.

Power lines in excess of 110 volts within cavities in which foams are applied should be shut off during application if foaming is performed with the applicator standing on wet ground or not electrically insulated from wet ground.

The appearance of the foams should be checked immediately before application. The foams should be fluffy with a warty surface. When the foams are sliced, the cells should be uniform.

The setting time of the foams should be determined before application and should be no less than 20 seconds and no longer than 60 seconds for application into closed cavities, and no less than 10 seconds and no longer than 60 seconds for applications into open cavities (par. 4.2.1).

The wet density of the foams should be determined before application and should lie within the manufacturer's specified range for the wet density. The normal wet density of the foams is approximately 40 kg/m³ (2.5 lb/ft³). Wet density is measured by filling a container of known weight and volume and then weighing the filled container.

If the foams are inadvertently sprayed on aluminum building components such as door frames, window frames, or awnings, the foams should be removed immediately and the aluminum component should be rinsed thoroughly with water.

In cases where it is anticipated that an aluminum component may be sprayed during application, the component should be protected before application begins.

Foams which are sprayed on glass should be removed by rinsing with water. Water present in the foams at application should be permitted to escape from the wall while the foams dry in the cavity. In cases where the two wall surfaces may restrict the water vapor transmission, the foam should not be applied unless provisions are provided to allow the water in the wall to escape.

In applying the insulation in exterior walls of homes which are located in geographic locations, having long cold winters, consideration should be given to applying a vapor barrier on the interior (warm side) surface of the wall. The absence of the vapor barrier on the interior of the insulated wall may cause condensation and the accumulation of excessive moisture within the wall. This may lead to problems such as blistering and peeling of paint, buckling of wood siding or in extreme cases, rotting of wood members within the wall. A vapor barrier may be created by applying a low permeability paint or vinyl wallpaper to the surface of the interior wall.

In retrofitting the walls of residences with any type of insulation, if the need arises to verify the completeness of filling the wall cavities, one method which can be used is infrared thermography.

9. CERTIFICATION

Each manufacturer shall certify that his approved applicators of urea-based foamed resin insulation are licensed as such and carry a current certificate of qualification and an identification card. [FR Doc.77-29925 Filed 10-12-77;8:45 am]

[Serial No. I-9904]

IDAHO

Termination of Proposed Withdrawal and Reservation of Lands

Notice of an application, serial number I-9904, for withdrawal and reservation

of lands was published as FEDERAL REGISTER Document No. 75-25901 on page 44591 of the issue for September 29, 1975. The applicant agency has canceled its application insofar as it involved the lands described below. Therefore, pursuant to the regulations contained in 43 CFR, Subpart 2091, such lands will be at 10 a.m., on November 7, 1977, relieved of the segregative effect of the above mentioned application.

The lands involved in this notice of termination are:

BOISE MERIDIAN

CARIBOU NATIONAL FOREST

West Fork Mink Creek Research Natural Area

Applications

OCTOBER 4, 1977.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), El Paso Natural Gas Co. has applied for four 4 $\frac{1}{2}$ -inch natural gas pipelines with related facilities rights-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 26 N., R. 7 W.,

Sec. 3, lot 1 and SE $\frac{1}{4}$ NE $\frac{1}{4}$.

T. 29 N., R. 9 W.,

Sec. 10, S $\frac{1}{2}$ SE $\frac{1}{4}$.

T. 30 N., R. 9 W.,

Sec. 31, NE $\frac{1}{4}$ SE $\frac{1}{4}$.

T. 32 N., R. 11 W.,

Sec. 13, NW $\frac{1}{4}$ SE $\frac{1}{4}$.

These pipelines will convey natural gas across 0.569 miles of public lands in Rio Arriba and San Juan Counties, N. Mex.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the applications should be approved, and if so, under what terms and conditions. Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1397, Roswell, N. Mex. 88201.

STELLA V. GONZALES,

Acting Chief, Branch of Lands and Minerals Operations.

WYOMING

Application

SEPTEMBER 29, 1977.

Notice is hereby given that pursuant to Section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Powder River Pipeline Corp. of Casper, Wyo., filed an application for a right-of-way to construct a 6 $\frac{1}{2}$ -inch pipeline for the purpose of transporting crude oil across the following described public lands:

SIXTH PRINCIPAL MERIDIAN, WYO.

T. 44 N., R. 77 W.,

Sec. 2, lots 1 and 2.

T. 45 N., R. 77 W.,

Sec. 35 SE $\frac{1}{4}$ SE $\frac{1}{4}$.

The pipeline will transport crude oil from wells in section 36, T. 45 N., R. 77 W., to present facilities in section 16, T. 45 N., R. 77 W., Johnson County, Wyo.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions. Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, 951 Union Boulevard, Casper, Wyo. 82601.

**JOINT BOARD FOR THE
ENROLLMENT OF ACTUARIES
ADVISORY COMMITTEE ON JOINT BOARD
ACTUARIAL EXAMINATIONS**

Meeting

Notice is hereby given that the Advisory Committee on Joint Board Actuarial Examinations will meet in the Continental Plaza Hotel, North Michigan at Delaware, Chicago, Ill. on October 31, 1977 at 9 a.m.

The purposes of the meeting are to discuss questions which may be recommended for inclusion in the Joint Board's examinations in actuarial mathematics and methodology referred to in Title 29 U.S. Code, Section 1242(a) (1) (B); to review other actuarial examinations in order to make recommendations regarding such examinations' adequacy to demonstrate the education and training in actuarial mathematics and methodology required for enrollment by Title U.S. Code, Section 1242(a) (1); and to review college degree programs in order to make recommendations regarding such programs' equivalence to programs leading to degrees in actuarial mathematics within the meaning of Title 29 U.S. Code, Section 1242(a) (1) (A).

A determination as required by Section 10(d) of the Federal Advisory Committee Act (Pub. L. 92-463) has been made that the portion of the meeting dealing with discussion of questions which may appear on the Joint Board's examinations will fall within the exceptions to the open meeting requirement set forth in Title 5 U.S. Code, Section 552b(c) (9) (B), and that the public interest requires that such portion be closed to public participation.

The portion of the meeting dealing with other actuarial examinations and college degree programs will commence at approximately 3:30 p.m. and will be open to the public as space is available. Time permitting, after discussion of agenda subjects by Committee members, interested persons may make statements germane to these subjects. Persons wishing to make oral statements should advise the Committee Management Officer in writing prior to the meeting to aid in scheduling the time available and should submit the written text, or, at a minimum, an outline of comments they propose to make orally. Such comments will be restricted to ten minutes in length. Any interested person may file a written statement for consideration by the Committee by sending it to Mr. Leslie S. Shapiro, Joint Board for the Enrollment of Actuaries, % U.S. Department of the Treasury, Washington, D.C. 20220.

LESLIE S. SHAPIRO,
Advisory Committee Management Officer, Joint Board for the Enrollment of Actuaries.

**Bureau of Prisons
NATIONAL INSTITUTE OF CORRECTIONS
ADVISORY BOARD**

Meeting

Notice is hereby given that the National Institute of Corrections Advisory Board in accordance with section 10(a) (2) of the Federal Advisory Committee Act (Pub. L. 92-463; 86 Stat. 770), will meet on Sunday, November 27, 1977, starting at 5 p.m., and on Monday, November 28, 1977, starting at 8 a.m., in the Conference Room of the Federal Bureau of Prisons Regional Office, K.C.I. Bank Building, 8800 Northwest 112th Street, Kansas City, Mo.

This meeting has two primary purposes: (1) Board re-examination of the Institute's role in light of selected issues facing corrections today; and (2) preparation of a recommendation to the Attorney General on the appointment of a Director for the National Institute of Corrections.

Signed at Washington, D.C., this 5th day of October 1977.

JOHN A. WALLACE,
Acting Director.

**NUCLEAR REGULATORY
COMMISSION**

[Docket No. 50-285]

**OMAHA PUBLIC POWER DISTRICT
Proposed Issuance of Amendment To
Facility Operating License**

The Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR-40 issued to Omaha Public Power District (the licensee), for operation of the Fort Calhoun Station, Unit No. 1, located in Washington County, Nebraska.

The amendment would revise the provisions in the Technical Specifications relating to (1) increasing the High Power trip from 106.5 percent to 107 percent rated power; (2) changing the method of calculating the peaking factors used for determining reactor core power distributions; (3) changing the operational insertion limits for various Control Element Assemblies (CEA) operability modes (i.e., untrippable, inoperable or misaligned); and, (4) removing the Turbine Runback (to 70 percent rated power) signals from both the CEA Insertion Limit Switches and the Power Range Nuclear Instrumentation, in accordance with the licensee's application for amendment, dated July 25, 1977.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's rules and regulations.

By November 14, 1977, the licensee may file a request for a hearing and any person whose interest may be affected

by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject facility operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER Notice and Section 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Margaret R. A. Paradis, Esquire, LeBoeuf, Lamb, Leiby & MacRae, 1757 N Street, NW., Washington, D.C. 20036, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party of the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the application for amendment dated July 25, 1977, which is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Blair Public Library, 1665 Lincoln St., Blair, Nebr.

Dated at Bethesda, Md., this 5th day of October 1977.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Operating Reactors Branch No.
3, Division of Operating Reactors.

[FR Doc.77-29945 Filed 10-12-77;8:45 am]

NOTICES

[3110-01]

**OFFICE OF MANAGEMENT AND
BUDGET**

**PRIVACY ACT OF 1974
Reports on New Systems**

The purpose of this notice is to list reports on new systems filed with the Office of Management and Budget to give members of the public the opportunity to make inquiries about them and to comment on them.

The Privacy Act of 1974 requires that agencies give advance notice to the Congress and the Office of Management and Budget of their intent to establish or modify systems of records subject to the Act (5 U.S.C. 552a(o)). During the period September 19 through September 30, 1977 the Office of Management and Budget received the following reports on new (or revised) systems of records.

**COMMODITY FUTURES TRADING
COMMISSION**

System names. (1) Exchange Disciplinary Action File. (2) Customer Repatriation Complaints.

Report date. September 13, 1977.

Point-of-contact. Mr. John G. Gaine, General Counsel, Commodity Futures Trading Commission, 2033 K Street NW., Washington, D.C. 20581.

Summary. The first system consists of letters of notification of disciplinary or other adverse action taken by an exchange against individuals; the second includes correspondence and papers related to claims against commodity industry professionals.

DEPARTMENT OF DEFENSE

System names. (1) ICBM Standardization and Evaluation Program. (2) Equipment Maintenance Management Program. (3) Passenger Reservation and Movement System.

Report date. September 14, 1977.

Point-of-contact. Mr. William Cavanaugh, Defense Privacy Board, Room 5H-023, Forrestal Bldg., 1000 Independence Ave., SW., Washington, D.C. 20314.

Summary. The first system will be used to record individuals' maintenance task performance results; the second, to maintain maintenance and management control of valuable precision measurement equipment; the third system will be used to prepare aircraft manifests for DOD-related passenger identification and movement and to manage and plan DOD-related air and travel.

System name. Marine Corps Institute Correspondence Training Records Systems.

Report date. September 16, 1977.

Point-of-contact. Mr. William Cavanaugh, Defense Privacy Board, Room 5H-023, Forrestal Bldg., 100 Independence Ave., SW., Washington, D.C. 20314.

Summary. The proposed system will identify enrollees, their addresses, and their progress in their studies, as well as final examination results.

DEPARTMENT OF THE INTERIOR

System. Pilot Flight Time Report.
Report date. September 22, 1977.

Point-of-contact. Mr. Wayne D. Garrett, Office of Aircraft Service, 3905 Vista Ave., Boise, Idaho 83705.

Summary. The system will provide Interior Department pilots and their supervisors with a monthly report on recent flight experience as required by the Federal Aviation Regulation (FARS).

VELMA N. BALDWIN,
Assistant to the Director
for Administration.

**SECURITIES AND EXCHANGE
COMMISSION**

[Release No. 20202, 70-57561]

**ARKANSAS-MISSOURI POWER CO. AND
ASSOCIATED NATURAL GAS CO.**

Proposal To Make Short-Term Borrowings From Banks; Exception From Competitive Bidding

OCTOBER 6, 1977.

In the Matter of Arkansas-Missouri Power Co. and Associated Natural Gas Co., 405 West Park Street, Blytheville, Ark. 72315.

Notice is hereby given that Arkansas-Missouri Power Co. ("Arkansas-Missouri"), a wholly-owned subsidiary of Middle South Utilities, Inc., a registered holding company, has filed a post-effective amendment to an application-declaration previously filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act") designating Sections 6(a) and 7 of the Act and Rule 50(a)(2) promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the post-effective amendment, which is summarized below, for a complete statement of the proposed transaction.

Arkansas-Missouri proposes to make unsecured short-term borrowings from 37 commercial banks from time to time for a period of one year from the effective date of this post-effective amendment in an aggregate amount not to exceed \$7,750,000 at any one time outstanding. To effect such borrowings Arkansas-Missouri proposes issue and sell to the First National Bank in Little Rock, Little Rock, Ark., for the account of participating banks, an unsecured promissory note payable not more than 270 days from the date of issuance and which may be renewed from time to time but to mature not later than one year from the effective date of the post-effective amendment. The note will bear interest at the prime rate in effect from time to time at Chemical Bank, New York, N.Y. and no compensating balances will be required in connection with the proposed borrowings. Except as stated above, the terms and conditions

of these borrowings, including the form of the note to be issued by Arkansas-Missouri, applicable interest rate, and right of prepayment, will be the same as those set forth in the application-declaration and the Commission's order of November 26, 1975 and November 12, 1976 (HCAR Nos. 19264 and 19756). Such borrowings will be in addition to other bank borrowings by Arkansas-Missouri from Worthen Bank & Trust Co., Little Rock, Ark., which total \$5,000,000 at the present time, and may not exceed \$5,500,000 at any one time outstanding (HCAR Nos. 19511 and 19993, May 4, 1976 and April 19, 1977). The net proceeds of the borrowings will be applied to the payment at maturity of Arkansas-Missouri's presently outstanding bank borrowings previously authorized by the Commission. Arkansas-Missouri currently intends to repay the proposed borrowings from the proceeds of permanent financing or come available to Arkansas-Missouri.

It is stated that the issuance and sale of the note is exempted from the competitive bidding requirements of Rule 50 by reason of paragraph (a) (2) thereof. Arkansas-Missouri states that no separate or special expenses are anticipated in connection with the proposed transaction. It is further stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than October 31, 1977, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicants-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the post-effective amendment, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices or orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[8010-01]

[Release No. 34-14029; File No. SR-CBOE-1977-19]

CHICAGO BOARD OPTIONS EXCHANGE, INC.

Self-Regulatory Organizations; Proposed Rule Change

Pursuant to Section 19(b) (1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b) (1) as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on September 22, 1977 the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The proposed rule change would repeal rule changes set forth in SR-CBOE-77-6 and approved by the Commission (Securities Exchange Act Release No. 13673 (June 24, 1977)). The rule changes proposed to be repealed provide, among other things, enabling authority for the award of board broker appointments on the basis of competitive bidding and for an assessment of exchange fees upon members who utilize board broker services. The text of the rules changes proposed to be deleted was published in Volume 42 of the FEDERAL REGISTER at pages 20871-2 (April 22, 1977).

STATEMENT OF BASIS AND PURPOSE

The purpose of the proposed rule change is to repeal those amendments to the Exchange's rules contained in SR-CBOE-1977-6 approved by the Securities and Exchange Commission on June 24, 1977. No action on the proposed rule change was taken by the Board of Directors and no other purpose was stated in the petition described above.

The proposed rules change would reestablish the rules under which the Exchange has been operating pending implementation of the rules contained in SR-CBOE-1977-6. Such rules have previously been approved by the Securities and Exchange Commission.

No comments have been solicited, nor have any comments been received from members on the proposed rules changes. The proposed rule changes will not impose any burden upon competition.

On or before November 17, 1977, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Sec-

retary of the Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before November 3, 1977.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

OCTOBER 6, 1977.

[Rel. No. 9952; 812-4172]

INVESTORS SYNDICATE OF AMERICA, INC. AND INVESTORS DIVERSIFIED SERVICES, INC.

Application for Exemption, Etc.

OCTOBER 6, 1977.

In the Matter of Investors Syndicate of America, Inc. and Investors Diversified Services, Inc., IDS Tower, Minneapolis, Minn. 55402.

Notice of filing of an application pursuant to section 6(c) of the Act for an Order of exemption from the provisions of sections 14(a) (1), 12(d) (1) (A), and 12(f), and for approval of an offer of exchange pursuant to Section 11(a) of the Act; and pursuant to Section 17(b) of the Act for order exempting certain proposed transactions between affiliated persons from Section 17(a); and pursuant to Section 17(d) and Rule 17d-1 for order permitting consummation of certain proposed transactions; and for continuation of certain outstanding orders; and for an order pursuant to Section 28 (c) of the Act approving a form of depository agreement relating to a face-amount certificate company.

Notice is hereby given that Investors Diversified Services, Inc. ("IDS"), a diversified financial services company which acts as a principal underwriter and investment adviser for its wholly-owned subsidiary, Investors Syndicate of America, Inc. ("ISA") and ISA, a face-amount certificate company registered under the Investment Company Act of 1940 ("Act") (hereinafter collectively "Applicants") filed an application on August 11, 1977, and an amendment thereto on September 13, 1977, pursuant to Section 6(c) of the Act for an order of exemption from the provisions of Sections 14(a) (1), 12(d) (1) (A), and 12(f); and for approval of an offer of exchange pursuant to Section 11(a) of the Act; and pursuant to Section 17(b) of the Act for an order exempting certain proposed transactions between affiliated persons from Section 17(a); and pursuant to Section 17(d) and Rule 17d-1 for an

order permitting consummation of certain proposed transactions; and for continuation of certain outstanding orders; and for an order pursuant to Section 28 (c) of the Act approving a form of depository agreement relating to a face-amount certificate company. All interested persons are referred to the Application on file with the Commission for a statement of the representations contained therein, which are summarized below.

IDS, the parent company of ISA, comprises with its subsidiaries a diversified financial service organization engaging in the businesses of selling and issuing face-amount investment certificates (through ISA); providing investment advisory and administrative services to, and distribution of the securities of, investment companies; life insurance and annuities; securities brokerage; mortgage operations (including providing advisory services to a real estate investment trust); ownership of real properties; and providing investment advisory services to pension funds and pools of privately-owned capital.

Applicants represent that the investment flexibility of ISA is limited by certain restrictions peculiar to investment companies incorporated in Minnesota. Applicants state that Minnesota imposes a "shares tax" on the capital surplus and undivided profit of domestic investment companies to the extent that such amounts exceed the value of qualifying Minnesota investments (bonds issued by Minnesota municipalities and interests in Minnesota real estate). Applicants further state that because of the high rate of this tax (currently about 4 percent per annum) and the fact that the tax is based upon asset values rather than earnings, an investment company incorporated in Minnesota is compelled to invest an amount at least equal to the sum of capital, surplus and undivided profit in Minnesota investments. Applicants assert that ISA currently maintains over 12 percent of its assets in Minnesota investments.

Applicants represent that, in order to achieve substantially greater flexibility in choosing investments, they desire to reincorporate ISA, a Minnesota corporation, by forming a subsidiary as a Delaware corporation ("ISA-Delaware"), and merging ISA into ISA-Delaware. Applicants represent that the merger of ISA into ISA-Delaware will be effectuated pursuant to a Plan and Agreement of Merger and in accordance with the requirements of Minnesota and Delaware law. Applicants further represent that this change of domicile (from Minnesota to Delaware) and resultant broadened investment flexibility can be expected to produce better overall investments bearing higher returns; and to the extent that a higher return is achieved, it will be a factor in ISA-Delaware's ability to pay higher additional credits to its certificate holders.

Applicants state that, solely for the purpose of the proposed statutory merger, ISA will organize and incorporate its subsidiary, ISA-Delaware with minimum paid in capital and with author-

ized capital stock sufficient to cover the subsequent exchange for ISA capital stock. Applicants represent that simultaneous with the consummation of the proposed merger ISA-Delaware will become registered as a face-amount certificate company under the Act. Applicants further state that, prior to the merger, ISA-Delaware will have no assets or liabilities other than the minimum paid-in capital. Applicants assert that, prior to the proposed merger, no business will be transacted by ISA-Delaware. Applicants further represent that, pursuant to the Plan and Agreement of Merger and in accordance with Delaware law, the surviving corporation, ISA-Delaware, will succeed to all the assets, liabilities, rights and obligations of ISA, including outstanding certificates. ISA-Delaware will have the same officers, directors, auditors and investment policies as ISA.

In order to effectuate the reincorporation discussed above, Applicants request exemptions from the following provisions of the Act to the extent noted below:

SECTION 14(a) (1)

Section 14(a) (1) of the Act provides, in pertinent part, that no registered investment company organized after the enactment of this title shall make a public offering of its securities unless such company has a net worth of at least \$100,000.

Applicants seek an exemption from the provisions of Section 14(a) (1) of the Act pursuant to Section 6(c) so as to permit Applicants to organize and incorporate its subsidiary, ISA-Delaware, with less than \$100,000 capital prior to the merger. Applicants represent that the exemption is appropriate here because, prior to the merger, no face-amount certificate will be issued or sold, and no business transacted by ISA-Delaware other than Delaware incorporation and qualification procedures necessary for the merger. Applicants further represent that since upon consummation of the merger ISA-Delaware will succeed to all the assets, liabilities, rights and obligations of ISA which substantially exceed the requirements of Sections 14 and 28 of the Act, ISA-Delaware will have adequate assets and reserves when it commences operations.

SECTION 11(a) AND 11(c)

Section 11(a) of the Act provides that it shall be unlawful for any registered open-end company, or any principal underwriter for such a company, to make, or cause to be made, an offer to the holder of a security of such a company, or of any other open-end investment company, to exchange his security for a security in the same or another such company on any basis other than the relative net asset values of the respective securities to be exchanged unless the terms of the offer have first been submitted to and approved by the Commission. Section 11(c) (2) provides that, irrespective of the basis of exchange, the provisions of Section 11(a) shall be applicable to any type of offer of ex-

change of the securities of registered face-amount certificate companies for the securities of any other investment company.

As the Applicants' Plan and Agreement of Merger provides for the exchange of securities between two registered face-amount certificate companies, ISA and ISA-Delaware, the proposed transaction, in the absence of prior approval by the Commission, would be prohibited by Sections 11(a) and 11(c) (2) of the Act. Accordingly, Applicants request the approval of the Commission pursuant to Section 11(a) of the Act of an offer of exchange between ISA and ISA-Delaware to be made pursuant to the proposed Plan and Agreement of Merger described herein.

In support of the relief requested Applicants state that ISA intends to submit its Plan and Agreement of Merger for approval of IDS which holds 100 percent of the stock of ISA. Applicants further state that the shareholder and certificate holders of ISA will become respectively the shareholder and certificate holders of ISA-Delaware with their preferences and privileges remaining unchanged.

Applicants represent that no expenses will be incurred by the certificate holders in conjunction with the proposed transaction, the principal abuse to which Section 11(a) of the Act is directed, and there will be no substantive differences in the shareholder or certificate holders rights under Delaware law. Applicants further represent that no compensation will be paid to any sales representative in connection with any such exchange.

SECTIONS 12(d) (1) (A) AND 12(f)

As noted above, Applicants propose to change the domicile of ISA from Minnesota to Delaware by forming a subsidiary as a Delaware corporation, and merging ISA and ISA-Delaware pursuant to a Plan and Agreement of Merger. As this Plan and Agreement of Merger provides for the exchange of all the shares and face-amount certificates of ISA for all the shares and face-amount certificates of ISA-Delaware, the proposed transaction might be deemed to violate Sections 12(d) (1) and 12(f) of the Act. Therefore, Applicants seek an order of exemption from the provisions of Sections 12(d) (1) and 12(f) of the Act pursuant to Section 6(c).

Section 12(d) (1) of the Act provides that a registered investment company may not purchase or otherwise acquire securities issued by another investment company if, as a result of such transaction, the acquiring company would own in the aggregate: (1) more than 3 percent of the total outstanding voting stock of the acquired company; (2) securities issued by the acquired company having an aggregate value in excess of 5 percent of the value of the total assets of the acquiring company; or (3) securities issued by the acquired company and all other investment companies having an aggregate value in excess of 10 percent of the value of the total assets of the acquiring company.

U
M
I

Section 12(f) states, in effect, that a registered face-amount certificate company can organize and acquire all or any part of the capital stock of another face-amount certificate company, within certain limitations pertaining to the aggregate cost of the capital stock of such organized face-amount company, provided such stock is acquired and held for investment.

Applicants represent that prior to the merger ISA will own all of the outstanding securities of ISA-Delaware which will not function as an operating company. Applicants further note that upon consummation of the merger the separate existence of ISA will cease and the surviving corporation, ISA-Delaware, will succeed to all the assets, liabilities, rights and obligations of ISA, including outstanding certificates.

Applicants state that, other than the change of domicile from Minnesota to Delaware, the structure of the face-amount certificate company will remain the same. As noted above, Applicants represent that ISA-Delaware will retain the same officers, directors and independent auditors as ISA. Applicants also represent that ISA-Delaware will follow the same investment policies as ISA and the character of the business of ISA will remain the same in ISA-Delaware. Applicants further represent that prior to the merger no management fee will be incurred by ISA-Delaware and, upon consummation of the merger the investment advisory and distribution contracts of ISA will terminate and identical ones entered into with the surviving corporation, ISA-Delaware. On the basis of the foregoing, Applicants submit that the proposed transaction will not result in the undue concentration of control of an investment company through pyramiding nor in the layering or duplication of management fees and costs, nor create complexities in the structure of an investment company, the principal abuses at which Section 12 of the Act is directed.

SECTION 6(c)

Section 6(c), in pertinent part, authorizes the Commission upon application to conditionally or unconditionally exempt any person, security or transaction, or any class or classes of persons, securities or transactions, from any provision of the Act or of any rule or regulation promulgated thereunder, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

The Plan and Agreement of Merger by which applicants propose to change the domicile of ISA from Minnesota to Delaware by forming a subsidiary as a Delaware corporation, and merging ISA into ISA-Delaware will be approved by IDS as the sole shareholder of ISA, ISA as the sole shareholder of ISA-Delaware, and by the boards of directors of ISA and ISA-Delaware. The Plan and Agreement of Merger provides that the stock of ISA will be exchanged for the stock of ISA-Delaware. Applicants represent that

simultaneous with the consummation of the proposed merger, ISA-Delaware will become a registered investment company under the Act. Applicants further represent that pursuant to the Plan and Agreement of Merger, and in accordance with Minnesota and Delaware law, the separate existence of ISA will cease and the surviving corporation, ISA-Delaware (as noted above), will succeed to all the assets, liabilities, rights and obligations of ISA, including outstanding certificates.

Section 17(a) of the Act, in pertinent part, prohibits an affiliated person of a registered investment company or any affiliated person of such an affiliated person, acting as principal, from knowingly selling any security or other property to such registered company or knowingly purchasing any security or other property from such registered company subject to certain exceptions.

Section 17(b) of the Act provides, however, that the Commission, upon application, may exempt a proposed transaction from the provisions of Section 17(a) of the Act if evidence establishes that the terms of the proposed transaction including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned, and the proposed transaction is consistent with the policy of each registered investment company concerned, and with the general purposes of the Act.

Section 17(d) of the Act and Rule 17d-1 thereunder provide, in pertinent part, that it shall be unlawful for any affiliated person of a registered investment company, or any affiliated person of such a person, acting as principal, to participate in or effect any transaction in connection with any joint enterprise or other joint arrangement in which such registered company, or company controlled by such registered company, is a participant unless an application regarding such joint enterprise or arrangement has been filed with the Commission and an order granting such application has been issued. In passing upon such application, the Commission will consider whether the participation of such registered or controlled company in such joint enterprise or joint arrangement on the basis proposed is consistent with the provisions, policies and purposes of the Act, and the extent to which such participation is on a basis different from, or less advantageous than that of other participants. A joint enterprise or other joint arrangement is defined in Rule 17d-1 as any written or oral plan, contract, authorization or arrangement, or any practice or understanding concerning an enterprise or undertaking whereby a registered investment company or a controlled company thereof, and any affiliated person of such person, have a joint or a joint and several participation, or share in the profits of such enterprise or undertaking.

IDS acts as the principal underwriter and investment adviser of its wholly-owned subsidiary, ISA. ISA, in turn, owns 100 percent of the stock of its subsidiary,

ISA-Delaware. Accordingly, IDS, ISA and ISA-Delaware are affiliated persons of each other within the meaning of Section 2(A) (3) of the Act.

Therefore, the proposed merger of ISA into ISA-Delaware might be deemed to constitute the sale of a security by a registered investment company to an affiliated person of such investment company and, concurrently, the purchase of a security by such investment company from an affiliated person thereof. Moreover, the incorporation of ISA-Delaware and the consent, adoption and implementation of the Plan and Agreement of Merger by IDS, ISA and ISA-Delaware might be deemed to constitute a "joint transaction" between a registered investment company and affiliated persons of such registered investment company. Accordingly, Applicants request an order exempting the proposed transactions from the provisions of Section 17(a) of the Act pursuant to Section 17(b) and permitting the consummation of the proposed transactions pursuant to Section 17(d) and Rule 17d-1.

Applicants represent that the incorporation of ISA-Delaware and its subsequent merger with ISA is proposed solely as a means for changing the domicile of ISA to Delaware. Applicants represent that upon consummation of the merger ISA-Delaware will essentially be the same company as ISA was prior to the merger. As noted above, Applicants represent that ISA-Delaware will retain the same officers, directors and independent auditors as ISA. Applicants represent that the investment policy of ISA-Delaware will be the same as ISA's investment policy recited in its registration statements and reports filed with the Commission. Applicants represent that the shareholders and certificate holders of ISA will become shareholders and certificate holders of ISA-Delaware with no change in their respective interests. Applicants represent that no expenses will be incurred by certificate holders and there will be no substantive differences in the rights of shareholders and certificate holders under Delaware law. Applicants represent that ISA and ISA-Delaware will be organized, operated and managed both before and after the merger in the best interests of all their security holders and not in the best interest of the directors, officers, investment advisers, depositors or affiliated persons thereof, nor in the interest of any special class of security holders.

Applicants submit on the basis of the foregoing that the terms of the proposed transactions are reasonable and fair and do not involve overreaching. Applicants further represent that the proposed transactions are consistent with ISA's investment policy and the purposes of the Act, and that the participation by IDS, ISA, and ISA-Delaware in the proposed transactions is not on a basis less advantageous than that of other participants.

SECTION 28(c)

Section 28(c) provides, among other things, that the Commission shall by

rule, regulation, or order in the public interest or for the protection of investors, require a registered face-amount certificate company to deposit and maintain, upon such terms and conditions as the Commission shall prescribe and as are appropriate for the protection of investors, with one or more institutions, having the qualifications required by Section 26(a) (1) of the Act for a trustee of a unit investment trust, all or any part of the investments maintained by such company as certificate reserve requirements under the provisions of Section 28(b) of the Act.

On November 16, 1940, the Commission issued an order (Investment Company Act Release No. 18) approving a general depository agreement ("Agreement") between ISA and the Marquette National Bank ("Bank") requiring ISA to deposit and maintain, in accordance with the terms and conditions set forth in the Agreement, with the Bank or with some other trustee or trustees having the qualifications required by paragraph 1 of Section 26(c) of the Act, qualified assets at least equal to the certificate reserve requirements of Section 28 of the Act for certain outstanding certificates. The Agreement further provided that the semi-annual and annual statements regarding the aggregate value of ISA's assets, required to be filed with the Bank in January and July of each year, be audited and certified by independent accountants. However, the Commission by an order dated September 16, 1977 (Investment Company Act Release No. 9935) approved an amendment to the Agreement between ISA and the Bank so as to only require annual rather than semi-annual certification of financial statements of ISA by an independent public accountant. The Commission has also issued orders, contained in Investment Company Act Release Nos. 792, 1895, 3105, 3552, 3751, 4390, 6810, 8551, 8821 and 9188, granting applications for amendments to the Agreement to include coverage of new series of securities proposed to be issued by ISA.

Applicants request an order pursuant to Section 28(c) of the Act approving a form of depository agreement between ISA-Delaware and the Bank.

In support of the application Applicants represent that, other than the change of domicile, the face-amount certificate company will remain the same after the merger; and that the surviving corporation, ISA-Delaware, will succeed to all the liabilities, rights and obligations of ISA, which include assets and reserves substantially in excess of those required by Section 28 of the Act. Applicants further represent that the depository agreement between ISA-Delaware and the Bank is identical to the existing depository agreement between ISA and the Bank, as amended by Investment Company Act Release No. 9335.

CONTINUATION OF CERTAIN OUTSTANDING EXEMPTIVE ORDERS

Applicants finally request that certain outstanding exemptive orders issued to ISA by the Commission be continued upon the consummation of the proposed

merger of ISA into ISA-Delaware, and be made applicable to ISA-Delaware. Applicants represent that these outstanding orders are contained in Investment Company Act Release Nos. 4192, 4178 and 2517. In support of the application, Applicants represent that, other than the change of domicile, the structure of the face-amount certificate company will remain the same after the merger.

Notice is further given that any interested person may, not later than October 31, 1977, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the application accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicants at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[8010-01]

[Release No. 14030; SR-NYSE-77-22]

NEW YORK STOCK EXCHANGE, INC. Order Abrogating Proposed Rule Change OCTOBER 6, 1977.

On August 8, 1977, the New York Stock Exchange, Inc., 20 Broad Street, New York, N.Y. 10005, ("NYSE") filed, pursuant to Section 19(b) (3) (A) of the Act, a proposal to clarify the permissible scope of communications between NYSE specialists and listed company officials and to provide guidelines governing the types of information that may be discussed during the course of communications.¹ The NYSE states that the purpose

¹ Notice of the proposed rule change was given by publication of a Commission release (Securities Exchange Act Release No. 1394 (September 20, 1977)) and by publication of a statement of the terms of substance in the FEDERAL REGISTER (42 FR 51684 (September 29, 1977)).

of the proposal is to "encourage liaison between listed companies and their specialists . . . to enable listed companies to achieve a greater awareness of auction market operations, while making clear that the disclosure of material nonpublic information relating to the company or to the market in its stock by either party to the other is prohibited."

The proposed rule change was submitted pursuant to Section 19(b) (3) (A) which permits certain proposed rule changes to take effect upon filing with the Commission:

Notwithstanding the provisions of paragraph (2) of this subsection, a proposed rule change may take effect upon filing with the Commission if designated by the self-regulatory organization as (i) constituting a policy, practice, or interpretation with respect to the meaning, administration, or enforcement of an existing rule of the self-regulatory organization, (ii) establishing or changing a due, fee or other charge imposed by the self-regulatory organization or other matters which the Commission, by rule, consistent with the public interest and the purposes of this subsection, may specify as without the provisions of such paragraph (2).

Section 19(b) (3) (C) permits the Commission, within 60 days of filing of any proposed rule change made effective pursuant to paragraphs (A) or (B) of Section 19(b) (3), summarily to abrogate such rule and require refile and review pursuant to subsections 19(b) (1) and 19(b) (2) "if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act."

The Commission has determined that the NYSE proposal raises questions relating to the potential for communications between listed company officials and specialists to result in an exchange of material nonpublic information concerning the market in the stock or the affairs of the listed company, and in reciprocal abuse by a primary exchange specialist, on behalf of the issuer or issuer insiders, of the special market influence which he may exercise. Those questions also relate to the ability of the NYSE to assure that issuers and specialist members will adhere to the prescribed guidelines during the course of such communications.

In view of the nature of these questions, the Commission finds that it is necessary and appropriate in the public interest and for the protection of investors to abrogate the proposal at this time and require its resubmission and review pursuant to Section 19(b) (2) of the Act. Abrogation will thereby provide the Commission with the opportunity, before the proposal becomes finally effective, to evaluate comments from interested persons and discuss with the NYSE the impact of the proposal.

It is therefore ordered, Pursuant to Section 19(b) (3) (C) of the Act, that the proposed rule change filed with the Com-

² The provisions of Rule 19b-4, which implements Section 19(b) (3), are identical in substance to those of Section 19(b) (3) of the Act.

mission on August 8, 1977, be, and it hereby is, abrogated.

By the Commission.

GEORGE A. FITZSIMMONS,

[8010-01]

[Release No. 34-14031; File No. SR-OCC-77-12]

OPTIONS CLEARING CORP.

Self-Regulatory Organizations; Proposed Rule Change

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on September 20, 1977, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The proposed rule change would become effective with respect to series of options expiring nine or more months after the month in which the amendment becomes effective.¹ The amendment would (1) change the expiration time of such options from 5 p.m. Eastern Time to 11:59 p.m. Eastern Time on the expiration date, (2) alter OCC's provisions for the processing of exercise instructions on expiration dates, and (3) alter OCC's procedures for dealing with cases in which OCC is unable to complete expiration date exercise processing prior to the expiration time.

STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as follows:

The purpose of the proposed rule change is to provide more flexible procedures for the processing of exercise instructions on expiration dates and to improve OCC's procedures for dealing with emergencies which prevent OCC from following its normal expiration date processing procedures.

ARTICLE VI, SECTION 9 OF BY-LAWS

The proposed amendment to Article VI, Section 9 of OCC's By-Laws would change the expiration time for series of options expiring nine or more months after the month in which the amendment becomes effective from 5 p.m. Eastern Time to 11:59 p.m. Eastern Time on the expiration date. The purpose of the change is to give OCC and its Clearing Members additional time in which to complete expiration date processing in accordance with the revised procedures provided in the proposed amendment to Rule 805 described below.

¹ The proposed rule change is not to become effective until such time as a prospectus or prospectus supplement reflects its provisions.

NOTICES

RULE 805

Rule 805 prescribes deadlines for the issuance and return of Preliminary Exercise Reports and Final Exercise Reports on expiration dates. Under the Rule in its present form, those deadlines cannot be extended except in the event of an "unusual or unforeseen condition or event," within the meaning of Article VI, Section 18 of OCC's By-Laws. However, the volume of processing required to be performed by OCC and its Clearing Members on expiration dates on which large numbers of option contracts are expiring is such that the prescribed deadlines leave little margin for error. In addition, circumstances may arise which, while not properly classifiable as "unusual or unforeseen", would nonetheless make it necessary or desirable to extend the prescribed deadlines.

The proposed amendment to Rule 805 (which would apply to options expiring nine or more months after the month in which the amendment becomes effective) would permit OCC to extend the prescribed deadlines whenever it deemed an extension desirable, subject only to the requirement that all processing be completed by the new expiration time of 11:59 p.m. Eastern Time on the expiration date. Such extensions might be effected either by the issuance of appropriate timetables to Clearing Members in advance of an expiration date (which might be done when an unusual number of option contracts were due to expire), or by the issuance of extension notices during the course of an expiration date.

As a result of the extension of the expiration time from 4 p.m. Eastern Time to 11:59 p.m. Eastern Time, routine processing of exercise instructions on the expiration date would ordinarily end well before the expiration time. To avoid a "gap" during which unexpired options could nonetheless not be exercised, and to give Clearing Members the maximum possible time in which to correct inadvertent failures to exercise or to react to emergency situations which disrupt their normal procedures, the proposed amendment to Rule 805 would permit Clearing Members to exercise additional option contracts after the close of ordinary expiration date processing, up until the expiration time, by filing exercise notices with OCC. OCC's offices would remain open until the expiration time for the purpose of receiving such notices. However, in order to discourage noncompliance with OCC's ordinary procedures, the filing of an exercise notice after the close of routine expiration date processing (i.e. the deadline for the return of Clearing Members' Final Exercise Reports) would be subject to disciplinary action by OCC unless the late filing was the result of circumstances beyond the Clearing Member's reasonable control, such as a customer's inability to communicate exercise instructions to the Clearing Member, or the Clearing Member's inability to receive or process such instructions, in sufficient time to permit compliance with OCC's ordinary proce-

dures. Negligence on the part of the Clearing Member, notwithstanding its good faith, would not be regarded by OCC as a circumstance beyond the Clearing Member's reasonable control. The late exercise would be effective, but the negligent Clearing Member would be subject to disciplinary action by OCC.

ARTICLE VI, SECTION 18 OF BY-LAWS

Despite the additional working time on the expiration date provided by the proposed rule changes discussed above, there remains a possibility that OCC might under some circumstances, such as a protracted power failure, be unable to issue Preliminary Exercise Reports or Final Exercise Reports in sufficient time to permit the return of those reports prior to the expiration time. Delays of that type are currently dealt with in Article VI, Section 18(a) of OCC's By-Laws, which provides that if the issuance of any expiration date report is materially delayed by unusual or unforeseen conditions or events, the time prescribed for the return of the delayed report and the issuance and return of any subsequent reports will automatically be extended (beyond the expiration time if necessary) by a period equal to the period of the delay.

The proposed amendment to Article VI, Section 18(a) (which, like the rule changes described above, would apply to series of options expiring nine or more months after it becomes effective) would change that provision in three material respects. First, in view of the increased flexibility provided by the proposed rule changes described above, the provisions of Article VI, Section 18(a) would not come into effect unless a delay by OCC in issuing a Preliminary Exercise Report or a Final Exercise Report was of such a magnitude as to prevent the completion of expiration date processing before the new expiration time of 11:59 p.m. Eastern Time.

Second, in the event that such a delay did occur, the provisions of Article VI, Section 18(a) would come into effect regardless of the reason for the delay—not merely when the delay was attributable to an "unusual or unforeseen condition or event". While it is unlikely that any event which would cause such a delay would not be classifiable as "unusual or unforeseen," it is theoretically possible that such an event could occur. If such an event did occur, holders of profitable options might be unable to exercise them before expiration and suffer substantial damage. Accordingly, the proposed amendment to Article VI, Section 18(a) eliminates the concept of "force majeure" and permits the relief provisions of that Section to come into effect in the event of any delay of sufficient magnitude to prevent the completion of expiration date processing. For similar reasons, the concept of force majeure would be eliminated from Sections 18(b) and 18(c) of Article VI as well.

Finally, the proposed amendment to Article VI, Section 18(a) would establish a cut-off time of 12:00 midnight East-

ern Time on the calendar day following an expiration date. If a Preliminary Exercise Report or a Final Exercise Report had not been issued by that time, the report would not be issued thereafter. Instead, Clearing Members holding expiring options would be deemed, in the absence of contrary instructions, to have exercised all expiring options with exercise prices above (in the case of a put) or below (in the case of a call) the automatic exercise threshold provided in Rule 805, plus any additional expiring options which Clearing Members gave OCC written instructions to exercise (regardless of form) prior to the cut-off time. The purpose of establishing the cut-off time is to prevent the delayed exercise process from extending into a new trading day, when new market information would become available.

The proposed rule change contributes to the protection of investors and the public interest by providing more efficient procedures both for routine expiration date processing and for the handling of emergency situations, thereby minimizing the possibility that profitable option contracts may fail to be exercised before expiration.

Comments were not and are not intended to be solicited with respect to the proposed rule change.

OCC does not believe that the proposed rule change imposes any burden on competition.

On or before November 17, 1977, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(a) By order approve such proposed rule change; or

(b) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organizations. All submissions should refer to the file number referenced in the caption above and should be submitted on or before November 3, 1977.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

OCTOBER 7, 1977.

[8010-01]

[Release No. 2001; 70-6055]

SYSTEM FUELS, INC.

Proposed Financing Arrangements Related to the Purchase of Fuel by Nonutility Subsidiary for Use by Operating Companies

OCTOBER 6, 1977.

In the Matter of: System Fuels, Inc., 225 Baronne Street, New Orleans, La. 70112; Arkansas Power and Light Co., First National Building, Little Rock, Ark. 72203; Louisiana Power and Light Co., 142 Delaronde Street, New Orleans, La. 70174; Mississippi Power and Light Co., Electric Building, Jackson, Miss. 39205; New Orleans Public Service Inc., 317 Baronne Street, New Orleans, 70112.

Notice is hereby given that Arkansas Power and Light Co. ("Arkansas"), Louisiana Power and Light Co. ("Louisiana"), Mississippi Power and Light Co. ("Mississippi"), and New Orleans Public Service Inc. ("NOPSI") (collectively referred to as "Operating Companies"), all public utility subsidiary companies of Middle South Utilities, Inc. ("Middle South"), a registered holding company, and System Fuels, Inc. ("SFI"), a jointly-owned nonutility subsidiary company of the Operating Companies, have filed a declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act") designating Sections 6(a), 7, and 12(b) of the Act and Rules 45 and 50 promulgated thereunder as applicable to the following proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

By order dated December 30, 1976, the Commission approved an extension of the period through December 31, 1977, during which System Fuels, Inc. ("SFI") is authorized to make borrowings from the Operating Companies, parent companies of SFI, to finance its fuel supply business. (HCAR No. 19835). In that proceeding, SFI committed itself to endeavor to obtain funds from external sources under arrangements advantageous to SFI and the Middle South Utilities System, in lieu of borrowings from the Operating Companies, to meet SFI's expenditure requirements.

To assure the availability to the Operating Companies and Arkansas-Missouri Power Co., the other operating subsidiary of Middle South Utilities, Inc., of an adequate supply of fuel oil through 1978, SFI presently estimates that it will be necessary to maintain an inventory varying between 5,400,000 and 7,900,000 bbls., valued at as much as \$84,600,000. Such requirements will vary because of seasonal factors, availability of natural gas and other changes in conditions. To finance a portion of its requisite inventory of fuel oil through 1978, SFI proposes to enter into an Acceptance Facility Line of Credit Agreement ("Acceptance Agreement") with Citibank, N.A., New York, N.Y. ("Bank"), under which SFI may borrow and reborrow for a period of one year up to a maximum

aggregate amount not to exceed at any one time outstanding the lesser of \$25,000,000 or the acceptance base (defined in the Acceptance Agreement to mean an amount equal to 50 percent of the fair market value of SFI's fuel oil inventory then in storage at specified locations and hereinafter referred to as "Acceptance Base"). The proposed borrowings are in addition to other bank borrowings by SFI for the financing, among other things, of its fuel oil inventory under separate lines of credit aggregating \$65,080,000 with Hibernia National Bank in New Orleans (as described in File No. 70-5259) and Citibank, N.A. (as described in File No. 70-5415). (See HCAR Nos. 17797, 18097, 18679 and 19779; and 18378, 19484 and 19982.)

In order to effect borrowings under the Acceptance Agreement, SFI proposes to deliver to the Bank for acceptance from time to time commencing on the effective date of the Acceptance Agreement and continuing for one year thereafter one or more drafts ("Draft" or "Drafts"), duly executed by SFI and drawn on the Bank, each Draft to mature not more than 6 months from the date of its acceptance and to be in the face amount of \$100,000 or integral multiple thereof not exceeding \$1,000,000. Upon acceptance by the Bank, in its sole discretion in each instance, of any particular Draft so presented to it, the Bank will thereupon discount the Draft for SFI by paying to SFI in immediately available funds on the date of such acceptance an amount equal to the face amount of such Draft less a discount equal to (a) the bid rate ("Bid Rate") then in effect in the State of New York for acceptances by the Bank of commercial drafts or bills eligible for discount with Federal Reserve Banks and having the same maturity as such Draft, multiplied by (b) the face amount of such Draft.

The Acceptance Agreement will provide that as to each Draft accepted and discounted by the Bank, SFI will pay to the Bank (a) on the maturity date thereof and in immediately available funds, the face amount of such Draft and (b) on a monthly basis, an acceptance charge of 1 percent per annum of the face amount of such Draft for the period thereof, provided that if the period of such Draft is less than 60 days, the acceptance charge payable with respect thereto will be computed on the basis of a 60-day period.

The Acceptance Agreement will further provide that SFI may at any time prepay in full the face amount to be paid by it with respect to a particular Draft, and that if at any time the aggregate face amount of all Drafts then outstanding exceeds the Acceptance Base, SFI will prepay an amount equal to that by which such aggregate face amount exceeds the Acceptance Base.

Pursuant to the terms of the Acceptance Agreement and as security for the performance by SFI of its obligations to the Bank thereunder, SFI will (a) enter into a Security Agreement ("Security Agreement") whereby it will grant to

NOTICES

the Bank a security interest in SFI's fuel oil inventory in storage at specified locations in the States of Arkansas and Mississippi, and (b) enter into an Act of Collateral Chattel Mortgage ("Chattel Mortgage") and execute and deliver in pledge to the Bank a demand Louisiana Collateral Mortgage Note ("Louisiana Collateral Note") in the principal amount of \$25,000,000 pursuant to a Pledge Agreement ("Pledge Agreement") to grant to the Bank a security interest in SFI's fuel oil inventory in the State of Louisiana. The Security Agreement will also provide for assignment by SFI, as additional security, of the accounts receivable of SFI arising out of sales of its fuel oil inventory in storage at locations referred to above.

As an inducement to the Bank to enter into these financing arrangements with SFI, the Operating Companies propose to join with SFI as parties to the Acceptance Agreement and to covenant and agree with the Bank that (a) during the term of the Acceptance Agreement, the aggregate amounts of their investments in SFI (including the principal amounts of their loans or advances to SFI) will at all times be equal to at least 35 percent of the sum of such investments and other indebtedness for borrowed money of SFI maturing after one year, and (b) they will not (i) create, incur, assume or suffer to exist any indebtedness of SFI to them which, by its terms, matures or is required to be prepaid or repaid, in whole or in part, prior to termination of the Acceptance Agreement, (ii) accelerate or permit the acceleration of any indebtedness of SFI to them prior to such termination and (iii) during the term of the Acceptance Agreement, request or permit the prepayment of any indebtedness of SFI to them if an event of default under the Acceptance Agreement, or other event which with lapse of time or notice or both would become such an event of default, has occurred and is continuing, or if the prepayment of such indebtedness would create such an event of default or other event. Subject to the limitation in clause (a) above, SFI may at any time prepay any indebtedness to the Operating Companies, provided no such event of default or other event has occurred and is then continuing, and provided further that the prepayment of such indebtedness would not thereby create such an event of default or other event.

The fees and expenses to be incurred in connection with the proposed transactions are to be filed by amendment. It is stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than October 31, 1977, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or

he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as amended or as it may be further amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

RADIO TECHNICAL COMMISSION FOR
AERONAUTICS (RTCA), SPECIAL COM-
MITTEE 132-AIRBORNE AUDIO SYS-
TEMS AND EQUIPMENT

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. 1), notice is hereby given of a meeting of the RTCA Special Committee 132 on Airborne Audio Systems and Equipment to be held November 7-10, 1977, RTCA Conference Room 261, 1717 H Street NW., Washington, D.C., commencing at 1 p.m. The Agenda for this meeting is as follows: (1) Chairman's Comments; (2) Approval of Minutes of Third Meeting held August 16-18, 1977; (3) Review Comments on Second Draft Report; (4) Discuss Cockpit Voice Recorder Microphone Requirements and Standards; and (5) Complete Drafting Report of Minimum Performance Standards for Audio Systems and Equipment.

Attendance is open to the interested public but limited to space available. With the approval of the Chairman, members of the public may present oral statements at the hearing. Persons wishing to attend and persons wishing to present oral statements should notify, not later than the day before the meeting, and information may be obtained from RTCA Secretariat, 1717 H Street NW., Washington, D.C. 20006 (202-296-0484). Any member of the public may present a written statement to the committee at any time.

Issued in Washington, D.C., on October 6, 1977.

KARL F. BIERACH,
Designated Officer.

Materials Transportation Bureau
EXEMPTION APPLICATIONSList of Applications for Renewal of or To
Become a Party

AGENCY: Materials Transportation Bureau, DOT.

ACTION: List of applications for exemption.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, exemptions from the Department of Transportation's Hazardous Materials Regulations (49 CFR Part 107, Subpart B), notice is hereby given that the Office of Hazardous Materials Operations of the Materials

Transportation Bureau has received the applications described herein.

DATES: Comments by November 21, 1977.

ADDRESSED TO: Dockets Section, Office of Hazardous Materials Operations, Department of Transportation, Washington, D.C. 20590. Comments should refer to the application number and be submitted in triplicate.

FOR FURTHER INFORMATION:

Complete copies of the applications are available for inspection and copying

at the Public Docket Room, Office of Hazardous Materials Operations, Department of Transportation, Room 6500, Trans Point Building, 2100 Second Street SW., Washington, D.C.

Each mode of transportation for which a particular exemption is requested is indicated by a number in the "Nature of Application" portion of the table below as follows: 1—Motor vehicle, 2—Rail freight, 3—Cargo vessel, 4—Cargo-only aircraft, 5—Passenger-carrying aircraft.

NEW EXEMPTIONS				
Applica- tion No.	Applicant	Regulations affected	Nature of application	
7834-N	Magnaflux Corp., Chicago, Ill.	49 CFR 173.394, 173.395	To authorize shipment of sulfur hexafluoride, nonflammable gas in X-ray machines. (Modes 1 and 2.)	
7835-N	Air Products & Chemicals Inc., Allentown, Pa.	49 CFR 177.848 (a) loading and storage chart.	To authorize transportation of poisonous gases in the same motor vehicle as flammable gases and oxidizers. (Mode 1.)	
7836-N	Carns Chemical Co., Inc., La Salle, Ill.	49 CFR 173.194	To authorize shipment of potassium permanganate crystal in DOT 44C multiply paper bag. (Modes 1 and 2.)	
7837-N	Barber Steamship Lines Inc., New York, N.Y.	49 CFR 172.101	To authorize transportation of cigarette lighters charged with fuel or similar ignition devices in freight containers in vessel's upper tween deck. (Mode 3.)	
7838-N	Star-Kist Foods Inc., Terminal Island, Calif.	49 CFR 173.395	To authorize shipment of fish meal in bulk in 20 ft steel dry ISO-ASA containers. (Mode 3.)	
7839-N	Tetstar Chemical Corp., Kearny, N.J.	49 CFR 173.297	To authorize shipment of titanium sulfate 20 pct solution in DOT 21P28L and 21P29C containers. (Mode 1.)	
7840-N	Douglas Aircraft Co., Long Beach, Calif.	49 CFR 173.87	To authorize shipment of a charged oxygen cylinder attached to and packaged in the same outside package with an explosive release device class C. (Modes 1, 2, 3, 4, and 5.)	
7841-N	Mortell Co., Kankakee, Ill.	49 CFR 173.112 (b)	To authorize shipment of certain flammable liquids in DOT 11E drums converted to a removable head container. (Modes 1 and 2.)	
7842-N	Chemtron Corp., La Jorie, Tex.	49 CFR 173.6	To authorize shipment of phosphene in DOT 106A500 multi-unit tank car tanks which have no certificate of construction or no inspector's report. (Modes 1 and 2.)	
7843-N	Reliance Electric Co., Cleveland, Ohio	49 CFR 172.400	To authorize shipment of certain class B poisons in unlabeled packages. (Mode 1.)	
7844-N	Calspan Corp., Buffalo, N.Y.	49 CFR 172.101, 175.3	To authorize shipment of chemical kits containing forbidden corrosive liquids on passenger-carrying and cargo-carrying aircraft. (Modes 4 and 5.)	
7845-N	Livingston Containers Inc., Juneau, Alaska	49 CFR 172.101, 175.320	To authorize shipment of up to 2,500 lb of liquefied petroleum gas in 1 outside container in cargo-only aircraft. (Mode 4.)	

This notice of receipt of applications for new exemptions is published in accordance with Section 107 of the Hazardous Materials Transportation Act. (49 CFR U.S.C. 1806; 49 CFR 1.53(e).)

Issued in Washington, D.C., on October 4, 1977.

J. R. GROTHE,
Chief, Exemptions Branch,
Office of Hazardous Materials Operations.

INTERSTATE COMMERCE COMMISSION

[Notice No. 497]

ASSIGNMENT OF HEARINGS

OCTOBER 7, 1977.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

- MC 82492 (Sub-No. 152), Michigan & Nebraska Transit Co., Inc., now assigned November 10, 1977, at Columbus, Ohio will be held in Room 235, Federal Building, 85 Marconi Boulevard.
- MC 134599 (Sub-No. 155), Interstate Contract Carrier, now assigned November 8, 1977, at Columbus, Ohio will be held in Room 235, Federal Building, 85 Marconi Boulevard.
- MC 139495 (Sub-No. 193), National Carriers, Inc., now assigned November 3, 1977, at Columbus, Ohio will be held in Room 235, Federal Building, 85 Marconi Boulevard.
- MC 141124 (Sub-No. 3), Evangelist Commercial Corp., now assigned November 2, 1977, at Columbus, Ohio will be held in Room 235, Federal Building, 85 Marconi Boulevard.
- MC 69833 (Sub-No. 118), Associated Truck Lines, Inc., now assigned November 4, 1977, at Columbus, Ohio will be held in Room 235, 85 Marconi Boulevard.

[Ex Parte No. MC 96]

ENTRY CONTROL OF BROKERS

Petition for a Stay Pending Judicial Review

National Tour Brokers Association (NTBA), a participant in the above-entitled rulemaking proceeding, filed a motion for a stay of the effective date of the Commission's order served August 26, 1977, pending judicial review. At issue is the effectiveness of the Commission's new passenger broker regulations promulgated in this proceeding.

The United States Court of Appeals for the District of Columbia Circuit has recently refined the traditional standards for evaluating whether an agency should grant a stay of its own orders. *Washington Metropolitan Area Transit Commission v. Holiday Tours, Inc.*, No. 77-1379 (decided July 5, 1977). As that Court held, "[w]hat is fairly contemplated is that tribunals may properly stay their own orders when they have ruled on an admittedly difficult legal question and then the equities of the case suggest that the status quo should be maintained" (Slip op. 7). This agency has applied essentially the same anal-

NTBA describes itself in its motion as "the national trade association for the motor carrier passenger brokerage industry" (emphasis added). Obviously it has no standing to challenge that portion of the Commission's order that relates to regulations for property brokers, nor does it purport to do so in its petition.

ysis in the past, and I am persuaded that the Holiday Tours standard represents the proper approach in this case.

The Commission has promulgated new regulations governing entry control of passenger brokers. Although I do not believe that NTBA is likely to succeed on the merits in its court action, I recognize that the legal questions are difficult ones. Moreover, the fact that the Commission has regulated the broker industry under the presently existing standards since 1935 convinces me that the public will not suffer severe injury if implementation of the new regulations is delayed until judicial review is completed. I find that this case does not present a compelling urgency requiring immediate effectiveness of these regulations. Further, if the passenger broker regulations were implemented immediately and if the Court of Appeals ultimately set aside the Commission's order promulgating the regulations, the consequences would be seriously disruptive to this segment of the broker industry, to new passenger broker applicants, and to the public that requires this broker service.

It is ordered: Effectiveness of the Commission's order served August 26, 1977, only insofar as it adopts regulations for brokers of passengers, is stayed pending disposition of NTBA's petition for review. Regulations pertaining to brokers of property will become effective on October 17, 1977.

Decided October 5, 1977.

By the Commission. Chairman O'Neal.

H. G. HOMME, JR.,
Acting Secretary.

FOURTH SECTION APPLICATIONS FOR RELIEF

OCTOBER 7, 1977.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed on or before October 28, 1977.

FSA No. 43443—*Joint Rail-Water Container Rates—Baltic Shipping Company*. Filed by Baltic Shipping Company, (No. 105), for itself and interested rail carriers. Rates on general commodities, between rail carriers terminals on the U.S. Atlantic and Gulf Coasts, and Northern European ports.

Grounds for relief—Water competition.

Tariffs—Baltic Shipping Company tariffs I.C.C. Nos. 5 and 4, F.M.C. Nos. 33 and 34, respectively. Rates are published to become effective on November 6, 1977.

NOTICES

FSA No. 43444—*Joint Water-Rail Container Rates—Far Eastern Shipping Company*. Filed by Far Eastern Shipping Company, (No. 10), for itself and interested rail carriers. Rates on general commodities, between rail carriers terminals on the U.S. Atlantic and Gulf Coasts, and ports in Japan, Hong Kong, Australia, The Philippines, Singapore, Thailand, West Malaysia and South East Asia.

Grounds for relief—Water competition.

Tariffs—Far Eastern Shipping Company tariff I.C.C. No. 4, F.M.C. No. 16, and 4 other schedules named in the application. Rates are published to become effective on November 6, 1977.

By the Commission.

H. G. HOMME, JR.,
Acting Secretary.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

OCTOBER 7, 1977.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before October 24, 1977. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successfully filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 61825 (Sub-No. E332), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St., NW., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Iron and steel products*, between points in Stark County, Ohio, within 50 miles of Steubenville, Ohio, on the one hand, and, on the other, points in New York except Allegany, Cattaraugus, Chautauque, Erie, Genesee, Livingston, Monroe, Niagara, Ontario, Orleans, Schuyler, Steuben, Wayne, Wyoming and Yates Counties. The purpose of this filing is to eliminate the gateway of Weirton, W. Va.

No. MC 61825 (Sub-No. E429), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St., NW., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Iron and steel products*, between Sandusky, Ohio, on the one hand, and, on the other, points in Virginia beginning at the Virginia-North Carolina State line at the Atlantic Ocean and extending west along the Virginia-North Carolina State line to junction Virginia Highway 8, thence north along Virginia Highway 8 to junction Interstate Highway 81 and U.S. Highway 11 to Lexington, Va., thence east along U.S. Highway 60 to junction U.S. Highway 29 to junction Interstate Highway 64 and U.S. Highway 250 to junction Interstate Highway 64 to junction Virginia Highway 249 to junction Virginia Highway 33, thence east along Virginia Highway 33 to the Chesapeake Bay near Deltaville, Va., thence south along the Chesapeake Bay and the Atlantic Ocean to the point of beginning; including all points on the routes shown. The purpose of this filing is to eliminate the gateway of Weirton, W. Va., and Lynchburg, Va.

No. MC 61825 (Sub-No. E473), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St., NW., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *New furniture*, from points in Virginia on and east of a line beginning at the North Carolina-Virginia State line and extending along U.S. Highway 221 to junction Virginia Highway 94, thence north along Virginia Highway 94 to junction Virginia Highway 11, thence east along Virginia Highway 11 to junction Virginia Highway 100, thence north along Virginia Highway 100 to junction U.S. Highway 460, thence west along U.S. Highway 460 to the Virginia-West Virginia State line, to points in Louisiana. The purpose of this filing is to eliminate the gateway of Martinsville, Va., and points in Georgia.

No. MC 61825 (Sub-No. E476), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St., NW., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *New furniture*, from points in Virginia on and east of a line beginning at the Virginia-West Virginia State line and extending along U.S. Highway 21 to the Virginia-North Carolina State line, to points in Florida. The purpose of this filing is to eliminate the gateway of Martinsville, Va., and points in Georgia.

No. MC 61825 (Sub-No. E723), filed May 13, 1974. Applicant: ROY STONE

TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St., NW., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *New furniture*, from points in Arizona, Arkansas, California, Colorado, Idaho, Kansas, Minnesota, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, and Wyoming to points in North Carolina on and east of a line beginning at the Virginia-North Carolina State line and extending along U.S. Highway 52 to junction U.S. Highway 601, to junction U.S. Highway 52 to the North Carolina-South Carolina State line. The purpose of this filing is to eliminate the gateway of Smyth County, Va., and Martinsville, Va.

No. MC 61825 (Sub-No. E724), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St., NW., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *New furniture*, except commodities in bulk, those of unusual value, household goods as defined by the Commission, and commodities requiring special equipment, from points in Minnesota on and north of a line beginning at the Minnesota-Wisconsin State line and extending along U.S. Highway 12 to junction U.S. Highway 169, to junction Minnesota Highway 60 to the Minnesota-Iowa State line, to points in Virginia on and bounded by a line beginning at the North Carolina-Virginia State line and extending along Virginia Highway 8 to junction Virginia Highway 40, to junction U.S. Highway 220, to junction Virginia Highway 419, to junction U.S. Highway 11, to junction U.S. Highway 33, to junction U.S. Highway 29, to junction U.S. Highway 17, to junction U.S. Highway 1, to junction Virginia Highway 630, to the Potomac River, to junction U.S. Highway 29, to junction U.S. Highway 211, to junction U.S. Highway 11, to junction Virginia Highway 42, to junction U.S. Highway 60, to junction U.S. Highway 220, to junction U.S. Highway 11, to junction Virginia Highway 100, to junction U.S. Highway 58, to junction Virginia Highway 89 to the North Carolina-Virginia State line and thence along the North Carolina-Virginia State line to the point of beginning. The purpose of this filing is to eliminate the gateway of Smyth County, Va., and Lynchburg, Va.

No. MC 61825 (Sub-No. E725), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St., NW., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *New furniture*, except commodities in bulk, those of unusual value, household goods as de-

fined by the Commission and commodities requiring special equipment, from points in Minnesota to points in Virginia on and south and east of a line beginning at the North Carolina-Virginia State line and extending along Virginia Highway 8 to junction Virginia Highway 40, to junction U.S. Highway 220, to junction Virginia Highway 419, to junction U.S. Highway 11, to junction U.S. Highway 33, to junction U.S. Highway 29, to junction U.S. Highway 17, to junction U.S. Highway 1, to junction Virginia Highway 630 to the Potomac River and thence to the Chesapeake Bay. The purpose of this filing is to eliminate the gateway of Smyth County, Va., and Lynchburg, Va.

No. MC 61825 (Sub-No. E1074), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St., NW., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *New furniture*, between points in Georgia on and east of a line beginning at the Florida-Georgia State line and extending along U.S. Highway 23, thence along U.S. Highway 23 to junction U.S. Highway 1, to junction Georgia Highway 57, to junction Georgia Highway 15, to junction Georgia Highway 77, to junction U.S. Highway 78, to junction Georgia Highway 22, to junction Georgia Highway 98, to junction Georgia Highway 106, to junction U.S. Highway 123 to the Georgia-South Carolina State line, on the one hand, and, on the other, points in Kansas on and north of a line beginning at the Kansas-Oklahoma State line, and extending along U.S. Highway 56 to junction Kansas Highway 150, to junction U.S. Highway 50, to junction Interstate Highway 35 to the Kansas-Missouri State line. The purpose of this filing is to eliminate the gateway of Smyth County, Va.

No. MC 61825 (Sub-No. E1075), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St., NW., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *New furniture* except commodities in bulk, those of unusual value, household goods as defined by the Commission, commodities requiring special equipment, from points in Washington on and west of a line beginning at the United States-Canada International Boundary line and extending south along Washington Highway 31 to junction U.S. Highway 2, to junction U.S. Highway 195, to junction Washington Highway 127, to junction U.S. Highway 125 to the Washington-Oregon State line, from points in Oregon on and west of a line beginning at the Oregon-Washington State line, and extending along Oregon Highway 11 to junction U.S. Highway 30, to junction U.S. Highway 395, to junction Oregon Highway 140, thence

along Oregon Highway 140 to the Oregon-Nevada State line, points in Nevada on and west of a line beginning at the Nevada-Oregon State line, and extending along Nevada Highway 140 to junction Nevada Highway 8A, to junction Nevada Highway 34, to junction Nevada Highway 48, to junction U.S. Highway 95, to junction U.S. Highway 6, thence along U.S. Highway 6 to the Nevada-California State line; points in California on and west of a line beginning at the California-Nevada State line, and extending along U.S. Highway 6 to junction U.S. Highway 395, to junction California Highway 58, to junction Interstate Highway 15, to junction Interstate Highway 10, to junction California Highway 111 to the United States-Mexico International Boundary line, to points in Virginia on and north of a line beginning at the Maryland-Virginia State line and extending along Virginia Highway 655 to junction U.S. Highway 15, to junction Virginia Highway 7, to junction U.S. Highway 340, to junction Virginia Highway 277, to junction Virginia Highway 628, to junction Virginia Highway 55 to the Virginia-West Virginia State line, and points in Virginia on and west of a line beginning at the West Virginia-Virginia State line and extending along Virginia Highway 311 to junction Virginia Highway 42, to junction Virginia Highway 100, to junction U.S. Highway 11, to junction Virginia Highway 100, to junction U.S. Highway 58, to junction Virginia Highway 89 to the Virginia-North Carolina State line. The purpose of this filing is to eliminate the gateways of Smyth County, Va., and Lynchburg, Va.

No. MC 61825 (Sub-No. E1076), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St., NW., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *New furniture*, except commodities in bulk, those of unusual value, household goods as defined by the Commission, and commodities requiring special equipment, from points in Arizona, California, Colorado, Idaho, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming to points in Virginia on and east of a line beginning at the Maryland-Virginia State line and extending along Virginia Highway 655 to junction U.S. Highway 15, to junction Virginia Highway 7, to junction Virginia Highway 277, to junction Virginia Highway 628, to junction Virginia Highway 55 to the Virginia-West Virginia State line, thence south along the Virginia-West Virginia State line to junction Virginia Highway 311, to junction Virginia Highway 42 to junction Virginia Highway 100, to junction U.S. Highway 11, to junction Virginia Highway 100, to junction U.S. Highway 58, to junction Virginia Highway 89 to the Virginia-North Carolina State line. The purpose of this filing is to eliminate

the gateway of Smyth County, Va., and Lynchburg, Va.

No. MC 61825 (Sub-No. E1077), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St., NW., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *New furniture*, from points in California, Idaho, Montana, Nevada, Oregon, Utah, Wash-

ington, points in Minnesota on and west of a line beginning at the Canadian-United States International Boundary line and extending along U.S. Highway 71 to junction Minnesota Highway 1, to junction U.S. Highway 59, to junction Minnesota Highway 200, to junction U.S. Highway 75, to junction Interstate Highway 94, thence along Interstate Highway 94 to the Minnesota-North Dakota State line; points in North Dakota on and west of a line beginning at the North Dakota-Minnesota State line, and extending along Interstate Highway 94 to junction U.S. Highway 281 to the North Dakota-South Dakota State line; points in South Dakota on and west of a line beginning at the South Dakota-North Dakota State line, and extending along U.S. Highway 281 to junction U.S. Highway 83, to junction U.S. Highway 14, to junction South Dakota Highway 73, to junction U.S. Highway 18, to junction U.S. Highway 385, to the South Dakota-Nebraska State line; points in Nebraska on and west of a line beginning at the Nebraska-South Dakota State line and extending along U.S. Highway 385 to junction U.S. Highway 20, to the Nebraska-Wyoming State line; points in Wyoming on and west of a line beginning at the Wyoming-Nebraska State line, and extending along U.S. Highway 20 to junction U.S. Highway 85, thence along U.S. Highway 85 to the Wyoming-Colorado State line; points in Colorado on and west of a line beginning at the Colorado-Wyoming State line, and extending along U.S. Highway 85 to junction U.S. Highway 285, to junction Colorado Highway 291, to junction U.S. Highway 50, to junction U.S. Highway 550, thence along U.S. Highway 550 to the Colorado-New Mexico State line; those points in New Mexico on and west of a line beginning at the New Mexico-Colorado State line, and extending along U.S. Highway 550 to junction New Mexico Highway 504, thence along New Mexico Highway 504 to the New Mexico-Arizona State line; those points in Arizona on and west of a line beginning at the Arizona-New Mexico State line, and extending along U.S. Highway 160, to junction U.S. Highway 89, to junction Interstate Highway 17, to junction U.S. Highway 80, to junction New Mexico Highway 85 to the Mexico-United States International Boundary line to points in South Carolina on, and south and west of a line beginning at the North Carolina-South Carolina State line, and extending along U.S. Highway 21, to junction U.S. Highway 29, to junction U.S. Highway 276, to junction Interstate

Highway 26, to junction U.S. Highway 221, to junction South Carolina Highway 389, to junction South Carolina Highway 321, to junction South Carolina Highway 332, to junction U.S. Highway 601, to junction South Carolina Highway 64, to junction U.S. Highway 21, to the Atlantic Ocean. The purpose of this filing is to eliminate the gateways of Smyth County, Va., and Martinsville, Va.

No. MC 61825 (Sub-No. E1078), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St., NW., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *New furniture*, from points in Arizona, California, Idaho, Montana, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming, points in Minnesota on and west of a line beginning at the United States-Canadian International Boundary line, and extending along the Minnesota State line to the Minnesota-Wisconsin State line, to junction U.S. Highway 10, to junction U.S. Highway 61, to junction Minnesota Highway 55, to junction U.S. Highway 52, to junction Minnesota Highway 50, to junction Minnesota Highway 3, to junction Minnesota Highway 60, to junction U.S. Highway 65 to the Minnesota-Iowa State line, thence along the Iowa-South Dakota State line, to the Iowa-Nebraska State line, and extending along junction U.S. Highway 6, to junction U.S. Highway 183, thence along U.S. Highway 183 to the Nebraska-Kansas State line; points in Kansas on and west of a line beginning at the Kansas-Nebraska State line, and extending along U.S. Highway 183 to junction U.S. Highway 24 to junction U.S. Highway 83, to junction U.S. Highway 40, to junction Kansas Highway 27, to junction Kansas Highway 96, to the Kansas-Colorado State line; points in Colorado on and west of a line beginning at the Colorado-Kansas State line, and extending along Colorado Highway 96, to junction U.S. Highway 50, to junction Colorado Highway 71, to junction U.S. Highway 10, to junction U.S. Highway 160, to the Colorado-New Mexico State line; points in New Mexico on and west of a line beginning at the New Mexico-Colorado State line, and extending along U.S. Highway 285 to junction New Mexico Highway 4, to junction New Mexico Highway 44, to junction U.S. Highway 85, to junction New Mexico Highway 90, to junction U.S. Highway 80, to the United States-Mexico International Boundary line, to points in South Carolina on and bounded by a line beginning at the North Carolina-South Carolina State line, and extending along U.S. Highway 21 to junction South Carolina Highway 97, to junction U.S. Highway 521, to junction U.S. Highway 17-A, to the Winyah Bay, and thence to the Atlantic Ocean. The purpose of this filing is to eliminate the gateways of Smyth County, Va., and Martinsville, Va.

Highway 332, to junction U.S. Highway 321, to junction South Carolina Highway 389, to junction South Carolina Highway 39, to junction U.S. Highway 221, to junction Interstate Highway 26, to junction U.S. Highway 276, to junction U.S. Highway 29, to junction U.S. Highway 221 to the North Carolina-South Carolina State line, thence along the North Carolina-South Carolina State line to the point of beginning. The purpose of this filing is to eliminate the gateways of Smyth County, Va., and Martinsville, Va.

No. MC 61825 (Sub-No. E1079), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St., NW., Washington, D.C. 20036. The purpose of this filing is to eliminate the gateways of Smyth County, Va., and Martinsville, Va.

No. MC 61825 (Sub-No. E1080), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORP., P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St., NW., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *New furni-*

ture, from points in Arizona, California, Colorado, Idaho, Minnesota, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming, on and west of a line beginning at the United States-Canadian International Boundary line and extending along the Minnesota State line to the Minnesota-Wisconsin State line, those points in Minnesota on and west of a line beginning at the Minnesota-Wisconsin State line, and extending along U.S. Highway 16, to junction U.S. Highway 63 to the Minnesota-Iowa State line, to the Iowa-Nebraska State line, to the Missouri-Nebraska State line, points in Kansas on and west of a line beginning at the Kansas-Missouri State line, and extending along Interstate Highway 70, to junction Interstate Highway 35, to junction Kansas Highway 99, to junction U.S. Highway 166, to the Kansas-Oklahoma State line; points in Oklahoma on and west of a line beginning at the Oklahoma-Kansas State line, and extending along U.S. Highway 75 to the Oklahoma-Texas State line; points in Texas on and west of a line beginning at the Texas-Oklahoma State line, and extending along U.S. Highway 75, to junction Interstate Highway 35, to junction U.S. Highway 77, to junction Interstate Highway 37 to the Gulf of Mexico, to points in North Carolina on and east of a line beginning at the Virginia-North Carolina State line and extending along North Carolina Highway 16 to junction U.S. Highway 221, to junction U.S. Highway 421, to junction North Carolina Highway 18, to junction U.S. Highway 321, to junction U.S. Highway Alternate 321, to junction U.S. Highway 321, to junction U.S. Highway 64-70, to junction North Carolina Highway 16, to junction U.S. Highway 21, to junction U.S. Highway 521 to the North Carolina-South Carolina State line. The purpose of this filing is to eliminate the gateways of Smyth County, Va., and Martinsville, Va.

No. MC 61825 (Sub-No. E1081), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORP., P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St. NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, from points in Arizona, California, Idaho, Montana, Nevada, North Dakota, Oregon, Utah, Washington and Wyoming, points in Minnesota, on and west of a line beginning at the United States-Canadian International Boundary line and extending along U.S. Highway 71 to junction Minnesota Highway 34, to junction U.S. Highway 59, to junction Minnesota Highway 210, to junction U.S. Highway 75, to junction U.S. Highway 12, to the Minnesota-South Dakota State line; points in South Dakota on and west of a line beginning at the South Dakota-Minnesota State line, and extending along U.S. Highway 12, to junction U.S. Highway 81, to junction South

Dakota Highway 28, to junction South Dakota Highway 25, to junction South Dakota Highway 34, to junction South Dakota Highway 37, to junction South Dakota Highway 44, to junction South Dakota Highway 47, to junction U.S. Highway 18, to junction U.S. Highway 183, thence along U.S. Highway 183 to the South Dakota-Nebraska State line; points in Nebraska on and west of a line beginning at the Nebraska-South Dakota State line, and extending along U.S. Highway 183 to junction U.S. Highway 20, to junction U.S. Highway 83, to junction U.S. Highway 30, thence along U.S. Highway 30 to the Nebraska-Wyoming State line, points in Wyoming on and west of a line beginning at the Wyoming-Nebraska State line, and extending along U.S. Highway 30 to junction U.S. Highway 385, thence along U.S. Highway 385 to the Wyoming-Colorado State line; points in Colorado on and west of a line beginning at the Nebraska-South Dakota State line, and extending along U.S. Highway 385 to junction U.S. Highway 40, to junction U.S. Highway 287, to junction Colorado Highway 96, to junction U.S. Highway 85, thence along U.S. Highway 85 to the Colorado-New Mexico State line; points in New Mexico State on and west of a line beginning at the New Mexico-Colorado State line, and extending along U.S. Highway 85 to junction U.S. Highway 64, to junction U.S. Highway 285, to junction U.S. Highway 54, thence along U.S. Highway 54 to the New Mexico-Texas State line; points in Texas on and west of a line beginning at the Texas-New Mexico State line and extending along U.S. Highway 54 to junction U.S. Highway 80, to junction U.S. Highway 90, to junction U.S. Highway 67 to the United States-Mexico International Boundary line, to points in North Carolina on and bounded by a line beginning at the Tennessee-North Carolina State line and extending along U.S. Highway 23 to junction U.S. Highway 25 to the North Carolina-South Carolina State line, thence east along the North Carolina-South Carolina State line to junction U.S. Highway 521, to junction U.S. Highway 21, to junction North Carolina Highway 16, to junction U.S. Highway 64-70, to junction U.S. Highway 321, to junction U.S. Highway Alternate 321, to junction North Carolina Highway 18, to junction U.S. Highway 421, to junction U.S. Highway 221 to the North Carolina-Virginia State line, thence along the North Carolina-Virginia State line to the North Carolina-Tennessee State line, thence along the North Carolina-Tennessee State line to the point of beginning. The purpose of this filing is to eliminate the gateways of Smyth County, Va., and Martinsville, Va.

No. MC 61825 (Sub. No. E1082), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORP., P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St. NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, ex-

cept commodities in bulk, household goods as defined by the Commission, from points in Kansas, on and west of a line beginning at the Kansas-Nebraska State line and extending along U.S. Highway 183 to junction U.S. Highway 56, thence to junction U.S. Highway 283, thence along U.S. Highway 283 to the Kansas-Oklahoma State line; points in Oklahoma on and west of a line beginning at the Oklahoma-Kansas State line, and extending along U.S. Highway 283 to junction U.S. Highway 64, to junction U.S. Highway 183, to junction U.S. Highway 270, to junction Interstate Highway 35, thence along Interstate Highway 35 to the Oklahoma-Texas State line; points in Texas on and west of a line beginning at the Texas-Oklahoma State line, and extending along Interstate Highway 35 to junction Interstate Highway 35-E, to junction Interstate Highway 20, to junction Interstate Highway 45, to the Gulf of Mexico, to points in Virginia on and east of a line beginning at the Virginia-West Virginia State line, and extending along Virginia Highway 102 to junction U.S. Highway 52, to junction Interstate Highway 77, to junction U.S. Highway 11, to junction Virginia Highway 94, to junction Virginia Highway 721, to junction Virginia Highway 89 to the Virginia-North Carolina State line. The purpose of this filing is to eliminate the gateways of Smyth County, Va., and Lynchburg, Va.

No. MC 61825 (Sub-No. E1083), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORP., P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St. NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, except commodities in bulk, household goods as defined by the Commission, from points in Arkansas, and those points in Kansas on and east of a line beginning at the Nebraska-Kansas State line, and extending along U.S. Highway 183 to junction U.S. Highway 56, to junction U.S. Highway 283, thence along U.S. Highway 283 to the Kansas-Oklahoma State line; points in Oklahoma on and east of a line beginning at the Oklahoma-Kansas State line, and extending along U.S. Highway 283 to junction U.S. Highway 64, to junction U.S. Highway 183, to junction U.S. Highway 270, to junction Interstate Highway 35, thence along Interstate Highway 35 to the Oklahoma-Texas State line; those points in Texas on and east of a line beginning at the Texas-Oklahoma State line, and extending along Interstate Highway 35-E, to junction Interstate Highway 20, to junction Interstate Highway 45, to the Gulf of Mexico, to points in Virginia on and east of a line beginning at the Virginia-West Virginia State line, and extending along Virginia Highway 311 to junction Virginia Highway 419, to junction U.S. Highway 220, to the Henry County-Franklin County line, to the Patrick County-Henry County line, to the Virginia-North Carolina State line. The purpose of this filing is to eliminate

the gateways of Smyth County, Va., and Lynchburg, Va.

No. MC 61825 (Sub-No. E1084), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORP., P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St. NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, except commodities in bulk, household goods as defined by the Commission, from New York, N.Y., and points in New Jersey on and south of U.S. Highway 202, and points in Pennsylvania on and south of a line beginning at the Pennsylvania-New Jersey State line, and extending southwest along U.S. Highway 202 to junction U.S. Highway 422, to junction U.S. Highway 15 to junction U.S. Highway 15 Business, to junction U.S. Highway 15, and thence to the Pennsylvania-Maryland State line; points in Maryland on and north of a line beginning at the Pennsylvania-Maryland State line, and extending east along U.S. Highway 40 to junction U.S. Highway 40 Alternate to junction U.S. Highway 40, thence along U.S. Highway 40 to junction Maryland Highway 144 to Baltimore, Md., thence along the shores of the Chesapeake Bay and Elk River to the Chesapeake Bay and Delaware Canal, and thence to the Maryland-Delaware State line, to points in Louisiana. The purpose of this filing is to eliminate the gateways of Lynchburg, Va., and Smyth County, Va.

No. MC 61825 (Sub-No. E1085), filed May 13, 1974. Applicant: ROY STONE TRANSFER CORP., P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St. NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, except commodities in bulk, and household goods as defined by the Commission, between points in Maryland on and south of a line beginning at the Pennsylvania-Maryland State line and extending east along U.S. Highway 40 to Hagerstown, Md., thence along U.S. Highway 40 Alternate to junction U.S. Highway 40 near Frederick, Md., thence along U.S. Highway 40 to junction Maryland Highway 144 to Baltimore, Md., thence along the shores of the Chesapeake Bay and Elk River to the Chesapeake Bay and Delaware Canal, and thence to the Maryland-Delaware State line, the District of Columbia and those points in West Virginia on and east of a line beginning at West Virginia-Virginia State line, and extending north along West Virginia Highway 12 to junction West Virginia Highway 3, to junction West Virginia Highway 20, to junction West Virginia Highway 39, to junction U.S. Highway 19, to junction U.S. Highway 250, to junction West Virginia Highway 69, and thence to the West Virginia-Pennsylvania State line, on the one hand, and, on the other, points in Louisiana. The purpose of this filing is to eliminate the gateway of Lynchburg, Va. and Smyth County, Va.

No. MC 106401 (Sub-No. E23) (partial correction), filed May 13, 1974, published in the FEDERAL REGISTER issue of November 7, 1974, and republished, as corrected, this issue. Applicant: JOHNSON MOTOR LINES, INC., P.O. Box 10877, Charlotte, N.C. 28234. Applicant's representative: Thomas G. Sloan (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, livestock, household goods, as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading); (1) between Albany, Ga., and points in Georgia within 100 miles of Atlanta, Ga., on the one hand, and, on the other, points in West Virginia, on and north of a line from the Ohio-West Virginia State line along U.S. Highway 35 to the junction of U.S. Highway 60, thence along U.S. Highway 60 to Charleston, thence along U.S. Highway 119 to the junction of West Virginia Highway 4, thence along West Virginia Highway 4 to the Braxton County line, thence along the southern and eastern boundary of Braxton County to the Lewis County line, thence along the southern boundary of Lewis County to the Lewis-Upshur County line, thence along the southern boundary of Upshur County to the junction of unnumbered Highway east of Czar, thence along unnumbered highway via Blue Rock and Adolph to the junction of U.S. Highway 219, thence along U.S. Highway 219 to the junction of U.S. Highway 250, thence along U.S. Highway 250 to the junction of the Randolph County line, thence along the southern boundary line of Randolph County to the Randolph-Pendleton County line, thence along the Pendleton County line to the junction of West Virginia Highway 28, thence along West Virginia Highway 28 to the junction of U.S. Highway 33, thence along U.S. Highway 33 to the West Virginia-Virginia State line and all points in Pennsylvania on and west of U.S. Highway 219. The purpose of this filing is to eliminate the gateway of Belpre, Ohio.

NOTE.—The purpose of this partial correction is to state the correct territorial description. The remainder of this letter-notice remains as previously published.

No. MC 106603 (Sub-No. E61), filed May 10, 1974. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8099, Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Roofing and building materials*, from points in Indiana on and north of a line beginning at the Indiana-Illinois State line and extending east along U.S. Highway 24 to junction Indiana Highway 124, thence easterly on Indiana Highway 124 to the Indiana-Ohio State line (except the plant site of the Bethlehem Steel Corporation located at Burns Harbor, Porter County, Ind.),

to points in Delaware, Maryland, New Jersey, New York, Pennsylvania, Washington, D.C., West Virginia on and north of U.S. Highway 50 and Virginia on and east of U.S. Highway 21. The purpose of this filing is to eliminate the gateway of the plant site of Certain-teed Products Corporation at Avery, Ohio.

No. MC 106603 (Sub-No. E62), filed May 10, 1974. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8099, Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Roofing and building materials*, from points in Indiana on, south, and west, and north of a line beginning at the Indiana-Illinois State line and extending east on U.S. Highway 24 to junction Indiana Highway 124, thence easterly on Indiana Highway 124 to junction Indiana Highway 3, thence south on Indiana Highway 3 to junction Interstate Highway 70, thence westerly on Interstate 70 to the Indiana-Illinois State line, to points in Delaware, Maryland, New Jersey, New York, Pennsylvania, Washington, D.C., West Virginia, points in West Virginia on, east, and north of a line beginning at the West Virginia-Pennsylvania State line and extending south along U.S. Highway 19 to junction U.S. Highway 119, thence southerly U.S. Highway 119 to junction U.S. Highway 50, thence easterly on U.S. Highway 50 to the West Virginia-Maryland State line and points in Virginia on, north and east of a line beginning at the Virginia-West Virginia State line and extending southeasterly on U.S. Highway 33 to U.S. Highway 301, thence south on U.S. Highway 301 to the Virginia-North Carolina State line. The purpose of this filing is to eliminate the gateway of the plant site of Certain-teed Products Corporation at Avery, Ohio.

No. MC 106603 (Sub-No. E63), filed May 10, 1974. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8099, Grand Rapids, Mich. 49508. Applicant's representative: Martin J. Leavitt, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Roofing and building materials*, from points in Indiana on, south and west of a line beginning at the Indiana-Illinois State line and extending east on Interstate Highway 70 to junction Indiana Highway 3, thence south on Indiana Highway 3 to the Indiana-Kentucky State line, to points in Delaware, Maryland, New Jersey, New York, Pennsylvania, Washington, D.C., West Virginia on, north and east of a line beginning at the West Virginia-Pennsylvania State line and extending south on U.S. Highway 19 to junction West Virginia Highway 7, thence southeasterly on West Virginia Highway 7 to junction West Virginia Highway 72, thence southerly on West Virginia Highway 72 to junction U.S. Highway 50, thence easterly on U.S. Highway 50 to the West

Virginia-Virginia State line, and Virginia on north and east of a line beginning at the Virginia-West Virginia State line and extending southeasterly on U.S. Highway 50 to junction U.S. Highway 17, thence southeasterly on U.S. Highway 17 to the Virginia-North Carolina State line. The purpose of this filing is to eliminate the gateway of the plant site of Certain-teed Products Corporation at Avery, Ohio.

By the Commission.

H. G. HOMME, Jr.,
Acting Secretary.

[Notice No. 130TA]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

OCTOBER 6, 1977.

Important notice: The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 720 (Sub-No. 35TA), filed September 23, 1977. Applicant: BIRD TRUCKING COMPANY, INC., P.O. Box 227, Waupun, Wis. 53968. Applicant's representative: Michael J. Wyngaard, P.O. Box 8004, Madison, Wis. 53708. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meat, meat products and meat by-products, and articles distributed by meat packing houses, as*

described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plant site and warehouse facilities of Hillshire Farm Company, located at or near New London, Wis., to Edison, Elizabeth, Englewood, Kearny, Perth Amboy, Westville and Woodbridge, N.J., and Bedford Heights, Cincinnati, Cleveland, Columbus and Englewood, Ohio, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): Hillshire Farm Company, P.O. Box 227, New London, Wis. 54961 (Cedric E. Martin) Send protests to: Gail Daugherty Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, U.S. Federal Building & Courthouse, 517 East Wisconsin Avenue, Room 619, Milwaukee, Wis. 53202.

No. MC 720 (Sub-No. 37TA), filed September 26, 1977. Applicant: BIRD TRUCKING COMPANY, INC., P.O. Box 227, Waupun, Wis. 53968. Applicant's representative: Michael J. Wyngaard, P.O. Box 8004, Madison, Wis. 53708. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Foodstuffs and materials, equipment and supplies used or useful in the manufacture, sale or distribution of foodstuffs, from Moosic, Pa., to Fall River, Brockton, Fitchburg, Baldwinville and Watertown, Mass.; Grand Rapids and Livonia, Mich.; Peoria, Chicago, Elks Grove Village and Franklin Park, Ill.; Newark, Camden and East Orange, N.J.; Baltimore, Md.; Lake Placid, Binghamton and New York City, N.Y.; Brooklyn Heights, Cleveland, Toledo and Canton, Ohio, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): Mass Feeding Corporation, 2241 Pratt Boulevard, Elk Grove Village, Ill. 60007. (John C. Collier) Send protest to: Gail Daugherty, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, U.S. Federal Building and Courthouse, 517 East Wisconsin Avenue, Room 619, Milwaukee, Wis. 53202.*

No. MC 9812 (Sub-No. 7TA), filed August 26, 1977. Applicant: C. F. KOLB TRUCKING COMPANY, INC., R.R. 1, Box 294, Mt. Vernon, Ind. 47620. Applicant's representative: Edwin J. Simcox, 601 Chamber of Commerce Bldg., Indianapolis, Ind. 46204. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Roofing, shingles, exterior siding, floor tiles, and materials and supplies used in the installation thereof, from the plant and warehouse sites of GAF Corporation, Mt. Vernon, and Evansville, Ind., to points in Illinois, Kentucky, Ohio, and Tenn., for 180 days. Supporting shipper(s): GAF Corporation, General Traffic Manager, Building Materials Group, 1361 Alps Road, Wayne, N.J. 07470. Send protests to: William S. Ennis, District Supervisor, Interstate Commerce Commission, Federal Building and U.S. Courthouse, 46 East Ohio*

Street, Room 429, Indianapolis, Ind. 46204.

No. MC 65697 (Sub-No. 53TA), filed September 8, 1977. Applicant: THEATRES SERVICE COMPANY, P.O. Box 1695, Atlanta, Ga. 30301. Applicant's representative: Archie B. Culbreth, Suite 246, 1252 Peachtree Street NW., Atlanta, Ga. 30309. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Tape recorders, record players, sound recordings, disc or tape, sound recording blank tapes, radios, and parts and accessories for such articles, between Atlanta, Ga., Duluth, Ga., and Nashville, Tenn., and the Commercial Zones thereof, on the one hand, and, on the other, points in Alabama, Georgia and Tenn., as defined in applicant's presently authorized regular route operations in Sub-Nos. 1 through 10, including off-route points, for 180 days. Supporting shipper(s): There are approximately 24 statements of support attached to the application which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: Sara K. Davis, Transportation Assistant, Bureau of Operations, Interstate Commerce Commission, 1252 Peachtree Street NW., Room 300, Atlanta, Ga. 30309.*

No. MC 107496 (Sub-No. 1110TA), filed September 26, 1977. Applicant: RUAN TRANSPORT CORPORATION, 3200 Ruan Center, 666 Grand Ave., Des Moines, Iowa 50309. Applicant's representative: E. Check (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Ink and ink ingredients, in bulk, in tank vehicles, between Lynchburg, Va., and Des Moines, Iowa, for 180 days. Supporting shipper(s): Meredith Printing Division, Meredith Corporation, 5701 Southwest Park Avenue, Des Moines, Iowa. 50321. Send protests to: Herbert W. Allen, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 518 Federal Building, Des Moines, Iowa 50309.*

No. MC 109124 (Sub-No. 34TA), filed September 14, 1977. Applicant: SENTLE TRUCKING CORPORATION, P.O. Box 7850, Toledo, Ohio 43619. Applicant's representative: James M. Burch, 100 East Broad St., Columbus, Ohio 43215. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Slag, granulated, in bulk, in dump vehicles, from the plant-site of H. B. Reed & Company, Inc., located at or near Cresap, W. Va., to the plant site of CertainTeed Corporation, located at or near Avery, Ohio, for 180 days. Supporting shipper(s): CertainTeed Corporation, P.O. Box 860, Valley Forge, Pa. 19482. Send protests to: Keith D. Warner, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 313 Federal Office Building, 234 Summit St., Toledo, Ohio 43604.*

No. MC 113336 (Sub-No. 88TA), filed September 21, 1977. Applicant: PETRO-

LEUM TRANSIT COMPANY, INC., P.O. Box 921, Highway 211, Lumberton, N.C. 28358. Applicant's representative: Russell E. Stone, Route 3, Montplier Drive, Franklin, Tenn. 37064. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Motor oil, except in bulk, from New Kensington, Pa., to points and places in Alabama, Florida, Kentucky, Georgia, Louisiana, Mississippi, North Carolina, South Carolina and Tennessee, for 180 days. Supporting shipper: Quaker State Oil Refining Corp., 255 Elm Street, P.O. Box 989, Oil City, Pa. 16301. Send protests to: Mr. Archie W. Andrews, District Supervisor, Interstate Commerce Commission, 624 Federal Building, 310 New Bern Avenue, P.O. Box 26896, Raleigh, N.C. 27611.*

No. MC 113651 (Sub-No. 229TA), filed September 8, 1977. Applicant: INDIANA REFRIGERATOR LINES, INC., Box 552, Riggins Rd., Muncie, Ind. 47305. Applicant's representative: Daniel C. Sullivan, Singer & Sullivan, 10 South LaSalle St., Suite 1600, Chicago, Ill. 60603. [Notice No. 131TA]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

OCTOBER 7, 1977.

Important notice: The following are notices of filing of applications for temporary authority under Section 210(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field office named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in

the ICC Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. 138512 (Sub-No. 22TA), filed September 26, 1977. Applicant: ROLAND'S TRANSPORTATION SERVICES, INC., d.b.a. WISCONSIN PROVISIONS EXPRESS, 9525 South 60th Street, Franklin, Wis. 53132. Applicant's representative: Allan J. Morrison (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle,

over irregular routes, transporting: *Cheese, barrels, containers and racks* incidental to the haul, between Bongards and Winsted, Minn., and Logan, Utah, under a continuing contract, or contracts, with L.D. Schreiber Cheese Co., Inc., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): L. D. Schreiber Cheese Co., Inc., 425 Pine Street, P.O. Box 610, Green Bay, Wis. 54305. (Robert Buchberger) Send protests to: Gail Daugherty, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, U.S. Federal Building and Courthouse, 517 East Wisconsin Avenue, Room 619, Milwaukee, Wis. 53202.

No. MC 139485 (Sub-No. 3TA), filed September 22, 1977. Applicant: TRANS CONTINENTAL CARRIERS, 169 E. Liberty Avenue, Anaheim, Calif. 92803. Applicant's representative: David P. Christianson, Knapp, Stevens, Grossman & Marsh, 1800 United California Bank Building, 707 Wilshire Boulevard, Los Angeles, Calif. 90017. Trans Continental Carriers seeks authority as a *contract carrier* by motor vehicle over irregular routes in the transportation of: *Polyester body filler (car repair materials)*, from Stark County and Ton, Ohio, to Los Angeles County and Martinez, Calif., under a continuing contract with U.S. Chemical & Plastics Co., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: U.S. Chemical & Plastics Co., 1446 Tuscarawas West, Canton, Ohio 44706. Send protests to: Irene Carlos, Transportation Assistant, Interstate Commerce Commission, Room 1321 Federal Building, 300 North Los Angeles Street, Los Angeles, Calif. 90012.

No. MC 14615 (Sub-No. 21TA) filed September 22, 1977. Applicant: DAIRYLAND TRANSPORT, INC., P.O. Box 1116, Wisconsin Rapids, Wis. 54494. Applicant's representative: Dennis C. Brown, P.O. Box 1116, Wisconsin Rapids, Wis. 54494. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Polystyrene products and materials and supplies* used in the manufacture and distribution of Polystyrene Products from Webster, S. Dak., to points in the states of Minnesota and Wis., and from Jamesburg, N.J., Leominster, Mass., Kobuta and Monaca, Pa., and Peru, Ill., to Belgrade, Montana and Webster, S. Dak., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): Webster Industries, Webster, S. Dak. 57274. Send protests to: Ronald A. Morken, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 139 W. Wilson Street, Madison, Wis. 53703.

No. MC 141245 (Sub-No. 3TA), filed September 23, 1977. Applicant: BARRETT TRUCKING CO., INC., 16 Austin Dr., Burlington, Vt. 05401. Appli-

cant's representative: Brian L. Troiana, Rea, Cross & Auchincloss, 700 World Center Bldg., 918 16th Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages*, from the facilities of Onondaga Imports at or near Syracuse, N.Y., to White River, Vt., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): Twin State Fruit Corp., White River Junction, Vt. 05001. Send protests to: David A. Demers, District Supervisor, Interstate Commerce Commission, P.O. Box 548, 87 State Street, Montpelier, Vt. 05602.

No. MC 142513 (Sub-No. 3TA), filed September 22, 1977. Applicant: BIRK TRANSFER, INC., 360 Wheatland Ave., Conemaugh, Pa. 15909. Applicant's representative: William J. Lavelle, Wick, Vuono & Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Silicon carbide briquettes*, from the plantsites and storage facilities of American Metallurgical Products Company, Inc., located in Springdale Township, Allegheny County, and Shenango Township, Lawrence County, Pa., to the facilities of G. H. & R. Division of Dayton Malleable Iron Company located in Dayton, Ohio, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): American Metallurgical Products Company, Inc., 9800 McKnight Rd., Pittsburgh, Pa. 15237. Send protests to: Richard C. Gobbell, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 2111 Federal Building, 1000 Liberty Ave., Pittsburgh, Pa. 15222.

No. MC 142600 (Sub-No. 4TA), filed September 23, 1977. Applicant: DIXIE WEST EXPRESS, INC., P.O. Drawer L, Petal, Miss. 39465. Applicant's representative: William P. Jackson, Jr., 3426 N. Washington Blvd., P.O. Box 1267, Arlington, Va. 22210. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Resins and compounds and products thereof*, and such other commodities as are manufactured and distributed by chemical manufacturers (except in bulk), in vehicles equipped with mechanical refrigeration, from the facilities of Hercules Incorporated at or near Baton Rouge, La., to points in Arizona, California, Colorado, Oregon and Wash., under a continuing contract, or contracts, with Hercules Incorporated, for 180 days. Supporting shipper(s): Hercules Incorporated, One Maritime Plaza, San Francisco, Calif. 94111. Send protests to: Alan C. Tarrant, District Supervisor, Interstate Commerce Commission, Room 212, 145 East Amite Bldg., Jackson, Miss. 39201.

No. MC 143762 (Sub-No. 1TA), filed September 22, 1977. Applicant: STEVE ALLEN, d.b.a. Riggs & Allen Transpor-

tation, 528 Harbor Blvd., West Sacramento, Calif. 95691. Applicant's representative: Ann M. Pougiales, Loughran & Hegarty, 100 Bush St., 21st Floor, San Francisco, Calif. 94104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber and lumber products*, from points in Humboldt, Mendocino, Plumas, Shasta, Siskiyou, Sonoma, Tehama, Trinity, Los Angeles, Orange, San Bernardino, and San Diego Counties, Calif., to points in Ariz., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): Inland Lumber Company, 21900 Main Street, P.O. Box 190, Colton, Calif. 92324. Send protests to: A. J. Rodriguez, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 211 Main Street, Suite 500, San Francisco, Calif. 94105.

No. MC 143772TA, filed September 23, 1977. Applicant: H & W TRUCKING CO., INC., Box 38, Ona, W. Va. 25545. Applicant's representative: John M. Friedman, 2930 Putnam Ave., Hurricane, W. Va. 25526. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Mine machinery and used machinery*, between the plant site of Stamler Corporation, Millersburg, Ky., on the one hand, and, on the other, points in Utah, Colorado, Wyoming, New Mexico, Illinois, Ohio, West Virginia, Virginia, Tennessee, Florida, Alabama and Pa., under a continuing contract, or contracts, with Stamler Corporation, for 180 days. Supporting shipper(s): Billy Jo. Hawkins Customer Service, Stamler Corporation, 6th and Trigg Streets, Millersburg, Ky. 40348. Send protests to: H. R. White, District Supervisor, Interstate Commerce Commission, 3108 Federal Office Building, 500 Quarrier Street, Charleston, W. Va. 25301.

By the Commission.

H. G. HOMME, Jr.,
Acting Secretary.

NOTICES

[7035-01]

**TRANSPORTATION OF "WASTE"
PRODUCTS FOR REUSE OR RECYCLING**
Special Certificate Letter Notice(s)

The following letter notices request participation in a Special Certificate of Public Convenience and Necessity for the transportation of "waste" products for reuse or recycling in furtherance of a recognized pollution control program under the Commission's regulations (49 CFR 1062) promulgated in "Waste" Products, ex parte No. MC 85, 124 MCC 583 (1976).

An original and one copy of protests (including protestant's complete argument and evidence) against applicant's participation may be filed with the Interstate Commerce Commission on or before November 2, 1977. A copy must also be served upon applicant or its representative. Protests against the applicant's participation will not operate to stay commencement of the proposed operation.

If the applicant is not otherwise informed by the Commission, operations may commence on or before November 14, 1977, subject to its tariff publication effective date.

P-21-77 (Special certificate-waste products), filed July 25, 1977. Applicant: WARSAW CO., INC., 1102 West Winona, Warsaw, Ind. 46580. Applicant's representative: Sterling W. Hygema (same address as applicant). Authority sought to operate pursuant to a certificate of public convenience and necessity authorizing operations in interstate or foreign commerce, as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Waste products*, including waste paper, newspapers and magazines, polystyrene, secondary fibers, scrap metal and scrap iron, used drums, discarded and obsolete boxes, beer cases, used cartons, ground wood shavings, scrap wood, scrap cloth and rags, glass, glass cullett, scrap roofing felt, pressed box waste, shredded waste, construction materials, scrap containers, plastic products and by-products for reuse or recycling between points in Wisconsin, Iowa, Kansas, Missouri, Arkansas, Tennessee, Kentucky, Indiana, Illinois, Michigan, Ohio, Virginia, West Virginia, Pennsylvania, New Jersey, New York, Maryland, North Carolina, South

Carolina, Alabama, Delaware, Georgia, Mississippi, and the District of Columbia, in furtherance of a recognized pollution control program sponsored by (1) Alton Fox Board Company of Alton, Ill., for the purpose of transporting and recycling waste paper; and (2) Middletown Paperboard Co., of Middletown, Ohio for the purpose of transporting and recycling waste products.

No. P-22-77 (Special certificate-waste products), filed September 21, 1977. Applicant: DART TRUCKING COMPANY, INC., 61 Railroad St., Canfield, Ohio 44406. Applicant's representative: Paul F. Beery, 275 East State St., Columbus, Ohio 43215. Authority sought to operate pursuant to a certificate of public convenience and necessity authorizing operations in interstate or foreign commerce, as a *common carrier*, by motor vehicle, over irregular routes, transporting: *waste products* for recycling and reuse between points in Ohio, Pennsylvania, and West Virginia, in furtherance of a recognized pollution control program sponsored by the General Electric Company, of Cleveland, Ohio for the purpose of recycling various types of litter.

P-23-77 (Special certificate-waste products), filed September 6, 1977. Applicant: BUILDER'S TRANSPORT, INC., 409-15th Street, SW., Great Falls, Mont. Applicant's representative: Irene Warr, 430 Judge Bldg., Salt Lake City, Utah 84111. Authority sought to operate pursuant to a certificate of public convenience and necessity authorizing operations in interstate or foreign commerce as a *common carrier*, over irregular routes, transporting: *Waste products* for recycling or reuse, from points in North Dakota, Wyoming, Utah, Idaho, Washington, and Oregon, to the plant site and facilities of Robinson Insulation, Inc., located at or near Great Falls, Mont., in furtherance of a recognized pollution control program sponsored by Robinson Insulation, Inc., of Great Falls, Mont., for the purpose of collecting and processing used newspapers in bundles or bales.

By the Commission.

H. G. HOMME, Jr.,
Acting Secretary.

CIVIL AERONAUTICS BOARD.

TIME AND DATE: 10 a.m., October 11, 1977.

PLACE: Room 1027, 1825 Connecticut Ave. NW., Washington, D.C. 20428.

SUBJECT:

1. Dockets 31393, 31396, 31404, 31408, 31409 "Super Jackpot" Fares to Las Vegas Proposed by Trans World Airlines (BFR).

2. Docket 31085, Allegheny's exemption request to provide one daily Montreal-Newark flight via Albany (Memo No. 4723-B, BOR, BIA, OGC).

3. Dockets 29687 and 29758, Requests of Pan American and TWA to renew their Bahrain exemption authority (Memo No. 6479-B, BOR, BIA).

4. Docket 31192, Naples Airlines' Application to Add Punta Gorda, Florida to the List of Points at Which It May Use Large Aircraft (Memo No. 1268-D, BOR).

5. Docket 28599, Professional Patient Transportation, Inc., Motion for Leave to Withhold Certain Reporting Information (Memo No. 6129-A, BOR, BAS).

6. Docket 30257, Czechoslovak Airlines Application for Renewal of its Foreign Air Carrier Permit (Memo No. 5146-D, BIA, BOR, OGC).

7. Docket 30526, Jugoslovenski Aerotransport, Application for Renewal of Foreign Air Carrier Permit (Memo No. 4632-H, BIA, BOR).

8. Docket 13959, The Dallas-Fort Worth Regional Airport Investigation, Petition for Reconsideration (Memo No. 4038-B, OGC).

9. Docket 29632, Frontier Airlines, Inc. Subpart M Application (Albuquerque-Phoenix), Notice of Target Date (Memo No. 7468, OGC).

STATUS: Open.

PERSON TO CONTACT:

Phyllis T. Kaylor, The Secretary, (202-673-5068).

2

COMMODITY FUTURES TRADING COMMISSION.

TIME AND DATE: 10 a.m., October 17, 1977.

PLACE: 8th Floor, Conference Room, 2033 K Street, NW., Washington, D.C.

STATUS: Closed.

MATTERS TO BE CONSIDERED:

Judicial matters.

CONTACT PERSON FOR MORE INFORMATION:

Jean Webb, (254-6314).

[S-1555-77 Filed 10-11-77;9:43 am]

[6355-01]

3

CONSUMER PRODUCT SAFETY COMMISSION.

DATE AND TIME: October 13, 9:30 a.m.

LOCATION: 3rd Floor Hearing Room, 1111 18th St., NW., Washington, D.C.

STATUS: Part is Open; part is Closed.

MATTERS TO BE CONSIDERED:

A. Open to the Public, 9:30 a.m.:

1. *Fyrol FR-2: Public Meeting.* The Commission has invited interested members of the public to participate in this public meeting to discuss issues related to, and possible Commission action with regard to the fire-retardant chemical Fyrol FR-2.

2:00 p.m.:

2. *Petition on Fluorocarbon Refrigerants, CP 77-6.* In this petition, James C. Levangle has asked the Commission to issue a rule concerning the use of certain refrigerants used in commercial and residential refrigerating and air-conditioning units. Consideration of this petition, originally scheduled for the October 6 meeting, was deferred at the petitioner's

request, so that he could submit additional date.

3. *Possible Substantial Product Hazard: Carrier Corp. air-conditioners, ID 77-23.* At a previous meeting, the Commission deferred action on Carrier Corporation's proposed corrective action plan to deal with possible fire hazards in certain air-conditioners. The staff has provided additional information on the firm's notification plan to locate the units, and recommends that the Commission accept the corrective action plan.

4. *Draft Proposed Certification Regulation for Architectural Glazing Materials.* This draft FEDERAL REGISTER document would propose regulations under section 14(b) of the Consumer Product Safety Act establishing reasonable testing procedures which would serve as the basis for certifying that glazing complies with requirements of the Standard for Architectural Glazing Materials. Consideration of this item was originally scheduled for the October 6 Meeting.

5. *Proposed Ban of Asbestos Products: Identification Problem.* The staff has presented to the Commission an option paper on possible product identification problems which might arise from the Commission's proposed ban of certain asbestos-containing patching compounds and artificial fireplace ash.

6. *Amendment to the Meetings Policy.* At the October 6 Meeting, the Commission directed the staff to draft an amendment to the CPSC Meetings Policy which would facilitate staff attendance at certain interagency meetings attended solely by government officers and employees.

B. Closed to the public:

7. *Tris Enforcement Matters.* The Commission and its legal staff will discuss various issues related to CPSC action on the flame-retardant chemical Tris.

8. *Application of CPSC Section 4(g) (2).* The Commission will rule on a request from a Commission employee not to impose the post-employment restrictions contained in section 4(g) (2) of the Consumer Product Safety Act. The Commission considered this request at the October 6 Meeting.

CONTACT PERSON FOR ADDITIONAL INFORMATION:

Sheldon D. Butts, Assistant Secretary, Consumer Product Safety Commission, Suite 300, 1111 18th St., NW., Washington, D.C. 20207, telephone 202-534-7700.

4

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION.

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: S-1520-77.

PREVIOUSLY ANNOUNCED TIME AND DATE OF MEETING:

9:30 a.m. (Eastern Time), Tuesday, October 11, 1977.

CHANGES IN THE MEETING:

The following item is added to the agenda for the open portion of the meeting:

REVISION OF PROCEDURAL REGULATIONS TO REFLECT HEADQUARTERS REORGANIZATION

A majority of the entire membership of the Commission determined by recorded vote that the business of the Commission required this change and that no earlier announcement was possible.

The vote was as follows: In favor of change:

Eleanor Holmes Norton, Chair
Ethel Bent Walsh, Commissioner
Daniel E. Leach, Commissioner
Opposed: None.

CONTACT PERSON FOR MORE INFORMATION:

Marle D. Wilson, Executive Officer, Executive Secretariat at 202-634-6748.

[Docket No. 15376; Notice No. 77-23]

CIVIL SUPERSONIC AIRPLANES

Proposed Noise and Sonic Boom
Requirements

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Supplemental notice of proposed rulemaking (NPRM), and re-opening of comment periods.

SUMMARY: This NPRM supplements FAA's review of proposals for regulating the noise of civil supersonic airplanes (SSTs) submitted to the FAA by the U.S. Environmental Protection Agency (EPA) and previously published by the FAA pursuant to the Noise Control Act of 1972. These additional proposals would (1) require all SSTs except Concorde with flight time before January 1, 1980, to comply with the Stage 2 noise limits of Part 36 in order to operate in the United States; (2) prohibit modifications of current SST types that increase their noise; (3) place operational restrictions on SSTs that do not comply with the Stage 2 noise limits of Part 36; and (4) add procedures adapting the flight test conditions and noise limits of Part 36 to SSTs. A proposal to improve protection of the United States from sonic boom is also included. These proposals respond to the public need for the control of sonic boom and of the noise of SSTs.

DATES: Comments must be received on or before December 31, 1977. Public hearings will be held on dates to be announced later.

ADDRESS: Send comments on the proposals in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC-24), Docket No. 15376, 800 Independence Avenue, SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Tedrick, Program Management Branch (AEQ-220), Environmental Technical and Regulatory Division, Office of Environmental Quality, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591, telephone 202-755-9027.

SUPPLEMENTARY INFORMATION:

PUBLIC HEARINGS

Public hearings will be held on this rulemaking action. The details of the hearings will be outlined in a notice of public hearings to be published in the FEDERAL REGISTER. A draft environmental impact statement concerning the actions proposed in this NPRM will be available before the hearings.

PROPOSED RULES

COMMENTS INVITED

Interested persons are invited to participate in the making of the proposed rule by submitting written data, views, or arguments. Communications should identify the regulatory docket and notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue, SW., Washington, D.C. 20591. Comments on the probable environmental, economic, and technological impacts of the proposals are specifically invited.

All communications received on or before the closing date of December 31, 1977, for comments will be considered by the Administrator before any action is taken on the proposed rules. The proposals contained in this notice may be changed in light of the comments received. All comments received, including comments received at the public hearing, will be available in the Rules Docket for examination by interested persons. A report summarizing each substantive public contact with DOT personnel concerned with this rule making will be filed in that Docket.

RE-OPENING OF COMMENT PERIODS

To ensure coordinated review of comments in response to this notice in concert with review of comments concerning STT noise proposals previously submitted to FAA by EPA, the comment periods for Notice 75-15, published in the FEDERAL REGISTER (40 FR 14093) on March 28, 1975, and Notice 76-1, published in the FEDERAL REGISTER (41 FR 6270) on February 12, 1976, are hereby re-opened for additional public comment through the closing date for comments concerning this NPRM. Any additional comments should be sent to Docket No. 15376. Information copies of all public comments may be sent to: Environmental Protection Agency, Office of Noise Control Programs, AW-571, 401 M Street, SW., Washington, D.C. 20460.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rule making (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, SW., Washington, D.C. 20591, or by calling (202) 426-8058. Communications should identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

DISCUSSION OF PROPOSED RULES

I. SYNOPSIS

This NPRM contains proposed FAA actions that are being considered in addition to several options proposed to the FAA by the EPA for the purpose of regulating the noise of SSTs. The rules proposed in this NPRM would, if adopted, have the following effects:

1. The noise levels of the Concorde, which is the only SST for which application has been made for U.S. type certificate, would be limited to the minimum noise level that is technologically practicable and economically reasonable for that airplane type. Because there is no known technology which would reduce Concorde noise levels, the noise limit would, at this time, be the current noise levels of that airplane rather than the noise limits of Part 36 in effect on January 1, 1977 ("Stage 2 noise limits"). Any Concorde that had flight time before January 1, 1980, would be "grandfathered" for operation in the United States.

2. Except for the 16 Concorde expected to have flight time before January 1, 1970, all SSTs would have to comply with the Stage 2 noise limits of Part 36 in order to operate in the United States.

3. The noise test requirements and related flight test procedures of Part 36 (14 CFR Part 36) would be extended to SSTs.

4. The "acoustical change" concept of Part 36, which prohibits any design changes that increase the noise of subsonic airplanes that do not meet Stage 2, would be extended to the Concorde.

5. For SSTs that do not comply with the Stage 2 noise limits of Part 36, the scheduling of operations at U.S. airports between 10 p.m. to 7 a.m. local time would be prohibited.

6. The proposed rules would not in any way change the existing legal authority of each airport proprietor to regulate the noise at its airport in a manner which is not unjustly discriminatory and not unduly burdensome on commerce. For this reason, the proposed rules would not affect the question presently being litigated concerning whether the action of the Port Authority of New York and New Jersey in relation to the Concorde is unjustly discriminatory.

7. The operating restriction relating to sonic booms would be modified to assure that airplanes operating to or from U.S. airports do not, while operating outside U.S. airspace, produce sonic booms that reach land and waters in the United States.

II. PRIOR HISTORY

This supplemental notice relates to three prior notices of proposed rule making and to the demonstration of the Concorde at Dulles International Airport.

A. Notice No. 70-33. On August 4, 1970, the FAA issued Advance Notice of Proposed Rule Making No. 70-33, published in the FEDERAL REGISTER (35 FR 12555) on August 6, 1970. That notice initiated the public process of determining the nature and scope of the factors that must be considered in the development of noise ceilings for the SSTs. In that notice, the FAA requested public comment concerning several issues, including the extent to which noise standards and measurement procedures applicable to subsonic airplanes could be applied to SSTs; the extent to which SSTs should be divided into subclasses for the purpose of establishing noise ceilings and measurement concepts; the extent to which SSTs should be divided into subclasses for the purpose of assessing the economic impact and technological feasibility of proposed noise regulations; the extent to which the timing of type certification standards would itself affect the ability of the FAA to consider economic and technological factors; the manner in which the regulatory authority under section 611 of the Act may be optimally utilized with respect to SSTs without interfering with the existing legal authority of local airport proprietors to establish for their airports airplane noise requirements which are not unjustly discriminatory or unduly burdensome on commerce; the manner of insuring that noise limits established for type certification purposes will have maximum utility for the purposes of long-range airport development; and the development of economic incentives for reducing the noise levels of SSTs.

Notice No. 70-33 also stated FAA's intent to ensure that SSTs, like subsonic airplanes, are subject to type certification standards that require the application of all currently available noise reduction technology.

B. Notice No. 75-15. On February 27, 1975, EPA transmitted to FAA proposed regulations for the control and abatement of SST noise. These proposals were developed and submitted pursuant to section 611(c)(1) of the Act, as amended, which provides that EPA shall submit to the FAA proposed regulations to provide such control and abatement of aircraft noise and sonic boom as EPA determines is necessary to protect the public health and welfare, and that the FAA "shall consider such proposed regulations submitted by EPA and shall, within thirty days of its submission to the FAA, publish the proposed regulations in a notice of proposed rulemaking."

In accordance with this requirement, the FAA issued Notice No. 75-15 on March 25, 1975 (published in the FEDERAL REGISTER (40 FR 14093) on March 28, 1975), containing these EPA proposals. The FAA conducted public hearings on these EPA proposals in accordance with section 611(c)(1) in Los Angeles on May 16, 1975, and in Washington, D.C. on May 22, 1975.

The principal feature of the 1975 EPA proposal was the requirement that future design SSTs meet whatever noise level standards may be applicable to new type subsonic airplanes at the time an application for a type certificate is made.

As to existing types of supersonic airplanes (the Concorde and Russian TU-144), the EPA recommended two rules. First, airplanes upon which "substantive productive effort" had not commenced before the date of the EPA Notice would be obliged to meet the Stage 2 requirements of Part 36. The class of current SSTs already under production (at least nine, possibly sixteen, Concorde and an unknown number of TU-144s) was to be treated separately. The EPA did not, however, propose specific regulations for

that class. Instead, the Notice proposed eight alternative regulatory strategies for existing SSTs.

These options are: (1) Ban all Concorde and TU-144 operations in the United States; (2) impose Part 36 standards on existing Concorde and TU-144s exactly as they are imposed upon subsonic airplanes; (3) allow existing Concorde and TU-144s to operate at designated airports but impose certain restrictions on those operations; (4) allow market forces to determine which airports have service by Concorde and TU-144s and, as in option "3", impose restrictions on operations at those airports; (5) at SST airports (as determined in options "3" or "4"), impose certain operating restrictions on all operators, not only on Concorde and TU-144 operators; (6) impose increasingly stringent source noise requirements on existing SSTs, beginning with currently projected noise levels, or best efforts, on the first 20 airplanes, and proceeding in steps to Part 36 Stage 2 noise limits after the first 60 airplanes; (7) no regulations on existing Concorde and TU-144s; and (8) delay the adoption of regulations for those SSTs until an airport noise regulation has been adopted.

C. Notice No. 76-1. On January 19, 1976, EPA submitted additional proposed regulatory language to FAA, which was published by the FAA as Notice No. 76-1 (41 FR 6070), on February 12, 1976. A public hearing was held by FAA on this proposal on April 5, 1976, in Washington, D.C. EPA indicated that this proposal represented "a further development of the EPA's position on proposed noise requirements for civil supersonic airplanes" and was "intended to supplement" Notice No. 75-15. The additional EPA proposal would prohibit any SST which does not have flight time before December 31, 1974, from operating to or from an airport in the United States unless it complies with the Part 36 noise.

D. Concorde Demonstration Flights. On application of British Airways and Air France to operate the Concorde into the United States, former Secretary of Transportation, William T. Coleman, Jr. issued a decision on February 4, 1976, establishing two 12-month demonstration periods for the Concorde, one at Dulles International Airport and one at John F. Kennedy International Airport, each followed by a 4-month evaluation period.

This decision was made following analysis of comments and testimony presented at a public hearing in Washington, D.C., on January 5, 1976. Public hearings were also held by the FAA in Washington, D.C., on April 14 and 15, 1975, in New York City on April 18, 19, and 24, 1975, and in Sterling Park, Virginia, on April 21, 1975, concerning the draft environmental impact statement prepared prior to the decision.

The decision, which was reaffirmed in 1977 by Secretary of Transportation Brock Adams, is set forth below so that its relation to the current rulemaking can be fully appreciated.

PROPOSED RULES

THE DECISION

After careful deliberation, I have decided for the reasons set forth below to permit British Airways and Air France to conduct limited scheduled commercial flights into the United States for a trial period not to exceed 16 months under limitations and restrictions set forth below. I am thus directing the Federal Aviation Administrator, subject to any additional requirements he would impose for safety reasons or other concerns within his jurisdiction, to order provisional amendment of the operations specifications of British Airways and Air France to permit those carriers, for a period of no longer than 16 months from the commencement of commercial service, to conduct up to two Concorde flights per day into JFK by each carrier, and one Concorde flight per day into Dulles by each carrier. These amendments may be revoked at any time upon four months' notice, or immediately in the event of an emergency deemed harmful to the health, welfare or safety of the American people. The following additional terms and conditions shall also apply:

1. No flight may be scheduled for landing or take-off in the United States before 7 a.m. local time or after 10 p.m. local time.

2. Except where weather or other temporary emergency conditions dictate otherwise, the flights of British Airways must originate from Heathrow Airport and those of Air France must originate from Charles de Gaulle Airport.

3. Authorization of any commercial flights in addition to those specifically permitted by this action shall constitute a new major federal action within the terms of NEPA and therefore require a new Environmental Impact Statement. (A footnote indicates that "it is not contemplated that another EIS would be required to permit continuation beyond 16 months of the six flights for which provisional permission is now being granted.")

4. In accordance with FAA regulations (14 CFR 91.55), the Concorde may not fly at supersonic speed over the United States or any of its territories.

5. The FAA is authorized to impose such additional noise abatement procedures as are safe, technologically feasible, economically justified, and necessary to minimize the noise impact, including, but not limited to, the thrust cut-back on departure.

I am also directing the FAA, subject to Office of Management and Budget clearance and Congressional authorization, to proceed with a proposed High Altitude Pollution Program (HAPP), to produce the data base necessary for the development of national and international regulation of aircraft operations in the stratosphere.

I herewith order the FAA to set up monitoring systems at JFK and Dulles to measure noise and emission levels and to report the result thereof to the Secretary of Transportation on a monthly basis. These reports will be made public within 10 days of receipt.

I shall also request the President to instruct the Secretary of State to enter into immediate negotiations with France and Great Britain so that an agreement that will establish a monitoring system for measuring ozone levels in the stratosphere can be concluded among the three countries within three months. The data obtained from such monitoring shall be made public at least every six months. I shall also request the Secretary of State to initiate discussions through ICAO and the World Meteorological Organization on the development of international stratospheric standards for the SST.

The Concorde monitoring reports and the summary report have been docketed and otherwise made available to the pub-

lic. This comprehensive monitoring effort included the measurement of noise and emissions at Dulles and in the surrounding communities, sonic booms along the east coast of the United States near the planned Concorde flight tracks, low-frequency noise-induced structural vibration of buildings near Dulles, and local community response to the Concorde.

III. CONTINUED OPERATIONS AT DULLES AND JFK

A. *Dulles*. By the terms of the FAA operations specification issued to British Airways and Air France in April 1976, the sixteen month demonstration period at Dulles Airport ended September 24. After Secretary Adams announced this proposed rule on September 23, the two carriers were issued amendments to their operations specifications to permit the same number of Concorde operations (one flight per day per carrier) to continue pending promulgation of a final noise rule.

Monthly reports were issued through the first twelve months of flights; the remaining four months were used to assemble the data into a final report. The monitoring confirmed the FAA's predictions: The Concorde in takeoff is about twice as loud as the noisiest subsonic airplanes (B-707s and DC-8s), and on approach about as loud as the noisiest subsonics. Concorde noise levels measured at standard Part 36 takeoff and approach noise measuring points are in excess of the Stage 2 standards applicable to newly manufactured subsonic jets. During the demonstration, the Concorde operators showed that the Concorde is capable of precision operations maneuvers, such as the decelerating approach, that help reduce its noise impact. In 12 months, the Concorde generated 1387 telephone complaints from airport neighbors, an average of 2.25 per flight, about twenty percent of which came from eight families, and about eight percent of which came from one family. Nearly all of the complaints reflected actual flights, and they were most numerous when atmospheric conditions or unusual flight patterns did indeed cause greater noise impacts than normal.

Structural vibration was also monitored by the National Aeronautics and Space Administration. Vibration levels of windows, walls and floors were measured for both subsonic and Concorde operations. Vibration induced by Concorde was higher than for subsonic airplanes, while well below criteria levels for building damage and less than levels caused by common household events such as door and window closings.

Air pollution monitoring demonstrated that Concorde emissions were greater than those of subsonic airplanes, but were less than anticipated and were not cause for concern. Concorde emissions at Dulles dissipate to background levels less than two thousand feet from the airplane, long before reaching populated locations.

On August 25, 1977, British Airways and Air France applied to the FAA to

continue their present levels of operations at Dulles. Because the relatively limited impacts of the Concorde operations at Dulles have been no greater than had originally been anticipated, the question of continuing operations there can be addressed in the context of this rule making. Under these circumstances, the Administrative Procedures Act at 5 U.S.C. 558 provides a basic policy on the renewal of licenses:

• • • When [a] licensee has made timely and sufficient application for a renewal or a new license in accordance with agency rules, a license with reference to an activity of a continuing nature does not expire until the application has been finally determined by the agency.

In accordance with customary licensing practice and in the absence of environmental consequences severe enough to warrant a contrary result, we have therefore permitted the two carriers operating Concorde each to continue up to one flight per day at Dulles, at least until the promulgation of a final rule pursuant to this rulemaking.

The complete Concorde Monitoring Summary Report is available from the FAA Office of Environmental Quality (AEQ-220), Federal Aviation Administration, 800 Independence Ave. SW., Washington, D.C. 20591, telephone (202) 426-3396. It will be incorporated in the docket for this rule making. Specific comments with respect to the Dulles demonstration flights are invited.

B. *Kennedy*. DOT continues to support a demonstration at JFK. However, neither the 1976 authorization of demonstration flights nor the rules proposed in this NPRM would in any way affect the long established rights of airport proprietors to limit airplane noise at their airports in a manner which is not unjustly discriminatory and not unduly burdensome on commerce. This was recognized by the United States Court of Appeals for the Second Circuit in its two recent decisions in *British Airways Board v. Port Authority*, litigation to compel the Port Authority to permit commercial service with the Concorde at Kennedy International Airport.

The original authorization to conduct a 16-month demonstration of up to two flights per day at JFK by both Air France and British Airways provided that the demonstration period at that airport begins when flights of either carrier begin at New York. If the Concorde does in fact begin serving there, the FAA will monitor Concorde noise levels in New York as it has at Dulles. Any information developed there will be relevant and useful in resolving this rulemaking. The 16-month New York authorization has accordingly been left in effect, until the final promulgation of a rule. This NPRM and related decisions should, therefore, not be an issue in any further New York litigation.

IV. CONSIDERATIONS UNDERLYING THE PROPOSED RULE

A. *General*. This NPRM is issued following FAA review of the noise impact data in the draft environmental impact statement prepared in relation to this

notice, and review of the year of monitoring Concorde arrivals and departures at Dulles. As discussed above, the Dulles demonstration confirmed that the noise impact of the Concorde is in excess of the noise impact of subsonic jets, as expected.

Because of the greater impact of Concorde noise levels, the FAA believes that its noise must be limited and controlled. As noted in the 1976 decision that provided federal authorization for the Concorde demonstrations at Dulles and JFK, noise regulatory proposals concerning SSTs must be subjected to a carefully considered weighing of domestic and international interests. The factors which must be considered here include:

1. The potential environmental impacts of the Concorde, including its air quality, climatic, ozone layer, noise and vibration and energy consumption impacts.
2. The need to maintain, to the maximum extent possible, the trend of reduced noise exposure around the nation's airports.

3. The economic and technical considerations that determine whether the proposed regulatory measures would produce discriminatory or other unfair burdens on international aviation.

4. The need to assure that U.S. regulatory measures affecting foreign airplanes are equitable in light of the treatment that has been afforded by foreign governments to airplanes manufactured in the United States.

5. The benefits that will result from SSTs with respect to improved international travel and communication, technological advances in aviation, and improved international relations.

6. The need to assure that domestic and foreign airplanes are treated equally by the United States, and the need to assure that the same type of treatment that has been afforded by the United States to subsonic airplanes is afforded to SSTs.

7. The need to develop regulatory measures that do not infringe upon the existing legal authority of airport proprietors to regulate noise at their airports in a non-discriminatory manner.

If, in taking all of these factors into account, it is decided to permit SSTs to operate in the United States, two additional considerations are relevant. The first consideration is that to the extent the noise impact can be reduced by operating restrictions, they should be imposed to do so. Second, the noise impact of current generation Concorde should not be increased by modification of the airplane.

Considering these factors, FAA is proposing a regulatory approach that will minimize the environmental impact of supersonic air transportation, preserve its significant benefits, and avoid unreasonable economic impact. Comments focusing on the relationships between noise regulatory decisions, international aviation relations and obligations, and other economic and technological aspects of the certification and operation of SSTs will be most helpful in the development of the final FAA response to the EPA proposals in Notice Nos. 75-15 and 76-1,

and in determining the optimal regulatory solution to the problems presented in this NPRM.

B. *New Design SSTs*. With respect to future design SSTs, the FAA has concluded that it does not have adequate technical information to use as a basis for establishing a new type certification standard at this time. No new design SSTs are now on the drawing boards, and research necessary to develop an environmentally acceptable supersonic engine is to our knowledge proceeding very slowly. It is, therefore, highly unlikely that the technology of new SST engines will be known for several years. The FAA will monitor this research closely, and will develop appropriate standards as soon as there is sufficient technological information. No SST other than the Concorde will be type-certificated until a new noise rule is developed. In addition, the United States will press in the Committee on Aircraft Noise at the International Civil Aviation Organization for the development of an international noise standard for future design SSTs.

The FAA's goal is not to certificate or permit to operate in the United States any future design SST that does not meet standards then applicable to subsonic airplanes. If it is technologically infeasible to produce such an airplane and there is an application for a type certificate, the FAA will consider setting a standard less stringent than existing subsonic rules (Stage 3 or better). Accordingly, in order to protect the public health and welfare, it is the FAA's intention not to permit operations in the United States of any future design SST unless the airplane utilizes the latest noise reduction technology which, at a minimum, will enable these airplanes to meet Stage 2 noise levels. Further, it is the FAA's intention to develop, consistent with § 611, noise certification standards for future design SSTs that incorporate the maximum possible noise reduction technology but in no event allow noise levels to exceed Stage 2. Potential SST developers are advised the FAA will work toward SST noise requirements stricter than Stage 2 and, when such requirements are developed, they will be applied to future design SSTs.

C. *Concorde*. These proposed rules would not require the Concorde with flight time before January 1, 1980, to satisfy the Stage 2 noise limits of Part 36 in order to obtain a U.S. type certificate. In relation to subsonic airplanes, deference has been shown for the long lead times required to develop a new type of airplane. The B-707s and DC-8s, manufactured before the promulgation of airplane noise rules, were initially "grandfathered" under our subsonic noise rules, and were not subject to those rules until 1974, when a manufacturing cutoff date was established to require newly manufactured B-707s and DC-8s to meet Stage 2 Part 36 requirements. Consistent with this treatment of subsonics, the rationale for the 1976 decision authorizing a limited number of Concorde demonstration flights is now a valid basis for

permitting the first few Concorde to operate in the U.S. without meeting the Stage 2 standards:

In order to design the aircraft, the British and French had to choose an engine and then design the aircraft around that engine's capabilities. Thus, the engine itself was a fixed quantity very early in the design process and attempts to reduce the engine's noise levels without unacceptable reductions in thrust were unsuccessful. The manufacturers of the Concorde would be unable to modify the engine or redesign the Concorde to meet restrictive noise levels. Since the Concorde is the only aircraft for which application to land has been made, and, therefore, to which a noise regulation might currently apply, the promulgation of such a rule, insofar as it had present applicability, would have been nothing more than a decision to grant or deny the Concorde the right to operate into the United States • • •

The 1976 decision also stated:

The statutes and historical pattern of aircraft noise regulation, and indeed of most environmental regulations in this country, demonstrate that the promulgation of noise standards has closely followed the development of feasible technology to control noise. FAR 36 was promulgated over a decade after the advent of commercial jet aviation, and 80 percent of the planes in service today still do not satisfy its standard. The regulation was initially written to exempt temporarily aircraft certificated before 1969, which could not comply, and was amended to cover new versions of those aircraft only after the technology became available. The Federal Aviation Act specifically requires the Administrator of the FAA to consider technological feasibility in promulgating regulations. All feasible steps have been taken to control the Concorde noise, and it cannot be modified further to abate the noise levels.

In order to assure that "grandfathered" subsonic airplanes were not modified in a manner that would increase their noise levels, the "acoustical change" provisions of Part 36 were promulgated. These provisions preclude the FAA approval of type design changes which (1) increase the noise levels of "grandfathered" subsonic airplanes; or

- (2) Increase the noise of complying airplanes above the Stage 2 limits. In analogous fashion, a revision to Part 36 is proposed which would extend this "acoustical change" provision to initially "grandfathered" Concorde. In addition, in order to extend the coverage to foreign registered airplanes which would not require a U.S. type certificate or U.S. type design change approval, a revision to Part 91 is proposed which would provide that no SST which does not meet the Stage 2 noise limits of Part 36 would be permitted to operate into a U.S. airport if it had a modification which increased its noise levels. This coverage reflects the policy decision that the factor of nationality should not create the right to increase noise through the further modification of SSTs that are already noisier than the Part 36 noise limits.

As noise suppression technology advanced, Part 36 was modified to provide that no U.S. standard airworthiness certificate would be granted after December 31, 1974, for subsonic turbojet airplanes if the airplane did not meet the

Stage 2 noise limits of Part 36, even though initially "grandfathered" by having been type certificated prior to the effective date of Part 36. In similar fashion, the proposed rules would establish January 1, 1980, as the compliance date in Part 36 for Concorde. This cutoff would be complemented by an operational prohibition in Part 91 which would preclude the operation into a U.S. airport of any SST, domestic or foreign, which does not comply with the Stage 2 noise limits of Part 36, with the exception of Concorde with flight time before January 1, 1980.

Thus, this would limit the noise impact of SSTs by permitting operation in the United States only of Concorde that have flight time before January 1, 1980, but by no other SST, foreign or domestic, which does not comply with the Stage 2 noise limits of Part 36. This proposal is intended to continue for SSTs the long-standing policy of equal treatment of all airplanes in international and domestic operations.

For purposes of this NPRM, the most important international agreements are the Convention on International Civil Aviation (Chicago Convention) which was negotiated in 1944, and the bilateral air transport agreements with the United Kingdom and France.

Chicago Convention. The Chicago Convention is concerned with ensuring the safety of international travel, through both the safety of the airplane itself and the safety of the ground navigational and air traffic control systems. The Chicago Convention also established the International Civil Aviation Organization (ICAO), with multiple functions relating to the facilitation of international air travel.

Under the Chicago Convention, the airplanes of each contracting state that have been certificated by that state as being airworthy are permitted to conduct non-scheduled, non-revenue flights into the territory of any other contracting state without obtaining prior permission. Thus, the United Kingdom and France have treaty rights to conduct such Concorde flights in the United States. However, under the Convention, no commercial service by a foreign carrier may be operated into any nation without the express permission of that nation.

Under article 37 of the Chicago Convention, ICAO may promulgate international standards on a wide variety of subjects, including airworthiness of airplanes. Nations which agree to be bound by those standards must then accept them as definitive regulations with respect to the airworthiness of airplanes in international service. In the absence of action by ICAO, the participating nations may establish appropriate airworthiness standards unilaterally. ICAO has not promulgated international noise standards for SSTs. With respect to operations, such international airworthiness standards, when established, would not preclude any country from regulating the operations of the Concorde for environmental reasons.

Bilateral Agreements. Article II(b) of the bilateral air services agreement between the United States and France contains the following provision:

... [t]he designated air carrier or carriers may be required to satisfy the aeronautical authorities of the Contracting Party granting the rights that it or they is or are qualified to fulfill the conditions prescribed by or under the laws and regulations normally applied to those authorities to the operations of commercial air carriers.

In addition, Article 4 of the July 23, 1977, bilateral agreement between the United States and the United Kingdom ("Bermuda 2"), in language similar to that found in the bilateral with France and the Chicago Convention, provides that:

... [t]he laws and regulations of one Contracting Party relating to admission to or departure from its territory of aircraft engaged in international air navigation, or to the operation and navigation of such aircraft while within its territory, shall be applied to the aircraft of the airline or airlines designated by the other Contracting Party and shall be complied with by such aircraft upon entrance into or departure from and while within the territory of the first contracting Party.

These provisions of the international agreements provide the United States the authority to establish uniform, non-discriminatory rules of the type proposed in this NPRM in relation to the Concorde, if unrestricted permission to operate would be inconsistent with the policies expressed in the environmental laws of the United States.

These international agreements are the principal ones that affect our actions with respect to the Concorde. They are entirely a matter of public record; no other bilateral or multilateral agreements exist that have any bearing on this rulemaking or the rights of airport proprietors to regulate operations at their airports.

Pursuant to these agreements, the Civil Aeronautics Board has certain authority, subject to the President's approval, to regulate foreign air carriers and in appropriate circumstances to suspend, reject or cancel unreasonable or discriminatory fares in foreign air transportation; and the FAA has authority to regulate aspects of aircraft operations that relate to safety.

D. Other Restrictions. Inasmuch as the rule as presently proposed would initially "grandfather" all Concorde with flight time before January 1, 1980, certain limitations are deemed appropriate to reduce the potential noise impact of these SSTs.

1. Airport Proprietor Approval. As noted above, the rules proposed here would not affect the existing legal authority of local airport proprietors to issue noise-related airport use restrictions that are not unjustly discriminatory and that do not impose an undue burden on air commerce.

The proposed rules would not determine the right of any Concorde operator to fly to a particular airport. American airports other than Dulles and Washington National are operated by authorities

independent of the Federal government, usually state or local governmental agencies. While the Congress has the power under the commerce clause of the Constitution to regulate the operations of such airports, it has chosen not to do so. This Congressional policy leaves airport proprietors responsible for the regulation of their airports for noise abatement purposes. The proprietors may limit or prohibit flights by particular airplanes, subject to the general Constitutional restrictions that their regulations are not unjustly discriminatory and do not impose an undue burden on interstate or foreign commerce. The Chicago Convention and bilateral air services agreements do not alter this basic feature of American aviation law.

This legal principle has most recently been upheld by the United States Court of Appeals for the Second Circuit in *British Airways Board vs. Port Authority*. In its second opinion on the matter (No. 287, September 29, 1977), the court reiterated:

Our initial opinion in this case delineated the extremely limited role Congress had reserved for airport proprietors in our system of aviation management. Common sense, of course, required that exclusive control of airspace allocation be concentrated at the national level, and communities were therefore preempted from attempting to regulate planes in flight. See *Allegheny Airlines vs. Village of Cedarhurst*, 233 F. 2d 812 (2d Cir. 1958); *American Airlines vs. Town of Hempstead*, 398 F. 2d 369 (2d Cir.), cert. denied, 393 U.S. 1017 (1969). The task of protecting the local population from airport noise, however, has fallen to the agency, usually of local government, that owns and operates the airfield. *Air Transport Ass. vs. Crotti*, 389 F. Supp. 58 (N.D. Cal. 1975) (three-judge court); *National Aviation vs. City of Hayward*, 418 F. Supp. 417 (N.D. Cal. 1976). It seemed fair to assume that the proprietor's intimate knowledge of local conditions, as well as his ability to acquire property and air easements and assure compatible land use, cf. *Griggs vs. Allegheny County*, 369 U.S. 84 (1962), would result in a rational weighing of the costs and benefits of proposed service. Congress has consistently reaffirmed its commitment to this two-tiered scheme, and both the Supreme Court and executive branch have recognized the important role of the airport proprietor in developing noise abatement programs consonant with local conditions.

FAA consideration of authorization of Concorde flights to particular airports will include environmental assessments for each airport. However, for the Concorde operations covered in the final environmental impact statement (EIS) for this proposed regulatory action, further environmental assessment under NEPA should not be necessary. Therefore, the public is specifically invited to review closely the airports, and numbers of Concorde flights at each airport, that are assessed in the draft EIS for this NPRM.

2. Curfew. In view of the greater single-event noise impact of the Concorde, a curfew on SST operations is proposed that would prohibit the scheduling of operations at any U.S. airport between 10 p.m. and 7 a.m. local time. Review of the noise data developed for the draft

EIS for this notice indicates that the community impact of night SST operations can be much greater than the impact of operations during the daylight hours.

3. Operational Compliance Date. As noise suppression technology advanced, Part 91 was modified to provide that no subsonic transport category turbojet weighing more than 75,000 pounds may operate in domestic commerce in the United States after January 1, 1985, unless it meets the Stage 2 limits of Part 36, irrespective of whether it was initially "grandfathered" by having been type certificated before 1969 or manufactured before 1974. In addition, the intent was expressed in the preamble of Amendment 91-136 to impose the same requirement on subsonic airplanes in foreign air commerce in the United States if ICAO standards are not developed. In parallel fashion, such an operational compliance date, while not presently proposed, would be considered for the "grandfathered" Concorde with flight time before January 1, 1980, when technologically practicable and economically reasonable, and in close concert with international processes through ICAO.

E. Evaluation of Impacts. As noted in the introduction to this notice, the final evaluation of the potential impacts of this NPRM will be accomplished as part of FAA's disposition of the EPA proposals contained in Notice Nos. 75-15 and 76-1. However, the assessment required by the regulatory reform procedures set forth in the Secretary's "Policies to Improve Analysis and Review of Regulations", issued on April 11, 1976, and published in the *Federal Register* (41 FR 16200) on April 16, 1976, has been conducted for this NPRM. These policies require development and analysis of the costs and benefits of rulemaking. This analysis indicates that the proposals in this NPRM would not, if adopted, significantly increase costs to the private sector, to consumers, or to Federal, State or local governments. However, the proposed rule is potentially controversial, primarily because of the anticipated environmental impact of the Concorde. Because of the sensitivity of this aspect of the proposals, a draft environmental impact statement has been prepared as stated above. It is available from the FAA Office of Environmental Quality by writing to Federal Aviation Administration, Office of Environmental Quality (AEQ-210), 800 Independence Avenue, SW., Washington, D.C. 20591, or by telephoning (202) 426-3396.

SECTION-BY-SECTION ANALYSIS

It is proposed to amend provisions in three parts of the Federal Aviation Regulations—Part 21 (14 CFR Part 21), which contains the procedural requirements for the certification of aeronautical products; Part 36 (14 CFR Part 36), which contains the substantive noise limits and related noise measurement and test procedures that must be complied with for the issuance of type certificates and airworthiness certificates; and Part 91 (14 CFR Part 91), which sets

forth the flight and other requirements that apply to the operation of aircraft. The paragraphing of the following discussion corresponds to that of the description of proposed rule changes.

I. CHANGES TO PART 21 (14 CFR PART 21)

A. Section 21.93(b) (1) and (2) would be amended by deleting the word "subsonic." The effect of this amendment would be to make the definition of the term "acoustical change" equally applicable to supersonic and subsonic transport category and turbojet powered civil airplanes. Under this amendment, for both supersonic and subsonic airplanes, an "acoustical change" would exist whenever a voluntary change in the type design of airplane is applied for that may increase the noise levels of the airplane. Therefore, for both supersonic and subsonic airplanes, the acoustical change provisions of Part 36 (§ 36.7) would have to be complied with prior approval of that type design change. See also the discussion of the proposed change to § 36.7 below. Inasmuch as this procedural provision covers only airplanes for which type design approval is requested under U.S. rules (Part 21), this change is supplemented with proposed new § 91.309(b) (1), which would extend the "acoustical change" concept to supersonic airplanes operated in the United States that are not covered by U.S. type certification requirements.

B. Section 21.183(c) (1) would be amended by deleting the word "subsonic." The effect of this would be that, for supersonic as well as subsonic airplanes, a standard airworthiness certificate (which is the class of airworthiness certificate required for U.S. air carrier operation and similar operations) would not be issued for airplanes that have not had flight time before the dates specified in Part 36 (§ 36.1(d)), unless compliance with the noise standards in Part 36 is shown. See also the discussion of the proposed revision of § 36.1(d). This would extend to SSTs the rules applied to subsonic airplanes in Amendment 36-2—popularly called the "new production" rule, issued on October 19, 1973, and published in the *Federal Register* (38 FR 29569) on October 26, 1973.

II. CHANGES TO PART 36 (14 CFR PART 36)

A.1. Section 36.1 would be amended by adding a new subparagraph (a) (3) extending the applicability of Part 36 to cover the issuance of a type certificate, and changes to that type certificate, and the issuance of standard airworthiness certificates, for the Concorde airplane.

A.2. Section 36.1(d) would be amended by deleting the word "subsonic," in the lead-in, by adding the word "subsonic" to the current subparagraphs containing compliance dates, and by adding a new compliance date for Concorde airplanes. This would require Concorde without flight time before January 1, 1980, to comply with the Stage 2 noise limits of Part 36 in effect on the date of publication of this NPRM, in order to obtain an original standard airworthiness certificate. It is noted that

the compliance dates in § 36.1(d) are related to "flight time." Part 1 of the Federal Aviation Regulations (14 CFR Part 1) defines "flight time" as the time for the moment the airplane first moves under its own power for the purpose of flight until the moment it comes to rest at the next point of landing. It is believed that the date of the first flight of an airplane is a clear basis for distinguishing which airplanes in a production series are subject to noise rules and which airplanes are not.

A.3. Section 36.1(f) would be amended by adding new definitions of "subsonic airplane" and "supersonic airplane." The dividing line between these classes would be Mach 1 in terms of the maximum operating limit speed, M_{MO} , as defined in Part 1. Note that these definitions would apply wherever the terms "subsonic airplane" and "supersonic airplane" are used in Part 36, and also where they are used in Part 91 because of the proposed change to § 91.301(d), discussed below. Technical comments concerning the definitions of these terms are specifically requested.

B. The proposed amendment to paragraph (a) of § 36.2 is editorial in nature. It consolidates repetitious language. The purpose of that paragraph, simply stated, is to supersede § 21.17 of Part 21, with respect to the designation of applicable type certification regulations, wherever Part 36 imposes type certification requirements that apply to airplanes for which the application for a type certificate has already been submitted.

C. It is proposed to amend § 36.7 by deleting the term "subsonic." The effect of this change (and of the deletion of the term "subsonic" from § 21.93, discussed above) would be to apply to SSTs the same acoustical change rules that currently apply to subsonic airplanes. Note that, under § 36.7, different regulatory concepts apply, depending on whether the airplane is a "Stage 1 airplane," a "Stage 2 airplane," or a "Stage 3 airplane." Currently operating Concorde are "Stage 1 airplanes" since they have not been shown to comply with the noise limits for "Stage 2 airplanes" or "Stage 3 airplanes." The Stage 1 acoustical change provisions of § 36.7(c) provide that the airplane may not exceed the noise levels created prior to the change in type design. This proposal would bring Concorde under this rule.

D. E. and F. These proposals together make it clear that Subpart B of Part 36 (which requires transport category large airplanes and turbojet powered airplanes to comply with Appendices A and B of Part 36) covers supersonic as well as subsonic airplanes.

G. and H. These proposals make it clear that Subpart C of Part 36, as amended, would apply only to subsonic transport category large airplanes and subsonic turbojet powered airplanes.

I. A new Subpart D, applying to SSTs would be added to Part 36. In this new subpart, new § 36.301, Noise limits: Concorde airplanes, would be added, containing requirements for Concorde cor-

responding to those for the first subsonic airplanes covered by current § 36.201. Like § 36.201, new § 36.301(a) would require that compliance with the applicable noise limits must be shown, for Concorde airplanes, with noise levels measured and evaluated as prescribed in Subpart B of Part 36. This would have the effect of requiring compliance with the detailed noise measurement requirements in Appendix A of Part 36 and the detailed requirements in Appendix B concerning the evaluation of noise data received in accordance with Appendix A. Compliance would have to be demonstrated at the same measuring points (i.e., takeoff, sideline, and approach) as are required under Appendix C for subsonic airplanes. See § C36.3 of Appendix C.

Paragraph (b) of new § 36.301 would provide that, for the Concorde airplane, it must be shown in accordance with the provisions of Part 36 in effect on the publication date of this NPRM, that the noise levels of that airplane are reduced to the lowest levels that are "economically reasonable, technologically practicable, and appropriate to the particular type design." This standard corresponds to considerations prescribed by the Congress in section 611 of the Federal Aviation Act of 1958, as amended by the Noise Control Act of 1972.

J. It is proposed to delete the term "subsonic" from § 36.1581(c). The effect of this change would be to make it clear that, for both supersonic and subsonic transport category large airplanes and turbojet powered airplanes, weights used in complying with the takeoff or landing noise limits of Part 36, if less than the maximum weight or design landing weight, respectively, must be furnished as operating limitations.

K. The proposed changes to §§ C36.7 and C36.9 are intended to incorporate, for the Concorde noise test, the concept of "reference speed" which is the speed presently used, instead of stalling speed, in the takeoff and landing test requirements for that airplane.

III. CHANGES TO PART 91 (14 CFR PART 91)

These changes would modify the current sonic boom provisions of § 91.55, and the noise abatement provisions of Subpart E, *Operating Noise Limits*, which was adopted on December 17, 1976, and published in the *Federal Register* (41 FR 56046) on December 23, 1976. Subpart E currently contains rules that require subsonic turbojet airplanes weighing more than 75,000 pounds to comply with Part 36, in accordance with a phased schedule ending on January 1, 1985.

A. and B. The proposed changes to §§ 91.55(3) and 91.55 are intended to protect the coastal areas of the United States from sonic boom. The current rule prohibits the creation of sonic boom by civil airplanes that are in the United States by prohibiting flight in excess of Mach 1 while the airplane is within U.S. territorial limits. However, in relation to airplanes approved for operation to U.S. airports from outside the United

NOTICES

States, the current rule does not specifically address the problem of a sonic boom created by an airplane which is outside the United States but reaching the surface within the United States. This problem exists because the shock wave generated by supersonic flight can extend many miles from the airplane. In recognition of this phenomenon, the FAA established sonic boom recorders along the east coast of the United States to monitor Concorde sonic booms. Record-ers were placed at Coast Guard Stations nearest the planned Concorde flight track, i.e., Nantucket Island, Massachusetts; Shark River, New Jersey; and Cape May, New Jersey. While no pattern of sonic boom was experienced, one sonic boom, with no reported community reaction, was recorded at the Shark River station. It is estimated that the arriving airplane was 19 miles from the New Jersey coast. Since the airplane was not in the United States, no violation of § 91.55 was involved. The operator, however, changed its flight limitations to ensure that supersonic speed is not attained or maintained closer than 25 miles from the coast. If the number of supersonic operators requesting approval to operate to or from U.S. airports increases, the need for positive requirements to prevent a repetition of the Shark River sonic boom appears evident. It is, therefore, proposed to add a new § 91.55(b) conditioning approval to operate to or from U.S. airports upon compliance, with limitations like those voluntarily adopted by the aircraft operator following the Shark River sonic boom.

The proposal would require that information available to the flight crew include flight limitations that ensure that no sonic boom on the surface in U.S. territory will result from flights entering and leaving the United States. The operator would be required to comply with these limitations unless other limitations are issued to the operator in an authorization to exceed Mach 1 under Appendix B of Part 91. These authorizations are issued in the rare cases specified in that Appendix, for specific operations in designated flight test areas (such as flight testing of supersonic airplanes).

C. The proposed amendment of § 91.301 (a) would reflect the expansion of Subpart E of Part 91 to include SSTs. Subpart E—Operating Noise Limits, contains phased noise limits for subsonic turbojet airplanes, leading to full fleet compliance with Part 36 by January 1, 1985.

The proposed revision of § 91.301(a) is drafted to highlight the different scopes of each section in the revised subpart. Proposed § 91.301(a)(1) would make it clear that current §§ 91.303 through 91.307 would be limited to subsonic airplanes and to U.S. registered airplanes. No substantive change to §§ 91.303 through 91.307 is proposed in this notice.

Proposed § 91.301(a)(2) would provide that the newly proposed operating restrictions in § 91.309, for SSTs that do not comply with Part 36, would apply

to U.S. registered airplanes having standard airworthiness certificates, and foreign registered airplanes that would be required to have standard airworthiness certificates if they were registered in the United States. It would cover operations under Parts 91, 121, 123, 129, and 135.

D. This proposal would incorporate the Part 36 definitions of 'subsonic airplane' and 'supersonic airplane' in Subpart E of Part 91. Here also, public comment on the impact of those definitions (as discussed above) on all operators subject to Part 91 is requested.

E. and F. The proposed revisions of §§ 91.303 and 91.305 would make it clear that the current dates for phased and final compliance with Part 36, ending on January 1, 1985, apply only to subsonic airplanes. See proposed § 91.311 for application of Part 36 to Concordes.

G. A new § 91.309 would be added, containing operating rules that would apply to SSTs that operate to or from a U.S. airport but have not been shown to comply with the Stage 2 noise limits of Part 36 in effect on the publication date of this NPRM. Note that use of the trade-off provisions of Part 36 would be allowed. This section would apply equally to U.S. registered and foreign registered airplanes.

Proposed § 91.309(b) would prescribe the operational restrictions intended to protect airport environments from unnecessary SST noise. Proposed § 91.309 (b)(1) would require that no person may land or take off an airplane covered by the section if its noise has been increased through modification of the type design of the airplane. This operational counterpart of the acoustical change provisions of § 36.7 of Part 36 (see above discussion) is proposed because the acoustical change provisions of Part 36 (and Part 21) apply only to U.S. type certificated airplanes for which a type design change approval is requested under U.S. regulations. However, those certification rules do not cover foreign airplanes, for which a type design change approval by the FAA is not required or requested. These airplanes may, nevertheless, be "grown" or otherwise modified under the laws of other countries. The words "regardless of whether a type design change approval is applied for under Part 21 of this chapter" would extend the acoustical change concept to the operation of airplanes not covered by U.S. certification rules.

Proposed § 91.309(b)(2) would provide that no flight may be scheduled, or otherwise planned, for takeoff or landing at any U.S. airport after 10 p.m. and before 7 a.m., local time.

H. Proposed § 91.311 would provide that, except for Concorde airplanes having flight time before January 1, 1980, no SST may be operated in the U.S. that does not comply with the Stage 2 noise limits of Part 36 in effect on the publication date of this NPRM.

DRAFTING INFORMATION

The principal authors of this document are Richard Tedrick, Office of En-

vironmental Quality, and Richard Danforth, Office of the Chief Counsel.

PROPOSED RULE

In consideration of the foregoing, the FAA, hereby supplements the proposals in Notices 75-15 and 76-1 with the following proposals to amend Title 14 of the Code of Federal Regulations:

PART 21—CERTIFICATION PROCEDURES FOR PRODUCTS AND PARTS

I. Part 21 of the Federal Aviation Regulations (14 CFR Part 21) would be amended as follows:

§ 21.93 [Amended]

A. By amending § 21.93(b)(1) and (2) by deleting the word "subsonic" wherever it appears.

§ 21.183 [Amended]

B. By amending § 21.183(e)(1) by deleting the word "subsonic" wherever it appears.

PART 36—NOISE STANDARDS; AIRCRAFT TYPE AND AIRWORTHINESS CERTIFICATION

II. Part 36 of the Federal Aviation Regulations (14 CFR Part 36) would be amended as follows:

§ 36.1 [Amended]

1. By adding a new § 36.1(a)(3) to read as follows:

(a)
(3) A type certificate and changes to that certificate, and standard airworthiness certificates, for Concorde airplanes.

2. By amending § 36.1(d) to read as follows:

(d) Each person who applies for the original issue of a standard airworthiness certificate for a transport category large airplane or for a turbojet powered airplane under § 21.183 must, regardless of date of application, show compliance with the following provisions of this part, (including Appendix C)

(1) Part 36 as effective on December 1, 1969, for subsonic airplanes that have not had any flight time before—

(i) December 1, 1973, for airplanes with maximum weights greater than 75,000 lbs., except for airplanes that are powered by Pratt and Whitney Turbo Wasp JT3D series engines;

(ii) December 31, 1974, for airplanes with maximum weights greater than 75,000 lbs. and that are powered by Pratt and Whitney Turbo Wasp JT3D series engines;

(iii) December 31, 1974, for airplanes with maximum weights of 75,000 lbs. and less; and

(2) The Stage 2 noise limits of Part 36 as effective on (the publication date of this NPRM) for Concorde airplanes that have not had flight time before January 1, 1980.

3. By amending § 36.1(f) by adding new paragraphs (7) and (8) to read as follows:

(f)

(7) A "subsonic airplane" means an airplane for which the maximum operating limit speed, M_{mo} , does not exceed a Mach number of 1.

(8) A "supersonic airplane" means an airplane for which the maximum operating limit speed M_{mo} , exceeds a Mach number of 1.

B. By amending paragraph (a) of § 36.2 to read as follows:

§ 36.2 Special retroactive requirements.

(a) Notwithstanding § 21.17 of this chapter, and irrespective of the date of application, each person who applies for a type certificate for an aircraft covered by this part must show compliance with the applicable provisions of this part.

§ 36.7 [Amended]

C. By amending the section heading and paragraph (a) of § 36.7 by deleting the word "subsonic" wherever it appears.

D. By amending the heading of Subpart B to read as follows:

Subpart B—Noise Measurement and Evaluation for Transport Category Large Airplanes and Turbojet Powered Airplanes

§ 36.101 [Amended]

E. By amending § 36.101 by inserting the words "for transport category large airplanes and turbojet powered airplanes" before the words "the noise generated"

§ 36.103 [Amended]

F. By amending § 36.103 by inserting the words "for transport category large airplanes and turbojet powered airplanes," before the words "noise measurement information"

G. By amending the heading of Subpart C to read as follows:

Subpart C—Noise Limits for Subsonic Transport Category Large Airplanes and Subsonic Turbojet Powered Airplanes

§ 36.201 [Amended]

H. By amending paragraph (a) of § 36.201 by inserting the words "for subsonic transport category large airplanes and subsonic turbojet powered airplanes" before the words "compliance with"

I. By adding a new Subpart D to read as follows:

Subpart D—Supersonic Transport Category Airplanes

§ 36.301 Noise limits: Concorde airplanes.

(a) General. For the Concorde airplane, compliance with this subpart must be shown with noise levels measured and evaluated as prescribed in Subpart B of this part, and demonstrated at the measuring points prescribed in Appendix C of this part.

(b) Noise limits. It must be shown in accordance with the provisions of this part in effect (on the publication date of this NPRM) that the noise levels of the

airplane are reduced to the lowest levels that are economically reasonable, technologically practicable, and appropriate to the particular type design.

§ 36.1581 [Amended]

J. By amending paragraph (c) of § 36.1581 by deleting the word "subsonic" before the words "transport category"

K. By amending Appendix C as follows:

1. By amending § C36.7(f)(1) by inserting the words "for subsonic airplanes" before the words "the test day conditions."

2. By redesignating § C36.7(f)(2) as § C36.7(f)(3).

3. By adding a new § C36.7(f)(2) to read as follows:

§ C36.7 Takeoff test conditions.

(f)

(2) For Concorde airplanes, the test day speeds and the acoustic day reference speed must be the minimum approved value of V_{r+35} knots, or the all-engines-operating speed at 35 feet whichever speed is greater as determined under the regulations constituting the type certification basis of the airplane, except that the reference speed must not exceed 250 knots. These tests must be conducted at the test day speeds ± 3 knots. Noise values measured at the test day speeds must be corrected to the acoustic day reference speed.

4. By amending § C36.9(f)(1) by inserting the words "for subsonic airplanes" before the word "a steady."

5. By redesignating § C36.9(f)(2) as § C36.9(f)(3).

6. By adding a new § C36.9(f)(2) to read as follows:

§ C36.9 Approach test conditions.

(f)

(2) For Concorde airplanes a steady approach speed, that is either the landing reference speed ± 10 knots, or the speed used in establishing the approved landing distance under the airworthiness regulations constituting the type certification basis of the airplane, whichever speed is greater, must be established and maintained over the approach measuring point.

PART 91—GENERAL OPERATING AND FLIGHT RULES

III. Part 91 of the Federal Aviation Regulations (14 CFR Part 91) would be amended as follows:

§ 91.1 [Amended]

A. By amending § 91.1(b)(3) by deleting the reference to § 91.55 therefrom.

By amending § 91.55 by adding the words "in the United States" between the words "civil aircraft" and the words "at a", by designating the current text as paragraph (a), and by adding a new paragraph (b) to read as follows:

§ 91.55 Civil aircraft sonic boom.

(b) In addition, no person may operate a civil aircraft, capable of operating at a Mach number greater than 1, to or from an airport in the United States unless—

(1) Information available to the flight crew includes flight limitations that ensure that flights entering or leaving the United States will not cause a sonic boom to reach the surface within the United States; and

(2) He complies with the flight limitations prescribed in paragraph (b)(1) of this section or complies with conditions and limitations in an authorization to exceed Mach 1 issued to the operator under Appendix B of this Part.

C. By amending paragraph (a) of § 91.301 to read as follows:

§ 91.301 Applicability; relation to Part 36.

(a) This subpart prescribes operating noise limits and related requirements that apply, as follows, to the operation of aircraft in the United States:

(1) Sections 91.303, 91.305, and 91.307 apply to U.S. registered civil subsonic turbojet airplanes with maximum weights of more than 75,000 pounds and having standard airworthiness certificates. Those sections apply to operations under this part and under Parts 121, 123 and 135 of this chapter.

(2) Sections 91.309 and 91.311 apply to U.S. registered civil supersonic airplanes having standard airworthiness certificates, and foreign registered civil supersonic airplanes that, if registered in the United States, would be required by this chapter to have a U.S. standard airworthiness certificate in order to conduct the operations intended for the airplane. Those sections apply to operations under this part and under Parts 121, 123, 129 and 135 of this chapter.

§ 91.301 [Amended]

D. By adding the following new sentence at the end of paragraph (b) of § 91.301: "For the purpose of this subpart, the terms 'subsonic airplane' and 'supersonic airplane' have the meanings specified in Part 36 of this chapter."

§ 91.303 [Amended]

E. By amending § 91.303 by amending the section heading to read "Final compliance: subsonic airplanes" and by adding the word "subsonic" between the word "any" and the word "airplane."

§ 91.305 [Amended]

F. By amending § 91.305 by amending the section heading to read "Phased compliance under Parts 121 and 135: subsonic airplanes," and by adding the word "subsonic," in paragraph (a), between the word "operating" and the word "airplanes."

G. By adding a new § 91.309 to read as follows:

§ 91.309 Civil supersonic airplanes that do not comply with Part 36.

(a) Applicability. This section applies to civil supersonic airplanes that do not comply with the Stage 2 noise limits of Part 36, in effect on (the publication date of this NPRM), using applicable trade-off provisions.

(b) Airport use. Except in an emergency, the following apply to each person who operates a civil supersonic air-

55184

PROPOSED RULES

plane to or from an airport in the United States:

(1) Regardless of whether a type design change approval is applied for under Part 21 of this chapter, no person may land or take off an airplane, covered by this section, for which the type design is changed after (effective date of the final rule) in a manner constituting an "acoustical change" under § 21.93, unless the acoustical change requirements of Part 36 are complied with.

(2) No flight may be scheduled, or otherwise planned, for takeoff or landing after 10 p.m. and before 7 a.m. local time.

H. By adding a new § 91.311 to read as follows:

§ 91.311 Civil supersonic airplanes: Noise limits.

Except for Concorde airplanes having flight time before January 1, 1980, no person may operate a civil supersonic airplane that does not comply with the Stage 2 noise limits of Part 36 in effect on (publication date of this NPRM).

(Secs. 307, 313(a), 601(a), 603, 611, Federal Aviation Act of 1958, as amended (49 U.S.C. 1348, 1354(a), 1421(a), 1423, and 1431); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); Title I, National Environ-

mental Policy Act of 1969 (42 U.S.C. 4321 et seq.); Executive Order 11514, March 5, 1970; 14 CFR 11.45.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring the preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on October 11, 1977.

CHARLES R. FOSTER,
Director, Office of
Environmental Quality.

Title 45—Public Welfare

CHAPTER X—COMMUNITY SERVICES ADMINISTRATION

[CSA Instruction 6143-3]

PART 1061—CHARACTER AND SCOPE OF SPECIFIC PROGRAMS

Subpart—Emergency Energy Conservation Programs; Waivers for Farmworker-Governed Organizations

AGENCY: Community Services Administration.

ACTION: Final rule.

SUMMARY: The policy statement governing the funding of Emergency Energy Conservation Programs (CSA Instruction 6143-1a) currently imposes both a requirement that 90 percent of certain weatherization funds go toward purchase of materials and a non-Federal share requirement and CSA Notice 6143-2 requires that at least 70 percent of operational funds be used for weatherization. The Community Services Administration is waiving these requirements for the Emergency Energy Conservation Program when projects are operated by farm-worker-governed organizations. This rule eliminates requirements which were meant to be fulfilled by organizations with well developed ties in the community and whose clients are permanent residents.

DATES: Since this policy clearly benefits farmworker-governed organizations and because the application and funding processes are currently underway, the policy stated herein is effective October 13, 1977.

FOR FURTHER INFORMATION CONTACT:

Richard Saul, Community Services Administration, Emergency Energy Conservation Programs, 1200 19th Street NW., Washington, D.C. 20506. Telephone 202-254-5240.

GRACIELA (GRACE) OLIVAREZ, Director.

45 CFR Part 1061 is amended by adding the following:

Sec.

1061.32-1 Applicability.

1061.32-2 Non-Federal Share Contribution.

1061.32-3 Materials Costs for Weatherization.

1061.32-4 Percentage of Funds to Weatherization.

AUTHORITY.—Sec. 602, 78 Stat. 530; (42 U.S.C. 2942).

§ 1061.32-1 Applicability.

This subpart is applicable to grants made with FY 77 funds to farmworker-

governed organizations under Section 222(a) (12) of the Economic Opportunity Act of 1964, as amended, when the assistance is administered by the Community Services Administration.

§ 1061.32-2 Non-Federal Share Contribution.

(a) Because of the relatively recent establishment of most farmworker-governed organizations, and the lack of opportunity to develop relationships with private sector, local governments, and other sources of non-Federal share contributions, CSA has determined that requirements of a non-Federal share for grants made under Section 222(a) (12) would be unreasonable.

(b) Therefore, the non-Federal share requirement is waived for those grants made with FY 77 funds under Section 222(a) (12) of the Economic Opportunity Act as amended to farmworker-governed organizations.

§ 1061.32-3 Material costs for weatherization.

For many of the same reasons that make it difficult for farmworker-governed organizations to raise non-Federal share, they have not been able to establish the kinds of relationships with CETA Prime Sponsors that would facilitate obtaining manpower resources to support weatherization activities. Consequently, in those cases where farmworker grantees have not been able to obtain special Migrant CETA funds under Title III, administering offices will consider individual requests for waivers of the requirement that 90 percent of weatherization funds under program account 21 go to weatherization materials and forward their recommendations to the funding official.

§ 1061.32-4 Percentage of funds to weatherization.

Many of the energy-related problems of farmworkers, particularly migrant farmworkers, relate to other than energy efficiency of housing. The need for adequate representation and advocacy for consumer interests of farmworkers in the energy field, and the transportation problems of farmworkers, are two examples. Consequently, and in recognition of this diversity of farmworker energy needs, only fifty percent (50%) of operational funds granted to farmworker-governed organizations need be for the support of weatherization activities under Program Account 21.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The six-month trial period ended August 6. The program is being continued on a voluntary basis (see OFR notice, 41 FR 32914, August 6, 1976). The following agencies have agreed to remain in the program:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR
	HEW/ADAMHA			HEW/ADAMHA
	HEW/CDC			HEW/CDC
	HEW/FDA			HEW/FDA
	HEW/HRA			HEW/HRA
	HEW/HSA			HEW/HSA
	HEW/NIH			HEW/NIH
	HEW/PHS			HEW/PHS

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: For questions, corrections, or requests for information please see the list of telephone numbers appearing on opposite page.

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

list of cfr parts affected in this issue

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, follows beginning with the second issue of the month.
A Cumulative List of CFR Sections Affected is published separately at the end of each month. The guide lists the parts and sections affected by documents published since the revision date of each title.

reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

NOTE: There were no items eligible for inclusion in the list of RULES GOING INTO EFFECT TODAY.

Rules Going Into Effect Oct. 15, 1977

Interior/FWS—Wapanocca National Wildlife Refuge; open to raccoon hunting. 38912; 8-1-77

Rules Going Into Effect Oct. 16, 1977

Labor/ETA—Disaster Unemployment Assistance Program..... 46711; 9-16-77

List of Public Laws

This is a continuing listing of public bills that have become law, the text of which is not published in the FEDERAL REGISTER. Copies of the laws in individual pamphlet form (referred to as "slip laws") may be obtained from the U.S. Government Printing Office.

S. 213..... Pub. L. 95-125
To amend the Accounting and Auditing Act of 1950 to provide for the audit, by the Comptroller General, of the Internal Revenue Service and of the Bureau of Alcohol, Tobacco, and Firearms. (Oct. 7, 1977; 91 Stat. 1104). Price: \$.50.

S. 1307..... Pub. L. 95-126
To deny entitlement to veterans' benefits to certain persons who would otherwise become so entitled solely by virtue of the administrative upgrading under temporarily revised standards of other than honorable discharges from service during the Vietnam era; to require case-by-case review under uniform, historically consistent, generally applicable standards and procedures prior to the award of veterans' benefits to persons administratively discharged under other than honorable conditions from active military, naval, or air service; and for other purposes. (Oct. 8, 1977; 91 Stat. 1106). Price: \$.50.

H.R. 6655..... Pub. L. 95-128
"Housing and Community Development Act of 1977". (Oct. 12, 1977; 91 Stat. 1111). Price: \$1.40.

S. 1435..... Pub. L. 95-127
To amend the Federal Election Campaign Act of 1971 to extend the authorization of appropriations contained in such Act. (Oct. 12, 1977; 91 Stat. 1110). Price: \$.50.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

[6325-01]

Title 5—Administrative Personnel
CHAPTER I—CIVIL SERVICE COMMISSION
PART 213—EXCEPTED SERVICE
United States Information Agency
AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: The position of Policy Guidance Coordinator, Office of Policy and Plans, is excepted under Schedule C because it is confidential in nature.

EFFECTIVE DATE: October 14, 1977.

CHAPTER III—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE
PART 301—DOMESTIC QUARANTINE NOTICES

Subpart—Mexican Fruit Fly

EXEMPTIONS

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: This document exempts from all requirements of the Mexican fruit fly quarantine and regulations the movement of any host fruits except for movements to or through specified citrus-producing areas. The restrictions on movements of host fruits not to or through citrus-producing areas are not necessary to prevent the spread of the Mexican fruit fly. Therefore, the issuance of limited permits and other restrictions with respect to the movement

of any host fruits except for movements to or through specified citrus-producing areas, will no longer be required.

FOR FURTHER INFORMATION CONTACT:

H. I. Rainwater, Regulatory Support Staff, Animal and Plant Health Inspection Service, Plant Protection and Quarantine Programs, U.S. Department of Agriculture, Hyattsville, Md. 20782, 301-436-8247.

SUPPLEMENTARY INFORMATION: The Mexican fruit fly is a dangerous insect that attacks citrus and other fruits. This fruit fly exists in a limited area in the Lower Rio Grande Valley, which has been designated as a regulated area. Bioclimatic studies have indicated that this fruit fly's ecological range in the United States is limited to warmer climates, i.e., citrus-producing areas. The Mexican fruit fly quarantine and regulations (7 CFR 301.64, 301.64-1 et seq.) regulate the interstate movement from infested areas of host fruits which pose a threat of spread of the insect to citrus-producing areas of the United States and specifies the host fruits and conditions under which movement of these fruits is allowed.

The quarantine and regulations have allowed noncertifiable host fruits to move interstate from regulated areas to specified destinations under limited permit. The only requirements for the movement of host fruits pursuant to a limited permit are that such permit indicates the place of destination and that the movement not be to or through a citrus-producing area.

Restrictions on the interstate movement of host fruits from a regulated area to or through citrus-producing areas are still necessary. However, interstate movements of host fruits from regulated areas which are not to or through citrus-producing areas do not require any restrictions because past experience has shown that the possibility of pest spread to citrus-producing areas by this means is negligible and the utilization of such limited permits creates unnecessary paperwork. Therefore, any interstate movement of host fruits is hereby exempted from all requirements under the quarantine and regulations, unless such movement is to or through a designated citrus-producing area.

Accordingly, § 301.64-2b of the regulations supplemental to the Mexican fruit fly quarantine (7 CFR 301.64-2b) is hereby amended to read as follows.

§ 301.64-2b Exemptions.¹

Any movement of host fruits shall be exempt from all requirements of this subpart unless such movement is to or through the following: Arizona; California; Florida; Hawaii; Jefferson, Or-

¹ The articles hereby exempted remain subject to applicable restrictions under other quarantines.

leans, Plaquemines, St. Bernard, and St. Charles Parishes in Louisiana; Puerto Rico; and the Virgin Islands of the United States.

(Secs. 8, and 9, 37 Stat. 318, as amended, sec. 106, 71 Stat. 33 (7 U.S.C. 161, 162, 150ee).)

This amendment relieves certain restrictions heretofore imposed, and should be made effective promptly in order to be of maximum benefit to the persons subject to the restrictions that are being relieved. Also, it does not appear that additional information would be made available to the Department by public participation in rulemaking proceedings on the amendment.

Accordingly, it is found, under the administrative procedure provisions of 5 U.S.C. 553, that notice and other public procedure with respect to this amendment are unnecessary, and good cause is found for making it effective less than 30 days after publication in the *FEDERAL REGISTER*.

NOTE.—The Plant Protection and Quarantine Programs, Animal and Plant Health Inspection Service, has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

Done at Washington, D.C., this 29th day of September 1977.

JAMES O. LEE, JR.,
Deputy Administrator, Plant
Protection and Quarantine
Programs, Animal and Plant
Health Inspection Service.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

**[Lemon Reg. 115; Lemon Reg. 314, Amdt. 1]
PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA**

Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This action establishes the quantity of California-Arizona lemons that may be shipped to the fresh market during the period October 16-22, 1977, and increases the quantity of such lemons that may be so shipped during the period October 9-15, 1977. Such action is needed to provide for orderly marketing of fresh lemons for the periods specified due to the marketing situation confronting the lemon industry.

DATES: The regulation becomes effective October 16, 1977, and the amendment is effective for the period October 9-15, 1977.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, 202-447-3545.

SUPPLEMENTARY INFORMATION: *Findings.* Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under this marketing order, and upon other information, it is found that the limitation of handling of lemons, as hereafter provided, will tend to effectuate the declared policy of the act.

The committee met on October 11, 1977, to consider supply and market conditions and other factors affecting the need for regulation, and recommended quantities of lemons deemed advisable to be handled during the specified weeks. The committee reports the demand for lemons is good on 140's and larger, and easing on 165's and smaller.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the *FEDERAL REGISTER* (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation and amendment are based and the effective date necessary to effectuate the declared policy of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting, and the amendment relieves restrictions on the handling of lemons. It is necessary to effectuate the declared purposes of the act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

§ 910.415 Lemon Regulation 115.

1. *Order.* (a) The quantity of lemons grown in California and Arizona which may be handled during the period October 16, 1977, through October 22, 1977, is established at 205,000 cartons.

(b) As used in this section, "handled" and "carton(s)" mean the same as defined in the marketing order.

2. The provisions of paragraph (a) in § 910.414 Lemon Regulation 314 (42 FR 54555) is amended to read as follows: "The quantity of lemons grown in California and Arizona which may be handled during the period October 9, 1977, through October 15, 1977, is established at 230,000 cartons."

(Secs. 1-19, 48 Stat. 31, as amended (7 U.S.C. 601-674).)

Dated: October 13, 1977.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable
Division, Agricultural
Marketing Service.

[3410-02]

PART 966—TOMATOES GROWN IN FLORIDA

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation requires fresh market shipments of tomatoes grown in certain counties in Florida to be inspected and meet minimum grade, size, pack, container and marking requirements. This should promote orderly marketing of such tomatoes by keeping less desirable sizes and qualities from being shipped to consumers.

EFFECTIVE DATE: October 17, 1977.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, AMS, U.S. Department of Agriculture, Washington, D.C. 20250. Telephone: 202-447-3545.

SUPPLEMENTARY INFORMATION: Marketing Agreement No. 125 and Order No. 966, both as amended (7 CFR 966) regulate the handling of tomatoes grown in designated counties of Florida. It is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). The Florida Tomato Committee, established under the order, is responsible for its local administration.

This regulation is based upon recommendations made by the committee at its public meeting in Palm Beach, Fla., on September 9, 1977. Notice was published in the September 21, 1977, *FEDERAL REGISTER* (42 FR 47560) regarding the proposals. It afforded interested persons an opportunity to file written comments not later than October 6, 1977. None was received.

The recommendations of the committee reflect its appraisal of the composition of the 1977-78 crop of Florida tomatoes and the marketing prospects for this season. The regulation is similar to those issued during past seasons. The grade and size requirements are necessary to prevent tomatoes of lower quality and undesirable sizes from being distributed in fresh market channels. Such tomatoes are usually of negligible economic value to producers. This will provide consumers with tomatoes of good quality and size throughout the season consistent with the overall quality of the crop. The requirements for containers, container net weights, and size classifications are necessary to standardize shipments in the interest of orderly marketing and to improve returns to growers.

Exceptions are provided to certain of these requirements to recognize special situations in which such requirements are inappropriate or unreasonable. Shipments are allowed to certain special purpose outlets without regard to minimum grade, size, container or inspection requirements provided that safeguards are used to prevent such tomatoes from reaching unauthorized outlets.

Tomatoes for canning are exempt under the legislative authority for this part. Since no purpose would be served by regulating tomatoes used for relief or charity purposes such shipments are also exempt. Because export requirements differ materially, on occasion, from domestic market requirements such shipments are exempt. The following types of tomatoes are exempt from these regulations: elongated types, commonly referred to as pear shaped or paste tomatoes, cerasiform type tomatoes commonly referred to as cherry tomatoes, hydroponic tomatoes and greenhouse tomatoes. Such types are generally of good quality, readily identifiable either by their distinctive shapes or container markings and usually comprise a very small part of the total crop. Tomatoes marketed within the regulated area are unregulated because of an increase in the u-pick type of harvest in Florida production areas close to urban areas and resulting difficulty in obtaining compliance with regulations. The minimum quantity exemption permits persons to handle up to 60 pounds of tomatoes per day without regard to the requirements of this part. This reduces the problem of enforcement on small shipments of essentially noncommercial nature. The requirements concerning special pack shipments are intended to help handlers in the production area compete on an equal basis with those outside the area by not requiring reinspection of previously inspected and certified tomatoes when repacked in consumer size packages.

After consideration of all relevant matters presented, including the above proposal recommended by the Florida Tomato Committee, established pursuant to said marketing agreement and order, it is hereby found and determined that the handling regulation, as hereinafter set forth, will tend to effectuate the declared policy of the act.

It is hereby further found that good cause exists for not postponing the effective date of this section until 30 days after publication in the *FEDERAL REGISTER* (5 U.S.C. 553) in that (1) shipments of 1977-78 crop tomatoes grown in the production area will begin on or about the effective date herein and the regulation should become effective at that time to maximize the benefits to producers; (2) information regarding the provisions of the recommendation by the committee has been disseminated among the growers and handlers of tomatoes in the production area; and (3) compliance with this section should not require any special preparation on the part of handlers subject thereto which cannot be completed by such effective date.

The regulation is as follows:
§ 966.316 Handling regulation.

During the period October 17, 1977, through June 17, 1978, no person shall

handle any lot of tomatoes for shipment outside the regulated area unless they meet the requirements of paragraph (a) or are exempted by paragraphs (b) or (d).

(a) *Grade, size, container and inspection requirements.*

(1) *Grade.* Tomatoes shall be graded and meet the requirements specified for U.S. No. 1, U.S. Combination, U.S. No. 2 or U.S. No. 3, of the U.S. Standards for Grades of Fresh Tomatoes. When not more than 15 percent of tomatoes in any lot fail to meet the requirements of U.S. No. 1 grade and not more than one-third of this 15 percent (or 5 percent) are comprised of defects causing very serious damage including not more than one percent of tomatoes which are soft or affected by decay, such tomatoes may be shipped and designated as at least 85 percent U.S. No. 1 grade.

(2) *Size.* (i) tomatoes shall be at least 2 1/2 inches in diameter and be sized in accordance with § 2851.1859 of the U.S. tomato standards.

(ii) Tomatoes of designated sizes may not be commingled unless they are over 2 1/2 inches in diameter and each container shall be marked to indicate the designated sizes.

(iii) Only the generic terms as defined in § 2851.1859 may be used to indicate size designations on containers of tomatoes; except that the following abbreviations may be used—SML for small, MED for medium, LG for large, EX LG for extra large, or MAX LG for maximum large.

(3) *Containers.* (i) Tomatoes shall be packed in containers of 20, 30 or 40 pounds designated net weights and comply with the requirements of § 2851.1863 of the U.S. tomato standards.

(ii) Each container shall be marked to indicate the designated net weight and must show the name and address of the shipper in letters at least one-fourth (1/4) inch high.

(iii) If the container in which the tomatoes are packed is not clean and bright in appearance without marks, stains or other evidence of previous use, the lid of such container shall be marked with the words "USED BOX" in letters not less than three-fourths (3/4) inch high.

(4) *Inspection.* Tomatoes shall be inspected and certified pursuant to the provisions of § 966.60. Each handler who applies for inspection shall register with the committee pursuant to § 966.113. Handlers shall pay assessments as provided in § 966.42. Evidence of inspection must accompany truck shipments.

(b) *Special purpose shipments.* The requirements of paragraph (a) of this section shall not be applicable to shipments of tomatoes for canning, relief, charity or export if the handler thereof complies with the safeguard requirements of paragraph (c) of this section. Shipments for canning are also exempt from the assessment requirements of this part.

(c) *Special purpose shipments.* The requirements of paragraph (a) of this section shall not be applicable to shipments of tomatoes for canning, relief, charity or export if the handler thereof complies with the safeguard requirements of paragraph (c) of this section. Shipments for canning are also exempt from the assessment requirements of this part.

(d) *Special purpose shipments.* The requirements of paragraph (a) of this section shall not be applicable to shipments of tomatoes for canning, relief, charity or export if the handler thereof complies with the safeguard requirements of paragraph (c) of this section. Shipments for canning are also exempt from the assessment requirements of this part.

The regulation is as follows:

§ 966.316 Handling regulation.

During the period October 17, 1977, through June 17, 1978, no person shall

(c) *Safeguards.* Each handler making shipments of tomatoes for canning, relief, charity or export in accordance with paragraph (b) of this section shall:

(1) Apply to the committee and obtain a Certificate of Privilege to make such shipments.

(2) Prepare on forms furnished by the committee a report in quadruplicate on such shipments authorized in paragraph (b) of this section.

(3) Bill or consign each shipment directly to the designated applicable receiver.

(4) Forward one copy of such report to the committee office and two copies to the receiver for signing and returning one copy to the committee office. Failure of the handler or receiver to report such shipments by signing and returning the applicable report to the committee office within ten days after shipment shall be cause for cancellation of such handler's certificate and or receiver's eligibility to receive further shipments pursuant to such certificate. Upon cancellation of any such certificate, the handler may appeal to the committee for reconsideration.

(d) *Exemption.*—(1) For types. The following types of tomatoes are exempt from these regulations: Elongated types commonly referred to as pear shaped or paste tomatoes and including but not limited to San Marzano, Red Top and Roma varieties; cerasiform type tomatoes commonly referred to as cherry tomatoes; hydroponic tomatoes; and greenhouse tomatoes.

(2) For minimum quantity. For purposes of these regulations each person subject thereto may handle up to but not to exceed 60 pounds of tomatoes per day without regard to the requirements of these regulations but this exemption shall not apply to any shipment or any portion thereof of over 60 pounds of tomatoes.

(3) For special packed tomatoes. Tomatoes resorted, regarded and repacked by a handler who has been designated as a "Certified Tomato Repacker" by the committee are exempt from the tomato grade classifications of paragraph (a) (1) and the size classifications of paragraph (a) (2) except that the tomatoes shall be at least 2 1/2 inches in diameter and the container weight requirements of paragraph (a) (3) if such tomatoes comply with the inspection requirements of paragraph (a) (4).

(e) *Definitions.* "Hydroponic tomatoes" means tomatoes grown in solution without soil; "greenhouse tomatoes" means tomatoes grown indoors. A "Certified Tomato Repacker" is a repacker of tomatoes in the regulated area who has the facilities for handling, regrading, resorting and repacking tomatoes into consumer size packages and has been certified as such by the committee. "U.S. tomato standards" means the revised United States Standards for Grades of Fresh Tomatoes (7 CFR 2851.1855-2851.1877), effective December 1, 1973, as amended, or variations thereof specified in this section (Title 7, Chapter I, Part

51 was redesignated Title 7, Chapter 28, Part 2851 on June 27, 1977). Other terms in this section shall have the same meaning as when used in Marketing Agreement No. 125, as amended, and this part, and the U.S. tomato standards.

(f) *Applicability to imports.* Under section 8e of the act and section 980.212 "Import regulations" (7 CFR 980.212) tomatoes imported during the effective period of this section shall be at least U.S. No. 3 grade and at least 2 1/2 inches in diameter. Not more than 10 percent, by count, in any lot may be smaller than the minimum specified diameter.

NOTE.—It is hereby certified that the economic and inflationary impacts of this proposed regulation have been carefully evaluated in accordance with OMB Circular A-107.

(Secs. 1-19, 48 Stat. 31, as amended (7 U.S.C. 601-674).)

Dated: October 12, 1977, to become effective October 17, 1977.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[3410-02]

PART 980—VEGETABLES: IMPORT REGULATIONS

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation requires imports of tomatoes to be inspected and meet minimum grade and size requirements. The regulation should promote orderly marketing of such tomatoes by keeping less desirable qualities and sizes from being imported.

EFFECTIVE DATE: October 17, 1977.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, AMS, U.S. Department of Agriculture, Washington, D.C. 20250. Telephone: 202-447-3545.

SUPPLEMENTARY INFORMATION: Notice of rulemaking regarding proposed requirements on the importation of tomatoes into the United States to be made effective under Section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), was published in the September 21 Federal Register (42 FR 47561). The notice afforded interested persons an opportunity to file written data, views or arguments in regard thereto not later than October 6, 1977. None was filed.

Section 8e of the act provides that whenever a Federal marketing order is in effect for tomatoes, the importation of tomatoes shall be prohibited unless they comply with the grade, size, quality

and maturity provisions of such order. The provisions hereinafter set forth comply with those which become effective under Marketing Order No. 966, as amended, for tomatoes grown in designated counties of Florida.

It is hereby found that good cause exists for not postponing the effective date of this regulation beyond the time specified (5 U.S.C. 553) in that (1) the requirements established by this regulation are mandatory under Section 8e of the act; (2) in fixing the effective date hereof consideration was given to the time required for transportation of the tomatoes and entry into the United States; and (3) such notice is in excess of the three day minimum required by the act.

The regulation is as follows:

§ 980.212 Import regulations; tomatoes.

(a) *Findings and determinations with respect to fresh tomatoes.* (1) Under Section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), it is hereby found that:

(i) Grade, size, quality and maturity regulations have been issued from time to time under Marketing Order No. 966, as amended;

(ii) The marketing of fresh tomatoes from Florida covered by Marketing Order No. 966, as amended, can reasonably be expected to occur during the months of October through June;

(2) Therefore, it is hereby determined that imports of fresh tomatoes during the months of October through June are in most direct competition with the marketing of fresh tomatoes produced in Florida covered by Marketing Order No. 966, as amended.

(b) *Grade, size, quality and maturity requirements.* On and after the effective date hereof no person may import fresh tomatoes except pear shaped, cherry, hydroponic and greenhouse tomatoes as defined herein, unless they are inspected and meet the following requirements:

(1) During the October-June period of each marketing year, whenever tomatoes grown in Florida are regulated under Marketing Order No. 966, imported tomatoes shall comply with the grade, size, quality and maturity requirements imposed under that order.

(c) *Minimum quantity exemption.* Any importation which in the aggregate does not exceed 60 pounds may be imported without regard to the provisions of this section.

(d) *Plant quarantine.* Provisions of this section shall not supersede the restrictions or prohibitions on tomatoes under the Plant Quarantine Act of 1912.

(e) *Designation of Governmental inspection service.* The Federal or the Federal-State Inspection Service, Food Safety and Quality Service, United States Department of Agriculture, and the Fruit and Vegetable Division, Production and Marketing Branch, Canada Department of Agriculture, are designated as governmental inspection services for certifying the grade, size, quality and maturity of tomatoes that are imported into

the United States under the provisions of section 8e of the act.

(f) *Inspection and official inspection certificates.* (1) An official inspection certificate certifying the tomatoes meet the United States import requirements for tomatoes under Section 8e (7 U.S.C. 608e-1), issued by a designated governmental inspection service and applicable to a specified lot is required on all imports of fresh tomatoes.

(2) Inspection and certification by the Federal or Federal-State Inspection Service will be available and performed in accordance with the rules and regulations governing certification of fresh fruits, vegetables and other products (7

(4) Inspection certificates shall cover only the quantity of tomatoes that is being imported at a particular port of entry by a particular importer.

(5) Each inspection certificate issued with respect to any tomatoes to be imported into the United States shall set forth, among other things:

(i) The date and place of inspection;

(ii) The name of the shipper, or applicant;

(iii) The commodity inspected;

(iv) The quantity of the commodity covered by the certificate;

(v) The principal identifying marks on the containers;

(vi) The railroad car initials and number, the truck and trailer license number, the name of the vessel, or other identification of the shipment; and

(vii) The following statement, if the facts warrant: Meets import requirements of 7 U.S.C. 608e-1.

(g) *Reconditioning prior to importation.* Nothing contained in this part shall be deemed to preclude any importer from reconditioning prior to importation any shipment of tomatoes for the purpose of making it eligible for importation.

(h) *Definitions.* For the purpose of this section, "Importation" means release from custody of the United States Bureau of Customs. "Cherry tomatoes" means cerasiform types commonly referred to as "cherry tomatoes." "Pear shaped tomatoes" means elongated types, commonly referred to as pear shaped or paste tomatoes and include San Marzano, Red Top and Roma varieties.

"Hydroponic tomatoes" means tomatoes grown in solution without soil.

CFR Part 2851). Each lot shall be made available and accessible for inspection as provided therein. Cost of inspection and certification shall be borne by the applicant.

(3) Since inspectors may not be stationed in the immediate vicinity of some smaller ports of entry, importers should make advance arrangements for inspection by ascertaining whether or not there is an inspector located at their particular port of entry. For all ports of entry where an inspection office is not located, each importer must give the specified advance notice to the applicable office listed below prior to the time the tomatoes will be imported.

CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS AND GRANTS PRIMARILY FOR REAL ESTATE PURPOSES (FmHA Instruction 444.5)

PART 1822—RURAL HOUSING LOANS AND GRANTS

Subpart D—Rural Rental Housing Loan Policies, Procedures and Authorizations

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule.

SUMMARY: The Farmers Home Administration (FmHA) amends its regulations concerning interest rate reductions on projects utilizing section 8 assistance

and makes additional editorial changes. This action is necessary to make current FmHA regulations concerning interest credits to profit organizations consistent with the HUD—FmHA Memorandum of Understanding on sections 8/515 assistance. The effect of this action will prevent profit organizations that receive Section 8 assistance from receiving a FmHA reduction in the effective interest rate.

EFFECTIVE DATE: September 20, 1977.

Mr. Paul R. Conn, 202-447-7207.

SUPPLEMENTARY INFORMATION:

Exhibits 0 and 0-1 of Subpart D Part 1822, Title 7, Code of Federal Regulations, are amended so that interest rate reductions applicable to Section 8 units will be at least one percentage point below the FmHA interest rate in effect for section 515 loans at the time of loan closing, but this interest rate reduction will not be provided to projects operated on a profit basis as defined in FmHA regulations and approved after the effective date of this amendment, Paragraphs II and IV A and B of Exhibit 0, and paragraph III A of Exhibit 0-1 are amended to make FmHA regulations consistent with changes being made simultaneously in the Memorandum of Understanding on the use of Section 8 of the United States Housing Act of 1937 and Section 515 of the Housing Act of 1949, by the Department of Housing and Urban Development (HUD) and FmHA. An editorial change is made in paragraph V C of Exhibit 0. It is the policy of this Department that rules relating to public property, loans, grants, benefits, or contracts shall be published for comment notwithstanding the exemption in 5 U.S.C. 553 with respect to such rules. This amendment, however, is being published effective on September 20, 1977. Since this action is being taken to make FmHA regulations consistent with changes being concurrently made in the HUD and FmHA Memorandum of Understanding on Section 8/515 assistance, publication for prior comment being impracticable, is not necessary. As amended, paragraphs II, IV A and B and V C of Exhibit 0, and paragraph III A of Exhibit 0-1 read as follows:

EXHIBIT 0—RRH LOANS AND THE HUD SECTION 8 HOUSING AND ASSISTANCE PAYMENTS PROGRAM (NEW CONSTRUCTION)

I. General. The attached Exhibit 0-1 is the Memorandum of Understanding between the Department of Housing and Urban Development (HUD) and the Department of Agriculture, Farmers Home Administration (FmHA), concerning the application processing and operation of rural rental projects involving HUD Section 8 housing assistance payments. The Memorandum provides for a set aside of contract authority under Section 8 of the U.S. Housing Act of 1937 for new construction projects financed by FmHA under Section 515. Only units charged against this set aside are eligible under these procedures. This Exhibit and HUD's regulations published in 24 CFR Part 883 Subparts G and H contain the policies and procedures that will be followed by FmHA in imple-

RULES AND REGULATIONS

menting and carrying out the provisions of the Agreement.

II. *Establishment of Interest Rate for Section 8 Units.* FmHA will provide an interest reduction for all units under Section 8, except units in projects operated on a profit basis and approved after September 20, 1977. Since the advantage of this interest reduction must be passed through to the tenant in the form of lower rents, the budget for the Section 8 units should not reflect an excess of income over operating and maintenance expenses, debt repayment, reserve requirements, and for limited profit borrowers, a return on initial investment. If the borrower will operate the project on a non-profit or limited profit basis, the payment of interest on the RRH loan will be based on at least a 1 percent interest reduction below the established interest rate for RRH loans for the units of a project under HUD's Housing Assistance Payments Contract (Contract). However, when the budget is prepared on the basis of a 1 percent reduction and the proposed Contract Rents exceed the applicable Fair Market Rents, the State Director may approve an interest reduction of 2 percent below the note rate of interest for the units utilizing the HUD Housing Assistance Payments Program. The State Director, in making this determination, must be sure that the budget is accurate and reflects reasonable and typical costs for the area and is necessary to make the project feasible. If the reduction of 2 percent below the interest rate of the note does not result in rental rates which are equal to or less than the Fair Market Rate, the State Director will submit a request including the budget, a narrative budget analysis, and other supporting data, to HUD's Field Office Director for approval of higher Contract Rents. HUD may approve increases of up to 20 percent above the Fair Market Rents. The interest rate shown on the note, however, will be in accordance with FmHA Instruction 440.1, Exhibit B. This reduction in interest or interest credit will be accomplished in the manner indicated for Plan I and Plan II in Exhibit J of this Instruction and in accordance with paragraph IV of this Exhibit.

IV. Budgets and interest credit agreements.

A. *Total Project Under Section 8.* If a project is developed with all units of the project covered by Section 8, one budget will be prepared. The budget will be based on an interest rate which has been set for the project in compliance with paragraph II of this Exhibit. When applicable, an interest credit agreement will be entered into with the borrower to show the amount of interest reduction. Check Plan I of the agreement and show the amount of interest credit as the difference between the amortized payment at the note rate of interest and the amortized payment calculated at the effective interest rate. In addition to checking Plan I on the Form FmHA 444-7, "Interest Credit Agreement (RRH & RCH Loans)," type the following notation as an added paragraph until this change is incorporated into the form by revision:

"10. This interest credit agreement is submitted for a section 8/515 project. The interest credit to be applied is based on information contained in Part 1822 Subpart D Exhibit 0, paragraph IV A. The effective interest rate is (enter 1 or 2 percent) below the note rate of interest."

B. *Mixed Project for Profit.* If a mixed project is developed (a project with only a part of the units covered by Section 8 contract) and the borrower is operating on a profit basis, one budget will be prepared

based on market rent. The market rent and contract rent set must be the same. If the borrower agrees to operate on a limited profit or nonprofit basis, paragraph IV C of this exhibit will apply.

V. Compliance and Certification Required.

C. *Site and Neighborhood Standards.* The State Director will certify that the location of each project is in compliance with paragraph VIII Q of this Instruction. Exhibit 0-4 will be used to assist in determining compliance with this requirement. Exhibit 0-5 may be used until HUD supplies an appropriate form for the certification.

EXHIBIT 0-1—MEMORANDUM OF UNDERSTANDING ON USE OF SECTION 8 OF THE UNITED STATES HOUSING ACT OF 1937 AND SECTION 515 OF THE HOUSING ACT OF 1949

III. Contract and Fair Market Rents.

A. FmHA agrees to provide interest credit on any newly contracted Section 515 project to be assisted by Section 8 housing assistance payments. The effective interest rate applicable to the Section 8 units will be reduced by at least one percentage point below the FmHA interest rate in effect for Section 515 loans at the time of loan closing. The requirement that an interest credit be provided shall not apply to projects approved after the effective date of this paragraph and which are operated on a profit basis as defined by FmHA regulations.

(42 U.S.C. 1480; delegation of authority by the Sec. of Agri., 7 CFR 2.23; delegation of authority by the Asst. Sec. for Rural Development, 7 CFR 2.70.)

NOTE.—The Farmers Home Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 and OMB Circular A-107.

Dated: September 29, 1977.

JAMES E. THORNTON,
Associate Administrator,
Farmers Home Administration.

SUBCHAPTER G—MISCELLANEOUS REGULATIONS

[FmHA Instruction 440.3]

PART 1888—SPECIAL ASSISTANCE TO DROUGHT STRICKEN AREAS

Authorization for Reduction of Interest Rates

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule.

SUMMARY: The Farmers Home Administration amends its regulation to add provisions authorizing a reduction of interest rates on Emergency (EM) loans for actual losses. This is as a result of

Pub. L. 95-89, which was enacted August 4, 1977, authorizing new interest rates for EM loans for actual losses for disasters occurring on or after July 1, 1976, and prior to October 1, 1978. This action is intended to further aid disaster victims.

EFFECTIVE DATE: October 14, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. Jesse C. Joyner, (202-447-6257).

SUPPLEMENTARY INFORMATION: Sections 1888.4 and 1888.12 of Part 1888, Chapter XVIII, Subchapter G, "Miscellaneous Regulations," Title 7, Code of Federal Regulations (42 FR 19322; 42 FR 23158) are amended. The purpose of this amendment is to comply with Pub. L. 95-89 which provides that interest rates on EM loans for actual losses be set in the following manner:

1. For repair or replacement of the primary residence and personal property, 1-percent on the first \$10,000, 3-percent on the balance not to exceed \$40,000, and 5-percent above \$40,000.
2. For other actual loss loans, 3-percent up to \$250,000 and 5-percent above \$250,000.
3. For disasters occurring prior to July 1, 1976, the interest rate for actual losses will remain at 5-percent.

The law further provides that when a loan bears interest at different rates, repayment of principal and interest on the lowest interest rate portion of the loan will be scheduled for repayment before principal payments on those portions of the loan bearing higher interest rates.

It is the policy of this Department that rules relating to public property, loans, grants, benefits, or contracts shall be published for comment notwithstanding the exemption in 5 U.S.C. 553 with respect to such rules. These amendments, however, are not published for proposed rulemaking since the change is mandated by Pub. L. 95-89; therefore public procedure thereon is unnecessary. Accordingly, §§ 1888.4 and 1888.12 as amended, read as follows:

§ 1888.4 Areas of eligibility.

Loans and grants under this part are to be made in the following areas:

(a) Areas currently designated by the President, the Secretary of Agriculture, or the FmHA State Director as Emergency Loan (EM) areas because of drought.

(b) Areas subsequently designated because of drought in accordance with Subpart C of Part 1904 of this Chapter.

(c) Those rural communities requesting assistance under these provisions will be determined to be in an eligible area if they are in areas designated by paragraphs (a) or (b) of this section, or any other area designated by a Federal Agency administering programs of drought assistance. (This applies to water and waste disposal loan and grant programs only.)

§ 1888.5-1888.11 [Reserved]

§ 1888.12 Emergency loans.

(a) *Production losses.*—(1) *Drought production losses.* Farmers, ranchers and persons engaged in aquaculture (including private domestic corporations and partnerships) otherwise eligible may be eligible for 3-percent interest rate loss loans up to \$250,000 and 5-percent interest rate loss loans above \$250,000 under this provision when due to the drought. *Provided:*

(i) They are unable to plant all or a portion of their normal crops, including feed crops, or are unable to graze pastures; or

(ii) They will be unable to produce all or a portion of their normal perennial crops already growing such as fruits and nuts; or

(iii) They will be precluded from harvesting all or part of the crops they have planted.

(2) *Decrease in production.* Drought production losses must represent a decrease in production of at least 20 percent below normal in a basic farming enterprise to establish eligibility. See § 1904.170 of this Chapter.

(3) *Amount of EM loan.* The amount of the drought production loss will be calculated by determining normal income in accordance with § 1904.170 of this chapter and subtracting therefrom (i) the amount of any income that may be derived from the disaster-affected enterprise(s), plus (ii) the costs which will not be incurred because of the drought. Such costs will be derived from current crop enterprise budgets prepared by State Agricultural Extension Service economists which are based on normal farming conditions in the designated drought area.

(4) *Additional loans for actual production losses.* Additional loans for actual production losses later determined at the end of the crop season will be made at the 3-percent or 5-percent interest rate in accordance with § 1904.170 of this chapter. The amount of any drought loss loan must be deducted from any additional actual production loss loans made to borrowers based on losses from the same disaster to the same enterprise(s) for which an applicant later qualifies.

(5) *Physical loss loans.* Loans for physical losses may be made at the 1-percent, 3-percent or 5-percent interest rate in accordance with Subpart C of Part 1904 of this chapter.

(b) *Annual operating and major adjustment loans.* Farmers, ranchers, and persons engaged in aquaculture (including private domestic corporations and partnerships) found eligible for loss loans as prescribed in this regulation may be eligible for major adjustment and operating loans at the prevailing market rate of interest in accordance with § 1904.170 of this chapter.

(c) *Procedure for loan making and servicing.* Loans shall be made and serviced in accordance with § 1904.170

RULES AND REGULATIONS

of this chapter, except as modified in this subpart.

(7 U.S.C. 1989; delegation of authority by the Sec. of Agri., 7 CFR 2.23; delegation of authority by the Asst. Sec. for Rural Development, 7 CFR 2.70)

NOTE.—The Farmers Home Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 and OMB Circular A-107.

Dated: September 30, 1977.

SUBCHAPTER I—LOAN AND GRANT PROGRAMS (INDIVIDUAL)

[FmHA Instruction 1904-C]

PART 1904—LOAN AND GRANT PROGRAMS (INDIVIDUAL)

Subpart C—Farmer Program Loans SOIL AND WATER LOANS

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule.

SUMMARY: The Farmers Home Administration (FmHA) amends its regulation to accept applications for soil and water loans for actions stated prior to April 7, 1977: *Provided*, The action was undertaken for the express purpose of mitigating losses and damage resulting from the 1976-1977 drought period. The intended effect of this amendment is to make this assistance more available. Towards this end FmHA, herein also defines eligible loan purposes; eliminates the test for credit; extends the obligation period from September 30, 1977, to November 30, 1977; and extends the period for development of work from November 30, 1977, to January 31, 1978.

EFFECTIVE DATE: October 14, 1977.

FOR FURTHER INFORMATION CONTACT:

Denton E. Sprague, 202-447-4597.

SUPPLEMENTARY INFORMATION: Exhibit F of Subpart C of Part 1904, Chapter XVIII of Title 7, Code of Federal Regulations (42 FR 44691-44692) is amended. This amendment revises the procedure contained in FmHA's regulation including Attachment I of this Exhibit "Memorandum of Understanding Between the Bureau of Reclamation, Department of the Interior, and the Farmers Home Administration, Department of Agriculture" for making Bureau of Reclamation loans to irrigators in order to make the procedure consistent with legislation enacted by the Congress and signed by the President on August 17, 1977 (42 FR 45927). The new Pub. L. 95-107 amends the Bureau of Reclamation Emergency Drought Act of 1977 (Pub. L. 95-18 approved April 7, 1977) and provides additional time to perform

certain action under the Emergency Drought Act of 1977, and releases funds from the waterbank for other purposes.

Specifically, the revision of this Exhibit relieves necessity for the applicant to explore the availability of other credit before a loan is finalized; sets forth the purposes for equipment and services, and allows for consideration of applicant's loans whose development work was started or completed prior to date of application; extends the authorities of the Act from September 30, 1977 to November 30, 1977, extends the time for accomplishment of construction activities under those authorities from November 30, 1977, to January 30, 1978, and adds as Attachment II of this Exhibit F, "Amendatory Memorandum of Understanding Between the Bureau of Reclamation, Department of the Interior, and the Farmers Home Administration, Department of Agriculture" following Exhibit Attachment I published at 42 FR 44692.

Although the authorities of the Act have been extended until November 30, 1977, funds to carry out the provisions of the Act have been appropriated only for fiscal year 1977. In the absence of further action by Congress, all funds to be used under that authority must be obligated by September 30, 1977.

It is the policy of this Department that rules relating to public property, loans, grants, benefits or contracts shall be published for comment notwithstanding the exemption in 5 U.S.C. 553 with respect to such rules. However, since this amendment is being made in order to assist farmers under the provisions of the Emergency Drought Act of 1977 and the new law extending these provisions. Any delay in implementing this amendment would be contrary to public interest because of the deadline set forth in the Act on the use of funds obligated and the nature of the farmers' current need. Accordingly, as amended, Exhibit F and Attachment II of Subpart C of Part 1904 read as follows:

EXHIBIT F

BUREAU OF RECLAMATION LOANS TO IRRIGATORS AND ADMINISTERED BY FARMERS HOME ADMINISTRATION

I. *General.* This Exhibit provides additional procedures for making and servicing Soil and Water (SW) type loans to individuals located within Reclamation Projects. Attachment 1 is a Memorandum of Understanding Between the Bureau of Reclamation (BR) and the Farmers Home Administration (FmHA) outlining the working relationship between the agencies for these loans. Attachment II is an Amendatory Memorandum to Attachment I. The Memorandum of Understanding establishes eligibility requirements, sets loan terms, and indicates the purposes for which these loans may be made. The FmHA County Supervisors can resolve any question about project boundaries, acreage limitations, loan purposes, or eligibility requirements by contacting the BR office having jurisdiction over the project area. County Supervisors are authorized to accept applications and consider loans for applicants whose development work was started or completed prior to the date of loan application so long as the work was undertaken for the express purpose of mitigating losses and damages resulting from

RULES AND REGULATIONS

drought which occurred during the 1976-1977 drought period and the applicant has not already obtained permanent financing.

II. *Objectives.* Provide BR financial assistance to irrigators as defined in Attachment 1 and for the purposes outlined therein.

III. *Purposes.* Loans may be made for:

A. Paying the cash costs for materials, supplies, equipment, and services related to water development such as:

1. Terraces, dikes, reservoirs, ponds, tanks, cisterns, wells, pipelines, pumping, and irrigation equipment, ditches and canals for irrigation and drainage, waterways, and erosion control structures.

2. Expenses incident to obtaining plans and making the loan, such as fees for legal, engineering, and other technical services which are required to be paid by the borrower and which he cannot pay from other funds. Loan funds also may be used to pay the borrower's share of Social Security taxes for labor hired by the borrower in connection with making any planned improvements.

B. The purchase of water stock or membership in an incorporated water users association.

C. The acquisition of a water right through appropriation, agreement, permit, or decree.

D. The purchase of land or an interest therein for sites or rights-of-way upon which a water or drainage facility will be located.

IV. *Other Credit.* The applicant will not be required to explore the availability of other credit for this loan.

V. *Procedures.* This regulation and other related FmHA regulations will be used in processing and securing the BR loans. Applicable FmHA forms will be used. The following modifications will be required: Form FmHA 410-1, "Application for FmHA Services"—In section 24 and after "Type of Loan Applied for" complete "other" by inserting "SW-BR". Form FmHA 427-1, "Real Estate Mortgage"—Wherever reference is made to "the Consolidated Farm and Rural Development Act" insert "and Pub. L. 95-18".

Form FmHA 440-1, "Request for Obligation of Funds"—Loans will be identified by typing "43" in block 7 of Part I.

Form FmHA 440-2, "County Committee Certification or Recommendation"—In the block entitled "type of assistance" check the block "other" and specify "SW-BR".

Form FmHA 440-15, (State) "Security Agreement (Insured Loans to Individuals)"—Where reference is made to rates of interest, insert "zero". In the center of page 1, strike "the Consolidated Farmers Home Administration Act, 1961, or Title V of the Housing Act of 1949; and" and insert "Pub. L. 95-18 and".

Form FmHA 440-16, "Promissory Note"—In the block "Kind of Loan" and after "type" "SW-BR"; after "Pursuant to" insert "Pub. L. 95-18". Where reference is made to the percent of interest, insert "zero". In the last paragraph on page 2, delete "the Consolidated Farm and Rural Development Act or Title V of the Housing Act of 1949" and insert "Pub. L. 95-18".

Form FmHA 441-1 "Promissory Note"—In the block "Kind of Loan" insert "SW-BR". Where reference is made to the rate of interest, insert "zero". In the next to the last paragraph on page 2, delete "subtitle B or C of the Consolidated Farm and Rural Development Act" and insert "Pub. L. 95-18".

VI. *Effective Period.* 1. The Drought Emergency Act of 1977, as amended (Pub. L. 95-18 as amended by Pub. L. 95-107) provides for the loan requests to be obligated by November 30, 1977. Funds have been appropriated for Fiscal Year 1977 only and unless further

action is taken by Congress, loan requests must be obligated by September 30, 1977.

2. Development financed under this authority must be completed by January 31, 1978.

VII. *Servicing.* These loans will be serviced by FmHA in accordance with servicing instructions applicable to Individual SW loans.

VIII. *Reimbursement.* BR shall pay to FmHA a charge of 5 percent of principal of each loan. The 5 percent charge shall be disbursed to FmHA by the Finance Office at the time of each loan advance.

EXHIBIT F—ATTACHMENT II

AMENDATORY MEMORANDUM OF UNDERSTANDING BETWEEN THE BUREAU OF RECLAMATION, DEPARTMENT OF THE INTERIOR AND THE FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

Whereas, the Bureau of Reclamation (BR) and the Farmers Home Administration (FmHA) consummated a Memorandum of Understanding on July 15, 1977, whereby BR would procure the services of FmHA pursuant to the terms of the Economy Act of 1932 (31 U.S.C. 686) to make and service loans to individual irrigators as authorized by section 8 of the 1977 Drought Emergency Act (Pub. L. 95-18); and

Whereas, item 3 of that Memorandum of Understanding provides in part that all loans shall be obligated not later than September 30, 1977, and any construction related to any loan must be completed by November 30, 1977; and

Whereas, Pub. L. 95-107, enacted on August 17, 1977, amends Pub. L. 95-18 to accomplish, among other things, an extension of the time for completing construction activities under the authorities of Pub. L. 95-18 from November 30, 1977, to January 31, 1978.

Now, therefore, the parties agree that the date November 30, 1977, in the last sentence of item 3 of the Memorandum of Understanding executed by BR on June 29, 1977, and FmHA on July 15, 1977, be revised to January 31, 1978, so that the sentence will read, "All loans shall be obligated not later than September 30, 1977, and any construction related to any loan must be completed by January 31, 1978."

Date of September 8, 1977.

BUREAU OF RECLAMATION,
DEPARTMENT OF THE INTERIOR,
R. KEITH HIGGINSON,
Commissioner.

FARMERS HOME ADMINISTRATION,
DEPARTMENT OF AGRICULTURE,
GORDON CAVANAUGH,
Administrator.

SEPTEMBER 7, 1977.

(7 U.S.C. 1989; 5 U.S.C. 301; Sec. 10 P.L. 93-357, 88 Stat. 392; delegation of authority by the Sec. of Agr., 7 CFR 2.23; delegation of authority by the Asst. Sec. for Rural Development, 7 CFR 2.70.)

NOTE.—The Farmers Home Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 and OMB Circular A-107.

Dated: September 29, 1977.

SUBCHAPTER N—OTHER LOAN PROGRAMS

[FmHA Instruction 1980-B]

PART 1980—GUARANTEED LOAN PROGRAMS

Subpart B—Farmer Program Loans

AUTHORIZATION FOR REDUCTION OF INTEREST RATES

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule.

SUMMARY: The Farmers Home Administration amends its regulation to add provisions authorizing a reduction of interest rates on Emergency (EM) loans for actual losses. This is as a result of Pub. L. 95-89, which was enacted August 4, 1977, authorizing new interest rates for EM loans for actual losses for disasters occurring on or after July 1, 1976, and prior to October 1, 1978. This action is intended to further aid disaster victims.

EFFECTIVE DATE: October 14, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. Jesse C. Joyner, 202-447-6257.

SUPPLEMENTARY INFORMATION: Section 1980.170 of Subpart B of Part 1980, Chapter XVIII, Subchapter N, "Other Loan Programs," Title 7, Code of Federal Regulations (42 FR 44717) is amended. Paragraph (e) of this section is amended to add a new subparagraph (2); the present paragraphs (e) (2) and (3) are redesignated (3) and (4) respectively. The purpose of this amendment is to comply with Pub. L. 95-89 which provides that interest rates on EM loans for actual losses be set in the following manner:

1. For repair or replacement of the primary residence and personal property, 1 percent on the first \$10,000 3 percent on the balance not to exceed \$40,000, and 5 percent above \$40,000.

2. For other actual loss loans, 3-percent up to \$250,000 and 5-percent above \$250,000.

3. For disasters occurring prior to July 1, 1976, the interest rate for actual losses will remain at 5-percent.

The law further provides that when a loan bears interest at different rates repayment of principal and interest on the lowest interest rate portion of the loan will be scheduled for repayment before principal payments on those portions of the loan bearing higher interest rates.

It is the policy of this Department that rules relating to public property, loans, grants, benefits, or contracts shall be published for comment notwithstanding the exemption in 5 U.S.C. 553 with respect to such rules. These amendments, however, are not published for proposed rulemaking since the change is mandated by Pub. L. 95-89; therefore public procedure thereon is unnecessary. Accordingly, § 1980.170(e) as amended, reads as follows:

§ 1980.170 Emergency loans.

(e) *Interest rates and terms.*—(1) *Interest rates.*—Interest will be charged only on the actual amount of loan funds borrowed and for the actual time the loan is outstanding. The interest rate initially established for each loan will remain constant during the existence of the FmHA Guarantee thereon. Interest on protective advances made by the lender to protect the security may be charged at the rate specified in the security instruments. Interest rates are as follows:

(i) Except for disasters occurring on or after July 1, 1976, and prior to October 1, 1978, EM loans for actual losses will be at 5-percent.

(ii) For disasters occurring on or after July 1, 1976, and prior to October 1, 1978, interest rates for EM loans for actual losses will be as follows:

(A) For repair or replacement of the primary residence and personal property, 1-percent on the first \$10,000, 3-percent on the balance not to exceed \$40,000, and 5-percent above \$40,000.

(B) For other actual loss loans, 3-percent up to \$250,000 and 5-percent above \$250,000.

(iii) The interest rate for loans for other than actual losses will be the interest rate prevailing in the private market for similar loans as determined by the Secretary of Agriculture. The Secretary will review the interest rates periodically and may establish new rates. Lenders may ascertain the current established market rates for EM loans by telephoning any FmHA office.

(2) *Establishing repayment terms and delay of principal payments.* EM loans for actual losses where different interest rates are authorized as set forth in paragraph (e) (1) (i) of this section will be scheduled for repayment of the principal and interest on that portion of the loan bearing the lowest interest rate before principal payments are scheduled for portions of the loan bearing higher rates. However, interest must be collected on the portion of the principal deferred during the period principal payments are not scheduled. The portion of the loan bearing the lower interest rate should be repaid as soon as possible, consistent with the applicant's repayment ability. This deferral of principal does not apply to EM loans for other than actual losses.

(3) *Terms of loan repayment.* (1) EM loans will be scheduled for repayment at such time and periods as the lender may determine, consistent with the purpose of the loan as set forth below, and in accordance with the useful life of the security and the reasonable repayment ability of the applicant as determined by his plan of operation. However, there must be at least an annual installment unless a deferment of principal and/or interest is authorized in accordance

with paragraphs (e) (2) and (4) of this section.

(A) Loan terms for actual losses to crops, livestock, supplies, harvested or stored crops, livestock products on hand, and equipment; and items financed under § 1980.170(d) (3) (ii) will be for a period not to exceed 7 years.

(1) When conditions warrant, installments may vary in amounts. However, the final installment will not be larger than the amount which can then be financed by the lender without a guarantee or be repaid within a renewal period of not to exceed 5 years. The applicant must be advised before the loan is closed that the lender will review each case at the end of the initial loan terms and, together with FmHA will determine if a renewal is warranted. (Refer to § 1980.124.)

(2) Loans made for actual losses to crops and other property listed in paragraph (e) (3) (i) (A) of this section resulting from any disaster occurring after January 1, 1975, may be scheduled for a longer repayment period if the FmHA approval official determines that the needs of the applicant justify a longer repayment period than that scheduled for repayment within 7 years initially with a possible 5-year renewal. Such period may be approved as warranted but for not more than 20 years. Generally, real estate will be needed as security when the longer repayment period is authorized. When the longer period is used, renewal is not authorized.

(ii) The terms for actual losses to real estate and items financed under paragraph (d) (3) (i) of this section will be for a period not to exceed 40 years.

(iii) The term for loans for annual operating expenses financed under paragraph (d) (2) of this section will be as follows:

(A) Advances for annual recurring operating expenses or for paying bills incurred for such purposes for the operating or crop year being financed will be scheduled for payment when the principal income from the year's operations normally would be received.

(B) Advances to purchase or produce feed for productive livestock or livestock to be fed for the market, or to pay bills incurred for such purposes for the crop year being financed, will be scheduled for repayment when the principal income from the sale of such livestock or livestock products can be expected.

(4) *Deferment of installment.* When income sufficient to meet the scheduled installment will not be received by the borrower until the second or third year following the due date, the payment may be deferred to the second or third year as appropriate, providing any holders agree. The lender and FmHA must agree that the borrower can reasonably be expected to pay the total debt with a deferment.

CHAPTER XXVIII—FOOD SAFETY AND QUALITY SERVICE, DEPARTMENT OF AGRICULTURE

PART 2852—PROCESSED FRUITS, VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

Subpart—United States Standards for Grades of Canned White Potatoes¹

AGENCY: Food Safety and Quality Service, USDA.

ACTION: Final rule.

SUMMARY: This rule will revise the grading standards for canned white potatoes. This action was initiated by the USDA and in response to verbal requests by the industry. The effect of the change will be to update the standards to more accurately reflect present packing practices and to improve the U.S. Standards for Grades of Canned White Potatoes.

EFFECTIVE DATE: December 1, 1977.

FOR FURTHER INFORMATION CONTACT:

Dale C. Dunham, Processed Products Branch, Fruit and Vegetable Quality Division, Food Safety and Quality Service, U.S. Department of Agriculture, Washington, D.C. 20250, (202-447-4693).

SUPPLEMENTARY INFORMATION: Notice of a proposal to revise the United States Standards for Grades of Canned White Potatoes was published in the FEDERAL REGISTER of December 6, 1976 (41 FR 53341). Interested persons were allowed until January 31, 1977 in which to submit written data, views, or arguments concerning the proposed revision. Six letters were received in response to the notice. Brief summaries of the comments received along with the USDA's views and comments thereto and the reasons for such responses follow.

The Food and Drug Administration (FDA) expressed the comment that the proposed revision did not conflict with any of the FDA's rules, regulations, or standard of identity.

Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or with applicable State laws and regulations.

(7 U.S.C. 1989; delegation of authority by the Secretary of Agriculture, 7 CFR 2.23; dele-

A second letter was received in which the writer inquired only about the method that "was intended for measuring potato flavor."

Response: The proposed revision contains provisions for "good" and for "reasonably good" flavor and odor. The USDA acknowledges that there is a wide variation among individual taste preferences. There are no specific, distinctly measurable, objective levels as to what constitutes good or reasonably good flavor and odor in canned white potatoes set forth in the revision. Rather, general subjective detectable parameters are provided which will assure general acceptable classifications of flavor and odor while still permitting individual taste preferences.

As proposed, "good flavor" in canned white potatoes would, generally, include potatoes of acceptable raw product condition which have been properly prepared and properly processed (including seasoning and any possible effect from container condition) and which is characteristic and typical of "good potato flavor."

"Reasonably good flavor" would be assigned to containers of canned white potatoes which, for one reason or another, failed the general requirements for "good flavor," yet is not distasteful, offensive or objectionable. Examples of "reasonably good flavor" might be:

(1) Potatoes that have a slight "musty" odor and/or flavor due to prolonged storage of the raw product;

(2) Insufficient or slightly excessive salty flavor (if salt is declared on the label);

(3) Excessive tartness due to inadequate removal of acid if the potatoes have been subjected to a citric acid dip during processing;

(4) A "tinny" flavor possibly derived from tinplate deterioration of the container;

(5) Very, very slight (but detectable) "flat sour" odor and flavor; or

(6) Slightly excessive amounts of permitted additives such as calcium salts.

These descriptions and parameters are given in response to expressed consumer concerns that "flavor and odor" be given definite and important considerations in food grade standards.

A letter submitted by the Consumers Union, a nonprofit organization concerned with providing information, education, and counsel about consumer goods and services, expressed support of the proposed revision. A statement was also made that the "grades would be more meaningful if they also incorporated nutritional considerations."

Response: The USDA supports accurate and informative nutritional labeling. However, the Department cannot require nutritional labeling in its voluntary grade standards. Further, the nutritional levels of a given product would vary with the composition, amount, style and other factors. As a result, nutritional information for a certain product would best be provided by the processor who manufactures that product. This fact is being recognized more and more as shown by

the increasing use, by processors or manufacturers, of labels which declare the nutritional values of the contents of a container. It is anticipated that this trend will continue.

The following issues were raised in another comment:

(1) A recommendation that "fill-in weights" as an alternative to drained weights be provided;

(2) A suggestion that the specified sample unit size of 20 ounces of drained product be modified to permit slight deviations from this required size (because of the variations in size of individual units); and

(3) A reduction in the specified drained weight values for the different styles of the potatoes and various container sizes into which they are processed.

Response: The minimum drained weight values set forth in the proposed revision resulted from study and analyses of drained weight determinations that were made on the product after processing. No formal studies have been made on fill-weights for canned white potatoes. Therefore, in the absence of the necessary data to establish the relationship between "fill-weights" and "drained weights" for canned white potatoes, fill-weight criteria have not been set forth in the revision. Eventual accumulation of subsequent data by which accurate relationships between fill weights and drained weights can be developed could result in a future amendment of the grade standards for canned white potatoes so as to include fill weight values.

In the interim, the Department does not believe that this revision should be deferred until sufficient and necessary data are analyzed to provide the needed "fill-in" weights, particularly since such values would result in very few, if any, changes in minimum average drained weight values. Also, the time required for the collection and analyses of such data would unduly delay this revision.

The specified sample unit size of 20 ounces of drained weight of product is a means by which the quality evaluation of the product is not influenced by the size of the container. Because of the comparatively small units of the different styles of canned white potatoes, the Department believes that accurate sample unit sizes of 20 ounces of drained product can be achieved without distorting the random selection of the individual potato units which is necessary when formulating such sample units.

The average minimum drained weight values set forth in this revision are based on the weight of the white potato after the canned product has been allowed to equalize for 15 or more days after the product has been canned.

This provision was not specifically set forth in the notice of proposed rule-making, although it is customary that drained weight limits and determinations are based upon "equalized products." Therefore, specific reference is included in this revision that the average minimum drained weights are based on those determined after the product has been allowed to reach equalization.

Review of drained weight data, inspection records, and recent drained weight determinations of commercially available samples indicate that the average minimum drained weight criteria set forth in this revision reflect practical, well-controlled processing capabilities and should not be changed at this time.

A fifth letter was received in which it was expressed that the average minimum drained weight values for all styles of canned white potatoes in No. 10 containers were too high and that the specified drained weight values for the whole style should vary with the average size of the potato units.

Response: The Department does not have data to substantiate or justify the suggested reductions in minimum drained weights. Further comments about minimum drained weights are made elsewhere in this statement.

A final letter was received in which the following issues were presented:

(1) It was again stated that some of the average minimum drained weights were too high.

(2) The concept of the standard sample unit size was supported.

(3) A suggestion that the currently effective term of "normal" flavor and odor be used rather than "good" or "reasonably good" flavor and odor as proposed in this revision.

(4) A concern as to whether the change from "fairly good color" to "reasonably good color" would result in more restrictive color criteria for Grade B canned white potatoes.

(5) An objection that the separate allowance for peel that is included in the currently effective standards had been removed, thereby making the proposed standards unduly restrictive with respect to blemished units.

(6) Opposition to "reducing the number of points to cover a given grade span."

(7) A belief "that it would have been less confusing if the second grade (or the grade below the present 'Fancy') had been retained as 'C' rather than 'B,'" and that the letter 'D' be used to designate "Substandard" quality.

Response: The issue concerning minimum drained weights is discussed elsewhere in this statement.

The USDA believes that the term "normal" flavor and odor is a nebulous one inasmuch as there are no standards or criteria as to what constitutes or definitely defines "normal" flavor and odor in canned white potatoes. Further, the Department believes that most individuals can judge what is "good" flavor from that which is not as good, from that which is objectionable, even though individual taste preferences may vary slightly. Such distinctions are presented in this revision as "good," "reasonably good," and "off" flavor and odor. Further discussions involving flavor and odor are presented elsewhere in this statement.

The change from the term "fairly good color" to "reasonably good color" in order to coincide with the revised grade level nomenclature does not re-

sult in more restrictive color criteria for Grade B canned white potatoes. The provisions for Grade A color are the same as in the currently effective standards. Therefore, canned white potatoes which would fail the requirements for Grade A color, but would not be considered as having objectionable (Substandard) color, would be evaluated as having "reasonably good color" which is the term most often used in describing Grade B color of processed fruits and vegetables.

Current processing methods have lessened the frequency and amounts of peel in canned white potatoes. This revision provides for the occasional presence of peel on the potato units by classifying units thus affected as either "blemished" or "seriously blemished," depending upon the amount of the peel in relation to how it affects the appearance of the unit. The allowances for such "blemished" and "seriously blemished" units, the USDA believes, is adequate to provide sufficient "peel allowances" for the different quality grades of canned white potatoes.

The restructuring of allotted score points to allow a "10-point range" in each grade does not alter previous quality levels or imply more restrictive grading criteria, but does make it possible to have 90 points as the minimum cumulative score for a U.S. Grade A product; 80 points for U.S. Grade B and so on. Such realignment conforms with the current practice in most U.S. grade standards for processed fruits and vegetables.

The revision to U.S. Grade B, rather than U.S. Grade C, as the level of quality below U.S. Grade A is in conformance with the current practice by the USDA to adopt a uniform and consistent nomenclature and quality level in their new and revised grade standards for processed fruits and vegetables. Such changes, when effected, do not alter the quality levels between the various grades.

Studies have indicated consumer preferences for single letter designations to indicate different levels of quality for most processed fruits and vegetables and the letter "A" most clearly and easily identified a product as being of the best or superior quality; the letter "B" implied the next best quality, and so on.

Therefore, in recognition of this preference and in the interest of clarity and understanding, the USDA believes that in this, and future revised grade standards, that U.S. Grade B rather than Grade C, best designates the quality below U.S. Grade A.

Also, in view of this current practice, the USDA believes that the use of a designation of U.S. Grade C would give an implication that the canned white potatoes were of two quality levels below Grade A and would lead consumers to an erroneous supposition that three levels of quality of canned white potatoes were normally processed; that is, Grade A, B, and C. This is not so.

All products which fall minimal requirements of quality or other considerations are designated as "Substandard"

in order to singularly identify the product as falling some minimal requirement rather than assign a single letter designation which might imply a certain quality level or criteria to the product. This practice is customary and informative and is incorporated in many grade standards—both voluntary and mandatory.

Therefore, after careful consideration the revised standards for canned white potatoes are hereby adopted as proposed on December 6, 1976 and as set forth as follows.

Effective date: The revised U.S. Standards for Grades of Canned White Potatoes shall become effective December 1, 1977.

Sec.	Identify.
2852.1811	Styles.
2852.1812	Sizes of whole potatoes.
2852.1813	Grades.

2852.1816	Sample unit size.
2852.1817	Determining the grade of a sample unit.
2852.1819	Determining the rating for the factors which are scored.
2852.1820	Color.
2852.1821	Uniformity of size and shape.
2852.1822	Defects.
2852.1823	Texture.
2852.1824	Determining the grade of a lot.
2852.1825	Determining size classification for whole potatoes.
2852.1826	Score sheet.

AUTHORITY: Agricultural Marketing Act of 1946, Sec. 203, 205, 60 Stat. 1087, as amended, 1090, as amended 7 U.S.C. 1624.

§ 2852.1811 Identity.

Canned white potatoes is the product purported to be as defined in the Definitions and Standards of Identity for Canned Vegetables (21 CFR 155.200), issued pursuant to the Federal Food, Drug and Cosmetic Act. The finished product is sufficiently processed by heat to assure its preservation in hermetically sealed containers. The procedure, or equivalent thereof, set forth in the Code of Federal Regulations, Title 21, Part 113 (21 CFR 113), issued pursuant to the Federal Food, Drug, and Cosmetic Act shall be used for such processing.

§ 2852.1812 Styles.

(a) **General.** For the purposes of this subpart, canned white potatoes shall be properly peeled prior to canning. A "unit" means an individual potato or portion thereof.

(b) **"Whole"** means that the canned white potatoes have the appearance of being essentially whole, irrespective of size.

(c) **"Slices"** or **"sliced"** means canned white potatoes that have been cut into slices of substantially uniform thickness.

(d) **"Dice"** or **"diced"** means canned white potatoes that have been cut into approximate cube-shaped units of substantially uniform size.

(e) **"Shoestring," "French Style,"** or **"Julienne"** means approximate rectangular canned white potato units having length measurements which are three (3) or more times the width measurements.

(f) **"Pieces"** means units of canned white potatoes of random size and/or shape or potatoes that have been cut into approximate quarters or wedge-shaped units similar to orange segments.

(g) Any combination of two or more of the foregoing styles constitutes a style and shall be considered as a mixture of the individual styles that comprise the combination.

§ 2852.1813 Sizes of whole potatoes.

The size of a whole potato is determined by measuring the greatest diameter through the center for round or nearly round potatoes. For elongated potatoes, the size is considered as the greatest diameter measured at right angles to the longitudinal axis of the unit. The word and number designations of the various sizes of canned whole potatoes are shown in Table I.

TABLE I.—Sizes of canned whole white potatoes

Word designation	No. designation	Diameter
Thy.....	Size 1.....	1 in or less (25.4 mm or less).
Small.....	Size 2.....	Over 1 in to, and including, 1½ in. (Over 25.4 mm to, and including, 38.1 mm.)
Medium.....	Size 3.....	Over 1½ in to, and including, 2 in. (Over 38.1 mm to, and including, 50.8 mm.)
Large.....	Size 4.....	Over 2 in. (Over 50.8 mm.)

§ 2852.1814 Grades.

(a) **"U.S. Grade A"** is the quality of canned white potatoes that has at least the following attributes:

- (1) Similar varietal characteristics;
- (2) Good color;
- (3) Reasonably uniform size and shape of the units;
- (4) Practically free from defects;
- (5) Good texture;
- (6) Good flavor and odor; and
- (7) Scores not less than 90 points when scored in accordance with the scoring system outlined in this subpart.

(b) **"U.S. Grade B"** is the quality of canned white potatoes that has at least the following attributes:

- (1) Reasonably good color;
- (2) May have considerable variation of size and shape of the units;
- (3) Reasonably free from defects;
- (4) Reasonably good texture;
- (5) Reasonably good flavor and odor; and

(6) Scores not less than 80 points when scored in accordance with the scoring system outlined in this subpart.

(c) **"Substandard"** is the quality of canned white potatoes that fails to meet the requirements of "U.S. Grade B."

§ 2852.1815 Fill of container.

The fill of container is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purposes of these grades. Each container shall be filled with white potatoes as full as practicable without impairment of quality and the product and packing medium shall occupy not less than 90 percent of the total capacity of the container. Total capacity of the container means the

RULES AND REGULATIONS

maximum weight of distilled water, at 68 degrees Fahrenheit (20 degrees Celsius), which the sealed container will hold.

§ 2852.1816 Minimum drained weights.

(a) *General.* (1) The minimum drained weight values are given in Table II. They are not incorporated in the grades of the finished product since drained weight, as such, is not a factor of quality for the purposes of these grades.

(2) The minimum drained weights are based on the weight of the white potatoes after the canned product has been allowed to equalize for 15 or more days after the product has been canned.

(b) *Method for determining drained weight.* The drained weight of canned white potatoes is determined by emptying the contents of the container upon

a U.S. Standard No. 8 circular sieve (or equivalent) of the proper diameter containing 8 measures to the inch (0.0937-inch (2.4 mm), ± 3 percent, square openings) so as to distribute the product evenly. Without shifting the product, incline the sieve to a 17 to 20 degree angle to facilitate drainage and allow to drain for two (2) minutes. The drained weight is the weight of the sieve and white potatoes less the weight of the dry sieve. The diameter of the sieve shall be 8 inches (20.3 cm), or equivalent, if the water capacity of the container is less than 3 pounds (1.36 kg) or 12 inches (30.5 cm), or equivalent, if such capacity is 3 pounds (1.36 kg) or more.

(c) *Compliance with minimum drained weight values.* Compliance with the minimum drained weight values in Table II is determined by averaging the

drained weights from all the containers in the sample which represent a specific lot. Such lot is considered as meeting the minimum drained weight values if the following criteria are met:

(1) The sample average (average of all the containers in the sample) meets the minimum average drained weight value (designated as " \bar{X}_d " in Table II); and

(2) The number of sample units which fail to meet the minimum drained weight value for individual containers (designated as "LL" in Table II) does not exceed the acceptance number specified in the applicable sample plan for Lot Inspection in the Regulations Governing Inspection and Certification of Processed Fruits and Vegetables and Related Products.

1/ " \bar{X}_d " means the minimum average drained weight from all the containers in the sample.
2/ "LL" means the minimum drained weight for individual sample units.

§ 2852.1817 Sample unit size.

(a) *General.* Determination of compliance with requirements for factors of quality, except harmless extraneous material, of canned white potatoes shall be based on a sample unit consisting of 20 ounces (567 grams) of drained product. A sample unit may be comprised of:

- (1) The entire contents of a container;
- (2) A combination of the contents of two or more containers; or

(3) A representative portion of the contents of a container; *Provided*, That not more than one (1) sample unit is derived from any one single container.

(b) *Definition of a sample.* Any number of sample units used for the evaluation of the factors of quality, except harmless extraneous material, as outlined in this subpart.

(c) *Evaluating harmless extraneous material.* Determination of compliance

for harmless extraneous material will be based upon the total contents of all the containers used to comprise individual sample units.

§ 2852.1818 Determining the grade of a sample unit.

(a) *General.* The grade of a sample unit of canned white potatoes is determined by considering the factor of similar varietal characteristics, when appli-

cable, and the factor of flavor and odor which are not scored; the ratings for the factors of color, uniformity of size and shape, defects, and texture, which are scored; the total score; and the limiting rules which apply.

(b) *Definitions of flavor and odor.* (1) "Good flavor and odor" means a good, distinctive flavor and odor which is characteristic of properly prepared and properly processed canned white potatoes (including any permitted safe and suitable optional ingredient(s)) that are free from objectionable flavors or odors of any kind.

(2) "Reasonably good flavor and odor" means that the canned white potatoes (including any permitted safe and suitable optional ingredient(s)) may be lacking in good flavor and odor but are free from objectionable flavors or odors of any kind.

(c) *Factors rated by score points.* The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given each factor is:

Factors:	Points
Color	20
Uniformity of size and shape	20
Defects	30
Texture	30
Total score	100

§ 2852.1819 Determining the rating for the factors which are scored.

The essential variations within each factor which is scored are so described that a value may be determined for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "18 to 20 points" means 18, 19, or 20 points).

§ 2852.1820 Color.

(a) *General.* The evaluation of color of canned white potatoes is made as quickly as possible after opening the container. The evaluation of color is based upon the degree of brightness, intensity of color, and degree of uniformity.

(b) *Grade A.* Canned white potatoes that have a good color may be given a score of 18 to 20 points. "Good color" means that the canned white potatoes, exclusive of blemished areas, are practically free from oxidation or light greenish coloration, and have a bright, practically uniform, light color, typical of canned white potatoes processed from potatoes of similar varietal characteristics.

(c) *Grade B.* Canned white potatoes that have a reasonably good color may be given a score of 16 or 17 points. Canned white potatoes that fall into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Reasonably good color" means that the following conditions, singly or in combination, may be present, but not to the degree that the appearance of the sample unit is seriously affected:

- (1) Variation of color;

RULES AND REGULATIONS

(2) Slight oxidation or slight discoloration(s) which would not be considered as blemished;

(3) Greenish-white, grayish-white, yellow-white, or watery-white semi-translucent color;

(4) Dull, but not off color; or

(5) Any condition which adversely affects the color of the sample unit.

(d) *Substandard.* Canned white potatoes that fail to meet the requirements of U.S. Grade B shall be given a score of 0 to 15 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 2852.1821 Uniformity of size and shape.

(a) *Grade A.* Canned white potatoes that are practically uniform in size and

shape may be given a score of 18 to 20 points. "Practically uniform in size and shape" means that a sample unit of canned white potatoes does not exceed the allowances specified in Table III, as applicable.

(b) *Grade B.* Canned white potatoes that are reasonably uniform in size and shape may be given a score of 16 or 17 points. "Reasonably uniform in size and shape" means that a sample unit of canned white potatoes does not exceed the allowances specified in Table IV, as applicable.

(c) *Substandard.* Canned white potatoes that fail to meet the requirements of U.S. Grade B shall be given a score of 0 to 15 points and shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a partial limiting rule).

TABLE III.—Allowances for size and shape variations of canned white potatoes

(Grade A classification)

Styles	Measurements and/or shape of individual unit(s)	Uniformity within sample unit of 20 oz (567g) of drained product
Whole	Essentially whole potatoes, irrespective of size.	The weight of the largest whole potato is not more than 3 times the weight of the 2d smallest intact whole potato.
Sliced or slices	Diameter is the shortest diameter of the larger of the 2 cut surfaces of the slice. Maximum thickness, measured at the thickest portion, does not exceed 3/4 in (19 mm).	Diameter of largest slice does not exceed diameter of 2d smallest slice by more than 50 pct
Diced or dice	Approximate uniform cube-shaped units	Maximum 2 oz (56.7 g) total of units which are noticeably larger or smaller than representative prevalent cube size or which are irregular in shape.
"Shoestring" or "French-style" or "Julienne"	Approximate uniformly thick rectangular units having length measurements which are 3 or more times the width measurement.	Maximum 2 oz (56.7 g) less than 1/2 in (12.7 mm) in length.
Pieces	"Quartered" or wedge-shaped units resembling orange segments or units of random size and/or shape.	Not more than 1 oz (28.4 g) total of units may weigh less than 1/4 oz (7.1 g) and of all units 1/4 oz (7.1 g) or greater, the largest unit may not be more than twice the weight of the 2d smallest unit.

TABLE IV.—Allowances for size and shape variations of canned white potatoes

(Grade B classification)

Styles	Measurements and/or shape of individual unit(s)	Uniformity within sample unit of 20 oz (567 g) of drained product
Whole	Essentially whole potatoes, irrespective of size.	The weight of the largest whole potato is not more than 4 times the weight of the 2d smallest intact whole potato.
Sliced or slices	Diameter is the shortest diameter of the larger of the 2 cut surfaces of the slice. Maximum thickness, measured at the thickest portion of the slice, does not exceed 1 in (25.4 mm).	Diameter of the largest slice is not more than twice the diameter of the 2d smallest slice.
Diced or dice	Approximate uniform cube-shaped units	Maximum 5 oz (141.8 g) total of units which are noticeably larger or smaller than representative prevalent cube size or which are irregular in shape.
"Shoestring" or "French-style" or "Julienne"	Approximate uniformly thick rectangular units having length measurements which are 3 or more times the width measurement.	Maximum 5 oz (141.8 g) less than 1/2 in (12.7 mm) in length.
Pieces	"Quartered" or wedge-shaped units resembling orange segments or units of random size and/or shape.	Not more than 2 oz (56.7 g) total of units may weigh less than 1/4 oz (7.1 g) and of all units 1/4 oz (7.1 g) or greater, the largest unit may not be more than 4 times the weight of the 2d smallest unit.

§ 2852.1822 Defects.

(a) *General.* The factor of defects concerns the degree of freedom from defects as defined in paragraph (b) of this section or from any other defects present which detract from the appearance of the product.

(b) *Definitions of types of defects.* (1) "Insignificant imperfections" refer to

very slight abnormalities, scars, discolorations, or any other imperfections on the individual unit which may affect the appearance very slightly but which do not affect the edibility of the unit.

(2) "Blemished unit" means any unit which has any brown or black area(s) or any internal or external imperfection or discoloration which, singly or in the

aggregate, materially affect the appearance of the unit. Such units may include, but are not limited to, discolored eyes, unpeeled areas, hollow heart, or scab.

(3) "Seriously blemished unit" means any unit which has any black or dark brown area(s) or any internal or external imperfection or discoloration which, singly or in the aggregate, seriously affect the appearance of the unit. Such units may include, but are not limited to, those with pathological or insect injury.

(4) "Damaged by mechanical injury" means crushed, broken, or cracked units or units damaged by excessive trimming or gouges; or similarly damaged units.

(5) "Harmless extraneous material" means vegetable substances such as weeds, grass, or leaves or portions thereof which are harmless.

(6) "Sand, grit, or silt" means any kind of fine or coarse earthy material.

(c) Grade A. Canned white potatoes that are practically free from defects may be given a score of 27 to 30 points. "Practically free from defects" means that:

(1) Any defects, whether or not specifically defined or listed herein, and including any harmless extraneous material which may be present, do not materially affect the appearance of the sample unit;

TABLE V.—Allowances for defects in canned white potatoes grade A classification

[Maximum defects allowed in a sample unit of 20 oz (567 g) drained weight of product]¹

Type of defect	Style		
	Whole	Sliced or pieces	Diced or shoestring
Insignificant imperfections (evaluated collectively in each sample unit).	Do not materially detract from the appearance of the product.		
Damaged by mechanical injury; blemished units; and seriously blemished units. Total.	4 oz (113.4 g).....	3 oz (85 g).....	2 oz (56.7 g).....
Provided, That blemished and seriously blemished do not exceed.	2 oz (56.7 g).....	2 oz (56.7 g).....	0.8 oz (22.7 g).....
And, further provided, That seriously blemished do not exceed.	1 oz (28.4 g).....	0.5 oz (14.2 g).....	0.2 oz (5.7 g).....
Sand, grit, or silt.....	None.....	None.....	None.....
Harmless extraneous material individually or in combination with other defects.	Does not materially detract from the appearance or edibility of the product.		
Total of all defects, whether or not listed herein.....	4 oz (113.4 g).....	3 oz (85 g).....	2 oz (56.7 g).....
And or.....	Do not materially detract from the appearance or edibility of the product.		

¹ When applicable, permit the specified weight or one (1) normally shaped unit per sample unit, whichever is greater.

TABLE III.—Allowances for defects in canned white potatoes grade B classification

[Maximum defects allowed in a sample unit of 20 ounces (567 g) drained weight of product]¹

Type of defect	Style		
	Whole	Sliced or pieces	Diced or shoestring
Insignificant imperfections (evaluated collectively in each sample unit).	Do not seriously detract from the appearance of the product.		
Damaged by mechanical injury; blemished units; and seriously blemished units. Total.	6 oz (170.1 g).....	4.5 oz (127.6 g).....	3 oz (85 g).....
Provided, That blemished and seriously blemished do not exceed.	4 oz (113.4 g).....	3 oz (85 g).....	1.2 oz (34 g).....
And, further provided, That seriously blemished do not exceed.	2 oz (56.7 g).....	1 oz (28.4 g).....	0.4 oz (11.3 g).....
Sand, grit, or silt.....	Trace.....	Trace.....	Trace.....
Harmless extraneous material individually or in combination with other defects.	Does not seriously detract from the appearance or edibility of the product.		
Total of all defects, whether or not listed herein.....	6 oz (170.1 g).....	4.5 oz (127.6 g).....	3 oz (85 g).....
And or.....	Do not seriously detract from the appearance or edibility of the product.		

¹ When applicable, permit the specified weight or one (1) normally shaped unit per sample unit, whichever is greater.

(2) The sample unit complies with the allowances specified in Table V; and

(3) A sample average of not more than one (1) piece of harmless extraneous material per 60 ounces (1.7 kg) of net weight may be present.

(d) Grade B. Canned white potatoes that are reasonably free from defects may be given a score of 24 to 26 points. Canned white potatoes that fall into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that:

(1) Any defects, whether or not specifically defined or listed herein, and including any harmless extraneous material which may be present, do not seriously affect the appearance of the sample unit;

(2) The sample unit complies with the allowances specified in Table VI; and

(3) A sample average of not more than one (1) piece of harmless extraneous material per 20 ounces (567 grams) of net weight may be present.

(e) Substandard. Canned white potatoes that fail to meet the requirements of U.S. Grade B may be given a score of 0 to 23 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 2852.1823 Texture.

(a) General. The factor of texture refers to the tenderness of the canned white potatoes and to the degree of freedom from sloughing and from hard or objectionably coarse units.

(b) Grade A. Canned white potatoes that have a "good texture" may be given a score of 27 to 30 points. "Good texture" means that the texture of the potatoes is practically uniform and is typical of properly prepared and properly processed potatoes and that the potatoes are firm and have a fine and even grain. There may be sloughing to a degree that does not more than slightly affect the appearance of the product.

(c) Grade B. Canned white potatoes that have a "reasonably good texture" may be given a score of 24 to 26 points. Canned white potatoes that fall into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Reasonably good texture" means that the potatoes are reasonably tender, and may be variable in texture, ranging from somewhat soft to firm, but are not tough or hard nor mushy. There may be a moderate amount of sloughing that does not seriously affect the appearance of the product.

(d) Substandard. Canned white potatoes that fail to meet the requirements of U.S. Grade B may be given a score of 0 to 23 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 2852.1824 Determining the grade of a lot.

The grade of a lot of canned white potatoes covered by these standards is determined by the procedures set forth in the Regulations Governing Inspection and Certification of Processed Fruits and Vegetables, and Related Products, §§ 2852.1 through 2852.83.

§ 2852.1825 Determining size classification for whole potatoes.

(a) Sample units of 20 ounces (567 g) drained weight of whole potatoes are considered a single size if the following criteria are met:

(1) At least 16 ounces (453.6 g) of the whole potatoes are within the diameter dimensions of one of the sizes for whole potatoes set forth in these standards (See § 2852.1813);

(2) Not more than 2 ounces (56.7 g) of the whole potatoes may be of the next larger size classification except for Size 1 whole potatoes where 4 ounces (113.4 g) of the whole potatoes may measure up to, and including, 1½ inches (38.1 mm);

(3) None of the whole potatoes exceed the maximum diameter of the next larger size classification;

(4) Not more than 2 ounces (56.7 g) of the whole potatoes may be of the next smaller size; and

FOR FURTHER INFORMATION CONTACT:

John L. Walker, Attorney, Legal Division, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 (202-452-2418).

SUPPLEMENTARY INFORMATION:

The Board of Governors, under the authority of § 11(k) of the Federal Reserve Act (12 U.S.C. § 248(k)), has amended its Rules Regarding Delegation of Authority to delegate to the Secretary of the Board authority to conform the Board's outstanding rules and regulations with changes in the administrative structure of the United States Government and agencies thereof, and to conform citations and references in the Board's outstanding rules and regulations with other regulatory or statutory changes adopted or promulgated by the Board, the United States Government and agencies thereof.

The provisions of § 553 of Title 5, United States Code, relating to notice, public procedure, and deferred effective date are not followed in connection with this amendment because the amendment prescribes rules of agency procedure and is therefore not subject to the requirements of that section. Effective immediately, § 265.2(a) (16) is amended to read as follows:

§ 265.2 Specific functions delegated to Board employees and Federal Reserve Banks.

(a) The Secretary of the Board (or, in the Secretary's absence, the Acting Secretary) is authorized:

(16) Under the provisions of section 11(i) of the Federal Reserve Act (12 U.S.C. § 248(i)) to conform references to administrative positions or units in outstanding rules and regulations of the Board with changes in the administrative structure of the Board, the Government of the United States and agencies thereof, and to conform citations and references in outstanding rules and regulations of the Board with other regulatory or statutory changes adopted or promulgated by the Board, the Government of the United States and agencies thereof.

By order of the Board of Governors, October 5, 1977.

THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc. 77-30068 Filed 10-13-77; 8:45 am]

[6210-01]

[Docket No. R-0118]

PART 265—RULES REGARDING DELEGATION OF AUTHORITY

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final rule.

SUMMARY: In order to expedite and facilitate performance of certain of its functions, the Board of Governors has delegated to the Secretary of the Board authority to approve certain conforming changes in the Board's outstanding rules and regulations.

EFFECTIVE DATE: Immediately.

functions, the Board of Governors has amended its Rules Regarding Delegation of Authority. The amendment is intended to expand the scope of authority previously delegated to the Federal Reserve Banks regarding mergers of banks.

EFFECTIVE DATE: October 6, 1977.

FOR FURTHER INFORMATION CONTACT:

Robert E. Mannion, Assistant General Counsel (202-452-3274) or Julius L. Loeser, Senior Attorney (202-452-3236), Legal Division, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

SUPPLEMENTARY INFORMATION:

The Federal Deposit Insurance Act (12 U.S.C. § 1828(c)) generally prohibits, except with prior approval of the Board, the merger, consolidation, acquisition of assets, or assumption of liabilities of insured banks where the resulting bank would be a State-chartered bank that is a member of the Federal Reserve System. On April 23, 1973, the Board delegated authority to the Federal Reserve Banks to approve such mergers, consolidations, acquisitions of assets, and assumptions of liabilities pursuant to certain enumerated conditions including certain conditions related to competition (38 FR 10917 (1973)). The Board has now, by the instant amendment, expanded the scope of that delegated authority by excluding the applicability of the competitive criteria where the banks that are parties to a transaction are subsidiaries of the same bank holding company.

The provisions of section 553 of Title 5, United States Code, relating to notice, public participation, and deferred effective date are not followed in connection with the adoption of this amendment because the change involved is procedural in nature and does not constitute a substantive rule subject to the requirements of such section. The amendment is effective immediately.

In order to accomplish this delegation, § 265.2(f) (28) is amended to provide as follows:

§ 265.2 Specific functions delegated to Board employees and to Federal Reserve Banks.

(f) Each Federal Reserve Bank is authorized, as to member banks or other indicated organizations headquartered in its district, or under paragraph f(34) as to its own facilities:

(28) Under the provisions of section 18 (c) of the Federal Deposit Insurance Act (12 U.S.C. § 1828(c)), to approve a merger, consolidation, acquisition of assets, or assumption of liabilities, where the resulting bank is a State member bank, if all (or, in a case in which all of the banks involved in the transaction are subsidiaries of the same bank holding company, all except conditions v, vi, and vii) of the following conditions are met:

By order of the Board of Governors,
effective October 6, 1977.

THEODORE E. ALLISON,
Secretary of the Board.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—FOOD FOR HUMAN CONSUMPTION

[Docket No. 75P-0164]

PART 146—CANNED FRUIT JUICES

Revocation of Stayed Regulations for Standards for Diluted Orange Juice Beverages

AGENCY: Food and Drug Administration.

ACTION: Revocation of stayed regulations.

SUMMARY: This document revokes certain regulations regarding establishing standards of identity for diluted orange juice beverages and other related products, which were stayed due to the filing of objections. The Commissioner of Food and Drugs believes that certain other regulations now in effect for orange juice products have achieved the goal of the stayed regulations by providing the consumer with the necessary labeling information.

EFFECTIVE DATE: October 14, 1977.

FOR FURTHER INFORMATION CONTACT:

Benjamin M. Gutterman, Bureau of Foods (HFF-402), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St. SW., Washington, D.C. 20204 (202-245-1231).

SUPPLEMENTARY INFORMATION: The Food and Drug Administration (FDA) proposed in the FEDERAL REGISTER of August 13, 1964 (29 FR 11621) to establish identity standards for diluted orange juice beverages under Part 146 (21 CFR Part 146, formerly 21 CFR Part 27). The final regulation ruling on that proposal was published in the FEDERAL REGISTER of May 7, 1968 (33 FR 6862). Objections were received which opposed every provision of the standards. Consequently, the Commissioner stayed the effective date of that final regulation pending resolution of the issues raised by the objections at a hearing. In an attempt to avoid an anticipated lengthy and costly hearing, the Commissioner granted a request by industry to postpone the scheduling of the hearing to allow representatives of the two major citrus industry associations (Florida Canners Association and the National Juice Products Association) time in which to resolve their differences at informal meetings. A number of sessions were held over a 2-year period, but the industry negotiators failed to reach full agreement. As a result, the associations

RULES AND REGULATIONS

submitted separate petitions proposing to amend the stayed standards for diluted orange juice beverages (21 CFR 146.155, 146.156, 146.158-146.161, 146.163-146.167) and to establish standards of identity for certain related products (21 CFR 146.168-146.172, 146.175-146.177). The two industry proposals along with one by the Commissioner were published in the FEDERAL REGISTER of September 9, 1971 (36 FR 18098). The final regulation ruling on the September 9, 1971 proposal was published in the FEDERAL REGISTER of March 11, 1972 (37 FR 5224). However, this final regulation met with essentially the same opposition as the May 7, 1968 final regulation. As a consequence, it was stayed in its entirety on March 14, 1973 (38 FR 6968). Along with the notice of stay, the Commissioner published in the FEDERAL REGISTER of March 14, 1973 (38 FR 6968) a final regulation establishing a common or usual name for diluted orange juice beverages (21 CFR 102.32), which required that the common or usual name include a statement of the percent of orange juice contained in the product.

In 1976 the Commissioner denied a petition (Docket No. 75P-0164) submitted by industry associations to remove the stay of the effective date of the standard of identity for water-extracted soluble orange solids (21 CFR 146.168). Subsequently, the petitioners requested that FDA withdraw its denial of the petition and take no official action on the issues involved until further research is completed. The Commissioner has denied this request and so notified the petitioners. This denial is, of course, without prejudice to their submitting a new petition proposing appropriate standards whenever the research they are conducting will support such action.

CONCLUSIONS

The Commissioner is of the opinion that the establishment of the common or usual name regulation has achieved the major goal of FDA in regard to these beverages by providing consumers the means to make a value comparison of the beverages at the time of purchase and by reducing the general consumer confusion that existed in connection with their names. Therefore, he is terminating the rule making proceedings in regard to establishing standards of identity for the following diluted orange juice beverages and certain related products: orange juice drink (21 CFR 146.155), concentrate for orange juice drink (21 CFR 146.156), powdered orange juice drink (21 CFR 146.158), orange juice drink blend (21 CFR 146.159), powdered orange juice drink blend (21 CFR 146.160), orange drink (21 CFR 146.161), concentrate for orange drink (21 CFR 146.163), powdered orange drink (21 CFR 146.164), orange flavored drink (21 CFR 146.165), concentrate for orange flavored drink (21 CFR 146.166), powdered orange flavored drink (21 CFR 146.167), water-extracted soluble orange solids (21 CFR 146.168), dehydrated water-extracted soluble orange solids (21 CFR 146.169), comminuted oranges (21

CFR 146.170), dehydrated comminuted oranges (21 CFR 146.171), extract of comminuted oranges (21 CFR 146.172), dehydrated extract of comminuted oranges (21 CFR 146.175), juicy orange pulp for manufacturing (21 CFR 146.176), and dehydrated juicy orange pulp for manufacturing (21 CFR 146.177). This action is without prejudice to interested persons submitting new petitions proposing reasonable standards that, if adopted, would promote honesty and fair dealing in the interest of consumers.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 401, 701 (e), 52 Stat. 1046 as amended, 70 Stat. 919 as amended (21 U.S.C. 341, 371 (e))) and under the authority delegated to the Commissioner (21 CFR 5.1), Part 146 is amended by revoking the following sections:

§§ 146.155, 146.156, 146.158, 146.159, 146.160, 146.161, 146.163, 146.164, 146.165, 146.166, 146.167, 146.168, 146.169, 146.170, 146.171, 146.172, 146.175, 146.176, and 146.177 [Revoked]

Sections 146.155 Orange juice drink, 146.156 Concentrate for orange juice drink, 146.158 Powdered orange juice drink, 146.159 Orange juice drink blend, 146.160 Powdered orange juice drink blend, 146.161 Orange drink, 146.163 Concentrate for orange drink, 146.164 Powdered orange drink, 146.165 Orange flavored drink, 146.166 Concentrate for orange flavored drink, 146.167 Powdered orange flavored drink, 146.168 Water-extracted soluble orange solids, 146.169 Dehydrated water-extracted soluble orange solids, 146.170 Comminuted oranges, 146.171 Dehydrated comminuted oranges, 146.172 Extract of comminuted oranges, 146.175 Dehydrated extract of comminuted oranges, 146.176 Juicy orange pulp for manufacturing, and 146.177 Dehydrated juicy orange pulp for manufacturing are revoked.

Effective date: October 14, 1977.

(Secs. 401, 701 (e), 52 Stat. 1046 as amended, 70 Stat. 919 as amended (21 U.S.C. 341, 371 (e))).

Dated: October 5, 1977.

JOSEPH P. HILE,
Associate Commissioner
for Compliance.

[4110-03]

[Docket No. 76P-0092]

PART 155—CANNED VEGETABLES

Standard of Identity for Canned Mushrooms; Confirmation of Effective Date of Amendment

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: This document confirms the effective date of the revised standard of identity for canned mushrooms. The revised standard was published in the FEDERAL REGISTER of June 14, 1977 (42 FR

30358) to provide for the optional use of safe and suitable organic acids in processing canned mushrooms where the inside of the container is fully enameled or in glass containers with fully enamel-lined caps.

EFFECTIVE DATE: This regulation became effective August 15, 1977.

FOR FURTHER INFORMATION CONTACT:

Prince G. Harrill, Bureau of Foods (HFF-411), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St. SW., Washington, D.C. 20204, (202-245-1164).

SUPPLEMENTARY INFORMATION: The Commissioner of Food and Drugs issued in the FEDERAL REGISTER of June 14, 1977 (42 FR 30358) a final regulation revising the standard of identity (21 CFR 155.200) for certain canned vegetables. A correction was published in the FEDERAL REGISTER of June 21, 1977 (42 FR 31449). No objections to the final regulation were received.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 401, 701 (e), 52 Stat. 1046 as amended, 70 Stat. 919 as amended (21 U.S.C. 341, 371 (e))) and under authority delegated to the Commissioner (21 CFR 5.1), notice is given that the revision of § 155.200(c) (12) as promulgated in the FEDERAL REGISTER of June 14, 1977 (42 FR 30358) became effective August 15, 1977.

Dated: October 5, 1977.

JOSEPH P. HILE,
Associate Commissioner
for Compliance.

[Docket No. 76N-0144]

PART 184—DIRECT FOOD SUBSTANCES AFFIRMED AS GENERALLY RECOGNIZED AS SAFE

Labeling: Intermediate Mixes Containing Direct Human Food Ingredients Affirmed as GRAS

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: This amendment eases certain labeling requirements for food ingredients affirmed as generally recognized as safe (GRAS). In response to manufacturers of intermediate food ingredients who maintain that labeling requirements create certain unnecessary hardships, this amendment provides alternative means of conveying the required information to food processors. The regulations for dill and its derivatives, garlic and its derivatives, acacia (gum arabic), a guar gum, locust (carob) bean gum, karaya gum (sterculia gum), and gum tragacanth are also being revised to reflect the changes in the labeling regulation.

DATES: Effective November 14, 1977.

RULES AND REGULATIONS

ADDRESSES: Written objections to Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Corbin I. Miles, Bureau of Foods (HFF-335), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St. SW., Washington, D.C. 20204 (202-472-4750).

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of December 7, 1976 (41 FR 53622) a proposal was published to revise § 184.1(f) (formerly § 121.104(f) prior to recodification published March 15, 1977 (42 FR 14302)), which relates to labeling requirements for human food ingredients affirmed as GRAS. The proposal was published in response to comments submitted on the numerous human food ingredients proposed for GRAS affirmation (see the FEDERAL REGISTER of September 23, 1974 (39 FR 34194)). The comments made clear, and the Commissioner of Food and Drugs concurs, that the labeling requirements of § 184.1(f) created certain difficulties for manufacturers of intermediate food ingredient mixes. The Commissioner has therefore adopted new language that will not require individual food ingredient and concentration labeling. The new regulation does, however, require adequate instructions for use of food ingredient mixtures and sufficient information to permit a food processor independently to determine that use of the mixture will be in accordance with any limitations prescribed for the individual ingredients.

Because of the labeling regulation changes, the regulations for dill and its derivatives (21 CFR 184.1282), garlic and its derivatives (21 CFR 184.1317), acacia (gum arabic) (21 CFR 184.1330), guar gum (21 CFR 184.1339), locust (carob) bean gum (21 CFR 184.1343), Karaya gum (sterculia gum) (1 CFR 184.1349), and gum tragacanth (21 CFR 184.1351), are amended to delete the exemption from labeling requirements in § 184.1(f). No comments were received in response to the proposal to revise § 184.1(f). The Commissioner therefore concludes that no change in the proposed revision of this section is warranted. Accordingly, it is promulgated without change.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1784-1788 as amended, (21 U.S.C. 321(s), 348, 371 (a))) and under authority delegated to the Commissioner (21 CFR 5.1), Part 184 is amended as follows:

1. In § 184.1 by revising paragraph (f) to read as follows:

§ 184.1 Substances added directly to human food affirmed as generally recognized as safe.

(f) The label and labeling of the ingredient and any intermediate mix of the ingredient for use in finished food shall bear, in addition to the other labeling required by the act:

(1) The name of the ingredient, except where exempted from such labeling in Part 101 of this chapter.

(2) A statement of concentration of the ingredient in any intermediate mix; or other information to permit a food processor independently to determine that use of the ingredients will be in accordance with any limitations and good manufacturing practice guidelines prescribed.

(3) Adequate directions for use to provide a final food product that complies with any limitations prescribed for the ingredient(s).

2. In § 184.1282, by deleting paragraph (e) and designating it "reserved."

§ 184.1282 Dill and its derivatives.

(e) [Reserved]

3. In § 184.1317, by deleting paragraph (e) and designating it "reserved."

§ 184.1317 Garlic and its derivatives.

(e) [Reserved]

4. In § 184.1330, by deleting paragraph (d) and designating it "reserved."

§ 184.1330 Acacia (gum arabic).

(d) [Reserved]

5. In § 184.1339, by deleting paragraph (d) and designating it "reserved."

§ 184.1339 Guar gum.

(d) [Reserved]

6. In § 184.1343, by deleting paragraph (d) and designating it "reserved."

§ 184.1343 Locust (carob) bean gum.

(d) [Reserved]

7. In § 184.1349, by deleting paragraph (d) and designating it "reserved."

§ 184.1349 Karaya gum (sterculia gum).

(d) [Reserved]

8. In § 184.1351, by deleting paragraph (d) and designating it "reserved."

§ 184.1351 Gum tragacanth.

(d) [Reserved]

Effective date: This regulation shall become effective November 14, 1977.

(Secs. 201(s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1784-1788 as amended (21 U.S.C. 321(s), 348, 371(a))).

Dated: October 4, 1977.

JOSEPH P. HILE,
Associate Commissioner
for Compliance.

SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS
[Docket No. 77N-0241]

PART 570—FOOD ADDITIVES

General Recognition of Safety and Prior Sanction for Ingredients in Animal Feeds and Pet Food

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Commissioner of Food and Drugs is amending the provisions for general recognition of safety and prior sanction for ingredients in animal feed and pet food to add provisions that were inadvertently omitted when revised regulations were promulgated.

EFFECTIVE DATE: November 14, 1977.

FOR FURTHER INFORMATION CONTACT:

Robert S. Brigham, Bureau of Veterinary Medicine (HFV-238), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857 (301-443-6243).

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of September 23, 1974 (39 FR 34194), the Commissioner of Food and Drugs proposed to amend the food additive regulations regarding criteria for the determination of general recognition of safety (GRAS) and prior sanction of articles intended for use in human and animal food. However, the Food and Drug Administration on September 10, 1976 (41 FR 38618), recodified the then existing regulations covering these articles for their use in animal feed and pet food products as part of its program to provide space for the orderly development of future regulations and to provide the public with regulations that are easy to find, read, and understand. When the Commissioner issued in the FEDERAL REGISTER of December 7, 1976 (41 FR 53600), the final order amending the existing regulations for general recognition of safety and prior sanction for food ingredients, he inadvertently failed to amend the correspondingly recodified regulations for animal products. This order amends the corresponding regulation in Subchapter E of Title 21 to incorporate the pertinent provisions included in the December 7, 1976, order as they relate to food additives as ingredients in animal feed and pet food.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 402, 409, 701(a), 52 Stat. 1046-1047 as amended, 1055, 72 Stat. 1784-1788 as amended (21 U.S.C. 321(s), 342, 348, 371 (a)) and under the authority delegated to the Commissioner (21 CFR 5.1), Part 570 is amended as follows:

1. In § 570.3 by revising paragraphs (f), (h), (i), and (k), and by adding new paragraphs (l) and (m) to read as follows:

§ 570.3 Definitions.

(f) "Common use in food" means a substantial history of consumption of a substance by a significant number of animals in the United States.

(h) "Scientific procedures" include those human, animal, analytical, and other scientific studies, whether published or unpublished, appropriate to establish the safety of a substance.

(i) "Safe" or "safety" means that there is a reasonable certainty in the minds of competent scientists that the substance is not harmful under the intended conditions of use. It is impossible in the present state of scientific knowledge to establish with complete certainty the absolute harmlessness of the use of any substance. Safety may be determined by scientific procedures or by general recognition of safety. In determining safety, the following factors shall be considered:

(1) The probable consumption of the substance and of any substance formed in or on food because of its use.

(2) The cumulative effect of the substance in the diet, taking into account any chemically or pharmacologically related substance or substances in such diet.

(3) Safety factors which, in the opinion of experts qualified by scientific training and experience to evaluate the safety of food and food ingredients, are generally recognized as appropriate.

(k) "General recognition of safety" shall be determined in accordance with § 570.30.

(l) "Prior sanction" means an explicit approval granted with respect to use of a substance in food prior to September 6, 1958, by the Food and Drug Administration or the United States Department of Agriculture pursuant to the Federal Food, Drug, and Cosmetic Act, the Poultry Products Inspection Act, or the Meat Inspection Act.

(m) "Food" includes human food, substances migrating to food from food-contact articles, pet food, and animal feed.

2. By revising § 570.30 to read as follows:

§ 570.30 Eligibility for classification as generally recognized as safe (GRAS).

(a) General recognition of safety may be based only on the views of experts qualified by scientific training and experience to evaluate the safety of substances directly or indirectly added to food. The basis of such views may be either (1) scientific procedures or (2) in the case of a substance used in food prior to January 1, 1958, through experience based on common use in food. General recognition of safety requires common knowledge about the substance throughout the scientific community knowledgeable about the safety of substances directly or indirectly added to food.

(b) General recognition of safety based upon scientific procedures shall require the same quantity and quality of scientific evidence as is required to obtain approval of a food additive regulation for the ingredient. General recognition of safety through scientific procedures shall ordinarily be based upon published studies which may be corroborated by unpublished studies and other data and information.

(c) General recognition of safety through experience based on common use in food prior to January 1, 1958, may be determined without the quantity or quality of scientific procedures required for approval of a food additive regulation. General recognition of safety through experience based on common use in food prior to January 1, 1958, shall ordinarily be based upon generally available data and information. An ingredient not in common use in food prior to January 1, 1958, may achieve general recognition of safety only through scientific procedures.

(d) The food ingredients listed as GRAS in Part 582 of this chapter do not include all substances that are generally recognized as safe for their intended use in food. Because of the large number of substances the intended use of which results or may reasonably be expected to result, directly or indirectly, in their becoming a component or otherwise affecting the characteristics of food, it is impracticable to list all such substances that are GRAS. A food ingredient of natural biological origin that has been widely consumed for its nutrient properties in the United States prior to January 1, 1958, without known detrimental effects, which is subject only to conventional processing as practiced prior to January 1, 1958, and for which no known safety hazard exists, will ordinarily be regarded as GRAS without specific inclusion in Part 582 of this chapter.

(e) A food ingredient that is not GRAS or subject to a prior sanction requires a food additive regulation promulgated under section 409 of the act before it may be directly or indirectly added to food.

(f) A food ingredient that is listed as GRAS in Part 582 of this chapter shall be regarded as GRAS only if, in addition to all the requirements in the applicable regulation, it also meets all of the following requirements:

(1) It complies with any applicable specifications, or in the absence of such specifications, shall be of a purity suitable for its intended use.

(2) It performs an appropriate function in the food or food-contact article in which it is used.

(3) It is used at a level no higher than necessary to achieve its intended purpose in that food or, if used as a component of a food-contact article, at a level no higher than necessary to achieve its intended purpose in that article.

(g) New information may at any time require reconsideration of the GRAS status of a food ingredient. Any change in status shall be accomplished pursuant to § 570.38.

(h) If a substance is affirmed as GRAS pursuant to § 570.35 and listed in a reg-

ulation with no limitation other than good manufacturing practice, it shall be regarded as GRAS if its conditions of use are not significantly different from those reported in the regulation as the basis on which the GRAS status of the substance was affirmed. If the conditions of use are significantly different, such use of the substance may not be GRAS. In such a case a manufacturer may not rely on the regulation as authorizing the use but must independently establish that the use is GRAS or must use the substance in accordance with a food additive regulation.

(i) If an ingredient is affirmed as GRAS pursuant to § 570.35 and listed in a regulation with specific limitation(s), it may be used in food only within such limitation(s) (including the category of food(s), the functional use(s) of the ingredient, and the level(s) of use). Any use of such an ingredient not in full compliance with each such established limitation shall require a food additive regulation.

(j) Pursuant to § 570.35, a food ingredient may be affirmed as GRAS and listed in a regulation for a specific use(s) without a general evaluation of use of the ingredient. In addition to the use(s) specified in the regulation, other uses of such an ingredient may also be GRAS. Any affirmation of GRAS status for a specific use(s), without a general evaluation of use of the ingredient, is subject to reconsideration upon such evaluation.

3. In § 570.35 by adding new paragraph (c) (6) to read as follows:

§ 570.35 Affirmation of generally recognized as safe (GRAS) status.

(c) * * *

(6) The notice of filing in the FEDERAL REGISTER will request submission of proof of any applicable prior sanction for use of the ingredient under conditions different from those proposed to be determined to be GRAS. The failure of any person to come forward with proof of such an applicable prior sanction in response to the notice of filing will constitute a waiver of the right to assert or rely on such sanction at any later time. The notice of filing will also constitute a proposal to establish a regulation under this Subchapter E, incorporating the same provisions, in the event that such a regulation is determined to be appropriate as a result of submission of proof of such an applicable prior sanction in response to the notice of filing.

4. In § 570.38 by adding a new paragraph (d) to read as follows:

§ 570.38 Determination of food additive status.

(d) If the Commissioner of Food and Drugs is aware of any prior sanction for use of the substance, he will concurrently propose a separate regulation covering such use of the ingredient under this Subchapter E. If the Commissioner is unaware of any such applicable prior sanction, the proposed regulation will

so state and will require any person who intends to assert or rely on such sanction to submit proof of its existence. Any regulation promulgated pursuant to this section constitutes a determination that excluded uses would result in adulteration of the food in violation of section 402 of the act, and the failure of any person to come forward with proof of such an applicable prior sanction in response to the proposal will constitute a waiver of the right to assert or rely on such sanction at any later time. The notice will also constitute a proposal to establish a regulation under this Subchapter E, incorporating the same provisions, in the event that such a regulation is determined to be appropriate as a result of submission of proof of such an applicable prior sanction in response to the proposal.

Effective date: These amendments shall be effective November 30, 1977.

(Secs. 201(s), 402, 409, 701(a), 52 Stat. 1046-1047 as amended, 1055, 72 Stat. 1784-1788 as amended (21 U.S.C. 321(s), 342, 348, 371 (a)).)

Dated: October 5, 1977.

JOSEPH P. HILE,
Associate Commissioner
for Compliance.

SUBCHAPTER J—RADIOLOGICAL HEALTH

[Docket No. 76N-0492]

PART 1005—IMPORTATION OF ELECTRONIC PRODUCTS

Subpart C—Bonding and Compliance Procedures, Changes in Service Rates

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The agency is increasing the service rates charged for supervising the operations necessary to bring detained imported electronic products into compliance with the Public Health Service Act, as amended by the Radiation Control for Health and Safety Act of 1968. The agency has found that the flat rates established in 1970 are inadequate today and, therefore, to update the fees and eliminate the continual revision of flat rates, the agency is amending the regulations to provide for computation of fees on a percentage of salary basis.

DATES: Effective November 14, 1977; comments by December 13, 1977.

ADDRESS: Written comments to the Hearl Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Harold R. Heiser, Accounting Branch (HFA-120), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857 (301-443-1766).

SUPPLEMENTARY INFORMATION: Section 360 of the Public Health Service Act, as amended by the Radiation Control for Health and Safety Act of 1968 (42 U.S.C. 263h), requires that the cost of supervising the operations necessary to bring detained imported electronic products into compliance with the statute shall be paid by the owner or consignee who files an application requesting such action and executes a bond.

A study of the costs incurred by FDA in supervising such operations shows that the flat rates established in 1970 are now too low. To keep abreast of economic changes and also to eliminate the continual revision of flat rates, § 1005.24 (21 CFR 1005.24) is being amended to provide for the computation of costs as a percentage of the hourly rate of the average grade of the supervising officer (GS-11/4) or analyst (GS-12/4); the percentage includes administrative and laboratory support, as well as employee benefits paid by the government.

Since reimbursement for expenses incurred by FDA in providing these inspectional and analytical services is required by the Public Health Service Act, as amended by the Radiation Control for Health and Safety Act of 1968, and since the amendment effected by this regulation simply establishes rates for these services, the Commissioner finds that notice and public procedure are unnecessary for this promulgation as authorized under 5 U.S.C. 553.

Therefore, under the Public Health Service Act, as amended by the Radiation Control for Health and Safety Act of 1968 (secs. 356, 360, 82 Stat. 1174-1176, 1181, 1182 (42 U.S.C. 263d, 263h)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), Part 1005 is amended in § 1005.24 by revising paragraph (c) to read as follows:

§ 1005.24 Costs of bringing product into compliance.

(c) Service fees:

(1) The charge for the services of the supervising officer, which shall include administrative support, shall be computed at a rate per hour equal to 266 percent of the hourly rate of regular pay of a grade GS-11/4 employee, except that such services performed by a customs officer and subject to the provisions of the act of February 13, 1911, as amended (sec. 5, 36 Stat. 901, as amended (19 U.S.C. 267)), shall be calculated as provided in that act.

(2) The charge for the services of the analyst, which shall include administrative and laboratory support, shall be computed at a rate per hour equal to 266 percent of the hourly rate of regular pay of a grade GS-12/4 employee.

(3) The rate per hour equal to 266 percent of the equivalent hourly rate of regular pay of the supervising officer (GS-11/4) and the analyst (GS-12/4) is computed as follows:

RULES AND REGULATIONS

	Hours
Gross number of working hours in 52 40-hour weeks.....	2,080
Less:	
Nine legal public holidays—New Years Day, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans Day, Thanksgiving Day, and Christmas Day.....	72
Annual Leave—26 days.....	208
Sick Leave—13 days.....	104
Total.....	384
Net number of working hours.....	1,696
Gross number of working hours in 52 40-hour weeks.....	2,080
Working hour equivalent of Government contributions for employee retirement, life insurance, and health benefits computed at 8 1/2% pct. of annual rate of pay of employee.....	176
Equivalent annual working hours.....	2,256
Support required to equal to 1 man-year.....	2,256
Equivalent gross annual working hours charged to Food and Drug appropriation.....	4,512
Note.—Ratio of equivalent gross annual number of working hours charged to Food and Drug appropriation to net number of annual working hours	$\frac{4512}{1696} = 2.66$ pct.

Interested persons may, on or before December 13, 1977 submit to the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, written comments regarding this regulation. Four copies of all comments shall be submitted, except that individuals may submit single copies of comments, and shall be identified with the Hearing Clerk docket number found in brackets in the heading of this document. Received comments may be seen in the above office between the hours of 9 a.m. and 4 p.m., Monday through Friday. Any changes in this regulation justified by such comments will be the subject of a further amendment.

Effective date: This regulation shall become effective November 14, 1977.

(Secs. 358, 360, 82 Stat. 1174-1176, 1181-1182 (42 U.S.C. 263d, 263h).)

Dated: October 4, 1977.

JOSEPH P. HILE,
Associate Commissioner
for Compliance.

[4310-53]

Title 30—Mineral Resources
CHAPTER VI—BUREAU OF MINES,
DEPARTMENT OF THE INTERIOR
SUBCHAPTER A—HELIUM AND COAL
PART 601—SALES OF HELIUM BY AND
RENTAL OF CONTAINERS FROM BUREAU OF MINES

Revised Fee Schedule

AGENCY: Department of the Interior.
ACTION: Final rule.

SUMMARY: This rule establishes a new list of the prices and charges associated with the sales of helium. The old list of prices and charges did not reflect the increase in cost for labor and materials that has occurred in the two years since the old list was established.

EFFECTIVE DATE: The effective date for the new schedule of charges and prices is the first day of the first month after 30 days from date of final publication in the FEDERAL REGISTER.

FOR FURTHER INFORMATION CONTACT:

Ray D. Munnerlyn, Chief, Division of Helium, Columbia Plaza Office Building, 5th Floor, 2401 E Street NW., Washington, D.C. 20241 (202-634-4734).

SUPPLEMENTARY INFORMATION: On pages 20837 and 20838 of the FEDERAL REGISTER of Friday, April 22, 1977, there was published a notice of proposed amendment of Chapter VI, Subchapter A, Part 601 of Title 30 Code of Federal Regulations to replace the existing schedule of prices and charges which became effective April 14, 1975. Interested persons were given 30 days in which to submit comments.

Only one comment was received. The commentor objected to the minimum order each contract because of a lack of space for storing small cylinders. The commentor was advised that partial orders may be placed against the total order as needed.

Section 601.3(d) of the regulations requires that the minimum net charge under any one cylinder rental contract shall be one month's charge for 100 cylinders. The Proposed Revised Fee Schedule (30 CFR Part 601) that appeared on April 22, 1977 (42 FR 20837), failed to take into account this proviso. Thus, on page 20838 of that document, in the right hand column, line 5, the charge, "\$25", should have read "\$70". This also changes the initial cash advance for use of the cylinders. In line 9, the amount of the advance, "\$75", should have read "\$210"; and in line 12, the charge, "\$0.75 each", should have read "\$2.10 each". In the middle column, line 36, an error in the publication process which read "\$1.00 each round trip" should have read "\$1,000 each round trip".

We believe that the proposed increases in prices and charges are fully justified by the increases in the cost of labor and supplies since 1975 when the prices and charges were last changed. The objection of the one commentor does not provide sufficient grounds for revising the proposed schedule.

The primary author of this document is Billy J. King, Chief, Branch of Administration, Division of Helium, Helium Operations, Box H 4372 Herring Plaza, Amarillo, Tex. 79101, telephone FTS: 734-2608; A/C 806-376-2608, with assistance by Jerome E. Veen, Chief, Section of Finance, Helium Operations (same address), FTS: 734-2645; A/C 806 376-2645.

NOTE:—The Department of the Interior has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

Dated: October 7, 1977.

JOAN M. DAVENPORT,
Assistant Secretary of the Interior.

The proposed revised fee schedule is adopted with changes as set forth below.

APPENDIX

SCHEDULE OF PRICES AND CHARGES

Stencil special markings on cylinder:	
1st cylinder.....	\$20.35 each.
Additional cylinders in same lot with markings.....	\$0.70 each.
Wash and dry cylinders, includes reset valve.....	\$2.20 each.
Special cylinder tagging.....	\$0.20 each.
Special tagging of cylinder and port plug installed in valve.....	\$1.50 each.
Remove labels and decals from cylinder.....	\$0.30 each.
Seal cylinder—wire with crimped lead shipping seal.....	\$0.35 each.
Use of tank cars:	
Round trip mileage between helium plant and destination, and time at destination.....	\$25/d 1st 30 d, \$20/d 2d 30 d, \$15/d over 60 d.
Initial cash advance for use of each tank car:	
Contracts specifying a definite number of round trips.....	\$1,000 each round trip.
Contracts specifying an indefinite number of round trips.....	\$4,000.
Cash, bond, or insurance to guarantee return of containers:	
1 tank car.....	\$100,000.
2 or more but less than 5 tank cars.....	\$200,000.
Each tank car in excess of 4.....	\$20,000.
Use of semitrailers:	
Time in customer's service.....	\$20/d 1st 30 d, \$40/d 2d 30 d, \$50/d over 60 d.
Initial cash advance for use of each semitrailer:	
Contracts specifying a definite number of round trips.....	\$150 each round trip.
Contracts specifying an indefinite number of round trips.....	\$600.

APPENDIX—CONTINUED	
Cash, bond, or insurance to guarantee return of containers:	
1 trailer.....	\$40,000.
2 or more but less than 5 semitrailers.....	\$100,000.
Each trailer in excess of 4.....	\$10,000.
Use of standard type cylinders:	
Each cylinder.....	\$0.70 a mo.
Minimum each contract.....	\$70.00
Initial cash advance for use of cylinders:	
Contracts for 100 cylinders or less.....	\$210.00
Contracts for more than 100 cylinders.....	\$2.10
Cash, bond, or insurance to guarantee return of cylinders.....	\$40 each.
Additional charge for falling to return containers with minimum residual pressure of 15 lb/in ² of uncontaminated grade A helium.....	
Standard type cylinder, evacuating and purge:	
Tube trailer, tube banks, or tubes manifolded:	
Individual tube capacity 1,800 ft ³ or less:	
Purge.....	\$1 each tube.
Evacuate.....	\$1.20 each tube.
Individual tube capacity greater than 1,800 ft ³ :	
Purge.....	\$5.50 each tube.
Evacuate.....	\$6.60 each tube.
Tube trailer, tube banks, or tubes not manifolded:	
Individual tube capacity 1,800 ft ³ or less:	
Purge.....	\$2 each tube.
Evacuate.....	\$2.20 each tube.
Individual tube capacity greater than 1,800 ft ³ :	
Purge.....	\$8.30 each tube.
Evacuate.....	\$8.60 each tube.
Tank car:	
Purge.....	\$90 each tank car.
Evacuate.....	\$110 each tank car.
Use as storage container:	
Tank car.....	\$10 each day.
Palletizing cylinders for shipment:	
Bureau of Mines—furnished pallet.....	\$52 each.
Customer—furnished pallet.....	\$13 each.

¹ The advance shall also include the estimated amount for filling charges and the full amount of estimated charges for the services to be rendered.

[FR Doc. 77-30004 Filed 10-13-77; 8:45 am]

RULES AND REGULATIONS

[3810-70]

Title 32—National Defense
CHAPTER I—OFFICE OF THE
SECRETARY OF DEFENSE

[DOD Directive 1354.1]

PART 143—RELATIONSHIPS WITH ORGANIZATIONS WHICH SEEK TO REPRESENT MEMBERS OF THE ARMED FORCES IN NEGOTIATION OR COLLECTIVE BARGAINING

AGENCY: Office of the Secretary of Defense.

ACTION: Final rule.

SUMMARY: This rule establishes departmental policies and procedures with respect to organizations whose objective is to organize or represent members of the Armed Forces on active duty, inactive duty training, or members of Reserve components serving in their military capacities, for purposes of negotiating or bargaining about terms or conditions of military service. These policies and regulations are needed to provide uniform direction and guidance to officials in the Department of Defense and members of the Armed Forces, and to ensure consistent and even-handed treatment of members of the Armed Forces and individuals, groups, organizations, and associations seeking or purporting to represent members of the Armed Forces for the purpose of such negotiating or bargaining.

EFFECTIVE DATE: October 6, 1977.

FOR FURTHER INFORMATION CONTACT:

Captain Edward Boywid, United States Navy, 202-695-0625

SUPPLEMENTARY INFORMATION: This rule prohibits commanders and supervisors of the Department of Defense, acting on behalf of the United States, from engaging in negotiation or collective bargaining with members of the Armed Forces or with individuals, groups, organizations, or associations purporting to represent members of the Armed Forces for the purpose of resolving, bilaterally terms or conditions of military service. It also prohibits members of the Armed Forces from engaging in strikes, slowdowns, work stoppages, actions which obstruct or interfere with the performance of military assignments, and picketing for the purpose of causing any of the foregoing, when such actions are related to terms or conditions of military service. The rule proscribes efforts on military installations to recruit members of the Armed Forces into certain types of organizations and, in specific circumstances, prohibits membership by members of the Armed Forces in certain organizations. In addition to setting forth supplementary general prohibitions and enumerating activities specifically not prohibited, the rule vests responsibility for assuring compliance in the heads of the various departmental components.

Interested persons have been afforded an opportunity to participate in the making of this rule by a notice of proposed rulemaking published in the FEDERAL REGISTER on August 16, 1977 (42 FR 41306). All comments received, insofar as they relate to matters within the scope of the notice, were considered. Except for editorial changes and except as specifically discussed hereinafter, the proposed rule is adopted as final and the reasons therefor are the same as those contained in the notice.

General comments, while not specifically addressing the language or the purpose of the proposed rule, were submitted in support of or against unionization of the Armed Forces. Some were opposed to the rule in principle, others favored it and still others stated the rule was not strong enough and legislation was required.

Some comments challenged the rule as unconstitutional under the First Amendment and the equal protection and due process clauses. These comments were directed at the restrictions on membership and recruitment on military bases. Each of these comments was based on constitutional case law and scholarly commentary that had been considered by the Department of Defense prior to publishing the proposed rule for comment. The Department of Defense has concluded that applicable constitutional requirements are met.

Accordingly, 32 CFR Part 143 is revised as set forth below:

Sec.	
143.1	Purpose.
143.2	Applicability and Scope.
143.3	Policy.
143.4	Prohibited Activity.
143.5	Permissible Activity.
143.6	Administrative Provisions.
143.7	Definitions.
143.8	Guidelines.

AUTHORITY: 5 U.S.C. 301 and 10 U.S.C. 133, 3010, 5011, and 8010, and in accordance with 32 CFR 298.

§ 143.1 Purpose.

This part establishes policies and procedures with respect to organizations whose objective is to organize or represent members of the Armed Forces for purposes of negotiating or bargaining about terms or conditions of military service. The Part does not modify or diminish the existing authority of commanders to control access to, or maintain good order and discipline on, military installations; nor does it modify or diminish the obligations of commanders and supervisors pursuant to Executive Order 11491 with respect to organizations representing DoD civilian employees.

§ 143.2 Applicability and scope.

The provisions of this part apply to:

(a) The Office of the Secretary of Defense, the Military Departments, the Organization of the Joint Chiefs of Staff, the Unified and Specified Commands, and the Defense Agencies.

(b) All military and civilian personnel of the Department of Defense.

(c) Individuals and groups entering, using, or seeking to enter or use military installations.

§ 143.3 Policy.

The mission of the Department of Defense is to safeguard the security of the United States. Discipline, obedience to lawful orders, and loyalty on the part of members of the Armed Forces are essential to the combat readiness required to accomplish this mission. The interposition of collective or concerted action by any organization in the command relationships established by law and regulation for the government of the Armed Forces would:

(a) Erode the discipline of the Armed Forces;

(b) Interfere with the power of the Congress to make rules for the government and regulation of the land, air and naval forces, and interfere with the appropriate delegation of power to the Department of Defense to provide for the national defense;

(c) Impair the authority of the President as Commander in Chief of the Armed Forces and that of officers appointed by him to command the Armed Forces; and

(d) Impair the reliability, operational readiness, and combat effectiveness of the Armed Forces so as to threaten the security of the United States.

§ 143.4 Prohibited activity.

(a) *Negotiation or Collective Bargaining.* No commander or supervisor may engage in negotiation or collective bargaining.

(b) *Strikes and Other Concerted Activity.* No member of the Armed Forces may:

(1) Engage in any strike, slowdown, work stoppage, or other collective job-related action related to terms or conditions of military service; or

(2) Picket for the purpose of causing or coercing other members of the Armed Forces to engage in any strike, slowdown, work stoppage, or other collective job-related action to terms or conditions of military service.

(c) *Recruitment Efforts on Military Installations.*

(1) No person may conduct or attempt to conduct a demonstration, meeting, march, speechmaking, protest, picketing, leafleting or other similar activity on any part of a military installation for the purposes of forming, recruiting members for or soliciting money or services for an organization (or organizations) that:

(i) Engages or is substantially likely to engage in any activity prohibited by this Part; or

(ii) Proposes or holds itself out as proposing to engage in negotiation or collective bargaining on behalf of members of the Armed Forces; or

(iii) Proposes or holds itself out as proposing to represent members of the Armed Forces to the military chain of command with respect to terms or con-

ditions of military service when such representation would interfere with the military chain of command; or

(iv) Solicits or aids and abets a violation of this part by a member of the Armed Forces.

(2) No person may engage in any activity on any part of a military installation, including but not limited to individual contacts or the posting for public display of any poster, handbill or other writing, if that activity or the material displayed constitutes or includes an invitation to collectively engage in an act prohibited by this part.

(d) *Membership.* No member of the Armed Forces may become or remain an active member of any organization when:

(1) A determination has been made that the organization presents a clear danger to discipline, loyalty, or obedience to lawful orders because the organization, or any person on behalf of the organization:

(i) Engages in any act prohibited by this Part; or

(ii) Violates or conspires to violate, or solicits or aids and abets a violation of articles 82, 85, 86, 87, 89, 90, 91, 92, 94, 108, 109, 115, 116, 117, or 128 of the Uniform Code of Military Justice or of 18 U.S.C. 1382; and

(2) Such member of the Armed Forces knows that the organization, or any person on behalf of the organization, engages in the conduct upon which the determination in § 143.4(d)(1) is based and such member of the Armed Forces intends to promote such conduct.

(e) *General Prohibitions.*

(1) No member of the Armed Forces may solicit the commission of or conspire with or aid and abet any person or organization in the commission of any act prohibited by this Part.

(2) No member of the Armed Forces may attempt to engage in any act prohibited by this Part.

§ 143.5 Permissible activity.

This part does not prevent, among other things:

(a) Any member of the Armed Forces from presenting complaints or grievances over terms or conditions of military service through established military channels.

(b) Commanders or supervisors from giving due consideration to the views of any member of the Armed Forces presented individually or as a result of participation on command-sponsored or authorized advisory councils, committees or organizations for the purpose of improving conditions or communications at the military installation involved.

(c) Any member of the Armed Forces from petitioning Congress or communicating with any member of Congress, individually or collectively.

(d) Any member of the Armed Forces from being represented by qualified counsel, whether or not retained by an organization on his or her behalf, in any judicial or administrative proceeding with respect to which there is a right to counsel of choice.

(e) Any member of the Armed Forces from joining or being a member of any organization which engages in representational activities with respect to terms or conditions of off-duty employment.

(f) Any civilian employed at a military installation from joining or being a member of an organization that engages in representational activities with respect to terms or conditions of employment.

§ 143.6 Administrative provisions.

(a) *Responsibility.* Responsibility for assuring compliance with this Part is vested in the Heads of the DOD Components. Guidelines for this purpose are contained in § 143.8.

(b) *Application.* The Heads of the DOD Components (in the case of the Military Departments, the Secretaries of the Military Departments in consultation with their respective Chiefs of Staff) will determine on a case-by-case basis, whether § 143.4(c)(2), or § 143.4(d), or both of this Part are to be invoked in particular circumstances and will make the specific determinations required.

(c) *Reports.* The Heads of the DOD Components will report directly and expeditiously to the Secretary of Defense significant actions to be taken pursuant to this Part. The Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics) is the administrative point of contact in the Office of the Secretary of Defense for all matters relating to this Part.

§ 143.7 Definitions.

(a) *Aid and Abet.* To be present during the commission of any act prohibited by this Part and to assist, command, counsel, or otherwise encourage the commission of such act.

(b) *Collective Job-Related Action.* Any activity by two or more persons that is intended to and does obstruct or interfere with the performance of a military duty assignment.

(c) *Conspire.* To join or agree with one or more persons to commit any act prohibited by this Part.

(d) *DOD Components.* The Military Departments and the Defense agencies.

(e) *Member of the Armed Forces.* A person who is (1) serving on active duty or inactive duty training, or (2) a member of a Reserve component while serving in his or her military capacity, but not those members or former members who are receiving retired or retainer pay.

(f) *Military Installations.* For the purpose of this Part the term "military installation" includes installations, facilities, ships, aircraft and other property controlled by the Department of Defense.

(g) *Negotiation or Collective Bargaining.* A process whereby a commander or supervisor acting on behalf of the United States engages in discussions with a member or members of the Armed Forces (purporting to represent other such members), or with an individual, group, organization, or association purporting

to represent such members, for the purpose of resolving bilaterally terms or conditions of military service.

(h) *Solicit.* To use words or any other means to request, urge, advise, counsel, tempt, or command another to commit any act prohibited by this part.

(i) *Supervisor.* Any member of the Armed Forces or Department of Defense civilian employee responsible for directing subordinate members of the Armed Forces in the performance of their duties.

(j) *Terms or conditions of military service* means terms or conditions of military compensation or duty including but not limited to wages, rates of pay, duty hours, assignments, grievances, or disputes.

§ 143.8 Guidelines.

(a) The prohibitions in this Part will require that certain factual determinations be made by the Heads of the DOD Components (in the case of the Military Departments by the Secretaries of the Military Departments in consultation with their respective Chiefs of Staff) on the basis of particular facts that exist at particular installations. The guidelines for making these determinations are as follows:

(1) In making the determination that a person or an organization poses a clear danger to the discipline, loyalty or obedience of lawful orders because such person or organization engages in, solicits, or aids and abets any act prohibited in this Part (or in the statutory provisions identified in § 143.4(d)), the history and operations of the organization including the constitution and bylaws, if any, or person in question may be evaluated along with evidence with respect to the conduct constituting a prohibited act. In addition, there must be sufficient evidence to support a conclusion that the person or organization is substantially likely to engage in a prohibited act.

(i) In determining whether commission of a prohibited act by individual members can be imputed to the organization, examples of factors which should be considered include: the frequency of such act; the position in the organization of persons committing such act; whether the commission of such act was known by the leadership of the organization; whether the commission of such act was condemned or disavowed by the leadership of the organization.

(ii) Once it is determined by the Head of the DOD Component that an organization engages in any prohibited act, and is likely to do so in the future, the Head of the DOD Component may instruct affected installations to post conspicuously notices which clearly state that:

(A) Such organization poses a clear danger to discipline, loyalty, or obedience to lawful orders, and

(B) Knowing, active membership in any such organization by a member of the Armed Forces with intent to promote such prohibited conduct is not permitted.

(2) In making the decision that a member of the Armed Forces is an "ac-

tive" member of the organization in question, membership must be more than merely nominal or passive. Normally, a person can be considered an active member if he engages in certain kinds of conduct for the organization. This conduct includes solicitation or collection of dues, membership recruitment, distribution of literature, service as an officer of the organization, or frequent attendance at meetings or activities of the organization.

(3) In deciding that a member of the Armed Forces knows about the prohibited conduct engaged in by the organization, such knowledge may be inferred if the clear notice specified above has been posted conspicuously.

(b) Any information about persons and organizations not affiliated with the Department of Defense needed to make the determinations required by this Part shall be gathered in strict compliance with the provisions of DOD Directive 5200.27,¹ and in any event, shall not be acquired by counterintelligence or security investigative personnel. The organization itself will be considered a primary source of information.

MAURICE W. ROCHE,
Director, Correspondence and
Directives, Office of the As-
sistant Secretary of Defense
(Comptroller).

Title 32A—National Defense, Appendix
CHAPTER XV—FEDERAL RESERVE
SYSTEM

[Docket No. R-0119]

PART 1505—LOAN GUARANTEES FOR
DEFENSE PRODUCTION (REG. V)

Change of Guaranteeing Agency

AGENCY: Board of Governors of the
Federal Reserve System.

ACTION: Final rule.

SUMMARY: Regulation V is being amended to reflect that the Department of Energy now possesses the authority formerly held by the Energy Research and Development Administration to guarantee V-loans.

EFFECTIVE DATE: This amendment is effective October 1, 1977.

FOR FURTHER INFORMATION CON-
TACT:

Ralph C. Maurer, Credit Specialist,
Division of Federal Reserve Bank Op-
erations, Board of Governors of the
Federal Reserve System, Washington,
D.C. 20551 (202-452-3174).

SUPPLEMENTARY INFORMATION:
Effective October 1, 1977, the functions

¹ Filed as part of original. Single copies may be obtained, if needed, from U.S. Naval Publications and Forms Center, 5801 Tabor Avenue, Philadelphia, PA 19120, Attention: Code 301.

vested by law in the Energy Research and Development Administration will be transferred to and vested in the Department of Energy. The purpose of this amendment is to reflect this transfer of functions by deleting the reference in Regulation V to the Energy Research and Development Administration as an agency authorized to guarantee V-loans and by substituting the Department of Energy as an agency authorized to guarantee V-loans. This action is taken pursuant to the Board's authority under the Defense Production Act of 1950 and Executive Order No. 10480 of August 14, 1953, as amended.

The change made by this amendment is a technical one designed to conform Regulation V with existing statutory authority. Therefore, the Board for good cause finds that the procedures prescribed by the provisions of § 553 of Title 5 United States Code, relating to notice, public procedure, and deferred effective date are unnecessary and would serve no useful purpose.

Effective October 1, 1977, § 1 of Regulation V (Loan Guarantees for Defense Production) of the Board of Governors is amended by deleting "Energy Research and Development Administration" and substituting "the Department of Energy" after "the Department of Agriculture".

By order of the Board of Governors,
October 5, 1977.

THEODORE E. ALLISON,
Secretary of the Board.

Title 38—Pensions, Bonuses, and
Veterans' Relief

CHAPTER I—VETERANS
ADMINISTRATION

PART 17—MEDICAL

Authority to Furnish Emergency
Hospitalization

AGENCY: Veterans Administration.

ACTION: Final regulation.

SUMMARY: This amendment provides that in the case of an emergency that existed at the time of admission to a non-Veterans Administration hospital an authorization may be deemed a prior authorization if an application is dispatched to the Veterans Administration for veterans in a noncontiguous State, territory or possession of the United States (not including Puerto Rico) within 72 hours after communication facilities become available for dispatch of such application. This amendment provides authority to extend the time limitation for filing of an application. This time limitation is extended because appropriate communication facilities are not always available outside the 48 contiguous States, territories or possessions of the United States (not including Puerto Rico).

EFFECTIVE DATE: October 6, 1977.

FOR FURTHER INFORMATION CON-
TACT:

Joseph L. Erwin, Chief, Policies and Procedures, Medical Administration Service, Department of Medicine and Surgery, Veterans Administration, Washington, D.C. 20420 (202-389-3785).

SUPPLEMENTARY INFORMATION: At the present time, an authorization for hospital care at Veterans Administration expense may be deemed a prior authorization if the application for such care is dispatched within 72 hours of the hour and date of admission to the hospital. Appropriate communication facilities (telephone, telegraph, mail or other types of communication) are not always immediately available at points in a noncontiguous State, territory or possession of the United States (not including Puerto Rico). In the case of an emergency that existed at the time of admission, an authorization may be deemed a prior authorization if the application is dispatched to the Veterans Administration within 72 hours after such communications first became available to the applicant and/or his or her representative.

Interested persons were given 30 days in which to submit comments, suggestions, or objections regarding the proposed regulation. No written comments have been received and the proposed regulation is hereby adopted without change and is set forth below.

NOTE:—The Veterans Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 as amended by Executive Order 11949 and OMB Circular A-107.

Approved: October 6, 1977.

By direction of the Administrator.

RUFUS H. WILSON,
Deputy Administrator.

Section 17.50d is revised to read as follows:

§ 17.50d Necessity for prior authorization.

(a) The admission of a veteran to a non-Veterans Administration hospital at Veterans Administration expense must be authorized in advance. In the case of an emergency which existed at the time of admission, an authorization may be deemed a prior authorization if an application, whether formal or informal, by telephone, telegraph or other communication, made by the veteran or by others in his or her behalf is dispatched to the Veterans Administration (1) For veterans in the 48 contiguous States and Puerto Rico, within 72 hours after the hour of admission, including in the computation of time Saturday, Sunday and holidays, or (2) For veterans in a noncontiguous State, territory or possession of the United States (not including Puerto Rico) if facilities for dispatch of application as described in this section are not available within the 72-hour period, provided the application was filed within 72 hours after facilities became available.

(b) When an application for admission by a veteran in one of the 48 con-

RULES AND REGULATIONS

tiguous States in the United States or in Puerto Rico has been made more than 72 hours after admission, or more than 72 hours after facilities are available in a noncontiguous State, territory or possession of the United States, authorization for continued care at Veterans Administration expense shall be effective as of the postmark or dispatch date of the application, or the date of any telephone call constituting an informal application.

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[10th Rev. S.O. 1234]

PART 1033—CAR SERVICE

Distribution of Freight Cars

AGENCY: Interstate Commerce Commission.

ACTION: Emergency order (Tenth Revised Service Order No. 1234).

SUMMARY: Tariff provisions often require the use of cars having high weight carrying or cubic capacity. Many carriers have shortages of these high capacity cars but have ample supplies of similar cars of lesser capacity. Service Order No. 1234 authorizes railroads, with the consent of the shipper, to substitute sufficient smaller cars for larger cars ordered to transport specified kinds of freight subject to the minimum quantity per shipment required by the applicable tariffs.

DATES: Effective 12:01 a.m., October 10, 1977. Expires 11:59 p.m., March 31, 1978.

FOR FURTHER INFORMATION CONTACT:

C. C. Robinson, Chief, Utilization and Distribution Branch, Interstate Commerce Commission, Washington, D.C. 20423, telephone 202-275-7840, telex 89-2742.

SUPPLEMENTARY INFORMATION: The order is printed in full below.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 7th day of October 1977.

There is an acute shortage of high capacity freight cars for transporting shipments of beet pellets, citrus pulp, citrus pellets, clay, fertilizer, phosphate (dried or ground, treated or untreated), fish meal, grain, grain products, salt, soybeans, soybean products, cottonseed hulls, peanut hulls, soybean hulls or sunflower seeds caused by certain tariff provisions specifying the minimum quantities that must be loaded into cars offered to the carriers for transport. At the same time smaller cars, suitable except as to capacity, are available for transporting these products. The inability of the carriers and shippers to utilize the smaller capacity cars in place of the larger cars required by tariff provisions is resulting in great economic loss to both shippers and carriers. In the opinion of the Commission, an emergency exists requiring immediate action to modify existing rules, regulations and practices with respect to car service to secure maximum utilization of the available supply of freight cars and to alleviate shortages of cars. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 1033.1234 Tenth Revised Service Order No. 1234.

(a) *Distribution of freight cars.* Subject to the concurrence of the shipper, carriers may substitute a sufficient number of smaller cars for larger cars ordered to transport shipments of beet pellets, citrus pulp, citrus pellets, clay, fertilizer, phosphate (dried or ground, treated or untreated), fish meal, grain, grain products, salt, soybeans, soybean products, cottonseed hulls, peanut hulls,

soybean hulls or sunflower seeds regardless of tariff requirements specifying minimum cubic or weight carrying capacity. (See paragraphs (b) and (c) of this section.)

(b) *Exception.* This order shall not apply to shipments subject to tariff provisions requiring the use of twenty-five or more cars per shipment.

(c) *Exception.* This order shall not apply to shipments subject to tariff provisions which require that cars be furnished by the shipper.

(d) *Rates and minimum weights applicable.* The rates to be applied and the minimum weights applicable to shipments for which cars smaller than those ordered have been furnished and loaded as authorized by paragraph (a) of this order shall be the rates and minimum weights applicable to the larger cars ordered.

(e) *Billing to be endorsed.* The carrier substituting smaller cars for larger cars as authorized by paragraph (a) of this order shall place the following endorsement on the bill of lading and on the waybills authorizing movement of the car:

Car of (....) cu. ft. and of (....) lbs. or greater capacity ordered. Smaller cars furnished authority Tenth Revised ICC Service Order No. 1234.

(f) *Concurrence of shipper required.* Smaller cars shall not be furnished in lieu of cars of greater capacity without the consent of the shipper.

(g) *Exceptions.* Exceptions to this order may be authorized to railroads by the Railroad Service Board, Washington, D.C. 20423. Requests for such exception must be submitted in writing, or confirmed in writing, and must clearly state the points at which such exceptions are requested and the reason therefor.

(h) *Rules and regulations suspended.* The operation of all rules, regulations, or tariff provisions is suspended insofar as they conflict with the provisions of this order.

(i) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign commerce.

(j) *Effective date.* This order shall become effective at 12:01 a.m., October 11, 1977.

(k) *Expiration date.* This order shall expire at 11:59 p.m., March 31, 1978, unless otherwise modified, changed, or suspended by order of this Commission.

(49 U.S.C. 1 (12), (15), (16), 17(2).)

It is further ordered, That copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by

¹ Addition.

RULES AND REGULATIONS

filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board, members Joel E. Burns, Robert S. Turkington and John R. Michael. Member John R. Michael not participating.

H. G. HOMME, JR.,
Acting Secretary.

[7035-01]

[Corrected S.O. 1278]

PART 1033—CAR SERVICE

Distribution of Freight Cars

AGENCY: Interstate Commerce Commission.

ACTION: Emergency order (Corrected Service Order No. 1278).

SUMMARY: There is a shortage of 180,000 lbs. capacity hopper cars for shipments of phosphate rock from Garrison, Montana, to Kimberly, British Columbia. The Burlington Northern Inc., the originating carrier, has secured a supply of smaller cars (140,000 lbs. capacity) which are suitable, except for capacity for transporting this traffic. Service Order No. 1278 authorizes the Burlington Northern to substitute these smaller cars for the larger cars normally required because of tariff minimum weights of 180,000 lbs. per car. The rates applicable to the larger cars ordered are to be applied to the smaller cars loaded provided the cars are loaded to capacity.

DATES: Effective 12:01 a.m., September 30, 1977. Expires 11:59 p.m., November 30, 1977.

FOR FURTHER INFORMATION CONTACT:

C. C. Robinson, Chief, Utilization and Distribution Branch, Interstate Commerce Commission, Washington, D.C. 20423, telephone 202-275-7840, telex 89-2742.

SUPPLEMENTARY INFORMATION: The order is printed in full below.

At a Session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 30th day of September 1977.

There is a regular movement of phosphate rock in bulk from Garrison (Phosphate Spur), Montana, to Kimberly, British Columbia, Canada, originating on the Burlington Northern Inc. (BN) and routed BN-Sand Point-Spokane International-Kingsgate-CP Rail. These shipments are subject to tariff minimum weights of 180,000 lbs. per car. Because of heavy demands by various shippers, there is an acute shortage on the BN of open hopper cars capable of transporting shipments of these weights resulting in costly delays to the shipper and consignee because of interruptions in the regular flow of this traffic. The BN has secured an adequate supply of cars of 70-tons and greater capacity but less

than 90-tons capacity and is willing to transport this traffic in fully loaded cars of at least 70-ton capacity at the rates normally subject to the higher minimum weights specified in the applicable tariffs. Use of these smaller cars in place of 90-ton cars will alleviate the economic loss to shippers caused by the inability of the BN to supply sufficient high capacity cars and will provide the BN with additional hopper cars to meet the requirements of its shippers.

In the opinion of the Commission, present regulations and practices with respect to the use and supply of hopper cars are ineffective to overcome these shortages of hopper cars and an emergency exists requiring immediate action. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 1033.1278 Corrected Service Order No. 1278.

(a) *Distribution of freight cars.* Subject to the concurrence of the shipper, the Burlington Northern Inc. (BN), may substitute open hopper cars listed in the Official Railway Equipment Register, ICC-RER No. 404, issued by W. J. Trezise, or successive issues thereof, as having mechanical designation Class "H" and capacity of 140,000 lbs. or greater but less than 180,000 lbs. for open hoppers, Class "H" capacity 180,000 lbs. or greater ordered for transporting shipments of phosphate rock from Garrison (Phosphate Spur), Montana, to Kimberly, British Columbia, Canada, and routed BN-Sand Point-Spokane International-Kingsgate-CP Rail subject to the conditions prescribed in paragraphs (b), (c), (d) and (e) of this order.

(b) *Exception.* This order shall not apply to shipments subject to tariff provisions which require that cars be furnished by the shipper.

(c) *Rates and minimum weights applicable.* The rates to be applied shall be those applicable to the size car ordered provided cars are loaded to the lesser of full visible or marked capacity.

(d) *Billing to be endorsed.* The carrier substituting smaller cars for larger cars as authorized by paragraph (a) of this order shall place the following endorsement on the bill of lading and on the waybills authorizing movement of the car:

Car of (....) lb. capacity ordered. Smaller cars furnished authority ICC Service Order No. 1278.

(e) *Concurrence of Shipper Required.* Smaller cars shall not be furnished in lieu of cars of greater capacity without the consent of the shipper.

(f) *Exceptions.* Exceptions to this order may be authorized to railroads by the Railroad Service Board, Washington, D.C., 20423. Requests for such exception

¹ Correction of route.

¹ Correction of route.

RULES AND REGULATIONS

must be submitted in writing, or confirmed in writing, and must clearly state the points at which such exceptions are requested and the reason therefor.

(g) *Rules and regulations suspended.* The operation of all rules, regulations, or tariff provisions is suspended insofar as they conflict with the provisions of this order and insofar as they apply within the United States of America.

(h) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign commerce.

(i) *Effective date.* This order shall become effective at 12:01 a.m., September 30, 1977.

(j) *Expiration date.* This order shall expire at 11:59 p.m., November 30, 1977, unless otherwise modified, changed, or suspended by order of this Commission.

(49 U.S.C. 1(12), (15), (16), 17(2).)

It is further ordered, That copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board, members Joel E. Burns, Robert S. Turkington and John R. Michael.

H. G. HOMME, Jr.,
Acting Secretary.

[S.O. 1281]

PART 1033—CAR SERVICE

Distribution of Freight Cars

AGENCY: Interstate Commerce Commission.

ACTION: Emergency order (Service Order No. 1281)

SUMMARY: Because of a shortage of 90-ton hopper cars, the Delaware and Hudson Railway is authorized to furnish two 70-ton hopper cars for each 90-ton car ordered for shipments of iron ore tailings from North Creek, New York to Contrecoeur (Montreal), Quebec.

DATES: Effective 12:01 a.m., October 10, 1977. Expires 11:59 p.m., November 30, 1977.

FOR FURTHER INFORMATION CONTACT:

C. C. Robinson, Chief, Utilization and Distribution Branch, Interstate Commerce Commission, Washington, D.C. 20423, Telephone 202-275-7840, Telex 89-2742.

SUPPLEMENTARY INFORMATION: The Order is printed in full below.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 7th day of October 1977.

There is a movement of iron ore tailings from North Creek, New York, to Contrecoeur (Montreal), Quebec, Canada, for further movement via water on the St. Lawrence River, and routed via the Delaware and Hudson Railway Company (DH) thence Canadian National Railways. These shipments must be completed before the close of navigation on the river because of freezing. These shipments are subject to tariff minimum weights of 180,000 lbs. per car. Because of heavy demands by various shippers, there is an acute shortage on the DH of open hopper cars capable of transporting shipments of these weights resulting in costly delays to the shipper and consignee because of interruptions in the regular flow of this traffic. The DH has secured an adequate supply of cars of 70-tons and greater capacity but less than 90-tons capacity and is willing to transport this traffic in fully loaded cars of at least 70-ton capacity at the rates normally subject to the higher minimum weights specified in the applicable tariffs. Use of these smaller cars in place of 90-ton cars will alleviate the economic loss to shippers caused by the inability of the DH to supply sufficient high capacity cars and will provide the DH with additional hopper cars to meet the requirements of its shippers.

In the opinion of the Commission, present regulations and practices with respect to the use and supply of hopper cars are ineffective to overcome these shortages of hopper cars and an emergency exists requiring immediate action. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 1033.1281 Service Order No. 1281.

(a) *Distribution of freight cars.* Subject to the concurrence of the shipper, the Delaware and Hudson Railway Company (DH), may substitute open hopper cars listed in the Official Railway Equipment Register, ICC-RER No. 404, issued by W. J. Trezise, or successive issues thereof, as having mechanical designation Class "H" and capacity of 140,000 lbs. or greater but less than 180,000 lbs. for open hoppers, Class "H" capacity 180,000 lbs. or greater ordered for transporting shipments of iron ore tailings from North Creek, New York to Contrecoeur (Montreal), Quebec, Canada, for further movement via water, and routed via DH-Canadian National Railways subject to the conditions prescribed in paragraphs (b), (c), (d), and (e) of this order.

(b) *Exception.* This order shall not apply to shipments subject to tariff provisions which require that cars be furnished by the shipper.

(c) *Rates and minimum weights applicable.* The rates to be applied shall be

those applicable to the size car ordered provided cars are loaded to the lesser of full visible or marked capacity.

(d) *Billing to be Endorsed.* The carrier substituting smaller cars for larger cars as authorized by paragraph (a) of this order shall place the following endorsement on the bill of lading and on the waybills authorizing movement of the car:

Car of (....) lb. capacity ordered. Smaller cars furnished authority ICC Service Order No. 1281.

(e) *Concurrence of shipper required.* Smaller cars shall not be furnished in lieu of cars of greater capacity without the consent of the shipper.

(f) *Exceptions.* Exceptions to this order may be authorized to railroads by the Railroad Service Board, Washington, D.C., 20423. Requests for such exception must be submitted in writing, or confirmed in writing, and must clearly state the points at which such exceptions are requested and the reason therefor.

(g) *Rules and regulations suspended.* The operation of all rules, regulations, or tariff provisions is suspended insofar as they conflict with the provisions of this order and insofar as they apply within the United States of America.

(h) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign commerce.

(i) *Effective date.* This order shall become effective at 12:01 a.m. October 11, 1977.

(j) *Expiration date.* This order shall expire at 11:59 p.m., November 30, 1977, unless otherwise modified, changed, or suspended by order of this Commission.

(49 U.S.C. 1(12), (15), (16), 17(2).)

It is further ordered, That copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board, members Joel E. Burns, Robert S. Turkington and John R. Michael. Member John R. Michael not participating.

H. G. HOMME, Jr.,
Acting Secretary.

Title 50—Wildlife and Fisheries

CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Opening of Bear River Migratory Bird Refuge, Utah, to Hunting of Upland Game

AGENCY: Fish and Wildlife Service, Interior.

RULES AND REGULATIONS

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening to hunting of the Bear River Migratory Bird Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreation opportunity to the public.

DATES: November 5, 1977 through December 4, 1977.

FOR FURTHER INFORMATION CONTACT:

Ned I. Peabody, P.O. Box 459, Brigham City, Utah 84302, Telephone 801-744-2488

SUPPLEMENTARY INFORMATION:

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

Public hunting of pheasants is permitted on the Bear River Migratory Bird Refuge, Utah, only on the area designated by signs as being open to hunting. This area comprising 9,495 acres, is delineated "Area A" on maps available at the refuge headquarters, Brigham City, Utah and from the office of the Area Manager, Fish and Wildlife Service, Federal Building, Salt Lake City, Utah 84138. Hunting shall be in accordance with all applicable State and Federal regulations subject to the following special regulations:

(1) *Steel Shot.* The exclusive use of steel shot is required on all days in Hunting Area "A". The possession of lead shot within a refuge hunting area is prohibited, and having lead shot in one's possession will be considered prima facie evidence that the person possessing such shot is engaged in hunting with same.

(2) *Roads.* No hunting is permitted from roadways or within 100 yards of any roadway.

(3) *Hunter Check Station.* Each hunter who enters Area "A" is required to register at the checking station and check out before leaving the refuge.

(4) *Parking.* Hunters may park cars only at designated areas within the refuge.

(5) *Routes of Travel.* To reach open hunting areas, travel is permitted on foot or bicycle from refuge check station over roads between Units 1 and 2 and Units 2 and 3.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under

Executive Order 11949 and OMB Circular A-107.

Dated: October 3, 1977.

RODNEY F. KREY,
Acting Refuge Manager, Bear
River Migratory Bird Refuge,
Brigham City, Utah.

[4310-55]

PART 32—MIGRATORY GAME BIRD HUNTING

Opening of Browns Park National Wildlife Refuge, Colorado, to Migratory Game Bird Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening to migratory game bird hunting of Browns Park National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: Ducks, coots, mergansers—October 1 through October 14, 1977, inclusive, and November 5, 1977 through January 22, 1978, inclusive.

Geese—November 5, 1977, through December 11, 1977, inclusive.

FOR FURTHER INFORMATION CONTACT:

Refuge Manager, Browns Park National Wildlife Refuge, Greystone Route, Maybell, Colorado 81640, telephone: 365-3695.

SUPPLEMENTARY INFORMATION:

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

Migratory game bird hunting is permitted on the Browns Park National Wildlife Refuge, Colorado, only on the areas designated by signs as being open to hunting. These areas, comprising 1,775 acres, are delineated on maps available at the refuge headquarters and from the office of the Regional Director, U.S. Fish and Wildlife Service, 10597 West 6th Avenue, P.O. Box 25486, Denver, Colo. 80215. Migratory game bird hunting shall be in accordance with all applicable State regulations subject to the following conditions:

(1) *Vehicle travel within the refuge* will be restricted to designated routes and parking areas.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50 Code of Federal Regulations, Part 33. The

public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

JAMES A. CREASY,
Refuge Manager, Browns Park
National Wildlife Refuge,
Maybell, Colo.

[4310-55]

PART 32—HUNTING

Opening of Horicon National Wildlife Refuge, Wisconsin, to Deer Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening to deer hunting of Horicon National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: November 19, 1977 through November 27, 1977.

FOR FURTHER INFORMATION CONTACT:

Refuge Manager, Horicon National Wildlife Refuge, R.R. No. 2, Mayville, Wis. 53050, area code 414-387-2658.

SUPPLEMENTARY INFORMATION:

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

The public hunting of deer is permitted on the Horicon National Wildlife Refuge, Wisconsin, with designated firearms only, and only on the area designated by signs as being open to hunting. This area, comprising 20,000 acres, is delineated on maps available at the refuge headquarters and from the office of the Regional Director, U.S. Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minn. 55111. Deer hunting shall be in accordance with all applicable State regulations.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50 Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under

RULES AND REGULATIONS

Executive Order 11949 and OMB Circular A-107.

Dated: October 3, 1977.

JOHN E. TOLL,
Refuge Manager.

[FR Doc.77-30007 Filed 10-13-77;8:45 am]

[4310-55]

PART 32—HUNTING

Opening of Muscatatuck National Wildlife Refuge, Indiana, to Upland Game Hunting
AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening to upland game hunting of Muscatatuck National Wildlife Refuge to rabbit and quail hunting is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: November 11, 1977 through January 31, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles E. Scheffe, Refuge Manager, Muscatatuck National Wildlife Refuge, P.O. Box 631, Seymour, Ind. 47274, telephone 812-522-4352.

SUPPLEMENTARY INFORMATION:
§ Special regulations; upland game; for individual wildlife refuge areas.

Public hunting of rabbit and quail is permitted on the Muscatatuck National Wildlife Refuge, Indiana only on refuge lands lying south of Myers road, designated by signs as open to hunting. This area comprising 1,320 acres is delineated on a map available at the refuge headquarters and from the office of the Regional Director, United States Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111. Hunting of rabbits and quail shall be in accordance with all applicable State regulations.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50 Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: October 5, 1977.

CHARLES A. HUGHLETT,
Acting Regional Director.

[RF Doc.77-30008 Filed 10-13-77;8:45 am]

[4310-55]

PART 32—HUNTING

Opening of Oxbow National Wildlife Refuge, Massachusetts

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: This rule adds Oxbow National Wildlife Refuge to the lists of refuge areas open for the hunting of migratory game birds, upland game and big game. The Director has determined that this action is compatible with the major purposes for which this refuge was established, with the principles of sound wildlife management and is in the public interest. Hunting, subject to annual special regulations, will provide additional public recreational opportunity.

EFFECTIVE DATE: October 14, 1977.

FOR FURTHER INFORMATION CONTACT:

Ralph H. Town, Division of National Wildlife Refuges, U.S. Fish and Wildlife Service, Washington, D.C. 20240, telephone 202-343-4305.

SUPPLEMENTARY INFORMATION: Ralph H. Town is also the principal author of this final rule. On August 26, 1977, there was published (42 FR 43108) a notice of proposed rulemaking adding Oxbow National Wildlife Refuge, Massachusetts, to the list of refuge areas which are open for the hunting of migratory game birds, upland game and big game. As a general rule, most areas within the National Wildlife Refuge System are closed to hunting until officially opened by regulation.

The public was provided a 30-day comment period and was advised that an environmental assessment has been prepared on the proposal and was available for public inspection. One favorable comment was received on the proposed rulemaking.

Because of the time limitations involved to coordinate the State and Federal hunting regulations for the cooperative hunting program, and the rapid approach of the hunting seasons, the U.S. Fish and Wildlife Service has concluded that "good cause" exists within the meaning of section 553(d)(3) of the Administrative Procedure Act to expedite the implementation of this rulemaking. It was necessary to wait until the State established its 1977 hunting regulations before initiating the rulemaking process. Therefore this rulemaking will become effective October 14, 1977.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Accordingly, 50 CFR Part 32 is amended by the addition of Oxbow National Wildlife Refuge as follows:

§ 32.11 List of open areas; migratory game birds.

MASSACHUSETTS

Oxbow National Wildlife Refuge

§ 32.21 List of open areas; upland game.

MASSACHUSETTS

Oxbow National Wildlife Refuge

§ 32.31 List of open areas; big game.

MASSACHUSETTS

Oxbow National Wildlife Refuge

Dated: October 4, 1977.

ROBERT S. COOK,
Acting Director, United
States Fish and Wildlife Service.
[FR Doc.77-30009 Filed 10-13-77;8:45 am]

[4310-55]

PART 32—HUNTING

Opening of Certain National Wildlife Refuges to Hunting of Migratory Game Birds; Arizona, California, New Mexico, Oklahoma, Texas

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulations.

SUMMARY: The Director has determined that the opening to hunting of certain national wildlife refuges in Arizona, California, New Mexico, Oklahoma and Texas, is compatible with the objectives for which the areas were established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public. The name of each affected refuge and the special regulations for each refuge are set forth below.

EFFECTIVE DATES: See the dates listed for each refuge under Supplementary Information below.

FOR FURTHER INFORMATION CONTACT:

Refuge Manager, as listed for each refuge under Supplementary Information below.

SUPPLEMENTARY INFORMATION:
CIBOLA NATIONAL WILDLIFE REFUGE

DATES: October 1, 1977 through January 22, 1978.

FOR FURTHER INFORMATION CONTACT:

George M. Constantino, Refuge Manager, Cibola National Wildlife Refuge, Box AP, Blythe, Calif. 92225, telephone 714-922-4433.

§ 32.10 Special regulations; migratory game birds; for individual wildlife refuge areas.

Public hunting of ducks, geese, coots and gallinules on the Cibola National

Wildlife Refuge, Arizona and California, is permitted as follows: Ducks, coots and gallinules, from October 1 through November 13, 1977, and from December 5, 1977 through January 22, 1978; geese, from October 1 through November 13, 1977, and from December 5, 1977 through January 1, 1978; but only on the areas designated by signs as open to hunting. These open areas, comprising 8,900 acres, are delineated on maps available at refuge headquarters, Federal Building, Blythe, and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, N. Mex. 87103. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of ducks, geese, coots and gallinules subject to the following special conditions:

1. Up to 2 dogs per hunter may be used for the purpose of hunting and retrieving.

2. Pits or permanent blinds are prohibited.

3. Hunting is prohibited within one-fourth mile of any occupied dwelling or 250 yards of any farm field worker.

4. Open campfires are permitted only on the end of unvegetated jetties. Charcoal cooking fires in grills or other similar equipment are permitted in public use areas if all vegetation is cleared within a 10-foot radius of the fire. All fires must be extinguished before leaving the area.

5. Hunters may not enter closed zones to retrieve game.

6. Possession of all handguns and all .22 caliber rim-fire firearms on the refuge is prohibited.

HAVASU NATIONAL WILDLIFE REFUGE

DATES: October 1, 1977 through January 22, 1978.

FOR FURTHER INFORMATION CONTACT:

Tyrus W. Berry, Refuge Manager, Havasu National Wildlife Refuge, P.O. Box AP, Needles, Calif. 92363, telephone 714-326-3853.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

Public hunting of ducks, geese, coots, gallinules and Wilson's snipe on the Havasu National Wildlife Refuge, Arizona and California, is permitted as follows: Ducks, coots and gallinules, from October 1 through November 13, 1977, and from December 5, 1977 through January 22, 1978; geese, from October 1 through November 13, 1977, and from December 5, 1977 through January 1, 1978; but only on the areas designated by signs as open to hunting. These open areas, comprising 13,200 acres, are delineated on maps available at refuge headquarters, 1406 Bailey Avenue, Needles, and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, N. Mex. 87103. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of ducks, geese, coots and

RULES AND REGULATIONS

of ducks, geese, coots, gallinules, and Wilson's snipe subject to the following special conditions:

1. Hunting on Pintail Slough Management Unit will be permitted only on Saturdays, Sundays, and Wednesdays. This Unit includes all refuge land north of the north dike.

2. An iron shot study program to evaluate field use of iron shot shells will be conducted by the U.S. Fish and Wildlife Service on Havasu National Wildlife Refuge.

3. Topock Marsh is the designated area for the iron shot hunt. The hunt area includes the Pintail Slough Management Unit and all marsh lands open to hunting north of the south dike.

4. The iron shot hunt will continue through the waterfowl season.

5. Use of lead shot shells for waterfowl hunting is prohibited in the Topock Marsh iron shot hunt area.

6. Hunters must use a 12-gauge shotgun while hunting in the iron shot hunt area, as iron shot shells are available only in 12 gauge.

7. All hunters may be required to fill out a post-hunt questionnaire at the end of each hunt. Questionnaires will be available at each of the hunt area entry points.

8. Hunters are required to enter the hunt areas by way of designated parking areas only.

9. Up to 2 dogs may be used in the hunt area for the purpose of hunting and retrieving.

10. The construction or use of pits or permanent blinds is prohibited.

11. Hunting is prohibited within one-fourth mile of any occupied dwelling or concession operation.

IMPERIAL NATIONAL WILDLIFE REFUGE

DATES: October 1, 1977 through January 22, 1978.

FOR FURTHER INFORMATION CONTACT:

Gerald E. Duncan, Refuge Manager, Imperial National Wildlife Refuge, P.O. Box 2217, Martinez Lake, Ariz. 85364, telephone 602-783-3400.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

Public hunting of ducks, geese, coots and gallinules on the Imperial National Wildlife Refuge, Arizona and California, is permitted as follows: Ducks, coots and gallinules, from October 1 through November 13, 1977, and from December 5, 1977 through January 22, 1978; geese, from October 1 through November 13, 1977, and from December 5, 1977 through January 1, 1978; but only on the area designated by signs as open to hunting. This open area, comprising 16,500 acres, is delineated on maps available at refuge headquarters, near Meers Point, Ariz., and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, N. Mex. 87103. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of ducks, geese, coots and

gallinules subject to the following special condition:

1. The construction or use of permanent blinds or pits is prohibited.

BITTER LAKE NATIONAL WILDLIFE REFUGE

DATES: October 22, 1977 through January 29, 1978.

FOR FURTHER INFORMATION CONTACT:

LeMoyné B. Marlatt, Refuge Manager, Bitter Lake National Wildlife Refuge, Box 7, Roswell, N. Mex. 88201. Telephone 505-622-6755.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

Public hunting of ducks, geese, coots, Wilson's snipe and lesser sandhill cranes on the Bitter Lake National Wildlife Refuge is permitted as follows: Ducks, coots and snipe, from November 1, 1977 through January 22, 1978; geese, from October 22, 1977 through January 22, 1978; lesser sandhill cranes, from October 29, 1977 through January 29, 1978; but only on the areas designated by signs as open to hunting. These areas consist of 1,600 acres on the North Refuge Unit (Area B) and 1,800 acres on the South Refuge Unit (Area C). Hunting areas are delineated on maps available at refuge headquarters, 13 miles northeast of Roswell, and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, N. Mex. 87103. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of ducks, geese, coots, snipe and lesser sandhill cranes subject to the following special condition:

1. Steel (iron) shot shotgun ammunition only may be used for the taking of ducks, geese, coots, snipe and lesser sandhill cranes on the South Refuge Unit (Area C) during the duck season, which is from November 1, 1977 through January 22, 1978. Steel (iron) shot shotgun ammunition is available from two commercial outlets in Roswell, N. Mex.

BOSQUE DEL APACHE NATIONAL WILDLIFE REFUGE

DATES: November 19 through December 4, 1977.

FOR FURTHER INFORMATION CONTACT:

Richard W. Rigby, Refuge Manager, Bosque del Apache National Wildlife Refuge, P.O. Box 1246, Socorro, N. Mex. 87801. Telephone 505-835-1828.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

Public hunting only of snow, blue and Ross's geese on the Bosque del Apache National Wildlife Refuge is permitted from November 19 through December 14, 1977, but only on the area designated by signs as open to hunting. This open area (Units 9, 13 and 14), comprising 656 acres, is delineated on maps available at

RULES AND REGULATIONS

refuge headquarters, 5 miles south of San Antonio, N. Mex., and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, N. Mex. 87103. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of geese subject to the following special conditions:

1. An experimental program to evaluate field use of steel (iron) shot shells will be conducted this season by the U.S. Fish and Wildlife Service. Steel shot shells are available commercially only in 12 gauge.

2. Hunters are encouraged to obtain steel shot shells from commercial sources. The refuge will have a limited supply of steel shot shells for emergency purchase only. Hunters will be limited to the use of no more than 8 steel shot shells for each day's hunt. It will be illegal within the hunt area to possess any shells other than the 8 steel shot shells.

3. Hunters will be required to apply (by pre-season application) for hunting dates. Applications are available from the New Mexico Department of Game and Fish, Bosque del Apache National Wildlife Refuge, and the U.S. Fish and Wildlife Service's Regional Office, Albuquerque, N. Mex.

4. Hunters may apply as a party of 1, 2, or 3 persons. If the application is for a party of less than 3 persons, the vacancies may be filled from other applications or by a daily drawing. No substitutions for the original applicant will be allowed.

5. A hunter's name may appear on only one application each season. If an applicant's name appears on more than one application, all applications containing this name are void.

6. Applicants may indicate up to 4 choices of hunting days. The deadline for accepting applications will be 10 a.m., October 1, 1977.

7. All successful applicants and those wishing to participate on a stand-by basis will be required to attend a snow goose hunter training program, to be given by U.S. Fish and Wildlife Service personnel during October and early November in various locations throughout the state.

8. Blind spaces not filled by reservations resulting from applications may be filled by hunters on a stand-by basis.

9. Hunters selected to participate in each day's hunt will be assigned their blind by lot.

10. Hunting is permitted only from the assigned blind, with no more than 3 hunters per blind. Switching of blinds is prohibited.

11. Each hunter will pay a special hunter service recreation fee of \$3.00 on the day of the hunt. Holders of "Golden Age Passports" are entitled to a 50% discount on this \$3.00 fee.

12. The daily bag limit will be 4 of the permitted species, except that no more than one Ross's goose will be permitted in the daily bag.

13. Shooting hours will be from sunrise until 10 a.m.

14. Hunters will be permitted to use only snow geese decoys.

15. Hunters must check in through the middle refuge gate on N.M. Highway 1, 1½ miles south of the north refuge boundary, no later than 5 a.m. of the day they are to hunt and must check out through the hunter check station by 11 a.m. of that same day.

16. Dogs are prohibited.

SEVILleta NATIONAL WILDLIFE REFUGE
DATES: October 22, 1977 through January 22, 1978.

FOR FURTHER INFORMATION CONTACT:

Richard W. Rigby, Refuge Manager, Bosque del Apache National Wildlife Refuge, P.O. Box 1246, Socorro, N. Mex. 87801. Telephone 505-835-1828.

§ 32.12 Special regulations: migratory game birds; for individual wildlife refuge areas.

Public hunting of ducks, geese and coots on the Seville National Wildlife Refuge, San Acacia, N. Mex. is permitted as follows: Ducks and coots, from November 1, 1977 through January 22, 1978; geese of the dard species (Canadas and white-fronts), from November 1, 1977 through January 22, 1978; geese of the light variety (snows, blues and Ross's), from October 22, 1977 through January 22, 1978, but only on the area designated by signs as open to hunting. This open area, comprising 1,992 acres, are delineated on maps available at refuge headquarters of the Bosque del Apache National Wildlife Refuge, 5 miles south of San Antonio, N. Mex., and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, N. Mex. 87103. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of ducks, geese and coots subject to the following special conditions:

1. No camping will be permitted.

2. Vehicle entry and parking will be restricted to areas as posted and designated on hunt map.

3. Entry to the hunt area will be no earlier than 2 hours before sunrise.

4. All hunters must be out of the hunt area by one-half hour after shooting hours.

5. Up to 2 dogs per hunter may be used for the purpose of hunting and retrieving.

6. Hunters may not enter closed areas to retrieve birds.

7. Hunting during the general waterfowl season will be permitted on Tuesdays, Thursdays, and Sundays, from 30 minutes before sunrise until 1 p.m. local time.

8. Construction of temporary blinds is permitted. Pits and permanent blinds are prohibited.

SEQUOYAH NATIONAL WILDLIFE REFUGE

DATES: October 17, 1977 through January 22, 1978.

FOR FURTHER INFORMATION CONTACT:

Robert H. Stratton, Refuge Manager, Sequoyah National Wildlife Refuge, P.O. Box 398, Sallisaw, Okla. 74955. Telephone 918-775-4931.

§ 32.12 Special regulations: migratory game birds; for individual wildlife refuge areas.

Public hunting of ducks, geese, coots, snipe and woodcock on the Sequoyah National Wildlife Refuge is permitted on three areas designated by signs as open to hunting. These open areas, comprising 10,500 acres, are delineated on maps available at refuge headquarters, 412 N. Maple Street, Sallisaw, and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, N. Mex. 87103. Hunting seasons are as follows: Ducks and coots, from October 22 through November 13, 1977, and from December 3, 1977 through January 3, 1978. Geese (snows and blues), from October 17 through November 20, 1977, and from December 3, 1977 through January 22, 1978 (Canadas and white-fronts), from October 17 through November 20, 1977, and from December 3, 1977 through January 22, 1978. Woodcock, from November 20, 1977 through January 22, 1978. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of ducks, geese, coots, snipe and woodcock subject to the following special conditions:

1. Hunting weapons of any kind are prohibited in areas not posted as open to public hunting, except the Kerr-McClellan Navigation Channel where weapons must be cased or broken down.

2. Camping or possession of firearms on the refuge at night is prohibited.

TISHOMINGO NATIONAL WILDLIFE REFUGE

DATES: November 5, 1977 through January 8, 1978.

FOR FURTHER INFORMATION CONTACT:

Ernest S. Jemison, Refuge Manager, Tishomingo National Wildlife Refuge, P.O. Box 248, Tishomingo, Okla. 73460. Telephone 405-371-2402.

§ 32.12 Special regulations: migratory game birds; for individual wildlife refuge areas.

Public hunting of ducks, geese and coots on the Wildlife Management Unit of the Tishomingo National Wildlife Refuge is permitted but only on the area designated by signs as open to hunting. These open areas, comprising 3,170 acres, are delineated on maps available at refuge headquarters, 6 miles southeast of Tishomingo, and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, N. Mex. 87103. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of ducks, geese and coots subject to the following special conditions:

1. All waterfowl hunting on the Wildlife Management Unit of the Tishomingo National Wildlife Refuge during the 1977-78 waterfowl hunting season will be conducted as part of an experimental program to evaluate use of steel (iron) shot shells for waterfowl hunting. Steel (iron) shot shells are available in 12 gauge only; therefore, 12-gauge shotguns will be the only legal firearm permitted within the hunting areas. It will be illegal for waterfowl hunters to possess shot gun ammunition other than steel (iron) shot shells within the refuge waterfowl hunting areas during the waterfowl seasons, except shells furnished by the refuge for special experiments.

2. Ducks and coots may be hunted only in Management Unit Zones 1 and 2. Duck and coot hunting is restricted to the period of one-half hour before sunrise to 11:45 a.m. on Tuesdays, Thursdays, Saturdays, Sundays and national holidays, from November 5 through November 20, 1977, and from December 3, 1977 through January 3, 1978. Duck and coot hunting in Zone 2 will be restricted to hunters using retrieving dogs.

Eight duck blinds are provided in Zone 1, and hunters will be assigned to these blinds on a first-come-first-choice basis. Construction of temporary blinds is permitted in the "pothole" area of Zone 1. These blinds may be placed where desired after giving due consideration to safety and hunting opportunities of hunters already in the area. Blinds may not be constructed or used within 80 yards of a blind already in use.

3. Geese may be hunted in Zone 3 only. Goose hunting is restricted to the period of one-half hour before sunrise to 11:45 a.m. on Tuesdays, Thursdays, Saturdays, Sundays and national holidays, from November 5 through November 20, 1977, and from December 3, 1977 through January 8, 1978.

Thirty-five goose blinds are provided in Zone 3; all goose hunting must be from these blinds. Hunters must apply in writing to the Refuge Manager at the above address for blind reservations. Reservation requests for 5 dates may be submitted.

Hunt applications for specific dates will be processed in the order in which they are received at the refuge until available blind spaces are filled. Confirmations and rejections of applications will be made by mail if time permits.

Blind assignments to those whose applications have been accepted will be determined by a punchboard procedure just prior to each day's hunt.

Each hunter in Zone 3 will be limited to the possession of 6 shotgun shells.

4. The Management Unit will be closed to waterfowl hunting on November 15, 1977 for public safety due to a control deer hunt.

5. Hunters in Zones 1 and 3 must remain in blinds to which they have been assigned during the hunt except to place or adjust decoys and retrieve birds. Further, hunters may leave their blinds to pick up decoys and return to the check stations only at 9:30 a.m. and after 11:30 a.m.

6. All hunters in all Zones, upon entering or leaving the area, shall report at designated checking stations for the purpose of purchasing legal steel (iron) shot shells (locally available only through the refuge), blind assignment, and to furnish information on their hunting activities.

7. Sky-busting; i.e., firing at birds in excess of 45 yards from the hunter, is prohibited in all hunt Zones.

BRAZORIA NATIONAL WILDLIFE REFUGE

DATES: November 5, 1977 through January 22, 1978.

FOR FURTHER INFORMATION CONTACT:

Jim E. Neaville, Acting Refuge Manager, Brazoria National Wildlife Refuge, Box 1088, Angleton, Tex. 77515. Telephone (713-849-6062).

§ 32.12 Special regulations: migratory game birds; for individual wildlife refuge areas.

Public hunting of ducks, geese and coots on the Brazoria National Wildlife Refuge is permitted only on the area designated by signs as open to hunting. This open area, comprising 2,300 acres of Rattlesnake Island on the southeast side of the Intracoastal Waterway and adjacent to Bastrop, Christmas and Drum Bays, is delineated on maps available at refuge headquarters, 1014 N. Velasco Street, Angleton, and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, N. Mex. 87103. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of ducks, geese and coots subject to the following special conditions:

1. The open season for hunting ducks and coots on the refuge extends from November 5 through November 27, 1977, and from December 22, 1977 through January 22, 1978.

2. The open season for hunting snow geese on the refuge extends from November 5, 1977 through January 22, 1978; and for Canada and white-fronted geese, from November 5 through December 14, 1977, and from December 22, 1977 through January 22, 1978.

3. Access to the hunting area must be entirely over public water routes. Travel across the refuge mainland will not be permitted to and from the area open to hunting.

4. Only temporary blinds may be constructed or used on the hunting area. Natural materials may be used for blind construction.

LAGUNA ATASCOSA NATIONAL WILDLIFE REFUGE

DATES: Closed to migratory game bird hunting for the 1977-78 hunting season.

FOR FURTHER INFORMATION CONTACT:

Arthur R. Rauch, Acting Refuge Manager, Laguna Atascosa National Wildlife Refuge, P.O. Box 2683, Harlingen, Tex. 78550. Telephone (512-423-8328).

§ 32.12 Special regulations: migratory game birds; for individual wildlife refuge areas.

The hunting of migratory game birds on the Laguna Atascosa National Wildlife Refuge is suspended for the 1977-78 hunting season. It has been determined that the entire refuge area is required for resource protection, especially in that the redhead, a bird in short supply, is a major wintering species.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

PART 33—SPORT FISHING

Closing of Tishomingo National Wildlife Refuge, Oklahoma, to Sport Fishing

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the closing of specific parts of the Tishomingo National Wildlife is necessary to protect the waterfowl resource from disturbance on the loafing and roosting area.

DATES: October 1, 1977 through December 31, 1977.

FOR FURTHER INFORMATION CONTACT:

Ernest S. Jemison, Refuge Manager, Tishomingo National Wildlife Refuge, P.O. Box 248, Tishomingo, Okla. 73460. Telephone: 405-371-2402.

SUPPLEMENTARY INFORMATION:

§ 33.5 Special regulations, sport fishing; for individual wildlife refuge areas.

Sport fishing on the Washita Arm of Lake Texoma within the Tishomingo National Wildlife Refuge will be closed during the fall and winter waterfowl use period for the following reason:

Recent years have seen increasing siltation of the western portion of the Washita Arm of Lake Texoma (Cumberland Pool). The western portion of this body of water has been closed to sport fishing during the waterfowl and winter use periods for a number of years to give protection to the waterfowl resource. Accelerated siltation of this portion of the lake has made it less attractive

RULES AND REGULATIONS

conducted as part of an experimental program to evaluate use of steel (iron) shot shells for waterfowl hunting. Steel (iron) shot shells are available in 12 gauge only; therefore, 12-gauge shotguns will be the only legal firearm permitted within the hunting areas. It will be illegal for waterfowl hunters to possess shot gun ammunition other than steel (iron) shot shells within the refuge waterfowl hunting areas during the waterfowl seasons, except shells furnished by the refuge for special experiments.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

[3410-34]

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[9 CFR Part 3]

ANIMAL WELFARE

Proposed Revision of Standards for Transportation, Handling, Care, and Treatment in Connection Therewith, of Dogs, Cats, Rabbits, Hamsters, Guinea Pigs, Nonhuman Primates, and Certain Other Warmblooded Animals

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Proposed rule.

SUMMARY: This document proposes revisions of the transportation standards governing certain live warmblooded animals under the Animal Welfare Act published in the FEDERAL REGISTER on June 21, 1977 (42 FR 31556-31571). The revisions concern compliance with standards for primary enclosures used to transport certain animals in commerce by carriers and intermediate handlers, the use of certain primary enclosures to transport animals with ventilation openings on three walls, and the standards for the animal holding area of terminal facilities. These revisions of the transportation standards are proposed as a result of various petitions for reconsideration which were received by the Department after publication of the final transportation standards in the FEDERAL REGISTER on June 21, 1977, which made new facts and evidence available to the Department that appear to warrant such action.

DATE: Comments on or before October 31, 1977.

ADDRESSES: Comments to Deputy Administrator, USDA, APHIS, VS, Room 703, Federal Building, 6505 Belcrest Rd., Hyattsville, Md. 20782. Comments available for inspection at the above address during regular hours of business (8:00 a.m. to 4:30 p.m. Monday through Friday, except holidays) in a manner convenient to the public business (7 CFR 1.27(b)).

FOR FURTHER INFORMATION CONTACT:

Dr. Dale F. Schwindaman, Senior Staff Veterinarian, Animal Care Staff, Veterinary Services, Animal and Plant Health Inspection Service, United States Department of Agriculture, Room 703, Federal Building, 6505 Belcrest Rd., Hyattsville, Md. 20782, (301-436-8271).

SUPPLEMENTARY INFORMATION:

Present transportation standards (§§ 3.11, 3.112, 3.35, 3.36, 3.60, 3.61, 3.85, 3.86, 3.111 and 3.112) require that no carrier or intermediate handler accept for transportation or transport, in commerce, and that no dealer, research facility, exhibitor, or operator of an auction sale offer for transportation or transport, in commerce, any animal in a primary enclosure that does not conform to the requirements set forth in the standards. Section 14 of the Animal Welfare Act requires departments, agencies, and instrumentalities of the United States having laboratory animal facilities or exhibiting animals to comply with the standards promulgated under section 13 of the Act. In order for carriers and intermediate handlers to be sure that they are not violating the regulations and standards when they accept for transportation or transport any animal, they may have to open the primary enclosures containing all such animals in order to determine whether or not the primary enclosures meet the requirements of the standards for such animals. The Air Transport Association (ATA), which represents most of the major domestic airlines, and various airlines themselves, as well as the Pet Industry Joint Advisory Council (PIJAC), have filed petitions for reconsideration requesting that APHIS reconsider this requirement concerning carriers and intermediate handlers.

The air carriers believe that the obligation to affirm the adequacy of a shipping container or primary enclosure used for the transportation of live animals should be the responsibility of the consignor. The carriers' belief that the consignor should bear this responsibility is based on the carriers' alleged lack of personnel qualified to effect the inspection and verification procedures required for animal shipping containers. The carriers contend that serious disruption of the normal flow of passengers traveling with pet animals through airport facilities, as well as delayed processing of animal shipments which are not accompanied by an owner or consignor, will result from the required inspection of animal shipping containers. As the result of such delays in processing animals presented for transportation at airports, the animals will be required to spend additional time in their shipping containers. Such added time in transit subjects the transported animal to greater physical stress which lowers his resistance to various diseases.

The additional assurance of humane treatment to animals offered for transportation and transported by carriers

and intermediate handlers afforded by the actual inspection of primary enclosures, by such carriers and intermediate handlers as well as other persons and entities subject to the Act, prior to shipment does not appear to be warranted if it results in prolonging the time such animals are in transit or within their primary enclosures. Therefore, APHIS proposes to revise the transportation standards to allow carriers and intermediate handlers to accept for transportation and transport in commerce, any animal in a primary enclosure consigned by any licensed or registered dealer, research facility, exhibitor, operator of an auction sale or consigned by any department, agency, or instrumentality of the United States having laboratory animal facilities or exhibiting animals, if such person or department, agency or instrumentality of the United States certifies that the primary enclosure meets the requirements of the standards for such animal. However, carriers and intermediate handlers would still be responsible for inspecting and assuring that primary enclosures for all other animals accepted for transportation or transported, in commerce, meet the requirements of the standards. It is proposed that such certification of primary enclosures be limited to departments, agencies or instrumentalities of the United States and to licensed or registered dealers, research facilities, exhibitors and operators of auction sales for ease of identification of such persons or entities by carriers and intermediate handlers and to prevent carriers and intermediate handlers from having to determine if, in fact, a consignor of an animal does not meet the definition of a dealer, research facility, exhibitor, or operator of an auction sale.

The present standards (§§ 3.12, 3.36, 3.61, 3.86 and 3.112) require that primary enclosures used to transport animals shall be constructed in such a manner that there are ventilation openings located on two opposite walls of the primary enclosure and such ventilation openings on each such wall are at least 16 percent of the total surface area of each such wall or there are ventilation openings located on all four walls of the primary enclosure and such ventilation openings are at least 8 percent of the total surface area of each such wall. APHIS did not propose a standard of ventilation with respect to ventilation openings located on three sides of such a primary enclosure and when such proposal was published in the FEDERAL REGISTER for public

comment, no comments were received indicating that there was any need for such a standard. Therefore, APHIS did not promulgate and publish such a standard in the FEDERAL REGISTER. However, it has been pointed out by the petitioners that many of the primary enclosures presently used to transport dogs and cats, in commerce, which appear to provide adequate ventilation for the dog or cat contained therein have ventilation openings on three sides, and these enclosures do not meet the requirements of the standards.

Such primary enclosures have ventilation openings of approximately 10 percent of the surface area of each of two opposite walls and approximately 50 percent of a third wall. Information from petitioners indicates that approximately 700,000 of such primary enclosures with ventilation openings on three sides have been successfully used by consignors of animals to transport live dogs and cats in commerce. Information from such petitioners also indicates that after extensive use, no documented case or even a complaint of injury or death of a dog or cat occurred as the result of transporting such animals in such primary enclosures with ventilation openings on three walls. Therefore, APHIS is proposing to amend § 3.12 of the standards to allow the usage of primary enclosures for transporting live dogs and cats that have ventilation openings on two opposite walls that are at least 8 percent of the total surface area of each such wall and a ventilation opening on a third wall that is at least 50 percent of the total surface area of such third wall.

It has been noted by APHIS field personnel that some primary enclosures used to transport live animals in commerce are made of welded wire mesh and a solid bottom. In order to contain the bedding and excreta within the confines of such a primary enclosure, a partial wall extends part way up the sides of such primary enclosure. The present standards for providing ventilation in primary enclosures used to transport live animals requires that at least one-third of the total area providing ventilation for the primary enclosure shall be located on the lower one-half of the primary enclosure and at least one-third of the total area providing the ventilation for the primary enclosure shall be located on the upper one-half of the primary enclosure. Some persons have pointed out that such primary enclosure cannot meet the standards and contain excreta and bedding through the use of a partial wall on the lower one-half of such shipping container. Therefore, APHIS proposes that the standards be amended to provide that at least one-third of the total minimum area required for ventilation of the primary enclosure shall be located on the lower one-half of the primary enclosure and at least one-third of the total minimum area required for the ventilation of the primary enclosure shall be located on the upper one-half of the primary enclosure.

Present standards require that carriers designate an indoor animal holding

area within terminal facilities which shall not be used for general cargo, but may be located within the general cargo area. Petitioners point out that this requirement prohibits the utilization of such an indoor animal holding area for storage of other cargo when animals are not present. They also contend that in temperate climates it is unnecessarily restrictive to require that such an animal holding area be indoors as long as there is compliance with the other standards. Because space is limited in many airport cargo areas, it appears that a restriction of the number of animal shipments would occur if minimal space would be designated as an indoor animal holding area to efficiently utilize the premium priced cargo storage space. Such result would not be an improved situation for the animals in transit, but rather would add restrictions which hinder the expeditious handling of the animals. Limiting the number of animals which may be transported by air carriers could force the consignors of animal shipments to use slower surface transportation methods resulting in additional stress and trauma to the animals because of long periods of confinement in their primary enclosures used for transportation. It could also delay shipments en route because there would not be sufficient space in the animal holding area at a down-line terminal facility for such animals even though there would be sufficient space for such animals on the next available flight. Such delays are not in the best interest of the animals so shipped.

Therefore, APHIS proposes in lieu of the present standards that carriers and intermediate handlers shall maintain all animal shipments in the same animal holding area of a terminal facility at any one time and animal shipments shall not be commingled with inanimate cargo at any terminal facility.

APHIS is also proposing that present paragraph (b) of §§ 3.16, 3.40, 3.65, 3.90 and 3.116 of the standards concerning shelter from sunlight, rain or snow and cold when animals are moved from primary conveyances to terminal facilities and from terminal facilities to primary conveyances be placed under "Handling" in §§ 3.17, 3.41, 3.66, 3.91 and 3.117 of the standards respectively for clarity and association of related topics; and that such standards concerning shelter from sunlight, when sunlight is likely to cause overheating or discomfort, and shelter from rain or snow be made applicable to all animal holding areas as a basic requirement whether such areas are indoors or outdoors.

The present standards require animal holding areas in terminal facilities to be cleaned and sanitized in a manner prescribed in the standards often enough to prevent an accumulation of debris or excreta, minimize vermin infestation and to prevent a disease hazard. While cleaning and sanitizing the animal holding area will reduce its attraction of various vermin and places for them to live and breed, it will not effectively control all insects, ectoparasites, and avian and

mammalian pests. Therefore, to clarify what is considered a vermin infestation and to effectively control insects, ectoparasites and avian and mammalian pests in animal holding areas, APHIS is proposing to require that an effective program for the control of insects, ectoparasites, and avian and mammalian pests shall be established and maintained for all animal holding areas.

Present transportation standards require that the ambient temperature in any animal holding area at any terminal facility of any carrier or intermediate handler not be allowed to fall below a minimum of 7.2°C. (45°F.) nor be allowed to exceed 29.5°C. (85°F.) for more than 4 hours and never exceed a maximum of 35°C. (95°F.), except in the case of guinea pigs, hamsters, and rabbits which cannot tolerate such warm temperatures. However, a question has been raised as to whether these standards are more restrictive than necessary to assure the humane treatment of animals during the course of their transportation. APHIS's primary concern is the welfare of the animal and the ambient temperatures to which it is subjected. Writing the standards in relation to the temperature in the animal holding area and requiring that such temperature not exceed 29.5°C. (85°F.) for more than 4 hours achieved that purpose, but, in cases where the temperature could not be controlled, it meant that no animals could be accepted after the animal holding area had exceeded 29.5°C. (85°F.) for 4 hours, even though it had not reached 35°C. (95°F.) and no animals were confined therein. This could needlessly delay the shipment of some animals with a consequent increase in the stress and trauma to which they were subjected.

Therefore, APHIS is proposing that the ambient temperature within an animal holding area for live dogs, cats, non-human primates, and other warmblooded animals covered by the Act, other than rabbits, hamsters, and guinea pigs, shall not be allowed to fall below 7.2°C. (45°F.) at any time, provided that no such live animals are subjected to an ambient temperature in such animal holding area in excess of 24.5°C. (85°F.) for more than 4 hours. APHIS is also proposing that auxiliary ventilation, such as exhaust fans and vents or fans or blowers or air conditioning shall be provided and used when the atmospheric temperature within the animal holding area is 29.5°C. (85°F.) or higher to increase the flow of air which will minimize the debilitating effect of high temperature as it approaches the critical temperature of 35°C. (95°F.).

Accordingly, the standards (9 CFR 3.11 et seq.) would be amended in the following respects:

PART 3—STANDARDS

1. Section 3.11(b) of the standards (9 CFR 3.11(b)) is amended to read as follows:

§ 3.11 Consignments to carriers and intermediate handlers.

(b) Any carrier or intermediate handler shall only accept for transportation

or transport in commerce, any live dog or cat in a primary enclosure which conforms to the requirements set forth in § 3.12 of the standards: *Provided, however*, That any carrier or intermediate handler may accept for transportation or transport, in commerce, any live dog or cat consigned by any department, agency, or instrumentality of the United States having laboratory animal facilities or exhibiting animals or any licensed or registered dealer, research facility, exhibitor, or operator of an auction sale if the consignor furnishes to the carrier or intermediate handler a certificate, signed by the consignor, stating that the primary enclosure complies with § 3.12 of the standards. A copy of the certificate shall accompany the shipment to destination.

2. Section 3.12(a)(4) of the standards (9 CFR 3.12(a)(4)) would be amended to read as follows:

§ 3.12 Primary enclosures used to transport live dogs and cats.

(a) . . . (4) except as provided in paragraph (h) of this section, there are ventilation openings located on two opposite walls of the primary enclosure and the ventilation opening on each such wall shall be at least 16 percent of the total surface area of each such wall, or there are ventilation openings on three walls of the primary enclosure and the ventilation openings on two opposite walls of the primary enclosure shall be at least 8 percent of the total surface area of each such wall and the ventilation openings on the third wall of the primary enclosure shall be at least 50 percent of the total surface area of such wall, or there are ventilation openings located on all four walls of the primary enclosure and the ventilation openings on each such wall shall be at least 8 percent of the total surface area of each such wall: *Provided, however*, That at least one-third of the total minimum area required for ventilation of the primary enclosure shall be located on the lower one-half of the primary enclosure and at least one-third of the total minimum area required for ventilation of the primary enclosure shall be located on the upper one-half of the primary enclosure; . . .

3. Section 3.16 of the standards (9 CFR 3.16) would be amended to read as follows:

§ 3.16 Terminal facilities.

Carriers and intermediate handlers shall not commingle live animal shipments with inanimate cargo. All live animal shipments shall be maintained in the same animal holding area of a terminal facility of any carrier or intermediate handler at any one time. All animal holding areas shall be cleaned and sanitized in a manner prescribed in § 3.7 of the standards often enough to prevent an accumulation of debris or excreta, minimize vermin infestation and to prevent a disease hazard. An effective program

for the control of insects, ectoparasites, and avian and mammalian pests shall be established and maintained for all animal holding areas. Any animal holding area containing live dogs or cats shall be provided with fresh air by means of windows, doors, vents, or air conditioning and shall be ventilated or air circulated by means of fans, blowers, or an air conditioning system so as to minimize drafts, odors, and moisture condensation. Auxiliary ventilation, such as exhaust fans and vents or fans or blowers or air conditioning shall be provided for any animal holding area containing live dogs and cats and shall be used when the atmospheric temperature within such animal holding area is 29.5°C. (85°F.) or higher. The ambient temperature around any live dog or cat in any animal holding area shall not be allowed to fall below 7.2°C. (45°F.) nor be allowed to exceed 35°C. (95°F.) at any time: *Provided, however*, That no live dog or cat shall be subjected to ambient temperatures in excess of 29.5°C. (85°F.) for more than 4 hours at any time.

4. Section 3.17 of the standards (9 CFR 3.17) would be amended to read as follows:

§ 3.17 Handling.

(a) Carriers and intermediate handlers shall move live dogs and cats from the animal holding area of the terminal facility to the primary conveyance and from the primary conveyance to the animal holding area of the terminal facility as expeditiously as possible. Carriers and intermediate handlers holding any live dog or cat in an animal holding area of a terminal facility or in transporting any live dog or cat from the animal holding area of the terminal facility to the primary conveyance and from the primary conveyance to the animal holding area of the terminal facility, including loading and unloading procedures, shall provide the following:

(1) *Shelter from sunlight.* When sunlight is likely to cause overheating or discomfort, sufficient shade shall be provided to protect the live dogs and cats from the direct rays of the sun.

(2) *Shelter from rain or snow.* Live dogs and cats shall be provided protection to allow them to remain dry during rain or snow.

(3) *Shelter from cold weather.* Transporting devices shall be covered to provide protection for live dogs and cats when the atmospheric temperature falls below 10°C. (50°F.).

(b) Care shall be exercised to avoid handling of the primary enclosure in such a manner that may cause physical or emotional trauma to the live dog or cat contained therein.

(c) Primary enclosures used to transport any live dog or cat shall not be tossed, dropped, or needlessly tilted and shall not be stacked in a manner which may reasonably be expected to result in their falling.

5. Section 3.35(b) of the standards (9 CFR 3.35(b)) is amended to read as follows:

§ 3.35 Consignments to carriers and intermediate handlers.

(b) Any carrier or intermediate handler shall only accept for transportation or transport, in commerce, any live guinea pig or hamster in a primary enclosure which conforms to the requirements set forth in § 3.36 of the standards: *Provided, however*, That any carrier or intermediate handler may accept for transportation or transport, in commerce, any live guinea pig or hamster consigned by any department, agency, or instrumentality of the United States having laboratory animal facilities or exhibiting animals or any licensed or registered dealer, research facility, exhibitor, or operator of an auction sale if the consignor furnishes to the carrier or intermediate handler a certificate, signed by the consignor, stating that the primary enclosure complies with § 3.36 of the standards. A copy of the certificate shall accompany the shipment to destination.

6. Section 3.36(a)(5) of the standards (9 CFR 3.36(a)(5)) would be amended to read as follows:

§ 3.36 Primary enclosures used to transport live guinea pigs and hamsters.

(a) . . . (5) except as provided in paragraph (1) of this section, there are ventilation openings located on two opposite walls of the primary enclosure and the ventilation openings on each such wall shall be at least 16 percent of the total surface area of each such wall, or there are ventilation openings located on all four walls of the primary enclosure and the ventilation openings on each such wall shall be at least 8 percent of the total surface area of each such wall: *Provided, however*, That at least one-third of the total minimum area required for ventilation of the primary enclosure shall be located on the lower one-half of the primary enclosure and at least one-third of the total minimum area required for ventilation of the primary enclosure shall be located on the upper one-half of the primary enclosure;

7. Section 3.40 of the standards (9 CFR 3.40) would be amended to read as follows:

§ 3.40 Terminal facilities.

Carriers and intermediate handlers shall not commingle live animal shipments with inanimate cargo. All live animal shipments shall be maintained in the same animal holding area of a terminal facility of any carrier or intermediate handler at any one time. All animal holding areas shall be cleaned and sanitized in a manner prescribed in § 3.31 of the standards often enough to prevent an accumulation of debris or excreta, minimize vermin infestation and to prevent a disease hazard. An effective program for the control of insects, ectoparasites, and

PROPOSED RULES

avian and mammalian pests shall be established and maintained for all animal holding areas. Any animal holding area containing live guinea pigs or hamsters shall be provided with fresh air by means of windows, doors, vents, or air conditioning and shall be ventilated or air circulated by means of fans, blowers, or an air conditioning system so as to minimize drafts, odors, and moisture condensation. The ambient temperature around any live guinea pig or hamster shall not be allowed to fall below 7.2° C. (45° F.) nor be allowed to exceed 29.5° C. (85° F.) at any time.

8. Section 3.41 of the standards (9 CFR 3.41) would be amended to read as follows:

§ 3.41 Handling.

(a) Carriers and intermediate handlers shall move live guinea pigs and hamsters from the animal holding area of the terminal facility to the primary conveyance and from the primary conveyance to the animal holding area of the terminal facility as expeditiously as possible. Carriers and intermediate handlers holding any live guinea pig or hamster in an animal holding area of a terminal facility or in transporting any live guinea pig or hamster from the animal holding area of the terminal facility to the primary conveyance and from the primary conveyance to the animal holding area of the terminal facility, including loading and unloading procedures, shall provide the following:

(1) *Shelter from sunlight.* When sunlight is likely to cause overheating or discomfort, sufficient shade shall be provided to protect the live guinea pigs and hamsters from the direct rays of the sun.

(2) *Shelter from rain or snow.* Live guinea pigs and hamsters shall be provided protection to allow them to remain dry during rain or snow.

(3) *Shelter from cold weather.* Transporting devices shall be covered to provide protection from live guinea pigs and hamsters when the atmospheric temperature falls below 10° C. (50° F.).

(b) Care shall be exercised to avoid handling of the primary enclosure in such a manner that may cause physical or emotional trauma to the live guinea pig or hamster contained therein.

(c) Primary enclosures used to transport any live guinea pig or hamster shall not be tossed, dropped, or needlessly tilted and shall not be stacked in a manner which may reasonably be expected to result in their falling.

9. Section 3.60(b) of the standards (9 CFR 3.60(b)) is amended to read as follows:

§ 3.60 Consignments to carriers and intermediate handlers.

(b) Any carrier or intermediate handler shall only accept for transportation or transport, in commerce, any live rabbit in the primary enclosure which conforms to the requirements set forth in § 3.61 of the standards: *Provided,*

however, That carriers or intermediate handlers may accept for transportation or transport, in commerce, any live rabbit consigned by any department, agency, or instrumentality of the United States having laboratory animal facilities or exhibiting animals or any licensed or registered dealer, research facility, exhibitor or operator of an auction sale if the consignor furnishes to the carrier or intermediate handler a certificate, signed by the consignor, stating that the primary enclosure complies with section 3.61 of the standards. A copy of the certificate shall accompany the shipment to destination.

10. Section 3.61(a)(4) of the standards (9 CFR 3.61(a)(4)) would be amended to read as follows:

§ 3.61 Primary enclosures used to transport live rabbits.

(a) . . . (4) except as provided in paragraph (h) of this section, there are ventilation openings located on two opposite walls of the primary enclosure and the ventilation openings on each such wall shall be at least 16 percent of the total surface area of each such wall, or there are ventilation openings located on all four walls of the primary enclosure and the ventilation openings on each such wall shall be at least 8 percent of the total surface area of each such wall: *Provided, however,* That at least one-third of the total minimum area required for ventilation of the primary enclosure shall be located on the lower one-half of the primary enclosure and at least one-third of the total minimum area required for ventilation of the primary enclosure shall be located on the upper one-half of the primary enclosure; . . .

11. Section 3.65 of the standards (9 CFR 3.65) would be amended to read as follows:

§ 3.65 Terminal facilities.

Carriers and intermediate handlers shall not commingle live animal shipments with inanimate cargo. All live animal shipments shall be maintained in the same holding area of the terminal facility of any carrier or intermediate handler at any one time. All animal holding areas shall be cleaned and sanitized in a manner prescribed in § 3.56 of the standards often enough to prevent an accumulation of debris or excreta, minimize vermin infestation and to prevent a disease hazard. An effective program for the control of insects, ectoparasites, and avian and mammalian pests shall be established and maintained for all animal holding areas. Any animal holding area containing live rabbits shall be provided with fresh air by means of windows, doors, vents, or air conditioning and shall be ventilated or air circulated by means of fans, blowers, or an air conditioning system so as to minimize drafts, odors, and moisture condensation. The ambient temperature around any live

rabbit in any animal holding area shall not be allowed to fall below 7.2° C. (45° F.) nor be allowed to exceed 29.5° C. (85° F.) at any time.

12. Section 3.66 of the standards (9 CFR 3.66) would be amended to read as follows:

§ 3.66 Handling.

(a) Carriers and handlers shall move live rabbits from the animal holding area of the terminal facility to the primary conveyance and from the primary conveyance to the animal holding area of the terminal facility as expeditiously as possible. Carriers and intermediate handlers holding any live rabbit in an animal holding area of a terminal facility or in transporting any live rabbit from the animal holding area of the terminal facility to the primary conveyance and from the primary conveyance to the animal holding area of the terminal facility, including loading and unloading procedures, shall provide the following:

(1) *Shelter from sunlight.* When sunlight is likely to cause overheating or discomfort, sufficient shade shall be provided to protect the live rabbits from the sun.

(2) *Shelter from rain or snow.* Live rabbits shall be provided protection to allow them to remain dry during rain or snow.

(3) *Shelter from cold weather.* Transporting devices shall be covered to provide protection for live rabbits when the atmospheric temperature falls below 10° C. (50° F.).

(b) Care shall be exercised to avoid handling of the primary enclosure in such a manner that may cause physical or emotional trauma to the live rabbit contained therein.

(c) Primary enclosures used to transport any live rabbit shall not be tossed, dropped, or needlessly tilted and shall not be stacked in a manner which may reasonably be expected to result in their falling.

13. Section 3.85(b) of the standards (9 CFR 3.85(b)) is amended to read as follows:

§ 3.85 Consignment to carriers and intermediate handlers.

(b) Any carrier or intermediate handler shall only accept for transportation or transport, in commerce, any live nonhuman primate in a primary enclosure which conforms to the requirements set forth in § 3.86 of the standards: *Provided, however,* That carriers or intermediate handlers may accept for transportation or transport, in commerce, any live nonhuman primate consigned by any department, agency, or instrumentality of the United States having laboratory animal facilities or exhibiting animals or any licensed or registered dealer, research facility, exhibitor, or operator of an auction sale if the consignor furnishes to the carrier or intermediate handler a certificate, signed by the consignor, stating that the primary enclosure complies with § 3.86 of the standards. A copy

of the certificate shall accompany the shipment to destination.

14. Section 3.86(a)(6) of the standards (9 CFR 3.86(a)(6)) would be amended to read as follows:

§ 3.86 Primary enclosures used to transport live nonhuman primates.

(a) . . . (6) except as provided in paragraph (h) of this section, there are ventilation openings located on two opposite walls of the primary enclosure and the ventilation openings on each such wall shall be at least 16 percent of the total surface area of each such wall, or there are ventilation openings located on all four walls of the primary enclosure and the ventilation openings on each such wall shall be at least 8 percent of the total surface area of each such wall: *Provided, however,* That at least one-third of the total minimum area required for ventilation of the primary enclosure shall be located on the lower one-half of the primary enclosure and at least one-third of the total minimum area required for ventilation of the primary enclosure shall be located on the upper one-half of the primary enclosure; . . .

15. Section 3.90 of the standards (9 CFR 3.90) would be amended to read as follows:

§ 3.90 Terminal facilities.

Carriers and intermediate handlers shall not commingle live animal shipments with inanimate cargo. All live animal shipments shall be maintained in the same animal holding area of a terminal facility of any carrier or intermediate handler at any one time. All animal holding areas shall be cleaned and sanitized in a manner prescribed in § 3.81 of the standards often enough to prevent an accumulation of debris or excreta, minimize vermin infestation and to prevent a disease hazard. An effective program for the control of insects, ectoparasites, and avian and mammalian pests shall be established and maintained for all animal holding areas. Any animal holding area containing live nonhuman primates shall be provided with fresh air by means of windows, doors, vents, or air conditioning and shall be ventilated or air circulated by means of fans, blowers, or an air conditioning system so as to minimize drafts, odors, and moisture condensation. Auxiliary ventilation, such as exhaust fans and vents or fans or blowers or air conditioning shall be provided for any animal holding area containing live nonhuman primates and shall be used when the atmospheric temperature within such animal holding area is 29.5° C. (85° F.) or higher. The ambient temperature around any live nonhuman primate in any animal holding area shall not be allowed to fall below 7.2° C. (45° F.) nor be allowed to exceed 35° C. (95° F.) at any time: *Provided, however,* That live nonhuman primate shall be subjected to ambient temperatures in excess of 29.5° C. (85° F.) for more than 4 hours at any time.

17. Section 3.111(b) of the standards (9 CFR 3.111(b)) is amended to read as follows:

§ 3.111 Consignments to carriers and intermediate handlers.

(b) Any carrier or intermediate handler shall only accept for transportation or transport, in commerce, any live animal in a primary enclosure which conforms to the requirements set forth in § 3.112 of the standards: *Provided, however,* That carriers or intermediate handlers may accept for transportation or transport, in commerce, any live animal consigned by any department, agency, or instrumentality of the United States having laboratory animal facilities or exhibiting animals or any licensed or registered dealer, research facility, exhibitor, or operator of an auction sale if the consignor furnishes to the carrier or intermediate handler a certificate, signed by the consignor, stating that the primary enclosure complies with § 3.112 of the standards. A copy of the certificate shall accompany the shipment to destination. . . .

PROPOSED RULES

16. Section 3.91 of the standards (9 CFR 3.91) would be amended to read as follows:

§ 3.91 Handling.

(a) Carriers and intermediate handlers shall move live nonhuman primates from the animal holding area of the terminal facility to the primary conveyance and from the primary conveyance to the animal holding area of the terminal facility as expeditiously as possible. Carriers and intermediate handlers holding any live nonhuman primate in an animal holding area of a terminal facility or in transporting any live nonhuman primate from the animal holding area of the terminal facility to the primary conveyance and from the primary conveyance to the animal holding area of the terminal facility, including loading and unloading procedures, shall provide the following:

(1) *Shelter from sunlight.* When sunlight is likely to cause overheating or discomfort, sufficient shade shall be provided to protect the live nonhuman primates from the direct rays of the sun.

(2) *Shelter from rain or snow.* Live nonhuman primates shall be provided protection to allow them to remain dry during rain or snow.

(3) *Shelter from cold weather.* Transporting devices shall be covered to provide protection for live nonhuman primates when the atmospheric temperature falls below 10° C. (50° F.).

(b) Care shall be exercised to avoid handling of the primary enclosure in such a manner that may cause physical or emotional trauma to the live nonhuman primate contained therein.

(c) Primary enclosures used to transport any live nonhuman primate shall not be tossed, dropped, or needlessly tilted and shall not be stacked in a manner which may reasonably be expected to result in their falling.

17. Section 3.111(b) of the standards (9 CFR 3.111(b)) is amended to read as follows:

§ 3.111 Consignments to carriers and intermediate handlers.

(b) Any carrier or intermediate handler shall only accept for transportation or transport, in commerce, any live animal in a primary enclosure which conforms to the requirements set forth in § 3.112 of the standards: *Provided, however,* That carriers or intermediate handlers may accept for transportation or transport, in commerce, any live animal consigned by any department, agency, or instrumentality of the United States having laboratory animal facilities or exhibiting animals or any licensed or registered dealer, research facility, exhibitor, or operator of an auction sale if the consignor furnishes to the carrier or intermediate handler a certificate, signed by the consignor, stating that the primary enclosure complies with § 3.112 of the standards. A copy of the certificate shall accompany the shipment to destination. . . .

18. Section 3.112(a)(4) of the standards (9 CFR 3.112(a)(4)) would be amended to read as follows:

§ 3.112 Primary enclosures used to transport live animals.

(a) . . . (4) except as provided in paragraph (g) of this section, there are ventilation openings located on two opposite walls of the primary enclosure and the ventilation openings on each such wall shall be at least 16 percent of the total surface area of each such wall, or there are ventilation openings located on all four walls of the primary enclosure and the ventilation openings on each such wall shall be at least 8 percent of the total surface area of each such wall: *Provided, however,* That at least one-third of the total minimum area required for ventilation of the primary enclosure shall be located on the lower one-half of the primary enclosure and at least one-third of the total minimum area required for ventilation of the primary enclosure shall be located on the upper one-half of the primary enclosure; . . .

19. Section 3.116 of the standards (9 CFR 3.116) would be amended to read as follows:

§ 3.116 Terminal facilities.

Carriers and intermediate handlers shall not commingle live animal shipments with inanimate cargo. All live animal shipments shall be maintained in the same animal holding area of a terminal facility of any carrier or intermediate handler at any one time. All animal holding areas shall be cleaned and sanitized in a manner prescribed in § 3.106 of the standards often enough to prevent an accumulation of debris or excreta, minimize vermin infestation and to prevent a disease hazard. An effective program for the control of insects, ectoparasites, and avian and mammalian pests shall be established and maintained for all animal holding areas. Any animal holding area containing live animals shall be provided with fresh air by means of windows, doors, vents, or air conditioning and shall be ventilated or air circulated by means of fans, blowers, or an air conditioning system so as to minimize drafts, odors, and moisture condensation. Auxiliary ventilation, such as exhaust fans and vents or fans or blowers or air conditioning shall be provided for any animal holding area containing live animals and shall be used when the atmospheric temperature within such animal holding area is 29.5° C. (85° F.) or higher. The ambient temperature shall not be allowed to fall below 7.2° C. (45° F.) nor be allowed to exceed 35° C. (95° F.) at any time: *Provided, however,* That no live animal shall be subjected to ambient temperatures in excess of 29.5° C. (85° F.) for more than 4 hours at any time.

20. Section 3.117 of the standards (9 CFR 3.117) would be amended to read as follows:

PROPOSED RULES

§ 3.117 Handling.

(a) Carriers and intermediate handlers shall move live animals from the animal holding area of the terminal facility to the primary conveyance and from the primary conveyance to the animal holding area of the terminal facility as expeditiously as possible. Carriers and intermediate handlers holding any live animal in an animal holding area of a terminal facility or in transporting any live animal from the animal holding area of the terminal facility to the primary conveyance and from the primary conveyance to the animal holding area of the terminal facility, including loading and unloading procedures, shall provide the following:

(1) *Shelter from sunlight.* When sunlight is likely to cause overheating or discomfort, sufficient shade shall be provided to protect the live animals from the direct rays of the sun.

(2) *Shelter from rain or snow.* Live animals shall be provided protection to allow them to remain dry during rain or snow.

(3) *Shelter from cold weather.* Transporting devices shall be covered to provide protection for live animals when the atmospheric temperature falls below 10° C. (50° F.).

(b) Care shall be exercised to avoid handling of the primary enclosure in such a manner that may cause physical or emotional trauma to the live animal contained therein.

(c) Primary enclosures used to transport any live animal shall not be tossed, dropped, or needlessly tilted and shall not be stacked in a manner which may reasonably be expected to result in their falling.

All written submissions made pursuant to this notice will be made available for public inspection at the Federal Building, 6505 Belcrest Road, Room 703, Hyattsville, Md., during regular hours of business (8 a.m. to 4:30 p.m., Monday through Friday, except holidays) in a manner convenient to the public business (7 CFR 1.27(b)).

Comments submitted should bear a reference to the date and page number of this issue in the FEDERAL REGISTER.

Done at Washington, D.C., this 11th day of October 1977.

NOTE.—The Animal and Plant Health Inspection Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 and OMB Circular A-107.

However, an economic impact statement has been drafted and a copy of said draft statement may be obtained by writing to the Deputy Administrator, USDA, APHIS, VS, Room 703, Federal Building, 6505 Belcrest Road, Hyattsville, Md. 20782.

E. A. SCHILF,
Acting Deputy Administrator,
Veterinary Services.

CIVIL AERONAUTICS BOARD

[14 CFR Part 241]

[EDR-335A; Docket No. 30240; dated October 11, 1977]

AIRLINE LOBBYING COSTS

Accounting and Reporting Requirements; Supplemental Notice of Proposed Rulemaking

AGENCY: Civil Aeronautics Board.

ACTION: Supplemental Notice of Proposed Rulemaking.

SUMMARY: This notice extends for 30 days the filing date for comments in a rulemaking proceeding concerning the accounting and reporting requirements for airline lobbying costs. The extension of the comment due date was requested by the Air Transport Association of America (ATA).

DATES: Comments by November 14, 1977.

ADDRESSES: Comments should be sent to: Docket 30240, Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. Comments may be examined at the Docket Section, Civil Aeronautics Board, Room 711, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., as soon as they are received.

FOR FURTHER INFORMATION CONTACT:

Richard Juhnke, Rates and Agreements Division, Office of the General Counsel, Civil Aeronautics Board, 1825 Connecticut Ave. NW., Washington, D.C. 20428 (202-673-5436).

By Notice of Proposed Rulemaking EDR-335, 42 FR 46339, September 15, 1977, the Board proposed a rule which would require the carriers to report lobbying expenses in a separate non-operating account, thereby excluding these expenses from the costs allowable for ratemaking purposes.

On September 29, 1977 ATA filed a motion requesting a thirty-day extension for the filing of comments. In support, ATA advises that the additional time

will enable ATA and the carriers to conduct a thorough analysis of the proposal, and will permit the coordination and formulation of an industry response to certain issues.

Upon consideration of the foregoing, I find that good cause has been shown for the granting of the requested extension. Moreover, it does not appear that this extension will prejudice any party to the proceeding.

Accordingly, pursuant to authority delegated in § 385.20(d) of the Board's Organization Regulations (14 CFR 385.20(d)), the time for filing comments is extended to November 14, 1977.

(Sec. 204(a), Federal Aviation Act of 1958, as amended, 72 Stat. 743, (49 U.S.C. 1324).)

SIMON J. EILENBERG,
Associate General
Counsel Rules Division.

[EDR-336A, PSDR-50A; Docket No. 31333; dated October 11, 1977]

ACCOUNTING AND REPORTING REQUIREMENTS REGARDING AIRLINE ADVERTISING COSTS

Supplemental Advance Notice of Proposed Rulemaking

AGENCY: Civil Aeronautics Board.

ACTION: Supplemental Advance Notice of Proposed Rulemaking.

SUMMARY: This notice extends for 30 days the filing date for comments in a rulemaking proceeding concerning the accounting and reporting requirements for airline advertising costs. The extension of the comment due date was requested by the Air Transport Association of America (ATA).

DATES: Comments by November 14, 1977.

ADDRESSES: Comments should be sent to: Docket 31333, Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. Comments may be examined at the Docket Section, Civil Aeronautics Board, Room 711, Universal Building, 1825 Connecticut Avenue, NW., Washington, D.C., as soon as they are received.

FOR FURTHER INFORMATION CONTACT:

Richard Juhnke, Rates and Agreements Division, Office of the General Counsel, Civil Aeronautics Board, 1825 Connecticut Avenue, NW., Washington, D.C. 20428 (202-673-5436).

SUPPLEMENTARY INFORMATION: By Advance Notice of Proposed Rulemaking EDR-336/PSDR-50, 42 FR 46345, September 15, 1977, the Board asked interested parties to discuss: (1) An appropriate definition of institutional advertising; (2) whether institutional advertising should be treated as a non-operating expense and thus excluded

from costs for ratemaking purposes; (3) the merits of establishing a ratemaking standard for advertising expenses; and (4) the problems involved in deciding how much advertising is desirable in the air transportation industry.

On September 29, 1977, ATA filed a motion requesting a thirty-day extension for the filing of comments. In support, ATA advises that the additional time is required to formulate and coordinate an industry response to the complex and significant issues raised by the advance notice of proposed rulemaking.

Upon consideration of the foregoing, I find that good cause has been shown for the granting of the requested extension. Moreover, it does not appear that this extension will prejudice any party to the proceeding.

Accordingly, pursuant to authority delegated in § 385.20(d) of the Board's Organization Regulations (14 CFR 385.20(d)), the time for filing comments is extended to November 14, 1977.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 240]

[Release No. 34-14032]

CERTAIN RAILROAD ISSUERS

Withdrawal of Notice of Proposed Rulemaking Concerning Exemptions From Financial Statement Requirements

AGENCY: Securities and Exchange Commission.

ACTION: Withdrawal of advance notice of proposed rulemaking.

SUMMARY: The Commission announces that it no longer is considering the formulation of rules concerning a permanent exemption for lessor, switching and terminal company railroads from the financial reporting requirements of certain Commission forms. The Commission believes that exemptions from the reporting requirements are best considered in the context of applications filed under the provision of the Exchange Act permitting exemptions therefrom rather than through the adoption of a rule of general application.

EFFECTIVE DATE: October 5, 1977.

FOR FURTHER INFORMATION CONTACT:

Paul A. Belvin, Office of Disclosure Policy and Proceedings, Division of Corporation Finance, Securities and Exchange Commission, 500 North Capitol St., Washington, D.C. 20549, (202-755-1750).

SUPPLEMENTARY INFORMATION: In April, 1977, the Commission an-

PROPOSED RULES

55227

nounced¹ that it was considering the formulation of rules to provide a permanent exemption for lessor, switching and terminal railroad companies from the financial statement requirements of the Commission's periodic reporting forms under the Securities Exchange Act of 1934 ("Exchange Act") (15 U.S.C. 78a et seq., as amended by Pub. L. No. 94-29 (June 4, 1975)). That notice of proposed rulemaking and invitation for public comments stemmed from another Commission action which involved the repeal of Form 12-K under the Exchange Act and the adoption of related amendments;² the effect of these actions was to require certain registrants, including railroads, to file periodic reports with the Commission containing all the information specified by Forms 10-K and 10-Q, rather than to allow them to delete certain such information and file instead similar data prepared for other federal regulatory agencies.

Public comments received by the Commission in connection with the proposals to repeal Form 12-K suggested that certain lessor railroads and switching and terminal companies should be the subject of a broad exemption from the financial statement requirements of Form 10-K and Form 10-Q.³ In response to those comments the Commission published Release No. 34-13478, and invited interested persons to comment on the appropriateness of providing a permanent exemption from the financial statements requirements of Forms 10-K and 10-Q, and the proper form and content of any such exemptions.

Based on the comments received, and on its own review of lessor, switching and terminal railroad companies, the Commission believes that exemptions from the reporting requirements are best considered in the context of applications filed under Section 12(h)⁴ of the Exchange Act, rather than through the adoption of a rule of general application. It appears that relatively few issuers could be within the scope of any exemptive rule of the general type con-

¹ Securities Exchange Act Release No. 13478 (April 28, 1977) (42 FR 24071).

² Securities Exchange Act Release No. 13477 (April 28, 1977) (42 FR 24062).

³ Lessor railroads are substantially or wholly-owned subsidiaries of operating railroads whose facilities or trackbeds are operated under lease pursuant to which the parent railroad is the lessee. Generally, the income of the lessor subsidiary is determined pursuant to the lease arrangement based on the interest incurred, plus a fixed dividend, on the outstanding securities of the lessor. Switching and terminal companies are owned by operating railroads which share the expenses of operation on a user basis.

⁴ Under Section 12(h), the Commission, upon application and after notice and opportunity for hearing, may exempt in whole or in part any issuer from the provisions of Sections 12(g), 13, 14 or 15(d), if the Commission finds, by reason of the number of public investors, amount of trading interest in the securities, the nature and extent of the activities of the issuer, income or assets of the issuer, or otherwise, that such action is not inconsistent with the public interest or the protection of investors.

templated by the Commission, and it further appears that the types of information which should be disclosed in reports filed with the Commission by such persons may vary considerably from case to case.

Accordingly, the Commission hereby announces that it no longer is considering the formulation of rules to provide a permanent exemption from the periodic reporting requirements of Commission forms under the Exchange Act for lessor, switching and terminal railroad companies.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

OCTOBER 7, 1977.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Parts 101 and 501]

[Docket No. 77N-0292]

NET-WEIGHT LABELING OF FOOD

Hearing

AGENCY: Food and Drug Administration.

ACTION: Notice of Public Hearing.

SUMMARY: The Commissioner of Food and Drugs announces that public hearings will be held in San Francisco, California on December 8, 1977 and in Atlanta, Georgia on December 15, 1977. The hearings are for interested persons to give information and views about the need to modify current regulations on net-weight labeling of products, such as prepackaged flour, that may gain on loss moisture during good distribution practice.

DATES: The public hearings will be held on December 8 and 15, 1977 at 10 a.m. Written notice of participation must be filed by November 14, 1977.

ADDRESSES: Written notice of participation should be sent to the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Heinz G. Wilms, Federal State Relations (HFO-310), Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20857, (301-443-6200).

SUPPLEMENTARY INFORMATION: Under section 403(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 343(e)), a food is deemed to be misbranded:

(c) If in package form unless it bears a label containing . . . (2) an accurate statement of the quantity of the contents in terms of weight, measure, or numerical count: *Provided*, That under clause (2) of this paragraph reasonable variations shall

be permitted, and exemptions as to small packages shall be established, by regulations prescribed by the Secretary.

Under section 403(e) of the act, § 101.105(q) (21 CFR 101.105(q)) was adopted to describe the "reasonable variations" mentioned in the proviso:

§ 101.105 Declaration of net quantity of contents when exempt.

(q) The declaration of net quantity of contents shall express an accurate statement of the quantity of contents of the package. Reasonable variations caused by loss or gain of moisture during the course of good distribution practice or by unavoidable deviation in good manufacturing practice will be recognized. Variations from stated quantity of contents shall not be unreasonably large.

The U.S. Department of Agriculture has a comparable regulation (9 CFR 317.2(h) (2)) to implement its authority under the Wholesome Meat Act of 1967 (21 U.S.C. 601(N) (5)), pertaining to net-weight statements on meat products. Both FDA and USDA monitor compliance with this requirement at the time of packaging. The States, however, check for compliance at the retail level.

Both FDA and USDA regulations permit two types of reasonable variations from the statement of net weight on packaged food:

(1) Those attributable to unavoidable deviations in good manufacturing practice; and

(2) Those attributable to loss or gain of moisture during good distribution practice.

Thus, for example, packaged flour that ordinarily contains 13 to 14 percent moisture at the time of packaging may lose or gain moisture during the distribution process. Flour distributed to a dry climate will lose moisture; flour distributed to a humid climate may gain moisture. The package of flour will contain equivalent amounts of flour, but the net weight of the package when weighed at the retail level may vary slightly depending on whether the product has gained or lost moisture.

Gains or loss of moisture during good distribution practice may cause an entire lot of packaged flour to be increased or reduced because the gain or loss of moisture will tend to affect each package. For example, a lot of flour with 13 percent moisture at the time of packaging that is distributed to a dry climate may weigh slightly less when the packages are at the retail level than the total of the stated net weight on each package.

Deviations during good manufacturing process—slight overfills or underfills of a package—will cluster around an average weight for a lot, and this average weight should equal the stated net weight of each package. Because overfills should balance out underfills during good manufacturing practice the total weight of the lot should not be reduced or increased.

The weights and measures laws of many States, including California, embody an interpretation of the word "ac-

curate" that differs from the Federal requirement. California law, for example, establishes a minimum weight requirement that makes no allowance for gain or loss of moisture during good distribution practice. Thus, when packages are checked by California inspectors at the retail level, the average weight of the packages must be at least the stated weight, or the packages will be ordered removed from the shelves.

In 1973, after the California County of Riverside Department of Weights and Measures, acting under California law, ordered "off-sale" flour packages it determined to be unlawfully underweight, three flour manufacturers sued the director of the department. The milling companies sought a declaratory judgment that the imposition of the State weight law on their products was unlawful and an injunction restraining the county officials from enforcing the State law against their products.

The case, *Jones v. The Rath Packing Co., et al.* (97 S. Ct. 1305), which involved the application of California law to both prepackaged bacon and flour and thus involved both FDA and USDA regulations, eventually reached the U.S. Supreme Court. The Supreme Court held that the California law as applied to bacon was preempted by the Wholesome Meat Act because it was "different than" the Federal requirement as reflected in USDA's regulations. The State and Federal law conflicted because California law makes no allowance for loss of weight due to moisture loss during good distribution practice, while the Federal regulations do.

The Supreme Court also held that FDA's regulations must prevail over the California system. The Court concluded that consumer value comparisons are facilitated by the Federal scheme of regulating flour because all flour when packaged will contain the same amount of flour solids and 13 to 14 percent moisture. Losses or gains of moisture will not, therefore, affect the quantity/price comparison.

Under the California system, however, the Court concluded that millers who distributed their products nationally would have to overpack their packages to ensure that any loss of moisture did not reduce the actual weight below the stated weight. Thus, under the California system, packages of flour would contain different amounts of flour solids. Since the consumer is interested in the amount of flour solids at a given price, and not the moisture content, value comparisons would be inhibited by the State system.

Since the Supreme Court's decision in *Rath*, many State and local agencies and a consumer group have written to FDA requesting that FDA reconsider its regulations regarding net-weight declarations. The States have also requested that USDA do the same. Copies of this correspondence are on file with, and available to the public from, the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857. The writers believe that FDA (and USDA) should amend

their regulations to require accuracy on a lot average basis at the time of retail sale.

The Commissioner has considered these requests and concludes that this matter is appropriate for discussion at an informal, legislative-type, public hearing held in accordance with Part 15 of the FDA procedural regulations (21 CFR Part 15). The public hearing will provide an opportunity for all interested persons to present oral information and views on the alternative systems for ensuring the accuracy of net weight statements on packaged food subject to variation caused by unavoidable deviation in good manufacturing practice or by loss or gain of moisture during good distribution practice.

Persons who wish to submit information or views for the hearing record but who are unable to appear in person may submit information by sending their comments to the Hearing Clerk, Food and Drug Administration at the address below. Written comments should contain the docket number listed in the heading of this notice and be submitted by January 3, 1978.

The hearing in San Francisco, California will be held on December 8, 1977 starting at 10 a.m. in Rm. 1194, San Francisco State Building, 455 Golden Gate Ave. The hearing in Atlanta, Georgia will be held on December 15, 1977 and will begin at 10 a.m. in the Sheraton "C" Conference Room, Sheraton-Biltmore Hotel, 817 W. Peachtree St., NE. The presiding officer will be Donald Kennedy, Commissioner of Food and Drugs.

A written notice of participation should be filed with the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, no later than November 14, 1977. The envelope containing the notice of participation should be prominently marked "NET WEIGHT HEARING." The notice of participation itself should be identified with Docket No. 77N-0292, contain the name, address, and telephone number of the person desiring to make a statement, along with any business affiliation, a summary of the scope of the presentation, and the approximate time requested for the presentation. A schedule of presentations for the hearing will be mailed to each person who files a notice of participation and will also be available from the Hearing Clerk. Individuals and organizations with common interests are urged to consolidate their presentations. Formal written statements (preferably four copies) may be presented to the presiding officer on the day of the hearing for inclusion in the hearing record of this proceeding.

The hearing will be open to the public. Any interested person who files a written notice of participation may be heard on relevant matters.

Dated: October 11, 1977.

DONALD KENNEDY,
Commissioner of Food and Drugs.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Housing—
Federal Housing Commissioner

[24 CFR Part 200]

[Docket No. 77-467]

MINIMUM PROPERTY STANDARDS Proposed Revisions

AGENCY: Department of Housing and Urban Development.

ACTION: Proposed rule.

SUMMARY: HUD Minimum Property Standards are published in handbooks and incorporated by reference into the Code of Federal Regulations. This rule proposes a number of technical changes to the Minimum Property Standards for One- and Two-Family Dwellings, Multifamily Dwellings and Care-Type Housing and are required to be published in the FEDERAL REGISTER. The purpose or intended effect of the changes are shown below in the Supplementary Information.

DATES: Comments must be received on or before November 11, 1977.

ADDRESS: Comments should be addressed to the Rules Docket Clerk, Office of the Secretary, Room 5218, Department of Housing and Urban Development, 451 7th Street SW., Washington, D.C. 20410. Copies of any comments received will be available for examination during business hours at this address.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard A. Gray, Acting Chief, Standards Branch, Office of Housing, Department of Housing and Urban Development, Washington, D.C. 20410, telephone 202-755-6590.

SUPPLEMENTARY INFORMATION: HUD Minimum Property Standards are published in handbooks. Minimum Property Standards for One- and Two-Family Dwellings in Handbook 4900.1, and Care-Type Housing in Handbook 4920.1. The Minimum Property Standards are incorporated by reference into 24 CFR 200.929. All changes in the Minimum Property Standards are required by 24 CFR 200.933 to be published in the FEDERAL REGISTER using the same procedure as for the publication of regulations. The Minimum Property Standards for which these changes are proposed are available for examination in all HUD Field Offices and in Room 6170 of the HUD Central Office at the above address during business hours.

A Finding of Inapplicability respecting the National Environmental Policy Act of 1969 has been made in accordance with HUD procedures. A copy of this Finding of Inapplicability will be available for public inspection during regular business hours in the Office of the Rules Docket Clerk, Office of the Secretary, Room 5218, Department of Housing and

Urban Development, 451 7th Street, SW., Washington, D.C. 20410.

NOTE:—It is hereby certified that the economic and inflationary effects of 24 CFR Part 200 Subpart S, have been carefully evaluated in accordance with Executive Order No. 11821.

For greater clarity, the Handbook section will be cited followed by the revised language, followed by a brief description of the nature of the change.

Accordingly, it is proposed to amend Handbooks 4900.1, 4910.1 and 4920.1 as follows:

Section 508-5.1 is changed to read:

General. In areas where experience indicates that condensation on windows is a problem, windows with insulating frames shall be used. Windows conforming to the recommendations of AAMA 1502.6 for the climatic conditions in the area, are considered as meeting this requirement. Where wood is used as the insulator, it shall be water repellent preservative treated.

This change incorporates a newly developed Architectural Aluminum Manufacturers Association Standard for thermally improved metal windows.

Section 515-3.1 is amended as shown below:

Duct Insulation. When supply and return air ducts used for heating, cooling, or both are installed in unconditioned spaces, they shall have the longitudinal and transverse seams taped to reduce air leakage and shall be insulated with or have thermal characteristics equivalent to: . . .

This is for the purpose of energy conservation.

Section 509-2 Rigid PVC (polyvinyl chloride) plastic siding PS-55 is added.

Reference to product standards is normal policy. Recognition of this one in the Minimum Property Standards cancels several Materials Releases.

Section 509-4 Ceramic tile standard TCA 137 replaces ANSI 137.1.

Section 509-5 Appendix C

This is substitution of a current performance standard for a discontinued specification type standard.

The following proposed technical changes apply to the Minimum Property Standards for Multifamily Dwellings, 4910.1 and Care-Type Housing, 4920.1.

Section 615-5.31 is amended as shown below:

Cold water piping installed in locations of the building subject to freezing temperatures, or where pipe sweating may create a problem shall be insulated and covered with a vapor barrier. All circulating domestic hot water piping shall be insulated with a material having a minimum C value of 0.45.

These changes are to prevent moisture condensation problems and to provide clarification.

The following proposed changes apply to the Minimum Property Standards for One- and Two-Family Dwellings, 4900.1 and Multifamily Dwellings, 4910.1.

Section 401-4.2a is amended as follows:

Each dwelling unit shall have one bathroom containing a bathtub with a minimum outside width of 30 in., a lavatory and water closet. In other bathrooms showers may be substituted for bathtubs. Bathrooms shall provide for comfortable access to, and use of, each fixture. Bathrooms shall be convenient to the bedrooms.

This requirement reestablishes a standard minimum bathtub width which currently does not exist in Federal or industry standards.

The following proposed changes apply to the Minimum Property Standards for One- and Two-Family Dwellings 4900.1.

Section 403-3 Requirements for minimum natural light glazed area and natural ventilation opening as a percentage of room floor area in living units are changed from 10 to 8% and 5% to 4% respectively.

This is an energy conservation measure.

Section 615-5.31 is amended to read as follows:

Cold water piping installed in locations of the building subject to freezing temperatures, or where pipe sweating may create a problem shall be insulated and covered with a vapor barrier.

This change is to prevent moisture condensation problems.

Section 615-9.6 Added requirement for 3 ft minimum from bottom of sub-surface absorption field to water table.

This change established a minimum and clarifies a point previously lacking explicit information.

(Sec. 7(d), Department of HUD Act (42 U.S.C. 3535(d))).

Issued at Washington, D.C., September 30, 1977.

MORTON A. BARUCH,
Deputy Assistant Secretary for
Housing — Deputy Federal
Housing Commissioner.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 33]

EMPLOYMENT ASSISTANCE FOR ADULT INDIANS

Establishment of New Part

AGENCY: Bureau of Indian Affairs, Interior.

PROPOSED RULES

ACTION: Proposed rule.

SUMMARY: The purpose of this new part is to describe a program to assist adult Indians to obtain employment. This program contains support service options which may include vocational and employment counseling, housing and community adjustment assistance, job referrals, and assistance in moving to an urban or nonurban labor market or job site. It may also include financial assistance for transportation to the place of anticipated employment, subsistence until receipt of a full paycheck from employment, and medical and dental care for an initial adjustment period. This program has been in existence in some form since 1949 but has never been described in the CFR.

Another purpose is the elimination of grant expenditures for home purchase in off-reservation locations. This feature of the program is proposed to be eliminated because of the need to spend available funds for items of greater priority, and because the home purchase feature was more in harmony with the previous program emphasis on off-reservation relocation than with present trends to emphasize services on and near reservation areas.

DATE: Written comments, suggestions, or objections regarding the proposed revision must be received on or before November 14, 1977.

ADDRESS: Written comments, suggestions, or objections should be directed to: Assistant Secretary of the Interior for Indian Affairs, Attention: Division of Job Placement and Training, 1951 Constitution Avenue NW., Washington, D.C. 20245.

FOR FURTHER INFORMATION CONTACT:

Mr. John Jollie, Division of Job Placement and Training, telephone 202-343-7408.

SUPPLEMENTARY INFORMATION: It is proposed to add a new Part 33 to Subchapter E, Chapter I of Title 25 of the Code of Federal Regulations to read as follows:

PART 33—EMPLOYMENT ASSISTANCE FOR ADULT INDIANS

Subpart A—Definitions and Scope of the Employment Assistance Program

- Sec. 33.1 Definitions.
33.2 Scope of the Employment Assistance Program.

Subpart B—Administrative Procedures

- 33.3 Filing applications.
33.4 Selection of applicants.
33.5 Program services and client participation.
33.6 Financial assistance for program participants.

Subpart C—Appeals

- 33.7 Appeals.

AUTHORITY: 42 Stat. 208; 25 U.S.C. 13.

Subpart A—Definitions and Scope of the Employment Assistance Program

§ 33.1 Definitions.

(a) "Appeal" means a written request for correction of an action or decision claimed to violate a person's legal rights or privileges as provided in Part 2 of this chapter.

(b) "Applicant" means an individual applying under this part.

(c) "Application" means the process through which a request is made for assistance or services.

(d) "Area Director" means the Bureau official in charge of an Area Office.

(e) "Assistant Secretary" means the Assistant Secretary of the Interior for Indian Affairs.

(f) "Indian" means an enrolled member of a federally recognized tribe.

(g) "Near reservation" means those areas or communities adjacent or contiguous to reservations which are designated by the Commissioner upon recommendation of the local Bureau Superintendent, which recommendation shall be based upon agreement with the tribal governing body of those reservations, as locales appropriate for the extension of financial assistance and/or social services, on the basis of such general criteria as: (1) Number of Indian people native to the reservation residing in the area.

(2) a written designation by the tribal governing body that members of their tribe and family members who are Indian residing in the area, are socially, culturally and economically affiliated with their tribe and reservation, (3) geographical proximity of the area to the reservation, (4) administrative feasibility of providing an adequate level of services to the area. The Assistant Secretary shall designate each area and publish the designations in the FEDERAL REGISTER.

(h) "Reservation" means any federally recognized Indian tribe's reservation, Pueblo, or Colony, including former reservations in Oklahoma, Alaska Native regions established pursuant to the Alaska Native Claims Settlement Act (85 Stat. 688), and Indian allotments.

(i) "Secretary" means the Secretary of the Interior.

(j) "Tribal governing body" means the recognized governing body of an Indian tribe.

§ 33.2 Scope of the Employment Assistance Program.

The employment Assistance program services to eligible Indians, as provided in § 33.4, vocational counseling and employment services on reservations and at other home areas, in communities near reservations, and in off reservation areas. Support services designed to enable individuals to obtain and retain employment are also included, as provided in § 33.4.

Subpart B—Administrative Procedures

§ 33.3 Filing application.

Application for Employment services must be filed at Bureau of Indian Affairs agency offices. Agency offices are located on or near reservations or other geographic areas of eligibility. Applications are approved by the Agency Superintendent. An eligible applicant need not apply at the office serving primarily his original home area or tribal group, but may apply at the servicing office closest to his residence at the time of application. The applicant must be approved and funded, however, by the applicant's home agency, unless the originating agency is willing and able to provide funding. For clarity and uniformity, identical application forms, as prescribed by the Bureau of Indian Affairs, will be used by offices operated by the Bureau of Indian Affairs, and offices operated under contract with the Bureau.

§ 33.4 Selection of applicants.

(a) Applicants must be adult Indian enrolled members of Federally recognized tribes. They must be residing on or near Indian reservations under the jurisdiction of the Bureau of Indian Affairs.

(b) An applicant must be unemployed or substantially underemployed in order to receive employment services.

(c) Male and female applicants shall receive equal priority for services.

(d) Only those applicants who declare a desire and intent to accept and retain full time permanent employment at the employment location chosen shall be selected, with the exception of those individuals participating in the temporary summer placement program as provided in § 33.4.

(e) Normally eligible individuals shall be at least 18 years of age.

(f) Employment services involving no expenditure of financial grants shall be extended to eligible clients as often as requested and considered appropriate. However, repeat services involving expenditure of grant funds are to be determined on an individual basis, considering ability, prior performance, need and motivation. No client shall automatically be entitled to funded repeat services, but no specific limitation is placed upon the number of funded services, which can be provided. Approval of requests for repeat services within a six month period from the ending date of the last funded service shall be based upon special needs.

§ 33.5 Program services and client participation.

(a) When a request is made for employment services, the applicant shall be offered assistance to assess his or her job skills and work experience and to relate these to available employment opportunities. In many cases, applicants for placement services will already possess training, skills, and/or experience sufficient for entry into job placement.

In other cases, applicants may be encouraged to consider further education or training options as a preliminary to permanent employment. In any case, vocational counseling appropriate to the individual situation shall be made available.

(b) Services may be provided either with or without the expenditure of financial grants depending upon the type of service requested and the need for financial assistance. Funds shall not be provided to finance temporary employment except for the following:

(1) High school or college students participating in summer placement programs to gain work experience and temporary income may receive limited funding assistance as needed to enable such persons to secure and hold summer jobs.

(2) Persons who have moved to an off reservation area for permanent employment may at times be required to accept temporary employment until permanent employment is available. Such persons shall receive funds as needed within established limitations until permanent employment can be secured.

(c) Permanent employment shall normally be defined as employment which is generally known to be of one year or more in duration. Employment in the construction or other trades where moving from one job to another is generally required or persons engaged in such occupations shall be considered as permanent employment.

(d) In those cases where applicants apply and are selected for employment services in off-reservation urban locations where Bureau of Indian Affairs Employment Assistance offices are maintained, a variety of services may be provided, based upon individual client needs and requests for assistance. These may include advice in housing, shopping, money management, community adjustment, counseling, job placement and financial assistance, as well as health care and dental coverage for up to six months from the date of arrival if Indian Health Services are not available locally. For maternity benefits, health coverage may be provided up to fifteen months after arrival, if not otherwise covered. Continuing non-financial assistance as needed, particularly with repeat job placements and counseling, shall remain indefinitely available.

(e) Assistance as needed may be provided to enable clients who move for employment to an off-reservation urban or nonurban area to accept a specific job offer. In such cases, however, transportation or financial assistance may be provided only after confirmation has been obtained from the employer, giving details of employment, including the following: Job title, beginning wage, date to start work, first payday, first full payday, and a statement that the job is anticipated to be of a permanent nature. Financial assistance may be provided for transportation to interviews when such interviews are verified as required for job placement.

PROPOSED RULES

§ 33.6 Financial assistance for program participants.

Individuals or families with a family member participating in the employment assistance program may be granted financial assistance as needed, based upon rates established by the Area Directors for the respective areas or jurisdictions within those areas. Financial assistance may be provided for the following: Medical examination; transportation to the place of employment; job interviews; subsistence while seeking employment until the date of the first full paycheck from employment; personal appearance; housewares; furniture; health care; dental care; outpatient services related to mental health; tools needed for employment; special financial assistance for large family and solo parent clients; and emergency assistance, in accordance with the schedules and amounts established by the area offices. Marital status of applicants is not a consideration for determining eligibility for services, but this factor is a consideration in determining appropriate subsistence grants. Proof of a legal relationship requiring support shall be required as a basis for application of family subsistence rates. In the case of married persons, proof of marriage shall be required to satisfy this requirement. Emergency assistance is allowed in cases where verified emergencies justify such grants. Circumstances to be considered in determining emergencies shall include situations which seriously disrupt the progress of program goals for permanent employment and satisfactory social and community adjustment, or matters relating to illness or death.

Subpart C—Appeals

§ 33.7 Appeals.

The decision of any Bureau official under this part can be appealed pursuant to the procedures in Part 2 of this chapter.

This new part is proposed pursuant to the authority contained in the Act of November 2, 1921 (42 Stat. 208, 25 U.S.C. 13).

The primary author of this document is John Jollie, Chief, Division of Job Placement and Training, Office of Tribal Resources Development, Bureau of Indian Affairs, 202-343-7408.

(Catalog of Federal Domestic Assistance Program No. 15.108 Indian Employment Assistance.)

[25 CFR Part 34]

VOCATIONAL TRAINING FOR ADULT INDIANS

Proposed Revision of Program Description

SEPTEMBER 26, 1977.

AGENCY: Bureau of Indian Affairs.

ACTION: Proposed rule.

SUMMARY: The purpose of this revision is to update the authority statement for Part 34. Another purpose is to fully describe the eligibility criteria required for participation in the Bureau's program of Vocational Training for Adult Indians and to explain procedures for filing application for this program. Such information is not fully provided in the present edition of Part 34. In addition, certain changes in eligibility criteria are proposed, removing all practices of sex discrimination, defining the term "near reservation" as it shall apply to eligibility, replacing a blood quantum requirement with membership in a tribe, and regarding repeat services. Other program changes include provision of expenditures for dental health, mental health and emergency situations where necessary, a requirement for proof of dependent relationships to justify family subsistence rates, provisions for part time training, and elimination of grant expenditures for home purchase. Expenditures for home purchase were never reflected in the previous 25 CFR Part 34, but were for a time included in possible client benefits. This feature of the program is proposed to be eliminated because of the need to spend available funds for items of greater priority, and because the home purchase feature was more in harmony with the previous program emphasis on off-reservation relocation than with present trends to emphasize services on and near reservation areas where feasible.

DATE: Written comments, suggestions, or objections regarding the proposed revision must be received on or before November 14, 1977.

ADDRESS: Written comments, suggestions, or objections should be directed to: Assistant Secretary of the Interior for Indian Affairs, Attention: Division of Job Placement and Training, 1951 Constitution Ave. NW., Washington, D.C. 20245.

FOR FURTHER INFORMATION CONTACT:

Mr. John Jollie, Division of Job Placement and Training, telephone 202-343-7408.

SUPPLEMENTARY INFORMATION: It is proposed to revise Part 34, Subchapter E, Chapter I, of Title 25 of the Code of Federal Regulations to read as follows:

PART 34—VOCATIONAL TRAINING FOR ADULT INDIANS

Subpart A—Definitions and Scope of the Vocational Training Program

- Sec. 34.1 Definitions.
34.2 Scope of the vocational training program.

Subpart B—Administrative Procedures

- 34.3 Filing application.
34.4 Selection of applicants.
34.5 Satisfactory progress during training.
34.6 Approval of courses for vocational training at institutions.
34.7 Approval of apprenticeship training.
34.8 Approval of on-the-job training.
34.9 Financial assistance for trainees.
34.10 Contracts and agreements.

Subpart C—Appeals

§ 34.11 Appeals.

AUTHORITY: Sec. 1, Pub. L. 84-959, 70 Stat. 986 (25 U.S.C. 309) as amended by Pub. L. 88-230, 77 Stat. 471 (25 U.S.C. 309).

Subpart A—Definitions and Scope of the Vocational Training Program

§ 34.1 Definitions.

(a) "Appeal" means a written request for correction of an action or decision claimed to violate a person's legal rights or privileges as provided in Part 2 of this chapter.

(b) "Applicant" means an individual applying under this part.

(c) "Application" means the process through which a request is made for assistance or services.

(d) "Full time" institutional training is an institutional trade or technical course requiring attendance of a minimum of 30 hours a week or an institutional undergraduate vocational course offered by a college or university or a quarter or semester hour basis requiring attendance of a minimum of 12 credit hours or its equivalent.

(e) "Area Director" means the Bureau official in charge of an Area Office.

(f) "Assistant Secretary" means the Assistant Secretary of the Interior for Indian Affairs.

(g) "Indian" means an enrolled member of a Federally recognized tribe.

(h) "Near reservation" means those areas or communities adjacent or contiguous to reservations which are designated by the Assistant Secretary upon recommendation of the local Bureau Superintendent, which recommendation shall be based upon agreement with the tribal governing body of those reservations, as locales appropriate for the extension of financial assistance and/or social services, on the basis of such general criteria as: (1) Number of Indian people native to the reservation residing in the area, (2) a written designation by the tribal governing body that members of their tribe and family members who are Indian residing in the area, are socially, culturally and economically affiliated with their tribe and reservation, (3) geographical proximity of the area to the reservation, and (4) administrative feasibility of providing an adequate level of services to the area. The Assistant Secretary shall designate each area and publish the designations in the FEDERAL REGISTER.

(i) "Reservation" means any Federally recognized Indian tribe's reservation, Pueblo, or Colony, including former reservations in Oklahoma, Alaska Native regions established pursuant to the Alaska Native Claims Settlement Act (85 Stat. 688), and Indian allotments.

(j) "Secretary" means the Secretary of the Interior.

(k) "Tribal governing body" means the recognized governing body of an Indian tribe.

§ 34.2 Scope of the Vocational Training Program.

(a) The purpose of the vocational training program is to assist Indian

people to acquire the job skills necessary for full time satisfactory employment. Within that framework, the program provides testing, vocational information and counseling services to assist program participants to make career choices relating personal assets to training options and availability of jobs in the labor market. The program provides for institutional training in business, vocational or trade schools, or other institutions offering vocational programs, as provided in § 34.6. Apprenticeship and on-the-job training are also provided. For the full time participant, institutional or on-the-job training courses shall not exceed twenty-four months in length, with the exception that Registered Nurses training may be for periods not to exceed thirty-six months.

(b) Individual program recipients may not receive more than twenty-four months of full time institutional training, except that Registered Nursing students may receive not more than thirty-six months of institutional training. Part time participants shall receive no more than the full time equivalent of 24 months of institutional training.

Subpart B—Administrative Procedures

§ 34.3 Filing application.

(a) Applications for adult vocational training services must be filed at Bureau of Indian Affairs agency offices. Applications are approved by Agency Superintendents. Agency offices are located on or near reservations or other geographic areas of eligibility. An eligible applicant need not apply at the office serving primarily his or her original home area or tribal group, but may apply at the servicing office closest to his or her residence at the time of application. Applicant must be approved and funded, however, by the applicant's home agency unless the originating agency is willing and able to provide funding.

(b) For clarity and uniformity, identical application forms, as prescribed by the Bureau of Indian Affairs, will be used by offices operated by the Bureau and offices operated under contract with the Bureau.

§ 34.4 Selection of applicants.

Applicants are selected to participate in the vocational training program based on the following criteria:

(a) Applicants must be adult Indian enrolled members of Federally recognized tribes. They must be residing on or near Indian reservations under the jurisdiction of the Bureau of Indian Affairs.

(b) Normally eligible individuals shall be at least 18 years of age, except that Indian high school graduates or married Indians shall be eligible at the age of 17 years. Also, while the program is designed primarily for persons between the ages of 18 and 35, persons over the age of 35 shall be eligible, assuming training and permanent employment to be otherwise feasible in terms of health and physical capability.

(c) An applicant must be in need of training in order to obtain reasonable and satisfactory employment or to advance

in employment already held, and in need of financial assistance in order to obtain such training. It must also be feasible for the applicant to pursue training.

(d) Selection of applicants shall be made without regard to sex.

(e) Only one partner of a marriage shall receive first priority for training services. Such person shall be selected by the couple as the individual to receive first priority. Second priority for training, based upon availability of funds, shall be extended to the other spouse. Non-Indian spouses shall not be eligible for training.

(f) Repeat training services will be on a lower priority than the initial service and will be determined on an individual basis, considering need, ability, prior performance and present motivation of the applicant. In order to be in need of repeat institutional training, applicant must be unemployed or underemployed. Also, the previous training skill must be substantially below the skill acquisition potential of the applicant, or it must be considered unmarketable. Time spent on on-the-job training programs will be deducted from the possible maximum of institutional training eligibility.

(g) Only those applicants who willingly declare intent to accept full time employment as soon as possible after completion of training shall be selected. Plans may subsequently change, but the intent of the training program is preparation for employment, and this must be the initial intent of program participants. The program is not meant to serve as a preliminary to immediate further education.

§ 34.5 Satisfactory progress during training.

An individual who enters training pursuant to the provisions of this part is required to make satisfactory progress in training. Individuals in institutional vocational training courses are required to give evidence of progress by authorizing the institution attended to provide grade and/or progress reports to the appropriate Bureau of Indian Affairs office. Program participants shall maintain a reasonable standard of conduct. Failure to meet these requirements due to reasons within the trainee's control may result in termination of training benefits.

§ 34.6 Approval of courses for vocational training at institutions.

(a) A course of vocational training at any institution, public or private, offering vocational training may be approved by the Assistant Secretary; Provided,

(1) The institution is accredited by a recognized national or regional accrediting association; or

(2) The institution is approved for training by a state agency authorized to make such approvals; and

(3) It is determined that there is reasonable certainty of employment for graduates of the institution in their respective fields of training.

(b) Part-time practical work experiences included in the school curriculum during training time in many vocational courses are considered as valuable learning experiences. They shall be specifically allowed and encouraged.

(c) Vocational training courses offered through Indian tribal governments, need not be accredited but must show reasonable expectation of employment and be approved by the agency office.

§ 34.7 Approval of apprenticeship training.

A program of apprenticeship training may be approved when such training: (a) Is offered by a corporation or association which has furnished such training to bona fide apprentices for at least one year preceding participation in this program; and

(b) Is under the supervision of a State apprenticeship agency, a State Apprenticeship Council, or the Federal Apprenticeship Training Services; and

(c) Leads to an occupation which requires the use of skills that normally are learned through training on the job and employment which is based upon training on the job rather than upon such elements as length of service, normal turnover, personality, and other personal characteristics; and

(d) Is identified expressly as apprenticeship training by the establishment offering it.

§ 34.8 Approval of on-the-job training.

(a) On-the-job training may be approved when such training is offered by a corporation, small business, association, tribe, or tribal enterprise which provides an on-the-job training program offering definite potential for skilled permanent employment. Skilled employment shall be construed to be a job skill outlined by a contractual agreement between the Bureau and the contractor and based upon recognized occupational standards such as, but not limited to, the Dictionary of Occupational Titles.

(b) Yearly on-the-job training contractual agreements with a specific contractor shall not be renewed beyond the second year without review and written approval from the Central Office. Extension of contracts exceeding two years will be based upon a contractors demonstrated expansion of the enterprise, need for additional trainees and placement of trainees completing the program.

§ 34.9 Financial assistance for trainees.

(a) Individuals or families with a family member entering full-time training under this part may be granted financial assistance as needed, based upon rates established by the Area Directors for the respective Areas, or jurisdictions within those areas. Persons in training on a part-time basis may receive financial assistance only for necessary tuition, books, tools, supplies, transportation and child care. Trainees may be assisted to secure educational grants from other sources for which they

qualify, and such income shall be considered in computing amounts of financial assistance to be provided by the Bureau of Indian Affairs. Marital status of trainees is not a consideration for determining eligibility for training, but this factor is a consideration in determining appropriate subsistence grants. Proof of a legal relationship requiring support shall be required as a basis for application of family subsistence rates. In the case of married persons, proof of marriage shall be required to satisfy this requirement. Financial assistance may in some cases be provided for transportation to interviews when such interviews are absolutely required for acceptance for training. Financial assistance may further be provided for the following: Transportation to the place of training; medical examination; subsistence after training until the first full paycheck from employment has been received; personal appearance; housewares; furniture; health care; dental care; outpatient services related to mental health will be provided on an emergency basis only, for all other health services the Indian Health Service may be contacted; payments for required books; tools and supplies for training; child care; payment of tuition; related costs; shipment of household goods; security deposits; and other required expenses as deemed necessary; and emergency assistance in accordance with the schedules and amounts established. Emergency assistance is allowed in certain cases where verified emergencies justify such grants. Factors or circumstances to be considered in determining emergencies shall include situations which seriously disrupt the progress of program goals, or matters relating to illness or death.

§ 34.10 Contracts and Agreements.

Training facilities and services required for programs of vocational training may be arranged through contracts or agreements with agencies, establishments or organizations. These may include:

(a) Indian tribal governing bodies, or

(b) Appropriate Federal, State or local government agencies, or

(c) Public or private schools which have a recognized reputation in vocational education as successfully obtaining employment for graduates, in the fields of training approved by the Assistant Secretary or his authorized representatives for purposes of the program, or

(d) Educational firms to operate residential training centers, or

(e) Corporations and associations or small business establishments with apprenticeship or on-the-job training programs leading to skilled employment.

Regular and standard reports, as determined by the Bureau of Indian Affairs, must be a part of any contractual agreement.

Subpart C—Appeals

§ 34.11 Appeals.

The decision of any Bureau official under this part can be appealed pursuant to the procedures in Part 2 of this chapter.

This revision is proposed pursuant to the authority contained in the Act of August 3, 1956, Pub. L. 84-959 (70 Stat. 986, 25 U.S.C. 309) as amended by Act of December 23, 1963, Pub. L. 88-230 (77 Stat. 471, 25 U.S.C. 309).

The primary author of this document is John Jollie, Chief, Division of Job Placement and Training, Office of Tribal Resources Development, Bureau of Indian Affairs, 202-343-7408.

[Ref. Notice No. 309]

EXPLOSIVES MATERIALS
REGULATIONS

Extension of Comment Period

AGENCY: Bureau of Alcohol, Tobacco and Firearms, Department of the Treasury.

ACTION: Extension of comment period. SUMMARY: Due to the technical nature and scope of the proposed regulations published in the FEDERAL REGISTER on August 3, 1977 (42 FR 39316), the Bureau is extending the comment period on the notice of proposed rulemaking for 60 days. This will give interested persons a better opportunity to respond to the proposals.

DATE: Comments must be received on or before December 2, 1977.

ADDRESS: Written data, comments, or suggestions should be submitted, in duplicate, to the Director, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Ave., NW., Washington, D.C. 20226, attention: Regulations and Procedures Division.

FOR FURTHER INFORMATION CONTACT:

Dorene F. Erhard, Research and Regulations Branch, (202-566-7626).

Signed: October 7, 1977.

DEPARTMENT OF LABOR

Occupational Safety and Health
Administration

[29 CFR Part 1952]

COLORADO

Approved State Plan

AGENCY: Occupational Safety and Health Administration.

ACTION: Proposed rule.

SUMMARY: This notice invites comments on a Supplement to the Colorado Occupational Safety and Health Plan involving legislation exempting small agricultural employers with 10 or fewer employees from coverage under the State Occupational Safety and Health Act. In addition, State standards promulgated for agriculture shall be no more stringent than those promulgated by the Occupational Safety and Health Administration (hereinafter referred to as OSHA).

DATES: Comments and requests for hearing should be submitted by November 14, 1977.

ADDRESS: Written comments and requests for hearing should be submitted to the Director, Federal Compliance and State Programs, Occupational Safety and Health Administration, Department of Labor, Room N-3112, 200 Constitution Avenue, NW., Washington, D.C. 20210.

FOR FURTHER INFORMATION CONTACT:

Charles Boyd, Office of State Programs, Occupational Safety and Health Administration, 200 Constitution Avenue, NW., Room N-3112, Washington, D.C. 20210.

A copy of the plan and its supplement may be inspected and copied during normal business hours at the following locations: Technical Data Center, Occupational Safety and Health Administration, 200 Constitution Avenue, NW., Room N-3620, Washington, D.C. 20210; Office of the Regional Administrator, Room 15010, Federal Building, 1961 Stout St., Denver, Colo. 80202; Department of Labor and Employment, 200 East Ninth Avenue, Denver, Colo. 80203.

SUPPLEMENTARY INFORMATION:

BACKGROUND

The Colorado Occupational Safety and Health plan was approved under Section 18(c) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667(c)) (hereinafter called the Act) and Part 1902 of this Chapter on September 12, 1973 (38 FR 25172). On July 20, 1977, the State of Colorado submitted a supplement to the plan involving a State initiated change. Part 1953 of this Chapter provides procedures for the review and approval of State initiated change supplements by the Assistant Secretary of Labor for OSHA.

PROPOSED RULES

DESCRIPTION OF THE SUPPLEMENT

Colorado amended its Occupational Safety and Health Act on June 19, 1977 to exempt small agricultural employers with 10 or fewer employees from the requirements of the law at such time and under such conditions as any agricultural employers are exempted from coverage under the provisions of the Federal Occupational Safety and Health Act of 1970. In addition, State standards for agriculture shall be no more stringent than those promulgated by OSHA.

PUBLIC PARTICIPATION

Interested persons are given until November 14, 1977 to submit written data, views and arguments concerning whether the supplements should be approved. Such submissions are to be addressed to the Director, Office of Federal Compliance and State Programs at his address as set forth above where they will be available for inspection and copying.

Any interested person may request an informal hearing concerning the proposed supplement by filing particularized written objections within the time allotted for comments specified above. If in the opinion of the Assistant Secretary of Labor for OSHA substantial objections are filed which warrant public discussion, a formal or informal hearing on the subjects and issues involved may be held.

DECISION

The Assistant Secretary shall consider all relevant comments, arguments and requests submitted in accordance with this notice and shall thereafter issue her decision as to approval or disapproval.

Signed at Washington, D.C. this 7th day of October 1977.

EULA BINGHAM,
Assistant Secretary of Labor.

DEPARTMENT OF THE INTERIOR

National Park Service

[36 CFR Part 50]

NATIONAL CAPITAL PARK REGULATIONS

Demonstrations and Special Events

AGENCY: National Park Service, Interior.

ACTION: Proposed rule.

SUMMARY: This proposal would provide for waiver of the limitation on the number of people permitted to conduct a demonstration on the White House sidewalk. This is being proposed as a result of a decision by the National Park Service that an extension of the waiver procedures found in the current regulation is practicable.

DATES: Written comments, suggestions, or objections regarding this proposal will be accepted until November 14, 1977.

ADDRESSES: All comments should be addressed to Regional Director, National Capital Region, 1100 Ohio Drive SW., Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT:

Page H. Jackson, Attorney-Advisor, Office of the Solicitor, Department of the Interior, Washington, D.C. 20240 (202-343-4338).

SUPPLEMENTARY INFORMATION: This rule is proposed pursuant to an Order on Mandate filed in *A Quaker Action Group v. Andrus*, No. 668-69 (D.D.C., July 15, 1977) which relates to demonstrations conducted on the White House sidewalk (south Pennsylvania Avenue sidewalk between East and West Executive Avenues NW.). It will extend the numerical limitation waiver procedures now applicable in Lafayette Park, to demonstrations on the White House sidewalk and will thereby permit under certain circumstances in excess of 750 persons to demonstrate there.

By its Order, the United States District Court for the District of Columbia held that the waiver procedure established for Lafayette Park (36 CFR 50.19(e)(2)) had been in effect for a reasonable time and, ordered the Department of the Interior to publish within 90 days a proposed amendment to 36 CFR 50.19 to extend the waiver procedure to the White House sidewalk, or proffer to the Court facts showing that such an extension is impractical. The Department of the Interior, after consultation with the United States Secret Service, believes such an extension is practical and is initiating this rulemaking process in accordance with the Court's Order on Mandate.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they desire to have the Regional Director consider before the proposed amendment set forth below is issued in final form. All written comments received by the Regional Director on or before November 14, 1977, will be considered before the Director, National Park Service takes final action. The current proposed amendment may be changed in light of comments received.

All comments submitted will be available, both before and after the closing date, for examination in the Regional Director's office.

AUTHORITY

This action is being proposed under the authority of Section 3 of the Act of August 25, 1916, 39 Stat. 535, as amended (16 U.S.C. 3); the Act of July 1, 1898, 30 Stat. 570 (8 D.C. Code 108 et seq.); and 245 DM-1 (42 FR 12931).

NOTE:—The National Park Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 and OMB Circular A-107.

WILLIAM J. WHALEN,
Director,
National Park Service.

PROPOSED RULES

It is proposed to amend 36 CFR 50.19 (e) by revising the introductory text and paragraphs (e) (1) and (2), redesignating paragraphs (e) (3) through (10) as (e) (4) through (11) and adding a new paragraph (e) (3), to read as follows:

§ 50.19 Demonstrations and special events.

(e) Issuance of permits shall be subject to the following limitations:

(1) No more than 750 persons shall be permitted to conduct a demonstration on the White House sidewalk at any one time.

(2) No more than 3,000 persons shall be permitted to conduct a demonstration in Lafayette Park at any one time.

(3) The Director may waive the 750 person and 3,000 person limitations upon a showing by the applicant that the proposed demonstration has been planned and will be patrolled in such a fashion as to render unlikely any substantial risk to legitimate public interests in the area. In making a waiver determination the Director shall consider and the applicant shall furnish the following information at least 15 days in advance of the proposed demonstration:

(i) Number of marshals to be furnished.

(ii) The training these marshals have received including a brief summary of that training.

(iii) The experience of these marshals in crowd situations including a brief summary of those experiences.

(iv) The equipment to be furnished marshals including number of portable radios, power and frequency.

(v) The means by which marshals shall be identified.

(vi) A summary of proposed marshal functions including emergency contingency plans.

(vii) List of emergency facilities to be provided including first aid and sanitary facilities.

ENVIRONMENTAL PROTECTION
AGENCY

[40 CFR Part 162]

[FRL 784-4]

SPECIAL PACKAGING OF PESTICIDES
Proposed Guidelines

AGENCY: Environmental Protection Agency, Office of Pesticide Programs.

ACTION: Proposed rule.

SUMMARY: This proposed rule would require the special packaging of certain pesticides and would set forth guidelines concerning the testing protocols to be followed in evaluating this packaging. The intent of this proposed rule is to decrease the number of hazardous exposures of a pesticide product to humans.

DATES: Comments must be received on or before December 13, 1977. Proposed

effective date: One year after publication of final rule.

ADDRESSES: Interested persons may participate in this proposed rulemaking by submitting written comments to the Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, Environmental Protection Agency, Rm 401, East Tower, 401 M St. SW., Washington, D.C. 20460. Comments should be filed in triplicate. The comments should bear the identifying notation "OPP-_____". All written comments filed will be available for public inspection at the Office of the Federal Register Section from 8:00 a.m. to 4 p.m. Monday through Friday. The proposal may be changed in light of the comments received.

FOR FURTHER INFORMATION CONTACT:

Maureen J. Grimmer, Project Leader, (WH-566), Office of Pesticide Programs, Environmental Protection Agency, 401 M St. SW., Washington, D.C. 20460, (202-755-8030).

SUPPLEMENTARY INFORMATION: These rules are designated § 162.16 and the guidelines are designated § 162.94 of Title 40 and are being written under the authority of Section 25(c)(3) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended in 1972 and 1975 (Pub. L. 92-516, 86 Stat. 983; Pub. L. 94-140, 89 Stat. 755; 7 U.S.C. 136 et seq.; hereinafter referred to as FIFRA).

Final regulations for the registration, reregistration and classification of pesticides were published in the *FEDERAL REGISTER* July 3, 1975, 40 FR 28242. Proposed Guidelines for registering pesticides were published in the *FEDERAL REGISTER* June 25, 1975, 40 FR 26802. These documents reserved sections concerning the pesticides requiring special packaging and the testing protocols for special packaging. The requirement of special packaging for certain pesticide products shall be incorporated into the pesticide registration process.

BACKGROUND

Since enactment of the Poison Prevention Packaging Act of 1970, the authority to administer the special packaging of pesticides has shifted among the Department of Health, Education, and Welfare (DHEW), the Consumer Product Safety Commission (CPSC), and the Environmental Protection Agency (EPA).¹ Presently, section 25(c)(3) of amended FIFRA authorizes the Administrator of EPA to:

Establish standards (which shall be consistent with those established under the authority of the Poison Prevention Packaging Act (Pub. L. 91-601)) with respect to the package, container, or wrapper in which a

¹ As of May 11, 1976, EPA has been vested with sole jurisdiction of the special packaging of pesticides under the executive authority of section 25(c)(3), FIFRA (Consumer Product Safety Commission Improvements Act of 1976, Pub. L. 94-284, 90 Stat. 503).

pesticide or device is enclosed for use or consumption, in order to protect children and adults from serious injury or illness resulting from accidental ingestion or contact with pesticides or devices regulated by this Act as well as to accomplish the other purposes of this Act.

Section 2(q)(1)(B) of the amended FIFRA, states that a pesticide is misbranded if "it is contained in a package or other container or wrapping which does not conform to the standards established by the Administrator pursuant to section 25(c)(3)."

These proposed regulations were prepared after considering the comments to a September 14, 1972 DHEW proposal (37 FR 18629) for the special packaging of pesticides, reviewing the available accident statistics and scientific literature, and meeting with representatives of affected pesticide and packaging industries, concerned members of the general public, and officials of CPSC.

DISCUSSION OF MAJOR PROVISIONS AND
ISSUES

GENERAL

These regulations are intended to complement the registration and classification scheme of FIFRA section 3. Classification will take place over an extended period of time either by regulation or at the time of reregistration of a particular pesticide product. When a pesticide product is classified for restricted use, it may only be applied by or under the direct supervision of a certified applicator or pursuant to another regulatory restriction imposed by the Administrator under section 3(d)(1)(C)(ii) of FIFRA. Where use is by a certified applicator, his training, supplemented by the label of the specific pesticide product, should assure proper application, storage and disposal techniques. Where use is pursuant to any other regulatory restriction, the need for special packaging will be considered. These safeguards should significantly reduce the risk that any pesticide which is a candidate for restricted use is the cause of serious injury to children, adults or the environment.

These regulations provide that pesticide products intended for residential use must be specially packaged to protect children and adults (1) if the formulation of the product meets or exceeds certain criteria, or (2) if the Administrator determines there is a serious hazard based upon human toxicological data, use history, accident data or other available evidence.

At the time a pesticide product is classified, if it falls within the criteria for special packaging as set forth in this regulation and is specially packaged, generally the product will not be classified for restricted use. However, if EPA determines that special packaging will not sufficiently decrease exposure to the hazards associated with the product, the product will be classified for restricted use, and may or may not be required to be specially packaged. Alternatively, if the hazards indicated by the criteria of

PROPOSED RULES

§ 162.16(c)(2) are not indicative of the hazards to man, it may be possible that special packaging would not be required for the product even if the product exceeds the criterion. For example, certain rodenticides that are highly toxic to rodents have a low toxicity in humans.

RESIDENTIAL APPLICATION

These regulations are primarily directed at safeguarding children and adults from accidental exposure to highly toxic pesticides intended for residential application. They do not apply to pesticides registered for agricultural or commercial application.

EPA estimates that most pesticide-related accidents occur in and around the home as a result of domestic use. For example, figures obtained from an EPA study¹ reveal that less than 30 percent of all pesticide-related hospital admissions between 1971 and 1973 were in the areas of agricultural or commercial pesticide application, in the formulating or manufacturing plant, or affected the farmer, commercial applicator, skilled or unskilled laborer, professional or semi-professional pest control operator, and the like. Approximately 70 percent of all pesticide incidents requiring some sort of hospital care occurred to persons applying pesticides in residential situations. Accordingly, the special packaging of certain pesticides intended for residential use should offer protection from most pesticide accidents.

The term "residential application" is defined at § 162.16(b)(2) and is new to this Section. The section 3 regulations speak in terms of domestic or nondomestic application. The term "domestic application," as defined at 40 CFR 162.3 (m), includes application of a pesticide in, on or around all structures associated with the household or homelife as well as patient care areas of health related institutions and areas where children spend time. The scope of the term "residential application" is included within the meaning of "domestic application," except that residential application does not include patient care areas of health related institutions, which is within the term "domestic application," because other adequate safeguards, including supervision and security of store-room areas, exist in these areas.

These regulations are directed at safeguarding children and adults from accidental exposure to pesticides through the use of special packaging. EPA believes that the purpose of special packaging is twofold, first, to prevent children from gaining access to the contents of a package, and second, to make adults aware that the contents of a package may be hazardous. Special packaging

discourages adults from carelessly exposing themselves to toxic pesticides.

The fact that a product has non-residential, as well as residential, uses on the label will not exempt it from the special packaging requirement, if the residential uses require special packaging. EPA hopes to encourage the separate packaging of the more toxic pesticides for residential and non-residential application.

CRITERIA FOR SPECIAL PACKAGING

The proposed regulations of the DHEW would have required special packaging only for those pesticides with an acute oral toxicity in EPA toxicity categories 1 or 2. EPA's proposed regulations expand the class of pesticides that may require special packaging. In addition, they reserve to the Administrator the discretion to regulate pesticides on a product by product basis. Although the acute oral toxicity of a pesticide is certainly important in determining whether or not special packaging should be required, it is not the only important criterion. The dermal and inhalation toxicity of the pesticide, as well as the skin and eye effects that can be anticipated from exposure, are also important considerations. Therefore, EPA is proposing that special packaging be required for any domestic use pesticide approved for residential application which falls within the criteria of § 162.16(c)(2). These criteria are in large part identical to the criteria of 40 CFR 162.11(c)(1)(i) which set forth indices to determine whether a domestic use product is a candidate for restricted use classification. The only differences from these criteria are that whereas 40 CFR 162.11(c)(1)(i)(E) sets forth an acute oral LD50 criterion greater than 1.5 for the formulation as diluted for use, § 162.16(c)(2)(v) applies the same criterion to the pesticide formulation.

In addition, § 162.16(c)(2)(vi) of these regulations provides for consideration of other data in addition to toxicological data in cases where these data are not truly indicative of human hazard. Pesticides which do not meet the criteria of § 162.16(c)(2) will require special packaging if human toxicological data, use history, accident data or any other evidence indicates the existence of a serious threat of accidental injury or illness to children. Pesticides meeting the criteria of § 162.16(c)(2) will not require special packaging if the toxicity is not indicative of a serious hazard to man. By not requiring special packaging for those pesticides which represent a significantly lesser hazard to man, the Agency hopes to encourage the development of relatively safer pesticides.

TESTING PROTOCOLS AND EFFECTIVENESS SPECIFICATIONS

The testing protocols set out in § 162.16(d)(3) and § 162.94 are directly intended to prevent children under the age of five years from opening the package. EPA chose this protocol for two reasons. First, EPA's Pesticide Episode Review

System (PERS) reveals that 40 percent of all human pesticide related accidents (excluding accidents relating to misuse of a product) occur to children under the age of five years. By comparison, children between the ages of five and seventeen are involved in approximately 5 percent of these accidents. Of these pesticide-related accidents involving children under five years, almost 70 percent may be directly related to the packaging of the pesticide product.²

Also, the Department of Health, Education, and Welfare reports that, of all accidents reported to Poison Control Centers from 1972-1974, between 82 percent and 86 percent involved children under five years.³

Secondly, section 25(c)(3) of the FIFRA provides that any special packaging standards for pesticides must be consistent with standards established under the authority of the Poison Prevention Packaging Act. Congress and EPA recognize the expertise of the Consumer Product Safety Commission in evaluating the effectiveness of safety packaging and in assessing the capabilities of the packaging industry. Accordingly, EPA has adopted the standards of the Consumer Product Safety Commission. (15 CFR 1700.15, 1700.20.) Duplicative effectiveness testing of packages intended for pesticidal and non-pesticidal purposes can thereby be avoided.

BENEFITS OF SAFETY PACKAGING

The prime benefits of special packaging is its record of effectiveness. The Consumer Product Safety Commission initiated safety packaging regulations with aspirin products, then the substance most frequently ingested by children according to the National Clearinghouse of Poison Control Statistics. The special packaging regulation for aspirin products became effective in 1973. In the three year period following the promulgation of this regulation, accidental aspirin ingestions decreased by 41 percent and aspirin-induced deaths of preschool children declined by 63 percent. The fact that poisonings from antifreeze ingestions has declined by 70 percent since instituting special packaging requirements provides additional proof of the effectiveness of special packaging regulations in reducing pediatric poisonings. Similar results were recorded when regulations encompassed all petroleum products. Those products that have not yet been required to utilize safety packaging (e.g., pesticides, perfumes, colognes) all

² National Clearinghouse for Poison Control Centers Bulletin, September, 1976, U.S. Department of Health, Education, and Welfare, Public Health Service, Food and Drug Administration.

³ National Study of Hospital Admitted Pesticide Poisonings, Epidemiologic Studies Program, Human Effects Monitoring Branch, Technical Services Division, Office of Pesticide Programs, U.S. Environmental Protection Agency, pp. 28-30, 76, 98, 120 (April, 1976). EPA assumes that any admission not included in the listed categories resulted from residential situations.

PROPOSED RULES

show annual increases in the number of accidental poisonings.

PACKAGE SIZE AND TECHNOLOGY

The regulation proposed by the DHEW provided that the size of the pesticide container was to be a criterion in determining whether or not special packaging would be required. The almost unanimous comment to this provision was that package size would not necessarily be determinative of use and that such regulations would therefore impact heavily on pesticides intended for commercial use. There is no persuasive evidence that special packaging is not feasible for larger containers, per se, nor is there persuasive evidence that a slightly larger package is inherently protective of children. There is, however, evidence that child protective packaging is not presently feasible for certain sizes and types of pesticide containers. These situations will be dealt with on a case-by-case basis during the registration process.

EPA would specifically like to receive comments from persons who manufacture special packaging and pesticide registrants who will have to comply with these rules regarding both the technology available for special packaging and, specifically, the compatibility of the package and closures now available with pesticide formulations that will have to be so packaged.

The regulations, as proposed below, make no specific reference to the size of the pesticide container. The use(s) for which a product is sold, the channels of trade through which it moves, the labeling of the product and the promotional effort in marketing are all factors of considerable importance in distinguishing a pesticide approved for domestic residential application from a pesticide approved for domestic non-residential or non-domestic application. EPA believes that by placing the emphasis on product use, it better serves the purpose and intent of FIFRA.

However, the size of the pesticide container cannot be entirely disregarded. EPA has taken into account the variety of forms that special packaging might take and does not desire to limit in any way the development of new forms of special packaging. Therefore, the definition of special packaging encompasses not only child resistant closures, but also unit or such size packaging which would permit only non-harmful amounts of the pesticide to be obtained at one time. (See §§ 162.16(b)(3) and 162.16(b)(4).)

Although this regulation is primarily concerned with how easy or difficult it is to gain access to the contents of a package, neither the protocol nor this regulation is intended to cover the range of problems that may be associated with packaging, such as the capacity of the package to break or be punctured. These problems will be dealt with in detail at a later time in a separate regulation. However, under this regulation it is intended that the entire package be tested. Containers which, for example, use safety closures which are not compatible with the container body are not acceptable.

NON-COMPLYING PACKAGING

The Poison Prevention Packaging Act makes provision for non-complying packaging for the benefit of elderly and handicapped persons if the manufacturer or packer also supplies the substance in packages which comply with the special packaging standard. The Environmental Protection Agency recognizes the worthy purposes for allowing this non-complying packaging. Unfortunately, the marketing of non-complying packages could seriously deter efforts under the FIFRA to reduce the incidence of accidental pesticide poisoning in young children. The legislative history of the Poison Prevention Packaging Act makes clear that Congress intended special packaging to be the rule rather than the exception. Furthermore, those pesticide products which do not exceed the criteria for special packaging will continue to be available for use in regular packaging. Therefore, EPA has decided that all pesticides that fall within these criteria for special packaging must be specially packaged.

DEVICES

On November 30, 1976, the Agency published in the FEDERAL REGISTER a notice consolidating and clarifying requirements of the FIFRA applicable to pest control devices (40 FR 51065). In discussing the misbranding provisions of the Act, the notice provides that a device will be subject to enforcement action if its packaging or wrapping fails to conform with standards established pursuant to section 25(c)(3). The notice goes on to say "Such standards have not, as of this date, been issued by the Administrator; at such time as they are, the question of their applicability to devices will be addressed."

EPA does not now have sufficient information regarding the kinds of devices which should require special packaging. When EPA has sufficient cause to address a packaging requirement for devices, it will add such a provision to this regulation.

STATUTORY REVIEW

EPA received comments from the U.S. Department of Agriculture (Attachment I) which are published following the regulation together with EPA's response (Attachment II) according to Section 25 (a)(2)(A) of FIFRA. The FIFRA Scientific Advisory Panel reviewed the proposed regulation at a meeting on February 17, 1977 and unanimously concurs with the proposal. The SAP comments are published in Attachment III according to Section 25(d) of FIFRA.

EFFECTIVE DATE

The Consumer Product Safety Commission has available upon request a list entitled "Manufacturers of Safety Packaging Who Have Indicated That One or More Designs Have Passed the Testing Protocol." The list is not intended to indicate approval or endorsement of the listed firms. Some of these packages may be satisfactory for the packaging of many pesticides. EPA proposes a lead time of one year after publication of the

final regulations. Only products released for shipment by the producers after that date (regardless of the date manufactured) will be subject to these regulations. Products already in commerce on that date will not be recalled in order to comply with these regulations. EPA specifically solicits comments regarding the appropriate lead time for full effectiveness of these regulations. Applicants for new registrations must submit the information required under § 162.16(e) as part of the application. The required information for presently registered products must be submitted as an application for amended registration. We will be working closely with the Consumer Product Safety Commission in evaluating the feasibility, appropriateness and availability of special packaging for pesticides.

INFLATION IMPACT STATEMENT

The Environmental Protection Agency has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Orders 11821 and 11949 and OMB Circular A-107.

Dated: October 6, 1977.

DOUGLAS M. COSTLE,
Administrator.

It is proposed that Part 162, Chapter I, Title 40 of the Code of Federal Regulations be amended by adding §§ 162.16 and 162.94 to be effective 12 months after publication of the final rule and to read as follows:

Sec.
162.16 Pesticides requiring special packaging.
162.94 Guidelines for special packaging of pesticides.

AUTHORITY.—Secs. 3, 25(c)(3), Federal Insecticide, Fungicide, and Rodenticide Act, as amended (Pub. L. 92-516, 86 Stat. 973; Pub. L. 94-140, 89 Stat. 755; 7 U.S.C. 136 et seq.).

§ 162.16 Pesticides requiring special packaging.

(a) General. Section 25(c)(3) of the Act authorizes the Administrator to establish standards with respect to the package container or wrapping in which a pesticide or device is enclosed for use or consumption in order to protect children and adults from serious injury or illness resulting from accidental ingestion or contact with pesticides or devices regulated by this Act.

(b) Definitions. Terms used in this section shall have the same meaning set forth in the Act and in § 162.3. In addition, as used in this section:

(1) The term "package" means the immediate container or wrapping in which any pesticide is contained for consumption use or storage. Package does not include:

(i) Any shipping container or wrapping used solely for the transportation of any pesticide in bulk or in quantity to manufacturers, packers or processors, or to wholesale or retail distributors thereof; or

(ii) Any shipping container or other wrapping used by retailers to ship or

PROPOSED RULES

deliver any pesticide to consumers unless it is the only such container or wrapping.

(2) The term "residential application" means application of a pesticide directly to humans or pets or application of a pesticide in, on, or around all structures, vehicles or areas associated with the household or homelife or areas where children spend time including, but not limited to:

(i) Gardens, non-commercial green-houses, yards, patios, houses, pleasure marine craft, mobile homes, campers and recreational vehicles, non-commercial campsites, home swimming pools and kennels;

(ii) Articles, objects, devices or surfaces handled or contacted by humans or pets in all structures, vehicles or areas listed above; and

(iii) Educational, lounging and recreational areas of preschools, nurseries and day camps.

(3) The term "special packaging" means packaging that is designed and constructed to be significantly difficult for children under five years of age to open or to obtain a toxic or harmful amount of the substance contained therein within a reasonable time and that is not difficult for normal adults to use properly.

(4) The term "unit package" means a package that is labeled with directions to use the contents in a single application or which consists of individually packaged dosage units.

(c) *Pesticides requiring special packaging*—(1) *General*. In order to protect children from accidental handling, contact or ingestion, special packaging is required for pesticide products approved for residential application falling within the criteria set forth in subparagraph (2) of this paragraph: *Provided however*, That special packaging is not required for those pesticides for which the hazards indicated by the criteria in subparagraph (2) of this paragraph are not indicative of the hazards to man. Generally, at the time of classification a pesticide product which falls within the criteria set forth in subparagraph (2) of this paragraph and is specially packaged will not be classified for restricted use. The Agency may, on a case-by-case basis, classify a pesticide product which falls within the criteria set forth in subparagraph (2) of this paragraph and is specially packaged for restricted use.

(2) *Criteria for special packaging*. A pesticide product approved for residential application will require special packaging if the tests conducted for the pesticide formulation (as specified in the Registration Guidelines) on the appropriate test animals and pursuant to the test standards set forth in the Registration Guidelines indicate that the pesticide formulation:

(i) Has an acute dermal LD₅₀ of 2,000 mg/kg or less;

(ii) Has an inhalation LC₅₀ of 2 mg/liter or less;

(iii) Is corrosive to the eye or causes corneal opacity or irritation persisting for 7 days or more;

(iv) Is corrosive to the skin or causes severe skin irritation at 72 hours;

(v) Has an acute oral LD₅₀ of 1.5 g/kg or less; or

(vi) Has such characteristics that, based upon human toxicological data, use history, accident data or such other evidence as is available, the Administrator determines that there is a serious hazard of accidental injury or illness to children which special packaging could reduce.

(d) *Standards for special packaging*—

(1) *General requirements*. (i) The special packaging must continue to function with the effectiveness specifications set forth in subparagraph (2) of this paragraph when in actual contact with the substance contained therein. This requirement may be satisfied by appropriate scientific evaluation of the compatibility of the substance with the special packaging to determine that the chemical and physical characteristics of the substance will not compromise or interfere with the proper functioning of the special packaging and that the packaging will not be detrimental to the integrity of the product during storage and use.

(ii) The special packaging must continue to function with the effectiveness specifications set forth in subparagraph (2) of this paragraph for the number of times the package is opened and closed that is customary for its size and contents and throughout the reasonably expected lifetime of the package. This requirement may be satisfied by appropriate technical evaluation based on physical wear and stress factors, force required for activation and other such relevant factors which establish that, for the duration or normal use, the effectiveness specifications of the packaging would not be expected to lessen.

(2) *Effectiveness specifications*. The special packaging tested by the method referred to in subparagraph (3) of this paragraph, shall meet the following specifications:

(i) Child-resistant effectiveness of not less than 85 percent without a demonstration and not less than 80 percent after a demonstration of the proper means of opening such special packaging. In the case of unit packaging, child-resistant effectiveness of not less than 80 percent.

(ii) Adult-use effectiveness of not less than 90 percent without a demonstration.

(3) *Testing procedures*. Standards for special packaging shall be evaluated pursuant to the protocols specified in the Registration Guidelines (40 CFR 162.94).

(e) *Submission*. The registrant of a pesticide which requires special packaging shall submit the following information as an application for amended registration. An applicant for a new registration shall submit the following information at the time of his application for registration. The registrant or applicant is responsible for the accuracy and completeness of all the information submitted.

The registrant shall submit:

(1) A full description of the package including:

(i) A full description of the container including:

(A) Its dimensions; and
(B) Its material; and

(ii) A full description of the closure, if appropriate, including:

(A) The name of its manufacturer; and

(B) The manufacturers' designation (title), for the special packaging closure or, the physical working of the special packaging mechanism; and

(C) The explicit directions for proper use of the closure and the placement of these directions on the package;

(2) A report of the data resulting from the tests conducted in accordance with §§ 162.16(d) and 162.94 or proof that the closure has been previously tested with satisfactory results; and

(3) Data in support of the compatibility of the pesticide formulation with the entire package to determine that the chemical and physical characteristic of the substances will not compromise or interfere with the efficacy of the pesticide and the functioning of the pesticide product container and/or closure.

§ 162.94 Guidelines for special packaging.

The protocol for testing special packaging shall be as follows:

(a) Use 200 children between the ages of 42 and 51 months inclusive, evenly distributed by age and sex, to test the ability of the special packaging to resist opening by children. The even age distribution shall be determined by having 20 children (plus or minus 10 percent) whose nearest age is 42 months, 20 whose nearest age is 43 months, 20 at 44 months, etc., up to and including 20 at 51 months of age. There should be no more than 10 percent preponderance of either sex in each age group. The children selected should be healthy and normal and should have no obvious or overt physical or mental handicap.

(b) The children shall be divided into groups of two each. The testing shall be done in a location that is familiar to the children; for example their customary nursery school or regular kindergarten. No child shall test more than two special packages, and each package shall be of a different type. For each test, the paired children shall receive the same package simultaneously. When more than one special package is being tested, the designs tested shall be presented to the paired children in random order, and this order shall be recorded. The special package, each test unit of which, if appropriate, has previously been opened, and properly resealed by the tester, shall be given to each of the two children with a request for them to open it. (In the case of unit packaging, it shall be presented exposed so that the individual unit is immediately available to the child.) Each child shall be allowed up to 5 minutes to open the special package. For those children unable to open the special package after the first 5 minutes, a single visual demonstration, without verbal explanation, shall be given by the demonstrator. A second 5 minutes shall then be allowed for opening the special package. (In the case of unit packaging, a single visual demonstration, without verbal explanation, will be provided at the end of the first 5 minutes only for those test subjects who have not opened at least one unit package, and a second 5 minutes allowed for all subjects.) If a child fails to use his teeth to open the special package during the first 5 minutes, the demonstrator shall instruct him, before the start of the second 5-minute period, that he is permitted to use his teeth if he wishes.

(c) Records shall be kept on the number of children who were not able to open the special package, with and without demonstration. (In the case of unit packaging, records shall be kept on the number of individual units opened or gained access to by each child.) The percent of child-resistant effectiveness shall be the number of children tested, less the test failures, divided by two. A test failure shall be any child who opens the special package or gains access to its contents. In the case of unit packaging, however, a test failure shall be any child who opens or gains access to the number of individual units which constitute the amount that may produce serious personal injury or serious illness, or a child who opens or gains access to more than 8 individual units, whichever number is lower, during the full 10 minutes of testing. The determination of the amount of a substance that may produce serious personal injury or serious illness shall be based on a 25 pound child.

(d) In the testing of unit packaging to be opened by use of a tool, it is not necessary to provide the children with the tool needed to open the container unless the tool accompanies the container when offered for sale to consumers. In the adult phase of the test, where a tool is needed to open a special package, but does not accompany the container, the adult test subjects may be provided with the required tool, in addition to the instructions concerning the proper method of opening which are printed on the packaging.

(e) One hundred adults, age 18 to 45 years inclusive, with no overt physical or mental handicaps, and 70 percent of whom are female, shall comprise the test panel for normal adults. The adults shall be tested individually, rather than in groups of two or more. The adults shall receive only such printed instructions on how to open and properly resecure the special packaging as will appear on the package as it is delivered to the consumer. Five minutes shall be allowed to complete the opening and, if appropriate, the resecuring process.

(f) Records shall be kept on the number of adults unable to open and the number of other adults tested who fail to properly resecure the special packaging. The number of adults who successfully open and properly resecure the special package (if resecuring is ap-

propriate) is the percent of adult-use effectiveness of the special packaging. In the case of unit packaging, the percent of adult-use effectiveness shall be the number of adults who successfully open a single package. The unit package shall not be subject to the resecuring provision above.

PROPOSED RULES

[FR Doc.77-30063 Filed 10-13-77; 8:45 am]

[7035-01]

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 1062]

[Ex Parte No. MC-109]

MOTOR CARRIERS; SPECIAL APPLICATION PROCEDURES FOR FOR-HIRE MOTOR CARRIERS

Applications Seeking Substitution of Single-Line Service for Existing Joint-Line Operations

AGENCY: Interstate Commerce Commission.

ACTION: Proposed regulations.

SUMMARY: The Interstate Commerce Commission is proposing to establish regulations which would govern application proceedings for operating rights where the applicant is a motor common carrier seeking authority to conduct a single-line service in lieu of an existing joint-line service. Under the proposed regulations an applicant would be required to identify clearly its proposal as one seeking authority to substitute a single-line service for its existing joint-line operations. Secondly, in addition to submitting that information which is presently required in operating rights applications proceedings, the applicant will be required to submit evidence demonstrating that it has been participating in the supporting shipper(s)' involved traffic in joint-line operations. This proposed rule is an outgrowth of recommendations contained in a Staff Task Force report suggesting improvements in the motor carrier regulation.

DATES: Written comments should be filed with the Commission on or before November 14, 1977.

ADDRESSES: Send comments to: Office of Proceedings, Interstate Commerce Commission, Washington, D.C. 20423.

FOR FURTHER INFORMATION CONTACT:

Michael Erenberg, Assistant Deputy Director, Section of Operating Rights, Office of Proceedings, Washington, D.C. 20423, phone 202-275-7292.

SUPPLEMENTARY INFORMATION: The Interstate Commerce Commission is proposing to establish regulations which would govern application proceedings for operating rights where the applicant is a motor common carrier seeking authority to conduct a single-line service in lieu of an existing joint-line service. Under the proposed regulations an applicant would be required to identify clearly its proposal as one seeking authority to substitute a single-line service for its existing joint-line operations. Secondly, in addition to submitting that information which is presently required in operating rights applications proceedings, the applicant will be required to submit evidence demonstrating that it has been participating in the supporting shipper(s)' involved traffic in joint-line operations. This proposed rule is an outgrowth of recommendations contained in a Staff Task Force report suggesting improvements in the motor carrier regulation.

ing authority to substitute a single-line service for its existing joint-line operations. Secondly, in addition to submitting that information which is presently required in operating rights applications proceedings, the applicant will be required to submit evidence demonstrating that it has been participating in the supporting shipper(s)' involved traffic in joint-line operations. As has always been the case, opposing evidence of carriers participating in the existing joint-line service would be considered in reaching a determination of public convenience and necessity. However, if (1) the application was not opposed by any carrier which is a participant in the existing joint-line service, and (2) the applicant complied with the requirements discussed above, then the application would be granted. Accordingly, the parties not participating with applicant in the joint-line service would not have standing to oppose the application on the ground that the proposed service is not needed, and they could only oppose the application on the ground of applicant's fitness to conduct the proposed service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations.

On June 2, 1977, a Staff Task Force was established for the purpose of recommending to the Commission possible areas for improvement in motor carrier entry regulation. On July 6, 1977, the Staff Task Force issued a report containing 39 specific recommendations for improving motor carrier regulation. This proposed rule is an outgrowth of Recommendation No. 11 contained in the Staff Task Force report.

In acting upon this recommendation the Commission recognizes that there are certain types of applications for operating authority which normally are or should be granted notwithstanding the nature or scope of the opposition. It is the duty of this Commission to identify these cases, and, in a manner consistent with justice and fairness, to take responsive action to assure that transportation requirements of our society are adequately and expeditiously met.

The Commission is currently considering a number of proposals for modifying motor carrier entry regulation, including a number of recommendations advanced by the staff task force. Interested persons participating in, and wishing to advance similar arguments in, more than one of these proceedings need not file duplicative statements. Instead, they may incorporate by reference all or any part of a statement filed in one of these proceedings in this or any other of these proceedings.

DISCUSSION OF THE ISSUES

BENEFITS OF SINGLE-LINE SERVICE

In determining whether a proposed service is required by the public convenience and necessity, this Commission has traditionally examined applications for operating authority in light of the criteria enunciated in "Pan-American Bus Lines Operation," 1 M.C.C. 190

(1936). The question to be resolved is whether the proposed operations will serve a useful public purpose, responsive to a public demand or need; whether this purpose can or will be served as well by existing lines or carriers; and whether the new services can be instituted without endangering or impairing the operations of existing carriers contrary to the public interest and the national transportation policy.

The proposed regulations pertain to applications in which a motor common carrier seeks to institute a single-line service in lieu of an existing joint-line operation. The Commission has reviewed a substantial number of such applications and found that, in many instances, the benefits accruing to the public from granting such proposals are both plentiful and significant.¹

Initially it is important to note that this proposal would benefit only those applicants already participating through interline arrangements, in the available traffic so that they cannot be considered new entrants in the involved transportation market. Often the filing of applications of this kind is prompted by one carrier's desire to continue participating in a particular shipper's traffic where it is suddenly faced with the loss of access to a given origin or destination point due to the deterioration or cancellation of an interline connection. The applicant will frequently have invested capital in terminal facilities and equipment.

The loss of the interline service will obviously have an adverse impact upon the shippers which have come to rely upon it to meet their transportation requirements. In addition, the replacement of joint-line service by single-line service often engenders significant savings in mileage, fuel, time, and paperwork. Moreover, the Commission has, upon occasion, taken note of the competitive disadvantages of shippers which do not have single-line services available to meet their transportation requirements. It has recognized that joint-line service entails a higher risk of loss, damage, and delay than does single-line service.

It is fundamental that public convenience and necessity may be found in operating economies and in contributions to expedition and efficiency. These not only accrue to the affected carrier and shipper, but ultimately are passed onto the consuming public. Thus, the Commission in recognition of these factors has often authorized proposed service even where the services of existing carrier appear to be adequate.

WHO MAY PROTEST AN APPLICATION

In administering the Act, the Commission has not found that shippers are entitled to a single-line service merely as a matter of preference, nor would they be under the proposed regulations.

¹ See, for example, "Knox Motor Service, Inc., Ext.—Transformers," 126 M.C.C. 413 (1977), and "Tanksley Trucking, Inc., Ext.—Louisville, Ky.," 120 M.C.C. 793 (1974).

The Commission has always sought to encourage the use of joint-line services in those instances where such operations are shown to be adequate to meet the transportation requirements of the shipping public. Just as the applicant which is seeking to institute the single-line service has an interest to protect, so do those carriers which have been participating with applicant in the joint-line service. As noted above, "substitution applications" are ordinarily premised on the grounds that the joint-line service is in a state of deterioration or subject to cancellation. Whether in fact such is the case is an issue upon which the participating carriers may validly comment. In determining whether a public need exists for a proposed single-line service then, the Commission would consider the opposing evidence of these participating carriers and weigh the effect of a grant upon them since it is the traffic which they have been handling in conjunction with applicant which would be subject to diversion. In many instances, however, applications seeking "substituted service" are unopposed by those carriers which are, or have been, participating in the joint-line service. The failure of those carriers to appear in opposition can only be construed as probative of the applicant's contentions that the joint-line operations are in a state of deterioration.

At the outset of this discussion, it was pointed out that the applicant in these cases is not a new entrant into the involved transportation market but rather is an established competitor seeking to preserve its interest in the shipper's traffic. The effect, if any, of a grant of authority upon existing (non-participating) carriers then would be minimal. Accordingly, on the issue of public convenience and necessity, under the proposed regulations, the Commission would consider only the supporting evidence of the applicant and the opposing evidence only of carriers which are, or have been, participating in the joint-line operations with the applicant. "However, any interested person would be permitted to file a protest challenging an applicant's fitness to perform the proposed service."

In certain limited instances, any interested carrier would be permitted to file a protest to an application for "substituted service". The protest of any non-interlining carrier would be directed at relevant issues other than the need for service. For example, any protestant could challenge an applicant's fitness to perform the proposed service. Additionally, a protestant could challenge applicant's allegations that it has been engaged in joint-line operations for the supporting shipper.

THE APPLICATION AND NOTICE REQUIREMENTS

Implementation of the proposed regulations would entail minor modifications in the way operating rights applications are processed and reviewed under existing Commission regulations.

An applicant, under the rules, would be required to identify clearly its pro-

posal as one seeking substitution of single-line service for its existing joint-line operations. Since applicants are required, under existing Commission regulations, to prepare a FEDERAL REGISTER caption, affected applicants would need only to submit an additional sentence stating that "the purpose of the application is to substitute a single-line service for applicant's existing joint-line operations."

Notice of the applicant's proposal, and its purpose, would be published in the FEDERAL REGISTER in a manner consistent with prevailing Commission procedures. Additionally, protests would be filed in accordance with existing regulations subject to the considerations described in the preceding section of this notice of proposed rulemaking.

ENVIRONMENTAL IMPACT

It is not anticipated that the proposed regulations will constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. The number of carriers, and vehicles operated in any given transportation market would remain relatively stable whether or not applications of this kind were granted.

As noted previously, the probable effect of these regulations will be to enhance operating efficiencies. The authorization of single-line services could eliminate circuitous mileage and lead to savings in fuel.

REDESIGNATION OF 49 CFR 1062

Part 1062 of Title 49 of the Code of Federal Regulations is presently entitled "Special Regulations for For-Hire Motor Carriers Engaged in the Transportation for Recycling or Reuse of 'Waste' Products in Furtherance of Recognized Pollution Control Programs", and sets forth rules pertaining to the processing of applications for Special Certificates of Public Convenience and Necessity, in a unique transportation field.

The regulations proposed in this rulemaking also embrace special procedures for acquiring a certificate of public convenience and necessity. It is likely that additional regulations of the same nature will be proposed in the future. Accordingly, the Commission will redesignate Part 1062 as follows: "Regulations Governing Special Application Procedures for For-Hire Motor Carriers". Section 1062.2 would be added to this part if the proposed regulations are adopted.

Accordingly, it is proposed (1) that Part 1062 of Title 49 of the Code of Federal Regulations be re-entitled "Regulations Governing Special Application Procedures for For-Hire Motor Carriers" and (2) that § 1062.2 be added to this part to read as follows:

§ 1062.2 Special procedures governing applications in which applicants seek operating authority to provide a single-line service in lieu of their existing joint-line operations.

(a) Scope of special rules. These special rules govern the filing and handling

of applications in which an applicant is seeking to acquire a certificate of public convenience and necessity authorizing it to provide a single-line service from and to points it serves in conjunction with connecting carriers in joint-line operations.

(b) Filing of applications. A motor common carrier seeking to acquire a certificate of public convenience and necessity under this section shall, in addition to submitting that information otherwise required under existing Commission rules and regulations, include in its caption summary of the authority sought (prepared for publication in the FEDERAL REGISTER), a sentence indicating clearly that "the sole purpose of its application is to substitute a single-line service for its existing joint-line operations."

(c) Notice. Notice of a proposed service will be published in the FEDERAL REGISTER. This notice will indicate applicant's intention to substitute a single-line service for its existing joint-line operations.

(d) Protests. Protests may be filed (1) respecting the issue of the need for the proposed service only by those carriers which are, or have been, participating in the joint-line service for which applicant is seeking by its proposal to substitute in single-line service, and (2) by any interested carrier respecting applicant's fitness to provide the proposed service.

This notice of proposed rulemaking is promulgated under the authority contained in 49 U.S.C. 304 and 307 and 5 U.S.C. 553, and was adopted formally at a General Session of the Interstate Commerce Commission held at its office in Washington, D.C., on the 21st day of September 1977.

By the Commission.

H. G. HOMME, JR.,
Acting Secretary.

[Ex Parter No. MC-109 (Sub. No. 1)]

SPECIAL APPLICATION PROCEDURES FOR FOR-HIRE MOTOR CARRIERS

Applications Seeking Substitution of For-Hire Service for Proprietary Operations

AGENCY: Interstate Commerce Commission.

ACTION: Proposed regulations.

SUMMARY: The Interstate Commerce Commission is proposing to establish regulations which would govern application proceedings for operating rights where the applicant is a motor common or contract carrier seeking authority to conduct a for-hire transportation service for a shipper that currently uses its own private transportation service (proprietary operations). Under the proposed regulations an applicant would be required to identify clearly the pur-

pose of its proposal, and to submit that information which is presently required in operating rights application proceedings. In addition, evidence concerning the extent of shipper's proprietary operations and the extent to which they would be replaced by applicant's for-hire service would be required. The proposed regulations stem from a Staff Task Force's recommendation to improve motor carrier regulations.

DATE: Written comments should be filed with the Commission on or before November 14, 1977.

ADDRESSES: Send comments to: Office of Proceedings, Interstate Commerce Commission, Washington, D.C. 20423.

FOR FURTHER INFORMATION CONTACT:

Michael Erenberg, Assistant Deputy Director, Section of Operating Rights, Office of Proceedings, Washington, D.C. 20423, Phone 202-275-7292.

SUPPLEMENTARY INFORMATION: The Interstate Commerce Commission is proposing to establish regulations which would govern application proceedings for operating rights where the applicant is a motor common or contract carrier seeking authority to conduct a for-hire transportation service for a shipper that currently uses its own private transportation service (proprietary operations). Under the proposed regulations an applicant would be required to identify clearly the purpose of its proposal, and to submit that information which is presently required in operating rights application proceedings.

In addition, evidence concerning the extent of shipper's proprietary operations and the extent to which they would be replaced by applicant's for-hire service would be required. In determining whether a proposed service should be authorized under applicable statutory standards, the Commission would continue to consider the opposing evidence and arguments of those for-hire carriers which are, or have been transporting traffic from the shipper's pertinent facilities, (i.e., in those instances where the shipper relies upon both proprietary and for-hire transportation services). However, if (1) the application is not opposed by any participating carrier and (2) the applicant complies with the requirements discussed above, then the application will be granted. Accordingly, parties not participating in the supporting shipper's traffic, which applicant sought authority to transport, would not have standing to oppose the application on the ground that the new service is not needed. They could oppose the application on the ground that applicant is not fit to provide the proposed service or to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations.

Recommendations concerning application proceedings in which a for-hire

service is sought to replace a shipper's existing proprietary operations have recently been under consideration by the Commission, in Ex Parte No. MC-103, Proceedings In Motor Carrier Application Proceedings Where For-Hire Carriage Is Substituted For Proprietary Operations. Ex Parte No. MC 103 was instituted in response to a petition seeking the initiation of a rulemaking, filed July 6, 1976, by Herman Bros., Inc., a motor common carrier. In its petition, Herman Bros. suggested specific procedures for the processing of applications of the nature discussed in this Notice.

Recognizing that this area of transportation is one worthy of serious consideration, the Commission received written representations and heard oral argument in No. MC 103. The Commission determined that the issues involved required additional analysis and further consideration in light of the July 6, 1977, recommendations of the Commission's Staff Task Force on improving motor carrier entry regulations. The proposed regulations stem from the Staff Task Force's recommendation. When the Commission ultimately determines what modifications to its procedures, if any, are necessary in this area, it will do so in light of the views already expressed in Ex Parte No. MC 103, and any additional information which may be submitted in response to this notice.

The Commission is currently considering a number of proposals for modifying motor carrier entry regulation, including a number of recommendations advanced by the staff task force. Interested persons participating in, and wishing to advance similar arguments in, more than one of these proceedings need not file duplicative statements. Instead, they may incorporate by reference all or any part of a statement filed in one of these proceedings in this or any other of these proceedings.

DISCUSSION OF THE ISSUES

BENEFITS STEMMING FROM FOR-HIRE CARRIAGE

Proprietary operations are exempt from economic regulation under the Interstate Commerce Act. In particular circumstances the benefits stemming from the using of private carriage outweigh attendant disadvantages. Often, however, shippers engaged in private operations find that such operations lack efficiency and cannot be cost justified. An example of this occurs where a shipper requires the transportation of its commodities in lengthy one-way movements, and is faced with extensive empty back-hauls. For this and other reasons, shippers engaged in proprietary operations may seek to acquire the services of for-hire motor carriers to meet their transportation requirements in whole or in part.

The efficient marketing of any shipper's commodities constitutes an integral part of its business' success. A shipper, having reached a decision to replace or augment its proprietary opera-

M
I

tions, will seek out the service of a for hire carrier capable of rendering a transportation service at least as efficient and flexible as that which it has chosen to forego. Of no less importance to the shipper is whether the carrier it supports will acquire promptly the permanent authority sought from this Commission. The decision to replace or augment private operations ordinarily entails considerations of contractual obligations, personnel reassignments, and disposing of equipment.

The benefits stemming from the proposed regulations appear to be both significant and plentiful. The Commission has traditionally encouraged the use of for-hire motor carriage in lieu of proprietary operations, since it is the for-hire motor carriage industry which the American public has come to rely upon to meet its transportation needs. Regulated carriers which have invested substantial capital in their operations ordinarily undertake far greater risks than do shippers engaged in proprietary operations. Thus, the influx of additional traffic, previously transported in private operations, into the regulated trucking industry would presumably promote that industry's stability. It is also likely that substantial savings in fuel would result since empty backhauls attendant to many private operations could be largely eliminated and regulated motor carriers would be afforded an opportunity to balance their existing operations. As a consequence of these added efficiencies, transportation costs could be reduced and ultimately these benefits would inure to the consuming public.

Clearly the regulations proposed would benefit shippers desiring to supplant proprietary operations with for-hire services. As noted above, shippers often cannot afford to leave their transportation requirements to chance. They want to acquire the service of a carrier capable of providing a dependable, "quality" service. Since the proposed regulations would allow for more expeditious handling of applications and would limit the scope of the opposition respecting the issue of need, it is likely that shippers would be more inclined to support regulated carrier proposals.

WHO MAY PROTEST AN APPLICATION

Under the proposed regulations, the Commission would continue to consider the opposing evidence of carriers which are or have been participating in the supporting shipper's involved traffic, in determining whether the proposed service is required by the public convenience and necessity, or, in the case of contract proposals, if it is consistent with the public interest and the National Transportation Policy. Shippers engaged in proprietary operations at given origin facilities occasionally rely upon for-hire carriers to transport their involved traffic. Should a shipper support the proposed service of an applicant to supplant its proprietary operations, the traffic otherwise handled by participating mo-

tor carriers could certainly be subject to diversion. The Commission would consider whether a grant of authority would unjustifiably deprive these carriers of traffic they are handling or could handle in an adequate manner.

The proposed regulations would, however, preclude carriers from submitting protests regarding the issue of need for a proposed service if they are not, or have not been, participating in traffic of the supporting shipper which applicant seeks authority to transport. Since the purpose of the applicant's proposal is to transport traffic previously transported in private operations, a grant of authority could not result in any diversion of traffic transported by nonparticipating carriers. Thus, a grant of authority would not result in any material adverse effect upon the operations of such carriers.

However, any interested person may file a protest challenging applicant's fitness to provide the proposed service.

NOTICE REQUIREMENT

Implementation of the proposed regulations would entail minor modifications in the way operating rights applications are processed and reviewed under existing Commission regulations. An applicant would be required to indicate clearly the purpose of its proposal. This would be accomplished by adding a sentence to the FEDERAL REGISTER caption stating that "the purpose of the application is to substitute for-hire service for the shipper's existing proprietary operations."

Notice of the proposal and purpose thereof, would be published in the FEDERAL REGISTER in a manner consistent with prevailing Commission procedures. Protests would be filed in accordance with existing regulations subject to the considerations described above.

ENVIRONMENTAL IMPACT

It is not anticipated that the proposed regulations would constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. Traffic which would be transported by an applicant would be that moving in a shipper's private operations. The probable effect of these regulations would be to enhance operating efficiencies since empty backhaul movements should be substantially eliminated.

Accordingly, it is proposed that Part 1062 of Title 49 of the Code of Federal Regulations be amended by adding § 1062.3 as follows:

§ 1062.3 Special procedures governing applications in which applicants seek operating authority to provide a for-hire service in lieu of the supporting shippers' existing proprietary operations.

(a) *Scope of special rules.* These special rules govern the filing of applications in which an applicant is seeking to acquire a certificate or permit authoriz-

ing it to provide a for-hire service from and to points presently served by the supporting shipper in proprietary operations.

(b) *Filing of applications.* A motor carrier seeking to acquire a certificate or permit under this section shall in addition to submitting that information otherwise required under existing Commission rules and regulations, include in its caption summary of the authority sought (prepared for publication in the FEDERAL REGISTER), a sentence indicating clearly that "the sole purpose of its application is to substitute a for-hire service for the supporting shipper's proprietary operations". The territorial description should be appropriately limited to originate at or be destined to the facilities of the supporting shipper.

(c) *Notice.* Notice of a proposed service will be published in the FEDERAL REGISTER. This notice will indicate applicant's intention to substitute a for-hire service for the supporting shipper's proprietary operations.

(d) *Protests.* Protests may be filed (1) respecting the issue of need for the proposed service only by those carriers which are, or have been, participating in the supporting shipper's traffic at the involved origin facilities (i.e., conducting operations supplemental to shipper's proprietary carriage), and (2) by any interested carrier respecting applicant's fitness to provide the proposed service.

This notice of proposed rulemaking is promulgated under the authority in 49 U.S.C. 304, 303(a) (15), 309(b), and 307 and 5 U.S.C. 553, and was adopted formally at a General Session of the Interstate Commerce Commission held at its office in Washington, D.C., on the 21st day of September 1977.

By the Commission.

H. G. HOMME, Jr.,
Acting Secretary.

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service

[7 CFR Part 728]

1978 WHEAT PROGRAM

Proposed Determinations Regarding National Program Acreage, Program Allocation Factor, Set-Aside, Diversion Payments, and Limitation on Planted Acreage

AGENCY: Agricultural Stabilization and Conservation Service, USDA.

ACTION: Proposed rule.

SUMMARY: The Secretary of Agriculture proposes to make the following determinations with respect to the 1978 crop of wheat:

a. *National Program Acreage.* The Department is currently estimating wheat demand for the 1978-crop marketing year at 815 million bushels for domestic

use and 1,000 million bushels for export. Based on these estimates, less imports of 2 million bushels, divided by a proposed national weighted average farm program payment yield of 30.9 bushels the preliminary national program acreage would be 58.7 million acres. The national program acreage will be subject to revision as more information becomes available on expected utilization and establishment of farm program payment yields. The Department does not propose to adjust the national program acreage because of excessive carryover stocks.

b. *Program Allocation Factor.* This decision cannot be made until after the 1978-crop plantings have been determined. The Department proposes to make this determination following the August 1978 Crops Production Report.

c. *Whether there should be a set-aside requirement and if so, the extent of such requirements.* USDA press release 2444-77 issued August 29 announced the Department's intention for a 20 percent set-aside on the 1978 crop of wheat.

d. *Whether there should be provisions for land diversion payments and if so, the extent of such diversion and the payment therefor.* The Department proposes not to authorize land diversion payments under the 1978 program.

e. *Whether there should be a limitation on planted acreage and if so, the extent of such limitation.* The Department proposes not to place a limitation on the planted acreage of wheat for the 1978 program.

The above determinations are required to be made by the Secretary in accordance with provisions of the Agricultural Act of 1949, as amended.

DATES: This notice invites written comments on the proposed determinations. Comments must be received on or before November 14, 1977.

ADDRESSES: Acting Director, Production Adjustment Division, ASCS, USDA, Room 3630 South Building, P.O. Box 2415, Washington, D.C. 20013. Comments will be made available for public inspection at the Office of the Acting Director during regular business hours (8:15 a.m. to 4:45 p.m.).

FOR FURTHER INFORMATION CONTACT:

Bruce R. Weber, (ASCS), 202-447-4351.

SUPPLEMENTARY INFORMATION: The following determinations with respect to the 1978 crop of wheat are to be made pursuant to the Agricultural Act of 1949, as amended by the Food and Agriculture Act of 1977 (Pub. L. 95-113).

a. *National Program Acreage.* Section 107A(d) (1) of the Agricultural Act of 1949, as amended by the Food and Agriculture Act of 1977, requires that the Secretary proclaim a national program acreage for wheat for each of the 1978 through 1981 crops not later than August 15 of each calendar year for the crop harvested in the next succeeding calendar year, except that in the case of the 1978 crop, the proclamation shall be

made as soon as practicable after enactment of the Food and Agriculture Act of 1977. Such national program acreage may, however, subsequently be revised for purposes of determining the allocation factor if the Secretary determines it necessary based on the latest information. Any revision shall be announced as soon as it has been made. The national program acreage shall be the number of harvested acres the Secretary determines (on the basis of the weighted national average farm program payment yield) will produce the quantity (less imports) that he estimates will be utilized domestically and for export during the marketing year for such crop. If the Secretary determines that carryover stocks are excessive or an increase in stocks is needed to assure a desirable carryover, he may adjust the national program acreage by the amount he determines will accomplish the desired decrease or increase in carryover stocks.

b. *Program Allocation Factor.* Section 107A(d) (2) requires the Secretary to determine a program allocation factor for each crop of wheat. The allocation factor shall be determined by dividing the national program acreage by the number of acres which the Secretary estimates will be harvested for such crop. The allocation cannot be more than 100 percent nor less than 80 percent.

c. *Whether there should be a set-aside requirement and if so, the extent of such requirement.* Section 107A(f) (1) requires the Secretary to provide for a set-aside of cropland if he determines that the total supply of wheat will, in the absence of such a set-aside, likely be excessive taking into account the need for an adequate carryover to maintain reasonable and stable supplies and prices and to meet a national emergency. The Secretary is required to announce any such set-aside not later than August 15, except that in the case of the 1978 crop, the announcement shall be made as soon as practicable after enactment of the Food and Agriculture Act of 1977. If a set-aside of cropland is in effect, then as a condition of eligibility for loans, purchases, and payments, the producers on a farm must set aside and devote to conservation uses an acreage of cropland equal to a specified percentage, as determined by the Secretary, of the acreage of wheat planted for harvest for the crop year for which the set-aside is in effect.

d. *Whether there should be provisions for land diversion payments and if so, the extent of such diversion for payment and the payment therefor.* Section 107A(f) (2) provides that the Secretary may make land diversion payments to producers of wheat, whether or not a set-aside for wheat is in effect, if he determines that such land diversion payments are necessary to assist in adjusting the total national acreage of wheat to desirable goals. Land diversion payments shall be made to producers on a farm who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm on the basis of land diversion contracts.

Amounts payable to producers under land diversion contracts may be determined through submission of bids for such contracts by producers in such manner as prescribed by the Secretary or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted. The Secretary shall limit the total acreage to be diverted under contracts in any county or local community so as not to affect adversely the economy of the county or local community.

e. *Whether there should be a limitation on planted acreage and if so, the extent of such limitation.* Section 107A(f) (1) also provides that the Secretary may limit the acreage planted to wheat. Such limitation shall be applied on a uniform basis to all wheat producing farms.

Prior to determining the 1978 national program acreage and allocation factor, consideration will be given to any data, views, and recommendations relative to the national average farm program yield, estimated domestic utilization of wheat, estimated exports, estimated carryover, estimated harvested acreage, and other data pertinent to the above determinations. Environmental and Economic Impact Statements are being prepared and will be available for public review and comment shortly.

Signed at Washington, D.C. on October 12, 1977.

STEWART N. SMITH,
Acting Administrator, Agricultural Stabilization and Conservation Service.

[7 CFR Part 792]

FEED GRAIN, RICE, WHEAT AND UPLAND COTTON PROGRAMS

Normal Crop Acreage and Set-Aside Acreage

AGENCY: Agricultural Stabilization and Conservation Service, USDA.

ACTION: Proposed rule.

SUMMARY: This proposed rule would amend the normal crop acreage and set-aside acreage regulations to read as set below, requiring that normal crop acreages be established for farms instead of conserving bases. It would also require that the set-aside normally be land that was recently tilled, that the set-aside be protected by vegetative cover, and that harvesting or grazing of the cover be prohibited. These changes are proposed to make the set-aside more effective in controlling production and to assure that the set-aside is protected

PROPOSED RULES

from wind and water erosion. The material previously appearing under conserving base and designated set-aside acreage regulations would remain in effect for the programs to which they apply.

DATES: Comments must be received by November 14, 1977.

ADDRESSES: Send written comments to the Director, Production Adjustment Division, ASCS, P.O. Box 2415, Washington, D.C. 20013.

FOR FURTHER INFORMATION CONTACT:

Ernest Stevens (ASCS), 202-447-7633.

SUPPLEMENTARY INFORMATION: The Secretary is authorized by the Food and Agriculture Act of 1977 (Pub. L. 95-113) to require as a condition of eligibility for loans, purchases, and payments under the feed grain, rice, wheat, and upland cotton programs that cropland be set aside and devoted to conservation uses. He may also require, as a condition of eligibility for loans, purchases, and payments for any crop, that the acreage normally planted crops which he designates shall be reduced by the acreage of set-aside. The public is invited to submit written comments, suggestions, or objections regarding these proposed regulations. Each person writing shall include his name and address and should give reasons for any suggested changes. Copies of all written communications received will be available for examination by interested parties during regular business hours in Room 3617 South Building, U.S. Department of Agriculture, Washington, D.C.

It is proposed that 7 CFR Part 792 be revised to read as follows:

PART 792—NORMAL CROP ACREAGE AND SET-ASIDE ACREAGE

Sec.

- 792.1 Applicability.
- 792.2 Normal crop acreage.
- 792.3 Designation of set-aside acreage.
- 792.4 Care of set-aside acreage.
- 792.5 Use of set-aside acreage.
- 792.6 Cross compliance on the farm.
- 792.7 Offsetting compliance between farms.

AUTHORITY: Secs. 101(h), 103(f), 105A, 107A, Agricultural Act of 1949, as added by Pub. L. 95-113.

§ 792.1 Applicability.

This part provides the rules for determining the farm normal crop acreage and for designation, care and use of acreage set aside under the 1978-81 Feed Grain Program, Part 775 of this chapter, as amended; the 1978-81 Rice Program, Part 730 of this chapter, as amended; the 1978-81 Wheat Program, Part 728 of this chapter, as amended; the 1978-81 Upland Cotton Program, Part 722 of this chapter, as amended; and all other programs to which this part is made applicable by individual program regulations. The number of acres to be set aside for each program will be stated in the individual program regulations. In this part and in all instructions, forms and documents in connection with it, the words and phrases used shall, unless the con-

text or subject matter otherwise requires, have the meanings assigned to them in the regulations governing reconstitution of farms and allotments, Part 719 of this chapter, as amended, and in the regulations governing the programs to which this part is applicable.

§ 792.2 Normal crop acreage.

The normal crop acreage (herein called NCA) shall be acreage devoted in 1977 to the following crops for harvest, which for small grains shall be the acreage planted for harvest as grain and any volunteer acreage harvested for grain: barley, field corn, grain sorghum, rice, wheat, upland cotton, oats, rye, soybeans, flax, dry edible beans, sunflower, sugar beets, sugar cane, and any other major field crop significant acreage which is recommended by the State committee and approved by the Deputy Administrator, State and County Operations, ASCS. The 1977 acreage shall be determined, and adjusted when abnormal, in accordance with instructions issued by the Deputy Administrator.

§ 792.3 Designation of set-aside acreage.

(a) *Land eligible for designation.* Subject to the provisions of paragraph (b) of this section, the land eligible for designation as set-aside acreage must be cropland that was tilled within the previous three years in the production of a crop for other than hay or pasture, unless the county committee determines that the cropland was devoted in all of the previous three years to a hay crop that was in a normal rotation pattern with a small grain or row crop, or the cropland was designated as set-aside in any one year for which a set-aside program was in effect and was eligible when designated.

(b) *Land not eligible for designation.* Land will not be eligible for designation if it is:

- (1) Land which is designated as set-aside under any other program for the calendar year (year in which the set-aside is in effect).
- (2) Land for which a prevented planting or low yield payment is made for the calendar year.
- (3) Land which is harvested or grazed in the calendar year except as provided in § 792.5.
- (4) Land that is summer fallowed or clean tilled in the current year.
- (5) Turn rows, drainage ditches, wet low-flying areas, droughty knobs or banks, areas rejected by the county committee because of their small size or shape, or land in an orchard or vineyard and strips in skiprow planting patterns.
- (6) Land which at the time the set-aside acreage is designated is expected to be used in the current year or a later year for industrial development, housing, highway construction, or other non-farm use, and the land would not, in the absence of the program, be devoted in the current year to a crop for harvest.
- (7) Land devoted to nonagricultural use on or before September 30 of the current year, unless such land is acquired

by eminent domain and a representative of the State committee determines that it would not have been anticipated at the time of designation that the land would be devoted to nonagricultural use before the end of the current year.

(8) Land devoted to or considered devoted to a nonconserving use in the current year.

(9) Land from a receding lake or areas bordering a lake which the producer does not have title to or otherwise have authority to use for crops.

(10) Land planted to produce grain for wildlife on a State or National wildlife refuge.

(11) Land owned and operated by a State, county or local government unless the owner establishes to the satisfaction of the county committee that it has adequate equipment and other facilities readily available for the successful production of crops under a set-aside program and that the production of such crops is a normal practice for such land.

§ 792.4 Care of set-aside acreage.

(a) *Approved cover and practices.* The set-aside shall be devoted by the normal period for planting spring crops to one or more of the following approved covers:

(1) Annual, biennial, or perennial grasses and legumes, including volunteer stands other than weeds which meet the criteria set forth by the State committee, but excluding field and canning beans or peas, soybeans, and sweet sorghums.

(2) Small grains, including volunteer stands other than weeds which meet the criteria set forth by the State committee. They must be clipped to prevent seed formation except when approved for wildlife cover.

(3) Trees or shrubs planted for erosion control, shelterbelts, or other forestry purposes or for wildlife habitat during the current year or the fall of the preceding year, provided these practices are on designated set-aside acreage otherwise eligible under § 792.3.

(4) Terraces and sod waterways developed in the current year or the fall of the preceding year, provided these practices are on designated set-aside acreage otherwise eligible under § 792.3.

(5) Water storage developed for any purpose, including fish or wildlife habitat, during the current year or the fall of the preceding year, provided this practice is on designated set-aside acreage otherwise eligible under § 792.3.

(b) *Control of erosion, insects, weeds, and rodents.* The farm operator shall carry out such measures as are needed for the control of erosion, insects, weeds, and rodents on the set-aside acreage.

(c) *Land preparation for fall seeded crops.* Crops may be seeded on the set-aside acreage in the fall for harvest the next year. The land can be prepared in the fall and left bare only when recommended by the State Committee and approved by the Deputy Administrator.

§ 792.5 Use of set-aside acreage.

(a) *Restriction on harvesting.* No crop shall be harvested from the set-aside acreage in the current year, or after December 31 of the current year if the crop would normally mature and be harvested in the current year, except when approved under emergency situations in accordance with instructions issued by the Deputy Administrator. A crop may be harvested if the crop is one which matured in the year preceding the current year on land which was not designated as set-aside in such year and the harvesting was delayed because of adverse weather or other conditions beyond the control of the farm operator.

(b) *Restriction on grazing.* Grazing of set-aside acreage shall be prohibited except when approved under emergency situations in accordance with instructions issued by the Deputy Administrator.

§ 792.6 Cross compliance on the farm.

To qualify on the farm for loans, purchases, and payments authorized for crops included in the NCA, producers on a farm that produces one or more crops for which a set-aside requirement is in effect shall:

(a) Set aside the acreage required for each crop, and

(b) Limit the acreage of crops in the NCA to the NCA less the amount of the acreage which is required to be set aside.

§ 792.7 Offsetting compliance between farms.

(a) To qualify on any farm for loans, purchases, and payments authorized for crops included in the NCA, a landowner, landlord, or operator of a farm that produces one or more crops for which a set-aside is in effect shall assure that on each farm for which he is a landowner, landlord, or operator:

(1) The required acreage, if any, is set aside for each crop, and

(2) The acreage of crops in the NCA are limited to the NCA less the amount of the acreage which is required to be set aside.

(b) A landowner or landlord cannot escape responsibility for complying with paragraph (a) of this section by leasing for cash or other consideration all or part of a farm: *Provided*, That the landowner or landlord may be exempted from complying with paragraph (a) of this section if the county committee determines that a lease executed prior to October 3, 1977 prevents compliance.

(c) Any executor, trust officer, or farm manager responsible for the management of a farm shall be considered as the operator of the farm for purposes of paragraph (a) of this section when he receives a percentage of the farm income exceeding 10 percent of the crops or proceeds thereof for such management service.

(d) For purposes of paragraph (a) of this section, all persons or entities in each category listed below shall be considered as the same producer and fully responsible for the actions of any person or entity in that category:

PROPOSED RULES

(1) Husband and wife, except that the husband and wife may be considered as separate producers if the spouse receiving benefits does not share to any degree in crops or proceeds thereof from the other farm, ownership or managerial control of the other farm is not shared by such spouse, and there have been no changes in the ownership, operation, or managerial control of the other farm which would tend to defeat the purposes of paragraph (a) of this section;

(2) Minor children and the parent, guardian, or other person legally responsible for the minor unless the person does not occupy the same household as the minor and shares no interest in the farming operations of the minor;

(3) A partnership and any member of the partnership;

(4) A corporation and the majority stockholders of such corporation (in applying this rule, consider as the same producer a corporation and two or more stockholders with a combined majority interest in the corporation who do not comply with paragraph (a) of this section);

(5) An estate and heirs of the estate with over 50 percent interest in the estate (in applying this rule, consider as the same producer an estate and two or more heirs with a combined interest in the estate of over 50 percent who do not comply with paragraph (a) of this section);

(6) A trust and beneficiaries of the trust with over a 50 percent interest in the trust (in applying this rule, consider as the same producer a trust and two or more beneficiaries with a combined interest in the trust of over 50 percent who do not comply with paragraph (a) of this section);

(7) Different corporations, trusts or estates having common stockholders or beneficiaries with a combined majority interest.

(e) Notwithstanding the foregoing:

(1) Any person who places land in a trust the beneficiary of which is such person's parent, brother, sister, spouse, child or grandchild shall be considered the same producer as the trust for purposes of paragraph (a) of this section if he acts as the trustee or trust officer for the trust or in any other way retains management responsibility for the trust land even though he does not receive any share of the crops or proceeds thereof from the trust land;

(2) When the State committee, or the county committee with the approval of the State committee, determines that a corporation or trust was formed, modified, or used for the purposes of circumventing paragraph (a) of this section, the corporation and any stockholder of the corporation, or the trust and any beneficiary of the trust, shall be considered as the same producer and fully responsible for the actions of the corporation or trust or of any stockholder or beneficiary of the corporation or trust.

Issued at Washington, D.C., this 5th day of October 1977.

RAY FITZGERALD,
Administrator, Agricultural
Stabilization and Conservation
Service.

OCTOBER 5, 1977.

Agricultural Marketing Service

[7 CFR Part 982]

FILBERTS GROWN IN OREGON AND WASHINGTON

Proposed Free and Restricted Percentages for 1977-78 Marketing Policy Year

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This proposal would establish free and restricted percentages of 58 percent and 42 percent, respectively, for inshell filberts for the marketing policy year beginning August 1, 1977. The action is taken under the marketing order for filberts grown in Oregon and Washington to promote orderly marketing conditions.

DATES: Written comments to this proposal must be received by November 18, 1977.

ADDRESSES: Written comments should be submitted in duplicate to the Hearing Clerk, Room 1077, South Building, U.S. Department of Agriculture, Washington, D.C. 20250. All written submissions will be made available for public inspection at the office of the Hearing Clerk during regular business hours.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, (202-447-3345).

SUPPLEMENTARY INFORMATION: This proposal was recommended by the Filbert Control Board. The Board is established under the marketing agreement, as amended, and Order No. 982, as amended (7 CFR Part 982), regulating the handling of filberts grown in Oregon and Washington. The amended marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

The proposed percentages are based upon the following estimates by the Filbert Control Board for the 1977-78 marketing policy year:

Inshell supply:	Tons
(1) Total production.....	11,000
(2) Less substandard, etc.....	1,650
(3) Available supply.....	9,350
(4) Carryover August 1, 1977, of merchantable filberts.....	722

PROPOSED RULES

	Tons	Tons
Inshell supply—Con.		
(5) Total available supply (Item 3 plus Item 4)-----	10,072	
Inshell requirements:		
(6) Trade demand-----	5,400	
(7) Carryover July 31, 1978-----	700	
(8) Total-----	6,100	
(9) Less carryover August 1, 1977 not subject to 1977-78 regulation-----	722	
(10) Inshell requirement-----	5,378	
Percentages:		
(11) Free percentage (Item 10 divided by Item (3))-----	58	
(12) Restricted percentage (100 percent minus 58 percent)-----	42	

The free percentage prescribes that portion of the total merchantable supply which may be handled as inshell filberts. The restricted percentage prescribes that portion of the total merchantable supply which must be withheld from such handling. Restricted filberts may be shelled (for domestic or foreign consumption), exported, or disposed of in outlets determined by the Filbert Control Board to be noncompetitive with normal market outlets for inshell filberts.

The proposal is as follows:

§ 989.227 Free and restricted percentages for merchantable filberts during the 1977-78 marketing policy year.

The following percentages are established for merchantable filberts for the marketing policy year beginning August 1, 1977:

Free percentage ----- 58
Restricted percentage ----- 42

Dated: October 7, 1977.
CHARLES R. BRADER,
Deputy Director,
Fruit and Vegetable Division.

DEPARTMENT OF ENERGY

Economic Regulatory Administration

[10 CFR Part 212]

AMENDMENTS TO THE MANDATORY PETROLEUM PRICE REGULATIONS—EXCHANGES

Extension of Public Hearing and Comment Period

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice to extend public hearing and comment period.

SUMMARY: On September 14, 1977, the Federal Energy Administration issued a Notice of Proposed Rulemaking and Public Hearing regarding refiner and reseller exchanges. A public hearing was scheduled in Washington, D.C. for October 13, 1977, 9:30 a.m.; and written comments were requested by October 11, 1977, 4:30 p.m. (42 FR 48342, September 23, 1977.)

The Economic Regulatory Administration ("ERA") of the Department of Energy ("DOE") has received several requests to extend the date for receipt of written comments and to reschedule the public hearing in order to give interested persons sufficient time to address the complex issues raised in the rulemaking.

The ERA believes that there is merit to these requests. Accordingly, ERA has determined to extend the hearing date, the comment period, and other related dates to provide additional time for interested persons to prepare comments. All dates as originally scheduled in the September 14 Notice are changed as set forth in the "DATES" Section of this Notice.

Each person selected to be heard will be so notified before 4:30 p.m., October 19, 1977 and must submit 100 copies of his or her statement to Regulations Management, Room 2214, 2000 M Street, NW., Washington, D.C., before 4:30 p.m., October 27, 1977. Any interested person may submit questions to be asked of any person making a statement at the hearings, to Executive Communications, DOE, before 4:30 p.m., October 27, 1977.

DATES: Comments by October 28, 1977, 4:30 p.m.; Requests to speak by October 17, 1977, 4:30 p.m.; Hearing date: October 31, 1977, 9:30 a.m.

ADDRESSES: Comments and requests to speak to: Executive Communications, Room 3317, Economic Regulatory Administration, Box PD, Washington, D.C. 20461; hearing location: Room 2105, 2000 M Street NW., Washington, D.C. 20461.

FOR FURTHER INFORMATION CONTACT:

Robert C. Gillette (Hearing Procedures), 2000 M Street, NW., Room 2214 B, Washington, D.C. 20461, 202-254-5201.

Issued in Washington, D.C. October 7, 1977.

DAVID J. BARDIN,
Acting Administrator, Economic Regulatory Administration,
Department of Energy.

ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

COMMITTEE ON LICENSES AND AUTHORIZATIONS

Notice of Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the Committee on Licenses and Authorizations of the Administrative Conference of the United States, to be held at 11 a.m., October 25, 1977, in the offices of O'Melveny & Myers, 1800 M Street NW., Washington, D.C.

The Committee will meet to consider Professor Robert Hamilton's project on the regulatory use of consensus standards, and the status of Professor Marshall Breger's project of procedures for waivers and exemptions.

Attendance is open to the interested public, but limited to the space available. Persons wishing to attend should notify this office at least one day in advance. The Committee Chairman may, if he deems it appropriate, permit members of the public to present oral statements at the meeting; any member of the public may file a written statement with the Committee before, during or after the meeting.

For further information concerning this Committee meeting contact Joseph L. Scott, 202-254-7020. Minutes of the meeting will be available on request.

RICHARD K. BERG,
Executive Secretary.

[Order 77-10-35; Docket 30257]

CIVIL AERONAUTICS BOARD

CESKOSLOVENSKE AEROLINIE

Renewal of Foreign Air Carrier Permit; Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 11th day of October, 1977.

Pursuant to Order 75-11-85 approved by the President on November 20, 1975, the foreign air carrier permit held by Ceskoslovenske Aerolinie (CSA) authorizing the carrier to engage in foreign air transportation of persons, property, and mail between a point or points in Czechoslovakia and New York, via intermediate points, was extended with a termination date of December 31, 1976, which coincided with the expiration date of the United States-Czechoslovakia Air Transport Agreement of February 28, 1969, modified by Protocol dated May 24, 1972, and extended by Exchanges of Notes dated May 28, 1974, and July 29, 1975.

By Exchange of Notes dated August 12, 1977, the Agreement was extended to December 31, 1978. Before the expiration of its permit on December 31, 1976, CSA applied for permit renewal pursuant to terms that might be agreed in the extension of the Agreement. No person has filed an answer to the application. The Board finds that it is in the public interest to direct interested persons to show cause why applicant's foreign air carrier permit should not be renewed without hearing for a period terminating on December 31, 1978.

Since May 1970 CSA has continuously served the Prague-New York market with 1 or 2 weekly one-stop round-trip flights utilizing Russian-made IL-62 jet aircraft. The flights are usually routed over Amsterdam. On the basis of this history

¹ The permit was originally issued pursuant to Order 70-1-62, approved January 12, 1970. The specimen permit was filed as a part of the original document.

of successful operations, the Agreement extended by Note dated August 12, 1977, and the Board's findings in Orders 73-2-12, 75-5-105 and 75-11-85 with respect to the public interest and the carrier's fitness, we tentatively find and conclude that:

(a) Ceskoslovenske Aerolinie is fit, willing, and able properly to perform the foreign air transportation authorized by the specimen permit attached here and to conform to the provisions of the Act and the rules, regulations, and requirements of the Board thereunder;

(b) Ceskoslovenske Aerolinie is substantially owned and effectively controlled by nationals of the Czechoslovak Socialist Republic;

(c) It is in the public interest to renew the foreign air carrier permit of Ceskoslovenske Aerolinie for a period terminating on December 31, 1978;

(d) The public interest requires that the exercise of the privileges granted by this permit be subject to the terms, conditions, and limitations contained in the specimen permit attached here and to such other reasonable terms, conditions and limitations required by the public interest as may from time to time be prescribed by the Board;

(e) A hearing on the application of Ceskoslovenske Aerolinie is not required by the public interest; and

(f) The renewal of Ceskoslovenske Aerolinie's foreign air carrier permit is not a "major federal action significantly affecting the quality of the human environment" within the meaning of section 102(2)(C) of the National Environmental Quality Act of 1969, and will not be inconsistent with the policy objectives of the Energy Policy and Conservation Act of 1975 (EPACA).²

All interested persons will be given 21 days following the adoption of this order to show cause why the tentative findings and conclusions set forth here should not be made final. We expect such persons to direct their objections, if any, to specific issues and to support such objections with detailed analyses. If an evidentiary hearing is requested, each objector should name the specific markets or other issues with respect to which a hearing is requested and should state, in detail, why such a hearing is necessary and what relevant and material facts he would ex-

² Since the permit does not provide for any change in existing service, there will be no negative impact on either the environment or fuel utilization.

pect to establish through such a hearing. Vague, general, or unsupported objections will not be entertained.

Accordingly, it is ordered that:

1. All interested persons be directed to show cause why the Board should not make final the tentative findings and conclusions here and why an order should not be issued, subject to approval by the President pursuant to section 801 of the Act, issuing a renewed foreign air carrier permit to Ceskoslovenske Aerolinie in the specimen form attached;

2. Any interested persons having objections to the issuance of an order making final the tentative findings and conclusions here or to the issuance of the proposed renewed foreign air carrier permit shall, within 21 days after adoption of this order, file with the Board and serve on the persons named in paragraph 5 a statement of objections specifying the part or parts of the tentative findings or conclusions objected to, together with a summary of testimony, statistical data, and such evidence expected to be relied upon to support the statement of objections;

3. If timely and properly supported objections are filed, full consideration will be accorded the matters or issues raised before further action is taken by the Board: *Provided*, That the Board may proceed to enter an order in accordance with the tentative findings and conclusions here if it determines that there are no factual issues presented that warrant the holding of an evidentiary hearing;

4. In the event no objections are filed to this order, all further procedural steps will be deemed to have been waived and the Board may proceed to enter an order in accordance with the tentative findings and conclusions here; and

5. This order shall be served upon Ceskoslovenske Aerolinie, Pan American World Airways, Inc., the Ambassador of the Czechoslovak Socialist Republic, and the Department of State.

This order shall be published in the *FEDERAL REGISTER* and transmitted to the President.

By the Civil Aeronautics Board.¹

PHYLLIS T. KAYLOR,
Secretary.

[Order 77-10-20; Docket Nos. 30487, 30673, 31491]

EASTERN AIR LINES, INC., ET AL.

Order Instituting an Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 7th day of October, 1977.

Application of Eastern Air Lines, Inc., for an amended certificate of public con-

¹ Since provision is made for the filing of objections to this order, petitions for reconsideration will not be entertained.

² All members concurred.

venience and necessity for Routes 5 and 10, petition of the Louisville and Jefferson County Air Board, for institution of an investigation St. Louis-San Francisco/Oakland/San Jose nonstop route proceeding.

On February 14, 1977, Eastern Air Lines filed an application (Docket 30487) for nonstop authority in the St. Louis-San Francisco/Oakland/San Jose markets. On March 11, 1977, Eastern, filed a motion for hearing on its application in Docket 30487. Louisville and the Jefferson County Air Board (Louisville) filed a petition for an investigation of the air service needs of the Louisville-St. Louis and Louisville-San Francisco markets, including the issue of deleting the authority of Eastern and Trans World Airlines in the Louisville-St. Louis market. Contemporaneously, Louisville filed a motion to consolidate its petition with Eastern's application in Docket 30487.

In support of its motion, Eastern states that the St. Louis-San Francisco market, which had over 142,000 true O&D and interline connecting passengers or an average of 390 passengers per day in 1975, requires competitive service.¹ Eastern contends that TWA, the incumbent, is unable to handle the traffic demand of the market and cites several monthly nonstop load factors for the 12-month period ending June 30, 1976, which reached as high as 79 percent in December 1975. Eastern also contends that a large number of St. Louis-San Francisco passengers are forced to use one-stop service as a result of the limited nonstop seats available in the market. Eastern concludes that the market has a substantial potential for further growth and can support profitable competitive service.

Answers in support of Eastern's motion were filed by American Airlines, Louisville, and the St. Louis Authority-City of St. Louis. American urged the Board to consider removal of its one-stop restriction in the St. Louis-San Francisco market, alleging that it has already applied for such authority as part of its route realignment application, amended October 15, 1976, in Docket 28874.

An answer in support of the petition of Louisville was filed by Frontier Airlines, and an answer in opposition to Louisville's motion to consolidate was filed by TWA. Eastern, in a consolidated answer to Louisville's petition and motion to consolidate, urged dismissal of the petition and denial of the motion.

Answers in opposition to Eastern's motion were filed by Delta Air Lines, TWA, and the Port of Oakland. Delta argues that granting Eastern's request for St. Louis-San Francisco nonstop authority would divert a large amount of revenues from other carriers and that serious questions of third and fourth carrier

¹ TWA offers four daily nonstop round trips, 2½ daily one-stop round trips, and 1½ daily three-stop round trips in the market. American, subject to a one-stop restriction, provides three daily one-stop round trips. OAG, June 1, 1977.

competition are raised in the San Francisco-Atlanta/Jacksonville/Miami/Ft. Lauderdale/Orlando/Tampa markets.² TWA contends, that its load factors for the year ended December 1976 averaged 61 percent, that it will institute an additional nonstop round trip which will operate into San Jose and be extended into Oakland,³ that Eastern has no historic stake in the St. Louis-San Francisco market so that most of the revenue generated is diverted from incumbents, and that the diversion suffered by carriers such as TWA would not be offset by service benefits since Eastern's proposed service would duplicate service presently offered by TWA. Finally, Oakland opposes Eastern's motion because it believes, on the basis of Eastern's service proposal, that Eastern will serve only San Francisco and not Oakland if it receives the authority requested in the form of Oakland as one of a triple hyphenated point (San Francisco-Oakland-San Jose).

Upon consideration, we have decided to institute an investigation to consider the need for additional nonstop service in the St. Louis-San Francisco/Oakland/San Jose market. The market generated 142,140 true O&D and interline connecting passengers in 1975 and is one of the largest markets without competitive nonstop service. We believe that it offers the prospect of economic competitive nonstop service sufficient to require a priority hearing.

We will defer action on Louisville's petition for new or improved air service in the Louisville-St. Louis-San Francisco markets until after we reach a decision on priority of hearing standards.

If American files a timely application, we will consider removal of its one-stop restriction in the St. Louis-San Francisco market. We shall not, however, consolidate any portion of its realignment application in Docket 28874 into this proceeding.⁴ To ask the Board to extract single markets from route realignment requests whenever a particular route in the realignment application becomes the subject of a hearing would result in

² Delta's additional argument that Eastern's application should not be considered for hearing before the Daytona Beach and Sarasota/Bradenton petitions in Dockets 29113 and 29125, respectively, is moot. By Order 77-3-167, March 30, 1977, the Board instituted the *Atlanta-Daytona Beach/Sarasota-Bradenton Nonstop Proceeding* which consolidated both petitions.

³ TWA added this nonstop round trip which appears as flight 123 in the June 1, 1977, OAG.

⁴ The issues will include the question of whether the designation in the San Francisco area should include only one or more of the hyphenated cities.

⁵ Contrary to the carriers' assertion, it has not filed for removal of its one-stop restriction in Docket 28874. The St. Louis-San Francisco market is listed in Appendix F, page 8, of American's application in Docket 28874 as one of the "nonminor markets in which American is presently restricted and in which no improved authority is requested based on number of stops and circuitry."

unnecessary complications and confusion. In any event, if we were to consolidate part of Docket 28874 into this proceeding, we would be required by our rules to dismiss the remaining portion of the realignment application. See 302.12(d).

Finally, we will require all applicants who have not already done so to file information set forth in Part 312 of the Board's Procedural Regulations.⁴ All applicants will have 30 days from the date of adoption of this order to file their environmental evaluations.

Accordingly, IT IS ORDERED THAT:

1. The petition of the Louisville and Jefferson County Air Board in Docket 30673 be deferred;

2. The motion of Louisville and Jefferson County Air Board to consolidate its petition in Docket 30673 with Eastern's application in Docket 30487 be deferred;
3. The motion of Eastern Air Lines for hearing of its application in Docket 30487 be granted;

4. A proceeding to be known as the *St. Louis-San Francisco/Oakland/San Jose Nonstop Route Proceeding*, Docket 31491, be instituted and be set down for hearing before an administrative law judge of the Board at a time and place to be designated, as the orderly administration of the Board's docket permits;

5. The proceeding set for hearing in paragraph 4, above, shall include consideration of the following issues:

- (a) Do the public convenience and necessity require the certification of an air carrier or air carriers to engage in additional nonstop air transportation between St. Louis, Missouri, and San Francisco/Oakland/San Jose, California;

- (b) If the answer to (a) is in the affirmative, which carrier(s) should be authorized to engage in such transportation; and

- (c) What terms, conditions, and limitations, if any, should be placed upon the operation of such carrier(s)?

6. Any authority awarded in this proceeding shall be granted without eligibility for subsidy;

7. American Airlines, Delta Air Lines, Eastern Air Lines, Frontier Airlines, Trans World Airlines, Louisville and Jefferson County Air Board, the Port of Oakland, and the St. Louis Authority-City of St. Louis be made parties to this proceeding;

8. All carriers filing applications in this proceeding shall file environmental evaluations pursuant to section 312.12 of the Board's Procedural Regulations within 30 days from the date of adoption of this order; and

9. Applications, motions to consolidate, and petitions for reconsideration of this order shall be filed within twenty (20) days from the service date of this order

⁴ Eastern filed an environmental evaluation along with its motion for hearing.

⁵ This issue will include a consideration of whether the designation in the San Francisco area should include only one or more of the hyphenated cities.

and answers thereto shall be filed no later than fifteen (15) days thereafter.

This order shall be published in the *FEDERAL REGISTER*.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[6320-01]

[Order 77-10-21; Docket 30948]

RICH INTERNATIONAL AIRWAYS, INC. Order Granting Exemption and To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 6th day of October, 1977.

By application filed June 1, 1977, as amended July 27, 1977, Rich International Airways, Inc. (Rich), which holds a certificate of public convenience and necessity as a supplemental air carrier, requests an exemption from section 401 of the Federal Aviation Act of 1958, as amended (the Act), and from section 298.3 of the Board's Economic Regulations in order to permit it to operate one Cessna 402 aircraft (N-11RP)¹ as an air taxi operator under Part 298 of the Economic Regulations.²

In support of its application Rich observes that before it obtained its supplemental certificate, it was registered as a Part 298 air taxi operator, that the aircraft proposed for use here has a maximum passenger capacity of seven seats and a maximum payload capacity of 1,400 pounds; that use of this aircraft (or a comparably sized substitute aircraft) in on-demand air taxi services will add to the variety of services Rich offers as a fixed-base operator,³ that it occasionally receives requests by small groups for service to Ocean Reef, the Bahamas or other nearby locations for which the Cessna aircraft is ideally suited; that it anticipates that shippers will also occasionally use its on-demand service to ship small quantities of cargo; that the air taxi service will be insignificant in relation to Rich's supplemental cargo operations but will provide it an additional source of revenue; and that the air taxi service will be sufficiently distinct from its certificated operations to avoid any conflict between the two classes of operations.⁴ Rich states that

¹ All members concurred.

² Or to operate a substitute aircraft of similar size and operating characteristics.

³ Section 298.3 classifies an air taxi operator as a carrier that does not hold a certificate of public convenience and necessity.

⁴ Rich indicates that its fixed-base operations began in November 1976 and are currently limited to fueling aircraft, cleaning and waxing; packing and car rentals.

⁵ Rich states that in order to avoid the appearance of conflict it will qualify any air taxi advertising as "Services Provided with Light Twin Aircraft."

grant of this application will not have any of the results set forth in section 312.9(a)(2) of the Procedural Regulations.

No answers to the application have been filed.

We have considered Rich's application and have decided to grant the requested exemption for a two-year period, subject to conditions.

Rich's application is similar to applications granted by the Board in the past to supplemental air carriers. The Board has generally been willing to grant such exemptions when the scope of the air taxi authority has not exceeded the scope of the applicant's supplemental authority.⁵ This application seeks authority broader than generally authorized i.e., Rich's proposed air taxi authority is broader in scope than its supplemental certificate authority.⁶ Specifically, Rich desires to carry passengers in its air taxi service while its supplemental certificate restricts it to the carriage of property only. Also Rich has not limited its request for air taxi passenger and cargo authority to the same geographic area it is certificated to serve. The Board's concern in cases such as this has been that the holding of two different operating authorizations by the same person may create opportunities to circumvent the limitations contained in either authorization. However, in view of the limited extent of the air taxi operations contemplated, confined to the use of the a single aircraft with a maximum capacity of seven passengers or a 1,400 pound payload, and the great disparity between the payloads of the air taxi and the aircraft used by Rich in its certificated service, we believe that Rich's holding dual operating authority will not give rise to such problems. Nor do we believe that the holding of such authority would be adverse to the public interest. On the contrary, we believe that grant of the authority requested by Rich will enable that carrier to meet a limited public need by groups of 7 or less for air taxi charter service, or for the carriage of small loads of freight not readily suitable for carriage on certificated carrier charter services. The air taxi authorization will also be of benefit to Rich by generating additional operating revenues. Furthermore, grant of the authority would not be likely to have a harmful effect on

⁵ See, for example, *Modern Air Transport, Inc.*, Order E-20833, May 18, 1964, *Capitol Airways, Inc.*, Order 68-12-74, December 13, 1968 and *Evergreen Helicopters, Inc.*, Orders 75-10-23/24, September 26, 1975.

⁶ There have been several exceptions to the Board's general policy in this area. For example, by Order No. E-15485, dated June 30, 1960, Johnson Flying Service, Inc., was granted an exemption to conduct air taxi passenger service, on an infrequent and irregular basis, to Canada, although it was not certificated to engage in supplemental passenger air transportation to Canada. Also, by Order 71-2-32, dated February 5, 1971, McCulloch International Airlines, Inc., was granted an exemption to conduct a limited individually ticketed service.

NOTICES

the operations of other air carriers, as is indicated by the absence of objections to the application. We note that Rich requested authority to perform only on-demand air taxi service. In order to clarify the nature of this service, and, further, in order to prevent any possible conflict between Rich's air taxi and supplemental operations, we will impose a condition restricting Rich's air taxi operations to charter trips, and we will require that any substitute aircraft used by Rich in its air taxi service have a maximum payload and passenger capacity no greater than that of the Cessna 402. We will also limit the authority granted here to a two-year period.⁸

In view of the above, the Board finds that enforcement of section 401 of the Act and section 298.3 of the Economic Regulations, insofar as they would otherwise prevent Rich from performing the air taxi operations authorized here, would be an undue burden on Rich because of the limited extent of, and unusual circumstances affecting, its operations, and would not be in the public interest.⁹ The Board further finds that this action is not a major Federal action within the meaning of the National Environmental Policy Act of 1969.

This action is not an endorsement by the Board that the proposed operation is a hardship which qualifies Rich for additional fuel allocation under the Mandatory Aviation Fuel Allocation Program administered by the Federal Energy Administration.

As a final matter, in reviewing the issues presented here by Rich's request for air taxi authority, we also reviewed an exemption which the Board granted Rich, prior to its becoming a certificated carrier, to conduct air taxi operations under Part 298 with C-46 aircraft in certain markets (Order 76-7-75, dated July 21, 1976). We have carefully considered the full extent of Rich's operating authority, and have tentatively concluded that the authority granted Rich by Order 76-7-75 became moot when Rich's supplemental certificate became effective, and should be revoked.

In support of our conclusions, we note that section 298.3 of the Economic Regulations defines an air taxi operator as a carrier that does not hold a certificate of public convenience and necessity or other economic authority from the Board. Thus, the blanket exemption granted to air taxis under Part 298 of the Economic

Regulations does not extend to a certificated carrier, such as Rich, unless the Board has specifically exempted that carrier from the requirements of Part 298. The Board did not so exempt Rich either in Order 76-7-75 or in the order awarding Rich a supplemental certificate (Order 77-1-100). Therefore, we tentatively find that Rich, as a certificated carrier, cannot conduct operations as an air taxi under the exemption to use C-46 aircraft conferred by Order 76-7-75; that, therefore, it is no longer in the public interest to continue the exemption authorization in Order 76-7-75; and that the exemption should be revoked.

However, before taking final action we will give interested persons 30 days from the date of service of this order to show cause why the tentative findings and conclusions set forth above should not be made final. We shall expect such persons to support any objections fully with detailed arguments of fact or law. General, vague, or unsupported pleadings will not be entertained.

Accordingly, it is ordered, That: 1. Rich be exempted from section 401 of the Act and section 298.3 of the Economic Regulations to permit Rich to perform charter trips as an air taxi operator, using one Cessna 402 aircraft (or a substitute aircraft that is not larger than the Cessna 402 in terms of maximum passenger or payload capacity);

2. In the conduct of this service Rich shall be deemed an "Air Taxi Operator" within the meaning of Part 298 of the Economic Regulations and shall comply with and be subject to all the provisions of that Part, including but not limited to, the registration, insurance and reporting requirements for air taxi operators;

3. These operations shall be conducted under the applicable safety requirements prescribed by the Administrator of the Federal Aviation Administration pursuant to an operating certificate and specifications issued by the Administration;

4. Rich shall submit any data requested of it by the Board's Bureau of Accounts and Statistics in accordance with the requirements of Part 241 for its air taxi operations;

5. The exemption granted in this order shall expire two years from the date of this order;

6. To the extent not granted in this order, the application of Rich in Docket 30948 be denied;

7. The authority conferred by this order may be amended or revoked at any time in the discretion of the Board without hearing;

8. All interested persons are directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated here which would result in revocation of authority granted in Order 76-7-75;

9. Any interested person having objections to the issuance of an order making final such tentative findings and conclusions shall, within 30 days after the date of service of this order, file with the Board a statement of objections;

10. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues related before further action is taken by the Board; and

11. In the event no objections are filed, all further procedural steps will be deemed to have been waived, and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.¹⁰

[Order 77-10-16; Docket 30976]

TRANS WORLD AIRLINES, INC.

Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 6th day of October, 1977.

On June 9, 1976, Trans World Airlines (TWA) filed an application for an amendment of its certificate of public convenience and necessity for Route 147 for fill-up authority between the domestic coterminals of Boston and New York, Detroit and New York, and New York and Washington/Baltimore on flights operated in foreign or overseas air transportation. Contemporaneously, TWA filed a petition for issuance of an order to show cause.

In support of its petition, TWA states that its application meets the criteria for fill-up rights as enumerated in Order 77-4-153, April 29, 1977, in which it was tentatively concluded that Braniff, Northwest, and Pan American should receive fill-up authority between several domestic coterminals. The conditions set forth in Order 77-4-153 which TWA claims it fulfills are that: (1) It provides passenger service in the markets in issue; (2) it has provided service for a sustained period of time; (3) these markets are not under consideration in another proceeding; (4) TWA is operating with a high percentage of its capacity unfilled, and grant of fill-up authority will benefit it; (5) the grant of fill-up rights will not impose any substantial burden on the incumbent carriers in the markets involved because of the number of nonstop carriers, daily frequencies, and O&D plus interline connecting passengers in each market; and (6) it does not propose to add new services if it received the authority requested.

American Airlines filed an answer in opposition to TWA's petition. American claims that grant of fill-up rights to TWA will permit it to operate domestic service superior to what it can provide under its existing domestic authority, resulting in an important improvement

¹⁰ All members concurred.

NOTICES

in its ability to compete in the markets in issue. In addition, American contends that fill-up authority will provide, by means of tacking, with many additional domestic routings not now available. As a result of gaining such valuable domestic traffic rights, TWA will have every incentive to exploit these flights. American argues, at the expense of its international service obligations. Finally, American questions whether the Detroit-New York market is appropriate for grant of fill-up authority because it is a medium rather than short-haul market and has only two carriers providing nonstop service.

TWA filed a timely reply to American's answer, which we will deny. We are becoming increasingly concerned about the number of unauthorized replies being filed by applicants merely because they want to have the last word. In this period of intensive route activity, these replies only increase the Board's workload; and where, as here, adequate justification for receiving the reply has not been shown (for example, TWA has not demonstrated that the answer contained new material which it could not have anticipated), we will not accept it.

We tentatively conclude that it is in the public interest to grant TWA fill-up authority in the New York-Boston/Detroit/Washington/Baltimore markets. In reaching this decision, we rely on the guidelines established in Order 77-4-153. We tentatively find that TWA is now providing service in each of the markets and has done so for at least three years.¹ Furthermore, we tentatively find that in light of TWA's load factors in each of the markets in issue, the grant of fill-up rights will benefit the carrier and the public.²

Also, we tentatively find that this grant will impose no substantial burden on the incumbent carriers. There are many of them, providing many nonstop frequencies in each of the markets, all of which are very large in terms of true O&D and interline connecting passengers. (O.A.G., North American Edition, July 15, 1977):

Market	BOS- NYC	DTW- NYC	NYC- WAS/ BAL
Number of nonstop carriers	5	12	11
Daily nonstop round trips	50	22	65
1976 true O&D plus interline connecting passengers	1,874,960	749,850	1,783,280

¹ United Air Lines holds dormant unrestricted authority.

² TWA provides two nonstop round trips per week in the New York-Boston market and one daily nonstop round trip in the New York-Detroit/Washington/Baltimore markets. O.A.G., North American Edition, July 15, 1977; O.A.G., International Edition, July 1977.

³ Total coach load factors for CY 1976 in each market were: 33.5 percent (New York-Boston), 48.13 percent (New York-Detroit), and 36.56 percent (New York-Washington/Baltimore).

TWA is unlikely to divert any significant amount of traffic from them, because it will serve Kennedy Airport in New York and Dulles Airport in its Washington/Baltimore services, and will have its flights tied to European points—in effect a long-haul restriction—which greatly reduces its ability to schedule increased frequencies as a result of obtaining fill-up rights. Finally, TWA will not be a new entrant in the three markets in issue because it is already authorized to provide service in those markets as part of its domestic authority (Route 2). Grant of fill-up rights will merely substitute long-haul restrictions to Europe for long-haul restrictions on its domestic authority.⁴

We disagree with American's assertion that TWA will gain a significant improvement in its ability to provide nonstop service between the cities in issue, that TWA will substantially improve its domestic authority, or that the Detroit-New York City market is unsuitable for fill-up authority. As we have already observed, TWA is unlikely to be able to increase its nonstop service between the cities involved because it must serve transatlantic points at least 2,895 miles east of New York. Nor will TWA significantly improve its domestic authority by tacking the fill-up rights with domestic routings. Although TWA will in theory be able to tack, in practice it will not be able to improve its domestic authority substantially. For example, even though it may be able to offer St. Louis-Detroit-New York service, its service would be tied to European services which significantly reduce its ability to offer more than a daily round trip in the market, and it can serve only Kennedy Airport, which lessens its appeal to the local traffic. The same rationale applies to any other tacking of domestic authority with the fill-up rights in issue. Finally, we find Detroit-New York is a suitable market for fill-up rights. The length of haul and the number of incumbent carriers offering nonstop service are not the only considerations in this decision.⁵ These are only two elements considered by the Board in assessing the impact that

⁴ TWA's authority (Route 2) in the three domestic routes is subject to the following restrictions: In the Boston-New York market, TWA's flights must originate or terminate at Dayton, Ohio, or a point west of Dayton; in the Detroit-New York market, TWA's flights must originate or terminate at Kansas City, Missouri, or a point west of Kansas City; and in the Baltimore/Washington-New York market, TWA's flights must also serve Tulsa or Oklahoma City, Oklahoma, or originate or terminate at Dayton, Ohio, or a point west of Dayton.

⁵ See Order 77-6-84, June 16, 1977, where the Board tentatively concludes that Pan American should receive fill-up authority in the New York-Dallas/Fort Worth market which is 1,391 miles compared to the New York-Detroit market which is 509 miles, C.A.B., Airport-to-Airport Mileages (26th ed.). Also, the New York-Dallas/Fort Worth market, like the New York-Detroit market, is served by only two unrestricted incumbent carriers.

fill-up authority will have on the incumbent carriers. In this case, we have tentatively concluded that the amount of diversion in each of the three markets concerned will be minimal because service between the domestic coterminals will be tied to service to European points, and will be via Kennedy Airport in New York and Dulles Airport in Washington/Baltimore.

Consequently, we tentatively find and conclude that the public convenience and necessity require that TWA be authorized to transport persons, property, and mail in interstate air transportation between New York, on the one hand, and Boston, Detroit, and Washington/Baltimore, on the other hand, on flights operated to overseas or foreign points pursuant to its certificate for Route 147.⁶

We also tentatively find that grant of fill-up rights to TWA in the three markets in issue will not be a "major Federal action significantly affecting the quality of the environment" within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969. The environmental evaluation accompanying TWA's petition stated that TWA does not intend to operate additional flights at Detroit Metropolitan Airport, Dulles Airport, Kennedy Airport, or Logan Airport if granted the fill-up authority it requests.

Interested persons will be given 30 days following adoption of this order to show cause why the tentative findings and conclusions set forth should not be made final. We expect such persons to direct their objections, if any, to specific markets, and to support such objections with detailed economic analysis. If an evidentiary hearing is requested, the objector should state, in detail, why such a hearing is necessary and what relevant and material facts he would expect to establish through such a hearing that cannot be established in written pleadings. General, vague, or unsupported objections will not be entertained.

Accordingly, it is ordered, That: 1. Trans World Airlines motion for leave to file an unauthorized reply be denied;

2. All interested persons be directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated here and authorizing Trans World Airlines, Inc., to transport persons, property, and mail in interstate air transportation in the New York-Boston/Detroit/Washington/Baltimore markets on flights operated in foreign and/or overseas air transportation pursuant to its certificate for Route 147;

3. Any interested persons having objection to the issuance of an order making final the proposed findings, conclusions, and certificate amendments set

⁶ We further find that TWA is a citizen of the United States within the meaning of the Act, and is fit, willing, and able to perform properly the transportation proposed here and to conform to the provisions of the Act and the Board's rules, regulations, and requirements.

NOTICES

forth here shall, within 30 days after the date of adoption of this order, file with the Board a statement of objections together with a summary of testimony, statistical data, and such evidence as is expected to be relied upon to support the stated objections; answers may be filed 15 days thereafter;

4. If timely and properly supported objections are filed, full consideration will be accorded the matters or issues raised by the objections before further action is taken by the Board.

5. In the event no objections are filed, all further procedural steps will be deemed to have been waived, and the case will be submitted to the Board for final action; and

6. A copy of this order shall be served upon Trans World Airlines, Inc., and American Airlines, Inc.
This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.³

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric
AdministrationRECEIPT OF APPLICATIONS FOR
CERTIFICATES OF EXEMPTION

Notice is hereby given that the following applicants have applied in due and timely form for Certificates of Exemption under Pub. L. 94-359, and the regulations issued thereunder (50 CFR Part 222, Subpart B), to engage in certain commercial activities with respect to pre-Act endangered species parts or products.

Applicants:

1. Mr. and Mrs. Tucker Lindquist, 7 Granite Street, Peabody, Mass. 01960.

Period of Exemption. The applicant requests that the period of time to be covered by the Certificate of Exemption begin on the date of the original issuance of the Certificate of Exemption and be effective for a 3-year period.

Commercial activities exempted. (i) The prohibitions, as set forth in section 9(a)(1)(E) of the Act, to deliver, receive, carry, transport, or ship in interstate or foreign commerce, by any means whatsoever and in the course of a commercial activity any such species part;

(ii) The prohibitions, as set forth in section 9(a)(1)(F) of the Act, to sell or offer for sale in interstate or foreign commerce any such species part.

Parts or products exempted. Finished scrimshaw products to be made from 30 sperm whale teeth.

2. Keith A. Henry, 310 Bayview Trailer Park, Middletown, R.I. 02840.

Period of Exemption. The applicant requests that the period of time to be covered by the Certificate of Exemption begin on the date of the original issuance of the Certificate of Exemption and be effective for a 3-year period.

Commercial activities exempted. (i) The prohibitions, as set forth in section 9(a)(1)(E) of the Act, to deliver, receive, carry, transport, or ship in interstate or foreign commerce, by any means whatsoever and in the course of a commercial activity any such species part;

(ii) The prohibitions, as set forth in section 9(a)(1)(F) of the Act, to sell or offer for sale in interstate or foreign commerce any such species part.

Parts or products exempted. Finished scrimshaw products consisting of 65 jewelry items and three etched whale teeth. Finished scrimshaw products to be made from three whale teeth.

3. James F. O'Connell & Beverly J. O'Connell, d/b/a The Scrimshaw Shop,

Main Street, Box 613, Dennisport, Mass. 02639.

Period of Exemption. The applicant requests that the period of time to be covered by the Certificate of Exemption begin on the date of the original issuance of the Certificate of Exemption and be effective for a 3-year period.

Commercial activities exempted. (i) The prohibition, as set forth in section 9(a)(1)(A) of the Act, to export any such species part from the United States;

(ii) The prohibitions, as set forth in section 9(a)(1)(E) of the Act, to deliver, receive, carry, transport, or ship in interstate or foreign commerce, by any means whatsoever and in the course of a commercial activity any such species part;

(iii) The prohibitions, as set forth in section 9(a)(1)(F) of the Act, to sell or offer for sale in interstate or foreign commerce any such species part.

Parts or products exempted. Finished scrimshaw products consisting of 162 finished jewelry items, 61 pieces of carved whale tooth and bone. Finished scrimshaw products to be made from 206 blanks and bits, 44 whale teeth and one whale jawbone containing 40 teeth.

4. Lucille Irene Barringer, 217 2nd Isle North, Port Richey, Fla. 33568.

Period of Exemption. The applicant requests that the period of time to be covered by the Certificate of Exemption begin on the date of the original issuance of the Certificate of Exemption and be effective for a 3-year period.

Commercial activities exempted. (i) The prohibition, as set forth in section 9(a)(1)(A) of the Act, to export any such species part from the United States;

(ii) The prohibitions, as set forth in section 9(a)(1)(E) of the Act, to deliver, receive, carry, transport, or ship in interstate or foreign commerce, by any means whatsoever and in the course of a commercial activity any such species part;

(iii) The prohibitions, as set forth in section 9(a)(1)(F) of the Act, to sell or offer for sale in interstate or foreign commerce any such species part.

Parts or products exempted. Finished scrimshaw products to be made from approximately 3,987 whale teeth.

5. Collector's World, Inc., Box 823, Route 6, Eastham, Mass. 02642.

Period of Exemption. The applicant requests that the period of time to be covered by the Certificate of Exemption begin on the date of the original issuance of the Certificate of Exemption and be effective for a 3-year period.

Commercial activities exempted. (i) The prohibition, as set forth in section 9(a)(1)(A) of the Act, to export any such species part from the United States;

(ii) The prohibitions, as set forth in section 9(a)(1)(E) of the Act, to deliver, receive, carry, transport, or ship in interstate or foreign commerce, by any means whatsoever and in the course of a commercial activity any such species part;

(iii) The prohibitions, as set forth in section 9(a)(1)(F) of the Act, to sell or offer for sale in interstate or foreign commerce any such species part.

Parts or products exempted. Finished scrimshaw products consisting of approximately 174 jewelry items and pieces of art, and 35 etched whale teeth. Finished scrimshaw products to be made from approximately 43 whale teeth.

6. Christos P. Alex, 44 Sugar Hill Drive, East Harwich, Mass. 02645.

Period of Exemption. The applicant requests that the period of time to be covered by the Certificate of Exemption begin on the date of the original issuance of the Certificate of Exemption and be effective for a 3-year period.

Commercial activities exempted. (i) The prohibition, as set forth in section 9(a)(1)(A) of the Act, to export any such species part from the United States;

(ii) The prohibitions, as set forth in section 9(a)(1)(E) of the Act, to deliver, receive, carry, transport, or ship in interstate or foreign commerce, by any means whatsoever and in the course of a commercial activity any such species part;

(iii) The prohibitions, as set forth in section 9(a)(1)(F) of the Act, to sell or offer for sale in interstate or foreign commerce any such species part.

Parts or products exempted. Finished scrimshaw products of approximately 29 etched whale teeth, and 2 items carved from whale jawbone.

7. William C. Mahoney, III, P.O. Box 1617, St. Augustine, Fla. 32084.

Period of Exemption. The applicant requests that the period of time to be covered by the Certificate of Exemption begin on the date of the original issuance of the Certificate of Exemption and be effective for a 3-year period.

Commercial activities exempted. (i) The prohibition, as set forth in section 9(a)(1)(A) of the Act, to export any such species part from the United States;

(ii) The prohibitions, as set forth in section 9(a)(1)(E) of the Act, to deliver, receive, carry, transport, or ship in interstate or foreign commerce, by any means whatsoever and in the course of a commercial activity any such species part;

(iii) The prohibitions, as set forth in section 9(a)(1)(F) of the Act, to sell or offer for sale in interstate or foreign commerce any such species part.

Parts or products exempted. Finished scrimshaw products to be made from 24 sperm whale teeth.

8. William F. Feeney, Tara Road, Matapalsett, Mass. 02739.

Period of Exemption. The applicant requests that the period of time to be covered by the Certificate of Exemption begin on the date of the original issuance of the Certificate of Exemption and be effective for a 3-year period.

Commercial activities exempted. (i) The prohibition, as set forth in section 9(a)(1)(A) of the Act, to export any such species part from the United States;

(ii) The prohibitions, as set forth in

COUNCIL ON ENVIRONMENTAL
QUALITYENVIRONMENTAL IMPACT STATEMENTS
Availability

The following is a list of environmental impact statements received by the Council on Environmental Quality from October 3 through October 7, 1977. The date of receipt for each statement is noted in the statement summary. Under Council Guidelines the minimum period for public review and comment on draft environmental impact statements is forty-five (45) days from this FEDERAL REGISTER notice of availability. (November 28, 1977) The thirty (30) day period for each final statement begins on the day the statement is made available to the Council and to commenting parties.

Copies of individual statements are available for review from the originating agency. Back copies are also available at 10 cents per page from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

Draft

Hiawatha National Forest Timber Plan, several counties, October 4: Proposed is a Timber Resource Plan for the Hiawatha National Forest for the period June, 1977 to June, 1987. The plan develops a potential yield of 1382 MCF; the initial programmed yield will be 53 percent of the planned potential yield. The plan also provides for the planting of 13,000 acres, seedling 12,200 acres, site preparation on 70,000 acres, TSI on 17,900 acres, and estimated 350 miles of road construction or reconstruction in the 10-year plan period. The Hiawatha National Forest is located in the state of Michigan and in the counties of Alger, Delta, Schoolcraft, Chippewa, and Mackinac. (ELR Order No. 71244.)

Gila National Forest Geothermal Leasing, Grant and Catron Counties, October 5: Proposed is the leasing under the Geothermal Act of 1970 of two Known Geothermal Resource Areas (8030 acres or 3251 hectares), and an area of noncompetitive leasing interest outside the KGRA (24,335 acres or 9852 hectares). This statement also covers a larger area (about 855,256 gross acres or 346,257 hectares) known as an area prospectively valuable for geothermal resources which includes both the Known Geothermal Resource Area and noncompetitive area. The major impacts on National Forest resources would involve volve soils, timber, outdoor recreation, natural beauty, water, forage, wilderness, and wildlife. (ELR Order No. 71253.)

Supplement

Teton-Jackson 115-kV Transmission Line (S-2), Teton County, October 4: This statement supplements a final EIS filed with CEQ in March of 1977 and a draft supplement filed in April of 1977. This final supplement provides additional discussion of the alternate Teton to Jackson transmission line routings that were covered in the final EIS. The Rural Electrification Administration intends to provide loan funds to Lower Valley Power and Light for an alternate route if the pro-

section 9(a)(1)(E) of the Act, to deliver, receive, carry, transport, or ship in interstate or foreign commerce, by any means whatsoever and in the course of a commercial activity any such species part;

Parts or products exempted. Finished scrimshaw products to be made from 50 pounds of whale teeth and 10 pounds of cross-cuts and scrap pieces of whale teeth.

Written comments on these applications may be submitted to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235 on or before November 14, 1977.

Dated: October 11, 1977.

MORRIS M. PALLOZZI,
Acting Assistant Director
for Fisheries Management.

COMMITTEE FOR THE PURCHASE
FROM THE BLIND AND OTHER
SEVERELY HANDICAPPED

PROCUREMENT LIST 1977

Proposed Addition

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed Addition to Procurement List.

SUMMARY: The Committee has received a proposal to add to Procurement List 1977 a commodity to be produced by workshops for the blind or other severely handicapped.

COMMENTS MUST BE RECEIVED ON OR BEFORE: November 17, 1977.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Virginia 22201.

FOR FURTHER INFORMATION CONTACT:

C. W. Fletcher, 703-557-1145.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2), 85 Stat. 77. If the Committee approves the proposed addition, all entities of the Federal Government will be required to procure the commodity listed below from workshops for the blind or other severely handicapped. It is proposed to add the following commodity to Procurement List 1977, November 18, 1976 (41 F.R. 50975):

Class 7210

Pillow, Bed, 7210-00-205-3205. For Supply Distribution Facilities in GSA Regions 1, 2, 3, 4, 5, 6, and 7 only.

C. W. FLETCHER,
Executive Director.

[FR Doc. 77-29986 Filed 10-13-77; 8:45 am]

posed route remains unavailable due to the lack of permits from the U.S. Department of the Interior. (ELR Order No. 71251.)

FOREST SERVICE

Draft

Upper Cispus Unit Plan, Gifford Pinchot National Forest, Lewis, Slamanian, and Yakima Counties, Wash. October 5: Proposed is the implementation of a comprehensive land use plan for the Upper Cispus Planning Unit, Gifford Pinchot National Forest. The Unit covers 183,960 acres of land, of which 114,630 acres lie in Lewis County, 64,930 acres lie in Skamania County, and 4,400 acres lie in Yakima County. Primary land allotments are for purposes of timber management, wilderness study, dispersed recreation, and allocation to key wildlife habitat. Adverse effects include those caused by additional people in the area. (ELR Order No. 71254.)

Final

Vernon Unit Plan, Kistatichie National Forest, Vernon County, Ia., October 5: Proposed is a 10-year management plan for the Vernon Unit, Kistatichie National Forest. The 81,874-acre unit is divided into 2 zones according to the degree of military use, ranging from "Intensive" to "Limited Use." This statement proposes timber management on 573 acres, site preparation on 437 acres, thinning on 2,500 acres, prescribed burning on 14,500 acres, and development of range facilities and trails. Adverse impacts include soil movement, stream siltation, and effects caused by timber harvesting. Comments made by: EPA, DOD, DOI, State and local agencies, and concerned individuals. (ELR Order No. 71259.)

Huston Park Sub-Unit, Medicine Bow National Forest, Carbon County, Wyo., October 5: Proposed is a revised land management plan for the 63,560 acre Huston Park Sub-Unit, Medicine Bow National Forest. The area has been divided into three management units with the primary resource values being a function of natural capability, managed suitability, resource availability and relative public needs. Adverse effects include the potential loss of wilderness characteristics within the 13,240 acres that could be developed for a variety of other resources and uses. Comments made by: AHP, DOI, USDA, State and local agencies, and concerned groups and individuals. (ELR Order No. 71261.)

DEPARTMENT OF COMMERCE

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

Draft

Massachusetts Coastal Zone Management Program, several counties, October 7: Proposed is the approval of the Coastal Management Program of the state of Massachusetts. Approval would permit implementation grants to be awarded to the state, and require that Federal actions be consistent with the program. The program will allow the state to better coordinate and more effectively implement existing state authorities for management of its coastal zone. Each coastal municipality will retain primary responsibility for managing land use along its coast. The program will entail irreversible commitment of some coastal resources. (ELR Order No. 71265.)

Final

Deletion of Exemption for Harvest of Bowhead Whale, October 7: Proposed is a recommendation by the International Whaling Commission which would delete the native exemption from the Commission's ban on the killing of bowhead whales. Bowhead whales have been completely protected from commercial whaling by the Marine Mammal Protection Act of 1972, the Endangered Species Act of 1973, and Convention on International Trade in Endangered Species of Wild Fauna and Flora. Conventions and Acts have allowed for native harvest of these whales. Deletion of this native exemption was recommended at the 29th Annual Meeting of the commission. This action will allow for the recovery of the species, if recovery is possible. Comments made by: DOC, SEQ, State and local agencies, and concerned groups and individuals. (ELR Order No. 71266.)

Draft

Arkansas-Red R. Basin Chloride Control, October 3: The proposed project calls for construction of a low-flow collection dam at river mile 25.3 on Salt Creek, a reinforced concrete pump-house structure, 2.3 miles of conveyance pipeline, access roads, and an off-stream evaporation pond system with 3 ponds. The project will reduce the natural pollution in Salt Creek by removing 150 tons of chloride per day, 10 tons of sulfates per day, and 6 tons of calcium per day. A total of 253 acres will be needed in fee and 112.5 will be needed in easement for the project. (Tulsa District.) (ELR Order No. 71233.)

St. Joseph Harbor Maintenance Operations, Michigan, October 4: Proposed are three maintenance activities for St. Joseph Harbor, Michigan: (1) maintenance dredging of the harbor and harbor entrance channel, (2) disposal of the dredged material, and (3) maintenance (rehabilitation) of the Federal structures. The proposed central disposal facility site would be located along the side of the Paw Paw River east of the North Shore Road and north of Klock Road. Maintenance dredging of sediments unsuitable for open water disposal would commence upon completion of the proposed disposal facility. Adverse effects include construction-related pollution and the long term suppression of benthic diversity. (Detroit District.) (ELR Order No. 71247.)

Frankfurt Harbor Operation & Maintenance, Benzle County, Mich., October 4: This statement proposes continued operation and maintenance of Frankfurt Harbor, Michigan, including dredging disposal of dredged material, and renovation of existing structures. It is also proposed that confined diked disposal facilities be constructed for containing 100,000 cubic yards of contaminated material from the commercial turning basin and the recreational anchorage area. Three sites are proposed for this purpose, two on the northern shore of Lake Betsie and the third on an upland site in the Fife Lake State Forest. (Detroit District.) (ELR Order No. 71248.)

Port Austin Harbor Operation & Maintenance, Michigan, October 4: Proposed is a project for dredging, facility maintenance operations, and structural repairs for Port Austin Harbor, Michigan. The proposed activities consist, specifically, of (1) maintenance dredging of the harbor and harbor entrance channel, (2) the disposal of the dredged material, and (3) rehabilitation of

the Federal structures. The proposed new island contained disposal facility would be located on the east side of the existing harbor, approximately 1,000 feet from the shoreline. Unavoidable adverse impacts of construction would include interference with road traffic and the attending safety hazard to residents, along with attendant noise and exhaust odors. (Detroit District.) (ELR Order No. 71249.)

Les Cheneaux Islands, Maintenance Dredging, Michigan, October 4: The proposed action is the construction of a confined disposal facility for contaminated dredged materials, and maintenance dredging of the Les Cheneaux Island channels. The disposal facility would be located inland, approximately two miles by road from the new village of Cedarville Marina. The channels to be maintained are approximately 40,000 feet in length and have previously been deepened to 7 feet and widened to 100 feet with additional enlargement where required. Adverse impacts include construction-related noise and air pollution, interference with recreational boating, and temporary loss of aquatic habitat. (Detroit District.) (ELR Order No. 71250.)

ENVIRONMENTAL PROTECTION AGENCY

Please refer to the separate notice published by EPA in this issue of the FEDERAL REGISTER for the appropriate EPA contact.

Draft

Wheel & Crawler Tractor Noise Emission Regulation, October 3: Proposed are the establishment of noise emission standards for newly manufactured wheel and crawler tractors and enforcement procedures to ensure that this equipment complies with the standard. The proposed regulation is intended to reduce the level of noise emissions from wheel and crawler tractors used in construction activities for loading and dozing operations. The regulation is also intended to establish a uniform national standard for this equipment distributed in commerce, thereby eliminating inconsistent state and local noise source emission regulations that may impose an undue burden on wheel and crawler tractor manufacturers. (ELR Order No. 71231.)

Truck-Mounted Solid Waste Compactors, Regulation, October 3: Proposed are the establishment of noise emission standards for newly manufactured compactors and procedures to ensure that this equipment complies with the standard. The proposed regulation is intended to reduce the level of noise emitted from truck mounted solid waste compactors used in collecting solid wastes. The regulation is also intended to establish a uniform national standard for this equipment distributed in commerce, thereby eliminating inconsistent state and local noise source emission regulations that may impose an undue burden on the truck solid waste compactor industry. (ELR Order No. 71232.)

Three Lakes Wastewater Treatment, October 4: The proposed project calls for the protection of the water quality of Grand Lake, Shadow Mountain Lake, Lake Granby, and their tributaries by the provision of wastewater collection and treatment facilities and the control of nonpoint pollution. The objective is also to provide these water quality controls while, at the same time, avoiding undesirable secondary impacts on area growth patterns, the Shadow Mountain National Recreation Area, water rights, and other aspects of the local environment. Six alternative wastewater treatment systems are analyzed, with one preferred system. (Region VIII.) (ELR Order No. 71243.)

Draft

Taunton R. Drainage Basin, 208 Plan, several counties in Massachusetts, October 3: This statement consists of the EPA Southeastern Regional Planning and Economic Development District's Section 208 Water Quality Management Plan for the Taunton River Drainage Basin area. It includes a discussion of the technical and management alternatives which have been considered to deal with water quality problems of the Taunton River Basin and Mt. Hope Bay from now through the next 20 years. (Region I.) (ELR Order No. 71236.)

Ten Mile R. Drainage Basin, 208 Plan, several counties in Massachusetts, October 3: This statement consists of the EPA Southeastern Regional Planning and Economic Development District's Section 208 Water Quality Management Plan for the Ten Mile River Drainage Basin. It includes a discussion of the technical and management alternatives which have been considered to deal with water quality problems of the Ten Mile River Basin from now through the next 20 years. (Region I.) (ELR Order No. 71237.)

Coastal Drainage Areas, 208 Wastewater Plan, several counties in Massachusetts, October 3: This statement consists of the EPA Southeastern Regional Planning and Economic Development District's Section 208 Water Quality Management Plan for the Coastal Drainage Areas. It includes a discussion of the technical and management alternatives which have been considered to deal with water quality problems of the Coastal Basin System from now through the next 20 years. (Region I.) (ELR Order No. 71238.)

Bus Noise Emission Regulation, October 4: Proposed are the establishment of noise emission standards for newly manufactured buses and enforcement procedures to ensure that these vehicles comply with the standard. The proposed regulation is intended to reduce the level of noise emitted from intercity, school, and urban transit buses. The regulation is also intended to establish a uniform national standard for such vehicles distributed in commerce, thereby eliminating inconsistent state and local noise emission regulations that may impose an undue burden on the bus manufacturing industry. (ELR Order No. 71246.)

Final

Upper Eagle Valley & Vail Wastewater Plan, Eagle County, Colo., October 4: Proposed is a 201 Wastewater Facilities Plan for the Upper Eagle Valley and Vail Region, Colorado. The plan has two component parts, one for 1985 and one for 1995. This statement relates to funding of the 1985 plan, which involves the following actions: upgrade of the Vail Treatment Plant and provision of flow equalization; enlargement of the Vail plant from 1.5 to 3.0 mgd capacity; upgrade of the Avon Plant (UEVSD) from 1.65 to 3.5 mgd capacity; and replacement of interceptors. Construction impacts include minor disturbance and/or destruction of vegetation and wildlife. (Region VIII.) Comments made by: USDA, FEA, DOI, HEW, DOT, and State and local agencies. (ELR Order No. 71245.)

GENERAL SERVICES ADMINISTRATION

Contact: Mr. Andrew E. Kaenders, Executive Director, Environmental Affairs Division, General Services Administration, 18th and F Streets NW., Washington, D.C. 20405, 202-566-0405.

Final

Federal Building, 1114 Commerce St., Dallas, Dallas County, Tex., October 6: The proposed project provides for major repair and

NOTICES

Improvement of 1114 Commerce Street in Dallas, Texas, which must be undertaken for its continued use as a Federal Building. Plans include: Improvement of existing air conditioning and heating systems, elevator replacement, modernization of office space, exterior repair work, replacement of windows, and installation of facilities for handicapped persons on all floors. The project will provide 220,000 occupiable square feet of improved office space for an estimated 1,500 persons. Short terms construction-associated inconveniences are anticipated. Comments made by: FPC, AHP, USDA, HEW, EPA, COE, DOI, DOD, State and local agencies, and concerned individuals. (ELR Order No. 71233.)

DEPARTMENT OF HUD

Draft

Larchmont Natomas Development, Sacramento County, Calif., October 3: Proposed is the development of a residential development incorporating public and commercial land uses, containing 240 acres, 1,295 dwelling units, and an ultimate population estimated at 4,250. The project is located in the community of Rancho Cordova, Calif. The development of the project will have adverse impacts on air quality, transportation, noise, and energy consumption. (ELR Order No. 71241.)

The Meadows/Foothill Green, Jefferson County, Colo., October 5: Proposed is the acceptance for HUD/FHA mortgage insurance purposes of The Meadows and Foothill Green Developments in Jefferson County, Colo. The developers of The Meadows and Foothill Green are proposing to build 199 single family detached units, respectively, in their first filings in the southwest Denver Metropolitan area. The construction of both will adversely impact the Regions air quality in both the primary effect of increased fugitive dust and the secondary effects of transportation, commercial development, and industrial and utility services. (ELR Order No. 71255.)

Fairmont Park Subdivision, Harris County, Tex., October 5: Proposed is the acceptance for HUD/FHA mortgage insurance purposes of the Fairmont Park Subdivision in the city of La Porte, Tex. Approximately 470 acres remain to be developed in the existing planned community, totalling 1,179 acres; the project will provide housing for approximately 4,845 persons in single family homes. Adverse effects resulting from project implementation include increased groundwater consumption and increased demand for fossil fuels through dependence on the automobile for transportation. (ELR Order No. 71260.)

Bear Creek Village Subdivision, Harris County, Tex., October 5: The proposed action is for the Department of HUD to accept for HUD/FHA mortgage insurance purposes the 662-acre Bear Creek Village Subdivision located in Harris County, Texas. When completed in approximately five years, the subdivision will contain approximately 1,846 single-family homes plus some attached single-family and multi-family housing, and shopping and recreational facilities. Adverse impacts include the loss of agricultural land and in increased demand for fossil fuels through heavy dependence on the automobile for transportation. (ELR Order No. 71262.)

Final

The Oaks at Glenwood, Middlesex County, N.J., October 5: Proposed is the issuance of FHA mortgage insurance pursuant to Sec-

tion 221d4 of the U.S. Housing and Urban Development Act of 1965 for the development of a 1,224 unit garden apartment development, to include on-site recreation facilities and parking for 2,065 automobiles, located in Madison Township. Adverse effects include degradation of air and water quality. Thirty percent clearance of existing vegetation in the project area will result, with subsequent partial replacement by landscaping. Comments made by: DOI, USDA, DOT, NRC, COE, GSA, VA, AHP, ERDA, HUD, FPC, State and local agencies. (ELR Order No. 71252.)

Parkway Forest Subdivision, Harris County, Tex., October 3: Proposed is the approval, for mortgage insurance purposes, of the 543.42-acre Parkway Forest Subdivision in eastern Harris County, Tex. The development plan calls for construction of 2,680 housing units with additional acreage reserved for commercial, open space, and recreational uses. Plant and animal communities currently existing on the site will be disrupted. The action will also result in increases in automobile traffic, vehicle emissions, and noise levels. Comments made by: AHP, DOT, EPA, COE, USDA, DOI, State agencies, concerned groups. (ELR Order No. 71239.)

Atascocita Subdivision, Harris County, Tex., October 5: Proposed is the granting of HUD/FHA approval for the proposed Atascocita Subdivision for home mortgage insurance purposes. Johnson-Loggins, Inc. is developing the approximately 5,234 acre subdivision, and envisions the construction of approximately 16,255 dwelling units with additional acreage reserved for commercial, school, open space, and recreational use. Adverse effects include localized increases in air and noise pollution, and alternation of plant and animal communities in Atascocita. Comments made by: AHP, EPA, COE, DOI, State and local agencies, interest groups. (ELR Order No. 71258.)

Section 104(h)

The following are Community Development Block Grant statements prepared and circulated directly by applicants pursuant to section 104(h) of the 1974 Housing and Community Development Act. Copies may be obtained from the office of the appropriate local chief executive. (Copies are not available from HUD.)

Final

Yonkers, N.Y.—South Westchester Executive Park, Westchester County, N.Y., October 3: The proposed action is the construction of a new east-west vehicular thoroughfare in northwest Yonkers, N.Y. The new road will begin at Nepperhan Avenue, run parallel to and north of King Street, through the South Westchester Executive Park, and terminate at North Broadway. The 4-lane facility will replace Odell Avenue as the east-west truck route between Nepperhan Avenue and North Broadway and will serve as the major access route to Executive Park. Completion of the project will result in loss of vegetation, alteration of topography, and other construction related impacts. Comments made by: FPC, COE, DOT, DLAB, USDA, EPA, DOI, State and local agencies, concerned groups and individuals. (ELR Order No. 71238.)

DEPARTMENT OF THE INTERIOR

BUREAU OF RECLAMATION

Draft

New Melones 230-kV Transmission Line, several California counties, October 3: The

NOTICES

proposed project entails construction of about 23 miles of 230-kV electric transmission line from the New Melones Switchyard to the P.G. & E. Co. Bellot-Herndon No. 2 line near Oakdale, Calif. The line would be constructed in conformity with an agreement between the Bureau of Reclamation and the power company. It will deliver power into the P.G. & E. grid and on to the Bureau of Reclamation load center at Tracy Switchyard over power company facilities, crossing lands in Calaveras, Tuolumne, and Stanislaus Counties. About 285 acres of land will be devoted to transmission line right-of-way. (ELR Order No. 71234.)

DEPARTMENT OF LABOR

Draft

Toxic Substances 1.D., Class., and Reg. October 6: Proposed is a new general regulation of toxic substances in American workplaces that may pose a carcinogenic risk to workers. This broad rule-making proceeding is intended to establish: new procedures and a regulatory framework for regulating exposures to potential occupational carcinogens; OSHA's scientifically based policies concerning the identification and classification of potential occupational carcinogens; and three model standards for use in specific rulemakings involving such substances. (ELR Order No. 71264.)

NUCLEAR REGULATORY COMMISSION

Contact: Mr. Howard Shapor, Office of General Counsel, Nuclear Regulatory Commission, Washington, D.C. 20555, 301-492-7308.

Supplement

Koshkonong Nuclear Plant, 1 and 2 (S-1), October 5: This statement supplements a draft EIS for the Koshkonong Nuclear Plant, Unit Nos. 1 and 2. On August 4, 1977, the Wisconsin Electric Power Co. advised the presiding Atomic Safety and Licensing Board that a decision had been made to relocate the proposed plant from the Koshkonong site to a site designated as Haven located in Sheboygan County, Wis. As a result, the NRC staff has ceased all review activity associated with the Koshkonong project. This document presents the comments received by the NRC on the draft EIS. (ELR Order No. 71257.)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Affairs, U.S. Department of Transportation, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-4357.

Draft

T.H. 101 Shakopee By-Pass, Scott County, Minn. October 3: Proposed is the construction of relocated Minnesota Highway 101 (T.H. 101) in Scott County, Minn. The project begins at U.S. 169 in Jackson Township southeast of the city of Shakopee, proceeds easterly through Shakopee for 8.5 miles and ends on T.H. 101 at the west edge of the city of Savage. The action will provide a four-lane divided freeway with full access control, constructed to rural design standards. Of the 550 acres of additional right-of-way, 300 acres are agricultural and 8 acres are wetlands. (Region 5.) (ELR Order No. 71242.)

FEDERAL HIGHWAY ADMINISTRATION

Final

Project U160-2(14) Through Alamosa, Alamosa County, Colo., October 3: Proposed is the design and staged construction of a

highway facility or facilities from a point 2.5 miles west of the intersection of U.S. Highways 160 and 285 in the City of Alamosa, to a point approximately 2.5 miles east of the intersection of U.S. 160 and State Highway 17 east of Alamosa. The selected proposed alternate is a 4-lane rural primary highway facility with a proposed alignment of 8.2 miles. General impacts include the disturbance of the Rio Grande River during construction of bridges, and the temporary disturbance or destruction of vegetation. (Region 8.) Comments made by: EPA, DOI, HUD, USDA, HEW, COE, State and local agencies. (ELR Order No. 71240.)

Southern Tier Expressway, Hinsdale-Erie, Cattaraugus and Chautauque Counties, N.Y., October 3: Proposed is the completion of a 4-lane limited access highway within 12 alternate corridors through the terminal of Hinsdale, N.Y., and Erie, Pa. This action would complete the Development Highway originally proposed by the Appalachian Regional Commission as Corridor T, which extends from Binghamton, N.Y., to Erie, Pa., and which is commonly referred to as the Southern Tier Expressway. Construction sites for the recommended route lie in a 16-mile section between Allegheny and Salamanca, and a 28-mile section between Benus Point and Interstate 90. Adverse effects include increased air, noise, and water pollution. Comments made by: EPA, USDA, HEW, AHP, COE, DOT, State and local agencies. (ELR Order No. 71235.)

Seventeenth St. Extension, Altoona, Blair County, Pa., October 5: The statement concerns the relocation of Seventeenth Street to provide a 4-lane free access facility approximately one mile in length to serve as an artery into the downtown area from existing U.S. Route 220. The project will displace between 57 and 100 families, depending upon the alternate selected, and will subject another 13 to 33 residences to interior noise levels. Comments made by: USDA, DOI, EPA, ARC, State, and local agencies. (ELR Order No. 71256.)

NICHOLAS C. YOST,
Acting General Counsel.

[3910-01]

DEPARTMENT OF DEFENSE

Department of the Air Force
ENVIRONMENTAL DETERMINATION

OCTOBER 7, 1977.

On April 19, 1976 the Department of the Air Force announced in the FEDERAL REGISTER (page 15038) its intent to prepare Environmental Impact Statements (EISs) on certain proposed management actions announced by Secretary of the Air Force Thomas C. Reed on March 11, 1976.

Among the actions for which an EIS was to be prepared was the transfer of KC-135 tankers to the Air Reserve Forces at General Billy Mitchell Field, Wis. After careful review of the Environmental Impact Assessment (EIA) it was determined that the proposed action was not a major Federal action significantly affecting the quality of the human environment nor was it likely to be highly controversial with regard to its environmental impacts. This conclusion is based on the following:

a. The proposed action would result in an increase of approximately 190 guards-

men including 40 air technicians who are full-time civilian employees of the unit. The personnel increase, being largely recruited from area residents, would not create any significant environmental impact. Construction and alterations to support the proposed action would amount to approximately \$2.2 million and would be confined to airport areas that have already been developed. There would be no significant impacts associated with the proposed construction and alterations.

b. KC-97Ls of the 128th ARG presently contribute less than 3.2% of the daily jet takeoffs and landings at General Mitchell Field. Military aircraft operations would decrease from approximately 3.5 KC-97 sorties/day to 2.3 KC-135 sorties/day or 2.9% of the present jet traffic at General Mitchell Field.

c. Analysis of the proposed new noise patterns, using worst case assumptions, indicates an increase of 649 acres impacted by noise levels of L_{50} 75 or greater. Of this acreage, 496 acres is on airport property or adjacent highways. Thirty-five acres are classified as conditionally compatible. Only 118 acres of the increased impacted area contains uses considered incompatible. This consists of 21 acres of low density and 81 acres of medium density residential development and 16 acres of the Clement Avenue School athletic field. These areas, currently falling within the 72-74 L_{50} contours, would lie within the 75-77 L_{50} contours as a result of the proposed action.

d. Under normal conditions, aircraft operations would be conducted during daytime hours (0730 to 2200 hours). Nighttime or Sunday flying would only occur very infrequently. At least half of the proposed 3.2 flights/day would be expected to occur before or after school hours, with no flights expected on Mondays. It is expected that a majority of the 128th ARG sorties departing Milwaukee would have a gross weight of 200,000 pounds or less. The noise calculations, (see para c above) being based on the worst case assumptions, used much heavier takeoff weight. The lighter weights would result in an increased rate of climb and a reduction in the actual noise impact on the ground.

e. The City of Milwaukee and General Mitchell Field lie within the Illinois-Indiana-Wisconsin Interstate Air Quality Maintenance Area for suspended particulates, photo-chemical oxidants and sulfur dioxide. Air pollutant emissions data from the Southeastern Wisconsin Regional Planning Commission shows General Mitchell Field to be a minor contributor to the Milwaukee County pollution emission levels. The Air Force Civil Engineering Center estimates that the proposed conversion would result in a decrease in emissions for all pollutants except SO_x , and visible smoke. SO_x emissions from National Guard aircraft would increase by 0.1 metric tons/year from 2.35 metric tons/year to 2.45 metric tons/year. Visible emission would increase; however, particulate emission levels

would decrease. Total hydrocarbons, precursors of photo-chemical oxidants would also decrease.

f. The proposed action has been widely publicized in the local area and has been discussed by Wisconsin Air National Guard officials, National Guard Bureau and Air Staff representatives with local authorities and civilian groups. No opposition or adverse concern has surfaced from these activities.

For the reasons outlined above, the United States Air Force has decided not to file a Draft Environmental Impact Statement with the Council on Environmental Quality (CEQ) but has prepared an Environmental Determination.

Inquiries or requests for copies of the Environmental Determination and the supporting documentation should be submitted to Dr. Carlos Stern, Deputy for Environment and Safety, (SAF/MIQ), Office of the Secretary, Department of the Air Force, Pentagon, Washington, D.C. 20330.

FRANKIE S. ESTEP,
Air Force Federal Register Liaison Officer, Directorate of Administration.

[FR Doc. 77-29987 Filed 10-13-77; 8:45 am]

Office of the Secretary
DEFENSE SCIENCE BOARD TASK FORCE
ON CRUISE MISSILES
Advisory Committee Meeting

The Defense Science Task Force on Cruise Missiles will meet in closed session on November 1 and 2, 1977 at the National Security Agency, Fort Meade, Md.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Director of Defense Research and Engineering on overall research and engineering policy and to provide long-range guidance to the Department of Defense in these areas.

The Task Force will provide an analysis of the major issues concerning strategic cruise missile employment, theater cruise missile employment, and potential defenses to the U.S. deployment of cruise missile systems.

In accordance with Section 10(d) of Appendix I, Title 5, United States Code, it has been determined that this Task Force meeting concerns matters listed in Section 552b(c) of Title 5 of the United States Code, specifically subparagraph (1) thereof, and that accordingly this meeting will be closed to the public.

MAURICE W. ROCHE,
Director, Correspondence and Directives, OASD (Comptroller).

OCTOBER 8, 1977.

NOTICES

[6740-02]

FEDERAL ENERGY REGULATORY COMMISSION

[Docket Nos. RP73-112, RP74-92 and RP75-88]

ALGONQUIN GAS TRANSMISSION CO.

Filing of Stipulation and Agreement in Settlement of Rate Proceeding

OCTOBER 6, 1977.

Take notice that on September 26, 1977, Algonquin Gas Transmission Corporation (Algonquin) and its "regular resale customers", Bay State Gas Company, et al., jointly filed a proposed Stipulation and Agreement "in settlement of all outstanding issues in the above-captioned proceedings." Algonquin requests that the Stipulation and Agreement be approved by the Commission as a basis for resolving and terminating these rate proceedings which are now pending before the Commission following issuance of initial decisions in each docket.

Any person desiring to be heard or comment upon the proposed Stipulation and Agreement should file initial comments on or before October 28, 1977. Reply comments, if any, should be filed on or before November 21, 1977. Such comments should be filed with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this agreement are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 77-30076 Filed 10-13-77; 8:45 am]

[6740-02]

[Docket Nos. RP73-112, RP74-92 and RP75-88]

ALGONQUIN GAS TRANSMISSION CO.

Filing of Revised Service Agreements Under Rate Schedule SNG-1 Extending Term of Agreement

OCTOBER 6, 1977.

Take notice that Algonquin Gas Transmission Company ("Algonquin Gas") on September 26, 1977, tendered for filing revised executed service agreements for service under Rate Schedule SNG-1. Such revised service agreements are filed to implement a proposed Stipulation and Agreement, filed September 26, 1977, which if adopted will resolve all issues in Algonquin Gas' rate proceedings at Docket Nos. RP73-112, RP74-92, and RP75-88.

Algonquin Gas states that its Stipulation and Agreement in Docket Nos. RP73-112, et al., among other things, provides for a reduction of the basic

depreciation rate for the SNG plant, conditioned upon execution of new service agreements extending the term from the presently effective 10-year period to 14 years. The revised service agreements are substantively the same as the presently effective service agreements with each SNG customer, except for the extension of term of agreement.

The proposed effective date for the revised service agreements is as of the effective date of the Stipulation and Agreement in Docket Nos. RP73-112, et al.

Any person desiring to be heard or to make any protest with reference to said revised service agreement filing should on or before October 28, 1977, file with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing thereon must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 77-30077 Filed 10-13-77; 8:45 am]

[6740-02]

[Docket No. RP76-98]

ALGONQUIN GAS TRANSMISSION CO.

Rate Schedule SNG-1 Cost of Service Report

OCTOBER 7, 1977.

Take notice that on September 30, 1977, Algonquin Gas Transmission Co. ("Algonquin Gas") submitted its cost of service report ("Report") related to Rate Schedule SNG-1 for the 12 months of October 1, 1976 through September 30, 1977. This Report is filed pursuant to the provisions of Algonquin Gas' Purchased Feedstock Adjustment Clause ("PFAC") contained in Section 10.8 of Rate Schedule SNG-1 and the Commission's Order, issued May 23, 1977, in Docket Nos. RP76-15 and RP76-98, "Approving Settlement Agreement and Extending Purchased Feedstock Adjustment Clause for One Year".

The Report is based upon and conforms to a Stipulation and Agreement in settlement of Algonquin Gas' rate cases in Docket Nos. RP73-112, RP74-92, and RP75-88. Such Stipulation and Agreement was filed with the Commission on September 26, 1977.

The Report shows that the revenues exceed cost by \$219,702 under Rate Schedule SNG-1 during the 1976-1977 winter season.

Algonquin Gas states that a copy of this filing has been served on all affected customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 21, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 77-30078 Filed 10-13-77; 8:45 am]

[6740-02]

[Docket No. ER77-620]

CONNECTICUT LIGHT AND POWER CO.

Transmission Agreement

OCTOBER 6, 1977.

Take notice that on September 28, 1977, The Connecticut Light and Power Co. (CL&P) tendered for filing a proposed rate schedule with respect to the Transmission Agreement dated June 29, 1977 between (1) CL&P, The Hartford Electric Light Co. (HELCO) and Western Massachusetts Electric Co. (WMECO) and (2) Holden Municipal Light Department (HMLD).

CL&P states that the Transmission Agreement provides for a transmission service to HMLD during the period from July 1, 1977 to October 31, 1977.

CL&P further states that the transmission charge rate is a monthly rate equal to one-twelfth of the annual average cost of transmission service on the NU system determined in accordance with Section 13.9 (Determination of Amount of Pool Transmission Facilities (PTF) Costs) of the New England Power Pool (NEPOOL) Agreement and the uniform rules adopted by the NEPOOL Executive Committee, multiplied by the number of kilowatts which HMLD is entitled to receive.

CL&P requests an effective date of July 1, 1977 for the Transmission Agreement, and therefore requests waiver of the Commission's notice requirements.

CL&P indicates that copies of this rate schedule have been mailed or delivered to HELCO, Hartford, Conn.; WMECO, West Springfield, Mass. and HMLD, Holden, Mass.

Any person desiring to be heard or to protest said application should file a pe-

tion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before October 17, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 77-30079 Filed 10-13-77; 8:45 am]

[6740-02]

[Docket No. RP77-140]

CONSOLIDATED GAS SUPPLY CORP.

Proposed Changes in Rates and Charges

OCTOBER 7, 1977.

Take notice that Consolidated Gas Supply Corp. (Consolidated), pursuant to Section 4 of the Natural Gas Act and Section 154.63 of the Commission's Regulations thereunder, tendered for filing on September 30, 1977, proposed changes in its FPC Gas Tariff, Third Revised Volume No. 1 and Original Volume No. 2 to become effective on November 1, 1977.

The proposed rate changes would increase Consolidated's revenues from jurisdictional sales and services by \$79.5 million based on the twelve months ended June 30, 1977, adjusted for known changes for a nine-month period through March 31, 1978. The total increase reflects \$4.2 million of decreased gas supply costs from conventional suppliers. In addition the changed rates reflect costs of liquefied natural gas (LNG) not previously reflected in Consolidated's rates.

In addition to the costs of LNG, Consolidated states that the increased rates are required to recoup, inter alia, increased costs of transportation of gas by others, increased depreciation rates, increased rate base, and increased operating expenses. The rates proposed include an overall rate of return of 11.25 percent. In addition Consolidated proposes to change for billing and operating purposes from a volumetric (Mcf) to an energy basis expressed in dekatherms (dt). Consolidated has adopted full cost accounting for unsuccessful wells for the period January 1, 1973 through April 30, 1977 and provided for the normalization of intangible drilling costs incurred for the period January 1, 1973 through October 31, 1975 on leases acquired prior to October 8, 1969. Depreciation rates for certain production facilities located in Appalachian-West Virginia and Virginia are proposed to be changed from the

present rate of 2.41 percent to a unit of production rate.

In addition, Consolidated submits detailed studies to demonstrate that special circumstances exist which justify cost-of-service treatment for Consolidated's Appalachian production from leases acquired after October 8, 1969 and from wells connected after January 1, 1973 on leases acquired prior to October 7, 1969.

Finally, Consolidated states that Statement P will be filed within fifteen days of this filing.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 21, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP78-1]

[6740-02]

EAST TENNESSEE NATURAL GAS CO.

Petition for Advance Approval of Flow-Through of Emergency Gas Supply and Transportation Costs

OCTOBER 7, 1977.

Take notice that on October 3, 1977, East Tennessee Natural Gas Co. (East Tennessee) tendered for filing a petition for advance approval to flow-through under its PGA provision the purchased gas cost and transportation cost associated with an emergency purchase to be made pursuant to Section 2.68 of the Commission's General Policy and Interpretations.

East Tennessee states that it has contracted with an intrastate pipeline for an emergency purchase which will provide the East Tennessee system with gas volumes in the amount of up to 35,000 Mcf per day for the 60-day period beginning January 1, 1978 at a purchased gas price of \$2.35 per Mcf plus a transportation rate of 34 cents per Mcf.

East Tennessee requests that the Commission grant its petition by November 1, 1977 because the winter season is fast approaching and for planning purposes. It is necessary for East Tennessee and its customers to know whether these emergency volumes will be available.

Any person desiring to be heard or to make any protest with reference to said petition should on or before October 21, 1977, file with the Federal Energy Regu-

latory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. ES77-62]

EL PASO ELECTRIC CO.

Application

OCTOBER 7, 1977.

Take notice that on September 29, 1977, El Paso Electric Co. (Applicant), filed an application with the Federal Power Commission (the "Commission") seeking authority pursuant to section 204 of the Federal Power Act to guarantee \$5,000,000 principal amount of Pollution Control Revenue Bonds to be issued by the City of Farmington, N. Mex., an incorporated municipality, and body politic and corporate, existing under the Constitution and laws of the State of New Mexico.

The Applicant is incorporated under the laws of Texas with its principal business office at El Paso, Tex., and is engaged in the electric utility business in Texas and New Mexico in an area in the Rio Grande Valley extending approximately 110 miles northwesterly from El Paso to the Caballo Dam in New Mexico and approximately 120 miles southeasterly from El Paso to Van Horn, Tex., with a population of approximately 480,000 of whom 365,000 reside in metropolitan El Paso.

It is proposed that the City of Farmington, N. Mex., will issue the \$5,000,000 principal amount Pollution Control Revenue Bonds, 1977 Series A (El Paso Electric Company Four Corners Project) in a private placement to defray Applicant's share of the cost of acquisition, construction and installation of certain air pollution control systems and facilities relating to Units 4 and 5 at the Four Corners Power Station located approximately twelve miles southwest of the City of Farmington, in San Juan County, N. Mex., an undivided 7% interest in which is owned by Applicant. Pursuant to an Installment Sale Agreement (the "Agreement") to be entered into between Applicant and the City of Farmington, the Applicant's 7% interest in the pollution control facilities will be purchased by the City from, and then sold by the City to, the Applicant.

According to the Applicant the Pollution Control Bonds will not constitute an indebtedness or obligation to which the full faith and credit of the City of Farmington will be pledged and shall never constitute or give rise to a pecuniary liability of the City of Farmington or a charge against its general credit or taxing powers. The City of Farmington shall be obligated to pay the principal of and premium, if any, and interest on the Pollution Control Bonds only out of the receipts and revenues of the City of Farmington from the Applicant under the Sale Agreement. The payments to be made by the Applicant pursuant to the Sale Agreement are to be sufficient, together with other funds available for such purpose, to pay the principal of and premium, if any, and interest on the Pollution Control Bonds. Pursuant to a separate Contingent Purchase Agreement, to be entered into between the Applicant and the purchaser of the Pollution Control Bonds, Applicant will unconditionally agree to repurchase the Pollution Control Bonds from the purchaser upon the happening of certain specified events.

Any person desiring to be heard or to make any protest with reference to said Application should, on or before October 17, 1977, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). The Application is on file and available for public inspection.

[Docket No. ER77-632]

INDIANA-KENTUCKY ELECTRIC CO.

Proposed Tariff Change

Take notice that Indiana-Kentucky Electric Corp. (IKEC), a wholly-owned subsidiary of Ohio Valley Electric Corp. (OVEC), on September 30, 1977, tendered for filing a proposed Modification No. 1 dated as of February 1, 1977 to the Power Agreement dated July 10, 1953 between OVEC and IKEC (the "Ikec Power Agreement").

IKEC indicates that the Proposed Modification No. 1 would extend the term of the IKEC Power Agreement until the later of (a) the satisfaction and discharge of OVEC's Mortgage and Deed of Trust dated as of July 1, 1953, as amended (the OVEC Mortgage) (which is scheduled to occur no later than January 1, 1982) or (b) the first to occur of (i) the sale or other disposition of all of the facilities of the generating stations of OVEC and IKEC; or (ii) the permanent cessation of operation of such facilities; or (iii) March 12, 2006. IKEC further indicates that the IKEC Power Agreement currently provides that it will terminate upon the satisfaction

and discharge of the OVEC Mortgage. An effective date of February 1, 1977 has been requested for the proposed Modification. Waiver of notice requirements is requested by IKEC.

A copy of the filing has been mailed to OVEC.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 17, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

J & J ENTERPRISES, INC., ET AL. AND INDEPENDENT OIL & GAS ASSOCIATION OF WEST VIRGINIA

Conference

OCTOBER 7, 1977.

Take notice that on October 14, 1977, Staff is convening an informal conference of all interested persons to discuss the possibility of settling the issues in the above-captioned proceedings. The conference will be held in Room 8402 of the offices of the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, at 9:30 A.M.

All interested persons will be permitted to attend, but if such person have not previously been permitted to intervene by order of the Commission, attendance will not be deemed to authorize intervention as a party in these proceedings.

This conference will be for discussion purposes only without commitments.

Letters concerning this conference are being mailed to all parties to these proceedings.

[Docket No. ER77-624]

MISSISSIPPI POWER & LIGHT CO.

Cancellation

OCTOBER 6, 1977.

Take notice that on September 28, 1977, Mississippi Power & Light Company

NOTICES

(MP&L) tendered for filing a notice of cancellation of its Rate Schedule FPC No. 184, which provides for sales of electric power to Magnolia Electric Power Association at Fernwood, Miss. MP&L states that the load has been transferred to the Association's East McComb Substation.

MP&L requests that the cancellation be made effective as of October 31, 1977.

MP&L further states that copies of this filing have been sent to the City of McComb, Mississippi.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 17, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER78-8]

NEW ENGLAND POWER POOL

Filing of Amendment to the New England Power Pool Agreement

OCTOBER 7, 1977.

Take notice that on October 3, 1977, the New England Power Pool (NEPOOL) filed an Agreement Amending the NEPOOL Power Pool Agreement (Amendment), dated August 1, 1977, which modifies the provisions of the New England Power Pool Agreement, dated as of September 1, 1971.

NEPOOL indicates that the amendment provides for revision of Section 9.4 (d) of the NEPOOL Agreement to provide for continued suspension of pool Capability Responsibility deficiency charges during the period from November 1, 1977, through October 31, 1978.

NEPOOL requests that the Commission waive its notice requirements to permit the Amendment to become effective as of November 1, 1977, the date upon which the current suspension of Section 9.4(d) would otherwise expire by its terms.

Any person desiring to be heard or to make any protest with reference to the Amendment should on or before October 25, 1977, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). Persons wishing to become parties to a proceeding or to participate as a party in

any hearing related thereto must file petitions to intervene in accordance with the Commission's Rules. All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

[6740-02]

[Docket No. CP77-649]

NORTHERN NATURAL GAS CO.

Application

OCTOBER 7, 1977.

Take notice that on September 29, 1977, Northern Natural Gas Company (Applicant), 2223 Dodge Street, Omaha, Nebr. 68102, filed with the Federal Power Commission in Docket No. CP77-649 an application pursuant to Section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas for a limited term for and exchange of natural gas with Columbia Gas Transmission Corp. (Columbia Gas) (all as more fully set forth in the application which is on file with the Commission and open to public inspection).

Applicant seeks authorization to transport natural gas for Columbia Gas pursuant to a gas transportation agreement dated September 23, 1977, between the two parties and to exchange natural gas with Columbia Gas pursuant to a letter agreement dated September 16, 1977, among Applicant Columbia Gas and Columbia Gulf Transmission Co. (Columbia Gulf).

Applicant indicates that within the provisions of the gas transportation agreement, it would, on a best efforts basis, receive from Delhi Gas Pipeline Corp. (Delhi) for Columbia Gas' account up to 60,000 Mcf of gas per day during the period October 1, 1977, through November 1, 1979. The gas delivered by Delhi to Applicant would be at an existing point of interconnection of the facilities of Applicant and Delhi located in Pecos County, Tex., it is indicated. Applicant states that it would transport and redeliver up to 28,000 Mcf of such gas per day, less 4.0 percent to be retained for compressor fuel to Panhandle Eastern Pipe Line Co. (Panhandle) for the account of Columbia Gas at an existing point of interconnection between the pipelines of Applicant and Panhandle near Mullinville, Kans. Applicant indicates that Columbia Gas would pay Applicant a transportation charge of 22.50 cents per Mcf for all gas transported and redelivered to Panhandle by Applicant.

Applicant states that it has acquired the right to purchase gas volumes produced in the offshore Gulf Coast area and is negotiation with producers for additional offshore volumes. Applicant further states that such gas acquisitions are remote from its system and, therefore, necessitate various transportation and exchange arrangements with other pipeline companies in order to cause delivery of Applicant's offshore gas to its system.

Applicant indicates that the volumes of gas received by it from Delhi for Columbia Gas' account that are not transported and redelivered to Panhandle would be exchanged with Columbia Gas. Applicant states that it would cause delivery of natural gas volumes, equivalent to the exchange volumes received in Pecos County, to Columbia Gulf for the account of Columbia Gas at the northern terminus of Sea Robin Pipeline Co.'s (Sea Robin) offshore pipeline system near Erath, Louisiana, and at the northern terminus of the Blue Water offshore pipeline near Egan, Louisiana.

Applicant indicates that if Columbia Gas does not have gas available in Pecos County, Tex., to exchange for Applicant's offshore gas, Columbia Gulf would receive for Columbia Gas' account Applicant's gas available at Erath, La., and Columbia Gas would cause Columbia Gulf to deliver equivalent volumes to Trunkline Gas Co. (Trunkline) for Applicant's account at a point of interconnection to be constructed between the facilities of Columbia Gulf and Trunkline near Egan, La. Applicant would make the necessary arrangements for the further transportation or exchange of such gas to its system, it is said.

Applicant states that the proposed exchange would be on an Mcf for Mcf basis and that there is no monetary consideration given by either party.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 25, 1977, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the

public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77-633]

NORTHERN STATES POWER CO.

Proposed Municipal Resale and Transmission Service Agreement

OCTOBER 7, 1977.

Take notice that Northern States Power Co. (Northern States), on September 30, 1977, tendered for filing a Municipal Resale and Transmission Service Agreement, dated September 27, 1977, with the City of Olivia, Minn.

Northern States indicates that the Agreement provides for Northern States to furnish the City's requirements in excess of Bureau of Reclamation power and energy as Load Pattern Power. Northern States also indicates that the Agreement changes the wheeling rate from 2.3 mills per KWH to \$11.88 per KW per year.

Northern States requests waiver of the Commission's notice requirements to allow for an effective date of October 21, 1977.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions and protests should be filed on or before October 17, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

NORTHERN STATES POWER CO.

Municipal Resale and Transmission Service Agreement

OCTOBER 7, 1977.

Take notice that Northern States Power Co. (NSPC) on September 30, 1977, tendered for filing a Municipal Re-

NOTICES

sale and Transmission Service Agreement, dated September 27, 1977, with the City of East Grand Forks, Minn.

NSPC indicates that the agreement provides that NSPC furnish the City's requirements in excess of Bureau of Reclamation power and energy as Load Pattern Power. NSPC further indicates that the Agreement proposes to change the wheeling rate from \$533.33 plus 1.3 mills per KWH to \$2.70 per KW per year.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions and protests should be filed on or before October 17, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. RM77-14]

GAS RESEARCH INSTITUTE

Filing of Stipulation and Agreement

OCTOBER 7, 1977.

Take notice that on September 30, 1977, Gas Research Institute (GRI) tendered for filing a proposed Stipulation and Agreement with a Motion for Expedited Approval of Initial Application. A revision of the Stipulation and Agreement was filed on October 3, 1977.

GRI states that based upon the negotiations conducted and the understandings reached during the informal conference sessions, all active parties to this proceeding, including the Commission Staff and the California, Michigan, and New York state commissions, with the sole exception of a group of small municipal distributors, either support, or offer no objection to, the terms and conditions of the Stipulation and Agreement.

GRI states that the Stipulation and Agreement is submitted as a vehicle for expedited consideration and disposition of this proceeding. GRI requests in its Motion that, upon receipt of initial and reply comments filed in response to this notice, the Commission consider and approve without hearing GRI's application as filed on March 22, 1977.

Any person desiring to be heard or to protest said Stipulation and Agreement or to answer or object to said Motion should file comments with the Federal Energy Regulatory Commission, 825

North Capitol Street NE., Washington, D.C. 20426, on or before October 18, 1977. Reply comments should be filed on or before November 1, 1977. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of Gas Research Institute's filings are on file with the Commission and are available for public inspection.

NORTHERN STATES POWER CO.

Interconnection and Interchange Agreement

OCTOBER 7, 1977.

Take notice that Northern States Power Co. (NSPC) on September 30, 1977, tendered for filing an Interconnection and Interchange Agreement and a Supplement No. 1, both dated September 23, 1977, with the City of Redwood Falls, Minn.

NSPC indicates that the Interconnection and Interchange Agreement includes Service Schedules providing for transactions between the parties similar to those contained in Service Schedules under the Mid-Continent Area Power Pool Agreement. NSPC further indicates that Supplement No. 1 provides for the delivery of the City's Bureau of Reclamation power allocation.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions and protests should be filed on or before October 17, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

NORTHERN STATES POWER CO.

Proposed Municipal Resale Transmission and Transformation Service Agreement

OCTOBER 7, 1977.

Take notice that Northern States Power Co. (Northern States), on September 30, 1977, tendered for filing a Municipal Resale Transmission and Transformation Service Agreement,

dated September 28, 1977, with the City of Sauk Centre, Minn.

Northern States indicates that the Agreement provides for Northern States to furnish Sauk Centre's requirements in excess of Bureau of Reclamation power and energy as Load Pattern Power. Northern States further indicates that the Agreement provides a transformation charge of 0.7 mill per KWH (the same as in the previous Agreement) and changes the wheeling rate from 2.3 mills per KWH to \$11.88 per KW per year.

Any person desiring to be heard or to protect said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions and protests should be filed on or before October 17, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. ER77-631]

NORTHWESTERN PUBLIC SERVICE CO. Initial Rate Filing

OCTOBER 7, 1977.

Take notice that on September 30, 1977, Northwestern Public Service Co. (NWPS) tendered for filing, in accordance with § 35.12 of the Commission's regulations, an initial rate schedule for supplemental sales to certain municipal and government operated systems within the State of South Dakota.

NWPS indicates that pursuant to the rate schedule NWPS will provide capacity and energy that applicable customers cannot obtain from their principal supplier, the United States Bureau of Reclamation (Bureau) due to certain load restrictions imposed by the Bureau to be effective November 1, 1977.

NWPS proposes an effective date of November 1, 1977.

NWPS states that it has served copies of the filing upon the State of South Dakota, the South Dakota Public Utilities Commission, and the participating municipalities.

Any person desiring to be heard or to make application with reference to said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10).

All such petitions or protests should be filed on or before October 17, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this Agreement are on file with the Commission and are available for public inspection.

[6740-02]

[Docket Nos. ER76-149; E-9537]

PUBLIC SERVICE COMPANY OF INDIANA, INC.

Order Requiring Filing of Revised Tariff Sheets and Requiring Refunds

SEPTEMBER 30, 1977.

On March 2, 1977, the Commission Staff (Staff) filed a motion for summary dismissal of that portion of Public Service Company of Indiana, Inc.'s (PSI's) proposed rate of return of 9.75% which Staff claims allows PSI to earn a return on construction work in progress (CWIP). Responses to Staff's motion were filed on April 4, 1977, by PSI, the Intervenor Cooperatives and the Intervenor IMEA Cities.

On April 29, 1977, the Commission issued an Order Denying Without Prejudice Motion For Summary Dismissal and Requiring Limited Reopening of the Record. In its order the Commission concluded that the information in the record, as well as that provided in PSI's answer to Staff's motion, was insufficient for a proper determination of the amount of CWIP which may be associated with its overall rate of return. The Commission therefore required the Presiding Administrative Law Judge to reopen the record of the proceedings for the limited purpose of receiving evidence and conducting an investigation to determine how much, if any, CWIP is related to PSI's overall rate of return. Upon the close of the record the Presiding Judge was directed to certify the record related to this issue to the Commission for its review and for such disposition as may be required.

On August 15, 1977, Presiding Judge Stephen L. Grossman certified to the Commission the supplementary evidentiary record relating to the CWIP issue. In the same order Judge Grossman denied PSI's motion requesting oral hearing for the purpose of cross-examining the sponsors of the exhibits of Staff and Intervenor. The Judge concluded that no oral hearing is necessary because the parties' positions are clear, and no factual issues are in dispute. What is in dispute is the inference to be drawn from the record facts.

Based on the supplemented record, the Presiding Judge concluded:

(1) PSI, in attempting to support its rate filing, determined the total amount of money it believed necessary to collect.

(2) PSI's determination was based upon its conclusion that a return of 9.25 percent on total capital was necessary. This equates to an allowance on equity of 11.45 percent. PSI, applying the allowance on equity thus derived, calculates an overall return on rate base (i.e., total capital less CWIP and certain other adjustments) of 9.75 percent.

(3) Because of the manner of presentation (see particularly Tr. 865-86, 906-7, 909-11, 952-54, and 994), it appears possible that PSI has increased its sought overall rate of return to compensate for the absence of CWIP in its rate base. Stated differently, PSI could be considered to be requesting, through a higher sought return on rate base, the same dollar return, albeit of a smaller percentage, as it would achieve on total capital.

(4) Notwithstanding the above conclusion, it is equally possible that PSI is not seeking a return on CWIP, but, rather, is seeking that allowance on equity and overall return on rate base it would have sought in the absence of its novel attempt at justification of these figures.

PSI's rate of return witness, Dr. Langum, determined a fair rate of return on the total capital and calculated the return therefrom. PSI then computed the rate of return which, when multiplied by what the Company terms the "net original cost rate base," would produce the same dollars of turn as would the rate of return on the total capital. Dr. Langum explained his approach in his direct testimony, as quoted in PSI's Answer:

My judgment is that the fair rate of return on net original cost which Public Service Indiana should be afforded the opportunity to earn in its wholesale electric business is 9.75 percent. This gives effect to my judgment that the fair rate of return on total capital is 9.35 percent and to the extent that net original cost is less than the corresponding total capital involved. (Tr. 327)

The fair rate of return on total capital is 9.35 percent. The fair return is the number of dollars resulting from multiplication of the fair rate of return on total capital times total capital. It follows from elementary arithmetic that to produce that same fair return the fair rate of return applied to net original cost rate base must be somewhat more than 9.35 percent. That is 9.75 percent in my judgment, if net original cost is less than the corresponding total capital invested. (Tr. 327) (Emphasis added in PSI's Answer.)

As we pointed out in our April 29 order (mimeo p. 5), the validity of PSI's method of determining a just and reasonable rate of return, and of the supporting testimony and exhibits supplied by PSI, is not the subject of the motion before us. The Company's method and underlying numbers have been the subject of a hearing and will be ruled on initially by the Presiding Administrative Law Judge.

However, Staff and Intervenor claim that PSI's proposed rate of return provides a return on CWIP by increasing the

¹ PSI revised its rate of return from 9.35% to 9.25% to reflect the pro forma planned issue of \$40,000,000 of preferred stock in August 1976. See Exhibit 46, pages 44, 49, 50.

rate of return above the level justified by PSI's cost of capital evidence. Staff avers that this increase is due to factoring a return of CWIP into the rate of return component, and quotes the following testimony of Dr. Langum, PSI's rate of return witness (Tr. 6:953):

Q. And since I believe you stated in answer to some questions by Mr. Wise the difference between the total capital and net original cost rate base is essentially the construction work in progress, what you have done is adjusted the rate of return to provide a return on CWIP?

A. [By Dr. Langum] To make sure a return is provided on the capital invested in construction work in progress, yes.

This Commission has consistently held that utilities will not be allowed to base rates upon inclusion of CWIP in rate base. See, e.g., *Iowa Power and Light Co.*, Docket Nos. ER76-404 and ER76-658, issued July 15, 1976, and cases cited therein, slip opinion at 5. This basic policy was reaffirmed in Order No. 555, although an exception was made for CWIP associated with pollution control equipment and conversions and for extraordinary financial difficulty.² The Commission stated (Slip Opinion at 13):

We cannot emphasize too strongly, however, that we will not consider any inclusion of CWIP in rate base (apart from the exceptions noted above) absent a clear showing of severe financial difficulty which cannot be otherwise alleviated without materially increasing the cost of electricity to consumers.

For this reason we required the Presiding Judge to obtain additional information to enable us to determine the amount of CWIP on which PSI may improperly be earning a return. Additional testimony was filed by PSI witnesses Mr. Pennington and Dr. Langum (Exhibits 122, 125), by Staff witness Mr. Shulman (Exhibit 123), and by Intervenor's witness Dr. Livingstone (Exhibit 124).

On pages 1 and 2 of his additional testimony, Dr. Langum described once more the methodology by which he derived his recommended 9.75% rate of return:

The fair rate of return on total capital of 9.25% which I developed literally relates to total capital. It is the percentage rate of return which applied to total capital results in the fair return on total capital. Thus, the "right number of dollars", the fair return on total capital, \$104,388,840, is the result of multiplying the fair rate of return on total capital, 9.25%, by total capital, \$1,128,528,000.

When this "right number of dollars", the fair return on total capital, \$104,388,840, is related to the "net original cost rate base", \$1,066,440,000, the fair rate of return on rate base, 9.79%, is determined.

Stated otherwise:

$9.25\% \times \$1,228,528,000 = \$104,388,840$
 $\$104,388,840 / \$1,066,440,000 = 9.79\%$
(evened off to 9.75%)

Dr. Langum's rationale for PSI's rate of return methodology includes the following explanation (Exhibit 122, p. 2):

³ Relief under the "severe financial distress" exception is prospective only (Slip Opinion at 5).

Net original cost rate base, based on plant in service, is typically less than total capital because of exclusion of several items from rate base, one of which is construction work in progress, as demonstrated by Mr. Pennington. Yet capital must be attracted and serviced now to finance all of these several items, including construction work in progress. In these circumstances, the fair rate of return on total capital will not be and cannot be the fair rate of return on net original cost rate base. (Emphasis added.)

Based on both the mechanics and the rationale of PSI's method, the conclusion is inescapable that a proposed return of 9.25% was raised to 9.75% in order to compensate for the difference between rate base and capitalization. If CWIP had been included in rate base, then the adjustment to the 9.25% rate of return would not have been deemed appropriate by PSI. If the Company had made a filing which included CWIP, we would have ordered the Company to file revised rates reflecting a rate base excluding CWIP and a rate of return no greater than the 9.25% justified by Company witness Dr. Langum. PSI cannot earn a return on any items not properly in the rate base, in this case CWIP. This prescription cannot be circumvented by the expedient of increasing the rate of return so as to earn on the rate base the same dollars as the company wishes to earn on total capital.

Any attempt by PSI to earn a return greater than 9.25% (the rate which Dr. Langum states he can justify) of the rate base is an attempt to earn an improper return on CWIP⁴ and should be disallowed pursuant to authority cited, *supra*, on page 4. We shall therefore require PSI to file revised tariff sheets reflecting a cost of service based on a rate of return of 9.25% applied to PSI's electric rate base allocated to the wholesale customers (shown in Statement M, Schedule 1 of Exhibit 19).

In his Initial Decision the Presiding Judge is of course free to find that 9.75%, or any other rate of return, is just and reasonable for PSI. But regardless of which rate of return is ultimately approved for the Company, PSI's ultimately approved revenue increase may not surpass the revenue level which the Company filed for, minus the dollars hereby stricken from the filing for being improper return on CWIP. This result is analogous to our treatment of a rate increase filing which reflects the improper inclusion of CWIP in rate base. The Commission excludes the CWIP from rate base, and the resulting decreased proposed revenue level is the maximum which the company may ultimately collect, regardless of whether a higher return might be justified on an alternative basis: for example, by the granting of a rate of return higher than the company requested in its filing.

This treatment was applied in *Georgia Power Co.*, Docket No. E-9091, wherein

⁴ As Dr. Livingstone points out (Exhibit 124, p. 9), a deferred return is provided on CWIP by means of AFUDC (allowance for funds used during construction).

the Commission dismissed that portion of Georgia Power's rate filing reflecting inclusion of CWIP in rate base and required the Company to file revised tariff sheets and make appropriate refunds.⁵ On rehearing Georgia Power argued that the partial refund was premature, since the Company might ultimately justify on other grounds a rate level higher than that in effect after refunds. In its rehearing order September 19, 1975, the Commission defended its treatment of Georgia Power's filing by citing the Supreme Court's opinion in *FPC v. Tennessee Gas Transmission Co.*, 371 U.S. 145, 152-153 (1962). The Commission stated:

It is possible that Georgia Power may be unable to collect the full rate increase which could be found to be just and reasonable because it filed for a rate level premised on a rate base inflated with CWIP rather than on the highest justifiable rate of return or on an accurate projection of test period results. However, that possibility will not support postponement of refunds; it is a hazard which Georgia Power must shoulder under the theory of the relevant parts of the Natural Gas Act and the Federal Power Act, *Tennessee, supra* at 152-153.

Similarly, in *Northern States Power Company*, Docket No. E-9148, the Commission required refunds reflecting removal from the Company's rate filing of CWIP in rate base. In its order of October 14, 1975, the Commission stated:

In ordering Northern States to file revised tariff sheets reflecting removal of CWIP from rate base, we are in effect requiring the company to reduce its originally proposed rates by a fixed amount.

By our action herein we make no qualitative determination of whether or not Northern States should eventually be entitled to recover rates in excess of those specified in its December 2, 1974 filing, exclusive of CWIP. We merely pre-empt Northern States from doing so in this proceeding. . . . Northern States' appropriate remedy is the submission of additional tariff sheets in a new proceeding under Section 205. (Mimeo at 3-4, footnotes omitted.)⁶

Rather than to remand the matter in the instant docket to the Presiding Judge, we dispose of the issue immediately upon being apprised of the full facts, in order to make clear to PSI and to all other utilities which appear before us that we shall not tolerate attempts to circumvent our proscription against a current return on CWIP. In so doing we take note of the Supreme Court's discussion in *Tennessee, supra*, of the purpose of interim refunds. Although a company's collection of an improper rate is subject

⁵ Order of August 5, 1975, in Docket No. E-9091.

⁶ See also *New England Power Co.*, Docket Nos. E-9136 and E-9140, order issued August 5, 1975.

⁷ Faced with the same situation in *Minnesota Power & Light Co.*, Docket Nos. E-9499 and E-9502, the Commission wrote in its order of October 9, 1975: "The applicability of *Tennessee* requires that MP&L must stand on the rate level as filed in June 18, 1975 and as reduced by the exclusion of CWIP" (mimeo p. 2).

to eventual refund, the Court stated that it is the Commission's duty to issue interim orders directing payment of refunds "at the earliest possible moment consistent with due process" (371 U.S. 145, 155).

As Judge Grossman observed in his order certifying to us the supplemental record, there is no dispute as to the facts regarding the numbers and methods PSI has used in calculating its proposed rate of return. What is in dispute is the inference to be drawn from these facts. This Commission is authorized to summarily dispose of the CWIP issue in this proceeding, even though the parties place different interpretations on the underlying record facts. *Pennsylvania Gas and Water Co. v. FPC*, 463 F.2d 1242, 1252 (1972); *Citizens for Allegan County, Inc. v. FPC*, 414 F.2d 1125, 1128 (1969).

The Commission finds: Based on the record certified to us on August 15, 1977, in this proceeding, it is necessary and proper in the public interest and to enforce the Federal Power Act that PSI be required to file revised rates based on a 9.25 percent rate of return applied to PSI's allocated rate base.

The Commission orders: (A) Within 60 days of the date of issuance of this order, PSI shall file revised tariff sheets reflecting reduced rates consistent with our finding herein.

(B) Within fifteen (15) days after the rate schedules to be filed in compliance with Paragraph (A) above are accepted for filing, PSI shall refund all amounts collected in excess of the rates set forth in those rate schedules, together with interest calculated at 9 percent per annum.

(C) Within 15 days after refunds have been made PSI shall file with the Commission a compliance report showing monthly billing determinants and revenues under prior, present and herein ordered rates; monthly ordered rate change, monthly rate refund, and the monthly interest computation, together with a summary of such information for the total refund period. A copy of such report shall also be furnished to each state commission within whose jurisdiction the wholesale customer distributes and sells electric energy at retail.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77-630]

PUBLIC SERVICE ELECTRIC AND GAS CO. Lower Delaware Valley Transmission System Agreement

OCTOBER 7, 1977.

Take notice that Public Service Electric and Gas Co. (PS) on September 30, 1977, tendered for filing proposed Lower Delaware Valley Transmission System Agreement dated September 30, 1977, between Public Service Electric and Gas

Co. (PS), Atlantic City Electric Co. (ACE), Delmarva Power & Light Co. (DPL), Jersey Central Power and Light Co. (JC), and Philadelphia Electric Co. (PE). (PS FPC Rate Schedule No. 46).

PS states that the reason for this filing is to provide a more definite agreement relating to ownership and investment responsibilities of the Lower Delaware Valley Transmission System.

PS requests that the filing be permitted to become effective November 1, 1977.

PS states that a copy of this filing has been sent to ACE, DPL, JC, PE and to the Board of Public Utilities of the State of New Jersey.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 17, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77-629]

PUBLIC SERVICE ELECTRIC AND GAS CO. Proposed Revised Interconnection Agreement

OCTOBER 7, 1977.

Take notice that Public Service Electric and Gas Co. (PS) on September 30, 1977, tendered for filing proposed revised Schedules 1.03, 1.04, 2.01 and 3.04 to the existing Interconnection Agreement between PS and Jersey Central Power and Light Co. (JC) dated November 29, 1960, as supplemented (PS FPC Rate Schedule No. 28).

PS states that the reason for the filing is to include additional facilities and cost-sharing associated with the Kilmer Substation.

PS requests that the instant filing be permitted to become retroactively effective to May 1, 1974, and therefore requests waiver of the Commission's notice requirements.

PS includes with its filing a Certificate of Concurrence executed by JC assenting to and concurring with the above-mentioned Interconnection Schedules.

PS states that a copy of this filing has been sent to JC and to the Board of Public Utilities of the State of New Jersey.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 17, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. ER77-627]

PUBLIC SERVICE ELECTRIC AND GAS CO. Proposed Termination of Purchase Agreement

OCTOBER 7, 1977.

Take notice that Public Service Electric and Gas Co. (PS) on September 30, 1977, tendered for filing notification of termination of the Purchase Agreement, dated December 30, 1974 between PS and the Luzerne Electric Division of UGI Corp. (UGI), for the sale of a portion of the capacity and energy of one of its generating units to UGI, (PS FPC Rate Schedule No. 52).

PS states that the reason for this filing is to terminate the existing agreement.

PS requests that the instant filing be permitted to become retroactively effective to May 31, 1977, and therefore requests waiver of the Commission's notice requirements.

PS states that a copy of this filing has been sent to UGI and to the Board of Public Utilities of the State of New Jersey.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 17, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. ER77-628]

PUBLIC SERVICE ELECTRIC AND GAS CO. Smithburg Substation Supply Agreement

OCTOBER 7, 1977.

Take notice that Public Service Electric and Gas Co. (PS) on September 30, 1977, tendered for filing the Smithburg Substation Supply Agreement dated September 30, 1977 between Atlantic City Electric Co. (ACE), Delmarva Power & Light Co. (DPL), Jersey Central Power and Light Co. (JC) and Philadelphia Electric Co. (PE) and PS. (PS FPC Rate Schedule No. 46).

PS states that the reason for this filing is to provide additional use of the Lower Delaware Valley Transmission Facilities by Jersey Central Power and Light Co. by supplying capacity and energy from the Deans Substation to the Smithburg Substation.

PS requests that the filing be permitted to become effective November 2, 1977.

PS states that a copy of this filing has been sent to ACE, DPL, JC, PE and to the Board of Public Utilities of the State of New Jersey.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 17, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[6740-02]

[Docket No. ER77-59]

SUPERIOR WATER, LIGHT AND POWER CO.

Filing of Motion To Sever and Offer of Settlement

OCTOBER 7, 1977.

Take notice that on September 29, 1977, the Superior Water, Light and Power Co. (SWL&P) submitted a motion to sever the above-referenced proceeding from the proceeding in Minnesota Power & Light Co., Docket No. ER76-827, and, in addition, submitted an offer of settlement of all issues involved in the above-captioned docket.

SWL&P, a wholly-owned subsidiary of Minnesota Power & Light Co. (MP&L) furnishes electric, gas and water service to Superior, Wisconsin and adjacent areas. SWL&P purchases approximately

84% of its kilowatt-hour requirements from MP&L. The Commission in its order of December 15, 1976, concluded that the proceedings in Docket Nos. ER76-827 and ER77-59 involve common issues of law and fact and consolidated them for purposes of hearing and decision.

The Offer of Settlement provides for an increase in SWL&P's base rates for service to Dahlberg Light & Power Co. of \$9,500.00 over the level of base rates for such service as filed by SWL&P in FPC Docket No. ER76-20, plus the annualized increase in the cost of power purchased by SWL&P from MP&L under the rates finally approved by the Commission in Docket No. ER76-827. The Offer of Settlement also provides for a refund of amounts collected by SWL&P, subject to refund, in excess of the amounts determined to be the appropriate rate.

In addition, the Offer of Settlement provides that SWL&P shall refund to Dahlberg all amounts collected from Dahlberg under the cost of power adjustment clause contained in Rate Schedule W-5, as filed initially in this proceeding, in excess of amounts that would have been collected under the fuel cost adjustment clause as filed and made effective in Docket No. ER76-20.

Any person wishing to do so may submit comments in writing concerning the proposed Settlement Agreement to the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426 on or before November 1, 1977. The Offer of Settlement is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. CP73-297]

TEXAS EASTERN TRANSMISSION CORP. Petition To Amend

OCTOBER 7, 1977.

Take notice that on September 27, 1977, Texas Eastern Transmission Corp. (Petitioner), P.O. Box 2521, Houston, Tex., filed in Docket No. CP73-297 a petition to amend the order of December 10, 1973, as amended, issued in the instant docket (50 FPC 1850) so as to permit the deletion of an existing exchange point, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner indicates that there is a currently effective exchange agreement between Natural Gas Pipeline Co. of America (Natural) and Petitioner dated November 11, 1972, as amended December 3, 1974, which provides for the exchange of natural gas on an Mcf for Mcf basis at numerous points between their systems including (and subject to the instant petition) a point near Carmona, Polk County, Tex. Petitioner further indicates that the order of December 10, 1973, as amended, and in particular, order issued

August 27, 1975, authorized the exchange under the subject agreement, and consequently the additional Polk County exchange point.

Petitioner indicates that on September 1, 1977, Natural filed at Docket Nos. CP73-289 and CP77-601 an application requesting permission and approval to abandon interstate gas transmission facilities consisting of its 4½-inch pipeline and 3-inch measuring facility in Polk and Trinity Counties, Tex. Petitioner states that since the Polk County exchange point is no longer necessary Petitioner has entered into an agreement dated September 10, 1976, to delete the exchange point from the existing exchange agreement.

Petitioner indicates that the Carmona Polk County exchange point has been inactive since October of 1975, and would remain inactive due to Natural's abandonment of its facilities at this location.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before October 31, 1977, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[6740-02]

[Docket No. CP77-654]

TEXAS GAS TRANSMISSION CORP. Application

OCTOBER 7, 1977.

Take notice that on September 30, 1977, Texas Gas Transmission Corp. (Applicant), 3800 Frederica Street, Owensboro, Ky. 42301, filed with the Federal Power Commission in Docket No. CP77-654 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of up to 25,200 Mcf of natural gas on an interruptible basis, for Bay State Gas Supply, Inc.; Chattanooga Gas Co.; City of Fayetteville, Tenn.; The Southern Connecticut Gas Co., Inc.; Knoxville Utilities Board; Middle Tennessee Utility District of Cannon, Cumberland, Dekalb, Putnam, Rhea, Rutherford, Smith, Warren, White and Wilson Counties, Tenn.; Nashville Gas Co.; Natural Gas Utility

District of Hawkins County, Tenn.; United Cities Gas Co.; and Volunteer Natural Gas Co., Inc. (Customers), from April 1 through October 31 of each year of the term of a transportation service agreement dated July 29, 1977, among Applicant, Customers and Kentucky Gas Storage Co. (KGSC), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant requests authorization to transport gas for Customers pursuant to the subject agreement, which gas Applicant would receive from Tennessee Gas Pipeline Co., a Division of Tenneco Inc. (Tennessee), at an existing point of interconnection in Washington County, Miss., and deliver such volumes of natural gas to KGSC for the account of Customers at a meter station to be constructed in Davess County, Ky.

Applicant indicates that it would construct and install the meter station and related facilities for KGSC, which would own the facilities, and that KGSC would lease the facilities to Applicant for the duration of the transportation agreement. Applicant further indicates that the estimated cost of the proposed facilities is \$65,000.

Applicant states that it would retain 5.27 percent of the volume it delivers to KGSC for the account of Customers as makeup for compressor fuel and line loss, which percentage was calculated on an incremental basis for pipeline throughput to and within the rate zone in which delivery by Applicant would be made, i.e., Zone 4. Applicant indicates that it would collect an initial charge of 17.81 cents per Mcf from Customers for all quantities of natural gas transported and delivered to KGSC.

The agreement of July 29, 1977, is for a primary term of 15 years, it is stated.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 25, 1977, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its

own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP75-74]

TRANSWESTERN PIPELINE CO. Rate Settlement Proposal on Rate of Return

OCTOBER 7, 1977.

Take notice that on September 22, 1977, Transwestern Pipeline Co. (Transwestern) filed with the Commission in Docket No. RP75-74 a settlement proposal which, if approved, will resolve the rate of return issue in the proceeding. The rate of return issue in the proceeding had been remanded by the Commission's order issued July 19, 1977, to the Administrative Law Judge for hearing and decision.

Any person wishing to comment in writing on the settlement proposal may do so. All comments should be addressed to the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426 and should be mailed or filed on or before October 14, 1977. Transwestern's settlement proposal is on file with the Commission and available for public inspection.

[6740-02]

[Docket No. ER77-618]

WISCONSIN MICHIGAN POWER CO. Cancellation

OCTOBER 6, 1977.

Take notice that Wisconsin Michigan Power Co. (WMP) on September 26, 1977, tendered for filing notice of cancellation of FPC Rate Schedule No. 47, a contract for wholesale electric service, dated October 26, 1960, between WMP and the City of Norway, Mich. WMP proposes an effective date of October 26, 1977.

WMP states that copies of this filing have been sent to the City of Norway.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Prac-

tice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 17, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

FEDERAL MARITIME COMMISSION EURO PACIFIC JOINT SERVICE Agreement Filed

Notice is hereby given that the following agreement, accompanied by a statement of justification, has been filed with the Commission for approval pursuant to Section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement and the statement of justification at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreement and the statement of justification at the Field Offices located at New York, N.Y., New Orleans, La., San Francisco, Calif., and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before October 21, 1977. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Edward M. Schmeltzer, Esq., Schmeltzer, Aptaker & Sheppard, Suite 305, 1150 Connecticut Ave. NW., Washington, D.C. 20006.

Agreement No. 9902-3 (Sub. 1) provides that the parties to Euro Pacific may operate one additional sailing in 1977 for the purpose of reducing the severe cargo backlog existing in the trade.

Dated: October 7, 1977.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

[6740-02]

FEDERAL POWER COMMISSION

[Docket No. CS-7381, et al.]

MARION E. SPITLER, ET AL.

Notice of Applications for "Small Producer" Certificates¹

SEPTEMBER 30, 1977.

Take notice that each of the Applicants listed herein has filed an application pursuant to Section 7(c) of the Natural Gas Act and Section 157.40 of the Regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before October 27, 1977, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure.

¹This notice does not provide for consolidation for hearing of the several matters covered herein.

cedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Health Resources Administration

ADVISORY COMMITTEE

Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following National Advisory body scheduled to meet during the month of November 1977:

Name: Cooperative Health Statistics Advisory Committee.
Date and Time: November 10-11, 1977, 9:00 a.m.

Place: Sheraton-Silver Spring Motor Inn, 8727 Colesville Road, Silver Spring, Md. 20910.
Open for entire meeting.

Purpose. The Committee represents the interests of the people of the United States in providing advice and guidance to the Secretary and the National Center for Health Statistics on policies and plans in developing a major new national network of integrated or coordinated subsystems of data collections, processing, and analysis over a wide range of questions relating to general health problems of the population, health care resources, and the utilization of health care services.

Agenda. The Committee will discuss the immediate future of the Committee; the Cooperative Health Statistics System budget; the model Health Statistics Act; and the regional meetings of the CHSS. Reports will be received and reviewed from the Committee's task forces on Cost-Sharing and Applied Statistics Training Institute and the Technical Consultant Panel on Component Integration and Organizational Structure. In addition, there will be a report on the activities of the United States National Committee on Vital and Health Statistics.

The meeting is open to the public for observation and participation. Anyone wishing to participate, obtain a roster of members, or other relevant information, should contact Mr. James A. Walsh, National Center for Health Statistics, Room 2-12, Center Building, 3700 East-West Highway, Hyattsville, Maryland 20782, Telephone (301) 436-7122.

Agenda items are subject to change as priorities dictate.

Dated: October 3, 1977.

JAMES A. WALSH,
Associate Administrator
for Operations and Management.

[FR Doc.77-29989 Filed 10-13-77;8:45 am]

[4110-83]

ADVISORY COMMITTEES

Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following National Advisory body scheduled to assemble during the month of October 1977:

Name: NATIONAL COUNCIL ON HEALTH PLANNING AND DEVELOPMENT
Date and Time: October 21, 1977, 9:00 a.m.—5:00 p.m.; 7:00 p.m.—Adjournment; October 22, 1977, 8:30 a.m.
Place: Room 727A, South Portal Building, 200 Independence Avenue SW., Washington, D.C. 20201
Open for entire meeting.

Purpose. The National Council on Health Planning and Development is responsible for advising and making recommendations with respect to (1) the devel-

opment of national guidelines under section 1501 of Pub. L. 93-641, (2) the implementation and administration of Title XV and XVI of Pub. L. 93-641; and (3) an evaluation of the implications of new medical technology for the organization, delivery and equitable distribution of health care services. In addition, the Council advises and assists the Secretary in the preparation of general regulations to carry out the purposes of section 1122 of the Social Security Act and on policy matters arising out of the implementation of it, including the coordination of activities under that section with those under other parts of the Social Security Act or under other Federal or federally assisted health programs. The Council considers and advises the Secretary on proposals submitted by the Secretary under the provisions of section 1122(d)(2) that health care facilities or health maintenance organizations be reimbursed for expenses related to capital expenditures notwithstanding that under section 1122(d)(1) there would otherwise be exclusion of reimbursement for such expenses.

Agenda. Agenda items include: (1) Review of the development of health planning program, (2) report on national guidelines for health planning, and (3) considerations of potential statutory changes.

The meeting is open to the public for observation. A portion of the meeting will be available for comments and public participation. Anyone wishing to participate, obtain a roster of members, minutes of meetings, or other relevant information should contact Mr. Daniel I. Zwick, Office of Planning, Evaluation and Legislation, Room 10-22, Center Building, 3700 East-West Highway, Hyattsville, Md. 20782, Telephone 301-436-7270.

Agenda items are subject to change as priorities dictate.

Dated: October 11, 1977.

DORIS F. DROKE,
Acting Associate Administrator
for Operations and Management.

NOTE.—The original notice of meeting signed September 30, 1977, listed only October 21, 1977, 9:00 a.m., was lost in the mail, thereby reducing time of public notice.

National Institutes of Health

ADVISORY COMMITTEES

Open Meetings

Pursuant to Pub. L. 92-463, notice is hereby given of the meetings of committees advisory to the National Cancer Institute.

These meetings will be entirely open to the public to discuss issues relating to committee business as indicated in the notice. Attendance by the public will be limited to space available. Meetings will be held at the National Institutes of

Health, 9000 Rockville Pike, Bethesda, Md. 20014, unless otherwise stated.

Mrs. Marjorie F. Early, Committee Management Officer, NCI, Building 31, Room 4B43, National Institutes of Health, Bethesda, Md. 20014 (301-496-5708), will furnish summaries of the meetings and rosters of committee members upon request.

Other information pertaining to the meeting can be obtained from the Executive Secretary indicated.

Name of Committee: Chemical Selection Subgroup of the Clearinghouse on Environmental Carcinogens.

Dates: November 1, 1977; 8:30 a.m.—adjournment.

Place: Building 31A, Conference Room 4, National Institutes of Health.

Times: Open for the entire meeting.

Agenda: To consider chemicals for bioassay and other matters relevant to chemical selection.

Executive Secretary: Dr. J. Dan Recer; address: Building 31, Room 4B35, National Institutes of Health; phone 301-496-2083.
Name of Committee: Experimental Design Subgroup of the Clearinghouse on Environmental Carcinogens.

Dates: November 2, 1977; 8:30 a.m.—adjournment.

Place: Building 31A, Conference Room 4, National Institutes of Health.

Times: Open for the entire meeting.

Agenda: To discuss experimental design for bioassay and other matters relevant to experimental design.

Executive Secretary: Dr. J. Dan Recer; Address: Building 31, Room 4B35, National Institutes of Health; Phone 301-496-2083.
Name of Committee: Data Evaluation and Risk Assessment Subgroup of the Clearinghouse on Environmental Carcinogens.

Dates: November 28, 1977; 8:30 a.m.—adjournment.

Place: Building 31C, Conference Room 6, National Institutes of Health.

Times: Open for the entire meeting.

Agenda: To review available bioassay reports and other matters relevant to data evaluation and risk assessment.

Executive Secretary: Dr. James M. Sontag; Address: Building 31, Room 3A16, National Institutes of Health; Phone 301-496-5108.

Dated: September 27, 1977.

SUZANNE L. FREMEAUX,
Committee Management Officer,
National Institutes of Health.

COMMITTEE ON CANCER
IMMUNOTHERAPY

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Committee on Cancer Immunotherapy, National Cancer Institute, November 17, 1977, Building 10, Room 4B14, National Institutes of Health. This meeting will be open to the public on November 17, 1977, from 1:15 p.m. to 1:45 p.m., to consider administrative details. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in section 552b(c)(6), Title 5, U.S. Code and section 10(d) of Pub. L. 92-463, the meeting will be closed to the public on November 17, 1977, from 1:45 p.m. to adjournment, for the review, discussion, and evaluation of individual contract proposals. These proposals and the discussions could reveal personal information concerning individuals associated with the proposals.

Mrs. Marjorie F. Early, Committee Management Officer, National Cancer Institute, Building 31, Room 4B43, National Institutes of Health, Bethesda, Md. 20014 (301-496-5708), will provide a summary of the meeting and a roster of committee members.

Dr. George M. Steinberg, Executive Secretary, National Cancer Institute, Building 10, Room 4B09, National Institutes of Health, Bethesda, Md. 20014 (301-496-1791), will furnish substantive program information.

(Catalog of Federal Domestic Assistance Programs No. 13.395, National Institutes of Health.)

Dated: September 29, 1977.

SUZANNE L. FREMEAUX,
Committee Management Officer,
National Institutes of Health.

GENERAL CLINICAL RESEARCH

CENTERS COMMITTEE

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the General Clinical Research Centers Committee, Division of Research Resources, November 14 and 15, 1977, Conference Room 9, Building 31C, National Institutes of Health, Bethesda, Md. 20014.

The meeting will be open to the public on November 14, 1977, from 9 a.m. to 11 a.m., to discuss administrative matters. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5, U.S. Code and section 10(d) of Pub. L. 92-463, the meeting will be closed to the public on November 14, from 11 a.m. to 5 p.m., and on November 15, from 9 a.m. to adjournment, for the review, discussion, and evaluation of individual grant applications. These applications and the discussions could reveal

confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the application.

Mr. James Augustine, Information Officer, Division of Research Resources, National Institutes of Health, Room 5B13, Building 31, Bethesda, Md. 20014 (301-496-5545), will provide summaries of the meeting and rosters of the Committee members. Dr. Ephraim Y. Levin, Executive Secretary of the General Clinical Research Centers Committee, Room 5B31, Building 31, National Institutes of Health, Bethesda, Md. 20014 (301-496-6595), will furnish substantive program information.

NATIONAL DIABETES ADVISORY BOARD

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of a meeting of the National Diabetes Advisory Board on November 16, 1977, 8:30 a.m. to 5 p.m., in Conference Room 5051, HEW-North Building of Health, Education, and Welfare, at 330 Independence Avenue SW., Washington, D.C.

The meeting, which will be open to the public, is being held to continue review of the status and implementation of the long-range plan to combat diabetes formulated by the National Commission

on Diabetes. Attendance by the public will be limited to space available.

Mr. Raymond M. Kuehne, Executive Director of the Board, P.O. Box 30174, Bethesda, Md. 20014 (301-496-6045), will provide summaries of the meeting.

(Catalog of Federal Domestic Assistance Program No. 13.847, National Institutes of Health.)

Dated: September 26, 1977.

SUZANNE L. FREMEAUX,
Committee Management Officer,
National Institutes of Health.

NEUROLOGY A STUDY SECTION

Amended Notice of Meeting

Notice is hereby given of a change in the meeting date of the Neurology A Study Section, Division of Research Grants, which was published in the FEDERAL REGISTER on September 9, 1977 (42 FR 45382-84).

The Neurology A Study Section was to have met November 3-5, 1977, but will meet November 2-5, 1977, at 9 a.m., at the Los Angeles Hilton, Los Angeles, Calif., the same time and location for which it was originally scheduled.

The meeting will be open to the public for approximately one hour at the beginning of the first session of the first day of the meeting.

Dated: October 6, 1977.

SUZANNE L. FREMEAUX,
Committee Management Officer,
National Institutes of Health.

[FR Doc.77-29856 Filed 10-13-77; 8:45 am]

[4110-08]

PRIMATE RESEARCH CENTERS ADVISORY COMMITTEE

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Primate Research Centers Advisory Committee, Division of Research Resources, November 9, 1977, Conference Room 8, Bldg. 31, National Institutes of Health, Bethesda, Md. 20014.

The meeting will be open to the public on November 9 from 8:30 to 12 noon, during which time there will be a brief staff presentation on the current status of the Primate Research Centers Program. The Committee will select future meeting dates. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in sections 552b(c) (4) and 552b(c) (6), Title 5, U.S. Code and section 10(d) of Pub. L. 92-463, the meeting will be closed to the public on November 9 from 12:00 noon to adjournment for the review, discussion, and evaluation of individual grant applications. These applications and discussions could reveal confidential trade secrets or commercial property such as patentable material,

and personal information concerning individuals associated with the applications.

Mr. James Augustine, Information Officer, Division of Research Resources, National Institutes of Health, Room 5B13, Bldg. 31, National Institutes of Health, Bethesda, Md. 20014, (301) 496-5545, will provide summaries of the meeting and rosters of the Committee members. Dr. Dennis O. Johnsen, Executive Secretary of the Primate Research Centers Advisory Committee, Room 5B55, Bldg. 31, National Institutes of Health, Bethesda, Md. 20014, (301) 496-5175, will furnish substantive program information.

(Catalog of Federal Domestic Assistance Programs No. 13.306, National Institutes of Health.)

Dated: September 29, 1977.

SUZANNE L. FREMEAUX,
Committee Management Officer,
National Institutes of Health.

[4110-08]

RECOMBINANT DNA MOLECULE PROGRAM ADVISORY COMMITTEE

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of a meeting of the Recombinant DNA Molecule Program Advisory Committee at the Linden Hill Hotel, Terrace Room, 5400 Pooks Hill Rd., Bethesda, Md. 20014 on October 31, 1977 and November 1, 1977 from 9 a.m. to 5 p.m.

The entire meeting will be open to the public for consideration of proposed revisions of the NIH Guidelines for Research Involving Recombinant DNA Molecules, and other matters requiring necessary action by the Committee. Attendance by the public will be limited to space available.

Dr. William J. Gartland, Executive Secretary, Recombinant DNA Molecule Program Advisory Committee, National Institutes of Health, Building 31, Room 4A52, telephone 301-496-2323, will provide summaries of the meeting, rosters of committee members and substantive program information.

Dated: October 3, 1977.

SUZANNE L. FREMEAUX,
Committee Management Officer,
National Institutes of Health.

[4110-08]

REPORT ON BIOASSAY OF TETRACHLOROETHYLENE FOR POSSIBLE CARCINOGENICITY

Availability

Tetrachloroethylene has been tested for cancer-causing activity with rats and mice in the Carcinogenesis Program, Division of Cancer Cause and Prevention,

National Cancer Institute. A report is available to the public.

Summary: The bioassay of U.S.P. (United States Pharmacopoeia)-grade tetrachloroethylene for possible carcinogenicity was conducted using Osborne-Mendel rats and B6C3F1 mice. Tetrachloroethylene in corn oil was administered by gavage at either of two dosages to groups of 50 male and 50 female animals of each species, 5 days a week, over a period of 78 weeks followed by an observation period of 32 weeks for rats and 12 weeks for mice.

Initial dosage levels for the chronic bioassay were selected on the basis of a preliminary subchronic toxicity test. Subsequent dosage adjustments were made during the course of the chronic bioassay. The high and low time-weighted average dosages of tetrachloroethylene in the chronic study were 941 and 471 mg/kg/day for the male rats, 949 and 474 mg/kg/day for the female rats, 1072 and 536 mg/kg/day for the male mice, and 772 and 386 mg/kg/day for the female mice.

For each species, 20 animals of each sex were placed on test as vehicle controls. These animals were gavaged with corn oil at the same time that dosed animals were gavaged with tetrachloroethylene mixtures. Twenty animals of each sex were placed on test as untreated controls for each species. These animals received no gavage treatments.

No significant increased incidence of neoplastic lesions was observed in treated rats. In both dosed and control rats, respiratory disease was observed with increasing frequency for the latter part of the first year until termination of the bioassay. Lesions indicative of pneumonia were observed in nearly all rats at necropsy. A high incidence of toxic nephropathy was observed in treated rats. Toxic nephropathy was noted in rats that died early in the study (as early as week 20 for male rats and week 28 for female rats). Mortality of rats was dose-related. Fifty percent of the high dose males had died by week 44 and 50 percent of the high dose females had died by week 66.

In both male and female mice, administration of tetrachloroethylene was associated with a significantly increased incidence of hepatocellular carcinoma. Hepatocellular carcinomas were observed in 1/7 (12 percent) untreated control males, 2/10 (20 percent) vehicle control males, 3/10 (30 percent) low dose males, 27/48 (56 percent) high dose males, 2/10 (20 percent) untreated control females, 2/10 (20 percent) vehicle control females, 13/48 (27 percent) high dose females. Hepatocellular carcinomas metastasized to the kidney in one untreated control male and to the lung in three low dose males, one low dose female, and one high dose female. Toxic nephropathy, similar to that observed in rats, was also observed in treated but not control mice.

Fisher exact tests indicated a highly significant increased incidence of hepatocellular carcinoma for each dosed group compared to each control group.

Cochran-Armitage tests showed a highly significant positive association between increased dosage and elevated tumor incidence. Time-adjusted analyses, based on Kaplan and Meier survival curves, indicated that the estimated probability of observing hepatocellular carcinoma by week 91 was 1.00 in a dosed male mouse and 0.938 in a dosed female mouse.

Under the conditions of this study, tetrachloroethylene is a liver carcinogen in B6C3F1 mice of both sexes. The bioassay of Osborne-Mendel rats, however, is considered an inadequate test for carcinogenicity due to the high rate of early deaths among rats treated with tetrachloroethylene.

Single copies of the report are available from the Office of Cancer Communications, National Cancer Institute, Building 31, Room 10A21, National Institutes of Health, Bethesda, Md. 20014.

(Catalog of Federal Domestic Assistance Program Number 13.393, Cancer Cause and Prevention Research.)

Dated: October 3, 1977.

DONALD S. FREDRICKSON,
Director National
Institutes of Health.

RESEARCH MANPOWER REVIEW COMMITTEE

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Research Manpower Review Committee, National Heart, Lung, and Blood Institute, November 11, 1977, Conference Room C, 428 Landow Building, 7910 Woodmont Ave., Bethesda, Md.

This meeting will be open to the public on November 11, 1977 from 8 a.m. to approximately 9 a.m. to discuss administrative details and to hear reports concerning the current status of the National Heart, Lung, and Blood Institute.

In accordance with the provisions set forth in section 552b(c) (6), Title 5, U.S. Code and section 10(d) of Pub. L. 92-463, the meeting will be closed to the public on November 11, 1977 from 9 a.m. until adjournment for the review, discussion and evaluation of individual grant applications. These applications and the discussions could reveal personal information concerning individuals associated with the applications.

Mr. York E. Onnen, Chief, Public Inquiries and Reports Branch, NHLBI, NIH, Room 5A03, Building 31, Bethesda, Md. 20014, phone (301) 496-4236, will provide summaries of the meeting and rosters of the committee members. Dr. Charles L. Turbyfill, Executive Secretary, NHLBI, NIH, Room 553, Westwood Building, Bethesda, Maryland 20014, phone (301) 496-7351, will furnish substantive program information.

(Catalog of Federal Domestic Assistance Program No. 13.838, National Institutes of Health.)

Dated: September 29, 1977.

SUZANNE L. FREMEAUX,
Committee Management Officer,
National Institutes of Health.

[4110-08]

REVIEW OF CONTRACT PROPOSALS AND GRANT APPLICATIONS

Meetings

Pursuant to Pub. L. 92-463, notice is hereby given of the meetings of committees advisory to the National Cancer Institute.

These meetings will be open to the public to discuss administrative details or other issues relating to committee business as indicated in the notice. Attendance by the public will be limited to space available.

These meetings will be closed to the public as indicated below in accordance with the provisions set forth in sections 552b(c) (4) and 552b(c) (6), Title 5, U.S. Code and section 10(d) of Pub. L. 92-463, for the review, discussion and evaluation of individual contract proposals and grant applications, as indicated. These proposals and applications and the discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the proposals and applications.

Mrs. Marjorie F. Early, Committee Management Officer, NCI, Building 31, Room 4B43, National Institutes of Health, Bethesda, Md. 20014 (301-496-5708) will furnish summaries of the meetings and rosters of committee members, upon request. Other information pertaining to the meeting can be obtained from the Executive Secretary indicated. Meetings will be held at the National Institutes of Health, 9000 Rockville Pike, Bethesda, Md. 20014, unless otherwise stated.

Name of Committee: National Pancreatic Center Project Working Cadre.
Dates: November 2, 1977; 8:30 a.m.—adjournment.

Place: Continental Plaza Hotel, (Windsor Room), 909 N. Michigan Ave., Chicago, Ill.
Times: Open: November 2, 8:30 a.m.—9:30 a.m. Closed: November 2, 9:30 a.m.—adjournment.

Closure reason: To review research grant applications.

Executive Secretary: Dr. William Stralle; Address: Westwood Building, Room 853, National Institutes of Health, Phone 301-496-7194.

TWELFTH ANNUAL JOINT WORKING CON-
FERENCE OF THE VIRUS CANCER PRO-
GRAM

Meeting

Notice is hereby given of the Twelfth
Annual Joint Working Conference of the
Virus Cancer Program, Hershey Motor
Lodge, Hershey, Pa., November 2, 3, 4,
1977.

This meeting will be open to the public
from 9:00 a.m. to 5:30 p.m. November 2
and 3 and from 9 a.m. to 12:30 p.m. No-
vember 4, 1977 for presentation of sci-
entific papers. Attendance by the public
will be limited to space available.

For additional information, please con-
tact: Louis R. Sibal, Ph.D., Building 37,
Room 1A15, Division of Cancer Cause
and Prevention, National Cancer Insti-
tute, National Institutes of Health, Be-
thesda, Md. 20014, (301) 496-2796.

Dated: September 26, 1977.

Office of Education

NATIONAL ADVISORY COUNCIL ON
WOMEN'S EDUCATIONAL PROGRAMS

AGENCY: Office of Education National
Advisory Council on Women's Educa-
tional Programs.

ACTION: Notice of public hearing.

SUMMARY: This notice sets forth the
schedule of a forthcoming hearing on the
educational needs of displaced home-
makers, single parents and older women,
sponsored by the National Advisory
Council on Women's Educational Pro-
grams. It also describes the functions of
the Council. This document is intended
to notify the public of their opportunity
to attend.

DATE: October 28, 1977, 9:00 a.m. to
3:00 p.m.

ADDRESS: University of Nebraska at
Omaha, Milo Bail Student Center, Room
314.

FOR FURTHER INFORMATION CON-
TACT:

Carol Eliason, American Association of
Community and Junior Colleges, One
Dupont Circle, Suite 410, Washington,
D.C. 20036, Telephone: 202-293-7050.

The National Advisory Council on
Women's Educational Programs is es-
tablished pursuant to Pub. L. 93-380,
Section 408(f) (1). The Council is man-
dated to (a) advise the Commissioner
with respect to general policy matters
relating to the administration of the
Women's Educational Equity Act of
1974; (b) advise and make recommenda-
tions to the Assistant Secretary concern-
ing the improvement of educational
equity for women; (c) make recommen-
dations to the Commissioner with respect
to the allocation of any funds pursuant
to Section 408 of Pub. L. 93-380, includ-
ing criteria developed to insure an ap-
propriate distribution of approved pro-
grams and projects throughout the
Nation; (d) make such reports to the
President and the Congress on the activi-
ties of the Council as it determines ap-
propriate; (e) develop criteria for the es-
tablishment of program priorities; and
(f) disseminate information concerning
its activities under Section 408 of Pub. L.
93-380.

The hearing on the educational needs
of displaced homemakers, single par-
ents and older women is being coordi-
nated by the American Association of
Community and Junior Colleges under
contract to the National Advisory Coun-
cil on Women's Educational Programs.
It will be open to the public. Persons
wishing to make oral presentations or
to submit testimony should contact
Carol Eliason, American Association of
Community and Junior Colleges, One
Dupont Circle, Suite 410, Washington,
DC 2036. Telephone: (202) 293-7050.

Signed at Washington, D.C., on Octo-
ber 11, 1977.

KATHLEEN MAURER,
Administrative Officer.

DEPARTMENT OF HOUSING AND
URBAN DEVELOPMENT

Federal Disaster Assistance Administration

[Docket No. NFD-577; FDAA-3044-EM]

GEORGIA

Amendment to Notice of Emergency
Declaration

AGENCY: Federal Disaster Assistance
Administration, HUD.

ACTION: Notice.

SUMMARY: This Notice amends the No-
tice of emergency declaration for the
State of Georgia (FDAA-3044-EM),
dated July 20, 1977.

DATED: September 7, 1977.

FOR FURTHER INFORMATION CON-
TACT:

Frank J. Muckenaupt, Chief, Program
Support Staff, Federal Disaster Assis-
tance Administration, Department of
Housing and Urban Development,
Washington, D.C. 20410, (202-634-
7825).

NOTICE: The Notice of emergency for
the State of Georgia dated July 20, 1977,
and amended on July 25, 1977, August 8,
1977, and August 16, 1977, is hereby fur-
ther amended to include the following
counties among those areas determined
to have been adversely affected by the
catastrophe declared an emergency by
the President in his declaration of
July 20, 1977:

The Counties of:

Baker	Chatham
Banks	Effingham
Bryan	Tattnall
Bulloch	

The purpose of this designation is to
provide emergency livestock feed assist-
ance only in the aforementioned areas
effective the date of this amended
Notice.

[Docket No. NFD-573; FDAA-539-DR]

KANSAS

Major Disaster and Related
Determinations

AGENCY: Federal Disaster Assistance
Administration, HUD.

ACTION: Notice.

SUMMARY: This is a Notice of the
Presidential declaration of a major dis-
aster for the State of Kansas (FDAA-
539-DR), dated September 20, 1977, and
related determinations.

NOTICES

DATE: September 20, 1977.

FOR FURTHER INFORMATION CON-
TACT:

Frank J. Muckenaupt, Chief, Pro-
gram Support Staff, Federal Disaster
Assistance Administration, Depart-
ment of Housing and Urban Develop-
ment Washington, D.C. 20410 (202-
634-7825).

NOTICE: Pursuant to the authority
vested in the Secretary of Housing and
Urban Development by the President
under Executive Order 11795 of July 11,
1974, and delegated to me by the Secre-
tary under Department of Housing and
Urban Development Delegation of Au-
thority, Docket No. D-74-285; and by
virtue of the Act of May 22, 1974, en-
titled "Disaster Relief Act of 1974" (88
Stat. 143); notice is hereby given that
on September 20, 1977, the President
declared a major disaster as follows:

I have determined that the situation in
certain areas of the State of Kansas result-
ing from severe storms and flooding begin-
ning about September 11, 1977, is of suffi-
cient severity and magnitude to warrant a
major disaster declaration under Pub. L.
93-288. I therefore declare that such a ma-
jor disaster exists in the State of Kansas.

Notice is hereby given that pursuant
to the authority vested in the Secretary
of Housing and Urban Development un-
der Executive Order 11795, and dele-
gated to me by the Secretary under De-
partment of Housing and Urban De-
velopment Delegation of Authority,
Docket No. D-74-285, I hereby appoint
Mr. Francis X. Tobin of the Federal
Disaster Assistance Administration to
act as the Federal Coordinating Officer
for this declared major disaster. As Fed-
eral Coordinating Officer, he is author-
ized to: (1) Establish an Office of the
Federal Coordinating Officer; (2) form
emergency support teams of Federal per-
sonnel to be deployed in the area affected
by this major disaster; and (3) issue
mission assignments to other Federal
agencies for logistical support of the
Office of the Federal Coordinating Of-
ficer, Disaster Assistance Centers, and
emergency support teams. He is further
authorized to obligate funds from the
President's Disaster Relief Fund for the
accomplishment of the above-listed
functions.

I do hereby determine the following
areas to have been adversely affected by
this declared major disaster.

The counties of:

Atchison	Johnson
Brown	Leavenworth
Doniphan	Nemaha
Jackson	Shawnee
Jefferson	Wyandotte

(Catalog of Federal Domestic Assistance No.
14.701, Disaster Assistance.)

[Docket No. NFD-576; FDAA-538-DR]

MISSOURI

Major Disaster and Related Determinations

AGENCY: Federal Disaster Assistance
Administration, HUD.

ACTION: Notice.

SUMMARY: This is a Notice of the
Presidential declaration of a major dis-
aster for the State of Missouri (FDAA-
538-DR), dated September 14, 1977, and
related determinations.

DATE: September 14, 1977.

FOR FURTHER INFORMATION CON-
TACT:

Frank J. Muckenaupt, Chief, Pro-
gram Support Staff, Federal Disaster
Assistance Administration, Depart-
ment of Housing and Urban Develop-
ment, Washington, D.C. 20410 (202-
634-7825).

NOTICE: Pursuant to the authority
vested in the Secretary of Housing and
Urban Development by the President
under Executive Order 11795 of July 11,
1974, and delegated to me by the Secre-
tary under Department of Housing and
Urban Development Delegation of Au-
thority, Docket No. D-74-285; and by
virtue of the Act of May 22, 1974, en-
titled "Disaster Relief Act of 1974" (88
Stat. 143); notice is hereby given that
on September 14, 1977, the President
declared a major disaster as follows:

I have determined that the situation in
certain areas of the State of Missouri result-
ing from severe storms and flooding begin-
ning about September 11, 1977, is of sufficient
severity and magnitude to warrant a major
disaster declaration under Pub. L. 93-288. I
therefore declare that such a major disaster
exists in the State of Missouri.

Notice is hereby given that pursuant
to the authority vested in the Secretary
of Housing and Urban Development under
Executive Order 11795, and delegated to
me by the Secretary under Department
of Housing and Urban Development De-
legation of Authority, Docket No. D-74-
285, I hereby appoint Mr. Francis X.
Tobin of the Federal Disaster Assistance
Administration to act as the Federal Co-
ordinating Officer for this declared major
disaster. As Federal Coordinating Of-
ficer, he is authorized to: (1) Establish an
Office of the Federal Coordinating Of-
ficer; (2) form emergency support teams
of Federal personnel to be deployed in
the area affected by this major disaster;
and (3) issue mission assignments to
other Federal agencies for logistical sup-
port of the Office of the Federal Co-
ordinating Officer, Disaster Assistance
Centers, and emergency support teams.
He is further authorized to obligate
funds from the President's Disaster
Relief Fund for the accomplishment of
the above-listed functions.

I do hereby determine the following
areas to have been adversely affected by
this declared major disaster.

The counties of:

Clay	Platte
Jackson	Ray
Lafayette	

(Catalog of Federal Domestic Assistance No.
14.701, Disaster Assistance.)

DEPARTMENT OF THE INTERIOR
Bureau of Land ManagementCOMMERCIAL WHITEWATER USE OF THE
SOUTH FORK AMERICAN, MERCED
AND STANISLAUS RIVERS

Allocation Meeting for 1978 Use Season

A meeting will be held for all interested commercial whitewater outfitters on Saturday, November 5, 1977, at 12:30 p.m. This meeting will be held at the Fol-

som District Office, Bureau of Land Management, 63 Natoma Street, Folsom, Calif 95630. At this meeting commercial allocation for the 1978 use season will be made for the Merced and Stanislaus Rivers. Allocation may also be made for commercial use of public lands along the South Fork of the American River. Those desiring to obtain a commercial use permit for one or all of the above listed rivers must attend this meeting and be prepared to sign an application and submit a \$10.00 (ten dollar) filing fee. Applications will be available at the meeting. Due to the limited number of permits than can be issued, failure to attend this meeting by an outfitter or his designated representative will preclude that outfitter from obtaining a commercial whitewater use permit on the Merced or Stanislaus River as well as the use of public lands along the South Fork of the American River for the 1978 use season. Questions regarding this meeting may be directed by telephone to (916) 985-4474 or written to the above stated address.

PERRY G. FRANCIS,
Acting District Manager.

IDAHO

Filing of Plats of Survey

1. Plats of survey of the lands described below will be officially filed at the Idaho

State Office, Bureau of Land Management, Boise, Idaho, effective at 10:00 a.m. on November 16, 1977:

BOISE, MERIDIAN, IDAHO

T. 12 N., R. 15 E., unsurveyed Tract 39
T. 12 N., R. 16 E., unsurveyed
Sec. 34, Lot 1
Sec. 35, Lots 1 and 2
T. 12 N., R. 17 E., unsurveyed
Sec. 31, Lots 1 to 8 inclusive

2. The land in unsurveyed T. 12 N., R. 15 E., represents a dependent resurvey of a portion of Mineral Survey 2406, Idaho Placer, and the survey of Tract 39, executed at the request of Region IV, U.S. Forest Service to accommodate Land Exchange I-9364.

3. Both T. 12 N., R. 16 & 17 E. are embraced in the Challis National Forest. The lands involve a dependent resurvey of boundaries to restore corners in their original location according to the best available evidence and surveys of subdivisional lines. Survey performed at the request of and with funds provided by the Tuscarora Mining Company.

ROSE GASTELL,
Chief, Branch of Records,
Boise, Idaho.

NEW MEXICO

Transfer of Jurisdiction of Acquired Indian Lands

1. Pursuant to Pub. L. 94-114 (89 Stat. 577) and Section 2 thereof, the lands described in paragraph three of this notice, together with all minerals underlying these lands, whether acquired or otherwise owned by the United States, are hereby declared to be held by the United States in trust for the use and benefit of the Navajo Tribe of Indians of New Mexico. These lands were submarginal lands acquired under Title II of the National Industrial Recovery Act of June 16, 1933 (48 Stat. 200), the Emergency Relief Appropriation Act of April 8, 1935 (49 Stat. 115), and Section 55 of the Act of August 24, 1935 (49 Stat. 750; 781). This notice is issued under the authority delegated to me by Bureau Order No. 701, dated July 23, 1946, as amended.

2. One existing mineral lease, which has been issued on a portion of this land will remain in force and effect in accordance with the terms and provisions of the Act under which the lease was issued. The lease file will be transferred to the Office of the Area Director, Bureau of Indian Affairs, Window Rock, Ariz. Future rentals for this lease will be paid to and collected by that office. Jurisdiction of this mineral lease is transferred from the Bureau of Land Management to the Bureau of Indian Affairs in trust for the Navajo Tribe of Indians.

3. NEW MEXICO PRINCIPAL MERIDIAN,
NEW MEXICO

OUTER CONTINENTAL SHELF NORTH ATLANTIC

Proposed Oil and Gas Lease Sale—No. 42 Oil and Gas Leasing

In connection with oil and gas leasing on the Outer Continental Shelf, the Secretary of the Interior has established a new policy relating to sale notices to further and enhance consultation with the affected coastal States. That policy includes providing the affected States with the opportunity to review the draft proposed sale notice prior to its final publication in the FEDERAL REGISTER. The following is a draft sale notice for proposed Sale No. 42 in the offshore waters of the North Atlantic area. This notice is hereby published as a matter of information to the public.

GEORGE L. TURCOTT,
Acting Director,
Bureau of Land Management.

Approved: October 7, 1977.

CECIL D. ANDRUS,
Secretary of the Interior.

DRAFT SALE NOTICE

1. *Authority.* This notice is published pursuant to the Outer Continental Shelf Lands Act (43 U.S.C. 1331-1343) and the regulations issued thereunder (43 CFR Part 3300).

2. *Filing of bids.* Sealed bids will be received by the Manager, New York Outer Continental Shelf (OCS) Office, Bureau of Land Management, either in person or by mail, for the oil and gas lease sale on tracts described in paragraph 13 herein, and located in the North Atlantic Outer Continental Shelf. Bids may be delivered either by mail or in person to the Federal Building, Suite 32-120, 26 Federal Plaza, New York, N.Y. 10007, until 4:30 p.m., e.s.t., January 1, 1978, or by personal delivery to (sale site to be announced) between the hours of 8:30 a.m., e.s.t. and 9:30 a.m., e.s.t., January 1, 1978. Bids received by the Manager other than during the times and dates specified above will be returned unopened to the bidders. Bids may not be modified or withdrawn unless written modification or withdrawal is received by the Manager before 9:30 a.m., e.s.t., January 1, 1978. All bids must be submitted and will be considered in accordance with applicable regulations, including 43 CFR Part 3300. The list of restricted joint bidders which applies to this sale was published in 42 FR 54881, October 11, 1977.

3. *Method of bidding.* A separate bid in a sealed envelope must be submitted for each tract and be labeled "Sealed Bid for Oil and Gas Lease (insert number of tract); not to be opened until 10 a.m., e.s.t., January 1, 1978." A suggested bid format appears in paragraph 17. Bidders are advised that tract numbers are assigned solely for administrative purposes during this sale and are not the

same as block numbers found on OCS Official Protraction Diagrams. All bids received shall be deemed submitted for a numbered tract. Bidders must submit with each bid one-fifth of the cash bonus in cash, cashiers check, certified check, bank draft, or money order payable to the order of the Bureau of Land Management. No bid for less than a full tract described in paragraph 13 will be considered. Bidders submitting joint bids must state on the bid form the proportionate interest of each participating bidder in a percent to a maximum of five decimal places, as well as submit a sworn statement that the bidder is qualified under 43 CFR 3302. The form for this statement appears in paragraph 18. Other documents required of bidders are listed under 43, CFR 3302.4. Bidders are warned against violation of 18 USC 1860, prohibiting unlawful combination or intimidation of bidders.

4. *Royalty bidding.* Bids on the following tracts must be submitted on a royalty bid basis with a fixed cash bonus as indicated. Leases which may be awarded on a royalty bid basis will provide for a yearly rental or minimum royalty payment of \$8 per hectare or fraction thereof. All royalty bids must be expressed in a percent to a maximum of five decimal places. Although a percentage could be expressed in other ways, it is requested that it be written as it is in the following example: 21.75698%. A suggested royalty bid form is shown in paragraph 17(a).

(a) A fixed cash bonus of ---- per hectare will be required on tracts 42- (tracts and terms to be listed).

(b) A fixed cash bonus of ---- per hectare will be required on tracts 42- (tracts and terms to be listed).

(c) A fixed cash bonus of ---- per hectare will be required on tracts 42- (tracts and terms to be listed).

(d) A fixed cash bonus of ---- per hectare will be required on tracts 42- (tracts and terms to be listed).

5. *Bonus bidding.* Bids on the remaining tracts to be offered at this sale must be on a cash bonus bid basis with a fixed royalty of 16% percent. Leases which may be issued will provide for a yearly rental payment or minimum royalty payment of \$8 per hectare or fraction thereof. A suggested cash bonus bid form is shown in paragraph 17(b).

6. *Equal opportunity.* Each bidder must have submitted by 9:30 a.m., e.s.t., January 1, 1978, the certification required by 41 CFR 60-1.7(b) and Executive Order No. 11246 of September 24, 1965, as amended by executive Order No. 11375 of October 13, 1967, on the Compliance Report Certification Form, Form 1140-8 (November 1973), and the Affirmative Action Representation Form, Form 1140-7 (December 1971).

7. *Bid opening.* Bids will be opened on January 1, 1978, beginning at 10 a.m., e.s.t., in the (sale site), at the address stated in paragraph 2. The opening of

: One Hectare equals 2.471 acres.

bids is for the sole purpose of publicly announcing and recording bids received; no bids will be accepted or rejected, at that time. If the Department is prohibited for any reason from opening any bid before midnight January 1, 1978, that bid will be returned unopened to the bidder as soon thereafter as possible.

8. *Deposit of payments.* Any cash, cashiers checks, certified checks, bank drafts, or money orders submitted with a bid may be deposited in a suspense account in the Treasury during the period the bids are being considered. Such a deposit does not constitute and shall not be construed as acceptance of any bid on behalf of the United States.

9. *Withdrawal of tracts.* The United States reserves the right to withdraw any tracts from this sale prior to the issuance of a written acceptance of a bid for that tract.

10. *Acceptance or rejection of bids.* The United States reserves the right to reject any and all bids for any tract. In any case, no bid for any tract will be accepted and no lease for any tract will be awarded to any bidder unless:

(a) The bidder has complied with all requirements of this notice and applicable regulations;

(b) His bid is the highest valid royalty bid on the designated royalty tracts or the highest valid cash bonus bid for the remaining tracts; and

(c) The amount of the bid has been determined to be adequate by the United States.

No bid will be considered for acceptance unless it offers a cash bonus in the amount of \$62 or more per hectare or fraction thereof on the tracts designated for cash bonus bidding and 12.50 percent or more royalty on the tracts designated for royalty bidding.

11. *Successful bidders.* Each person who has submitted a bid accepted by the United States will be required to execute copies of the lease specified below, pay the balance of the cash bonus bid together with the first year's annual rental and satisfy the bonding requirements of 43 CFR 3304.1 within the time provided in 43 CFR 3302.5.

12. *Protraction diagrams.* The tracts offered for lease described in paragraph 13, may be located on the following Outer Continental Shelf Official Protraction Diagrams which may be purchased for \$2 each from the Manager, New York Outer Continental Shelf Office at the address stated in paragraph 2:

(1) NK 19-8, (2) NK 19-9, (3) NK 19-11, (4) NK 19-12.

13. *Tract descriptions.* The tracts offered for bid are as follows:

NOTE.—There are gaps on the sequence of the numbers of the tracts listed. Some of the blocks identified in the final environmental

impact statement are not included in this notice.

14. *Lease terms and stipulations.* Leases issued as a result of this sale will be on Form 3300-1 (December 1976) available from the Manager, New York Outer Continental Shelf Office, at the address stated in paragraph 2. Except as otherwise noted, the following stipulations will be included in each lease resulting from this sale.

In the following stipulations the term Supervisor refers to the Atlantic area oil and gas Supervisor for operations of the Geological Survey and the term Manager refers to the Manager of the New York OCS Office of the Bureau of Land Management.

STIPULATION No. 1

If the Supervisor having reason to believe that a site, structure, or object of historical or archaeological significance hereinafter referred to as "cultural resource," may exist in the lease area, gives the lessee written notice that the lessor is invoking the provisions of this stipulation, the lessee shall upon receipt of such notice comply with the following requirements:

Prior to any drilling activity or the construction or placement of any structure for exploration or development on the lease, including but not limited to, well drilling and pipeline and platform placement, hereinafter in this stipulation referred to as "operation," the lessee shall conduct remote sensing surveys to determine the potential existence of any cultural resource that may be affected by such operations. All data produced by such remote sensing surveys as well as other pertinent natural and cultural environmental data shall be examined by a qualified marine survey archaeologist to determine if indications are present suggesting the existence of a cultural resource that may be adversely affected by any lease operation. A report of this survey and assessment prepared by the marine survey archaeologist shall be submitted by the lessee to the Supervisor and to the Manager for review.

If such cultural resource indicators are present the lessee shall: (1) Locate the site of such operation so as not to adversely affect the identified location; or (2) establish, to the satisfaction of the Supervisor, on the basis of further archaeological investigation conducted by a qualified marine survey archaeologist or underwater archaeologist using such survey equipment and techniques as deemed necessary by the Supervisor, either that such operation will not adversely affect the location identified or that the potential cultural resource suggested by the occurrence of the indicators does not exist.

A report of this investigation prepared by the marine survey archaeologist or underwater archaeologist shall be submitted to the Supervisor and the Manager for their review. Should the Supervisor determine that the existence of a cultural resource which may be adversely affected by such operation is sufficiently established to warrant protection, the lessee shall take no action that

may result in an adverse effect on such cultural resource until the Supervisor has given directions as to its disposition.

The lessee agrees that if any site, structure, or object of historical or archaeological significance should be discovered during the conduct of any operations on the leased area, he shall report immediately such findings to the Supervisor, and make every reasonable effort to preserve and protect the cultural resource from damage until the Supervisor has given directions as to its disposition.

STIPULATION No. 2

When an area or resource has been identified as biologically important, the Supervisor may give written notice that the lessor is invoking the provisions of this stipulation. The first definition of such areas will take place before exploration starts in the lease sale area. The area will be examined periodically by the lessor throughout the operating life of the field. The lessee shall, upon receipt of such notice, comply with the following requirements:

Prior to any drilling activity or the construction or placement of any structure for exploration or development of lease areas (hereinafter referred to as "operation") including, but not limited to, well drilling and pipeline and platform placement, the lessee shall conduct environmental surveys, as approved by the Supervisor, to determine the extent and composition of biological populations within the area covered by the lease.

Based upon results of the survey, the lessee may be required to: (1) relocate the site of such operations so as not to adversely affect the area identified; or (2) modify his operation in such a way as not to adversely affect the area identified; or (3) establish to the satisfaction of the Supervisor that, on the basis of the environmental survey, such operations will not adversely affect the area.

The lessee shall submit all data obtained in the course of environmental surveys, conducted pursuant to this stipulation, to the Supervisor, with the locational information for drilling or other activity. The lessee may take no action that may result in any effect on the biologically important areas until the Supervisor has given the lessee written directions with respect to the area.

If, during operations, any area of biological importance is identified, the lessee shall make every reasonable effort to protect and preserve all biological populations within the lease area until the Supervisor has given the lessee written directions with respect to the area of biological importance.

STIPULATION No. 3

If pipeline rights-of-way can be determined and obtained, and if laying such pipelines is technically and economically feasible and environmentally preferable, pipelines will be required. The lessor specifically reserves the right to require that any pipeline used for transporting production to shore be placed in certain designated management areas. Where feasible, all pipelines, including both flow lines and gathering lines for oil and gas, shall be buried to a depth suitable for adequate protection from water currents, sand waves, storm scouring, fisheries trawling gear, and other uses as determined by the Department of the Interior permitting agency. While the determination will be made on a case-by-case basis, the minimum desirable depth is 6 feet. Where burial is not feasible, pipelines shall be protected by shrouding.

Following the completion of pipeline installation, no crude oil production will be transported by surface vessel from offshore

production sites, except in the case of emergency. Determinations as to emergency conditions and appropriate responses to these conditions will be made by the Supervisor. All vessels used for carrying oil or gas to shore from the leased areas will conform with all standards established for such vessels by the Secretary of the Department in which the Coast Guard is operating.

STIPULATION No. 4

To provide information to coastal states and thus to assist them in planning for the impact of activities during exploration under this lease, the lessee shall submit, for review and comment, to the Governor of each affected state a "Notice of Support Activity for the Exploration Program" (herein called "Notice").

For the purpose of this stipulation, affected states include New York, Connecticut, Rhode Island, Massachusetts, New Hampshire, Maine, New Jersey, Pennsylvania, Delaware, Maryland, and Virginia. The lessee shall not be required to include privileged information in this Notice. At his discretion, the lessee may submit a separate notice for each Exploration Plan submitted for one or more leases.

A copy of the Notice shall be submitted to the Supervisor simultaneously with, or prior to, the Exploration Plan with a certification that it has been submitted to the Governor of the State(s) that will be directly affected by activities under the Plan. If the lessee shall submit a Notice in connection with two or more Exploration Plans, he shall not be required to submit additional copies of the Notice, but may instead refer to that previous submission. Before the Supervisor approves or disapproves the Exploration Plan, he shall allow at least 30 days from the date of receipt of the certification for the Governor to submit comments on the Notice to him as well as to the lessee. Subsequent to the submission of the certification, significant changes in estimated support activities will be forwarded by the lessee as an amendment to the Notice to the Supervisor, and the Governor of the State(s) that will be directly affected by the program.

The Notice shall include with respect to the lessee and his contractors:

- (1) A description of the facilities, including site and size, that may be constructed, leased, rented or otherwise procured in affected areas;
- (2) The location and amount of acreage required within the State for facilities, including the need for storage of various supplies;
- (3) An estimate of the frequency of boat and aircraft departures and arrivals, on a monthly basis, and the onshore location of terminals;

(4) The approximate number of persons who are expected to be engaged in onshore support activities and transportation, the approximate number of local personnel who are expected to be employed for or in support of the exploration program, and the approximate total number of persons who are expected to be employed for the exploration program;

(5) Estimates of the approximate addition to the population on a county basis due to the exploration program and the approximate number of persons needing housing and other facilities;

(6) An estimate of any significant quantity of major supplies and equipment to be procured within the State; and

(7) The onshore addresses of the lessee's operation offices and of the offices of contractors involved with the exploratory operation.

STIPULATION No. 5

Drill cuttings and drilling muds shall be disposed of by shunting the material through a downpipe to a depth of 20-50 feet below the ocean surface or by transporting these materials to preselected disposal sites approved by the Supervisor, and the Environmental Protection Agency. Based upon the composition of produced formation waters, the Supervisor may require reinjection.

STIPULATION No. 6

Unless the lessee can demonstrate to the satisfaction of the Supervisor that it would not be in the interests of conservation all reservoirs underlying this lease which extend into one or more other leases, as indicated by drilling and other information, shall be operated and produced only under a unit agreement including the other lease(s) and approved by the Supervisor. Such a unit agreement shall provide for the fair and equitable allocation of production and costs. The Supervisor shall prescribe the method of allocating production and costs in the event operators are unable to agree on a method acceptable to him.

STIPULATION No. 7

All equipment which could be freed or lost overboard from rigs or platforms and which could not be classified as a hand tool will be indelibly marked with the owners' and/or operator's name or logo.

STIPULATION No. 8

(To be included only in the leases resulting from this sale for tracts 42-165, 42-166, 42-172, 42-173, 42-176, and 42-177): Portions of these tracts may be subject to mass movement (slumping) of sediments. Emplacement of structures (platforms) or seafloor wellheads for the production or storage of oil or gas will not be allowed on those portions of the tract which may be subject to mass movement of sediments unless or until the lessee has demonstrated to the Supervisor's satisfaction that the potential for mass movement of sediments does not exist or that structures (platforms), casing, and wellheads can be safely designed to withstand such mass movement at the proposed location of the structure.

STIPULATION No. 9

(To be included only in the lease resulting from this sale for tract 42-178): All of this tract may be subject to mass movement (slumping) of sediments. Emplacement of structures (platforms) or seafloor wellheads for production or storage of oil or gas will not be allowed within the area of mass movement of sediments unless or until the lessee has demonstrated to the Supervisor's satisfaction that the potential for mass movement of sediment does not exist or that structures (platforms), casing, and wellheads can be safely designed to withstand such mass movement at the proposed location of the structure. This may necessitate all exploration and development of oil or gas be performed from locations off this tract and outside of the area of potential mass movement of sediments.

STIPULATION No. 10

(To be included only in the lease resulting from this sale for tract 42-43): Portions of this tract may contain a shallow "Bright Spot" seismic anomaly which may be indicative of a gas deposit. Surface occupancy above this anomaly and drilling through the anomaly will not be allowed, unless the lessee can demonstrate to the Supervisor's satisfaction that a potential hazardous accumulation of shallow gas does not exist or

that structures (platforms), casing, and wellheads can be placed, or drilling plans designed to insure safe operations in the area above the anomaly.

STIPULATION No. 11

(To be included in any leases resulting from this sale for the royalty bidding tracts listed in Paragraph 4 of this notice.)

(1) The royalty rate on production saved, removed, or sold from this lease is subject to consideration for reduction under the same authority that applies to all other oil and gas leases on the Outer Continental Shelf (30 CFR 250.12(e)), except that the Director, Geological Survey may approve an application for a reduction in royalty on this lease only when it is necessary in order to increase the ultimate recovery of oil and gas and in the interest of conservation. The Director may grant a reduction for only one year at a time. Reduction of royalty rates will not be approved unless production has been underway for one year or more.

(2) Although the royalty rate specified in section 3(b)(1) of this lease or as subsequently modified in accordance with applicable regulations and stipulations is applicable to all production under this lease, not more than 16 2/3% of the production saved, removed or sold from the leased area may be taken as royalty in amount, except as provided in section 6(c) of this lease; the royalty on any portion of the production saved, removed or sold from the lease in excess of 16 2/3% may only be taken in value of the production saved, removed or sold from the leased area.

15. *Information to Lessees.* Some of the tracts offered for lease may fall in areas which may be included in fairways, precautionary zones, or traffic separation schemes. Corps of Engineers permits are required for construction of any structures in or over any navigable waters of the United States pursuant to section 10 of the River and Harbors Act of 1899 (33 U.S.C. 403), and for artificial islands and fixed structures located on the Outer Continental Shelf, in accordance with section 4 (f) of the Outer Continental Shelf Lands Act of 1953 (43 U.S.C. 1333(f)).

Bidders are referred to the Department's proposed regulations on development phase environmental impact statements which were published in 42 FR 49478, September 27, 1977.

In applying safety, environmental and conservation laws and regulations, the Supervisor will require the use of the best available and safest technology which are determined to be economically achievable. To the extent practicable, the Supervisor will consult with the relevant Federal agencies and the affected State(s) in the execution of these responsibilities.

Bidders are advised that the Department of the Interior and Transportation have entered into a Memorandum of Understanding dated May 6, 1976, concerning the design, installation, operation and maintenance of offshore pipelines. Bidders should consult both Departments for regulations applicable to offshore pipelines.

In the enforcement of the stipulation on biologically important areas, the Supervisor will consult a committee

composed of designated representatives of the Bureau of Land Management, U.S. Fish and Wildlife Service, U.S. Geological Survey, the National Marine Fisheries Service, the Environmental Protection Agency, and representatives of the affected States. This committee will remain in existence throughout the operating life of the field. The Supervisor will consult with the committee in identifying areas or resources of biological importance, on the conduct of the biological surveys by lessees, and on the appropriate course of action after the surveys have been conducted.

If nationally recommended routes for boat traffic lanes are established by the Coast Guard, lessees will be required to use them to transport supplies to the lease area.

16. *OCS Orders.* Operations on all leases resulting from this sale will be conducted in accordance with the provisions of all North Atlantic OCS Orders, as of their effective date.

17. *Suggested Bid Form.* It is suggested that bidders submit their bids to the Manager, New York OCS Office, in the following form:

(a) For the royalty bid tracts as described in Paragraph 4:

OIL AND GAS BID—ROYALTY

The following bid is submitted for an oil and gas lease on the tract of the Outer Continental Shelf described below:

Tract No.	Percent royalty bid expressed to maximum of 5 decimals	Amount of fixed cash bonus submitted with bid
.....%		
Proportionate interest of company(s) submitting bid		
Qualification No.%	Company
		Address
		Signature
(Please type signer's name under signature)		

(b) All tracts offered for cash bonus bidding:

OIL AND GAS BID

The following bid is submitted for an oil and gas lease on the tract of the Outer Continental Shelf specified below:

Tract No.	Total amount bid	Amount per hectare	Amount of cash bonus submitted with bid
.....			
Proportionate interest of company(s) submitting bid			
Qualification No.%	Company	
		Address	
		Signature (please type signer's name under signature)	

18. *Required Joint Bidders Statement.* In the case of joint bids, each joint bidder must execute the following state-

ment before a notary public and submit it with his bid:

JOINT BIDDER'S STATEMENT

I hereby certify that.....(entity submitting bid) is eligible under 43 CFR 3302 to bid jointly with the other parties submitting this bid.

Signature

(Please type signer's name under signature.)

Sworn to and subscribed before me this ____ day of _____, 19____.

OUTER CONTINENTAL SHELF OIL AND GAS LEASE SALES

List of Restricted Joint Bidders

Correction

In FR Doc. 77-29691 appearing at page 54881 in the issue of Tuesday, October 11, 1977 the list of companies in the second column should be corrected to read as follows:

Amoco Production Company
BP Alaska Exploration Inc.
Chevron U.S.A. Inc.
Exxon Corporation
Gulf Oil Corporation
Mobil Oil Corporation
Shell Oil Company
Standard Oil Company of California
Texaco Inc.

[4310-70]

National Park Service
HISTORIC AMERICAN BUILDINGS
SURVEY ADVISORY BOARD

Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Historic American Buildings Survey (HABS) Advisory Board will be held on November 14 and 15, at 9:15 a.m., in the North Oval Room of the Rotunda, at the University of Virginia, Charlottesville, Va.

The purpose of the HABS Advisory Board is to render advice on matters related to the task of documenting historic architectural monuments in the United States.

The present membership of the HABS Advisory Board is as follows:

Mr. John Drews Henderson, AIA, San Diego, California, Chairman.
Mr. George McMath, AIA, Portland, Oregon, Vice Chairman.
Dr. John Douglas Forbes, Hon. AIA, Charlottesville, Virginia, Secretary.
Mr. D. O. Davies, New Castle, Pennsylvania.
Mrs. Victorine Du Pont Homsey, FAIA, Wilmington, Delaware.
Ms. Barbara Wriston, Head, Museum Education, Art Institute, Chicago, Illinois.
Mr. John J. Cullinane (Chmn. AIA Historic

Resources Committee) Washington, D.C. (ex officio).
The Librarian of Congress (or his delegate) Washington, D.C. (ex officio).

Among other things, the Advisory Board agenda will consist of reports from the Chief of the Historic American Buildings Survey, staff reports on HABS projects and exhibitions.

The meeting is open to the public, and any person may file with the Board a written statement concerning the matters being discussed; however, facilities and space for accommodating members of the public are limited.

Further information concerning these meetings may be obtained from the Historic American Buildings Survey Division, National Park Service, Washington, D.C. (202) 523-5474. Minutes of the meeting may be acquired through the Executive Secretary of the Board, Mrs. Lucy Pope Wheeler, HABS, after the succeeding meeting.

REX L. WILSON,
Acting Chief, Office of Archeology
and Historic Preservation.

Office of the Secretary

[Order No. 3011]

FEDERAL LAND POLICY AND MANAGEMENT ACT OF 1976 (FLPMA)—COST RECOVERY

Implementation

SEC. 1 Purpose. The purpose of this Order is to implement the cost recovery provisions of FLPMA, Sections 304 and 504(g), 43 U.S.C. 1734, 1764(g) (Supp. 1977), as to application for monitoring of rights-of-way over the public lands.

SEC. 2 Implementation. Section 304 of FLPMA, 43 U.S.C. 1734, is hereby implemented as to applications for rights-of-way over public lands which were pending on October 21, 1976, or which have since been filed. This implementation shall also apply to all applications under Section 28 of the Mineral Leasing Act, 30 U.S.C. 185 pending on or filed subsequent to November 16, 1973, and to holder monitoring activity for applications which have been granted since that date. The regulations at 43 CFR 2802.1-2 (1976) shall be applicable to such applications or holder monitoring activity until new regulations implementing Title V of FLPMA become final. It is my finding that "reasonable costs" under Sections 304 of FLPMA for processing applications for rights-of-way over public lands and for monitoring right-of-way holder activity, are the actual costs incurred by the United States in performing statutory responsibilities necessitated by such applications or rights-of-way. The term "reasonable costs" means the same as the term "administrative and other costs" as used in the regulations at 43 CFR 2802.1-2(a) (1) (1976), and includes costs incurred in preparation of environmental impact statements.

SEC. 7 Effective Date. This Order is effective immediately. Its provisions shall remain in effect until regulations are promulgated implementing Title V of FLPMA, or until it is amended, superseded, or revoked, whichever occurs first.

Dated: September 29, 1977.

CECIL D. ANDRUS,
Secretary of the Interior.

JULIAN R. HAYDEN

Statement of Changes in Financial Interests

In accordance with the requirements of section 710(b) (6) of the Defense Production Act of 1950, as amended, and Executive Order 10647 of November 28, 1955, the following changes have taken place in my financial interests during the past six months:

- (1) No change.
- (2) No change.
- (3) No change.
- (4) No change.

This statement is made as of September 30, 1977.

Dated: August 26, 1977.

JULIAN RIED HAYDEN.

IDENTIFICATION OF MANDATORY CLASS I FEDERAL AREAS WHERE VISIBILITY IS AN IMPORTANT VALUE

Invitation for Public Comment and of Public Meetings

BACKGROUND: Section 128 of the Clean Air Act Amendments of 1977, Pub. L. 95-95, enacted August 7, 1977, declares as a national goal the prevention of visibility impairment from manmade air pollution and the restoration of natural visibility in mandatory Class I Federal areas. To attain this goal, the Congress has required:

(1) The Secretary of the Interior, in consultation with other Federal land managers, to identify those mandatory Class I Federal areas where visibility is an important value, by February 7, 1978;

(2) The Administrator of the Environmental Protection Agency (EPA), after consultation with the Secretary, to promulgate, by August 7, 1978, a list of mandatory Class I Federal areas in which he determines visibility is an important value;

(3) The Administrator of EPA, to complete a study and to report to Congress, by February 7, 1979, the available methods for implementing the national goal, including methods for preventing remedying manmade air pollution and the resulting visibility impairment; and

(4) The Administrator of EPA to promulgate by August 7, 1979, regulations which (1) assure reasonable progress to-

ward meeting the national goal and (2) require that each major stationary pollution source in operation for not more than 15 years on August 7, 1977, use the best available retrofit technology to control air pollutant emissions which may reasonably cause or contribute to impairment of visibility.

PURPOSES: The purposes of this notice are to (1) inform the public of the process by which the Secretary of the Interior will identify those mandatory Class I Federal areas where visibility is an important value, (2) publicize the dates and places of the related public meetings, and (3) invite public comment.

The Secretary has assigned the lead responsibility for the identification of those mandatory Class I Federal areas where visibility is an important value to the Assistant Secretary for Fish and Wildlife and Parks. The National Park Service is leading a task force consisting of representatives from the USDA Forest Service, the U.S. Fish and Wildlife Service, and the Bureau of Land Management to carry out this directive.

Objective criteria (Appendix 1) have been applied to make a preliminary determination of which mandatory Class I Federal areas possess visibility as an important value. After public meetings, receipt of public comment, and further analysis, the criteria will be revised where appropriate and a final identification of the mandatory Class I Federal areas where visibility is an important value will be made. At the public meetings, a workbook displaying the criteria as applied for each mandatory Class I Federal area will be available for public inspection.

Appendix 2 lists mandatory Class I Federal areas and indicates the preliminary determination of whether or not visibility is an important value for each area.

COMMENT: Public comment is especially requested on (1) the importance of visibility in Class I areas, (2) the preliminary criteria used by the Secretary (Appendix 1), and (3) the application of this criteria to identify areas in which visibility is an important value. If there are comments concerning other aspects of the visibility section of the Clean Air Act, they should be addressed to the Environmental Protection Agency or to the individual states, as appropriate.

Only written comments received by November 25, 1977, will become part of the formal agency record. These comments may be delivered to the moderator at the public meetings or mailed to the National Park Service at the following address:

Director, National Park Service. Attention: 460, Department of the Interior, Interior Building, 18th & C Streets, NW., Washington, D.C. 20240.

PUBLIC MEETINGS: At each of the six public meetings oral presentations may be limited to 10 minutes or less. The moderator will establish time limits for individual speakers when the number of prospective speakers is large and the time allotted for the public meeting becomes a constraint. Participants should submit written comments in order to assure that their interests are reflected in the formal agency record. The locations, dates, and times of the public meetings are specified below:

November 9—3-9 p.m.—Bonneville Power Administration Auditorium, 1002 NE Holaday Street, Portland, Oregon.
November 10—3-9 p.m.—Sheraton Hotel, Fishermans Wharf, 2500 Mason Street, San Francisco, California.
November 11—3-9 p.m.—Lakewood Senior High, 9700 West Eighth Avenue, Lakewood, Colorado.
November 14—3-9 p.m.—5th Floor, Federal Building, Fort Snelling, Minneapolis, Minnesota.
November 15—3-9 p.m.—4th Floor, National Park Service, Southeast Regional Office, 1895 Phoenix Boulevard, Atlanta (College Park), Georgia.
November 16—11:30 a.m.-6 p.m.—Interior Auditorium (use C Street entrance), Interior Building, 18th & C Street, NW., Washington, D.C.

GENERAL INFORMATION: Requests for general information on this notice should be addressed to John F. Byrne, National Park Service, Department of the Interior, Interior Building, 18th & C Street, NW., Washington, D.C. 20240, Phone 202-343-2163.

Dated: October 6, 1977.

ROBERT L. HERBST,
Assistant Secretary
of the Interior.

APPENDIX 1—CRITERIA USED TO DETERMINE IF VISIBILITY IS AN IMPORTANT VALUE

An analysis of the legislative history of the Visibility Protection Provision shows that Congress was primarily concerned about preserving "grand vistas" and "breathtaking panoramas" for the enjoyment of the public visiting Federal mandatory Class I areas possessed of such values. It is clear that the areas include those that are presently pristine and those that would have such values but for present air pollution impairment.

In order to identify an area where visibility is an important value, the following objective criteria were applied to each Federal mandatory Class I area:

1. Does the legislation for the area indicate that scenic value was an important consideration for establishing the area? or, Is the area possessed of scenic values that are important to public enjoyment?
2. Are scenic values of the area primarily in the form of panoramas, background, intermediate or foreground views?
3. Do natural sources of visibility impairment seriously affect the ability of the public to appreciate visibility as an important value?

4. For those areas in which natural sources of visibility impairment seriously affect public appreciation of scenic values, is the magnitude of scenic value sufficient to warrant protection from man-caused sources?

APPENDIX 2

FEDERAL CLASS I AREAS DESIGNATED UNDER PROVISION OF CLEAN AIR ACT SECTION 162(a)

(A star(*) preceding the area name indicates the preliminary determination that the area is not one where visibility is an important value).

PROPOSED WILDERNESS CLASSIFICATION FOR CEDAR BREAKS NATIONAL MONUMENT UTAH

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act, the Department of the Interior has prepared a final environmental statement for proposed wilderness designation for Cedar Breaks National Monument, Utah.

The environmental statement considers the social, economic, and ecological effects of the proposal to designate 4,830 acres, or 78.5 percent, of the monument as wilderness.

Copies of the final environmental statement are available from or for inspection at the following locations:

Rocky Mountain Regional Office, National Park Service, 655 Parfet Street, Lakewood, Colorado 80225.
Superintendent, Cedar Breaks National Monument, Post Office Box 749, Cedar City, Utah 84720.
Superintendent, Zion National Park, Springdale, Utah 84767.
Utah State Office, National Park Service, 125 South State Street, Room 2208, Salt Lake City, Utah 84138.

Dated: September 16, 1977.

HEATHER L. ROSS,
Deputy Assistant Secretary
of the Interior.

DEPARTMENT OF LABOR

Employment and Training Administration
EMPLOYMENT TRANSFER AND BUSINESS COMPETITION DETERMINATIONS UNDER THE RURAL DEVELOPMENT ACT

Applications

The organizations listed in the attachment have applied to the Secretary of Agriculture for financial assistance in the form of grants, loans, or loan guarantees in order to establish or improve facilities at the locations listed for the purposes given in the attached list. The financial assistance would be authorized by the Consolidated Farm and Rural Development Act, as amended, 7 USC 1924 (b), 1932, or 1942(b).

The Act requires the Secretary of Labor to determine whether such Federal assistance is calculated to or is likely to result in the transfer from one area to another of any employment or business activity provided by operations of the applicant. It is permissible to assist the establishment of a new branch, affiliate or subsidiary, only if this will not result in increased unemployment in the place of present operations and there is no reason to believe the new facility is being established with the intention of closing down an operating facility.

The Act also prohibits such assistance if the Secretary of Labor determines that it is calculated to or is likely to result in an increase in the production of goods, materials, or commodities, or the avail-

ability of services or facilities in the area, when there is not sufficient demand for such goods, materials, commodities, services, or facilities to employ the efficient capacity of existing competitive commercial or industrial enterprises, unless such financial or other assistance will not have an adverse effect upon existing competitive enterprises in the area.

The Secretary of Labor's review and certification procedures are set forth at 29 CFR Part 75. In determining whether the applications should be approved or denied, the Secretary will take into consideration the following factors:

1. The overall employment and unemployment situation in the local area in which the proposed facility will be located.
2. Employment trends in the same industry in the local area.
3. The potential effect of the new facility upon the local labor market, with particular emphasis upon its potential impact upon competitive enterprises in the same area.

4. The competitive effect upon other facilities in the same industry located in other areas (where such competition is a factor).

5. In the case of applications involving the establishment of branch plants or facilities, the potential effect of such new facilities on other existing plants or facilities operated by the applicant.

All persons wishing to bring to the attention of the Secretary of Labor any information pertinent to the determinations which must be made regarding these applications are invited to submit such information in writing within two weeks of publication of this notice to: Deputy Assistant Secretary for Employment and Training, 601 D St. NW., Washington, D.C. 20213.

Signed at Washington, D.C. this 11th day of October, 1977.

ERNEST G. GREEN,
Assistant Secretary for
Employment and Training.

Applications received during the week ending Oct. 7, 1977

Name of applicant	Location of enterprise	Principal product or activity
Crushed Aggregates, Ltd.	New Haven, Conn.	Manufacturing of railroad ties—concrete.
Green Mountain Furniture Inc.	North Bennington, Vt.	Manufacturing of wood furniture and school furniture.
Cliffstar Corp.	Dunkirk, N.Y.	Bottling and canning of fruit and vegetables, juices, ketchup, jams, and jellies.
Power Hydraulics, Inc.	Marianna, Fla.	Manufacturing of hydraulic cylinders.
Swick-Guth, Inc.	City of Marianna, Fla.	Rebuild cast iron cylinder heads.
Gen Mac Industries, Inc.	Plymouth, Wis.	Manufacturing of protective film and paper.
The Eastman Helicopter Corp.	McQuinn, Mich.	Aircraft manufacturer—helicopters.
Michael Kral Industries Inc.	Painesville, Ohio.	Processing of ingots and preforms into semi-finished and finished solid hollow shapes.
Baton Lumber Co. Inc.	Natalbany, La.	Manufacturing of plywood.
Fairfield Communities, Inc.	Fairfield Bay, Ark.	Lodge—villa hotel and associated conference center.
The Farmers Co.	Schuyler, Neb.	Manufacturing of 50 percent protein meat and bone meal feed supplement.
Garlyn Enterprises	Sweet Springs, Mo.	Nursing home.
Larry D. Neff and Robert Foster	Neosho, Mo.	Motel—restaurant.

INDIAN AND NATIVE AMERICAN ECONOMIC STIMULUS PROGRAM

Plans for Allocating Funds—Supplemental Information

AGENCY: Employment and Training Administration, Labor.

ACTION: Notice.

SUMMARY: This notice provides for an extension of the proposal receipt deadline under the Fiscal Year 1978 Indian and Native American Economic Stimulus Program. This program was announced earlier in the FEDERAL REGISTER.

DATES: Proposals must be received, in the manner specified in the earlier FEDERAL REGISTER announcement, by 4:45 p.m. on October 31, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. Alexander S. MacNabb, Director, Division of Indian and Native American Programs, Room 6402, 601 D Street, NW., Washington, D.C. 20213.

SUPPLEMENTARY INFORMATION: Basic plans for the Indian and Native American Economic Stimulus Program were announced on Tuesday, September 13, 1977, at 42 FR 26629. The proposal receipt deadline announced at that time of 4:45 p.m. on October 17, 1977, is now changed to October 31, 1977.

Signed in Washington, D.C. this 28th day of September 1977.

LAMOND GODWIN,
Administrator,
Office of National Programs.

MIGRANT AND SEASONAL FARMWORKER PROGRAMS

Funding Requests Received

AGENCY: Employment and Training Administration, Labor.

ACTION: Notice.

SUMMARY: This notice announces the funding requests received by the Employment and Training Administration

requesting title III section 303 funds under the Comprehensive Employment and Training Act of 1973 (CETA), as amended.

SUPPLEMENTARY INFORMATION: Notice is hereby given that the following applicants have submitted funding requests pursuant to 29 CFR 97.214 to the Department of Labor to request funds under the Migrant and Other Seasonally Employed Farmworkers Programs. An eligible applicant which has submitted a pre-application by August 1, 1977, pursuant to 29 CFR 97.211(b) and a funding request by September 1, 1977, pursuant to 29 CFR 97.214 and is not listed below should notify the Department of Labor at the following address:

U.S. Department of Labor, Employment and Training Administration, Patrick Henry Building, Room 7122, 601 D Street, NW., Washington, D.C. 20213. Attn: Director, Office of Farmworker Programs.

NOTICES

IV. ORDER

rail and toeboard. Section 1910.23(e) states that a standard guardrail shall consist of top rail, intermediate rail, and post and shall have a vertical height of 42 inches nominal from upper surface of top rail to floor, platform, runway, or ramp level. The purpose of the standard is to protect employees from falling into these particularly hazardous areas.

The facility affected by this application is as follows:

Frontier Hot-Dip Galvanizing, Inc., 1740 Elmwood Avenue, Buffalo, N.Y. 14207

Notice of the application, and of the granting of the interim order, was published in the FEDERAL REGISTER on February 18, 1977 (42 FR 10077). The notice invited interested persons, including affected employers and employees, to submit written data, views, and arguments regarding the grant or denial of the variance request. In addition, affected employers and employees were notified of their rights to request a hearing on the application for a variance. No written comments or requests for a hearing have been received.

II. FACTS

The applicant operates a galvanizing tank which has a 30 inch side height and 21½ inch ledge width. Modification of the ledge width has increased it to 24 inches.

The applicant asserts that the erection of a 42 inch guardrail around its galvanizing tank would seriously interfere with necessary work practices such as skimming the zinc and may create additional hazards of splashing hot zinc.

Instead of the standard guardrail and toeboard, the applicant has increased the ledge width by installing a protective angle bringing the dimensions to a 24 inch width and a 30 inch height.

III. DECISION

Section 1910.22(c) requires that guardrails be provided to protect personnel from the hazards of open pits, tanks, etc. Section 1910.23(c)(3) requires that regardless of height, open-sided floors, walkways, platforms or runways above or adjacent to dangerous equipment, pickling or galvanizing tanks, degreasing units or similar hazards shall be guarded with a standard railing and toeboard.

In the work area described, the 24 inch ledge width prevents an employee from accidentally stepping into the tank. The 30 inch side height is sufficient to allow an employee to right himself if he should fall towards the tank. The combination of side height and ledge width, combined with the applicant (1) assuring that no employee walks, steps or sits on the ledge around the tank and (2) training the employees regarding the proper performance of the operation and the hazards associated with walking, stepping, and sitting on the ledge around the tank, provides protection as safe as that which would be provided by use of a standard guardrail and toeboard.

Texas

Community Action Council of South Texas, 420 East Main Street, Drawer S, Rio Grande City, Tex. 78582.

Economic Opportunities Development Corporation of San Antonio and Bexar Counties, POB 9326, San Antonio, Tex. 78204.
Motivation, Education, and Training, POB 1749, Cleveland, Tex. 77327.

Signed in Washington, D.C., this 30th day of September 1977.

[V-77-3]

FRONTIER HOT-DIP GALVANIZING, INC.
Grant of Variance

AGENCY: Occupational Safety and Health Administration, Department of Labor.

ACTION: Grant of variance.

SUMMARY: This notice announces the grant of a variance to Frontier Hot-Dip Galvanizing, Inc., from the standards prescribed in 29 CFR 1910.22(c) and 1910.23(c)(3) concerning guardrails.

DATE: The effective date of the variance is October 14, 1977.

FOR FURTHER INFORMATION CONTACT:

James J. Concannon, Director, Office of Variance Determination, Occupational Safety and Health Administration, U.S. Department of Labor, 3rd and Constitution Avenue NW., Room N-3668, Washington, D.C. 20210, telephone: 202-523-7121.

or the following Regional and Area Offices:

U.S. Department of Labor, Occupational Safety and Health Administration, 1515 Broadway (1 Astor Plaza)—Room 3445, New York, N.Y. 10036.

U.S. Department of Labor, Occupational Safety and Health Administration, Leo W. O'Brien Federal Building, Clinton Avenue and North Pearl Street, Room 132, Albany, N.Y. 12207.

I. BACKGROUND

Frontier Hot-Dip Galvanizing, Inc., 1740 Elmwood Avenue, Buffalo, N.Y. 14207 made application pursuant to section 6(d) of the Occupational Safety and Health Act of 1970 (84 Stat. 1596; 29 U.S.C. 655) and 29 CFR 1905.11 for a variance from the safety and health standards prescribed in 29 CFR 1910.22(c) and 1910.23(c)(3). Section 1910.22(c) requires that covers and/or guardrails shall be provided to protect personnel from the hazards of open pits, tanks, vats, ditches, etc. Section 1910.23(c)(3) requires that all galvanizing tanks be guarded with a standard guard-

Pursuant to authority in section 6(d) of the Occupational Safety and Health Act of 1970, and in Secretary of Labor's Order No. 8-76 (41 FR 25059), it is ordered that Frontier Hot-Dip Galvanizing, Inc., be, and it is hereby authorized to continue its operation while using its galvanizing tank having ledges (including the protective angle) 24 inches wide and sides 30 inches high, in lieu of the standard guardrail and toeboard required by 29 CFR 1910.22(c) and 1910.23(c)(3) provided that:

(1) No employee shall walk, step, or sit on the ledge around the tank.
(2) Training and information regarding the hazards associated with and the prohibition against walking, stepping or sitting on the ledge around the tank shall be provided for current employees within one week of the effective date of this variance, for new employees at the time of their initial assignment, and for all employees on a quarterly basis after their initial training.

As soon as possible, Frontier Hot-Dip Galvanizing, Inc., shall give notice to affected employees of the terms of this order by the same means required to be used to inform them of the application for variance.

This order shall become effective on October 14, 1977, and shall remain in effect until modified or revoked in accordance with section 6(d) of the Occupational Safety and Health Act of 1970.

Signed at Washington, D.C., this 7th day of October 1977.

EULA BINGHAM,

Assistant Secretary of Labor.

U.S. Department of Labor—OSHA, 32nd Floor—Room 3263, 230 South Dearborn Street, Chicago, Ill. 60604.

U.S. Department of Labor—OSHA, 911 Walnut Street, Room 3000, Kansas City, Mo. 64106.

NOTICE OF APPLICATION

Notice is hereby given that P D M Hydrostorage, Inc. has made application pursuant to section 6(d) of the Occupational Safety and Health Act of 1970 (84 Stat. 1596; 29 U.S.C. 655) and 29 CFR 1905.11 for a variance, and an interim order pending a decision on the application for a variance, from the standards prescribed in 29 CFR 1926.451(a) (4), (5) and (10) Toeboards, Plank Spans and Guardrail Support Spans.

The address of the place of employment that will be affected by the application is as follows:

P D M Hydrostorage, Inc., Conference Drive, Franklin, Tenn. 37064.

The applicant certifies that employees who would be affected by the variance have been notified of the application by giving a copy of it to their authorized employee representative, and by posting a copy at all places where notices to employees are normally posted. Employees have also been informed of their right to petition the Assistant Secretary for a hearing.

In accordance with the regulation published in the FEDERAL REGISTER on June 16, 1976 (40 FR 25448-50) concerning Federal and State Variances from Identical Standards, the variance application was submitted (for review) to the States of Iowa, Kentucky, Minnesota, North Carolina, South Carolina, and Virginia. The States concur with the granting of an interim order.

Regarding the merits of the application, the applicant contends that it is providing a place of employment as safe as that required by § 1926.451(a) (4), (5) and (10). Section 1926.451(a) (4) and (5) reads as follows:

(4) Guardrails and toeboards shall be installed on all open sides and ends of platforms more than 10 feet above the ground or floor, except needle beams scaffolding and floats (see paragraphs (p) and (w) of this section). Scaffolds four to 10 feet in height having a minimum horizontal dimension in either direction of less than 45 inches, shall have standard guardrails installed on all open sides and ends of the platform.

(5) Guardrails shall be 2 x 4 inches, or the equivalent, approximately 42 inches high, with a midrail, when required. Supports shall be at intervals not to exceed 8 feet. Toeboards shall be a minimum of 4 inches in height.

The applicant states that its business is of a specialized nature involving steel plate erection.

The applicant contends that the scaffolds used in building tanks are mobile and are frequently raised as are the tank sections, in order to position the next set of steel plates. The scaffolds used do not have toeboards because tools are placed in well designed "loose tool" containers provided for that purpose. In addition, the applicant proposes to rope off the area directly below and in close proximity to the scaffold and to permit only those employees, and tools currently being used by them, on the scaffolds. The applicant states that because the scaffolds must be moved frequently, it would be more hazardous to constantly remove and replace toeboards.

The applicant also proposes to place guardrail supports at 10'6" intervals in lieu of the 8' requirement of § 1926.451(a) (5). This would allow consistent bracket spacing since the applicant further desires to use 10'6" spans for its scaffold planking although § 1926.451(a) (10) allows a maximum span of 10'. The planks proposed to be used are rough full-dimensioned 2" x 12" x 12' planks of Douglas Fir or Southern Yellow Pine of Select Structural Grade. The Douglas Fir has a fiber stress of 1,900 and a modulus of elasticity of 1,900,000, while the Southern Yellow Pine has a 2,300 fiber stress and a modulus of elasticity of 2,000,000. The applicant contends that the scaffolds he is using are safe, even though the span is one-half foot longer than the maximum length allowed, because of the increased strength of the wood.

GRANT OF INTERIM ORDER

It appears from the application for a variance and interim order as required by section 6(d) of the Act, that the proposed scaffolding described in the application with certain variations will provide to the affected employees a place of employment as safe as that which would be provided if the applicant complied with 29 CFR 1926.451(a) (4), (5), and (10). It further appears that an interim order is necessary to prevent undue hardship to the applicant and its employees pending a decision on the variance. Therefore it is ordered, pursuant to the authority in section 6(d) of

the Occupational Safety and Health Act of 1970, in 29 CFR 1905.11(c) and in Secretary of Labor's Order No. 8-76 (41 FR 25059), that P D M Hydrostorage, Inc. be, and it is hereby, authorized to use scaffolds in accordance with the following conditions in lieu of complying with the toeboard and span requirements in § 1926.451(a) (4), (5), and (10):

(a) The applicant's loose tools and equipment shall be kept in well-designed tool containers. This does not include fitup bars, key plates, key channels, or long handled maul which may be placed on the scaffold plank during the time they are required for work. The loose tool containers shall be secured to prevent their upset or dislodgement from the scaffold area.

(b) Areas beneath and far enough away from the base of the scaffold to contain anything that falls from above shall be roped off and posted with clearly visible signs stating: "Danger Overhead Work."

(c) The space between the innermost edge of the scaffold platform and the curved plate structure of the tank shell shall not exceed 12" without protective measures. A taut wire rope supported on scaffold brackets at plank level may be used to divide any space exceeding 12" in lieu of using a guardrail or tie-off system.

(d) Not more than 3 employees shall be working on a 10'6" span of scaffold planking at any time.

(e) The maximum distance between brackets to which scaffolding and guardrail supports are attached shall be 10'6". These brackets shall be welded to the steel plates.

(f) Scaffold planks of rough full-dimensioned 2"x12"x12' Douglas Fir or Southern Yellow Pine of Select Structural Grade or equivalent planking shall be used. The Douglas Fir shall have at least a 1,900 fiber stress and 1,900,000 modulus of elasticity, while the Yellow Pine shall have at least 2,300 fiber stress and 2,000,000 modulus of elasticity. Three planks with full thickness 2"x10"x12' dimensions may be used in lieu of two 2"x12"x12' planks provided that they are clamped or bonded together at the midpoint of the span, in order to spread the weight of the employees.

(g) All planking shall be secured from movement or overlapped in accordance with § 1926.451(a) (12).

(h) Guardrails shall be constructed of taut wire rope, and shall be supported by angle irons attached to brackets welded to the steel plates. These guardrails shall be at least of equivalent strength, stability and height as those required for the 8 foot span of 2"x4" wood rails by 29 CFR 1926.451(a) (5). Guardrail supports shall be located at no greater than 10'6" intervals.

P D M Hydrostorage, Inc. shall give notice of this interim order to employees affected thereby by the same means required to be used to inform them of the application for a variance.

This interim order shall remain in effect until a decision is rendered on the application for a variance.

Signed at Washington, D.C., this 7th day of October 1977.

EULA BINGHAM,
Assistant Secretary of Labor.

[4510-28]

Office of the Secretary
[TA-W-2149]

ABC INDUSTRIES, PATERSON, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2149: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on June 20, 1977 in response to a worker petition received on June 17, 1977 which was filed by the Machine Printers and Engravers Association on behalf of workers and former workers engraving copper rollers and rotary screens at ABC Industries, Paterson, New Jersey.

The notice of investigation was published in the FEDERAL REGISTER on June 28, 1977 (42 FR 32853). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of ABC Industries, the Machine Printers and Engravers Association, the U.S. International Trade Commission, the U.S. Department of Commerce, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important, but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (3) has not been met.

Evidence developed in the Department's investigation reveals there are no known imports of copper rollers or engraved rotary screens.

Engraved copper rollers would be imported under TSUSA number 668.3400, Print Blocks and Print Rollers. Unengraved rollers and engraved rotary screens would be imported under 668-5020, Parts of Textile Printing Machinery. Industry sources report there are no known imports of either engraved or unengraved rollers or engraved rotary screens. Shipping costs of imported rollers and engraved screens are prohibitive due to the special packaging required to protect the surface of the roller or screen, and quickly changing fashion trends make the time delays inherent in importation of engraved rollers and screens unprofitable.

Industry sources attribute the decline in copper roller and rotary screen printing to competition from other printing processes. Since 1970, three printing processes have been introduced which use computers to print designs. The new processes decrease the time required to produce a print. The time required to engrave rollers and screens makes the roller and screen printing processes less competitive in the volatile fashion industry than the faster, computerized processes.

ABC Industries, Incorporated is a multiplant corporation where copper rollers and rotary screens are engraved for use in printing fabric, plastic, vinyl, and cardboard. Plants are located in Paterson, New Jersey; Charlotte, North Carolina; and Rome, Georgia.

The Paterson, New Jersey plant of ABC Industries began operations in 1939. The plant is a two-story building of approximately 20,000 square feet of work space and storage area. The facilities include metal lathes, photo engraving machinery, and copper and chrome plating tanks. The Paterson, New Jersey plant was closed on June 30, 1977 for an indefinite period.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that imports of copper rollers and rotary screens like or directly competitive with copper rollers and rotary screens engraved at ABC Industries, Paterson, New Jersey have not increased as required in Section 222 of the Trade Act of 1974. The petition is, therefore, denied.

Signed at Washington, D.C. this 26th day of September 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[TA-W-1929; TA-W-1930; TA-W-1931]

AMERICAN MOTORS CORP., SOUTHFIELD, MICHIGAN

Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1929, 1930, and 1931 investigations regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation with regard to TA-W-1929 and 1930 was initiated on March 31, 1977 in response to worker petitions received on that date which were filed by the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America (UAW) on behalf of workers and former workers engaged in the production of AMC Pacer automobiles and components for such cars and subcompact, compact and intermediate size cars at two (2) plants of the American Motors Corporation (AMC), Southfield, Michigan. The Notice of Investigation was published in the FEDERAL REGISTER (42 FR 19937) on April 15, 1977.

The investigation with regard to TA-W-1931 was initiated on March 31, 1977 in response to a worker petition received on that date which was filed by the International Union, United Automobile, Aerospace, and Agricultural Implement Workers of America (UAW) on behalf of workers and former workers engaged in employment related to production support for subcompact, compact and intermediate size cars at AMTEK, American Motors Corporation's technical center, Detroit, Michigan. The Notice of Investigation was published in the FEDERAL REGISTER on April 15, 1977 (42 FR 19937).

On October 28, 1976 workers engaged in employment related to final assembly operations at the Kenosha, Wisconsin plant of American Motors Corporation were certified as eligible to apply for trade adjustment assistance (TA-W-999). The Notice of Determination was published in the FEDERAL REGISTER on November 5, 1976 (41 FR 48801). On November 17, 1976, workers engaged in employment related to the production of body assemblies at the Kenosha, Wisconsin plant of American Motors Corporation were certified as eligible to apply for trade adjustment assistance (TA-W-999). The Notice of Determination was published in the FEDERAL REGISTER on November 30, 1976 (41 FR 52558).

The information upon which the determinations were made was obtained principally from officials of American Motors Corporation, the U.S. Department of Commerce, the Motor Vehicle Manufacturers Association, Automotive News, Wards Automotive Reports, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eli-

gibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

- (1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;
- (2) That sales or production, or both, of such firm or subdivision have decreased absolutely;
- (3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and
- (4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

SIGNIFICANT TOTAL OR PARTIAL SEPARATION

KENOSHA, WISCONSIN PLANT

Average employment of hourly workers engaged in the production of engines declined 5.3 percent in MY 1975 from MY 1974, decreased 16.8 percent in MY 1976 from 1975, and declined 23.7 percent in the first two quarters of MY 1977 compared to the first two quarters of MY 1976.

Average employment of hourly workers engaged in the production of axles and gears declined 11.7 percent in MY 1975 compared to MY 1974, decreased 14.0 percent in MY 1976 from MY 1975, and declined 39.2 percent in the first two quarters of MY 1977 compared to the same period in MY 1976.

Average employment of hourly workers engaged in the production of stampings and forgings declined 0.9 percent in MY 1975 from MY 1974, declined 15.3 percent in MY 1976 from MY 1975, and decreased 23.2 percent in the first two quarters of MY 1977 compared to the first two quarters of MY 1976.

Average employment of hourly workers engaged in the production of body assemblies declined 3.5 percent in MY 1975 from MY 1974, declined 29.9 percent in MY 1976 from MY 1975, and decreased 29.3 percent in the first two quarters of MY 1977 compared to the first two quarters of MY 1976.

Average employment of hourly workers engaged in final assembly operations declined 1.9 percent in MY 1975 from MY 1974, declined 21.0 percent in MY 1976 from MY 1975, and decreased 38.1 percent in the first two quarters of MY 1977 compared to the first two quarters of MY 1976.

Average employment of hourly workers engaged in production support functions declined 9.2 percent in MY 1976 from MY 1975 and declined 21.5 percent in the first two quarters of MY 1977 compared to the first two quarters of MY 1976.

Average salaried employment for the Kenosha plant declined 8.4 percent in MY 1975 from MY 1974, declined 11.4

percent in MY 1976 from MY 1975, and decreased 11.2 percent in the first two quarters of MY 1977 compared to the first two quarters of MY 1976.

SOUTH CHARLESTON STAMPING PLANT

All workers at the South Charleston Stamping plant are engaged in employment related to the production of automotive stampings.

Average employment of hourly workers increased 43.4 percent in MY 1976 compared to MY 1975 and increased 19.1 percent in the first two quarters of MY 1977 from the first two quarters of MY 1976.

Average employment of salaried workers increased 22.0 percent in MY 1976 from MY 1975 and increased 15.0 percent in the first two quarters of MY 1977 compared to the first two quarters of MY 1976.

AMTEK

Workers at AMTEK are engaged in a wide variety of production support activities.

Average employment of hourly workers declined 16.3 percent in MY 1975 from MY 1974, increased 3.4 percent in MY 1976 compared to MY 1975, and decreased 3.3 percent in the first two quarters of MY 1977 compared to the first two quarters of MY 1976.

Average employment of salaried workers declined 3.1 percent in MY 1975 from MY 1974, decreased 14.2 percent in MY 1976 from 1975, and declined 40.7 percent in the first two quarters of MY 1977 compared to the first two quarters of MY 1976.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

KENOSHA, WIS., PLANT

Annual total production of engines declined 10.7 percent in MY 1975 from MY 1974, declined 16.0 percent in MY 1976 from MY 1975, and declined 23.3 percent in the first two quarters of MY 1977 compared to the first two quarters of MY 1976.

Annual total production of axles and gears declined 11.1 percent in MY 1975 from MY 1974, decreased 6.8 percent in MY 1976 from MY 1975, and declined 31.7 percent in the first two quarters of MY 1977 compared to the first two quarters of MY 1976.

Annual total production of stampings and forgings declined 5.1 percent in MY 1975 from MY 1974, decreased 20.9 percent in MY 1976 from MY 1975, and declined 34.3 percent in the first two quarters of MY 1977 compared to the first two quarters of MY 1976.

Annual total production of body assemblies declined 9.5 percent from MY 1974 to MY 1975, decreased 24.2 percent in MY 1976 from MY 1975 and declined 23.5 percent in the first two quarters of MY 1977 compared to the first two quarters of MY 1976.

Annual total production of finished automobiles, all classes combined, increased 4.1 percent in MY 1975 from MY 1974, declined 23.3 percent in MY 1976 from MY 1975, and declined 38.9

percent in the first two quarters of MY 1977 compared to the first two quarters of MY 1976.

SOUTH CHARLESTON STAMPING PLANT

Total production of stampings and forgings increased 63.8 percent in the last three quarters of MY 1976 compared to the last three quarters of MY 1975 and increased 49.0 percent in the first two quarters of MY 1977 compared to the first two quarters of MY 1976.

AMTEK

AMTEK is not involved directly with the production process but is broadly involved in production support activities. Employment at AMTEK is dependent upon the overall performance of American Motors Corporation.

INCREASED IMPORTS

SUBCOMPACT CAR MARKET

Imports of subcompact cars increased from 1393.4 thousand units representing 108.6 percent of U.S. production in MY 1974 to 1437.9 thousand units representing 180.0 percent of domestic production in MY 1975. In MY 1976, imports declined to 1325.4 thousand units representing 142.9 percent of domestic production. In the first quarter of MY 1977, imports of subcompact cars were 350.5 thousand units representing 260.8 percent of U.S. production, up from the first quarter of MY 1976, when imports were 301.3 thousand units representing 101.4 percent of domestic subcompact car production.

American Motors Corporation imports a subcompact car from Canada into the United States which is indistinguishable from domestically produced AMC subcompacts. In MY 1975, AMC imports of subcompact cars from Canada declined 71.0 percent from MY 1974, increased 36.4 percent in MY 1976 from MY 1975, and increased 54.9 percent in the first two quarters of MY 1977 compared to the first two quarters of MY 1976. In the first two quarters of MY 1977, AMC imports of subcompact cars represented 41.2 percent of AMC's domestic production of subcompact cars, up from 16.4 percent in the first two quarters of MY 1976.

COMPACT CAR MARKET

Imports of compact cars declined from 325.5 thousand units representing 17.0 percent of domestic production in MY 1974 to 181.4 thousand units representing 9.6 percent of domestic production of compact cars in MY 1975. In MY 1976, imports of compact cars declined to 108.7 thousand units representing 4.2 percent of U.S. production. Compact imports declined to 19.5 thousand units representing 3.0 percent of domestic production in the first quarter of MY 1977, down from 23.3 thousand units representing 4.1 percent of domestic production in the first quarter of MY 1976.

American Motors Corporation imports a Hornet compact car from Canada into the United States which is indistinguishable from domestically produced Hornet

compact cars. Imports of AMC compact cars declined 11.8 percent from MY 1974 to MY 1975, increased 8.3 percent in MY 1976 from 1975, and declined 53.8 percent in the first two quarters of MY 1977 compared to the first two quarters of MY 1976.

INTERMEDIATE SIZE CAR MARKET

Imports of intermediate size cars were 346.1 thousand units in MY 1974 representing 16.5 percent of domestic production and declined to 304.6 thousand units in MY 1975, which represented 15.6 percent of domestic production in that year. In MY 1976, imports of intermediate size cars increased to 346.3 thousand units, representing 13.7 percent of domestic production, i.e. a declining share of the domestic market. In the first quarter of MY 1977, imported intermediate size cars were 83.8 thousand units, equal to 12.0 percent of domestic production, down from 90.3 thousand units representing 17.1 percent of U.S. production in the first quarter of MY 1976.

American Motors does not import an intermediate size car.

CONTRIBUTED IMPORTANTLY

The Department's previous investigations under TA-W-923, 997-999, revealed that (a) AMC's domestic production of its subcompact, compact and intermediate size cars at its Kenosha plant was adversely affected by increased aggregate imports or by increased imports of AMC cars from Canada in each of those car classes; (b) AMC's domestic production of subcompact, compact and intermediate body assemblies at its Milwaukee and Kenosha plants were adversely affected by increased aggregate imports of each of those car classes or by increased imports of AMC cars in the classes from Canada; (c) AMC's domestic production of stampings and forgings at the Milwaukee plant was adversely affected by increased imports of intermediate size cars but that AMC's domestic production of components at the Kenosha plant were not adversely affected by increased imports of subcompact, compact or intermediate size cars. Eligibility to apply for adjustment assistance for workers in the adversely affected subdivision cited above is currently in effect.

The Department's current investigation involves the AMC Pacer automobile and components for the AMC Pacer produced at the Kenosha, Wisconsin and South Charleston, West Virginia plants.

Under the previous determinations, employees at AMC engaged in employment related to the production of AMC Hornet compact cars were certified eligible to apply for adjustment assistance. (Hornet was the only AMC car in the compact class). The Department found that during the relevant time period AMC was increasing its imports of AMC Hornets from Canada. These imports were displacing AMC production of Hornets at its domestic Kenosha plant. The imported AMC Hornets were exactly identical to and displaced AMC Hornets produced in the U.S.

At the time of that decision, AMC's Pacer automobile was classified by the industry as a luxury small car. The luxury small category was abolished beginning with MY 1977 and the Pacer is now classified by the Department as a compact car. The reclassification was made on the basis of an amalgam of automobile characteristics, including wheel base, length, width, curb weight, base price, interior room, and EPA mileage estimates. The Department's classification of Pacer as a compact car is consistent with the classification systems adopted by Wards Automotive Reports, Automotive News, and the U.S. Environmental Protection Agency.

The AMC Pacer, beginning with MY 1977, has been classified as a compact car. Since its introduction in MY 1975, the Pacer has been produced solely in the U.S. Since the AMC Pacer is not produced outside the United States, the appropriate competitive market for the Pacer includes all imported compact cars. Both aggregate imports of compact cars and imports of compact cars from Canada declined absolutely and relatively from MY 1974 to MY 1975 and from MY 1975 to MY 1976.

The degree of competition among cars has been treated as a continuum running from perfect substitutability at one end (a Canadian built Hornet and a U.S. Hornet) to extreme low substitutability at the other end (a subcompact Chevette and a luxury Lincoln Continental) with a greater degree of competition being found within each class of car, e.g. compact, than as between cars in different classes. From MY 1975 to MY 1976, the sales of compact cars as a percentage of all cars sold declined from 25.8 percent to 21.3 percent as consumer tastes shifted purchases to other classes of cars. While compact cars as a class lost some of its market share, domestically produced compact cars increased their share of the domestic market from 91.4 percent in MY 1975 to 95.8 percent in MY 1976. However, during the same time period, AMC's share of the compact car market fell from 11.3 percent to 6.8 percent. Therefore, it is concluded that while imports were falling and other domestic manufacturers were increasing their share of a shrinking market, AMC was losing its share of the compact market to other domestic manufacturers.

Even if the Luxury Small category of automobile were still to exist, the Pacer would not be certified under that classification. Imports of luxury small cars both on an aggregate basis as well as from Canada declined absolutely and relatively from MY 1975 to MY 1976. Imports for the first quarter of MY 1977 while increasing somewhat from the first quarter of MY 1976 were below actual imports for MY 1976 based on a quarterly average. In addition the ratio of imports to domestic production ratio of imports to domestic production for the first quarter of MY 1977 was below the import to production ratio for MY 1976.

Under TA-W-999, employees engaged in employment related to the production

of components for compact and subcompact cars at the Kenosha plant were denied certification. The certification of AMC's subcompact cars and compact cars was based on increased imports of AMC's subcompact Gremlins and compact Hornets. Since AMC sources 100% of its components for these cars in the U.S., increased imports from Canada could not have contributed to the production declines in the U.S.

The South Charleston, West Virginia plant only produces components for AMC's subcompact and compact cars. Total production at the South Charleston Stamping plant increased, compared to the same quarter of the previous year, in the five consecutive quarters from the second quarter of MY 1976 through the second quarter of MY 1977.

Average employment of hourly workers at the South Charleston Stamping plant increased 43 percent in MY 1976 from MY 1975 and increased 43 percent in the first half of MY 1977 compared to the first half of MY 1976. Average salaried employment increased 22 percent in the MY 1976 from MY 1975 and increased 15 percent in the first half of MY 1977 from the first half of MY 1976.

Employees engaged in employment related to the production of AMC intermediate car components at the Kenosha plant were denied certification under TA-W-999 because plant production of these components did not constitute a substantial proportion of total plant production. Since that determination, plant production of intermediate components as a percentage of total production has declined.

AMTEK

Employees at AMTEK, American Motors Corporation's technical center, are engaged in a wide variety of technical and production support operations for all AMC workers. It is determined that such operations related to the production of domestic AMC intermediate cars do not constitute a substantial proportion of total operations. Therefore, the impact of increased imports of intermediate cars on the operations of the AMTEK facility is negligible.

CONCLUSION

After careful review of the facts obtained in the investigation I conclude that increases of imports of subcompact, compact or intermediate cars did not contribute importantly to the total or partial separation of workers engaged in employment related to the production of engines, axles, gears, stampings, and forgings and the AMC Pacer automobiles at the Kenosha, Wisconsin plant of American Motors Corporation, workers engaged in employment related to the production of stampings and forgings at the South Charleston Stamping plant, or workers involved in technical and production support operations at AMTEK, Detroit, Michigan.

Signed at Washington, D.C. this 28th day of September 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration and Planning.

[4510-28]

[TA-W-1891]

BASS MANUFACTURING, INC., PLYMOUTH, PA.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1891: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on March 24, 1977 in response to a worker petition received on March 24, 1977 which was filed by the International Ladies' Garment Workers' union on behalf of workers and former workers producing children's dresses at the Plymouth, Pa. plant of Bass Manufacturing, Incorporated.

The notice of investigation was published in the FEDERAL REGISTER on April 12, 1977 (42 FR 19175). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Bass Manufacturing, Incorporated, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (4) has not been met.

Evidence developed in the Department's investigation reveals that manufacturers for whom Bass Manufacturing Incorporated performs contract work either did not contract work with foreign

sources or have increased contract work with Bass and all other sources in 1976 compared to 1975. Sales by these manufacturers increased from 1975 to 1976. Furthermore, the value of contract work at the Plymouth, Pennsylvania plant of Bass Manufacturing, Inc. increased 45.5 percent in 1976 compared to 1975. Average quarterly value of contract work increased in every quarter from the fourth quarter of 1975 through the fourth quarter of 1976 when compared with the same quarter of the prior year.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that imports of articles like or directly competitive with children's dresses produced by Bass Manufacturing, Incorporated, Plymouth, Pennsylvania have not contributed importantly to the decline in sales or production, or both, and to the total or partial separations of workers at the firm as required for certification under Section 222 of the Trade Act of 1974.

Signed at Washington, D.C. this 4th day of October 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[4510-28]

[TA-W-1496]

BETHLEHEM STEEL CORP., BETHLEHEM, PA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1496: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on December 15, 1976, in response to a worker petition received on December 15, 1976, which was filed by the United Steelworkers of America on behalf of workers and former workers producing iron and steel products at the Bethlehem, Pa., plant of the Bethlehem Steel Corp. The Department's investigation was later limited, at the request of the petitioner, to carbon steel structural shapes and bars. Evidence developed in the course of the subsequent investigation revealed that the only steel bars produced at the Bethlehem, Pa., plant were alloy steel bars. All workers producing such products were previously certified eligible to apply for adjustment assistance (TA-W-924).

The Notice of Investigation was published in the FEDERAL REGISTER on January 11, 1977 (42 FR 2371). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Bethlehem

Steel Corporation, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974, must be met:

(1) That a significant number or proportion of the workers in the workers' firm or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four of the above criteria have been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of workers engaged in employment related to the production of carbon steel structural shapes declined 30.7 percent in the fourth quarter of 1975 compared to the like quarter in 1974 and 34.6 percent in 1976 as compared to 1975 before increasing 1.6 percent in the first half of 1977 as compared to the like period in 1976.

SALES OR PRODUCTION, OR BOTH, HAVE DECLINED ABSOLUTELY

Plant sales of carbon steel structural shapes declined 30.8 percent in the fourth quarter of 1975 compared to the like quarter in 1974 and 19.7 percent in quantity in 1976 as compared to 1975 before increasing 7.3 percent in the first half of 1977 as compared to the like 1976 period. Plant production declined 30.7 percent in the fourth quarter of 1975 compared to the like quarter in 1974 and 20.0 percent in 1976 as compared to 1975 before increasing 7.9 percent in the first half of 1977 as compared to the like period in 1976.

INCREASED IMPORTS

Imports of carbon steel structural shapes declined each year from 1,614,000 tons in 1972 to 804,900 tons in 1975 before increasing 67.9 percent to 1,351,400 tons in 1976. Imports continued to increase from 542,600 tons in the first half of 1976 to 716,300 tons in the first half of 1977.

The ratio of imports of carbon steel structural shapes to domestic shipments declined each year from 34.1 percent in 1972 to 19.5 percent in 1975 before increasing to 40.0 percent in 1976. The ratio

continued to increase from 30.2 percent in the first six months of 1976 to 40.2 percent in the first six months of 1977.

CONTRIBUTED IMPORTANTLY

The Department conducted a survey of customers that purchased carbon steel structural shapes from the Bethlehem, Pa., plant. Some of the respondents indicated that they had reduced purchases from the Bethlehem plant in 1976 and had increased purchases of imported structural shapes. Some of the respondents reported that imported structural shapes were adversely affecting the sales of domestically produced structural shapes.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with carbon steel structural shapes have contributed importantly to the total or partial separation of workers engaged in employment related to the production of structural shapes at the Bethlehem, Pa., plant of the Bethlehem Steel Corp. as required for certification.

In accordance with the provisions of the Act, I make the following certification:

All workers engaged in employment related to the production of carbon steel structural shapes at the Bethlehem, Pa., plant of the Bethlehem Steel Corp. who became totally or partially separated from employment on or after November 15, 1975, and before January 1, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974. Workers separated on or after January 1, 1977, are denied eligibility.

Signed at Washington, D.C., this 29th day of September 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[TA-W-2152]

CLIFTEX ENGRAVERS, INC., PASSAIC, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2152: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on June 20, 1977, in response to a worker petition received on June 17, 1977, which was filed by the Machine Printers and Engravers Association on behalf of workers and former workers engraving copper rollers at Cliftex Engravers, Inc., Passaic, N.J.

The notice of investigation was published in the FEDERAL REGISTER on June

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that imports of copper rollers like or directly competitive with copper rollers engraved at Cliftex Engravers, Inc., Passaic, N.J., have not increased as required in Section 222 of the Trade Act of 1974. The petition is therefore denied.

Signed at Washington, D.C., this 26th day of September 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[4510-28]

[TA-W-2118]

COLT TILE, TARAZZO AND MARBLE CO., INC., TOTOWA, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2118: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on June 6, 1977, in response to a worker petition received on June 1, 1977, which was filed by the Riggers and Machinists Union Local 197 on behalf of workers involved in the installation of marble, granite, limestone and slate at job sites for the Colt Tile, Tarazzo and Marble Co., Inc., Totowa, N.J.

The notice of investigation was published in the FEDERAL REGISTER on June 17, 1977 (42 FR 30937). No public hearing was requested and none was held.

The information upon which the determination was made was obtained from the Colt Tile, Tarazzo and Marble Co., Inc. and Local 197 of the Riggers' and Machinists' Union.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

28, 1977 (42 FR 32853). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Cliftex Engravers, Inc., the Machine Printers and Engravers Association, the U.S. International Trade Commission, the U.S. Department of Commerce, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important, but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (3) has not been met.

Evidence developed in the Department's investigation reveals there are no known imports of copper rollers.

Engraved copper rollers would be imported under TSUSA number 668.3400. Print Blocks and Print Rollers. Unengraved rollers would be imported under 668.5020, Parts of Textile Printing Machinery. Industry sources report there are no known imports of either engraved or unengraved rollers. Shipping costs of imported rollers are prohibitive due to the special packaging required to protect the surface of the roller, and quickly changing fashion trends make the time delays inherent in importation of engraved rollers unprofitable.

Industry sources attribute the decline in copper roller printing to competition from other printing processes. Since 1970, three printing processes have been introduced which use computers to print designs. The new processes decrease the time required to produce a print. The time required to engrave rollers makes the roller printing process less competitive in the volatile fashion industry than the faster, computerized processes.

Cliftex Engravers, Inc. was founded in 1947 in Passaic, N.J. The company operates a single plant at which copper rollers used by textile manufacturers to print fabric are engraved.

The Cliftex plant is a single story building with 15,000 square feet of work space. Plant facilities include metal lathes, copper and chrome plating tanks, and photo engraving equipment.

If any of the above criteria is not satisfied, a negative determination must be made.

The Department of Labor has already determined that the performance of services is not included within the term "articles" as used in Section 222(3) of the Act. See Notice of Negative Determination in Pan American World Airways, Inc. (TA-W-153; 40 FR 54639).

Colt Tile, Tarrazo and Marble Co., Inc. is involved exclusively in the installation of marble, granite, limestone, and slate at job sites. The company is not involved in the production of an article within the meaning of Section 222(3) of the Act.

After careful review of the issues I have determined that services of the kind provided by Colt Tile, Tarrazo and Marble Co., Inc. are not "articles" within the meaning of Section 222(3) of the Trade Act of 1974.

Signed at Washington, D.C., this 20th day of September 1977.

HARRY GRUBERT,
Director, Office of
Foreign Economic Research.

[4510-28]

[TA-W-2140]

COLUMBIAN CUTLERY CO., INC.,
READING, PA.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-2140: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on June 13, 1977, in response to a worker petition received on June 13, 1977, which was filed by the United Steelworkers of America on behalf of workers and former workers producing hand tools, garden tools and shears at the Reading, Pa., plant of Columbian Cutlery Co., Inc.

The Notice of Investigation was published in the FEDERAL REGISTER on June 24, 1977 (41 FR 32328). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Columbian Cutlery Co., Inc. and the United Steelworkers of America.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (1) has not been met.

The Columbian Cutlery Co., Inc., located in Reading, Pa., manufactures hand cutting tools for lawns, gardens and farm use. The company's facilities include a manufacturing plant, administrative offices, and a warehouse. Its products are marketed through catalogues and by sales representatives.

Pursuant to the requirements of 20 CFR 90.2 total separations must be the equivalent to a total unemployment of five percent or 50 workers, whichever is less. Evidence developed in the Department's investigation revealed that the total involuntary separations which occurred during the period of possible coverage amounted to less than five percent of the workforce employed at the Columbian Cutlery Co., Inc. The total number of workers experiencing separations during the period May 15, 1976, one year prior to the signature date of the petition, to the present was less than 50 workers.

Pursuant to the requirements of 29 CFR 90.2, "partial separations" means, that the worker's hours of work have been reduced to 80 percent or less of the worker's average weekly hours at the firm or appropriate subdivision thereof. Evidence developed in the Department's investigation revealed that for each week of 1976 the average weekly hours of work were not reduced to 80 percent or less of the worker's average hours for the year 1976. Worker's average weekly hours of work did not change in the first six months of 1976 compared to the same period in 1977.

Company officials indicated that there is no imminent threat of separations from employment for workers at the Reading, Pa., plant of Columbian Cutlery.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that a significant number or proportion of the workers at the Reading, Pa., plant of the Columbian Cutlery Co., Inc. have not become totally or partially separated, or threatened to become separated, as required for certification in Section 222 of the Trade Act of 1974.

Signed at Washington, D.C., this 29th day of September 1977.

GLORIA G. PRATT,
Director, Office of
Foreign Economic Policy.

[4510-28]

[TA-W-1896]

CORONET FASHIONS, WILKES-BARRE, PA.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1896: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on March 24, 1977 in response to a worker petition received on March 24, 1977 which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing women's dresses at the Wilkes-Barre, Pa. plant of Coronet Fashions. The investigation revealed that Coronet Fashions also produced women's sportswear.

The Notice of Investigation was published in the FEDERAL REGISTER on April 12, 1977 (42 FR 19175). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Coronet Fashions, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof, have increased either actual, or relative to domestic production, and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (4) has not been met.

Coronet Fashions is a contractor producing women's dresses and sportswear for one manufacturer. Coronet ships goods upon completion and sales equal production. Coronet receives fabric that belongs to the manufacturer, cuts and sews it, and sends the finished garments to the manufacturer.

This manufacturer has no foreign contractors and does not buy any imported garments. This manufacturer's sales increased in 1976 compared to 1975. In the

first quarter of 1977, Coronet's sales increased 5.7 percent in quantity compared to the first quarter of 1976.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with women's dresses, skirts, blouses and jackets produced at the Wilkes-Barre, Pa. plant of Coronet Fashions did not contribute importantly to the absolute decline in sales or production or to the total or partial separations of the workers at that plant as required for certification under Section 222 of the Trade Act of 1974.

Signed at Washington, D.C. this 29th day of September 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[4510-28]

[TA-W-1356T]

DELAVAL TURBINES, INC., DELROYD
WORM GEAR DIVISION, TRENTON, N.J.

Termination of Certification of Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223(d) of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-1356T: investigation regarding termination of certification of eligibility to apply for worker adjustment assistance as prescribed in Section 223(d) of the Act.

On March 31, 1977 workers engaged in employment related to the production of worm gears and speed reducers in the Delroyd Worm Gear Division of DeLaval Turbines, Inc., Trenton, N.J. were certified as eligible to apply for trade adjustment assistance. The Notice of Determination was published in the FEDERAL REGISTER on April 12, 1977 (42 FR 19180).

The investigation regarding termination of certification was initiated on June 7, 1977 to determine whether the group of workers specified above continue to meet the group eligibility requirements of Section 222 of the Act.

The Notice of Investigation was published in the FEDERAL REGISTER on June 21, 1977 (42 FR 31505). No public hearing was requested and none was held.

During the course of the investigation, information was obtained from officials of DeLaval Turbines, Inc. the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Whenever it becomes evident that any of the above criteria are no longer met, the certification as issued must be revised to include a termination date. The termination date would apply only with respect to total or partial separations occurring after this date as specified in the revised certification. The investigation reveals that the second criterion is no longer being met with respect to workers at the Delroyd Worm Gear Division, DeLaval Turbines, Inc., Trenton, N.J.

Sales of worm gears and speed reducers by the Delroyd Worm Gear Division, adjusted to constant 1974 dollars, declined 8.4 percent from 1975 to 1976 and then increased 23.0 percent in the first six months of 1977 compared to the first six months of 1976. Adjusted sales increased in each quarter from the third quarter of 1976 through the second quarter of 1977 when compared to the same period in the previous year.

Sales at the Delroyd Division are recorded as orders booked. Production is recorded as orders shipped. There is a six month lag between sales and production. This lag was extended by approximately three months in late 1976 when DeLaval chose, with customer approval, to extend delivery on orders booked until economic recovery was confirmed. Production of worm gears and speed reducers by the Delroyd Worm Gear Division declined 13.7 percent from 1975 to 1976 and then increased 4.4 percent in the first six months of 1977 compared to the same period in 1976. Production rose 16.7 percent in the second quarter of 1977 compared to the same quarter in 1976, reflecting the increase in sales which had begun in the third quarter of 1976.

Increased production in the second quarter of 1977 was reflected in rising employment levels in the same quarter. Employment of production workers increased 14.7 percent in the second quarter of 1977 compared to the same quarter in 1976. There have been no layoffs in the Delroyd Division since September 1976. Company officials have indicated that the company is actively seeking new employees for the Delroyd Division.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that total or partial separations of workers engaged in the production of worm gears and speed reducers at the Delroyd Worm Gear Division, DeLaval Turbines, Inc., Trenton, N.J., are no longer attrib-

utable to the conditions specified in Section 222 of the Trade Act of 1974. In accordance with Section 223(d) of the Act, I hereby revise the certification of March 31, 1977 to read as follows:

That all workers engaged in employment related to the production of worm gears and speed reducers at the Delroyd Worm Gear Division, DeLaval Turbines, Inc., Trenton, N.J., who became or will become totally or partially separated on or after November 1, 1975 and before October 14, 1977, be certified eligible to apply for trade adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974. All employees who become or will become totally or partially separated from employment related to the production of worm gears and speed reducers at the Delroyd Worm Gear Division on or after October 14, 1977 are denied certification of eligibility to apply for adjustment assistance.

Signed at Washington, D.C. this 4th day of October 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[4510-28]

[TA-W-1935]

D' ROMA FASHIONS, COVINA, CALIF.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1935: investigation regarding certification of eligibility to apply for adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on March 31, 1977 in response to a worker petition received on that date which was filed on behalf of workers and former workers producing women's and misses' coats at D' Roma Fashions, Covina, Calif.

The Notice of Investigation was published in the FEDERAL REGISTER on April 15, 1977 (42 FR 19937). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of David L. Maffei Co., its customers, D' Roma Fashions, the U.S. International Trade Commission, U.S. Department of Commerce, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

NOTICES

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

) The investigation has revealed that all four of the above criteria have been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Average employment of production workers at D' Roma Fashions decreased 11 percent from 1974 to 1975, and then further decreased 20 percent from 1975 to 1976.

In 1976 the plant closed down for three weeks in March, the month of April, one week in May, two weeks in June, and four weeks in July.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales and production in quantity (units) of women's and misses' coats increased 15 percent from 1974 to 1975, decreased 39.6 percent from 1975 to 1976, and then increased 36.8 percent for the first quarter of 1977 compared to the same period in 1976.

D' Roma produces coats on a contract basis, therefore production is equivalent to sales.

INCREASED IMPORTS

Imports of women's and misses' coats increased in absolute terms, from 1972 to 1973, decreased from 1973 to 1974, and increased from 1974 to 1975. Imports increased absolutely 48 percent from 1975 to 1976 and increased absolutely 17 percent in the first quarter of 1977 compared to the first quarter of 1976. The ratio of imports to domestic production and consumption increased from 35.4 percent and 26.1 percent, respectively, in 1975 to 52.2 percent and 34.3 percent, respectively in 1976.

CONTRIBUTING IMPORTANTLY

D' Roma Fashions produces exclusively for one manufacturer. The manufacturer reduced purchases from D' Roma Fashions from 1975 to 1976 because his sales had declined. Customers of the manufacturer, who were surveyed, have reduced purchases from the manufacturer and increased purchases of imported women's and misses' coats.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with women's and misses' coats produced by D' Roma Fashions contributed importantly to the separations of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of D' Roma Fashions, Covina, Calif. who became totally or partially separated from employment on or after March 22, 1976 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 4th day of October 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[FR Doc.77-30037 Filed 10-13-77; 8:45 am]

[4510-28]

[TA-W-2155]

EXCEL IV, INC., ELMWOOD, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2155: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on June 20, 1977 in response to a worker petition received on June 17, 1977 which was filed by the Machine Printers and Engravers Association on behalf of workers and former workers engraving copper rollers at Excel IV, Inc., Elmwood, N.J.

The notice of investigation was published in the FEDERAL REGISTER on June 28, 1977 (42 FR 32853). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Excel IV, Inc., the Machine Printers and Engravers Association, the U.S. International Trade Commission, the U.S. Department of Commerce, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important, but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (3) has not been met.

Evidence developed in the Department's investigation reveals there are no known imports of copper rollers.

Engraved copper rollers would be imported under TSUSA number 668.3400,

Print Blocks and Print Rollers. Unengraved rollers would be imported under 668.5020, Parts of Textile Printing Machinery. Industry sources report there are no known imports of either engraved or unengraved rollers. Shipping costs of imported rollers are prohibitive due to the special packaging required to protect the surface of the roller, and quickly changing fashion trends make the time delays inherent in importation of engraved rollers unprofitable.

Industry sources attribute the decline in copper roller printing to competition from other printing processes. Since 1970, three printing processes have been introduced which use computers to print designs. The new processes decrease the time required to produce a print. The time required to engrave rollers makes the roller printing process less competitive in the volatile fashion industry than the faster, computerized processes.

Excel IV, Inc. was founded in August 1971 in Elmwood, N.J. The company operates a single plant at which copper rollers used by textile manufacturers to print fabric are engraved.

The Excel IV plant is a two story building with 20,000 square feet of work space. Plant facilities include office equipment, art department materials, photographic equipment, cameras, contact frames, a film processor, a photo composing machine, light tables, and photo layout equipment, roller polishing lathes, and chrome and copper plating tanks.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that imports of copper rollers like or directly competitive with copper rollers engraved at Excel IV, Inc., Elmwood, N.J., have not increased as required in Section 222 of the Trade Act of 1974. The petition is, therefore, denied.

Signed at Washington, D.C., this 26th day of September 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[TA-W-1881]

GAILS FASHIONS WILKES-BARRE, PA.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1881: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on March 23, 1977 in response to a worker petition received on March 23, 1977 which was filed by the International Ladies' Garment Workers' Union on be-

half of workers and former workers producing misses' and juniors' dresses and pantsuits at Gails Fashions, Wilkes-Barre, Pa.

The Notice of Investigation was published in the FEDERAL REGISTER on April 12, 1977 (42 FR 19176). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Gails Fashions, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof, have increased either actual, or relative to domestic production, and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any other criteria have been met, criterion one (1) has not been met.

The average number of production workers at Gails Fashions increased 42.9 percent from 1975 to 1976. In the first 6 months of 1977 the average number of production workers increased 5.6 percent over the same period of 1976. There is no indication that current workers are threatened with any involuntary separations.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that a significant number or proportion of the workers at Gails Fashions, Wilkes-Barre, Pa. have not become totally or partially separated as required for certification under Section 222 of the Trade Act of 1974.

Signed at Washington, D.C. this 29th day of September 1977.

GLORIA G. PRATT,
Director, Office of
Foreign Economic Policy.

[TA-W-1949]

H. W. GOSSARD CO., BODY FOUNDATION DIVISION; ISHPERING, MICH.; LOGANS-PORT, IND.; SULLIVAN, IND.; PIGGOTT, ARK.; BATAVIA, ILL.

Revised Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 and in accordance with Section 223(a) of such Act, on July 22, 1977 the Department of Labor issued a certification of eligibility to apply for worker adjustment assistance applicable to workers and former workers engaged in employment related to the production of brassieres, girdles, and corsets at the Ishpeming, Mich.; Logansport, Ind.; Sullivan, Ind.; Piggott, Ark. plants and Batavia, Ill. warehouse of the Body Foundation Division of the H. W. Gossard Co. (TA-W-1949).

The Notice of Certification was published in the FEDERAL REGISTER on August 2, 1977 (42 FR 39164).

Subsequent to the publication of the original determination, the Office of Trade Adjustment Assistance received an inquiry regarding the eligibility of workers at the Piggott, Ark. plant for coverage under the certification issued for all workers in the Body Foundation Division of H. W. Gossard.

H. W. Gossard Co. is organized in two divisions: Body Foundations and Lingerie. Piggott is a cutting plant. That is, fabric is sent to Piggott, cut to specifications, and then shipped to company sewing plants for assembly into finished garments.

Further investigation revealed that all fabric cuttings produced at Piggott are used in the production of sleepwear and underwear in the Lingerie Division of H. W. Gossard Co. Fabric used in the production of brassieres, girdles, and corsets is cut, as well as assembled, at the sewing plants in the Body Foundation Division.

CONCLUSION

Based on the additional evidence, a review of the entire record and in accordance with the provisions of the Act, I have determined that the following certification is hereby made as follows:

All workers engaged in employment related to the production of ladies' brassieres, girdles, and corsets at the Ishpeming, Mich., and Logansport, Ind. plants and the Batavia, Ill. warehouse of H. W. Gossard Co., Chicago, Ill. who became totally or partially separated from employment on or after March 12, 1976 and at the Sullivan, Ind. plant of H. W. Gossard Co. who became totally or partially separated from employment on or after January 1, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Trade Act of 1974.

Signed at Washington, D.C. this 29th day of September 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[TA-W-2156]

GRAPHIC ENGRAVING CORP., PATERSON, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2156: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on June 20, 1977 in response to a worker petition received on June 17, 1977 which was filed by the Machine Printers and Engravers Association on behalf of workers and former workers engraving copper rollers at Graphic Engraving Corp., Paterson, N.J.

The notice of investigation was published in the FEDERAL REGISTER on June 28, 1977 (42 FR 32853). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Graphic Engraving Corp., the Machine Printers and Engravers Association, the U.S. International Trade Commission, the U.S. Department of Commerce, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important, but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (3) has not been met.

Evidence developed in the Department's investigation reveals there are no known imports of copper rollers.

Engraved copper rollers would be imported under TSUSA number 668.3400, Print Blocks and Print Rollers. Unengraved rollers would be imported under 668.5020, Parts of Textile Printing Machinery. Industry sources report there are no known imports of either engraved or unengraved rollers. Shipping costs of imported rollers are prohibitive due to the special packaging required to protect the surface of the roller, and quickly changing fashion trends make the time delays inherent in importation of engraved rollers unprofitable.

Industry sources attribute the decline in copper roller printing to competition from other printing processes. Since 1970, three printing processes have been introduced which use computers to print designs. The new processes decrease the time required to produce a print. The time required to engrave rollers makes the roller printing process less competitive in the volatile fashion industry than the faster, computerized processes.

The Graphic Engraving Corp., Paterson, N.J. was founded in 1957 to engrave copper rollers used by textile manufacturers to print fabric.

The Paterson, N.J. plant is a two-story building with 80,000 square feet of work space. Plant facilities include metal lathes, copper and chrome plating tanks, and photo engraving equipment.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that imports of copper rollers like or directly competitive with copper rollers engraved at Graphic Engraving Corp., Paterson, N.J. have not increased as required in Section 222 of the Trade Act of 1974. The petition is, therefore denied.

Signed at Washington, D.C. this 26th day of September 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[TA-W-1805]

GULF PIPER, ARKANSAS PASS, TEX. Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1805: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on March 15, 1977 in response to a worker petition received on March 10, 1977 which

was filed by three workers on behalf of workers and former workers engaged in the catching of shrimp with the trawler Gulf Piper located in Aransas Pass, Tex.

The notice of investigation was published in the FEDERAL REGISTER on April 5, 1977 (42 FR 18155). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the U.S. Department of Commerce, the U.S. International Trade Commission, the trawler Gulf Piper and its customers, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

- (1) That a significant number or proportion of the workers in the workers' firm or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;
- (2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

- (3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

- (4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (4) has not been met.

Evidence developed in the Department's investigation revealed that most customers who regularly submit bids on the open market indicated that they purchase imported shrimp. However, these customers stated that imported shrimp was purchased because their domestic suppliers had been unable to provide them with sufficient quantities to meet their requirements.

Furthermore, several factors acted to depress levels of shrimp production in 1976 and the first quarter of 1977 consequently reducing the quantities of shrimp made available to Gulf Piper's customers. These factors included adverse weather conditions, a lack of shrimp available in known fishing grounds in the first quarter of 1977 and the imposition of a 200 mile fishing restriction by the Mexican government which prevented domestic shrimpers from fishing within Mexican coastal waters.

CONCLUSION

After careful review of the facts obtained in the investigation, it is concluded that imports of articles like or directly competitive with the shrimp produced by the trawler Gulf Piper or Aransas Pass, Tex. have not contributed importantly to the total or partial separations of the workers of that company

as required for a certification under Section 222 of the Trade Act of 1974.

Signed at Washington, D.C. this 27th day of September 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[4510-28]

[TA-W-2157]

IMPERIAL TEXTILE ENGRAVING, INC., PATERSON, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2157: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on June 20, 1977, in response to a worker petition received on June 17, 1977, which was filed by the Machine Printers and Engravers Association on behalf of workers and former workers engraving copper rollers at Imperial Textile Engraving, Incorporated, Paterson, New Jersey.

The notice of investigation was published in the FEDERAL REGISTER on June 28, 1977 (42 FR 32853). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Imperial Textile Engraving, Incorporated, the Machine Printers and Engravers Association, the U.S. International Trade Commission, the U.S. Department of Commerce, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

- (1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;
- (2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

- (3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

- (4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important, but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (3) has not been met.

INCREASED IMPORTS

Imports of carbon steel pipe and tubing declined from 1768.1 thousand short tons in 1972 to 1574.6 thousand short tons in 1973. Imports increased to 1781.5 thousand short tons in 1974, decreased to 1542.5 thousand short tons in 1975, and then increased to 1820.7 thousand short tons in 1976. The ratio of imports to shipments increased from 22.8 percent in 1975 to 35.8 percent in 1976.

CONTRIBUTED IMPORTANTLY

A major customer of the Newport Works plant indicated that the reduced purchases of tubular products from Newport Works while import purchases had remained stable, thus increasing the ratio of import purchases to purchases from Interlake, Inc.

FLAT ROLLED PRODUCTS

CONTRIBUTED IMPORTANTLY

The category flat rolled products includes carbon and alloy steel sheet and plate both hot and cold rolled. Employees work interchangeably on these products.

Customers of the Newport Works plant who were surveyed indicated that either do not purchase imported flat rolled steel or they have increased purchases from the Newport plant.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with tubular products produced at the Newport Works, Kentucky plant of Interlake, Incorporated, contributed importantly to the total or partial separation of workers at that plant. In accordance with the provisions of the Act, I make the following certification:

All workers engaged in employment related to the production of tubular products at the Newport Works, Kentucky plant of Interlake, Incorporated, who became totally or partially separated from employment on or after December 20, 1976 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

I further conclude that increases of imports like or directly competitive with flat rolled products produced at the Newport Works, Kentucky plant of Interlake, Incorporated, did not contribute importantly to the total or partial separations of the workers at that plant. Therefore workers engaged in employment related to the production of flat rolled products at the Newport Works, Kentucky plant of Interlake Incorporated are denied eligibility to apply for adjustment assistance.

Signed at Washington, D.C., this 27th day of September 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[FR Doc.77-30044 Filed 10-13-77; 8:45 am]

Evidence developed in the Department's investigation reveals there are no known imports of copper rollers.

Engraved copper rollers would be imported under TSUSA number 668.3400, Print Blocks and Print Rollers. Unengraved rollers would be imported under 668.5020, Parts of Textile Printing Machinery. Industry sources report there are no known imports of either engraved or unengraved rollers. Shipping costs of imported rollers are prohibitive due to the special packaging required to protect the surface of the roller, and quickly changing fashion trends make the time delays inherent in importation of engraved rollers unprofitable.

Industry sources attribute the decline in copper roller printing to competition from other printing processes. Since 1970, three printing processes have been introduced which use computers to print designs. The new processes decrease the time required to produce a print. The time required to engrave rollers makes the roller printing process less competitive in the volatile fashion industry than the faster, computerized processes.

The Imperial Textile Engraving, Inc., Paterson, N.J., was founded in 1947. The company operates a single plant at which copper rollers, used by textile manufacturers to print fabric, are engraved.

The Imperial Textile Engraving plant in Paterson, New Jersey is a one story building with 5,000 square feet of work space. Plant facilities include metal lathes, copper and chrome plating tanks, and photoengraving equipment.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that imports of copper rollers like or directly competitive with copper rollers engraved at Imperial Textile Engraving, Incorporated, Paterson, New Jersey have not increased as required in Section 222 of the Trade Act of 1974. The petition is therefore denied.

Signed at Washington, D.C., this 26th day of September 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[TA-W-1476]

INTERLAKE, INC., NEWPORT WORKS NEWPORT AND WILDER, KY.

Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1476: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on December 20, 1976, in response to a worker

petition received on December 20, 1976, which was filed by the United Steelworkers of America on behalf of workers and former workers producing flat rolled and tubular products at the Newport Works Kentucky plant of Interlake, Incorporated.

The notice of investigation was published in the FEDERAL REGISTER on January 7, 1977 (42 FR 1534). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Interlake, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

- (1) That a significant number or proportion of the workers in the workers' firm or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;
- (2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

- (3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

- (4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all of the above criteria have been met for workers engaged in employment related to the production of tubular products which consist of line and spiral weld pipe and tubing.

The investigation has further revealed that for workers engaged in employment related to the production of flat rolled products which consist of carbon steel sheet and plate (hot and cold rolled), without regard to whether any of the other criteria have been met the fourth criterion has not been met.

TUBULAR PRODUCTS

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The category tubular products includes line and spiral weld pipe and tubing. Employees work interchangeably on these products.

Employment related to the products of tubular products declined 20.9 percent in 1973 compared to 1974 and decreased 11.3 percent in 1976 compared to 1975.

SALES OR PRODUCTION, OR BOTH HAVE DECREASED ABSOLUTELY

Sales of tubular products decreased 52.3 percent in terms of quantity in 1975 compared to 1974 and decreased 19.3 percent in terms of quantity from 1975 to 1976.

NOTICES

[4510-28]

[TA-W-1478]

INTERLAKE, INC. TOLEDO, OHIO

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1478: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on December 20, 1976 in response to a worker petition received on that date which was filed by the United Steelworkers of America on behalf of workers and former workers producing pig iron at the Toledo, Ohio plant of Interlake, Inc.

The Notice of Investigation was published in the FEDERAL REGISTER on January 7, 1977 (42 FR 1534). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Interlake, Inc., the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

- (1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;
- (2) That sales or production, or both, of such firm or subdivision have decreased absolutely;
- (3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and
- (4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether the other criteria have been met, criterion three (3) has not been met.

The Toledo, Ohio plant of Interlake, Inc. produces pig iron. Pig iron produced at the Toledo, Ohio plant is sold to various foundries and steel producers. Pig iron produced at the Toledo plant is not used by any other Interlake operation.

Evidence developed in the Department's investigation revealed that imports of pig iron decreased from 427,000 tons in 1975 to 370,000 tons in 1976. Imports decreased from 102,000 tons in the first quarter of 1976 to 39,000 tons in the first quarter of 1977. The ratio of imports to domestic production of pig iron decreased 0.5 percent in 1975 to 0.4 percent in 1976. The ratio decreased from

0.4 percent in the first quarter of 1976 to 0.2 percent in the first quarter of 1977.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that imports of articles like or directly competitive with pig iron produced at the Toledo, Ohio plant of Interlake, Inc. have not contributed importantly to the decline in sales or production of the plant or to the total or partial separations of workers of that plant as required for certification under Section 222 of the Trade Act of 1974.

Signed at Washington, D.C. this 29th day of September 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[4510-28]

[TA-W-1971]

JACOBSON MANUFACTURING CO., INC., KENILWORTH, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1971: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on April 11, 1977 in response to a worker petition received on that date which was filed by the International Automobile, Aerospace, Agricultural Implement Workers' Union, on behalf of workers and former workers producing nuts and washers at the Kenilworth, N.J. plant of Jacobson Manufacturing Co., Inc.

The Notice of Investigation was published in the FEDERAL REGISTER on April 29, 1977 (42 FR 21872). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Jacobson Manufacturing Company Inc., the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

- (1) That a significant number or proportion of the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated;
- (2) That sales or production, or both, of such firm or subdivision have decreased absolutely;
- (3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (1) has not been met.

The Jacobson Manufacturing Co., Inc., founded in the early 1950's is a wholly-owned corporation with production, warehousing and office facilities located in Kenilworth, N.J. Metal fasteners including nuts and washers are produced there for use by the automotive industry and electrical and other appliance manufacturers.

Pursuant to the requirements of 29 CFR 90.2 total separations must be the equivalent to a total unemployment of five percent or 50 workers; whichever is less. Evidence developed in the Department's investigation revealed that the total separations which occurred during the period of possible coverage amounted to less than five percent of the workforce employed at the Jacobson Manufacturing Co. The total number of workers experiencing separations during the period April 1, 1976, one year prior to the signature date of the petition to the present was less than 50 workers. There is no indication that current workers are threatened with any involuntary separations.

Pursuant to the requirements of 29 CFR 90.2, "partial separation" means, that the worker's hours of work have been reduced to 80 percent or less of the worker's average weekly hours at the firm or appropriate subdivision thereof. Evidence developed in the Department's investigation revealed that the worker's average weekly hours of work have remained constant in 1976 compared to 1975 and in the first half of 1977 compared to the same period of 1976.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that a significant number of proportion of the workers at the Kenilworth, New Jersey plant of the Jacobson Manufacturing Company have not become or threatened to become totally or partially separated as required for certification in Section 222 of the Trade Act of 1974.

Signed at Washington, D.C. this 27th day of September 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[4510-28]

[TA-W-1942]

JOLIE'D COATS, GARDENA, CALIF.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of

Labor herein presents the results of TA-W-1942: investigation regarding certification of eligibility to apply for adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on March 31, 1977 in response to a worker petition received on that date which was filed by the International Ladies Garment Workers Union (ILGWU) on behalf of workers and former workers producing women's and misses' coats at Jolie'D Coats, Gardena, Calif.

The Notice of Investigation was published in the FEDERAL REGISTER on April 15, 1977 (42 FR 19937). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of David L. Maffei Company, Jolie'D Coats, its manufacturer, customers of the manufacturer, National Cotton Council of America, the U.S., the International Trade Commission industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

- (1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;
- (2) That sales or production, or both, of such firm or subdivision have decreased absolutely;
- (3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and
- (4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four of the above criteria have been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Average employment of production workers at Jolie'D Coats increased 6 percent from 1974 to 1975, and then decreased 20 percent from 1975 to 1976.

In 1976 the plant closed down for one week in February, three weeks in April, and one week in May.

SALES OR PRODUCTION, OR BOTH HAVE DECREASED ABSOLUTELY

Sales and production in quantity (units) of women's and misses' coats at the Jolie'D plant increased 19.6 percent from 1974 to 1975 decreased 30 percent from 1975 to 1976.

INCREASED IMPORTS

Imports of women's and misses' coats increased in absolute terms, from 1972 to 1973, decreased from 1973 to 1974, and

increased from 1974 to 1975. Imports increased absolutely 48 percent from 1975 to 1976 and increased absolutely 17 percent in the first quarter of 1977 compared to the first quarter of 1976. The ratios of imports to domestic production and consumption increased from 35.4 percent and 26.1 percent, respectively, in 1975 to 52.2 percent and 34.3 percent, respectively, in 1976.

CONTRIBUTED IMPORTANTLY

Evidence developed during the Department's investigation revealed that Jolie'D Coats produces exclusively for one manufacturer. The manufacturer stated that he reduced purchases from Jolie'D Coats because his sales had declined. Customers of the manufacturer have reduced purchases from the manufacturer, and increased purchases of imported women's and misses' coats.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with women's and misses' coats produced by Jolie'D Coats contributed importantly to the absolute decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers at Jolie'D Coats, Gardena, Calif. who become totally or partially separated from employment on or after March 22, 1976 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 4th day of October 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[4510-28]

[TA-W-2158]

JULIET FOOTWEAR CO., INC., ELMWOOD PARK, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2158: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on June 20, 1977, in response to a worker petition received on June 17, 1977, which was filed by the United Shoe Workers of America on behalf of workers and former workers producing men's shoes at the Elmwood Park, N.J. plant of the Juliet Footwear Co., Inc.

The notice of investigation was published in the FEDERAL REGISTER on June 28, 1977 (42 FR 32853). No public

hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Juliet Footwear Company, Inc., the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

- (1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;
- (2) That sales or production, or both, of such firm or subdivision have decreased absolutely;
- (3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and
- (4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether the other criteria have been met, the investigation revealed that criterion two has not been met.

The Juliet Footwear Co., Inc., consists of one plant in Elmwood Park, N.J., engaged in the production of men's shoes.

Company sales, in value, increased 6.1 percent and 22.1 percent, respectively, in the third and fourth quarters of 1976 compared to the third and fourth quarters of 1975. Company sales increased 20.5 percent and 43.1 percent, respectively, in the first and second quarters of 1977 compared to the first and second quarters of 1976.

Company production, in quantity, increased 53.3 percent and 15.7 percent, respectively, in the third and fourth quarters of 1976 compared to the third and fourth quarters of 1975. Company production increased 9.7 percent and 13.3 percent, respectively, in the first and second quarters of 1977 compared to the first and second quarters of 1976.

As stated in the petition, the workers at the Juliet Footwear Co., Inc., are seeking adjustment assistance benefits for unemployment experienced in June 1975 and thereafter. Section 223(b)(1) of the Trade Act of 1974 states that a certification shall not apply to workers separated more than one year prior to the date of the petition. The petition in this case is dated June 10, 1977. Since May 1976, production and sales levels at the Juliet Footwear Co., Inc., have remained

¹ Company sales and production data are recorded on the basis of a fiscal year beginning on November 1st and ending October 31st.

NOTICES

consistently higher than those of the preceding year.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that sales or production of men's shoes at the Elmwood Park, N.J., plant of the Juliet Footwear Co., Inc., have not decreased as required for certification under Section 222 of the Trade Act of 1974.

Signed at Washington, D.C., this 4th day of October 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[4510-28]

[TA-W-2159]

LES-CO ENGRAVING CO., LODI, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2159: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on June 20, 1977, in response to a worker petition received on June 17, 1977, which was filed by the Machine Printers and Engravers Association on behalf of workers and former workers engraving copper rollers at Les-Co Engraving Co., Lodi, N.J.

The notice of investigation was published in the FEDERAL REGISTER on June 28, 1977 (42 FR 32853). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Les-Co Engraving Co., the Machine Printers and Engravers Association, the U.S. International Trade Commission, the U.S. Department of Commerce, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

- (1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;
- (2) That sales or production, or both, of such firm or subdivision have decreased absolutely;
- (3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and
- (4) That such increased imports have contributed importantly to the separations, or

threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important, but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (3) has not been met.

Evidence developed in the Department's investigation reveals there are no known imports of copper rollers.

Engraved copper rollers would be imported under TSUSA number 668.3400, Print Blocks and Print Rollers. Unengraved rollers would be imported under 668.5020, Parts of Textile Printing Machinery. Industry sources report there are no known imports of either engraved or unengraved rollers. Shipping costs of imported rollers are prohibitive due to the special packaging required to protect the surface of the roller, and quickly changing fashion trends make the time delays inherent in importation of engraved rollers unprofitable.

Industry sources attribute the decline in copper roller printing to competition from other printing processes. Since 1970, three printing processes have been introduced which use computers to print designs. The new processes decrease the time required to produce a print. The time required to engrave rollers makes the roller printing process less competitive in the volatile fashion industry than the faster, computerized processes.

The Les-Co Engraving Company was founded on October 2, 1945, in Lodi, N.J. The company operates a single plant at which copper rollers used by textile manufacturers to print fabric are engraved. The plant was temporarily closed in March 1977.

The Les-Co Engraving plant is a one-story building with 45,000 square feet of work space. Plant facilities include pantographic engraving machines, turning and polishing lathes, and manual cameras.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that imports of copper rollers like or directly competitive with copper rollers engraved at Les-Co Engraving Co., Lodi, N.J., have not increased as required in Section 222 of the Trade Act of 1974. The petition is, therefore, denied.

Signed at Washington, D.C., this 26th day of September 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[TA-W-1766]

LISA MANUFACTURING CO., INC., EGG HARBOR CITY, N.J.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974, the Department of

Labor herein presents the results of TA-W-1766: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on March 7, 1977, in response to a worker petition received on March 3, 1977, which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing women's coats at the Egg Harbor City, N.J., plant of Lisa Manufacturing Co., Inc.

The Notice of Investigation was published in the FEDERAL REGISTER on March 25, 1977 (42 FR 16200). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Lisa Manufacturing, customers of Lisa's principal manufacturer and other manufacturers for whom Lisa performed contract work, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, National Cotton Council of America and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met.

- (1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;
- (2) That sales or production, or both, of such firm or subdivision have decreased absolutely;
- (3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and
- (4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four criteria have been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers decreased 19.1 percent in the fourth quarter of 1976 compared to the same period of 1975. All workers were laid off when the plant closed in December 1976.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production, in terms of quantity and value, decreased 11.5 percent and 2.2 percent, respectively, in the fourth quarter of 1976 compared to the same period of 1975. All production ceased when the plant closed in December 1976.

INCREASED IMPORTS

Imports of women's, misses' and children's coats and jackets increased from

NOTICES

1,769 thousand dozen in 1972 to 1,807 thousand dozen in 1973. In 1974, the volume of imports decreased to 1,478 thousand dozen and in 1975 imports increased to 1,517 thousand dozen. Imports increased 48.5 percent from 1975 to 1976 to 2,252 thousand dozen. For the first quarter of 1977, imports reached 590 thousand dozen compared to 506 thousand dozen for the same period of 1976. The ratios of imports to domestic production and consumption increased from 35.4 percent and 26.1 percent, respectively, in 1975 to 52.2 percent and 34.3 percent, respectively, in 1976.

CONTRIBUTED IMPORTANTLY

Evidence developed during the course of the Department's investigation revealed that manufacturers which contracted work to Lisa Manufacturing Co., Inc., in 1975 and 1976 either have increased their purchases of imported coats or have increased their orders with foreign contractors. Lisa's principal manufacturer in 1976 experienced decreases in sales from 1975 to 1976 because customers have increased purchases from foreign manufacturers.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with women's and misses' coats produced by Lisa Manufacturing Co., Inc., contributed importantly to the separations of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Lisa Manufacturing Co., Inc., Egg Harbor City, N.J., who became totally or partially separated from employment on or after October 1, 1976, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 4th day of October 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[4510-28]

[TA-W-1889]

L. P. SPORTSWEAR, INC., HILLDALE, PA.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1889: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on March 23, 1977, in response to a worker petition received on March 22, 1977, by the International Ladies' Garment Workers Union on behalf of workers and

former workers producing girls' sportswear at the Hilldale, Pa., plant of L. P. Sportswear, Inc.

The notice of investigation was published in the FEDERAL REGISTER on April 12, 1977 (42 FR 19176). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of L. P. Sportswear, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

- (1) That a significant number or proportion of the workers in the workers' firm or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;
- (2) That sales or production, or both, of such firm or subdivision have decreased absolutely;
- (3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and
- (4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any other criteria have been met criterion (4) has not been met.

The Department's investigation has revealed that L. P. Sportswear is a contractor of girls' sportswear for a manufacturer of children's apparel. This manufacturer reported no foreign contractors are utilized and that the total dollars volume of work performed by its domestic contractors increased 42.9 percent in 1976 compared with 1975. Sales by L. P. Sportswear, Inc. in terms of 1974 dollars increased 4.7 percent in 1976 compared with sales in 1975.

CONCLUSION

After a careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with girls' sportswear produced under contract by L. P. Sportswear, Inc. in Hilldale, Pa., have not contributed importantly to total or partial separations of workers at that firm as required for a certification under Section 222 of the Trade Act of 1974.

Signed at Washington, D.C., this 29th day of September 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[4510-28]

[TA-W-1399]

LUKENS STEEL CO., COATSVILLE, PA.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1399: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on December 13, 1976 in response to a worker petition received on December 13, 1976, which was filed by the United Steelworkers of America on behalf of workers and former workers producing steel plate and steel plate shapes at the Coatesville, Pa. plant of Lukens Steel Co. The investigation revealed that Lukens Steel also performs conversion service for domestic stainless steel producers.

The notice of investigation was published in the FEDERAL REGISTER on January 4, 1977 (42 FR 888). No public hearing was requested and none was held.

The information upon which the determination was made was obtained from officials of Lukens Steel Co., its customers, the American Iron and Steel Institute, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

- (1) That a significant number or proportion of the workers in the workers' firm or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;
- (2) That sales or production, or both, of such firm or subdivision have decreased absolutely;
- (3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and
- (4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the above criteria have been met, criterion four (4) has not been met.

Evidence developed during the Department's investigation revealed that Lukens Steel Co. produced steel plates and steel plate shapes and performs conversion service for domestic stainless steel producers. Customers surveyed indicated that either they did not decrease purchases of steel plates and steel plate

shapes from Lukens Steel or that they decreased purchases from Lukens Steel but they do not purchase imported steel plate or steel plate shapes. Customers that decreased purchases from Lukens Steel cited poor business conditions as the reason.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that imports of articles like or directly competitive with steel plates and steel plate shapes produced at the Coatesville, Pa. plant of Lukens Steel Co. have not contributed importantly to the decline in sales or production of the firm or to the total or partial separations of workers of that firm as required for certification under section 222 of the Trade Act of 1974.

Signed at Washington, D.C., this 4th day of October 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[FR Doc.77-30052 Filed 10-13-77;8:45 am]

[4510-28]

[TA-W-1678]

JOSEPH PETRILLI CO., INC.,
EGG HARBOR, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1678: investigation regarding certification of eligibility to apply for adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on February 24, 1977 in response to a worker petition received on February 17, 1977 which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing women's coats, blazers, and all-weather coats at the Egg Harbor, N.J. plant of the Joseph Petrilli Co., Inc.

The Notice of Investigation was published in the FEDERAL REGISTER on March 8, 1977 (42 FR 13088). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Joseph Petrilli Co., Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have be-

come totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (4) has not been met.

The Department conducted a survey of customers accounting for 100 percent of Petrilli's sales in 1975 and 1976. None of these switched purchases from Petrilli to imported sources. Customers who decreased purchases from Petrilli attributed their declines to an increase in purchases from other domestic sources, or a decline in sales. In addition, a study conducted by Department analysts indicated that of the total number of women's coats and jackets imported into the United States in 1976, only 0.18 percent of these fell into the category of "better" priced coats and jackets. The product which constituted the majority of Joseph Petrilli's sales in 1976 retailed at prices that fall clearly into that category.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with women's coats, blazers and all-weather coats produced at the Egg Harbor, N.J. plant of the Joseph Petrilli Co., Inc. did not contribute importantly to the total or partial separations of workers at the plant as required by Section 222 of the Trade Act of 1974.

Signed at Washington, D.C. this 27th day of September 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[FR Doc.77-30053 Filed 10-13-77;8:45 am]

[4510-28]

[TA-W-1751]

RCA CORP. BLOOMINGTON, IND.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1751: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on March 3, 1977 in response to a worker petition received on February 25, 1977

which was filed by the International Brotherhood of Electrical Workers on behalf of workers and former workers producing monochrome and color television receivers and components at the Bloomington, Ind. facility of the RCA Corp., Consumer Electronics Division, Indianapolis, Ind.

The Notice of Investigation was published in the FEDERAL REGISTER on March 22, 1977 (42 FR 15477). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of RCA Corp., the Electronic Industries Association, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all of the above criteria have been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers at the Bloomington facility declined 18.1 percent in the second half of 1976 compared to the same period of 1975 and declined 22.0 percent in the first quarter of 1977 compared to the same quarter of 1976.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production of color and monochrome televisions and components at the Bloomington facility declined 6.0 percent in the second half of 1976 compared to the same period of 1975 and declined 3.6 percent in the first quarter of 1977 compared to the same quarter of 1976.

Production of eight television components was transferred from Bloomington to RCA's foreign facilities during 1976. Production of monochrome televisions was transferred from Bloomington to RCA's foreign facilities during the second quarter of 1977.

INCREASED IMPORTS

Imports of monochrome television receivers relative to domestic production increased from 157.7 percent in 1972 to 210.3 percent in 1974, declined to 193.8 percent in 1975, and increased to 311.3 percent in 1976. Imports increased from 2,975 thousand units in 1975 to 4,327 thousand units in 1976, and from 918 thousand units in the first quarter of 1976 to 1,033 thousand units in the first quarter of 1977.

Imports of color television receivers relative to domestic production increased in every year from 1972 to 1975, rising from 18.8 percent in 1972 to 23.4 percent in 1975, and then increased sharply to 55.0 percent in 1976. Imports increased absolutely from 1,021 thousand units in 1975 to 2,856 thousand units in 1976 and from 426 thousand units in the first quarter of 1976 to 606 thousand units in the first quarter of 1977.

CONTRIBUTED IMPORTANTLY

Assembly of television receivers remains a labor-intensive process. The vast majority of imported television receivers are manufactured in low-wage areas. In recent years, to remain competitive with imports, U.S. television manufacturers have utilized production facilities in low-wage countries. Of the twelve existing domestic television manufacturers, four are subsidiaries of foreign corporations and are essentially engaged in final assembly of imported components.

RCA Consumer Electronics Division opened its first overseas facility in 1969. Since then RCA has transferred numerous component manufacturing operations from its domestic to its overseas facilities. Under provisions of the Trade Expansion Act of 1962, facilities of the Consumer Electronics Division were found injured by increased company imports (TEA-144).

Imports of television components by the RCA Consumer Electronics Division increased 22.8 percent from 1975 to 1976, as the company transferred production of eight television components from Bloomington to its overseas facilities. Subsequently production and employment of production workers at Bloomington declined during the second half of 1976. The transfer of monochrome television production from Bloomington to RCA's foreign facilities in the second quarter of 1977 creates the threat of further declines in production and employment at the Bloomington facility.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with color and monochrome television receivers and components produced at the Bloomington, Ind. facility of the RCA Corp. contributed importantly to the total or partial separations of the workers of that facility. In accordance with provisions

of the Trade Act of 1974, I make the following certification:

All workers at the Bloomington, Ind. facility of the RCA Corp., Consumer Electronics Division who became totally or partially separated from employment on or after June 27, 1976, are eligible to apply for worker adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 4th day of October 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[4510-28]

[TA-W-1944]

SABRINA COAT, INC., S. EL MONTE, CALIF.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-1944: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on March 31, 1977 in response to a worker petition received on that date which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing women's and misses' coats at Sabrina Coat, Inc., S. El Monte, Calif.

The notice of investigation was published in the FEDERAL REGISTER on April 15, 1977 (42 FR 19937). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of David L. Maffei Company, its customers, Sabrina Coat, Inc., the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The Department's investigation revealed that all four of the above criteria have been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATION

Average employment of production workers at Sabrina Coat, Inc. decreased 2.6 percent from 1974 to 1975, and then increased 13.2 percent from 1975 to 1976. In 1977 the plant closed for the entire month of January.

SALES, PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales and production in quantity (units) of women's and misses' coats by Sabrina Coat, Inc. decreased 13.1 percent from 1974 to 1975, decreased 1 percent from 1975 to 1976 and then decreased 56.7 percent for the first quarter of 1977 compared to the same period in 1976.

INCREASED IMPORTS

Imports of women's and misses' coats increased in absolute terms, from 1972 to 1973, decreased from 1973 to 1974, and increased from 1974 to 1975. Imports increased absolutely 48 percent from 1975 to 1976 and increased absolutely 17 percent in the first quarter of 1977 compared to the first quarter of 1976. The ratios of imports to domestic production and consumption increased from 35.4 percent and 26.1 percent, respectively, in 1975 to 52.2 percent and 34.3 percent, respectively, in 1976.

CONTRIBUTED IMPORTANTLY

Sabrina Coat, Inc. produces exclusively for one manufacturer. The manufacturer stated that he reduced purchases from Sabrina Coat, Inc. because his sales had declined in 1976 compared to 1975. Customers of the manufacturer have reduced purchases from the manufacturer, and increased purchases of imported women's and misses' coats.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with women's and misses' coats produced by Sabrina Coat, Inc. contributed importantly to the absolute decline in production and to the separation of workers at that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Sabrina Coat, Inc., S. El Monte, Calif. who became totally or partially separated from employment on or after January 1, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 4th day of October 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[FR Doc.77-30042 Filed 10-13-77;8:45 am]

NOTICES

[4510-28]

[TA-W-2122]

TITAN MARBLE AND STONE CO., INC.,
TOWA, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2122: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on June 6, 1977, in response to a worker petition received on June 1, 1977, which was filed by the Riggers and Machinists Union Local 197 on behalf of workers involved in the installation of marble, granite, limestone, and slate at job sites for the Titan Marble and Stone Company, Incorporated, Totowa, New Jersey.

The notice of investigation was published in the FEDERAL REGISTER on June 17, 1977 (42 FR 30937). No public hearing was requested and none was held.

The information upon which the determination was made was obtained from the Titan Marble and Stone Company, Incorporated and Local 197 of the Riggers' and Machinists' Union.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

- (1) That a significant number or proportion of the workers in the workers' firm or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;
- (2) That sales or production, or both, of such firm or subdivision have decreased absolutely;
- (3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and
- (4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

If any of the above criteria is not satisfied, a negative determination must be made.

The Department of Labor has already determined that the performance of services is not included within the term "articles" as used in Section 222(3) of the Act. See Notice of Negative Determination in *Pan American World Airways, Incorporated* (TA-W-153; 40 FR 54639).

Titan Marble and Stone Company, Incorporated is involved exclusively in the installation of marble, granite, limestone, and slate at job sites. The company is not involved in the production of an

article within the meaning of Section 222(3) of the Act.

After careful review of the issues I have determined that services of the kind provided by Titan Marble and Stone Company Incorporated are not "articles" within the meaning of Section 222(3) of the Trade Act of 1974.

Signed at Washington, D.C. this 21st day of September 1977.

HARRY GRUBERT,
Director, Office of
Foreign Economic Policy.

[4510-28]

[TA-W-1441]

U.S. STEEL CORP., JOLIET-WAUKEGAN
WORKS, JOLIET, ILL.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974, the Department of Labor herein presents the results of investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on December 15, 1976 in response to a worker petition received on that date which was filed by the United Steelworkers of America on behalf of workers and former workers producing carbon steel rods and merchant wire at the Joliet-Waukegan Works, Joliet, Ill. of the U.S. Steel Corporation, Pittsburgh, Pa.

The Notice of Investigation was published in the FEDERAL REGISTER on January 4, 1977 (42 FR 899). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of U.S. Steel Corporation, its customers, the American Iron and Steel Institute, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

- (1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;
- (2) That sales or production, or both, of such firm or subdivision have decreased absolutely;
- (3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and
- (4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important

but not necessarily more important than any other cause.

The investigation revealed that all four of the above criteria have been met.

SIGNIFICANT TOTAL OR PARTIAL
SEPARATIONS

Average employment of hourly workers engaged in employment related to the production of carbon steel rod decreased 24.5 percent in 1975 compared to 1974. Employment decreased 24.2 percent in the first quarter of 1976 compared to the same period of 1975. Employment increased 8.9 percent from April through November 1976 compared to the same period of 1975.

Average employment of hourly workers engaged in employment related to the production of merchant wire decreased 37.2 percent in 1975 compared to 1974. Employment decreased 35.2 percent in the first quarter of 1976 compared to the same period of 1975. Employment decreased 2.0 percent from April through November 1976 compared to the same period of 1975.

SALES OR PRODUCTION, OR BOTH, HAVE
DECREASED ABSOLUTELY

Sales of carbon steel rods decreased 50.3 percent in 1975 compared to 1974. Sales decreased 8.1 percent in the first quarter of 1976 compared to the same period of 1975. Sales increased 53.0 percent from April through November 1976 compared to the same period of 1975.

Sales of merchant wire decreased 58.1 percent in 1975 compared to 1974. Sales decreased 16.7 percent in the first quarter of 1976 compared to the same period of 1975. Sales increased 38.1 percent from April through November 1976 compared to the same period of 1975.

INCREASED IMPORTS

Imports of carbon steel wire rod decreased from 1,313,200 short tons in 1972 to 1,306,400 short tons in 1973, increased to 1,827,600 short tons in 1974, decreased to 1,027,600 short tons in 1975, and increased to 1,032,900 short tons in 1976.

Imports of carbon steel wire, which includes merchant wire, decreased from 515,300 short tons in 1972 to 433,200 short tons in 1973, increased to 553,800 short tons in 1974, decreased to 349,600 short tons in 1975 and increased to 371,800 short tons in 1976.

CONTRIBUTED IMPORTANTLY

A representative sample of the Joliet-Waukegan Works' carbon steel rod and merchant wire customers were surveyed. Many of the carbon steel rod customers who were surveyed indicated that they had increased purchases of imported carbon steel rod while decreasing purchases of carbon steel rod from the Joliet-Waukegan Works. The merchant wire customers who were surveyed indicated that they had increased purchases of imported merchant wire while decreasing purchases of merchant wire from the Joliet-Waukegan Works.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with carbon steel rods and merchant wire produced at the Joliet-Waukegan Works of the U.S. Steel Corporation contributed importantly to the absolute decline in sales and to the total or partial separations of the workers at the Joliet, Illinois plant. In accordance with the provisions of the Act, I make the following certification:

All workers at Joliet, Ill. plant of the Joliet-Waukegan Works of the U.S. Steel Corporation engaged in employment related to the production of carbon steel rods and merchant wire who became totally or partially separated from employment on or after November 15, 1975, and before April 1, 1976, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974. All workers separated after April 1, 1976, are denied certification.

Signed at Washington, D.C. this 29th day of September 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[4510-28]

[TA-W-1572]

WHEELING-PITTSBURGH STEEL CORP.,
MARTINS FERRY, OHIO

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1572: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on January 1, 1977 in response to a worker petition received on January 1, 1977 which was filed by the United Steelworkers of America on behalf of workers and former workers producing galvanized coils and sheets. The petition incorrectly stated that the Martins Ferry plant produces carbon steel, specialty steel products, including piping, culvert pipe, galvanized containers and galvanized pipes, at the Martins Ferry, Ohio plant of Wheeling-Pittsburgh Steel Corporation.

The notice of investigation was published in the FEDERAL REGISTER on January 28, 1977, (42 FR 5457). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Wheeling-Pittsburgh Steel Corporation, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of

eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

- (1) That a significant number or proportion of the workers in the workers' firm or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;
- (2) That sales or production, or both, of such firm or subdivision have decreased absolutely;
- (3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and
- (4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation revealed that all of the above criteria have been met.

SIGNIFICANT TOTAL OR PARTIAL
SEPARATIONS

Average employment of production workers at the Martins Ferry plant declined 26 percent from 1974 to 1975, increased 8 percent from 1975 to 1976, and declined 22 percent in the fourth quarter of 1976 compared to the fourth quarter of 1975.

SALES OR PRODUCTION, OR BOTH, HAVE
DECREASED ABSOLUTELY

Sales of galvanized coils and sheets, in quantity, declined 26 percent from 1974 to 1975, increased 20 percent from 1975 to 1976, and declined 10 percent in the fourth quarter of 1976 compared to the fourth quarter of 1975.

Production of galvanized coils and sheets, in quantity, declined 29 percent from 1974 to 1975, increased 19 percent from 1975 to 1976, and declined 12 percent in the fourth quarter of 1976 compared to the fourth quarter of 1975.

INCREASED IMPORTS

Imports of galvanized steel sheet and strip declined in absolute terms, from 1972 to 1973, increased from 1973 to 1974, and declined from 1974 to 1975. Imports increased 99 percent from 1975 to 1976. The ratios of imports to domestic production and consumption increased from 19.9 percent and 16.7 percent, respectively, in 1975 to 28.3 percent and 22.2 percent, respectively in 1976.

CONTRIBUTED IMPORTANTLY

A sample of customers of the Martins Ferry plant responding to an OTAA survey indicated they had increased purchases of imported galvanized steel coils and sheets.

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with galvanized steel coils and sheets produced at the Martins Ferry, Ohio plant of Wheeling-Pittsburgh Steel Corporation contributed importantly to the total or partial separation of the workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All workers at the Martins Ferry, Ohio plant of Wheeling-Pittsburgh Steel Corporation, who became totally or partially separated from employment on or after October 1, 1976 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 28th day of September 1977.

GLORIA G. PRATT,
Director, Office
of Foreign Economic Policy.

[FR Doc. 77-30058 Filed 10-13-77; 8:45 am]

[4510-28]

[TA-W-1398]

WHEELING-PITTSBURGH STEEL CORP.,
MONESSEN, PA.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1398: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated December 15, 1976 in response to a worker petition received on that date which was filed by the United Steelworkers of America on behalf of workers and former workers at the Monessen, Pennsylvania plant of the Wheeling-Pittsburgh Steel Corporation.

The notice of investigation was published in the FEDERAL REGISTER on January 4, 1977 (42 FR 906). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Wheeling-Pittsburgh Steel Corporation, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

- (1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;
- (2) That sales or production, or both, of such firm or subdivision have decreased absolutely;
- (3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and
- (4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (2) has not been met.

The Department's investigation revealed that the Monessen, Pennsylvania plant produces coke (which is used in the blast furnaces), iron (which is used in the basic oxygen furnaces), and steel ingots. The ingots are rolled into carbon steel slabs, billets, and rounds.

Total sales, in quantity, of carbon steel slabs, billets and rounds at the plant decreased 7 percent in 1974 from 1973, 24 percent in 1975 from 1974 and increased 19 percent in 1976 from 1975.

Total production, in quantity, of carbon steel slabs, billets and rounds at the plant decreased 8 percent in 1974 from 1973, 25 percent in 1975 from 1974 and increased 22 percent in 1976 from 1975.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that sales and production at the Monessen, Pennsylvania, plant of Wheeling-Pittsburgh Steel Corporation have not declined absolutely as required for certification under Section 222 of the Trade Act of 1974.

Signed at Washington, D.C., this 30th day of September 1977.

HARRY GRUBERT,
Director, Office of
Foreign Economic Research.

[4510-28]

[TA-W-1773]

WILSHIRE FASHIONS SOUTH RIVER, N.J. Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1773: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on March 7, 1977 in response to a worker petition received on March 4, 1977 which was filed by the International Ladies' Garment Workers Union on behalf of workers and former workers producing ladies' coats at Wilshire Fashions, South River, New Jersey.

The notice of investigation was published in the FEDERAL REGISTER on March 22, 1977, (42 FR 15479). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Wilshire Fashions, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Evidence developed in the Department's investigation reveals that all four of the above criteria have been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATION

Employment of production workers declined 7.1 percent in 1976 compared to 1975. Employment for the first quarter 1977 was 12.0 percent less than for the same period in 1976. The average hours worked declined 7.4 percent in 1976 compared to 1975. Hours worked declined 30.6 percent the first quarter 1977 compared to the first quarter 1976.

SALES OR PRODUCTION, OR BOTH HAVE DECREASED ABSOLUTELY

Production in terms of quantity declined 9.6 percent in 1976 compared to 1975. Production declined 51.8 percent in the first quarter of 1977 compared to the first quarter of 1976.

INCREASED IMPORTS

U.S. imports of women's, misses' and children's coats and jackets in thousand dozens increased from 1,769 in 1972 to 1,807 in 1973. Imports declined to 1,478 in 1974. In 1975 imports rose to 1,517 and increased 48.4 percent in 1976 to 2,252 over 1975. Imports for January through March 1977 increased to 590 thousand dozen compared to the 506 thousand dozen woven coats imported in the same period in 1976. The ratio of imports to domestic production increased from 35.4 percent in 1975 to 52.2 percent in 1976.

CONTRIBUTED IMPORTANTLY

Wilshire Fashions receive all customers orders from a single manufacturer. Customers of that manufacturer reported switching purchases to imports, due to their lower price and superior styling.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with ladies coats produced by Wilshire Fashions contributed importantly to the separations of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Wilshire Fashions, South River, New Jersey who became totally or partially separated from employment on or after February 28, 1976 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 30th day of September 1977.

HARRY GRUBERT,
Director, Office
of Foreign Economic Research.

[FR Doc 77-30060 Filed 10-13-77; 8:45 am]

[4510-28]

[TA-W-1813]

YEAMAN'S, INC., DOUG & NEIL, INC., ARANSAS PASS, TEX.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1813: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on March 15, 1977, in response to a worker petition received on March 14, 1977, which was filed by three workers on behalf of workers and former workers engaged in shrimp fishing aboard trawlers owned by Yeaman's, Inc. and Doug & Neil, Inc. of Aransas Pass, Tex. The original petition was filed on behalf of those workers and former workers employed by Doug and Neil Yeaman. The investigation revealed that Doug and Neil Yeaman are co-owners of Yeaman's, Inc. and Doug & Neil, Inc., each of which owns three trawlers aboard which the petitioners are engaged in shrimping.

The notice of investigation was published in the FEDERAL REGISTER on April 5, 1977 (42 FR 18155). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Doug & Neil, Inc., Yeaman's, Inc., and their customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separation, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important, but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (4) has not been met.

The evidence developed during the Department's investigation revealed that all shrimp caught and landed by Yeaman's, Inc. and Doug & Neil, Inc. is sold on the open market. Customers who regularly submit bids indicated that most do purchase imported shrimp although these purchases tend to fluctuate from year to year. However, these customers stated that imported shrimp was purchased because their domestic sources are unable to supply them with sufficient quantities to meet their requirements. Several factors were present to decrease shrimp production in 1976 and in the first quarter of 1977. These factors included adverse weather conditions in the Gulf of Mexico, a shortage of shrimp available in known fishing grounds during the first quarter of 1977, and the imposition of a 200-mile fishing restriction by the Mexican government which prevented domestic shrimpers from fishing within Mexican coastal waters.

CONCLUSION

After careful review of the facts obtained in the investigation, it is concluded that imports of articles like or directly competitive with the shrimp caught and landed by Yeaman's Inc. and Doug & Neil, Inc., Aransas Pass, Tex., have not contributed importantly to the total or partial separations of the workers of those companies as required for a certification under Section 222 of the Trade Act of 1974.

Signed at Washington, D.C., this 29th day of September 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

[FR Doc 77-30061 Filed 10-13-77; 8:45 am]

[4510-28]

[TA-W-1464]

YOUNGSTOWN SHEET & TUBE CO., YOUNGSTOWN PLANT, YOUNGSTOWN, OHIO

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1464: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on December 20, 1976, in response to a worker petition received on that date which was filed by the United Steelworkers of America on behalf of workers and former workers producing steel products at the Youngstown, Ohio, plant of the Youngstown Sheet & Tube Co.

The notice of investigation was published in the FEDERAL REGISTER on January 11, 1977 (42 FR 2381). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Youngstown Sheet & Tube Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all of the above criteria have been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Workers were not separately identifiable by product. Average annual employment of production workers decreased 13.6 percent in 1975 compared to 1974. Employment decreased 0.6 percent in 1976 compared to 1975. Separations of workers associated with the announced phasedown of operations began in September 1977.

Workers producing galvanized steel sheet and electric weld pipe at the Youngstown, Ohio, plant of Youngstown Sheet & Tube Co. were separated more than one year prior to the date of the petition and are therefore excluded from coverage by Section 223(b)(1) of the Act.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales of all products manufactured at the Youngstown plant of Youngstown Sheet & Tube Co. decreased 34.7 percent in 1975 compared to 1974. In the first half of 1977 sales increased slightly compared to the same period of 1976. Sales increased from 1975 to 1976 but remained 28.3 percent below the 1974 level due to the company's effort to complete orders before the plant's phasedown operations are completed at the end of 1977. Youngstown's ability to maintain high production levels was due to orders placed by Youngstown's customers in anticipation of the closing of the plant.

INCREASED IMPORTS

Imports of hot and cold rolled carbon steel sheet and strip declined in each year from 5,573,400 tons in 1972 to 3,620,000 tons in 1975 before increasing 11.9

percent to 4,052,200 tons in 1976. Imports increased from 1,767,600 tons in the first half of 1976 to 2,222,600 tons in the first half of 1977.

Imports of carbon hot and cold rolled steel bars decreased from 923.9 thousand tons in 1972 to 834.0 thousand tons in 1973 and decreased to 763.3 thousand tons in 1974. Imports further decreased to 484.4 thousand tons in 1975 and decreased to 439.4 thousand tons in 1976. Imports increased from 135.9 thousand tons in the first half of 1976 to 340.4 thousand tons in the similar period in 1977.

Imports of carbon steel plate decreased from 1,651.0 thousand tons in 1972 to 1,322.0 thousand tons in 1973, increased to 1,699.0 thousand tons in 1974 and decreased to 1,353.0 thousand tons in 1975 before increasing to 1,555.4 thousand tons in 1976. Imports increased from 690.3 thousand tons in the first half of 1976 to 793.0 thousand tons in the same period of 1977.

Imports of carbon steel pipe and tubing declined from 1,768.1 thousand short tons in 1972 to 1,574.6 thousand short tons in 1973. Imports increased to 1,781.5 thousand short tons in 1974, declined to 1,542.5 thousand short tons in 1975 and increased to 1,820.7 thousand short tons in 1976. Imports of pipe and tubing increased from 425.0 thousand tons in the first quarter of 1976 to 515.2 thousand tons in the same period of 1977.

CONTRIBUTED IMPORTANTLY

The Youngstown plant is aged and is not the most efficient of the company's steel making operations. The effects of price competition from readily available imports competitive with the plant's product line have been an important consideration in the company's decision not to undertake the necessary investment in new technologies that would meet environmental standards and make the plant competitive with imports and other domestic competitors.

For the products produced by the plant, imports in 1977 have increased both absolutely and as a proportion of total domestic shipments and total U.S. consumption.

The customer survey done in conjunction with this investigation reveals that imports are an important factor in the domestic market as evidenced by customer awareness of the availability and prices of foreign products and the fact that some major customers of the company have reduced purchases from the company and increased imports.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with products produced at the Youngstown, Ohio, plant of Youngstown Sheet & Tube Co. contributed importantly to the total or partial separation of workers at that plant. In accordance with the provisions of the Act, I make the following certification:

All workers at the Youngstown, Ohio, plant of Youngstown Sheet & Tube Co. who be-

NOTICES

came totally or partially separated from employment on or after July 30, 1976, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 27th day of September 1977.

JAMES F. TAYLOR,
Director, Office of Management,
Administration, and Planning.

Investigations Regarding Certifications of Eligibility To Apply for Worker Adjustment Assistance

Petitions have been filed with the Secretary of Labor under Section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted investigations pursuant to Section 221(a) of the Act and 29 CFR 90.12.

The purpose of each of the investigations is to determine whether absolute or relative increases of imports of articles like or directly competitive with articles produced by the workers' firm or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision.

Petitioners meeting these eligibility requirements will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

Pursuant to 29 CFR 90.13, the petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than October 24, 1977.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than October 24, 1977.

assistance, at the address shown below, not later than October 24, 1977.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor,

200 Constitution Avenue NW., Washington, D.C. 20210.

Signed at Washington, D.C., this 29th day of September 1977.

Wage and Hour Division

BIG RIVER MANUFACTURING CO. ET AL.
Certificates Authorizing the Employment of Learners at Special Minimum Wages

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act (52 Stat. 1062, as amended; U.S.C. 214), Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004) and Administrative Order No. 1-76 (41 FR 18949), the firms listed in this notice have been issued special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates otherwise applicable

under section 6 of the Act. For each certificate, the effective and expiration dates, number or proportion of learners and the principal product manufactured by the establishment are as indicated. Conditions on occupations, wage rates, and learning periods which are provided in certificates issued under the supplemental industry regulations cited in the captions below are as established in those regulations; such conditions in certificates not issued under the supplemental industry regulations are as listed.

The following certificates were issued under the apparel industry learner regulations (29 CFR 522.1 to 522.9, as amended and 522.20 to 522.25, as amended). The following normal labor

turnover certificates authorize 10 percent of the total number of factory production workers except as otherwise indicated.

Big River Mfg. Co., Inc., Kittanning, Pa.; 8-31-77 to 8-30-78. (Boys' shirts.)
Caraway Apparel Co., Caraway, Ark.; 8-22-77 to 8-21-78; 10 learners. (Women's dresses.)
Chatham Knitting Mills, Inc., Chatham, Va.; 7-22-77 to 7-21-78; 8 learners. (Men's jackets.)

Cordele Uniform Co., Cordele, Ga.; 9-8-77 to 9-7-78. (Men's and women's service apparel.)

Crane Mfg. Co., Crane, Mo.; 8-1-77 to 7-31-78. (Women's and men's jeans.)

Elder Mfg. Co., Dexter, Mo.; 8-21-77 to 8-20-78. (Men's and boys' pants.)

Franklin Sportswear, Inc., Canon, Ga.; 9-15-77 to 9-14-78; 10 learners. (Women's and men's jeans.)

Giles Mfg. Corp., Narrows, Va.; 8-22-77 to 8-21-78. (Children's outerwear.)

Saf-T-Bak, Inc., Altoona, Pa.; 6-24-77 to 6-23-78. (Adults' and children's hunting clothes.)

Slidell Industries, Inc., Slidell, La.; 8-23-77 to 8-22-78. (Misses' jeans.)

Somerset Shirt & Pajama Co., Somerset, Pa.; 9-3-77 to 9-2-78. (Boys' nightwear.)

Soperton Mfg. Co., Soperton, Ga.; 9-10-77 to 9-9-78. (Men's shirts.)

Spencer California, Tehachapi, Cal.; 8-1-77 to 7-31-78; 5 learners. (Girls' and toddlers' sleepwear.)

The following plant expansion certificates were issued authorizing the number of learners indicated.

Crane Mfg. Co., Marionville, Mo.; 6-27-77 to 12-26-77; 40 learners for plant expansion purposes. (Ladies' and men's jeans.)

Flushing Shirt Mfg. Co., Inc., Waynesburg, Pa.; 7-23-77 to 1-24-78; 20 learners for plant expansion purposes. (Men's shirts.)

The following certificate was issued under the knitted wear industry regulations (29 CFR 522.1 to 522.9, as amended and 522.30 to 522.35, as amended.)

Junior Form Lingerie Corp., Boswell, Pa.; 6-23-77 to 6-22-78; 5 percent of the total number of factory production workers for normal labor turnover purposes. (Ladies' underwear and pajamas.)

The following learner certificates were issued in Puerto Rico to the companies hereinafter named. The effective and expiration dates, learner rates, occupations, learning periods, and the number of learners authorized to be employees are indicated.

G. F. Mills, Inc., Quebradillas, P.R.; 7-17-77 to 7-16-78; 58 learners for normal labor turnover in the occupations of: (1) knitting, for a learning period of 480 hours at the rate of \$1.95 an hour for the first 240 hours and \$2.12 an hour for the remaining 240 hours; (2) machine stitching-seaming for a learning period of 320 hours at the rate of \$1.95 an hour for the first 160 hours and \$2.12 an hour for the remaining 160 hours; (3) pressing, for a learning period of 320 hours at the rate of \$1.95 an hour for the first 160 hours and \$2.12 an hour for the remaining 160 hours; and (4) kettle handlers and dyers, for a learning period of 240 hours at the rate of \$1.95 an hour. (Sweaters and related products.)

WMSI-Puritan Caribbean Division, Aguas, P.R.; 7-21-77 to 7-20-78; 26 learners for normal labor turnover purposes in the occupation of machine knitting, for a learning period of 480 hours at the rate of \$1.95 an hour for the first 240 hours and \$2.12 an hour for the remaining 240 hours. (Sweaters and shirts.)

NOTICES

Each learner certificate has been issued upon the representations of the employer which, among other things were that employment of learners at special minimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificate may be annulled or withdrawn as indicated therein, in the manner provided in 29 CFR Part 528. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof on or before October 31, 1977.

Signed at Washington, D.C., this 5th day of October 1977.

GORDON L. HIGGINS,
Authorized Representative
of the Administrator.

[Notice (77-67)]

RESEARCH AND TECHNOLOGY ADVISORY COUNCIL INFORMAL COMMITTEE ON HYPERSONIC RESEARCH AND TECHNOLOGY

Meeting

The subject committee will meet on October 31 and November 1, 1977, at the NASA Langley Research Center, Hampton, Va. The meeting will be held in Conference Room 225 of Building 1219. The meeting will be open to the public with the exception of a closed session from 9:15-11:15 a.m. on October 31, 1977. The closed session will include discussions on DOD hypersonic aircraft and missile performance characteristics with respect to specified advanced missions. Since this session will be concerned with matters listed in 5 U.S.C. 552b(c) (1), it has been determined that it should be closed to the public. Members of the public will be admitted on a first-come first-serve basis up to the seating capacity of the room which is about 25 persons. All visitors must report to the Langley Research Center receptionist in Building 1219.

The subject committee serves in an advisory capacity only. The committee will assess the adequacy of the recently restructured hypersonics program to maintain NASA's in-house hypersonic program options. The Chairman is Professor S. M. Bogdonoff.

For further information, contact Arthur Henderson, 202-755-8501 or C. Robert Nysmith, Executive Secretary of the Research and Technology Advisory Council, 202-755-8550, NASA Headquarters, Washington, D.C. 20546.

OCTOBER 31, 1977

9:00 a.m.—Opening Remarks.
9:15 a.m.—Hypersonic Vehicles and Systems (Closed Session).
11:15 a.m.—Hypersonic Overview.

12:45 p.m.—Hypersonic Propulsion.
1:15 p.m.—Hypersonic Aerodynamics and Systems.
1:45 p.m.—Hypersonic Structures.
2:15 p.m.—Discussion and Facility Tour.
4:30 p.m.—Adjournment.

NOVEMBER 1, 1977

8:00 a.m.—Opening Remarks.
8:15 a.m.—NASA Planned Program.
8:45 a.m.—Hypersonic Propulsion.
10:00 a.m.—Hypersonic Aerodynamics and Systems.
11:15 a.m.—Hypersonic Structures.
1:30 p.m.—Committee Discussion and Formulation of Recommendations.
4:30 p.m.—Adjournment.

KENNETH R. CHAPMAN,
Assistant Administrator for
Department of Defense and
Interagency Affairs, National
Aeronautics and Space Administration.

OCTOBER 7, 1977.

[7510-01]

[Notice (77-68)]

SPACE SCIENCE STEERING COMMITTEE OUT-OF-ECLIPTIC (OOE) MISSION ADVISORY SUBCOMMITTEE

Meeting

A subgroup of the above named advisory Subcommittee will meet with an equivalent subgroup of the European Space Agency (ESA) Out-of-Ecliptic Mission Scientific Evaluation Committee, at the European Space Agency, 8-10 Rue Mario Nikis, Paris, on November 9, 10, and 11, 1977, in Room 114 from 9:00 am until 6:00 pm.

This joint NASA/ESA Committee will review and approve the preliminary NASA and ESA Subcommittee scientific evaluations and categorizations of proposals submitted to both agencies for participation in an Out-of-Ecliptic Mission Science Working Team and subsequently in the mission when it is officially approved as a joint NASA and ESA flight project (reference NASA meeting Notice 77-62).

Throughout the joint NASA/ESA Subcommittee sessions the professional qualifications of the proposers, the merits of their proposed flight investigations and the associated instrumentation, and the potential scientific contribution of the proposers to the mission will be candidly discussed and appraised. Discussion of these matters in a public session would invade the privacy of the proposers and other individuals involved.

Since the Subcommittee sessions will be concerned throughout with matters listed in 5 U.S.C. 552b(c) (6), it has been determined that the sessions should be closed to the public.

For further information please contact Dr. Adrienne F. Timothy, National Aeronautics and Space Administration, Washington, D.C. 20546, telephone 202-755-3821, or Dr. George P. Haskell, European Space Agency, 8-10 Rue Mario

Nikis, Paris, France, telephone 567-55-78, Extension 335.

KENNETH R. CHAPMAN,
Assistant Administrator for
DOD and Interagency Affairs.

[4910-58]

NATIONAL TRANSPORTATION SAFETY BOARD

[N-AR 77-41]

ACCIDENT REPORT; RESPONSES TO SAFETY RECOMMENDATIONS Availability and Receipt

Railroad/Highway Accident Report NTSB-RHR-77-1.—The National Transportation Safety Board has made public its investigation report on the grade crossing collision at Stratton, Neb., which on August 8, 1976, resulted in death to nine persons and injury to eight others.

The accident occurred when an east-bound Burlington Northern freight train struck a southbound bus at Stratton's Beaver Avenue crossing. The bus, driven by a minister, was en route to a local church where his 16 passengers were to attend Sunday school.

Probable cause of the accident, as determined by the Safety Board, was the failure of the busdriver to perceive the approaching train and to stop his vehicle short of the tracks. Contributing to the accident was the inadequacy of the grade crossing's obsolete wigwag warning signal as a warning device, the visual obstruction of the signal and partial obstruction of the train by parts of the bus, and the inadequacy of the train's horn as a reliable warning system.

As a result of the investigation of this accident, the Safety Board on August 23, 1977, recommended that the Federal Highway Administration and the Federal Railroad Administration combine efforts to develop and implement a uniform system of warning devices to attract the attention of motor vehicle drivers approaching railroad/highway grade crossings (recommendation H-77-9), and that the city of Stratton cooperate with Burlington Northern in installing an improved protection system at the Beaver Avenue crossing, following recommended practices of the Association of American Railroads (H-77-10). (See 42 FR 44044, September 1, 1977.)

Response from Federal Highway Administration to Highway Safety Recommendation H-77-6.—Letter of September 22 is in answer to the call for publication of an advisory warning to drivers of cargo tanks hauling liquid cargo regarding possible overturn due to lateral surge. This recommendation followed investigation of the overturn of a tractor cargo tank semitrailer, partially loaded with anhydrous ammonia, on May 11, 1976, in Houston, Tex. (See 42 FR 28195, June 2, 1977.)

FHWA reports that after conducting an engineering analysis of the lateral liquid surge phenomenon, it has been concluded that liquid surging of partially loaded tank truck combinations does not create an overturn stability problem that warrants issuing the recommended advisory publication. FHWA states that this analysis took note of the summary analytical material contained in the Safety Board's investigation report (HAR-77-1). FHWA asks whether the Safety Board has developed more detailed material on this matter and could provide calculations that might affect and possibly alter that conclusion. Pending receipt of such material and calculations, FHWA considers this recommendation in open status and will take further action in accordance with the additional analysis to be performed on the Safety Board data.

Response from U.S. Coast Guard to Marine Safety Recommendation M-72-17.—Letter of September 21 concerns a recommendation resulting from a 1972 special study, "Analysis of the Safety of Transportation of Hazardous Materials on the Navigable Waters of the United States," report No. NTSB-MSS-72-2.

As recommended, Coast Guard last April 25 published a notice of proposed rulemaking governing qualifications of personnel involved in the handling, transfer, and transportation of dangerous liquid cargoes in bulk aboard ships and barges (42 FR 21190). Coast Guard is now evaluating comments from 92 interested persons and expects to publish a final rule in the latter part of 1977.

Coast Guard reports that two of its research and development projects, "Recommendations for Qualifications of Liquefied Natural Gas Cargo Personnel" and "Qualification Standards for Personnel Responsible for Hazardous or Noxious Chemicals in Bulk," completed in April 1976 and May 1976, respectively, provide strong support for these proposed regulations.

Further, Coast Guard reports that the Intergovernmental Maritime Consultative Organization, Subcommittee on the Standards of Training and Watchkeeping, would meet for its 10th and final session in September 1977, before going to conference next spring, to consider the final draft recommendations of the Subcommittee; among the instruments considered: (1) Training and Qualifications of Masters, Officers, and Crews of Ships Carrying Liquefied Gases in Bulk, and (2) Training and Qualifications of Officers and Crews of Ships Carrying Hazardous or Noxious Chemicals in Bulk.

Response from Radio Technical Commission for Marine Services (RTCM) to Marine Safety Recommendation M-72-6.—Letter of September 27 concerns a recommendation resulting from another 1972 special study, "Collisions Within the Navigable Waters of the United States: Consideration of Alternative Preventive Measures," report No. NTSB-MSS-72-1.

The recommendation asked RTCM's Special Committee 65 to continue devel-

oping general standards or specifications for shipboard collision avoidance systems for use by the marine industry in evaluating the effectiveness of the various systems available or currently under development. RTCM previously responded to this recommendation last February 25; see 42 FR 14942, March 17, 1977, where M-72-6 was incorrectly referred to as M-72-16.

RTCM now provides two additional specifications for anticollision devices: Performance Specification for a Collision Assessment Device for Merchant Ships (RTCM Paper 82-77/EC-223/SC 65-240 [CAWG-95]), and Performance Specification for a Radar Perimeter Target Detection Device [Guard Zone] (RTCM Paper 129-77/EC-228/SC 65-245 [CAWG 100]).

RTCM states that because the U.S. Coast Guard recently proposed (42 FR 24871, May 16, 1977) that collision avoidance systems be made mandatory on vessels above 10,000 gross tons, RTCM's Paper 21-77/EC-214/SC 65-232, sent to the Safety Board last February 25, has been modified to refer additionally to collision avoidance systems. RTCM has provided a copy of the new paper; Resources Necessary for On-Board Preventive and Corrective Maintenance of Radar Equipment and Collision Avoidance Systems (RTCM Paper 139-77/EC-229/SC 65-246).

In view of the Safety Board's interest in minimum standards for manually processing radar data, expressed in report No. USCG/NTSB-MAR-77-1 (SS BAUNE and KEYTRADER collision in the lower Mississippi River, January 18, 1974; see 42 FR 39514, August 4, 1977), RTCM has also provided this specification: Manual Plotting Facilities for Shipborne Radar Paper 192-71/SC 65-69 Rev. 7-28-77.

Safety Board Reply to Aircraft Owners and Pilots Association (AOPA) Regarding Aviation Safety Recommendation A-77-24.—Letter dated October 3 is in answer to AOPA's August 29 petition for reconsideration and withdrawal of the recommendation issued last May 13 to the Federal Aviation Administration to amend 14 CFR 61.3 to include an implied consent clause which would be a condition for the issuance of a pilot certificate. (See 42 FR 25789, May 19, 1977.)

After careful consideration of AOPA's arguments, the Safety Board still believes its recommendation has merit and will enhance aviation safety. The Board has considered the feasibility, practicability and relevant safety implications of this recommendation. It was not the Board's intent to promote procedures which would infringe on pilot's rights; rather, the recommendation was based on the need to alleviate a known safety problem. The sole intent of the recommendation was to provide FAA enforcement personnel with a means to prevent pilots from flying while intoxicated. The Safety Board, however, cannot instruct FAA on what legal basis to proceed or how it might enforce such a rule.

NOTICES

The Safety Board notes than FAA has concurred with recommendation A-77-24 and has initiated a regulatory project on the subject matter (FAA's letter of June 30; see 42 FR 37460, July 21, 1977). FAA believes that the authority to obtain and use alcohol tests could be helpful in their enforcement of present rules and could also be a deterrent. Therefore, the Board finds no reason to rescind this recommendation.

NOTE.—The above notice consists of summaries of Safety Board documents made available, and recommendation responses received, during the week preceding publication of the notice in the FEDERAL REGISTER. The accident report in its entirety is available to the general public; single copies are obtainable without charge while limited supplies last. Copies of the full text of the response letters and Board correspondence may be obtained at a cost of \$4.00 for service and 10¢ per page for reproduction. All requests must be in writing, identified by recommendation number and date of publication of this notice. Address inquiries to: Public Inquiries Section, National Transportation Safety Board, Washington, D.C. 20594.

Multiple copies of the accident report may be purchased by writing to: National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151.

(Secs. 304(a) (2) and 307 of the Independent Safety Board Act of 1974 (Pub. L. 93-633, 88 Stat. 2169, 2172 (49 U.S.C. 1903, 1906)).)

MARGARET L. FISHER,
Federal Register Liaison Officer.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on Oct. 7, 1977 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

Requests for extension which appear to raise no significant issues are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, 202-395-4529, or from the reviewer listed.

NEW FORMS

DEPARTMENT OF ENERGY

Distribution of bituminous coal and lignite shipments, quarterly, distributors of over 50,000 tons of bituminous coal annually, Strasser, A., 395-5867.

Bituminous coal and lignite production and mine operation, annually, producers of over 1,000 tons of bituminous coal annually, Strasser, A., 395-5867.

Monthly coal report retail dealers—upper lake docks, monthly, retail dealers and upper lake docks, Strasser, A., 395-5867.

Weekly coal monitoring report—general industries, and blast furnaces, weekly, general industries and blast furnaces, Strasser, A., 395-5867.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Health Care Financing Administration (Medicare), employer's agreement, annual cost projection statement, statistical compensation statement, annual cost projection and fiscal year end cost statement, HCFA-977C, 9778, 9779, 9780, annually, MD'S and PE'S human resources division, Reese B. F., 395-3532.

Office of Human Development, home start evaluation forms, single time, individuals, human resources division, Reese B. F., 395-3532.

DEPARTMENT OF JUSTICE

Law Enforcement Assistance Administration, courts justice study, single time, public and subsamples of lawyers, judges, and community leaders, Richard Eisinger, 395-6140.

REVISIONS

VETERANS ADMINISTRATION

Veteran's application for program of education or training (under chapter 34, title 38, U.S.C.), 22-1990, on occasion, veterans, Caywood, D. P., 395-3443.

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service regulations—donation of food commodities for use in United States (part 250), on occasion, State distributing agencies, Caywood, D. P., 395-3443.

Foreign Agricultural Service, trade opportunity referral questionnaire for U.S. suppliers PAS-529, on occasion, companies and or persons interested in exporting, Ellett, C. A., 395-5867.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education, Education Professions Development Act Program, instructions for application for Federal assistance OE 335, annually, LEA's, IHE's, SEA's, nonprofit, Indian Tribes, Laverne V. Collins, 395-5967.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary, coverage check of new mobile home dealers, C-MH-5, on occasion, business firms, Laverne V. Collins, 395-5867.

DEPARTMENT OF LABOR

Bureau of Labor Statistics:

ES 202 (unemployment insurance) industry class supplements, 3023 B-J, annually, ES-202 panel Strasser, A., 395-5867.

Recordkeeping requirements under the Occupational Safety and Health Act, OSHA 100, OSHA 101, OSHA 102, on occasion, employers in private sector with 11 or more employees, Strasser, A., 395-5867.

DEPARTMENT OF THE INTERIOR

Bureau of Mines, sand and gravel, 6-1274-A, annually, Commercial and Government producers of sand and gravel, Ellett, C. A., 395-5867.

REVISIONS

DEPARTMENT OF TRANSPORTATION

National Transportation Safety Board: passenger statement regarding aircraft accident, NTSB6120.9, on occasion, passenger involved in transportation accident, Strasser, A., 395-5867.

Aircraft accident report, NTSB6120.2, on occasion, aircraft operators, Strasser, A., 395-5867.

EXTENSIONS

DEPARTMENT OF DEFENSE

Department of the Air Force, signature and tally record, on occasion, carriers moving DOD shipments, Warren Topellus, 395-5972.

PHILLIP D. LARSEN,
Budget and Management Officer.

DEPARTMENT OF STATE

[Public Notice CM-7/120]

ADVISORY COMMITTEE TO THE UNITED STATES NATIONAL SECTION OF THE INTERNATIONAL COMMISSION FOR THE CONSERVATION OF ATLANTIC TUNAS

Meeting

Notice is hereby given, pursuant to the provisions of Pub. L. 92-463, that a meeting of the Advisory Committee to the United States National Section of the International Commission for the Conservation of Atlantic Tunas, will meet on October 26, 1977 in the Woodward Room of the National Wildlife Federation, 1414 Sixteenth Street, Washington, D.C. at 9:00 a.m. The meeting is to review the state of Atlantic bluefin tuna research and the status of those stocks, research on billfishes, yellowfin tuna research, research on other tuna species (albacore, bigeye and skipjack). The meeting will also review recent international meetings on billfish and Atlantic bluefin tuna. The status of the ICCAT scheme of international inspection will also be considered at this meeting. The meeting will be open to the public. Ample seating will be available for those wishing to attend and those present will be allowed to participate at the direction of the Chairman. Those desiring additional information regarding this meeting may contact Mr. Robert A. Monks at telephone number 202-632-2379.

Dated: October 4, 1977.

JOHN D. NEGROPONTE,
Deputy Assistant Secretary
for Oceans and Fisheries Affairs.

[Public Notice CM-7/121]

SHIPPING COORDINATING COMMITTEE SUBCOMMITTEE ON SAFETY OF LIFE AT SEA

Meeting

The working group on fire protection of the Subcommittee on Safety of Life at Sea, a subcommittee of the Shipping Coordinating Committee, will hold an open meeting at 10:00 a.m. on Tuesday, November 15, 1977 in Room 8238 of the Department of Transportation, 400 7th Street, SW., Washington, D.C. 20590.

The purpose of the meeting is to review documents for the 21st Session of the Intergovernmental Maritime Consultative Organization's (IMCO) Subcommittee on Fire Protection, as well as discussing the results of the 20th Session. Particular items for discussion are:

Mobile Offshore drilling units
Special Purpose Ships
Fire Test Procedures
Tanker Safety

Requests for further information on the meeting should be directed to Mr. D. F. Sheehan, U.S. Coast Guard, Washington, D.C. 20590. He may be reached by telephone on area code 202-426-2197.

The Chairman will entertain comments from the public as time permits.

Dated: October 5, 1977.

CARL TAYLOR, Jr.,
Acting Director,
Office of Maritime Affairs.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. 1P77-11; Notice 1]

RENAULT USA INC.

Petition for Exemption From Notice and Remedy for Inconsequential Noncompliance

Renault USA Inc. of Englewood Cliffs, N.J., has petitioned to be exempted from the notification and remedy requirements of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1331 et seq.) for an apparent noncompliance with 49 CFR 571.124, Motor Vehicle Safety Standard No. 124, Acceleration Control Systems. The basis of the petition is that the noncompliance is inconsequential as it relates to motor vehicle safety.

Standard No. 124 requires that whenever a component of the accelerator control system is disconnected at a single point, the throttle shall return to the idle position within 1 second on any vehicle whose Gross Vehicle Weight Rating is 10,000 pounds or less. Renault has determined that an unknown number of its passenger cars may fail to meet this requirement with the primary return spring removed. The vehicles in question are part of a total population of approximately 13,000 Renault 5, 12, 15, and 17 models manufactured from January 1975 to May 1977. Deterioration in throttle return performance appears caused by gumming that occurred as a consequence of ocean shipment, which resulted in the failure "by a small margin to return fully to the idle position or return within the required one second interval." Renault argues that the noncompliance is inconsequential for several reasons. Its primary argument is that the design of the throttle plate opener system is such that

With the engine running, the carburetor spiral spring is itself sufficient to bring the throttle control linkage back to the position imposed by the throttle plate opener. As a result, at speeds above 21 mph and even at speeds above 17 mph returning from a higher speed, there is no difference between the situation in which the carburetor spiral spring only is operative.

Renault also states that there have been no customer complaints or warranty problems associated with the condition. NHTSA's investigatory file number of this case is CIR 1619.

This notice of receipt of a petition is published under section 157 of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1417) and does not represent any agency decision or other exer-

cise of judgment concerning the merits of the petition. Interested persons are invited to submit written data, views and arguments on the petition of Renault USA Inc. described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street SW., Washington, D.C. 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered. The application and supporting materials, and all comments received after the closing date will also be filed and will be considered to the extent possible. When the petition is granted or denied, notice will be published in the FEDERAL REGISTER pursuant to the authority indicated below.

Comment closing date: November 16, 1977.

(Sec. 102, Pub. L. 93-492, 88 Stat. 1470 (15 U.S.C. 1417); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8.)

Issued on October 7, 1977.

ROBERT L. CARTER,
Associate Administrator,
Motor Vehicle Programs.

[4910-62]

Office of the Secretary

[OST File No. 54; Notice No. 77-12]

DISPOSITION OF RAILROAD PASSENGER EXPERIMENTAL ROUTE

Intent To Make Findings and Final Decision on the "Lake Shore Limited," a Railroad Passenger Experimental Route Between Boston, Mass., and Chicago, Ill.

Section 403(c) of the Rail Passenger Service Act ("the Act"), 45 U.S.C. 563(c), provides that "[t]he Secretary (of Transportation), in consultation with the Board of Directors (of Amtrak), shall terminate (an experimental) route if he finds that it has attracted insufficient patronage to serve the public convenience and necessity, or he may designate such route as a part of the basic system"

The "Lake Shore Limited" was designated by the Secretary under section 403(c) of the Act as an experimental route on June 27, 1974, and began operating on October 31, 1975. It has been operated by Amtrak continuously since that time. The passenger stations served along the route are Boston, Framingham, Worcester, Springfield, and Pittsfield in Massachusetts; Albany, Utica, Syracuse, Rochester, and Buffalo in New York; Erie, Pa.; Cleveland, Elyria, and Toledo in Ohio; Elkhart and South Bend in Indiana; and Chicago, Ill.

Notice is hereby given that the Secretary proposes to issue a decision whether to terminate or continue the "Lake Shore Limited" as a part of the basic system as required by section 403(c) of the Act.

Interested persons are invited to submit written data, views, arguments, or other comment to the Docket Clerk, OST

File No. 54, Office of the General Counsel, Department of Transportation, Washington, D.C. 20590. Each comment shall indicate the OST file number and the notice number shown on this notice, and shall state whether the person commenting supports termination or inclusion of the "Lake Shore Limited" within the basic system, and the reasons therefor.

Comments received prior to the deadline date will be considered in arriving at this decision. The deadline date is November 14, 1977. Copies of all written comments received will be available for examination by interested persons in Room 10100, Department of Transportation, Nassif Building, 400 Seventh Street SW., Washington, D.C., between the hours of 9 a.m. and 5:30 p.m. on Mondays through Fridays with the exception of Federal holidays.

For further information regarding this notice, interested persons may contact Natalie Bayless, U.S. Department of Transportation, Room 5101, 400 Seventh Street SW., Washington, D.C. 20590, telephone No. 202-426-8220.

Dated: October 11, 1977.

BROCK ADAMS,
Secretary of Transportation.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

DEPARTMENT OF LABOR

Pension and Welfare Benefit Programs

EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974

Pendency of Temporary Class Exemption to Permit Plans to Purchase Customer Notes From Employers Maintaining Plans

AGENCIES: Department of the Treasury/Internal Revenue Service Department of Labor.

ACTION: Notice of pendency of exemption.

SUMMARY: This document contains a notice of pendency before the Internal Revenue Service (the Service) and the Department of Labor (the Department) of a temporary class exemption from certain restrictions of the Employee Retirement Income Security Act of 1974 (the Act) to permit employee benefit plans to purchase certain notes from employers any of whose employees are covered by the plan where the employers receive such notes from their customers in the ordinary course of their business and the notes are collateralized by chattel mortgages on the property purchased by the customers.

DATES: Written comments and requests for a public hearing must be received by the Internal Revenue Service on or before November 28, 1977.

ADDRESSES: Written comments and all requests for a hearing (preferably six copies) should be addressed to the Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C.

20224, Attention: E:EP:PT, Application No. D-639. All the applications for exemption which form the basis of this class exemption and all comments relating to this proposed exemption will be available for public inspection at the Internal Revenue Service National Office Reading Room, 1111 Constitution Avenue NW., Washington, D.C. 20224 and at the Public Documents Room of the Pension and Welfare Benefit Programs, Room N-4677, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20216.

FOR FURTHER INFORMATION CONTACT:

Charles Scalera of the Prohibited Transactions Staff of the Employee Plans Division, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224 (Attention: E:EP:PT) (202-566-3045); Daniel J. Shapiro, Plan Benefits Security Division, Office of the Solicitor, Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20210 (202-523-7931). These are not toll free numbers.

SUPPLEMENTARY INFORMATION:

BACKGROUND

Notice is hereby given of the pendency before the Internal Revenue Service (the Service) and the Department of Labor (the Department) (hereinafter referred to as the Agencies) of a class exemption from the restrictions of sections 406(a), 406(b) (1) and (2) and section 407(a) of the Employee Retirement Income Security Act of 1974 (the Act) and the taxes imposed by section 4975 (a) and (b) of the Internal Revenue Code of 1954 (the Code) by reason of section 4975(c)(1) (A) through (E) of the Code. This exemption is proposed pursuant to section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975) and Rev. Proc. 75-26, 1975-1 C.B. 722.

The Agencies have received over 35 applications which request individual exemptions to permit employee benefit plans to purchase customer notes from employers any of whose employees are covered by the plan. These individual applications form the basis for the proposed temporary class exemption.

The applications for individual exemption contain common representations with regard to the transactions described in the proposed class exemption which are summarized below. All transactions referred to in the individual exemption applications will be exempted if they satisfy the terms and conditions of the class exemption. Interested persons are referred to the applications on file with the Agencies for the complete representations of the applicants.

1. Prior to January 1, 1975, the effective date of the relevant provisions of the Act and the Code, it had been an established business practice in many industries for an employer to sell personal property (e.g., construction equipment) to a customer, for the customer to sign a conditional sales contract and note for

the amount due (hereafter referred to as "the note" or "the notes"), for the employer, in connection with its primary business activity, to accept such notes, collateralized by a chattel mortgage or equivalent security interest in the property so purchased, and then sell the notes to employee benefit plans in which its employees participate, as well as to unrelated third parties.

2. Plans which have invested in such notes have experienced very low default rates and rarely, if ever, experienced a loss because the employer or the principals of the employer, or both, have guaranteed payment of principal and interest.

3. The notes generally have varied in length from 36 to 60 months and have been fully secured by various types of equipment and vehicles covered by the conditional sales contracts.

4. Notes of similar quality to those sold to plans have been sold to unrelated financial institutions on the same terms, and the notes, as well as the underlying collateral, have been readily marketable.

5. The notes generally have provided greater returns to plans than the return that has been available from alternative investment opportunities.

Although there have been a substantial number of applications filed seeking individual exemptions for transactions of the subject type, no individual applicant or association or organization has requested a class exemption.

As noted above, representations contained in the individual applications contend that the practice of selling customer notes to plans has been in the interests of such plans and their participants as well as protective of the rights of participants and beneficiaries, because the notes provided higher yields and greater security than was otherwise available to plans through alternative investments. The Agencies are aware, however, that abuses can occur in this type of investment if employers sell customer notes to their plans which do not provide a rate of return as favorable to the plan as such notes sold in an arm's-length transaction with a third party would provide and are not adequately secured.

In an effort to prevent the disruption of customary and beneficial business practices the Agencies have attempted to develop guidelines which would enable them to consider, on an equitable and consistent basis, individual applications for exemption to permit plans to purchase customer notes from employers. However, the Agencies have determined that it may not be administratively feasible and in the interests of plan participants and beneficiaries to handle these applications on an individual basis and attempt to distinguish, at this time, among transactions which have common protections and safeguards.

Because the Agencies believe that adequate independent safeguards are available to protect plan participants and beneficiaries and that it would be administratively feasible to deal with these applications on a class basis, the Agencies, pursuant to section 3.01 of ERISA Procedure 75-1 and Rev. Proc. 75-26, on their own motion have determined to

group such applications in a class and to publish for comment notice of a class exemption.

The proposed exemption contains specific conditions to protect the interests of plan participants and beneficiaries, including requirements that the sale of such note be on arm's-length terms, that the employer guarantee repayment of the note, that no more than 25 percent of plan assets may be invested in customer notes of the employer, that the note be adequately secured, that the term of the note may not exceed a certain number of months, depending on the security of the note, and that insurance against loss or damage to the collateral be provided by the obligor until the note is repaid or repurchased by the employer.

Because the proposed exemption, if granted, would cover a wide range of transactions which present varying potentials for abuse and because the Agencies are in the process of developing experience in dealing with such transactions, the proposed exemption is a temporary class exemption which will expire on December 31, 1981. During the period of the temporary class exemption the Agencies will monitor the results of the exemption to determine whether the benefit such exemption provides outweighs the abuse potential that may exist, and whether the class exemption should be made permanent, modified, or be permitted to lapse.

So that the Agencies may properly monitor the operation of the exemption, certain information must be submitted by every plan which enters into transactions in reliance on the exemption. The proposed exemption also provides that the Agencies may require certain plans to submit additional information regarding the operation of the exemption.

Several applications requested exemptions for purchases of customer notes made by plans during a period after December 31, 1974, which were a continuation of a practice that existed prior to that date, were beneficial to such plans and provided adequate protection for plan participants. Accordingly, the proposed exemption includes a special exemption which provides an exemption for the purchase of notes before June 30, 1975, and for the continued holding of such notes. However, for the exemption for transactions occurring prior to June 30, 1975, to apply, the terms of the transaction must have been at least as favorable to the plan as an arm's-length transaction with an unrelated third party would have been and the plan must have received adequate security. In addition, to enable plans to divest themselves of any holdings of customers notes in excess of the limits established by the exemption, the exemption provides relief for the sale of customer notes to a party in interest or disqualified person if the sale is necessary to comply with the conditions of the exemption and the plan receives adequate consideration, provided the sale is consummated within 180 days of the grant of this exemption.

The proposed exemption will cover transactions involving sales of notes to plans secured by tangible personal property but will not exempt sales of unse-

cured notes or notes secured by real property because the Agencies have not received sufficient information to determine that a class exemption may be proposed with adequate safeguards against abuse. The Agencies will, however, consider such applications on an individual case-by-case basis.

Under the provisions of section 3.04 of ERISA Proc. 75-1 and Rev. Proc. 75-26, an application for an individual exemption would not ordinarily be considered separately if a class exemption which would encompass the transactions described in the application for an individual exemption is under consideration by the Agencies. Accordingly, the Agencies are notifying directly each applicant for an individual exemption of the fact that such applicant's application is not being considered separately from this class exemption, and that following the disposition of this proposed class exemption such application would ordinarily be closed, and, therefore, such applicant's comments with respect to this class exemption are sought by the Agencies.

Because all plan participants whose employers receive customer notes in the ordinary course of business could conceivably be considered interested persons, the only practical form of notice is publication in the FEDERAL REGISTER.

GENERAL INFORMATION

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or party in interest or other disqualified person with respect to a plan to which the exemption is applicable from certain other provisions of the Act and the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act which, among other things, require a fiduciary to discharge his duties respecting the plan solely in the interest of the plan's participants and beneficiaries and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act, nor does it affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries.

(2) The pending exemption, if granted, will not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code.

(3) Before an exemption may be granted under section 408(a) of the Act and section 4975(c)(2) of the Code, the Agencies must find that the exemption is administratively feasible, in the interest of the plan or plans and of their participants and beneficiaries, and protective of the rights of such participants and beneficiaries of such plan or plans;

(4) The class exemption, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory exemptions and transitional rules. Fur-

thermore, the fact that a transaction is subject to an administrative or statutory exemption or transitional rule is not dispositive of whether the transaction is in fact a prohibited transaction;

(5) If granted, the pending class exemption will be applicable to a particular transaction only if the transaction satisfies the conditions specified in the class exemption; and

(6) All interested persons are invited to submit written comments on this pending class exemption to the address and within the time period set forth above. In addition, any interested person may submit to the address and within the time period set forth above, a written request that a hearing be held relating to the pending class exemption. Such written request should state the reasons for such person's interest in the pending class exemption.

A list of individual applications which form the basis for this class exemption as well as the applications for exemption, all written comments and all requests for a hearing (preferably six copies) will be made part of the record and will be available for public inspection at the addresses set forth above.

PROPOSED EXEMPTION

Based on the applications hereinabove described, the Agencies have under consideration the granting of the following temporary class exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975) and Rev. Proc. 75-26, 1975-1 C.B. 722.

Section I.—Definition of customer notes. For purposes of this exemption a customer note is a two-party instrument, executed along with a conditional sales contract for tangible personal property, which is accepted in connection with, and in the normal course of, the employer's primary business activity as a seller of such property. A two-party instrument is a promissory instrument used in connection with the extension of credit in which one party (the maker) promises to pay a second party (the payee) a sum of money.

Sec. II.—General exemption. Effective upon the granting of this exemption, the restrictions of sections 406(a), 406(b)(1) and (2), and 407(a) of the Act and the taxes imposed by section 4975 (a) and (b) of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply until December 31, 1981, to the purchase and holding by employee benefit plans of customer notes (as defined in section I) acquired from employers any of whose employees are covered by such plans, provided that the following conditions are met:

A. Within three and one-half months after the close of a plan year during which a plan engages in a transaction in reliance on this class exemption, the trustees of the plan shall submit the following information in duplicate to Internal Revenue Service (E:EP:PT) 1111 Constitution Avenue NW., Washington, D.C. 20224 (Attn: Customer Notes):

1. Name and address of employer, 2.

employer's identification number, 3. name and address of plan administrator, 4. plan administrator's identification number, 5. plan name and number, 6. plan's balance sheet for the last plan year, and 7. number of plan participants at close of plan year.

B. Upon request by the Agencies, the trustee or other appropriate fiduciary of a plan which engaged in a transaction in reliance on this exemption shall submit to the Agencies such additional information regarding the transaction as may be requested. Any request for additional information shall be in writing and shall be signed by representatives of both Agencies.

C. Any sale of customer notes to the plan is on terms at least as favorable to the plan as an arm's-length transaction with an unrelated third party would be.

D. Immediately following the acquisition of the customer notes from the employer, not more than 25 percent of the current value (as the term is defined in section 3(26) of the Act) of the assets of the plan is invested in customer notes of the employer.

E. The employer guarantees in writing immediate repayment of the outstanding balance of the note and accrued interest in the event the note is more than 30 days in arrears, or the obligor on the note fails to comply with any terms or conditions of the note; or in the event the obligor shall become insolvent, commit an act of bankruptcy, make an assignment for the benefit of creditors, call a meeting of creditors, appoint a committee of creditors or a liquidating agent, offer a composition or extension to creditors, make a bulk sale; send notices of an intended bulk sale; or in the event any proceeding, suit or action at law, in equity or under any of the provisions of the Bankruptcy Act or of amendments thereto for reorganization, composition, extension, arrangement, receivership, liquidation, or dissolution shall be begun by or against obligor; or in the event of the appointment under any jurisdiction at law or in equity of any receiver of any property of the obligor; or in the event the condition of affairs of the obligor shall so change as to, in the opinion of the plan trustees, impair its security or increase its credit risk; or should the obligor fail to take proper care of the goods or abandon the same.

F. The plan receives adequate security for the note. For purposes of this exemption, the term adequate security means that the note is secured by a perfected security interest in the property purchased by the obligor on the note so that if the security is foreclosed upon or otherwise disposed of in default of repayment of the loan, the value and liquidity of the security is such that it may reasonably be anticipated that loss of principal or interest will not result. In no event shall adequate security mean an interest in intangible personal property, such as, but not limited to, accounts, contract rights, documents, instruments, chattel paper, and general intangibles.

G. Insurance against loss or damage to the collateral from fire or other haz-

NOTICES

ards will be procured and maintained by the obligor until the note is repaid or repurchased by the employer, and the proceeds from such insurance will be assigned to the plan.

H. Repayment must be provided for in the following manner:

1. Where the note is secured by heavy equipment, the term shall in no event exceed 60 months. For purposes of this exemption, heavy equipment shall include machinery sold by equipment distributors such as, but not limited to, earth moving, material handling, pipe laying, power generation, and construction machinery manufactured according to standard specifications, such as, but not limited to, portable air compressors, backhoes, cranes, crushers, dozers, earth-boring machines, excavators, fork lifts, graders, hydraulic hammers, loaders, rollers, scrapers, tractors, trailers, trenchers, trucks over 10,000 pounds, and highway material handling equipment, but shall not include such equipment which has been specifically designed and manufactured to a user's specifications and which cannot reasonably be expected to be resold in the ordinary course of the equipment distributor's business.

2. Where the note is secured by passenger automobiles and light-duty highway motor vehicles, the term shall in no event exceed 48 months. For purposes of this exemption, passenger automobiles and light-duty highway motor vehicles are defined as vehicles which have a gross weight of 10,000 pounds or less, are propelled by means of their own motor and are a type used for highway transportation.

3. Where the note is secured by tangible personal property other than heavy equipment or motor vehicles, described in paragraph H 1 and 2 above, the term shall in no event exceed 36 months.

I. A plan which relies upon this exemption shall maintain or cause to be maintained for a period of six years from the date of such transaction such records as are necessary to enable the Agencies to determine whether the conditions of this exemption have been met, except that:

1. A prohibited transaction will not be deemed to have occurred if, due to circumstances beyond the control of the plan fiduciaries, such records are lost or destroyed prior to the end of such six year period; and

2. Such employer shall not be subject to the civil penalty which may be assessed under section 502(i) of the Act, or to the taxes imposed by section 4975 (a) and (b) of the Code, if such records are not maintained, or are not available for examination as required by paragraph J below.

J. Notwithstanding anything to the contrary in subsections (a) (2) and (b) of section 504 of the Act, the records referred to in paragraph I above are unconditionally available at their customary location for examination during normal business hours by:

1. The Internal Revenue Service; 2. the Department of Labor; 3. plan participants and beneficiaries; 4. any employer of plan participants; 5. any em-

ployee organization any of whose members are covered by the plan; or 6. any duly authorized employee or representative of a person described in subparagraphs (1) through (5) of this paragraph.

Sec. III.—Special exemption. A The restrictions of sections 406(a) and 406 (b) (1) and (2), and 407(a) of the Act and the taxes imposed by section 4975 (a) and (b) of the Code by reason of section 4975(c) (1) (A) through (E) of the Code shall not apply to the purchase and holding by employee benefit plans of customer notes purchased before June 30, 1975, from employers any of whose employees are covered by such plan provided that the following conditions are met:

1. The terms of the purchase of the note by the plan were at least as favorable to the plan as an arm's-length transaction with an unrelated third party would have been; 2. the plan received adequate security as defined in section (II) (F) above; and 3. such purchases were ordinarily and customarily made by the plan prior to January 1, 1975.

B. The restrictions of sections 406(a) and 406(b) (1) and (2) of the Act and section 4975(c) (1) (A) through (E) of the Code shall not apply until (180 days after the grant of this exemption), to the sale, exchange, or other disposition of customer notes which are owned by the plan on October 14, 1977, to a disqualified person or party in interest if:

1. Such sale is made in order to comply with the conditions of this exemption; and 2. the plan receives not less than adequate consideration.

Signed at Washington, D.C., this 11th day of October 1977.

ALVIN D. LURIE,
Assistant Commissioner (Em-
ployee Plans and Exempt Or-
ganizations) Internal Revenue
Service.

IAN D. LANOFF,
Administrator of Pension and
Welfare Benefit Programs,
Labor Management Services
Administration, U.S. Depart-
ment of Labor.

INTERSTATE COMMERCE COMMISSION

[Notice No. 236]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

The following publications include motor carrier, water carrier, broker, and freight forwarder transfer applications filed under Section 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act.

Each application (except as otherwise specifically noted) contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application.

Protests against approval of the application, which may include a request for oral hearing, must be filed with the Commission on or before November 14, 1977. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest must be served upon applicants' representative(s), or applicants (if no such representative is named), and the protestant must certify that such service has been made.

Unless otherwise specified, the signed original and six copies of the protest shall be filed with the Commission. All protests must specify with particularity the factual basis, and the section of the Act, or the applicable rule governing the proposed transfer which protestant believes would preclude approval of the application. If the protest contains a request for oral hearing, the request shall be supported by an explanation as to why the evidence sought to be presented cannot reasonably be submitted through the use of affidavits.

The operating rights set forth below are in synopsis form, but are deemed sufficient to place interested persons on notice of the proposed transfer.

No. MC-FC-35475, filed September 15, 1977. Lessee: X-TRAN CORP., 75-11 Ditmars Blvd., Jackson Heights, N.Y. 11370. Lessor: Jersey Coast Freight Lines, Inc., 830 Old Corlies Ave., Neptune, N.J. 07753. Applicant's representative: Edward M. Alfano and Roy A. Jacobs, Attorneys at Law, 550 Mamaroneck Ave., Harrison, N.Y. 10528. Authority sought for lease by lessee of the operating rights of lessor, as set forth in Certificates No. MC 107417 and (Sub-No. 6), issued September 13, 1950, and December 14, 1965, respectively, as follows: *General commodities*, except those of unusual value, and except dangerous explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, and commodities requiring special equipment, between New York, N.Y., on the one hand, and, on the other, points and places in Mercer, Monmouth, Ocean, Atlantic, Camden and Burlington Counties, and those in Middlesex and Somerset Counties, N.J., south of the Raritan

River. *Petroleum and petroleum products*, in tank vehicles, from Carteret, N.J., to Port Jervis, N.Y., with no transportation for compensation on return. *General commodities*, except those of unusual value, and except dangerous explosives, livestock, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, and commodities in bulk, between points and places in Hudson and Essex Counties, N.J., on the one hand, and, on the other, points and places in Middlesex, Monmouth, Atlantic, and Ocean Counties, N.J. *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, from New York, N.Y., to points in Cape May, Cumberland, Gloucester, and Salem Counties, N.J., with no transportation for compensation on return except as otherwise authorized. Lessee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-77283, filed September 26, 1977. Transferee: LOOP FLEET SERVICE, INC., 1818 North Commerce Street, Milwaukee, Wis. 53212. Transferor: Fidelity Storage & Van Co., Inc., 1818 North Commerce Street, Milwaukee, Wis. 53212. Applicant's representative: James L. Sernovitz, Vice-president, 1818 North Commerce Street, Milwaukee, Wis. 53212. Authority sought for purchase by transferee of the operating rights of transferor as set forth in Certificate No. MC 36738, issued September 25, 1975, as follows: *General commodities* with the usual exceptions between Omaha, Nebr. and Council Bluffs, Iowa. Transferee is presently authorized to operate as a common carrier under Certificate No. MC 139077. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-77308, filed September 14, 1977. Transferee: WORTH CONSOLIDATORS, INC., 3 Irving Dr., San Anselmo, Calif. 94960. Transferor: Tyler Consolidators, Inc., 3 Irving Dr., San Anselmo, Calif. 94960. Applicants' representative: Floyd L. Farano, Attorney at Law, 2555 East Chapman Ave., Suite 705, Fullerton, Calif. 92631. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificates No. MC 64719 and MC 64719 (Sub-No. 1), issued May 11, 1973 and June 27, 1973, as follows: *Household goods*, between points within 100 miles of San Francisco, Calif., including San Francisco. *Beans*, from Irvine, Calif., and points in Santa Barbara and Ventura Counties, Calif., to Los Angeles Harbor, Calif. From points in Santa Barbara and Ventura Counties, Calif. to Port Hueneme, Calif., with no transportation for compensation on return except as otherwise authorized. *Sugar*, from Oxnard, Calif., to Los Angeles Harbor, Calif., and Port Hueneme, Calif., with no transportation for

compensation on return except as otherwise authorized. *Lumber, corrugated iron, and fertilizer*, from Los Angeles Harbor, Calif., and Port Hueneme, Calif., to points in Ventura County, Calif., with no transportation for compensation on return except as otherwise authorized. *Household goods*, as defined by the Commission, between Oxnard, Calif., on the one hand, and, on the other, points in Ventura County, Calif. Between points in Ventura County, Calif. on the one hand, and, on the other, Los Angeles and Los Angeles Harbor, Calif. Between Ventura, Calif., on the one hand, and, on the other, points in Ventura County, Calif. Between Hueneme Harbor, Calif., on the one hand, and, on the other, points in Ventura County, Calif. (except Ventura, Calif.). Between Hueneme Harbor, Calif., on the one hand, and, on the other, points in Fresno, Inyo, Kern, Kings, Monterey, San Bernardino, San Luis Obispo, Santa Barbara, and Tulare Counties, Calif. Between Hueneme Harbor, Calif., on the one hand, and, on the other, Richmond and San Francisco, Calif., points on San Francisco Bay south of Richmond and San Francisco, and those in the Los Angeles Harbor, Calif., Commercial Zone as defined by the Commission, restricted to traffic moving between such points for immediate subsequent shipment by water carrier. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-77309, filed September 28, 1977. Transferee: MILLER FREIGHTWAYS, INC., 160 Governor St., East Hartford, Conn. 06108. Transferor: WM. H. MNO EXPRESS, INC., 160 Governor St., East Hartford, Conn. 06108. Applicants' representative: John E. Fay, Attorney at Law, 630 Oakwood Ave. (Suite 127), West Hartford, Conn. 06110. Authority sought for purchase by transferee of a portion of the operating rights of transferor, as set forth in Certificate No. MC 64770, issued April 19, 1956, as follows: *General commodities*, between points in Connecticut, Massachusetts, New York, and New Jersey. Transferee presently holds no authority from this Commission. Application has been filed for temporary authority under Section 210a(b).

No. MC-FC-77310, filed September 14, 1977. Transferee: EARL FREEMAN and MARIE FREEMAN, d.b.a. MID-TENN EXPRESS, P.O. Box 101, Eagleville, Tenn. 37060. Transferor: Earl Freeman, d.b.a. Mid-Tenn Express, P.O. Box 101, Eagleville, Tenn. 37060. Applicants' representative: Robert L. Baker, Attorney at Law, 618 United American Bank Bldg., Nashville, Tenn. 37219. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificates Nos. MC 124117, issued July 6, 1962, MC 124117 (Sub-No. 1) issued January 7, 1977, MC 124117 (Sub-No. 4) issued October 28, 1970, MC 124117 (Sub-No. 6) issued October 16, 1975, MC 124117 (Sub-No. 7) issued October 4,

NOTICES

1974, MC 124117 (Sub-No. 8) issued November 18, 1975, MC 124117 (Sub-No. 10) issued June 18, 1976, MC 124117 (Sub-No. 12) issued September 23, 1976, MC 124117 (Sub-No. 13) issued January 11, 1977, MC 124117 (Sub-No. 15) issued November 26, 1976, MC 124117 (Sub-No. 17) issued May 13, 1977 as follows: *Malt beverages, and related advertising materials*, from St. Louis, Mo., Peoria, Ill., Louisville, Ky., and Detroit, Mich., to points in a described part of Tennessee; from Milwaukee, Wis., and Evansville, Ind. to a described part of Tennessee; from Winston-Salem, N.C. to points in a described part of Tennessee; from Houston County, Ga., to Cookeville, Tenn., and to points in a described part of Tennessee from St. Joseph, Mo., and Newport, Ky., to points in a described part of Tennessee; from Belleville, Ill., to Columbus, Ohio, Fort Wayne, Ind., Baltimore, Md., New Orleans, La., and St. Paul, Minn., to points in a described part of Tennessee; from Belleville, Ill., and St. Paul, Minn., to points in Georgia; from New Orleans, La., St. Louis, Mo., Fort Wayne, Ind., and St. Paul, Minn., to points in Alabama; *Malt beverages*, from Evansville, Ind., to Memphis, Tenn., and to Chattanooga, Tenn.; from Detroit, Mich., and St. Joseph and St. Louis, Mo., to Dresden, Tenn., from Belleville, Ill., Detroit, Mich., Milwaukee, Wis., St. Joseph and St. Louis, Mo., and Winston-Salem, N.C., to Dyersburg, Tenn.; from Baltimore, Md., Detroit, Mich., Perry, Ga., and St. Louis, Mo., to Jackson, Tenn., from Milwaukee, Wis., Peoria, Ill., Perry, Ga., and St. Louis, Mo., to Martin, Tenn.; from Ft. Wayne, Ind., to Memphis, Tenn.; from points in Houston County, Ga., to Bowling Green, Henderson, Hopkinsville, Lebanon, and Richmond, Ky.; from Detroit, Mich., Milwaukee, Wis., St. Louis, Mo., Peoria, Ill., and Evansville, Ind., to Richmond, Ky.; from Ft. Wayne and Evansville, Ind., and Columbus, Ohio, to Bowling Green, Ky.; from Fort Wayne and Evansville, Ind., Detroit, Mich., St. Louis, Mo., and Milwaukee, Wis., to Frankfort, Ky.; from Peoria, Ill., and Evansville, Ind., to Henderson, Ky.; from Memphis, Tenn., Winston-Salem, N.C., and St. Joseph, Mo., to Hopkinsville, Ky.; from St. Joseph, Mo., Evansville, Ind., and Milwaukee, Wis., to Bardstown, Ky.; from Evansville, Ind., Belleville, Ill., and St. Joseph, Mo., to Louisville, Ky.; from Detroit, Mich., and Evansville, Ind., to Lexington, Ky.; from Jacksonville, Fla., to Cookeville, Pulaski, Cleveland, Dunlap, and Tullahoma; Tenn., and Huntsville, Ala.; from Evansville, Ind., to points in Georgia, Alabama; from Fort Worth and San Antonio, Tex., to Albany, Columbus, and Atlanta, Ga., Columbia, Memphis, Cookeville, Pulaski, Nashville, and Knoxville, Tenn., Eutaw, Opelika, Montgomery, Huntsville, and Dothan, Ala., and Bowling Green, Ky.; and *Scrap paper*, from Pulaski, Franklin, Mt. Pleasant, Sparta, Shelbyville, Lebanon, Nashville, and Fayetteville, Tenn., to Alton, Ill. Transferee presently holds no authority from this Commis-

sion. Application for temporary authority has not been filed under Section 210a(b).

No. MC-FC-77312 filed September 15 1977. Transferee: FISCHER MOTOR LINES, INC., 31207 Arrowhead, St. Clair Shores, Mich. 48083. Transferor: Fairall Trucking Co., 18472 Allen Road, Wyandotte, Mich. 48192. Applicants representative: William B. Elmer, 21635 East Nine Mile Road, St. Clair Shores, Mich. 48080. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Permit Nos. MC 29883, MC 29883 (Sub-No. 7), and MC 29883 (Sub-No. 8), issued February 25, 1976, May 20, 1975, and February 25, 1976, respectively as follows: Empty containers, eggs, and groceries, between Detroit, Mich., and Chicago, Ill.; Such merchandise as is dealt in by wholesale, retail and chain grocery and food business houses, and in connection therewith, equipment, materials, and supplies used in the conduct of such business, between Detroit, Mich., on the one hand, and, on the other, Toledo and Cincinnati, Ohio, and Indianapolis, Ind.; brick and stone surfaced aluminum entryways, aluminum, stone, and brick siding, rain carrying equipment, shutters, and equipment, materials and supplies and accessories, used in the installation of all of these commodities, when moving at the same time and in the same vehicle therewith (except commodities which because of size or weight require the use of special equipment), from Southfield, Mich., to South Bend, Mishawaka, Elkhart, and Angola, Ind., and points in Cook, Lake, Kane, DuPage and Will Counties, Ill.; Foodstuffs, (except frozen foods, meats, meat products, and meat by-products and commodities in bulk), from the facilities of Nabisco, Inc., located at Chicago, Ill., to the facilities of Nabisco, Inc., located at Farmington, Mich.; and Paper and paper products, between Monroe, Mich., on the one hand, and, on the other, points in Ohio; Strawboard, fibreboard, corrugated board, and boxes, manufactured therefrom, from Monroe, Mich., to points in Illinois, those in Missouri in the St. Louis, Mo., Commercial Zone, as defined by the Commission in 1 M.C.C. 656, those in a specified area of Wisconsin and West Virginia, Raw materials used in the manufacture of the above-specified commodities, from the next-above-specified destination points to Monroe, Mich.; Paper and paper products, from Monroe, Mich., to Connorsville, Ind., and points in that part of Indiana on and north of U.S. Highway 40 to Monroe, Mich.; Raw materials used in the manufacture of paper and paper products, from Connorsville, Ind., and points in that part of Indiana on and north of U.S. Highway 40 to Monroe, Mich. Paper and paper products, from Monroe, Mich., to points in Ohio; to points in Ohio; to Monroe, Mich. Transferee presently holds no authority from this Commission. Application has been filed

for temporary authority under Section 210a(b).

No. MC-FC-77317 filed September 19, 1977. Transferee: GEORGE J. WEBB, JR., AND GEORGE J. WEBB, III, a partnership, d.b.a. WEBB TRUCKING, R.R. No. 2, McLeansboro, Ill. 62859. Transferor: Harry E. Clark, R.R. No. 4, McLeansboro, Ill. 62859. Applicant's representative: Robert T. Lawley, 300 Reich Bldg., Springfield, Ill. 62701. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Permit No. MC 135636 (Sub-No. 2), issued July 18, 1972, as follows: *Lumber and lumber products*, from Poplar Bluff, Mo., to McLeansboro, Ill., and *nails, strapping, and steel dip tanks*, between Poplar Bluff, Mo., on the one hand, and, on the other, McLeansboro, Ill. The operations authorized are limited to a transportation service to be performed, under a continuing contract, or contracts, with Joseph G. Boldwell Company, of McLeansboro, Ill. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-77319, filed September 20, 1977. Transferee: MUHLENHAUPT MOVERS, INC., P.O. Box 238, Northport, N.Y. 11768. Transferor: Mid-Island Van Lines Corp., Wantagh, N.Y. Applicant's representative: William J. Augello, Attorney at Law, 120 Main Street, Huntington, N.Y. 11743. Authority sought for purchase by transferee of the operating rights of transferor set forth in Certificate No. MC 103047 issued October 17, 1968, as follows: *Household goods* as defined by the Commission between points in Nassau and Suffolk Counties, N.Y., on the one hand, and, on the other, points in New York, Massachusetts, Rhode Island, Maine, New Hampshire, Vermont, Delaware, Maryland, Virginia, and the District of Columbia. Transferee is presently authorized to operate as a common carrier under Certificate No. MC 110071 (Sub-No. 1). Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-77324, filed September 23, 1977. Transferee: PHILIP THOMAS TRUCKING, INC., P.O. Box 742, Wynnewood, Okla. 73098. Transferor: Philip A. Thomas, d.b.a. Philip Thomas Trucking Co., P.O. Box 742, Wynnewood, Okla. 73098. Applicant's representative: T. M. Brown, 223 Ciudad Bldg., Oklahoma City, Okla. Authority sought for purchase by transferee of the operating rights of transferor set forth in Certificate No. MC 138916 (Sub-No. 2), issued July 9, 1976, as follows: *Asphalt*, in bulk, in tank vehicles, from the plant site of Kerr-McGee Corporation, at or near Wynnewood, Okla., to points in Anderson, Archer, Baylor, Bell, Bosque, Brown, Callahan, Camp, Cherokee, Clay, Coleman, Collin, Comanche, Cooke, Coryell, Dallas, Delta, Denton, Eastland, Ellis, Erath, Falls, Fannin, Franklin, Freestone, Grayson, Hamilton, Henderson, Hill, Hood, Hop-

kins, Hunt, Jack, Johnson, Kaufman, Lamar, Lampasas, Limestone, McLennan, Mills, Montague, Morris, Navarro, Palo Pinto, Parker, Rains, Red River, Rockwall, Shackleford, Smith, Somervell, Stephens, Tarrant, Throckmorton, Titus, Upshur, Van Zandt, Wichita, Wilbarger, Wise, Wood, and Young Counties, Tex., with no transportation for compensation on return except as otherwise authorized. Application has not been filed for temporary authority under Section 210a(b). Transferee presently holds no authority from this Commission.

No. MC-FC-77327, filed September 22, 1977. Transferee: R. E. GARRISON TRUCKING, INC., P.O. Box 186, Highway 278 East, Cullman, Ala. 35055. Transferor: Hunt Transportation, Inc., 10770 "T" Street, Omaha, Nebr. 68127. Applicants' representative: Donald L. Stern, 530 Univac Bldg., 7100 West Center Rd., Omaha, Nebr. 68106. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate Nos. MC 82841 (Sub-No. 47), and MC 82841 (Sub-No. 88), issued June 25, 1969, and June 15, 1972, respectively, as follows: Materials and equipment used in the production of eggs and poultry, except commodities in bulk, from the plant site of Pockman Manufacturing Company, Inc., in Morgan County, Ala., to points in Colorado, Indiana, Illinois, Kansas, Iowa, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, Wisconsin, Wyoming, and Utah. The operations are restricted to the transportation of traffic originating at the plant site of Pockman Manufacturing Company, Inc., in Morgan County, Ala.; Materials and equipment used in the production of eggs and poultry (except commodities in bulk), from the plant site of Pockman Manufacturing Company, Inc., located in Morgan County, Ala., to points in Arizona, Arkansas, California, Connecticut, Delaware, Florida, Georgia, Idaho, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Mississippi, Montana, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Virginia, Washington, West Virginia, and the District of Columbia. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-77329, filed September 27, 1977. Transferee: HORTON TRUCKING CORP., Box 224, Wytheville, Va. 24382. Transferor: Elwood Horton, Box 116, Ropplemead, Va. 24150. Applicant's representative: William Pendleton, President, Horton Trucking Corp., Wytheville, Va. 24382. Authority sought for purchase by transferee of the operating rights of transferors set forth in Certificate No. MC 134642 (Sub-No. 1) and MC 134642 (Sub-No. 4) issued June 9, 1971 and September 15, 1976 respectively, as follows: Crushed stone and asphalt, bituminous asphalt, and silica sand from specified

points in Virginia to specified counties in West Virginia. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-77334, filed September 27, 1977. Transferee: IMPALA COACH LINES (1974), LTD., d.b.a. Impala Coach Lines, 2219 Government St., Penticton, British Columbia, Canada. Transferor: Western Bus Lines of B. C., Ltd., d.b.a. Western Bus Lines, 944 8th Street, Kamloops, British Columbia, Canada. Applicant's representative: Michael B. Crutcher, attorney at law, 2000 IBM Bldg., Seattle, Wash. 98101. Authority sought for purchase by transferee of the operating rights of transferor as set forth in Certificate No. MC 140341 (Sub-No. 2) issued July 21, 1976, as follows: Passengers and their baggage in round-trip charter operations beginning and ending at the ports of entry on the United States-Canada boundary line located at or near Sumas and Oroville, Wash., and extending to points in Washington, Oregon, Idaho, Nevada, and California. Transferee is presently authorized to operate as a common carrier under Certificate No. MC 135374 and subs thereafter. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-77340, filed October 3, 1977. Transferee: DONALD L. SWEIGART, 1117 Ivy Dr., Lancaster, Pa. 17601. Transferor: Clarence M. Buch, Box 472, R.D. No. 3, New Holland, Pa. 17549. Applicants' representative: John M. Musselman, Esquire, Rhoads, Simon & Hendershot, 410 North Third St., Harrisburg, Pa. 17108. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate No. MC 111019, issued April 19, 1974, as follows: Pulverized agricultural limestone from points in Lancaster County, Pa., to points (other than incorporated municipalities) in Delaware and Maryland. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-77376, filed September 27, 1977. Transferee: MEEUWSEN PRODUCE & GRAIN, INC., 9525 Ransom, Zeeland, Mich. 49464. Transferor: Rodger Cooper, d.b.a. O. R. Cooper & Son, 1217 Paula St., Champaign, Ill. 61820. Applicants' representative: Robert T. Lawley, attorney at law, 300 Reich Bldg., Springfield, Ill. 62701. Authority sought for purchase by transferee of the operating rights of transferor as set forth in Certificate No. MC 15894 issued June 14, 1972, as follows: Foodstuffs from the plantsites and storage facilities of Kraftco Corporation and Kraft Foods at or near Champaign, Ill. to points in Ohio, West Virginia, and the Lower Peninsula of Michigan, points in those parts of New York, Pennsylvania, and Maryland on and west of Interstate

Highway 81. Transferee presently holds no authority from this Commission. Application has been filed for temporary authority under Section 210a(b).

H. G. HOMME, Jr.,
Acting Secretary.

[Volume No. 38]

PETITIONS, APPLICATIONS, FINANCE MATTERS (INCLUDING TEMPORARY AUTHORITIES), RAILROAD ABANDONMENTS, ALTERNATE ROUTE DEVIATIONS, AND INTRASTATE APPLICATIONS

Petitions for Modification, Interpretation, or Reinstatement of Operating Rights Authority

OCTOBER 7, 1977.

The following petitions seek modification or interpretation of existing operating rights authority, or reinstatement of terminated operating rights authority.

The Commission has recently provided for easier identification of substantive petition matters and all documents should clearly specify the "docket", "sub", and "suffix" (e.g. M1, M2) numbers identified by the FEDERAL REGISTER notice.

An original and one copy of protests to the granting of the requested authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protest shall comply with Special Rule 247(d) of the Commission's General Rules of Practice (49 CFR 1100.247) and shall include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon petitioner's representative, or petitioner if no representative is named.

No. MC 103926 (Sub-No. 36) (M1) (Notice of filing of petition to add destination points), filed August 24, 1977. Petitioner: W. T. MAYFIELD SONS TRUCKING CO., INC., P.O. Box 947, Mableton, Ga. 30059. Petitioner's representative: K. Edward Wolcott, P.O. Box 872, Atlanta, Ga. 30301. Petitioner holds a motor common carrier certificate in No. MC 103926 (Sub-No. 36), authorizing transportation, over irregular routes, of *Construction machinery and equipment*, which because of size or weight, requires the use of special equipment or handling, and *related tools, accessories, parts and attachments*, moving incidentally thereto as part of the same shipment, from points in Kentucky, North Carolina, Virginia, and West Virginia, to West Palm

¹ Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

NOTICES

Beach and Miami, Fla. By the instant petition, petitioner seeks to modify the above authority by adding Jacksonville, Tallahassee, and Tampa, Fla., as additional destination points.

No. MC 123061 (Sub-No. 49) (M1) (Notice for removal of restriction on tacking), filed September 1, 1977. Petitioner: LEATHAM BROTHERS, INC., P.O. Box 16026, Salt Lake City, Utah 84104. Petitioner's representative: Harry D. Pugsley, Suite 1200, 310 South Main Street, Salt Lake City, Utah 84101. Petitioner holds a motor common carrier certificate in No. MC 123061 (Sub-No. 49), issued November 27, 1970, authorizing transportation over irregular routes, of *Lumber and lumber products*, (1) from points in Clackamas, Deschutes, Douglas, Hood River, Jackson, Josephine, Klamath, and Wasco Counties, Oreg., to points in Utah, restricted against tacking or combining said authority with any authority held by carrier for the purpose of performing a through service, and (2) from points in Montana in and west of Ravalli, Deer Lodge, Silverbow, Powell, and Flathead Counties, to points in that part of Idaho south of the southern boundary of Idaho County, restricted to the transportation of shipments destined to points in Idaho and Utah. By the instant petition, petitioner seeks to delete the restriction in part (2). Petitioner states that removal of said restriction would permit the transportation of lumber and lumber products from counties in Montana in and west of Ravalli, Deer Lodge, Silverbow, Powell, and Flathead into California through the combining of such service with petitioners Sub 36 authority. In the alternative, petitioner asks that the Commission amend its Certificate No. MC 123061 (Sub-No. 49) by adding to the destination points of Idaho and Utah, the state of California.

No. MC 133590 (Sub-No. 2) (M1) (Notice of filing of petition to broaden territorial description), filed July 15, 1977. Petitioner: WESTERN CARRIERS, INC., 288 Franklin Street, Worcester, Mass. 01604. Petitioner's representative: David M. Marshall, 135 State Street, Suite 200, Springfield, Mass. 01103. Petitioner holds a motor contract carrier Permit in No. MC 133590 (Sub-No. 2), issued March 22, 1973, authorizing transportation, over irregular routes, of *Plastic articles*, except commodities in bulk, in tank vehicles, from Clinton and Leominster, Mass., to points in Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Missouri, Nebraska, Ohio, Oklahoma, Pennsylvania (except points in Bucks, Carbon, Chester, Delaware, Lackawanna, Lehigh, Luzerne, Monroe, Montgomery, Northampton, Philadelphia, Pike, and Wayne Counties), Texas, West Virginia, and Wisconsin, with no transportation for compensation on return except as otherwise authorized: Restriction: The operations authorized herein are limited to a transportation service to be performed under a continuing contract, or

contracts with Amory Chemical & Plastics Co., Inc., of Clinton, Mass. By the instant petition, petitioner seeks to change the territorial description to read: between Clinton and Leominster, Mass., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), under a continuing contract, or contracts with Amory Chemical & Plastics Co., Inc., of Clinton, Mass.

REPUBLICATIONS OF GRANTS OF OPERATING RIGHTS AUTHORITY PRIOR TO CERTIFICATION

NOTICE

The following grants of operating rights authorities are republished by order of the Commission to indicate a broadened grant of authority over that previously noticed in the FEDERAL REGISTER.

An original and one copy of a petition for leave to intervene in the proceeding must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such pleading shall comply with Special Rule 247(d) of the Commission's General Rules of Practice (49 CFR 1100.247) addressing specifically the issue(s) indicated as the purpose for republication, and including copies of intervenor's conflicting authorities and a concise statement of intervenor's interest in the proceeding setting forth in detail the precise manner in which it has been prejudiced by lack of notice of the authority granted. A copy of the pleading shall be served concurrently upon the carrier's representative, or carrier if no representative is named.

No. MC 50307 (Sub-No. 86) (Republication), filed November 22, 1976, published in the FEDERAL REGISTER issue of December 30, 1976, and republished this issue. Applicant: INTERSTATE DRESS CARRIERS, INC., 247 West 35th Street, New York, N.Y. 10001. Applicant's representative: Herbert Burststein, One World Trade Center, Suite 2373, New York, N.Y. 10048. An Order of the Commission, Review Board Number 3, dated August 23, 1977, and served September 2, 1977, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier*, by motor vehicle, over irregular routes, transporting: Wearing apparel, and materials and supplies used in the manufacture of wearing apparel, (1) between Morgantown, W. Va., on the one hand, and, on the other, points in New Jersey, New York, and Pennsylvania, and Woodsfield and Cleveland, Ohio, and (2) between Woodsfield, Ohio, on the one hand, and, on the other, points in New Jersey, New York, and Pennsylvania, that applicant is fit, willing, and able properly to perform the granted service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to indicate the points in New Jersey, New York, and Pennsylvania in (1) above, as applicant's additional grant of authority.

No. MC 109595 (Sub-No. 17) (Republication), filed April 8, 1977, published in the FEDERAL REGISTER issue of May 12, 1977, and republished this issue. Applicant: REX TRANSPORTATION CO., a corporation, Suite 207 Clausen Building, 1520 North Woodward Avenue, Bloomfield Hills, Mich. 48013. Applicant's representative: William B. Elmer, 21635 East Nine Mile Road, St. Clair Shores, Mich. 48080. An Order of the Commission, Review Board Number 3, dated August 31, 1977, and served September 26, 1977, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, transporting: *Cement* between Detroit, Mich., on the one hand, and on the other, ports of entry on the international boundary line between the United States and Canada, in Michigan located on the Detroit and St. Clair Rivers, restricted to the transportation of shipments moving toward from points in Ontario, Canada; that applicant is fit, willing, and able properly to perform the granted service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to indicate a two-way radial movement, in lieu of a one-way radial movement, in applicant's actual grant of authority.

No. MC 141879 (Sub-No. 1) (Republication), filed June 29, 1976, published in the FEDERAL REGISTER issue of August 12, 1976, and republished this issue. Applicant: L. D. CHILDRESS AND KENNETH D. CHILDRESS doing business as CHILDRESS BROTHERS, P.O. Box 525, Briscoe, Tex. 79011. Applicant's representative: William D. Lynch, P.O. Box 912, Austin, Tex. 78767. An Order of the Commission, Review Board No. 3, dated August 17, 1977, and served September 2, 1977, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *contract carrier*, over irregular routes, in the transportation of: (1) Wooden mouldings and door-jams, from points in Hemphill County, Tex., to points in California, Colorado, Iowa, Illinois, Indiana, Kansas, Michigan, Minnesota, Missouri, Nebraska, Nevada, New Mexico, Ohio, Oklahoma, Tennessee and Wisconsin; and (2) lumber, from points in Missouri, Tennessee and Wisconsin, to points in Hemphill County, Tex., under a continuing contract or contracts, with Canadian Millwork, Inc., of Canadian, Tex.; that applicant is fit, willing and able properly to perform the granted service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to indicate the additional grant of Iowa as a destination state in part (1) above.

No. MC 143131 (Republication), filed March 23, 1977, published in the Fed-

ERAL REGISTER issue of May 12, 1977, and republished this issue. Applicant: GODSEY BROTHERS, INC., 5804 Whitethorne Drive, Evansville, Ind. 47710. Applicant's representative: R. Cameron Rollins, 321 E. Center Street, Kingsport, Tenn. 37660. An Order of the Commission, Review Board No. 1, dated September 16, 1977 and served September 29, 1977, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *contract carrier*, by motor vehicle, over irregular routes, in the transportation of (1) cinder block, brick, clay products, and cement products (except commodities in bulk), (a) from Fairdale, Ky., to points in Indiana, and Illinois, and (b) from Evansville, Ind., to points in Illinois and Kentucky, and (2) materials and supplies used in the manufacture of brick, block tile, and concrete (except commodities in bulk), from points in Indiana and Illinois to Fairdale, Ky., under a continuing contract or contracts, with General Shale Products Corp. of Johnson City, Tenn., restricted in (2) above against the transportation of shipments of cement in bags; that applicant is fit, willing, and able properly to perform the granted service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to indicate the actual authority granted.

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER OPERATING RIGHTS APPLICATION

NOTICE

The following applications are governed by Special Rule 247 of the Commission's General Rules of Practice (49 CFR 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the FEDERAL REGISTER. Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with Section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy

NOTICES

of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its applications shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 1756 (Sub-No. 32), filed August 26, 1977. Applicant: PEOPLES EXPRESS CO., a corporation, 497 Raymond Boulevard, Newark, N.J. 07105. Applicant's representative: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a *common carrier*, by motor vehicles, over irregular routes, transporting: (1) *Containers* and (2) *materials and supplies* used in the manufacture, distribution or sale of containers (except commodities in bulk, and steel in coil form) between points in Connecticut, Delaware, Maine, North Carolina, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and Virginia in non-radial movement, restricted to the transportation of shipments originating at or destined to the facilities of American Can Co., Kaiser Aluminum and Chemical Corp., and National Can Corp.

NOTE.—Applicant now holds authority in various certificates to provide a portion of the service. If hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 9812 (Sub-No. 6) filed August 26, 1977. Applicant: C. F. KOLB TRUCKING CO., INC., R.R. 1, Box 294, Mt. Vernon, Ind. 47620. Applicant's representative: Edwin J. Simcox, 601 Chamber of Commerce Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Roofing, shingles, exterior siding, floor tiles, and materials and supplies used in the installation thereof*, from the plant and warehouse sites of GAF Corporation, Mt. Vernon and Evansville, Ind. Savannah, Ga., Kansas City, Mo., Joliet, Ill., Mobile, Ala., and St. Louis, Mo., to points in Alabama, Arkansas, Florida, Georgia, Illi-

nois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Michigan, Mississippi, Missouri, Nebraska, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Virginia, West Virginia, and Wisconsin; (2) *Materials, equipment, and supplies (except in bulk) used in the manufacture and distribution of roofing*, from points in the above-named destination States to the plant and warehouse sites of GAF Corp. in Mt. Vernon and Evansville, Ind., Savannah, Ga., Kansas City, Mo., Joliet, Ill., Mobile, Ala., and St. Louis, Mo.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at either Indianapolis, Indiana or St. Louis, Mo.

No. MC 32882 (Sub-No. 81), filed September 1, 1977. Applicant: MITCHELL BROS. TRUCK LINES, a corporation, P.O. Box 17039, Portland, Oreg. 97217. Applicant's representative: Lex F. Page (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Pipe and pipe fittings, couplings, connections, and accessories (except iron and steel and commodities, which because of size or weight require the use of special equipment), from the plant or warehouse sites of Armo Steel Corp., Metal Products Division, located in Madera County, Calif., to points in Arizona, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, and Wyoming. Restricted to traffic originating at the above plants or warehouse sites and destined to points shown above, and further restricted against the transportation of oilfield commodities as defined in Mercer-Extension-Oilfield Commodities, 74 M.C.C. 459.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at San Francisco or Los Angeles, Calif.

No. MC 35706 (Sub-No. 6), filed August 26, 1977. Applicant: ATSL, INC., 6801 State Street, Philadelphia, Pa. 19135. Applicant's representative: Steven M. Tannenbaum, 135 N. 4th Street, Philadelphia, Pa. 19106. NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Philadelphia, Pa. or Camden, N.J.

No. MC-43269 (Sub-No. 67), filed September 1, 1977. Applicant: WELLS CARGO, INC., 1775 East 4th Street, Reno, Nev. 89512. Applicant's representative: David N. Inwood, P.O. Box 1511, Reno, Nev. 89505. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Pipe and pipe fittings, couplings,

NOTICES

connections, and accessories (except iron or steel and commodities because of size or weight require the use of special equipment), from the plant or warehouse sites of Armco Steel Corp., Metal Productions Division, in Madera County, Calif., to points in Arizona, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, and Wyoming, and restricted to traffic originating at the above plants or warehouse sites and destined to points shown above and further restricted against the transportation of oil field commodities as defined in Mercer-Extension-Oilfield Commodity, 74 M.C.C. 459.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at San Francisco or Los Angeles, Calif.

No. MC 48959 (Sub-No. 138), filed August 30, 1977. Applicant: ILLINOIS-CALIFORNIA EXPRESS, INC., 510 East 51st Avenue, P.O. Box 16404, Denver, Colo. 80216. Applicant's representative: Lee E. Lucero (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from points in Iowa, Omaha, West Point, Dakota City, Scottsbluff, Schuyler, and Fremont, Nebr.; Holton, Emporia, and Kansas City, Kans.; and Kansas City, Mo., to points in Arizona, California, Colorado, New Mexico, and Utah.

NOTE.—If a hearing is deemed necessary, applicant request that it be held at Omaha, Nebr., or Denver, Colo.

No. MC 52932 (Sub-No. 32), filed September 2, 1977. Applicant: NORTH PENN TRANSFER, INC., Box 230, Lansdale, Pa. 19446. Applicant's representative: John W. Frame, Box 626, 2207 Old Gettysburg Road, Camp Hill, Pa. 17011. Authority sought to operate as a common carrier, by motor vehicle, in interstate or foreign commerce, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment). (1) Between junction New Jersey Highway 23 at New York/New Jersey State line and Newark, N.J., serving all intermediate points. Beginning at the junction of the New York/New Jersey State line and New Jersey Highway 23 near Port Jervis, N.Y. thence in a southeasterly direction over New Jersey Highway 23 to Newark, and return over the same route. (2) Between Montague, N.J. and junction of U.S. Highway 206 and U.S. Highway 30, serving all intermediate points. Beginning at Montague, thence in a southerly direction over U.S. Highway 206 to its junction with U.S. Highway 30 near Hammonton, N.J., and return over the same route. (3) Between junction U.S. Highway 202 and the New York/New Jersey State line near Suffern, N.Y., and junction U.S. Highway 202 and 22, serving all intermediate points. Beginning at junction of U.S. Highway 202 and New York/New Jersey State line, thence in a southerly direction over U.S. Highway 202 to its junction with U.S. Highway 22, and return over the same route. (4) Between Interstate 80 and the Pennsylvania/New Jersey State line near Delaware Water Gap, Pa., and Fort Lee, N.J., serving all intermediate points. Beginning at the junction of I-80 and the Pennsylvania/New Jersey State line near Delaware Water Gap, thence in an easterly direction over I-80 to Fort Lee, and return over the same route. (5) Between junction U.S. Highway 206 and New Jersey Highway 15 and I-80, serving all intermediate points. Beginning at the junction of U.S. Highway 206 and New Jersey Highway 15, thence in a southerly direction over New Jersey Highway 15 to its junction with I-80 near Mount Arlington, N.J., and return over the same route. (6) Between junction New York/New Jersey State line and U.S. Highway 9W and Cape May, N.J., serving all intermediate points. Beginning at the junction of New York/New Jersey State line and U.S. Highway 9W, thence in a southerly direction over U.S. Highway 9W to its junction with U.S. Highway 9, thence in a southerly direction over U.S. Highway 9 to Cape May, and return over the same route. (7) Between Columbia, N.J. and Netcong, N.J., serving all intermediate points. Beginning at Columbia, thence in an easterly direction over U.S. Highway 46 to Netcong, and return over the same route. (8) Between Netcong, N.J. and East Orange, N.J., serving all intermediate points. Beginning at Netcong, thence in an easterly direction over New Jersey Highway 10 to East Orange, and return over the same route. (9) Between Northfield, N.J. and East Orange, N.J., serving all intermediate points. Beginning at Northfield, thence in an easterly direction over New Jersey Highway 508 to East Orange, and return over the same route. (10) Between Troy Hills, N.J. and Newark, N.J., serving all intermediate points. Beginning at Troy Hills, thence in an easterly direction over I-280 to Newark, and return over the same route. (11) Between Buttzville, N.J. and Trenton, N.J., serving all intermediate points. Beginning at Buttzville, thence in a southerly direction over New Jersey Highway 31 to Trenton, and return over the same route. (12) Between Phillipsburg, N.J. and Newark, N.J., serving all intermediate points. Beginning at Phillipsburg, thence in an easterly direction over U.S. Highway 22 to its junction with I-78, thence over I-78 to Newark, and return over the same route. (13) Between Annandale, N.J. and Somerville, N.J., serving all intermediate

points. Beginning at Annandale, thence in a southeasterly direction over U.S. Highway 22 to Somerville, and return over the same route. (14) Between North Brunswick, N.J. and Deepwater, N.J., serving all intermediate points. Beginning at North Brunswick, thence in a southwesterly direction over U.S. Highway 130 to Deepwater, and return over the same route. (15) Between Trenton, N.J. and Asbury Park, N.J., serving all intermediate points. Beginning at Trenton, thence in an easterly direction over New Jersey Highway 33 to Asbury Park, and return over the same route. (16) Between Robbinsville, N.J. and Tuckerton, N.J., serving all intermediate points. Beginning at Robbinsville, thence in a southeasterly direction over New Jersey Highway 539 to Tuckerton, and return over the same route. (17) Between Mansfield Square, N.J. and McGuire Air Force Base, Fort Dix, N.J., serving all intermediate points. Beginning at Mansfield Square, thence in a southeasterly direction over New Jersey Highway 68 to McGuire Air Force Base, and return over the same route. (18) Between Burlington, N.J. and junction New Jersey Highways 530 and 70, serving all intermediate points. Beginning at Burlington, thence in a southeasterly direction over New Jersey Highway 541 to Mount Holly, N.J., thence over New Jersey Highway 530 in an easterly direction to its junction with New Jersey Highway 70, and return over the same route. (19) Between junction Pennsylvania/New Jersey State line and New Jersey Highway 73 near Palmyra, N.J., and junction New Jersey Highway 73 and U.S. Highway 30, serving all intermediate points. Beginning at junction Pennsylvania/New Jersey State line and New Jersey Highway 73 near Palmyra, thence in a southeasterly direction over New Jersey Highway 73 to its junction with U.S. Highway 30, near Berlin, N.J., and return over the same route. (20) Between Camden, N.J. and South Amboy, N.J., serving all intermediate points. Beginning at Camden, thence over New Jersey Highway 70 in a northeasterly direction to its junction with New Jersey Highway 35, thence in a northerly direction over New Jersey Highway 35 to South Amboy, and return over the same route. (21) Between junction New Jersey Highways 70 and 72, and Ship Bottom, N.J., serving all intermediate points. Beginning at the junction of New Jersey Highways 70 and 72, thence in a southeasterly direction over New Jersey Highway 72 to Ship Bottom, and return over the same route. (22) Between junction New Jersey Highways 72 and 563, and Seaville, N.J., serving all intermediate points. Beginning at the junction of New Jersey Highways 72 and 563, thence in a southeasterly direction over New Jersey Highway 563 to its junction with New Jersey Highway 50 at Egg Harbor City, thence in a southerly direction over New Jersey

Highway 50 to Seaville, and return over the same route. (23) Between Camden, N.J. and Atlantic City, N.J., serving all intermediate points. Beginning at Camden, thence in a southeasterly direction over U.S. Highway 30 to Atlantic City, and return over the same route. (24) Between junction U.S. Highway 130 and New Jersey Highway 45, and Salem, N.J., serving all intermediate points. Beginning at the junction of U.S. Highway 130 and New Jersey Highway 45, thence in a southwesterly direction over New Jersey Highway 45 to Salem, and return over the same route. (25) Between junction U.S. Highway 130 and New Jersey Highway 47 and Wildwood, N.J., serving all intermediate points. Beginning at the junction of U.S. Highway 130 and New Jersey Highway 47 near Westville, N.J., thence in a southeasterly direction over New Jersey Highway 47 to Wildwood, and return over the same route. (26) Between junction U.S. Highway 326 and the Pennsylvania/New Jersey State line, and Atlantic City, N.J., serving all intermediate points. Beginning at the junction of Pennsylvania/New Jersey direction over U.S. Highway 322 to near Bridgeport, N.J., thence in an easterly direction over U.S. Highway 322 to its junction with U.S. Highway 40, near McKee City, thence over U.S. Highway 40/322 to Atlantic City, and return over the same route. (21) Between Deepwater, N.J. and Tuckahoe, N.J., serving all intermediate points. Beginning at Deepwater, thence in a southeasterly direction over New Jersey Highway 49 to Tuckahoe, and return over the same route. (28) Between Deepwater, N.J. and Atlantic City, N.J., serving all intermediate points. Beginning at Deepwater, thence in an easterly direction over U.S. Highway 40/322 to Atlantic City, and return over the same route. (29) Between Mullica Hill, N.J., and Bridgeton, N.J., serving all intermediate points. Beginning at Mullica Hill, thence in a southerly direction over New Jersey Highway 77 to Bridgeton, and return over the same route. (30) Between junction U.S. Highway 30 and New Jersey Highway 54, near Hammonton, N.J., and Buena, N.J., serving all intermediate points. Beginning at the junction of U.S. Highway 30 and New Jersey Highway 54, near Hammonton, thence over New Jersey Highway 54 in a southerly direction to Buena, and return over the same route, and serving those off-route points in Atlantic, Bergen, Burlington, Camden, Cape May, Cumberland, Essex, Gloucester, Hudson, Hunterdon, Mercer, Middlesex, Monmouth, Morris, Ocean, Passaic, Salem, Somerset, Sussex, Union and Warren Counties, in connection with the regular route descriptions in 1 through 30 above.

NOTE.—Applicant states it holds all of the above authority as irregular route authority under Docket No. MC 52932, Sub 29G. The purpose of this application is to convert said irregular route authority to regular route authority. Common control may be involved. If a hearing is deemed necessary, the applicant requests that it be held at Harrisburg, Pa.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at either Jacksonville, Florida or Atlanta, Georgia.

No. MC 63792 (Sub-No. 28), filed September 6, 1977. Applicant: TOM HICKS TRANSFER COMPANY, INC., P.O. Box 16006, Houston, Tex. 77002. Applicant's representative: C. W. Ferebee (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Air pollution, heating and cooling equipment, and parts and accessories* for such commodities, from Houston, Tex., to points in Alabama, Arizona, Arkansas, Colorado, Florida, Georgia, Idaho, Illinois, Iowa, Indiana, Kansas, Kentucky, Louisiana, Montana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, Nevada, New Mexico, North Carolina, North Dakota, Ohio, Oklahoma, South Carolina, South Dakota, Tennessee, Virginia, West Virginia, Wisconsin, Wyoming, and Utah; and (2) materials, supplies, parts and equipment used in the manufacture of air pollution, heating and cooling equipment, from points in the above named destination states to Houston, Tex.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at either Dallas or Houston, Tex.

No. MC 64932 (Sub-No. 574), filed August 29, 1977. Applicant: ROGERS CARTAGE CO., a corporation, 10735 South Cicero Ave., Oak Lawn, Ill. 60453. Applicant's representative: Allan C. Zuckerman, 39 South LaSalle St., Room 600, Chicago, Ill. 60603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Bisphenol*, in bulk, in tank or hopper type vehicles, from the facilities of United States Steel Corporation, at Haverhill, Schlot County, Ohio to points in the United States (except Alaska and Hawaii); and (2) *returned and rejected shipments*, from the above named destination territory to the above named origin point.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Chicago, Ill.

No. MC 69116 (Sub-No. 192), filed September 6, 1977. Applicant: SPECTOR FREIGHT SYSTEM, INC., 1050 Kingery Highway, Bensenville, Ill. 60106. Applicant's representative: Edward G. Bazelon, 39 South La Salle St., Chicago, Ill. 60603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Roofing and building materials*, and materi-

als used in the installation and application of such commodities, from Franklin, Ohio, to points in Alabama, Illinois, Indiana, Kentucky, Louisiana, Michigan, Mississippi, New York, Pennsylvania, Tennessee and Wisconsin; and (2) *materials, equipment and supplies* (except commodities in bulk) used in the manufacture, installation or application of roofing or building materials, from points in Alabama, Illinois, Indiana, Kentucky, Louisiana, Michigan, Mississippi, New York, Pennsylvania, Tennessee and Wisconsin to Franklin, Ohio.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Washington, D.C. or Philadelphia, Pa.

No. MC 95876 (Sub-No. 208), filed September 6, 1977. Applicant: ANDERSON TRUCKING SERVICE, INC., 203 Cooper Avenue North, St. Cloud, Minn. 56301. Applicant's representative: C. Michael Trapp (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Gypsum and Gypsum products, and wallboard*, from points in Santa Fe County, N. Mex., to points in Arizona, California, and Colorado.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Denver, Colo., or Albuquerque, N. Mex. Common control may be involved.

No. MC 95876 (Sub-No. 210), filed September 6, 1977. Applicant: ANDERSON TRUCKING SERVICE, INC., 203 Cooper Avenue North, St. Cloud, Minn. 56301. Applicant's representative: C. Michael Trapp (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Lumber, lumber products, shavings, bark and sawdust* from points in Crook County, Wyoming, to points in Colorado, North Dakota, South Dakota, Nebraska, Kansas, Minnesota, Iowa, Missouri, Wisconsin, Illinois, Michigan, Indiana, Kentucky and Ohio.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held in Gillette, Wyoming, or Rapid City, S. Dak.

No. MC 100666 (Sub-No. 365), filed September 6, 1977. Applicant: MELTON TRUCK LINES, INC., P.O. Box 7666, Shreveport, La. 71107. Applicant's representative: Wilburn L. Williamson, 280 National Foundation Life Bldg., 3535 NW, 58th Street, Oklahoma City, Okla. 73112. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Laminated beams, lumber and lumber products*, from Cedar County, Missouri to points in the United States (except Alaska and Hawaii); and (2) *materials and supplies* used in the production of laminated beams, lumber and lumber products (except commodities in bulk, in tank vehicles), from points in the United States (except Alaska and Hawaii) to Cedar County, Mo.

No. MC 107002 (Sub-No. 514) (Amendment), filed August 1, 1977, published in the FEDERAL REGISTER issue of September 8, 1977, and republished, as amended this

issue. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representatives: John J. Borth, P.O. Box 8573, Battlefield Station, Jackson, Miss. 39204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fuel oils, in bulk*, in tank vehicles, (A) From the facilities of Mobile Bulk Terminal, Inc., at or near Mobile, Ala., to points in Louisiana and points in Mississippi north of U.S. Highway 80. (B) From the facilities of Ergon, Inc., at or near Greenville, Miss., to points in Arkansas on east and south of a line beginning at the Arkansas-Texas State line and extending along U.S. Highway 67 to Malvern, Ark., thence U.S. Highway 270 to Sheridan, Ark., thence U.S. Highway 167 to Fordyce, Ark., thence U.S. Highway 79 to junction U.S. Highway 49, thence U.S. Highway 49 to the Arkansas-Mississippi State line, points in Louisiana on and north of U.S. Highway 84, and to the site of the United States Naval Air Station at or near Millington, Tenn. (C) From the facilities of Ergon, Inc., at or near Vicksburg, Miss., to points in Arkansas.

NOTE.—The purpose of this amendment is to show applicant's request in (B) for territory "in Arkansas on, east and south" in lieu of on, west and north as previously published. If a hearing is deemed necessary, applicant requests that it be held at Jackson, Miss. or Memphis, Tenn.

No. MC 107403, (Sub-No. 1034), filed September 6, 1977. Applicant: Matlock, Inc., Ten West Baltimore Ave., Lansdowne, Pa., 19050. Applicant's representative: Martin C. Hynes, Jr., (same address as applicant). Authority sought to operate as a *common carrier*, over irregular routes, transporting: (1) *Liquid sugar, high fructose corn syrup, corn syrup and blends of liquid sugar with high fructose corn syrup, or with corn syrup*, in bulk, in tank vehicles, from Supreme, Louisiana to points in the states of Alabama, Mississippi and Texas; and (2) *Liquid sugar, blends of liquid sugar, and corn syrups*, in bulk, in tank vehicles, from the plantsite of Southdown Sugars, Inc., Houma, La. to points in Arkansas, Alabama, Mississippi, Tennessee and Texas.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held in Washington, DC.

No. MC-107456 (Sub No. 24), filed September 1, 1977. Applicant: HARRY L. YOUNG AND SONS, INC., a corporation, 542 West Sixth South, Salt Lake City, Utah 84104. Applicant's representative: Lon Rodney Kump, 333 East Fourth South, Salt Lake City, Utah 84111. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pipe and pipe fittings, couplings, connections, and accessories* (except iron or steel and commodities because of size and weight require the use of special equipment), from the plant or warehouse sites of Armcoc Steel Corporation, Metal Products Division, in Madera County, Calif., to points in Ari-

zona, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming, and restricted to traffic originating at the above plants or warehouse sites and destined to points shown above and further restricted against the transportation of oil field commodities as defined in Mercer-Extension-Oilfield Commodity, 74 M.C.C. 459.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either San Francisco, Calif., or Los Angeles, Calif.

No. MC 108313 (Sub-No. 14) (Correction), filed August 8, 1977, published in the FEDERAL REGISTER issue of September 15, 1977, and republished, as corrected, this issue. Applicant: CALEDONIA LINES, INC., P.O. Box 48, Caledonia, N.Y. 14423. Applicant's representative: S. Michael Richards, 44 North Ave., Webster, N.Y. 14580. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Compressed gases and liquid chemicals, in bulk (except liquefied petroleum gases)*, (a) from Houston, Tex., Moundsville, Charleston, and Natrium, W. Va., Lake Charles, Geismar, and Graneray, La., Brunswick, Ga., Acme, N.C., Evans City, Ala., Louisville, Ky., Tampa, Fla., Charleston, Tenn., and Edgemoor, Del., to Charlotte, N.C., Festus, Mo., Reserve, La., Milford, Va., Mobile, Ala., St. Petersburg, Jacksonville, and Fort Lauderdale, Fla., and (b) from Edgemoor, Del., to Beechgrove and Hammond, Ind., Orrington, Me., Wyandotte, Montague, Midland, and Ludington, Mich., Merrimack, N.H., Newark, Bayonne, and Linden, N.J., Niagara Falls, Syracuse, Buffalo, Warwick, Caledonia, Utica, Friendship, and Vestal, N.Y., Ashtabula, South Point, Barberton, and Columbiana, Ohio, and Erie, Pa.; and (2) *Chemicals, cleaners, detergents and wares, in containers and empty containers for those commodities*, between Mobile and Evans City, Ala., Denver, Col., Edgemoor, Del., St. Petersburg, Fort Lauderdale, Jacksonville, and Tampa Fla., Augusta and Brunswick, Ga., Danville, Ill., Beechgrove and Hammond, Ind., Calvert City and Louisville, Ky., Lake Charles, Plaquemine, Gramercy, Geismar, Baton Rouge, Taft, and Reserve, La., Orrington, Me., Curtis Bay, Md., Wyandotte, Montague, Midland, and Ludington, Mich., Festus, Mo., Merrimack, N.H., Newark, Bayonne, and Linden, N.J., Niagara Falls, Syracuse, Buffalo, Warwick, Caledonia, Utica, Friendship, and Vestal, N.Y., Charlotte and Acme, N.C., Ashtabula, South Point, Barberton, and Columbiana, Ohio, Erie, Pa., Charleston, Tenn., Houston, Tex., Milford, Hopewell and Norfolk, Va., Natrium, Moundsville and Charleston, W. Va., Hudson, Milwaukee, and Port Edwards, Wis., under a continuing contract or contracts with Jones Chemicals, Inc., of Caledonia, N.Y.

NOTE.—Applicant states it holds authority in No. MC 108313 (Sub-No. 1, 6, 7, 9, and 10) which partially duplicates the authority

sought herein, but it does not seek duplicating authority and will accept usual conditions if authority sought is granted. If a hearing is deemed necessary, applicant requests that it be held at Buffalo or Syracuse, N.Y. The purpose of this correction is to indicate the correct territory sought in part (1) of this application.

No. MC 108341 (Sub-No. 68), filed September 6, 1977. Applicant: MOSS TRUCKING COMPANY, INC., 3027 N. Tryon St., P.O. Box 8409, Charlotte, N.C. 28208. Applicant's representative: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles, and steel pole substation structures, equipment, supplies and materials*, (except commodities in bulk), from the facilities of Power Enterprises, Inc., Power Structures Division, at or near Belle Chasse, Louisiana to points in Alabama, Connecticut, Delaware, District of Columbia, Florida, Georgia, Maine, Massachusetts, Maryland, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia and West Virginia.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at New Orleans, La.

No. MC 110420 (Sub-No. 772), filed August 16, 1977. Applicant: QUALITY CARRIERS, INC., P.O. Box 186, Pleasant Prairie, Wis. 53158. Applicant's representative: Joseph K. Reber (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid Chemicals*, in bulk, in tank vehicles, from Iowa City, Iowa to points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill., or Cincinnati, Ohio. Common control may be involved.

No. MC 110525 (Sub-No. 1206), filed September 1, 1977. Applicant: CHEMICAL LEAMAN TANK LINES, INC., 520 East Lancaster Avenue, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia*, in bulk, in tank vehicles, from the plantsite of Farmland Industries, Inc., Farmland, La. (located near Pollock, La.), to points in Texas located east of U.S. Highway 281.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at New Orleans, La.

No. MC 110525 (Sub-No. 1207), filed September 6, 1977. Applicant: CHEMICAL LEAMAN TANK LINES, INC., 520 East Lancaster Avenue, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over

irregular routes, transporting: *Hydrofluoric acid, in bulk*, in tank vehicles, from Houston, Tex. to points in Montana.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Houston, Tex.

No. MC 110525 (Sub-No. 1208), filed September 2, 1977. Applicant: CHEMICAL LEAMAN TANK LINES, INC., 520 East Lancaster Avenue, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sugar*, in bulk, in tank vehicles, from Boston, Mass., and Philadelphia, Pa., to Canajoharie, N.Y.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Philadelphia, Pa., or New York, N.Y.

No. MC 111231 (Sub-No. 218), filed September 6, 1977. Applicant: JONES TRUCK LINES, INC., 610 East Emma Avenue, Springdale, Ark. 72764. Applicant's representative: Don A. Smith, Post Office Box 43, 510 North Greenwood, Fort Smith, Ark. 72902. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities as are dealt in or used by wholesale or retail, discount, or variety stores* (except commodities in bulk): (1) Between White County, Ark., on the one hand, and, on the other, points in Arkansas, Illinois, Kansas, Kentucky, Louisiana, Mississippi, Missouri, Oklahoma, Tennessee, and Texas; and (2) between Bentonville, Ark., on the one hand, and, on the other, points in Illinois, restricted to the transportation of shipments originating at or destined to the facilities of Wal-Mart Stores, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Little Rock, Ark. or Memphis, Tenn.

No. MC 112595 (Sub-No. 70), filed August 31, 1977. Applicant: FORD BROTHERS, INC., P.O. Box 727, Ironton, Ohio 45638. Applicant's representative: James W. Muldoon, 50 West Broad Street, Suite 1815, Columbus, Ohio 43215. Authority sought to operate as a *common carrier* by motor vehicle over irregular routes in the transportation of: *Bisphenol*, in bulk, in tank or hopper type vehicles from the facilities of United States Steel Corp. at Haverhill, Scioto County, Ohio to points in the United States (except Alaska and Hawaii), and returned and rejected shipments from the above named destination territory to the above named origin point.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 112989 (Sub-No. 51), filed September 1, 1977. Applicant: WEST COAST TRUCK LINES, INC., 85647 Highway 99 South, Eugene, Ore. 97405. Applicant's representative: John W. White, Jr., 85647 Highway 99 South, Eugene, Ore. 97405. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular

NOTICES

routes, transporting: pipe and pipe fittings, couplings, connections, and accessories (except iron or steel and commodities because size and weight require the use of special equipment), from the plant or warehouse sites of Armco Steel Corp., Metal Products Division, in Madera County, Calif., to points in Arizona, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, and Wyoming, and restricted to traffic originating at the above plants or warehouse sites and destined to points shown above and further restricted against the transportation of oil field commodities as defined in Merger-Extension-Oilfield Commodity, 74 M.C.C. 459.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Los Angeles or San Francisco, Calif. on a consolidated basis with other related applications.

No. MC 114045 (Sub-No. 475), filed September 1, 1977. Applicant: TRANSCOLD EXPRESS, INC., P.O. Box 61228, D/FW AIRPORT, Tex. 75261. Applicant's representative: J. B. Stuart (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Paper and paper products from Jay and Livermore Falls, Maine, to points in Arizona, Arkansas, California, Colorado, Idaho, Illinois, Indiana, Iowa, Kansas, Louisiana, Michigan, Minnesota, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, Ohio, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, West Virginia, Wisconsin, and Wyoming.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at New York, N.Y. or Chicago, Ill.

No. MC 114211 (Sub-No. 317), filed September 6, 1977. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Daniel Sullivan, Suite 1600, 10 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a common carrier over irregular routes, by motor vehicle, transporting: Lumber, lumber mill products, forest and wood products and treated products from Colorado and Wyoming to points in Minnesota, Wisconsin, Michigan, Indiana, Illinois, Iowa, Missouri, Nebraska, Kansas, Texas, Oklahoma, Louisiana, Arkansas, and New Mexico.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Denver, Colo.

No. MC 114273 (Sub-No. 295), filed September 6, 1977. Applicant: CRST, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Kenneth L. Core (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Meats, meat products, meat by-products, and articles distributed by meat packing-houses as described in Sections A and C of Appendix I to the report in Descrip-

tions in Motor Carrier Certificates, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from St. Louis, Mo., to points in Connecticut, Delaware, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia, restricted to traffic originating at the plantsite and storage facilities utilized by Krey Packing Co. at or near St. Louis, Mo. and destined to the above named points.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at either Chicago, Ill. or Washington, D.C.

No. MC 114632 (Sub-No. 121), filed September 26, 1977. Applicant: APPLE LINES, INC., P.O. Box 287, Madison, S. Dak. 57042. Applicant's representative: Andrew Clark, 1000 First National Bank Bldg., Minneapolis, Minnesota 55402. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Foodstuffs, frozen meats, and non-edible foodstuffs, moving in mechanically refrigerated equipment from Bettendorf, Iowa to points in and east of Colorado, Nebraska, North Dakota, Oklahoma, South Dakota, and Texas except Iowa.

NOTE.—Applicant holds motor contract carrier authority in No. MC 129706, therefore dual operations may be involved. Hearing: Assigned November 14, 1977, at 9:30 a.m. local time, at Chicago, Ill.

No. MC 114696 (Sub-No. 57), filed August 15, 1977. Applicant: PUROLATOR SECURITY, INC., 3333 New Hyde Park Road, New Hyde Park, N.Y. 11040. Applicant's representative: Elizabeth L. Henoch (same address as applicant). Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Money Orders and Checks: From Indianapolis, Ind. to Detroit, Mich., under a continuing contract or contracts with First Federal Savings and Loan Association of Detroit.

NOTE.—Applicant holds common carrier authority in MC 140345, Sub-No. 1, and therefore dual operations may be involved. Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Washington, D.C.

No. MC 115353 (Sub-No. 28), filed September 6, 1977. Applicant: LOUIS J. KENNEDY TRUCKING CO., a corporation, 342 Schuyler Avenue, Kearny, N.J. 07032. Applicant's representative: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: General commodities (except Classes A and B explosives, articles of unusual value, household goods as defined by the Commission, commodities in bulk and commodities which because of their size and weight require the use of special equipment), between points in the United States in and east of Minnesota, Iowa, Missouri, Arkansas, and Louisiana in non-radial movement. Restriction:

Service is restricted to the transportation of traffic originating at or destined to facilities of the United States Gypsum Co., under a continuing contract, or contracts, with the United States Gypsum Co.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Chicago, Ill.

No. MC 115557 (Sub-No. 15), filed September 2, 1977. Applicant: CHARLES A. McCAULEY, 308 Leasure Way, New Bethlehem, Pa. 16242. Applicant's representative: Henry M. Wick, Jr., 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Magnets and magnetic materials and equipment, materials and supplies, utilized in the manufacture of magnets and magnetic materials, between Duncanville, Tex., on the one hand, and, on the other, points in California, Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, and West Virginia.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Washington, D.C. or Detroit, Mich.

No. MC 115821 (Sub-No. 31), filed September 6, 1977. Applicant: FRANK BEELMAN, doing business as BEELMAN TRUCK CO. (no street address), St. Libory, Ill. 62282. Applicant's representative: Ernest A. Brooks II, 1301 Ambassador Bldg., St. Louis, Mo. 63101. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Coal in bulk, in dump vehicles, from Saline, Franklin, Jefferson, Williamson, Gallatin, Marion, Hamilton, Hardin, Pope, Johnson, Union, Jackson, White, Wabash, Perry, and Washington Counties, Ill., to points in Vigo, Vermillion, Knox, Hamilton, Floyd, and Gibson Counties, Ind.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Springfield, Ill. or Evansville, Ind.

No. MC 115826 (Sub-No. 273), filed September 6, 1977. Applicant: W. J. DIGBY, INC., P.O. Box 5088 Terminal Annex, Denver, Colo. 80217. Applicant's representative: Charles J. Kimball, 35 Capitol Life Center, 1600 Sherman Street, Denver, Colo. 80203. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: hydraulic cylinders, parts, accessories, materials and supplies used in the manufacturing thereof: between the plantsite and storage facilities of United Hydraulics, Corp. at, or near, Hampton, Iowa on the one hand, and, on the other hand, points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. If an oral hearing is deemed necessary, applicant requests that it be held at Denver, Colo.

No. MC 115841 (Sub-No. 547), filed August 16, 1977. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., 9041 Executive Park Drive, Suite

110, Bldg. 100, Knoxville, Tenn. 37919. Applicant's representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 11th Street NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: meats, meat products and meat by-products and articles distributed by meat packing-houses from the plantsite and storage facilities of South Texas Packers at or near Alice, Tex. and the plantsite and storage facilities utilized by South Texas Packers (Alford's Refrigerated Warehouse) at or near Corpus Christi, Tex. to points in Alabama, Arkansas, California, Colorado, Florida, Georgia, Kansas, Louisiana, Mississippi, Missouri, New Mexico, Ohio, and Tennessee.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held in Houston, Tex.

No. MC 116077 (Sub-No. 384), filed August 16, 1977. Applicant: ROBERTSON TANK LINES, INC., 4550 Post Oak Place Drive, P.O. Box 1505, Houston, Tex. 77001. Applicant's representative: Pat H. Robertson, 500 West Sixteenth Street, P.O. Box 1945, Austin, Tex. 78767. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Products of corn, in bulk, from the plant site of CPC International, Incorporated, Corpus Christi, Texas, to points in the states of Arizona, New Mexico, Oklahoma, Arkansas, Louisiana, and Mississippi.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Dallas, Tex.

No. MC 117344 Sub-No. 261, filed August 29, 1977. Applicant: THE MAXWELL CO., a corporation, 10380 Evendale Drive, Cincinnati, Ohio 45215. Applicant's representative: James R. Stivers, 1396 West Fifth Avenue, Columbus, Ohio 43212. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting (1) Bisphenol, in bulk, in tank or hopper type vehicles, from the facilities of United States Steel Corp. located at Haverhill, Scioto County, Ohio, to points in the United States (except Alaska and Hawaii); and (2) returned and rejected shipments from the above-named destination territory, to the above-named origin point.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Washington, D.C.

No. MC 117815 (Sub-No. 265), filed September 1, 1977. Applicant: PULLEY FREIGHT LINES, INC., 405 SE. 20th Street, Des Moines, Iowa 50317. Applicant's representative: Dewey Marselle, 405 SE. 20th Street, Des Moines, Iowa 50317. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Frozen foods, from the facilities of or utilized by The Pillsbury Co., located at or near Minneapolis, Minn., to points in Iowa, Kansas, Missouri, and Nebraska, restricted to the transportation of traffic

NOTICES

originating at the above named origin and destined to the named destinations.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Minneapolis, Minn., or Chicago, Ill.

No. MC 118159 (Sub-No. 224) (correction), filed August 19, 1977, published in the FEDERAL REGISTER issue of September 29, 1977, as No. MC 118159 (Sub-No. 229), and republished as corrected this issue. Applicant: NATIONAL REFRIGERATED TRANSPORT, INC., P.O. Box 51366, Dawson Station, Tulsa, Okla. 74151. Applicant's representative: Warren Taylor (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) Paper and paper products, (except commodities in bulk) from Medina, Ohio to points in New York (except points on and south of Interstate Highway 84); and (2) Materials and supplies used in the manufacture and distribution of paper and paper products, and paper (except commodities in bulk), from points in New York (except points on and south of Interstate Highway 84) to Medina, Ohio.

NOTE.—The purpose of this republication is to indicate the correct docket number assigned to this proceeding as No. MC 118159 (Sub-No. 224) in lieu of No. MC 118159 (Sub-No. 229) as previously published in error. Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Chicago, Ill.

No. MC 118159 (Sub-No. 225), filed August 31, 1977. Applicant: NATIONAL REFRIGERATED TRANSPORT, INC., P.O. Box 51366-Dawson Station, Tulsa, Okla. 74151. Applicant's representative: Warren Taylor (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Pulpboard and pulpboard articles, from Plymouth, Ind., to Memphis, Tenn.; Mobile, Ala., and points in Alabama on and north of U.S. Highway 78; points in Michigan on and south of Michigan Highway 21; points in New York on and north of Interstate Highway 84; points in Virginia on and west of Interstate Highway 95; and points in Arizona, Arkansas, Colorado, Florida, Georgia, Illinois, Indiana, Kansas, Kentucky, Louisiana, Maryland, Minnesota, Mississippi, Missouri, Nebraska, New Mexico, North Carolina, Ohio, Oklahoma, South Carolina, Texas, Utah, Wyoming, and the District of Columbia.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Chicago, Ill.

No. MC 119741 (Sub-No. 82), filed September 6, 1977. Applicant: GREEN FIELD TRANSPORT CO., INC., 3225 Fifth Avenue South, Fort Dodge, Iowa 50501. Applicant's representative: D. L. Robson, P.O. Box 1235, Fort Dodge, Iowa 50501. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Meats, meat products, meat by-products, and articles distributed by meat packing-houses (except hides and commodities in

bulk, in tank vehicles), as described in sections A and C of Appendix I to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766, from the facilities of Sioux-Preme Packing Co., at or near Sioux Center, Iowa, to points in Kansas.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Sioux City, Iowa.

No. MC 119789 (Sub-No. 352) (correction), filed June 2, 1977, published in the FEDERAL REGISTER issue of July 14, 1977, and republished as corrected this issue. Applicant: CARAVAN REFRIGERATED CARGO, INC., P.O. Box 6188, Dallas, Tex. 75222. Applicant's representative: James K. Newbold, Jr. (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) Cleaning compounds, (except commodities in bulk), from Fort Bragg, Calif., to points in the United States east of U.S. Highway 85; and (2) materials and supplies used in the production and sale of cleaning compounds (except commodities in bulk), from points in the United States east of U.S. Highway 85, to Fort Bragg, Calif.

NOTE.—The purpose of this republication is to indicate the restriction in (1) and (2); and to indicate correct route description in (2) above as U.S. Highway 85 in lieu of U.S. Highway 82. If a hearing is deemed necessary, the applicant requests that it be held at San Francisco, Calif.

No. MC 119988 (Sub-No. 124), filed September 6, 1977. Applicant: GREAT WESTERN TRUCKING CO., INC., Highway 103 East, P.O. Box 1384, Lufkin, Tex. 75901. Applicant's representative: Clayte Binion, 1108 Continental Life Building, Fort Worth, Tex. 76102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Portable and prefabricated horse farms and stalls and related materials, supplies, and equipment when moving in connection therewith, from Lufkin, Tex., to points in Oklahoma, Louisiana, Arkansas, Mississippi, and Kansas.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at either Houston, Tex., or Dallas, Tex.

No. MC 120761 (Sub-No. 29), filed August 31, 1977. Applicant: NEWMAN BROS. TRUCKING CO., a corporation, 6559 Midway Road, P.O. Box 18728, Fort Worth, Tex. 76118. Applicant's representative: Clint Oldham, 1108 Continental Life Building, Fort Worth, Tex. 76102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: hardwood products, plywood and particle board from Dallas and Fort Worth, Tex., to points in Arkansas, Georgia, Kansas, Louisiana, Missouri, and Oklahoma.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at Dallas, Tex. Common control may be involved.

No. MC 121366 (Sub-No. 4), filed September 2, 1977. Applicant: DALLAS SMITH TRANSPORT CORP., 1102 East

NOTICES

Tonto Street, Phoenix, Ariz. 85034. Applicant's representative: Warren N. Grossman, 1800 United California Bank Building, 707 Wilshire Boulevard, Los Angeles, Calif. 90014. Applicant seeks authority to engage in operation, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, in the transportation of (1) new and used automobiles, in secondary movements, in truckaway service, between points in Arizona, New Mexico, Colorado, and Nevada; and (2) used automobiles, in secondary movements, in truckaway service, from points in New Mexico, Colorado, and Nevada, to Phoenix, Ariz.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Phoenix, Ariz.

No. MC 121656 (Sub-No. 4), filed August 4, 1977. Applicant: SPRINGFIELD EXPRESS, INC., P.O. Box 310, Springfield, Tenn. 37172. Applicant's representative: Walter Hardwood, P.O. Box 15214, Nashville, Tenn. 37215. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: General commodities, except those of unusual value, household goods, classes A and B explosives, commodities in bulk, and articles requiring special equipment. Between Russellville, Ky. and Owensboro, Ky.; from Russellville, Ky. over U.S. Highway 431 to Owensboro, Ky. and return over the same route, serving no intermediate points.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Central City or Louisville, Ky.

No. MC 121664 (Sub-No. 26), filed September 2, 1977. Applicant: G. A. HORNADY, CECIL M. HORNADY, and B. C. HORNADY, doing business as HORNADY BROTHERS TRUCK LINE, P.O. Box 846, Monroeville, Ala. 36460. Applicant's representative: W. E. Grant, 1702 1st Ave. South, Birmingham, Ala. 35233. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Asphaltum, building paper, prepared shingles, roofing asphalt, roofing cement, roofing paper, filter felt, coatings and roofing sealer, from (1) Tuscaloosa, Ala., and (2) Knoxville, Tenn. to points in Alabama, Arkansas, Florida, Georgia, Illinois, Kentucky, Louisiana, Mississippi, Missouri, North Carolina, South Carolina, Tennessee, and Virginia.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala. or Kansas City, Mo.

No. MC 123057 (Sub-No. 13), filed September 6, 1977. Applicant: JAMES RICCIARDI & SONS, INC., 389 East Inman Avenue, Rahway, N.J. 07065. Applicant's representative: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a common carrier by motor vehicle, over irregular routes, transporting: (1) Steel studding from the plant and warehouse sites of Marino Industries

at or near Westbury, N.Y. to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia and (2) Materials, supplies and equipment used in the manufacture and distribution of steel studding (except in bulk) from the destination states named in (1) above to Westbury, N.Y., restricted to the transportation of traffic originating at or destined to the plant and warehouse sites of Marino Industries, Inc. at or near Westbury, N.Y.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at New York, N.Y.

No. MC 123329 (Sub-No. 31), filed September 2, 1977. Applicant: H. M. TRIMBLE & SONS LTD., P.O. Box 3500, Calgary, Alberta T2P 2P9, Canada. Applicant's representative: Ray F. Koby, 314 Montana Building, Great Falls, Mont. 59401. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Liquid oxygen, nitrogen and argon, in cryogenic trailers, between points in Oregon and Washington on the one hand, and, on the other, ports of entry on the International Boundary line between the United States and Canada, located at or near Sumas, Blaine and Oroville, Wash., restricted to shipments destined to or originating at points in British Columbia and Alberta, Canada.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at any city in Montana. Common control may be involved.

No. MC 124027 (Sub-No. 18), filed September 6, 1977. Applicant: MIDWEST BULK, INC., 901 Lyndale Avenue, Neenah, Wis. 54956. Applicant's representative: Frank M. Coyne, 25 West Main Street, Madison, Wis. 53703. Authority sought to operate as a common carrier by motor vehicle, over irregular routes, transporting: Coke, in bulk, from Milwaukee, Wis., to Davenport, Iowa.

NOTE.—If a hearing is necessary, the applicant requests it be held in Chicago, Ill., or Milwaukee, Wis. Common control may be involved.

No. MC 124344 (Sub-No. 9), filed September 6, 1977. Applicant: HINER TRANSPORT, INC., 1317 South Jefferson St., Huntington, Ind. 46750. Applicant's representative: Robert W. Loser II, 1009 Chamber of Commerce Bldg., Indianapolis, Ind. 46204. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Ice cream, ice cream mix, ice milk, sherbet, water ices, milk products, and vegetable-fat frozen desserts, in containers, in mechanically refrigerated vehicles, and ice cream novelties, including water ice bars, fudge bars, ice cream bars, ice cream cups, ice cream sandwiches, ice cream cake rolls, ice cream pies, and articles of a like nature, in containers, in mechanically refrigerated vehicles, (1) from Huntington, Ind., to points in Florida; those points in Ken-

tucky (except Louisville, Lexington, and Hazard, Kentucky); those points in Illinois (except Chicago, Palatine, and Rockford, Illinois); those points in Michigan (except Benton Harbor, Detroit, Kalamazoo, New Buffalo, and Pontiac, Mich.); points in Missouri; those points in Ohio (except Edon, Delphos, Toledo, Cincinnati, Hamilton, and Columbus, Ohio, and points in that part of Ohio west of Interstate Highway 75); and points in Pennsylvania; and West Virginia; (2) from Peoria, Ill.; Detroit, Mich.; and Louisville, Ky., to Huntington, Ind.; (3) from Atlanta, Ga., to Farmdale, Ohio; and over-aged, rejected, or damaged merchandise on return; and, (4) fruits and fruit segments, in containers, from Cincinnati, Ohio, to Huntington, Ind. Restrictions: (1) the operations authorized herein are restricted to traffic originating at and destined to a plantsite or storage facility of Kraft Foods Dairy Group; and (2) the operations authorized herein are limited to a transportation service to be performed under a continuing contract or contracts with Kraft Foods Dairy Group (formerly Sealtest Foods Division, Kraftco Corporation), at Philadelphia, Pa.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Indianapolis, Ind., or Chicago, Ill.

No. MC 124579 (Sub-No. 20), filed August 23, 1977. Applicant: WIKEL BULK EXPRESS, INC., Route 2, Huron, Ohio 44839. Applicant's representative: James Duvall, Post Office Box 97, 220 West Bridge St., Dublin, Ohio, 43017. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Dairy products, citrus drink and fruit punch products from the facilities of The Kroger Co. at or near Newark, Ohio, to Livonia, Michigan; Indianapolis, Indiana; Hazelwood, Missouri; those points in Pennsylvania on and west of U.S. Highway 219; and points in Kentucky, West Virginia, Virginia, North Carolina, and South Carolina.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Columbus, Ohio.

No. MC 124692 (Sub-No. 180), filed September 2, 1977. Applicant: SAMMONS TRUCKING (a corporation), P.O. Box 4347, Missoula, Mont. 59806. Applicant's representative: J. David Douglas (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Plastic pipe and related parts, materials and supplies, from Faribault, Minn. to points in California, Idaho, Montana, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming restricted to traffic originating at Faribault, Minn.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Minneapolis, Minn.

No. MC 124735 (Sub-No. 21) filed August 16, 1977. Applicant: R. C. KER-

CHEVAL, JR., 2214 Fourth Avenue South, Seattle, Wash. 98134. Applicant's representative: George R. LaBissoniere, 1100 Norton Bldg., Seattle, Wash. 98104.

To operate as a contract carrier by motor vehicle over irregular routes transporting: Parts of mobile homes and utility trailers, automotive springs, suspension and parts thereof, brake drums, and brake assemblies and parts thereof, tailgate hoists and parts thereof, wheels and wheel attaching parts, parts for motor vehicle chassis and motor vehicle undercarriages; From Henderson, Kentucky to points in Washington, Idaho, Utah, Oregon and Montana under a continuing contract or contracts with Motor Wheel and Parts, Inc. and Henderson Wheel and Supply.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 124939 (Sub-No. 14), filed August 23, 1977. Applicant: FOOD HAUL, INC., 1215 West Mound St., Rear, P.O. Box 23293, Columbus, Ohio 43223. Applicant's representative: Paul F. Beery, 275 East State St., Columbus, Ohio 43215. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: (1) Dairy products and citrus drink and fruit punch products, from The Kroger Co.'s facility at or near Newark, Ohio, to Livonia, Michigan; Indianapolis, Indiana; Hazelwood, Missouri; those points in Pennsylvania on and west of U.S. Highway 219; and all points in Kentucky, Virginia, West Virginia, North Carolina, and South Carolina, and, (2) Equipment, materials and supplies used in the conduct of such business and (3) returned, rejected or refused shipments of the commodities named in (1) above from points in Illinois, Michigan, Indiana, West Virginia, Kentucky and those points in Pennsylvania on and west of U.S. Highway 219, to The Kroger Co.'s facility at or near Newark, Ohio, under a continuing contract or contracts with The Kroger Co.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Columbus, Ohio. Common control may be involved.

No. MC 124939 (Sub-No. 15), filed August 23, 1977. Applicant: FOOD HAUL, INC., 1215 West Mound St., Rear, P.O. Box 23293, Columbus, Ohio 43223. Applicant's representative: Paul F. Beery, 275 East State St., Columbus, Ohio 43215. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: (A) such merchandise as is dealt in by wholesale, retail, and chain grocery and food business houses, and (B) equipment, materials, and supplies used in the conduct of such business (except commodities in bulk), in vehicles equipped with mechanical refrigeration, between the dairy and bakery manufacturing and meat processing facilities of The Kroger Co., at or near Indianapolis, Indiana, on the one hand, and, on the other points in Illinois, Kentucky, Michigan, Missouri, Ohio, and Pennsylvania, and Atlanta, Georgia; Roanoke, Virginia; Dallas and Houston,

NOTICES

Texas; Little Rock, Arkansas; and Memphis and Nashville, Tennessee, under a continuing contract or contracts with The Kroger Co., of Cincinnati, Ohio.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Columbus, Ohio. Common control may be involved.

No. MC 124947 (Sub-No. 68), filed August 16, 1977. Applicant: MACHINERY TRANSPORTS, INC., 116 Allied Rd., Stroud, Okla. 74079. Applicant's representative: David J. Lister, 1945 South Redwood Rd., Salt Lake City, Utah 84104. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting particleboard, lumber and lumber mill products from Navajo, N. Mex. to points in Illinois, Indiana and Michigan.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo. or Salt Lake City, Utah.

No. MC 124947 (Sub-No. 76), filed September 23, 1977. Applicant: MACHINERY TRANSPORTS, INC., 116 Allied Rd., Stroud, Okla. 74079. Applicant's representative: David J. Lister, 1945 South Redwood Rd., Salt Lake City, Utah 84104. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting aluminum and aluminum articles, from Benton, Arkansas to Wisconsin, Michigan, New York, Pennsylvania and Tennessee; from Sandusky, Ohio to Wisconsin, Michigan, New York and Pennsylvania; and between points in Ohio.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Columbus or Cleveland, Ohio.

No. MC 124947 (Sub-No. 77), filed September 23, 1977. Applicant: MACHINERY TRANSPORTS, INC., 116 Allied Rd., Stroud, Okla. 74079. Applicant's representative: David J. Lister, 1945 South Redwood Rd., Salt Lake City, Utah 84104. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting industrial heat treating furnaces and parts and related equipment used with the furnace operations and incinerators and incinerator parts, between Meadville, Pennsylvania and points in the United States (including Alaska, but excluding Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Pittsburgh, Pa. or Salt Lake City, Utah.

No. MC 124947 (Sub-No. 78), filed September 23, 1977. Applicant: MACHINERY TRANSPORTS, INC., 116 Allied Rd., Stroud, Okla. 74079. Applicant's representative: David J. Lister, 1945 South Redwood Rd., Salt Lake City, Utah 84104. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Lumber, lumber products, wood products, building board, insulating materials and roofing materials, from points in Alabama, Florida, Georgia, South Carolina, North Carolina, Arkansas, Louisiana,

Mississippi, Oklahoma, Tennessee and Texas to points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga., or Houston, Tex.

No. MC 125433, (Sub-No. 121), filed September 1, 1977. Applicant: F-B TRUCK LINE COMPANY, a corporation, 1945 South Redwood Rd., Salt Lake City, Utah 84104. Applicant's representative: David J. Lister, (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting pipe and pipe fittings, couplings, connections and accessories (except iron or steel and commodities which because of size and weight require the use of special equipment), from the plant or warehouse facilities of Armco Steel Corporation located in Madera County, California, to points in Arizona, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming, restricted to traffic originating at the above plants or warehouse sites and destined to points shown above, and further restricted against the transportation of oilfield commodities as defined in Mercer, Extension 74 M.C.C. 459.

NOTE.—If a hearing is deemed necessary, the applicant requests a consolidated hearing with similar applications at either San Francisco or Los Angeles, Calif. Common control may also be involved.

No. MC 126118 (Sub-No. 50), filed August 29, 1977. Applicant: CRETE CARRIER CORPORATION, P.O. Box 81228, Lincoln, Nebr. 68501. Applicant's representative: Duane W. Acklie, P.O. Box 81228, Lincoln, Nebr. 68501. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Malt beverages, from Detroit, Michigan to Tennessee (except Knoxville and Johnson City).

NOTE.—Applicant holds contract carrier authority in No. MC 128375 (Sub-No. 1) and other subs, therefore, dual operations may be involved. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Detroit, Michigan or Lincoln, Nebr.

No. MC 126555 (Sub-No. 51), filed September 6, 1977. Applicant: UNIVERSAL TRANSPORT, INC., Box 3000, Rapid City, S. Dak. 57709. Applicant's representative: Truman A. Stockton, Jr., The 1650 Grant St., Bldg., Denver, Colo. 80203. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Bentonite, from points in Wyoming, to points in Colorado, restricted against the transportation of oil field commodities as described in Mercer Extension, Oil Field Commodities, 74 M.C.C. 459.

NOTE.—Applicant holds contract carrier authority in MC 125909 (Sub 3), therefore dual operations may be involved. Common control may also be involved. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

NOTICES

No. MC 126930 (Sub-No. 16), filed September 6, 1977. Applicant: BRAZOS TRANSPORT CO., a corporation, 339 East 34th St., Lubbock, Tex. 79404. Applicant's representative: Richard Hubbert, P.O. Box 2976, Lubbock, Tex. 79408. NOTE.—Applicant holds contract carrier authority in MC 138398 (Sub-No. 2) and other subs thereunder, therefore dual operations may be involved. Common control may also be involved. If a hearing is deemed nec-

essary, applicant requests it be held at either Kansas City, Mo. or Chicago, Ill.

No. MC 134922 (Sub-No. 235), filed August 29, 1977. Applicant: B. J. MCADAMS, INC., Route 6, Box 15, North Little Rock, Ark. 72118. Applicant's representative: Bob McAdams (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Polyurethane, polyurethane foam, synthetic fibers and compounds* (except in bulk), between Lynchburg, Miss., on the one hand, and on the other, points in the United States in and west of Idaho, Utah and Arizona (except Alaska and Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Memphis, Tenn., or Washington, D.C.

No. MC 134922 (Sub-No. 236), filed August 29, 1977. Applicant: B. J. MCADAMS, INC., Route 6, Box 15, North Little Rock, Ark. 72118. Applicant's representative: Bob McAdams (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities as are manufactured or distributed by manufacturers or distributors of tile, and materials and supplies used in the manufacture of tile* (except commodities in bulk and those which because of size or weight require the use of special equipment), between Lansdale and Quakertown, Pa., and Olean, N.Y., on the one hand, and, on the other, points in Kentucky, Tennessee, Mississippi, Alabama, Georgia, Florida, South Carolina, Ohio, Louisiana, Arkansas, Missouri, Illinois, Indiana, Michigan, Wisconsin, Iowa, and Oklahoma.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Philadelphia, Pa., or Washington, D.C.

No. MC 134922 (Sub-No. 237), filed August 29, 1977. Applicant: B. J. MCADAMS, INC., Route 6, Box 15, North Little Rock, Ark. 72118. Applicant's representative: Bob McAdams (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Electrical appliances, equipment and parts*, as defined by the Commission in Descriptions in Motor Carrier Certificates 61 M.C.C. 283, and materials used in the manufacture thereof (except commodities in bulk and those requiring special equipment), between Princeton, Ky., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Louisville, Ky., or Little Rock, Ark.

No. MC 135014 (Sub-No. 2), filed September 6, 1977. Applicant: SPEADMARK, INC., 360 West 31st Street, New York, N.Y. 10001. Applicant's representative: Morton E. Klei, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a *contract*

carrier, by motor vehicle, over irregular routes, transporting: (1) *Wearing apparel*, from the terminal site of Spedmark, Inc., at New York, N.Y., to the stores of Abraham and Straus at points in Westchester County, N.Y. and Monmouth County, N.J.; (2) returned shipments of wearing apparel, from the stores of Abraham and Straus at the above described destination points to the terminal site of Spedmark, Inc. at New York, N.Y., under a continuing contract, or contracts, with Abraham and Straus.

NOTE.—If hearing is deemed necessary, applicant requests that it be held at New York, N.Y.

No. MC 135725 (Sub-No. 18), filed September 6, 1977. Applicant: FRY TRUCKING, INC., 507 West 5th Street, Wilton, Iowa 52778. Applicant's representative: Kenneth F. Dudley, 611 Church Street, P.O. Box 279, Ottumwa, Iowa 52501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Feed ingredients*, (1) from points in Texas and Maryland, to points in Illinois, Iowa, Minnesota, and Wisconsin; (2) from Midland, Mich., to points in Iowa and Rock Island, Ill.; and (3) from Milwaukee, Wis., to Rock Island, Ill., and points in Iowa and Missouri.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held in Chicago, Ill., or Des Moines, Iowa.

No. MC 135797 (Sub-No. 82), filed August 25, 1977. Applicant: J. B. HUNT TRANSPORT, INC., Post Office Box 200, Lowell, Ark. 72745. Applicant's representative: Paul A. Maestri (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal and poultry medicinal health products* (except in bulk), from Norwich, N.Y., to Ashland, Ohio.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 136123 (Sub-No. 1), filed September 1, 1977. Applicant: MEAT DISPATCH, INC., 2103 17th St., East, Palmetto, Fla. 33561. Applicant's representative: S. Michael Richards, P.O. Box 225, 44 North Ave., Webster, N.Y. 14580. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *paper and paper products*, from Texarkana, Ark., and Port Edwards, Wisconsin Rapids, Brockaw, and Green Bay, Wis., to Rochester, N.Y.

NOTE.—Applicant holds motor contract carrier authority in No. MC 128555 (Sub-No. 1) and other subs, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests that it be held at Buffalo, Rochester or Syracuse, NY.

No. MC 136182 (Sub-No. 5), filed August 15, 1977. Applicant: B. & C. MOTOR FREIGHT, INC., P.O. Box 166, 350 Holland Avenue, Peru, Ind. 46790. Applicant's representative: Walter F. Jones, Jr., 601 Chamber of Commerce Building,

Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier* over irregular routes, transporting: *Dry and mixed fertilizer*, in bulk or in bags, from the plant sites of Kaiser Agricultural Chemicals at or near Peru and Butler, Ind., to points in Ohio.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Indianapolis, Ind., or Washington, D.C.

No. MC 136316 (Sub-No. 2), filed August 30, 1977. Applicant: JOHN W. SMITH, doing business as JOHN W. SMITH TRUCKING CO., R-4, Lancaster, S.C. 29720. Applicant's representative: Winston J. Smith (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) Iron and steel articles from Lancaster, S.C., to points in the United States on and west of a line beginning at the mouth of the Mississippi River and extending along the Mississippi River to its junction with the western boundaries of Itasca and Koochiching Counties, Minn., to the International Boundary line between the United States and Canada (except Alaska, Hawaii, Louisiana, and Texas); and (2) returned, rejected, and damaged articles described in its junction with the western boundaries in (1) above, on return, under a continuing contract, or contracts, with Lehigh-Lancaster, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Charlotte, N.C., or Columbia, S.C.

No. MC 136605 (Sub-No. 30), filed August 24, 1977. Applicant: DAVIS BROS. DIST., INC., P.O. Box 8058, Missoula, Mont. 59807. Applicant's representative: W. E. Seliski (same address as applicant). Authority sought to operate as a *common carrier* by motor vehicle over irregular routes, transporting: *Aluminum sulfate* (except in bulk, in tank vehicles) from the port of entry on the International Boundary line between the United States and Canada located at or near Sweetgrass, Montana, to points in Montana, Wyoming and North Dakota. Restricted to commodities originating in Alberta, Canada.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Billings, Mont.

No. MC 138104 (Sub-No. 48), filed September 2, 1977. Applicant: MOORE TRANSPORTATION CO., INC., 3509 N. Grove St., Fort Worth, Tex., 76106. Applicant's representative: Bernard H. English, 6270 Firth Rd., Fort Worth, Tex. 76116. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers, semi-trailers, and trailer chassis* (other than those designed to be drawn by passenger automobiles) in initial movements, in driveway service, from the plantsite of Boyd Tank Trailers, Inc., located at or near Boyd, Tex., to points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Fort Worth or Dallas, Tex.

No. MC 138313 (Sub-No. 27), filed September 2, 1977. Applicant: BUILDERS TRANSPORT, INC., 409 14th Street SW., Great Falls, Mont. 59404. Applicant's representative: Irene Warr, 430 Judge Building, Salt Lake City, Utah 84111. From Culbertson, Montana to points in California, Colorado, Idaho, Oregon, North Dakota, South Dakota, Utah, Washington and Wyoming.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Billings, Montana or Washington, D.C.

No. MC 138413 (Sub-No. 8), filed September 6, 1977. Applicant: JOHN TOWNROW, d.b.a. JOHN TOWNROW TRUCKING, 4290 Elton St., Baldwin Park, Calif. 91706. Applicant's representative: K. Edward Wolcott, P.O. Box 872, Atlanta, Ga. 30301. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: 1. *Scrap Plastic*, from points in the United States on and east of Highway 85, to Valencia, Calif.; 2. *Plastic sheeting*, from Newcomertown, Ohio, to Valencia, Calif.; 3. *Plastic granules*, from Farmingdale, Long Island, N.Y.; Paterson, N.J.; and Kingsport, Tenn., to Valencia, Calif.; 4. *Paper*, from Brownsville, N.Y., to Valencia, Calif.; and 5. *Plastic sheeting*, from Valencia, Calif., to points in the United States on and east of Highway 85, under a continuing contract or contracts with Lustrro Plastics Co.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif.

No. MC 138562 (Sub-No. 1), filed September 2, 1977. Applicant: CATES TRUCKING, INC., P.O. Box 518, Swayzee, Ind. 46986. Applicant's representative: Donald W. Smith, Suite 2465, One Indiana Square, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: (1) *Canned goods*, from Milroy, Hartford City, Upland, Elwood, Port Isabel, and Swayzee, Ind., to points in North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Minnesota, Iowa, Missouri, Arkansas, Louisiana, Mississippi, Illinois, Wisconsin, Michigan, Kentucky, Tennessee, Alabama, Florida, Georgia, South Carolina, North Carolina, Virginia, West Virginia, Ohio, Pennsylvania, New York, Delaware, Maryland, New Jersey, Connecticut, Massachusetts, Vermont, New Hampshire, Maine, and Rhode Island; and (2) *materials, equipment and supplies*, used in the manufacture of canned goods, from North Dakota, South Dakota, Nebraska, Kansas, Ohio, Texas, Minnesota, Iowa, Missouri, Arkansas, Louisiana, Mississippi, Illinois, Wisconsin, Michigan, Kentucky, Tennessee, Alabama, Florida, Georgia, South Carolina,

NOTICES

North Carolina, Virginia, West Virginia, Oklahoma, Pennsylvania, New York, Delaware, Maryland, New Jersey, Connecticut, Massachusetts, Vermont, New Hampshire, Maine, and Rhode Island, to Hartford City, Upland, Elwood, Swayzee and Port Isabel, Ind.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 139495 (Sub-No. 266), filed September 6, 1977. Applicant: NATIONAL CARRIERS, INC., 1501 East 8th Street, P.O. Box 1358, Liberal, Kans. 67901. Applicant's representative: Herbert Alan Dubin, 1320 Fenwick Lane, Suite 500, Silver Spring, Md. 20910. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such merchandise as is dealt in by discount and variety stores from Savannah, Ga. to points in Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, Ohio, and Wisconsin.*

NOTE.—Applicant holds contract carrier authority in MC 133106 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests that it be held at Washington, D.C.

No. MC 140612 (Sub-No. 31), filed September 6, 1977. Applicant: ROBERT F. KAZIMOUR, P.O. Box 2207, Cedar Rapids, Iowa 52406. Applicant's representative: A. J. Swanson, P.O. Box 81849, Lincoln, Nebr. 68501. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household, commercial, and institutional kitchen and laundry equipment, fixtures, appliances, and parts; electrical appliances, equipment and parts; and tools and hardware, (except commodities in bulk and commodities which, because of size or weight, require the use of special equipment).* From the facilities of the McGraw-Edison Company located at or near Chattanooga, Tennessee; Ripon, Wisconsin; Searcy, Arkansas; and Columbia and St. Louis, Missouri, to points in the United States in and west of Louisiana, Arkansas, Missouri, Illinois, and Wisconsin (except Alaska and Hawaii). Restriction: Restricted to the transportation of traffic originating at the named facilities and destined to points in the described destination area.

NOTE.—Applicant holds contract carrier authority in No. MC 138003 and subs thereunder, therefore, dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at either Lincoln, Nebr., or Columbia, Mo.

No. MC 140615 (Sub-No. 20) filed August 15, 1977. Applicant: DAIRYLAND TRANSPORT, INC., P.O. Box 1116, Wisconsin Rapids, Wis. 54494. Applicant's representative: Dennis C. Brown (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Wire Goods, Metal, from Hanover and York, Pa. to Rice Lake, Wis.*

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Madison or Wausau, Wis.

No. MC 140768 (Sub-No. 7) filed September 1, 1977. Applicant: AMERICAN TRANS-FREIGHT, INC., P.O. Box 796, Manville, N.J. 08835. Applicant's representative: Eugene M. Malkin, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Paperboard (1) from Augusta and St. Mary's, Ga. and Demopolis, Ala. to Downingtown, Pa., and (2) from Amsterdam, N.Y., Holyoke, Mass. and Downingtown, Pa. to Richmond and Chester, Va. and Marietta, Ga., and (3) from Downingtown, Pa. to points in New York, and New Jersey, restricted against transportation to or from the premises of any person who has entered into a contract with American Trans-Freight, Inc. and/or any person who is served by it pursuant to any permit issued by the Interstate Commerce Commission.*

NOTE.—Applicant holds motor contract authority in MC 134404 and subs thereunder and, therefore, dual operations may be involved. If a hearing is deemed necessary, applicant requests that it be held at New York, N.Y. or Washington, D.C.

MC 141532 (Sub-No. 13), filed September 1, 1977. Applicant: PACIFIC STATES TRANSPORT, INC., 35433 16th Avenue South, Federal Way, Wash. 98002. Applicant's representative: Michael J. Norton, P.O. Box 2135, Salt Lake City, Utah 84110. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Pipe and pipe fittings, couplings, connections and accessories (except iron or steel and commodities which because of size and weight require the use of special equipment), from the plant or warehouse facilities of Armco Steel Corporation in Madera County, Calif. to points in Arizona, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming. Restricted to traffic originating at the above plants or warehouse sites and destined to points shown above, and further restricted against the transportation of oilfield commodities as defined in Mercer, Extension, 74 M.C.C. 459.*

NOTE.—If a hearing is deemed necessary, applicant requests that it be held in either San Francisco, Calif. or Los Angeles, Calif. on a consolidated basis with other related applications.

No. MC 141804 (Sub-No. 76), filed September 1, 1977. Applicant: WESTERN EXPRESS, division of INTERSTATE RENTAL, INC., P.O. Box 422, Goodlettsville, Tenn. 37072. Applicant's representative: Frederick J. Coffman (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Electrical; musical; sending, receiving and recording equipment; parts, supplies, and articles used in the manufacture and distribution thereof (except commodities in bulk and because of size or weight require special*

handling or equipment), from points in Los Angeles and Orange Counties, Calif., to the facilities utilized by Arvin Industries Inc., located at or near Princeton, Ky.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at either Cincinnati, Ohio or Louisville, Ky. Common control may be involved.

No. MC 141806 (Sub-No. 2), filed August 29, 1977. Applicant: Charles Kraft and Anthony Valvo, a partnership, d.b.a. VEE-KAY CARTAGE COMPANY, 2167 North Melvina Ave., Chicago, Ill. 60639. Applicant's representative: Philip A. Lee, 120 W. Madison, Chicago, Ill. 60602. Authority sought to operate as a contract carrier by motor vehicle over irregular routes transporting: *Molten metal, in fire brick lined tank vehicles, built especially for transportation of molten metals, from Chicago, Ill., to Madison, Sheboygan, Milwaukee, Fond-du-lac and Grafton, Wisconsin, under a continuing contract or contracts with Apex International Alloys.*

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 141914 (Sub-No. 14) (Correction), filed August 2, 1977, published in the FEDERAL REGISTER issue of September 8, 1977, and republished as corrected this issue. Applicant: FRANKS & SON, INC., Box 108-A, Big Cabin, Okla. 74332. Applicant's representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 Eleventh Street, NW., Washington, D.C. 20001. Authority sought by applicant to operate as a common carrier, by motor vehicle, in interstate and foreign commerce, over irregular routes, transporting: *Rubber piping, tubing and hose, including rubber hose, reinforced with fabric or steel, from the port of entry on the International Boundary Line between the United States and Canada, located at or near Stanhope, Quebec, Canada, to points in the United States (except Alaska and Hawaii), restricted to the transportation of traffic originating at the plant site of and facilities of IVG Rubber Canada Ltd., located at or near St. Alphonse de Granby, Quebec, Canada.*

NOTE.—The purpose of this republication is to indicate the port of entry as being located at or near Stanhope, Quebec, Canada, in lieu of at or near Stanhope, Vt. If a hearing is deemed necessary, it is requested that it be held at Tulsa, Okla.

No. MC 141925 (Sub-No. 2), filed August 25, 1977. Applicant: KOHN BEVERAGE, INC., d.b.a. KOHN TRANSPORT, 4850 Southway, SW., Canton, Ohio 44706. Applicant's representative: A. Charles Tell, 100 East Broad St., Columbus, Ohio 43215. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Malt beverages (except in bulk) from Detroit, Michigan to Sharon, Pennsylvania and East Liverpool, Mingo Junction, and Youngstown, Ohio; restricted to service performed under continuing contract or contracts with The Bellas Co., d.b.a. Iron City Distributing*

Company; Kohn, Incorporated; and Shenango Beverage Co.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

Docket No. MC 142516 (Sub-No. 2), filed September 2, 1977. Applicant: ACE TRUCKING CO., INC., 1 Hackensack Ave., South Kearny, N.J. 07032. Applicant's representative: George A. Olsen, 69 Tonnele Ave., Jersey City, N.J. 07306. Authority sought to operate as a contract carrier, over irregular routes, transporting: (1) *Chemicals, softeners, paints and paint products, petroleum products, plasticizers, mercuric acetate and mercuric oleate, resins, oils, compounds; and (2) Materials, equipment and supplies, used in the manufacturing and sale of the foregoing commodities (except commodities in bulk), between New Brunswick, N.J., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), under a continuing contract or contracts with Interstab Chemicals, Inc., at New Brunswick, N.J.*

NOTE.—If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC 142784 (Sub-No. 1), filed September 6, 1977. Applicant: RICHARD H. GRAVES, Box 223, Center Conway, N.H. 03813. Applicant's representative: Richard H. Graves (same address as applicant). Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Rough lumber, cut stock and rough glued panels, from points in Vermont, New Hampshire and Maine, to Honesdale, Pennsylvania, and Walton and Deposit, New York, under a continuing contract or contracts with S. J. Bailey & Sons, Inc., located at Clarks Summit, Pa.*

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at either Concord, New Hampshire or Portland, Me.

No. MC 142924 (Sub-No. 1), filed August 29, 1977. Applicant: Kenneth D. Stewart, d.b.a. STEWART'S CONTRACT SERVICE, Box 161, Kanona, N.Y. 14856. Applicant's representative: Roy D. Pinsky, 345 South Warren St., Syracuse, N.Y. 13202. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *New tires and tire tubes, from the plant and warehouse of Mowhawk Rubber Company, located at Memphis, Tenn., to points in New York (except New York, N.Y., and points in Nassau and Suffolk Counties) and points in Pennsylvania on and north of Interstate Highway 80, under a continuing contract or contracts with Mowhawk Rubber Company of Columbus, Ohio.*

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Syracuse, N.Y. or Washington, D.C.

No. MC 143047 Sub-No. 3, filed September 2, 1977. Applicant: C. W. Mitchell, Inc., d.b.a. MITCHELL TRANSPORT, 4401 North Westshore Blvd., Tampa, Fla. 33684. Applicant's representative: Rudy Yessin, 314 Wil-

kinson St., Frankfort, Ky. 40601. PASSENGER

No. MC 143668, filed September 1, 1977. Applicant: LONG ISLAND AIRPORTS LIMOUSINE SERVICE CORP., 25 Newton Place, Hauppauge, N.Y. 11787. Applicant's representative: Arthur Wagner, 600 Madison Avenue, New York, N.Y. 10022. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, in the transportation of passengers and their baggage in the same vehicle in round trip, sightseeing and pleasure tours, in charter and special operations, beginning and ending at points in Nassau and Suffolk Counties, N.Y. and extending to points in the United States (including Alaska but excluding Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests that it be held at Hauppauge, N.Y.; Mineola, N.Y.; or New York, N.Y.

BROKER

No. MC 130456, filed October 3, 1977. Applicant: STANTRAN, INC., 9350 Wilshire Bl. No. 201, Beverly Hills, Calif. 90212. Applicant's representative: Veral Stanley Hackett, Jr. (same address as applicant). Authority sought to engage in operation, in interstate or foreign commerce, as a broker at Beverly Hills, Calif., to sell or offer to sell the transportation of general commodities (except household goods, Classes A and B explosives, and commodities in bulk), between points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, the applicant does not specify a location.

FINANCE APPLICATIONS

NOTICE

The following applications seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control through ownership of stock, or rail carriers or motor carriers pursuant to Sections 5(2) or 210a(b) of the Interstate Commerce Act.

An original and two copies of protests against the granting of the requested authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protests shall comply with Special Rules 240(c) or 240(d) of the Commission's General Rules of Practice (49 CFR 1100.240) and shall include a concise statement of protestant's interest in the proceeding. A copy of the protest shall be served concurrently upon applicant's representative, or applicant, if no representative is named.

MICHIGAN INTERSTATE RAILWAY CO., 425 Thirteenth Street NW., Suite 1212, Washington, D.C. 20004, represented by Mr. Charles W. Chapman, General Counsel, Michigan Interstate Railway Co., 425 Thirteenth Street NW., Suite 1212, Washington, D.C. 20004, hereby give notice that on the 26th day of September, 1977, it filed with the Interstate Commerce Commission at Washington, D.C., an application under Section 1(18) of the Interstate Commerce Act for an order approving and authorizing the acquisition and operation of (a) a portion of the main line of the Ann Arbor Railroad System extending from Toledo, Ohio, to Ann Arbor, Mich., a distance of approximately 47.54 miles, and (b) a branch line of the Ann Arbor Railroad System known as the "Saline Branch" extending from East Pittsfield to Saline, Mich., a distance of approximately 5.6 miles, all in Washtenaw County, and intersecting the Toledo-Ann Arbor main line at Pittsfield, Mich., which application is assigned Finance Docket No. 28560.

The main line of railroad of the former Ann Arbor Railroad System proposed to be acquired and operated, extends from Toledo, Ohio (M.P. 0.00) in a northerly direction to Ann Arbor, Mich. (M.P. 47.54) in Lucas County in the State of Ohio and Monroe and Wash-

tenaw Counties, in the State of Michigan.

The "Saline Branch" of the former Ann Arbor Railroad System proposed to be acquired and operated extends from East Pittsfield (M.P. 0.80) in a westerly direction to Saline, Mich. (M.P. 6.40), intersecting the portion of the main line of the Ann Arbor Railroad System herein proposed to be acquired and operated at Pittsfield, Mich. (M.P. 50.50).

In the opinion of the applicant, Michigan Interstate Railway Co., the granting of the authority sought will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. In accordance with the Commission's regulations (49 CFR 1108.12) in Ex Parte No. 55 (Sub-No. 4), Implementation—National Environmental Policy Act, 1969, 352 I.C.C. 451 (1976), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall indicate with specific data the exact nature and degree of the anticipated impact. See Implementation—National Environmental Policy Act, 1969, supra at p. 487.

Pursuant to the provisions of the Interstate Commerce Act, as amended, the proceeding will be handled without public hearings unless comments in support or opposition on such application are filed with the Secretary, Interstate Commerce Commission, 12th and Constitution Avenue NW., Washington, D.C. 20423, and the aforementioned counsel for applicant, within 30 days after date of first publication in a newspaper of general circulation. Any interested person is entitled to recommend to the Commission that it approve, disapprove, or take any other specified action with respect to such application.

MICHIGAN INTERSTATE RAILWAY CO.

NOTICE

NORTH STRATFORD RAILROAD CORP., 126 Main Street, Littleton, N.H. 03561, represented by John M. A. Rolli, Esquire, North Stratford Railroad Corp., 126 Main Street, Littleton, N.H. 03561, hereby give notice that on the 9th day of September, 1977, it filed with the Interstate Commerce Commission at Washington, D.C., an application under Section 1(18) of the Interstate Commerce Act for an order approving and authorizing the operation of a line of railroad owned by the State of New Hampshire acting through its Department of Transportation (formerly through the New Hampshire Public Utilities Commission) upon a 23 mile segment of track formerly owned by the Maine Central Railroad Co. (abandonment docket No. AB-83) and subsequently purchased by the State of New Hampshire, between the Town of North Stratford, N.H., and the Town of Beecher Falls, Vt., along the Beecher Falls Branch, so-called, from its junction

with the Canadian National Railroad to its terminus at the Ethan Allen Furniture Co. more particularly described as from milepost 131.75 at North Stratford, N.H., to the end of the line at milepost 154.71 in Beecher Falls, Vt., at the Canadian Border a distance of 22.96 miles, which application is assigned Finance Docket No. 28553.

In the opinion of the applicant, North Stratford Railroad Corp., the granting of the authority sought will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. In accordance with the Commission's regulations (49 CFR 1108.12) in Ex Parte No. 55 (Sub-No. 4), Implementation—National Environmental Policy Act, 1969, 352 I.C.C. 451 (1976), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall indicate with specific data the exact nature and degree of the anticipated impact. See Implementation—National Environmental Policy Act, 1969, supra at p. 487.

Pursuant to the provisions of the Interstate Commerce Act, as amended, the proceeding will be handled without public hearings unless comments in support or opposition on such application are filed with the Secretary, Interstate Commerce Commission, 12th and Constitution Avenue NW., Washington, D.C. 20423, and the aforementioned counsel for applicant, within 30 days after date of first publication in a newspaper of general circulation. Any interested person is entitled to recommend to the Commission that it approve, disapprove, or take any other specified action with respect to such application.

NORTH STRATFORD RAILROAD CORP.

No. MC-F-13276. (correction) (McCORMICK DRAY LINE, INC.—purchase (portion)—H. C. GABLER, INC.), published in the July 21, 1977, issue of the FEDERAL REGISTER, on page 37485. Previous notice should have read as follows: "Grass stop, in rolls, metal stove shovels, metal roofing and siding, and fabricated metal building products". . . .

No. MC-F-13280 (correction) (COURIER-NEWSOM EXPRESS, INC.—purchase (portion)—ASSOCIATED TRANSPORT, INC.), published in the July 28, 1977, issue of the FEDERAL REGISTER on page 38479. Previous notice excluded portions of the operating authority to be purchased which are: *General commodities*, except livestock, currency, coin, bank bills, deeds, drafts, valuable papers, postage or revenue stamps, or papers with such stamps affixed, precious metals or stones or articles manufactured therefrom, jewelry or other articles of extraordinary value, articles of great weight, bulk, or size, loose or bulk commodities, household goods as defined in Practices of Motor Common Carriers of

Household Goods, 17 M.C.C. 467, liquids in bulk, in tank trucks, and articles contaminating or injurious to other freight or equipment, Classes A and B explosives, between Knoxville, Tenn., and Asheville, N.C., serving all intermediate points, those within 10 miles of Knoxville, and off-route points in N.C., within 10 miles, from Knoxville over U.S. Highway 70 to Asheville, and return. After "Between Nashville, Tenn. and Knoxville, Tennessee" it should read "from Nashville over U.S. Highway 70 N to junction U.S. Highway 70S, thence over U.S. Highway 70 S to Crossville, thence over U.S. Highway 70 to Knoxville, and return over the same route." After "between Knoxville, Tenn. and Chattanooga, Tenn.", it should read "From Knoxville over U.S. Highway 129 to junction U.S. Highway 411, thence over U.S. Highway 411 to junction unnumbered highway, formerly Tennessee Highway 60, thence over unnumbered highway to Cleveland, and thence over U.S. Highway 11 to Chattanooga, and return over the same route." After "between Madisonville, Tenn. and Ducktown, Tenn.", it should read "From Madisonville over Tennessee Highway 68 to Ducktown, and return over the same route." After "between Benton, Tenn. and Copperhill, Tenn.", it should read "From Benton over unnumbered highway to Parksville, Tenn., thence over U.S. Highway 64 to Ducktown, Tenn., thence over Tennessee Highway 68 to Copper Hill, and return over the same route." "Serving the site of Melton Hill Inn of the Tennessee Valley Authority located southwest of Knoxville, Tenn. . . ." should have omitted the word "Inn.", and should have read as follows: "Serving the site of Melton Hill of the Tennessee Valley Authority located southwest of Knoxville, Tenn. . . ." After "between Nashville, Tenn. and Cumberland City, Tenn.", it should read "From Nashville over Tennessee Highway 12 to junction Tennessee Highway 49, thence over Tennessee Highway 49 to Erin, Tenn., thence over Tennessee Highway 149 to Cumberland City, and return over the same route."

No. MC-F 13295 (Correction) (Consolidated Freightways Corp. of Delaware—Purchase (Portion)—Eastern Express, Inc.), published in the August 18, 1977, issue of the FEDERAL REGISTER, on page 41723. Prior notice should have read as follows: "Serving all intermediate points and off-route points of Mayport and Seminole Beach" (2) "between Jacksonville and Atlantic Beach", and (3) "between Jacksonville and Miami, Fla., over U.S. Highway 1 and over Interstate Highway 10, U.S. Highway 301, and U.S. Highway 27 and over Interstate Highway 10, U.S. Highway 301, U.S. Highway 441, Sunshine State Parkway and access roads".

No. MC-F 13310. (Correction) (Ryder Truck Lines, Inc.—Control & Merger—Aito Trucking Company, Inc.), published in the September 29, 1977, issue of the FEDERAL REGISTER, on Pages 51719-51721.

Prior notice should have read as follows: (1) Page 51719, column 3, line 3 of the last paragraph, "Highway 39" should be "Highway 29". (2) Page 51720, column 3, line 7, after the word "Middlesex" should be "County Highway 1R6 to junction". On line 8 of the same page and column, after the words "New Jersey Highway 27" should be "thence over New Jersey Highway 1R6 to junction New Jersey Highway 27 thence over New Jersey Highway 27 to junction New Jersey Highway S28, . . .". (3) Page 51720, column 3, next paragraph, line 18, after the words "thence over", should be "Champlain Road to junction U.S.". On line 19 of the same paragraph, after the words "Highway 206" should be "thence over U.S. Highway 206", and it should read as follows: ". . . thence over Champlain Road to junction U.S. Highway 206 thence over U.S. Highway 206 to junction Somerset County Highway 3, . . .".

No. MC-F 13317. Authority sought for purchase by HOGLAND TRANSFER CO., 3221 Paine Street, Everett, Wash. 98201, of the operating rights and property of Arthur G. Thompson (deceased) and Chester D. Thompson, d.b.a. Thompson Brothers, 401 Union, Arlington, Wash. 98223, and for acquisition by Chester D. Thompson and Sena Thompson (as surviving spouse), both of 401 Union, Arlington, Wash. 98223, of control of such rights through the transaction. Applicants' attorney: Boyd Hartman, Suite 210, Seattle Trust Bldg., 10655 N.E. 4th, Bellevue, Wash. 98004. Operating rights sought to be transferred: General commodities, with exceptions as a common carrier over regular routes between Everett, Wash., and Darrington, Wash., and the intermediate and off-route points of Hazel, Oso, Arlington, Marysville, and Andron Camp, Wash.; From Everett over U.S. Highway 99 to Rex's Corner, Wash. thence over unnumbered highway to Darrington, and return over the same route. Transferee presently holds authority under its certificate MC 40505 to transport general commodities with the usual exceptions between Everett and Wenatchee via Highway 2 with certain intermediate points restrictions and general commodities between Everett and Seattle and between Everett and three miles thereof. Transferee also holds special commodity authority for household goods, heavy machinery and parts, Contractors' Equipment and Supplies, Steel and Iron. Size and weight commodities between Snohomish County and points west of Highway 97 in Oregon. Heavy Machinery between Seattle and Everett and points in Snohomish and Skagit Counties and other nonaffected, limited authority. The two authorities will be joined at Everett for through service. Application has not been filed for temporary authority.

No. MC-F 13245. Application under Section 5(1) of the Interstate Commerce Act for approval of an agreement be-

tween common carriers for the pooling of traffic. Applicants: CONSOLIDATED FREIGHTWAYS CORP. OF DELAWARE, 175 Linfield Drive, Menlo Park, Calif. 94025 (MC 42487) with nine (9) carriers, namely, CRITES TRANSFER, P.O. Box 1598, Cumberland, Md. 21502 (MC 20084), (B) DUNMYRE MOTOR EXPRESS, INC., P.O. Box 289, Chicora, Pa. 16025 (MC 98748 Sub-No. 1), (C) NELSON'S EXPRESS, INC., 675 Market Street, Millersburg, Pa. 17061 (MC 76449), (D) SHEARER'S EXPRESS, INC., Box 596, Oneonta, N.Y. 13820 (MC 92371), (E) EDW. H. SHOLLENBERGER SONS, INC., West Penn Street, Schuylkill Haven, Pa. 17972 (MC 111077), (F) STERNS TRANSPORT, INC., P.O. Box 397, Bradley Beach, N.J. 07720 (MC 109881), (G) VAN AUKEN EXPRESS, INC., Box 176, Greenville, N.Y. 12083 (MC 105843), (H) ROOT'S EXPRESS, INC., 11 Karlada Drive, Binghamton, N.J. 13902, and (I) STAAT'S EXPRESS, INC., 507 South Street, Rensselaer, N.Y. 12144 (MC 58944), seeks to enter into an agreement for the pooling of traffic consisting of general commodities and various specified commodities moving to and from points in (A) Maryland, point of interchange, Cumberland, Md., points in Accident, Allegany, Altamont, Barreville, Barton, Bittinger, Bloomington, Charlestown (Allegany Co.), Crellin, Danville, Dawson, Deer Park, Eckhart Mines, Flintstone, Friendsville, Frostburg, Gilpin, Gortner, Grantsville, Hutton, Jennings, Kitzmiller, Lonaconing, Luke, McCoole, McHenry, Midland, Moscow, Mountain Lake Park, Mount Savage, Oakland, Oldtown, Picardy, Pinto, Rawlings, Redhouse, Rush, Sang Run, Swanton, Westernport, (B) points in Pennsylvania, Bruin, Chicora, Emlenton, Karns City, North Washington, Parker, Petrolia, (C) points in Pennsylvania, Amity Hall, Dauphin, Duncannon, Greenmount, Hanoverdale, Hegins, Kinokora Heights, Millerstown, New Buffalo, Newport (Perry Co.), Perdix, Rockville, Newport (Perry Co.), Perdix, Rockville, Speersville, (D) points in New York, Cobleskill, Oneonta, Warnersville, West Oneonta, (E) points in Pennsylvania, Bunker Hill, Cressona, Cumbola, Lansford, Minersville, Mount Carbon, New Ringgold, Palo Alto, Port Carbon, Port Clinton, Pottsville, St. Claire, Summit Hill, Schuylkill Haven, (F) points in New Jersey, Allenhurst, Asbury Park, Atlantic Highlands, Avon (Avon by the Sea), Belmar, Belmar, Bergen Hill, Bradley Beach, Deal, Deal Beach, East Keansburg, Eatontown, Elberon, Fair Haven, Fairview, Fort Hancock, Fort Monmouth, Highlands, Interlaken, Keansburg, Leonardo, Little Silver, Loch Arbour, Locust, Long Branch, Middletown, Monmouth Beach, Navesink, Navesink Beach, Neptune City, New Monmouth, North Long Branch, Oakhurst, Oak Shade, Ocean, Ocean Grove, Oceanport, Port Monmouth, Red Bank, Rumson, Sea Bright, Shark River Manor, Shorecrest, South Belmar, Tiltons Corners, Wanamassa, West Allenhurst, West Belmar, West Keansburg, West Long Branch, (G) points in New York, Athens, Catskill,

CONSOLIDATED FREIGHTWAYS CORPORATION OF DELAWARE is authorized to operate as a common carrier in all the States in the United States (except Hawaii). Applicants' representatives: G. T. West, Vice President—Traffic, 175 Linfield Drive, Menlo Park, Calif. 94025, and Robert M. Bowden, Commerce Supervisor, P.O. Box 3062, Portland, Ore. 97208.

No. MC-F 13347. Authority sought for merger by VALLERIE'S TRANSPORTATION SERVICE, INC., P.O. Box 880, Connecticut Avenue, Norwalk, Conn. 06582, of the operating rights and properties of THE DARCEY TRANSPORTATION CO., P.O. Box 880, Connecticut Avenue, Norwalk, Conn. 06582, and for acquisition by John E. Albert E., and Raymond R. Vallerie, all of Norwalk, Conn. 06582, of control of such rights through the merger. Applicants' attorney: Maxwell A. Howell, 1100 Investment Building, 1511 K Street NW., Washington, D.C. 20005. Operating rights sought to be merged: General commodities with exceptions as a common carrier over regular routes between Bridgeport, Conn., and Boston, Mass., as follows: From Bridgeport over Connecticut Highway 65 to Shelton, thence over Connecticut Highway 8 to Waterbury, thence over Connecticut Highway 14 to Middletown, thence over Connecticut Highway 10 to Plainville, Conn., thence over U.S. Highway 6 to Hartford, Conn., thence over U.S. Highway 5 to Springfield, Mass. (also from Hartford over Alternate U.S. Highway 5 to West Springfield, Mass., thence across the Connecticut River to Springfield), thence over U.S. Highway 20 via Larnedville, Mass., to junction Massachusetts Highway 12, thence over Massachusetts Highway 12 to Worcester, Mass., and thence over Massachusetts Highway 9 to Boston; from Bridgeport to Larnedville as specified above thence over U.S. Highway 20 to Boston, and return over these routes to Bridgeport; between Hartford, Conn., and New Bedford, Mass.; between Providence, R.I., and New Bedford, Mass.; between Coventry, Conn., and Providence, R.I.; between Providence, R.I., and Boston, Mass.; between Hartford, Conn., and North Wilbraham, Mass.; between points and places in Connecticut as follows: From Waterbury over Connecticut Highway 8 to Torrington; from Waterbury over Connecticut Highway 70 to Cheshire, Conn., and thence over Connecticut Highway 10 to New Haven; from Shelton over Connecticut Highway 8 to Stratford, Conn., and thence over U.S. Highway 1 to Bridgeport; from Naugatuck over Connecticut Highway 63 to New Haven; from Putnam over Connecticut Highway 91 to North Windham and return over

these routes to the above-specified origin points. Service is authorized to and from all intermediate points on the above-specified routes; and the off-route points to Fairfield, Milford, Oakville, Bristol, Kensington, S. Glastonbury, Devon, Watertown, Forestville, Berlin, Wethersfield, Middletown, Westport, Middlebury, Meriden, New Britain, Glastonbury, Wallingford, West Haven, Branford, East Haven, and Rockville, Connecticut, Indian Orchard, Warren, Southbridge, West Dudley, Whitinsville, North Grafton, Southboro, Maynard, Needham, Newton Lower Falls, Hyde Park, Arlington, Revere, Lynn, Winchester, Chicopee, Ludlow, North Brookfield, Webster, Clinton, Hopedale, Grafton, Framingham, Natick, Dover, Newton, Newtonville, Medford, Everett, Melrose, Quincy, Westfield, Holyoke, Ware, Spencer, Dudley, Westboro, Milford, Hudson, Ashland, Wellesley, Belmont, Newton Upper Falls, Brookline, Readville, Malden, Chelsea, Wakefield, Braintree, Attleboro, Attleboro Falls, Fairhaven, Bridgewater, Brockton, and Middleboro, Massachusetts, and Central Falls, Woonsocket, Bristol, Warren, East Greenwich, Hillsboro, Cranston, Pawtucket, Newport, Apponaug, Valley Falls, and Phillipsdale, R.I. General commodities, with exceptions over irregular routes between points and places in Connecticut, on the one hand, and, on the other, points and places in Massachusetts and Rhode Island. Vendee is authorized to operate as a common carrier in Connecticut, Massachusetts, New Jersey, New York, and Rhode Island. Application has not been filed for temporary authority under section 210a(b).

NOTE.—Vallerie's Transportation Service, Inc., was granted control of The Darcey Transportation Co. in No. MC-F 9924, served June 3, 1968.

No. MC-F 13348. Authority sought for control by DELTA CALIFORNIA INDUSTRIES, 46th Floor, 600 Montgomery Street, San Francisco, Calif. 94111 of THUNDERBIRD SOUTHWEST CORP. and THUNDERBIRD FREIGHT LINES, INC., both of 1515 South 22d Avenue, Phoenix, Ariz., 85009, and for acquisition by Thomas R. Dwyer, also of 46th Floor, 600 Montgomery Street, San Francisco, Calif. 94111 and Peter G. Dwyer and Francis H. Dwyer, P.O. Box 81, Grimes, Calif. 95950 of control of the operating rights of Thunderbird Freight Lines, Inc., through the transaction. Applicants' attorneys: Russell R. Sage and John M. Ballenger, Suite 400, Overlook Building, 6121 Lincoln Road, Alexandria, Va. 22312. Operating rights sought to be controlled: (A) General Commodities, with exceptions, as a common carrier over regular routes (1) between points in the Los Angeles, Calif., Commercial Zone and the Los Angeles Harbor, Calif., Commercial Zone, as defined by the Commission, on the one hand, and, on the other, Phoenix, Ariz., serving no intermediate points; (2) between St. Johns, Ariz., and Sanders, Ariz., serving all intermediate points; (3) serving

the plant site of Southwest Forest Industries, Inc., approximately 15 miles west of Snowflake, Ariz., as an off route point; (4) between Phoenix, Ariz., and Holbrook, Ariz., serving intermediate points between Globe and Holbrook and off route points within five miles of route; (5) between Globe, Ariz., and San Carlos, Ariz., serving all intermediate points and all off route points within five miles of route; (6) between Pinedale, Ariz., and Fort Apache, Ariz., serving all intermediate points and all off route points within five miles of route; (7) between Holbrook, Ariz., and Eager, Ariz., serving all intermediate points and all off route points within five miles of route; (8) between Show Low, Ariz., and Springerville, Ariz., serving all intermediate points and all off route points within five miles of route; (9) between Concho, Ariz., and junction Arizona Highway 61 and U.S. Highway 60 near Pinon, Ariz., serving all intermediate points and all off route points within five miles of route; (10) between Phoenix, Ariz., and Tucson, Ariz., serving all intermediate points, and serving the junction of U.S. Highway 60 and 70 and Arizona Highway 87, and Arizona Highway 87 and Arizona Highways 84 and 93 for the purpose of joinder only, restricted to the transportation of shipments originating at or destined to a point in Arizona; (11) between junction Arizona Highways 87 and 93 (near Serape, Ariz.), and junction Arizona Highway 93 and 84 (at Casa Grande, Ariz.), serving all intermediate points, restricted to the transportation of shipments originating at or destined to a point in Arizona; and (12) between points in the Los Angeles, Calif., Commercial Zone and the Los Angeles Harbor, Calif., Commercial Zone, as defined by the Commission, and Indio, Calif., serving no intermediate points beyond the eastern boundary of the Los Angeles, Calif., Commercial Zone, and serving Indio for joinder only; (B) General commodities, with exceptions, as a common carrier over irregular routes between Phoenix, Ariz., and a defined territory surrounding Phoenix, Ariz., restricted to shipments transported to and from points outside Arizona; (C) livestock, emigrant movables, and household goods as defined by the Commission as a common carrier over irregular routes between specified Arizona points; and (D) coal, lumber, cement, groceries, bricks, fire clay, hardware, automobile parts and supplies, dry goods, hay, grain, cottonseed cakes, and fresh fruits and vegetables, as a common carrier over irregular routes from St. John, Ariz., to points within 75 miles thereof. Delta California Industries presently controls Delta Lines, Inc., which is authorized to operate as a common carrier in the States of Arizona, California, Nevada, Oregon, and Washington. Application has not been filed for temporary authority under section 210a(b).

No. MC-F 13351. Authority sought for purchase by WEMCO, INC. (non-carrier), 10111 Mercer, Dearborn, Mich.

48120, of the operating rights of WYANDOTTE TRUCKING CORP., 18550, Allen Road, Wyandotte, Mich. 48192, and for acquisition by Farris M. Elgee, 10111 Mercer, Dearborn, Mich. 48120, of control of such rights through the transaction. Applicants' attorney: Wilhelmina Boersma, 1600 First Federal Building, Detroit, Mich., 48226. Operating rights sought to be transferred: Dry Chemicals, in bulk, in tank, hopper, or dump vehicles as a common carrier over irregular routes from the plant sites of the Wyandotte Chemicals Corp., at Wyandotte, Mich., to points in Delaware, Indiana, Iowa, Kentucky, Maryland, Minnesota, New Jersey, New York, Ohio (except dry chemicals in dump trucks to points in Duanhoga, Geauga, Portage, and Lorain Counties, Ohio, and dry chemicals in dump trucks and soda ash to points in Ohio within 40 miles of Monroe, Mich.), Pennsylvania, Tennessee (except points in that part of Tennessee on and east of U.S. Highway 27), Virginia, West Virginia, Wisconsin, Missouri, and Illinois (except points in those parts of Missouri and Illinois within the St. Louis, Mo.—East St. Louis, Ill., Commercial Zone, as defined by the Commission), with no transportation for compensation on return, except as otherwise authorized, with restrictions. Wemco, Inc., holds no authority from this Commission. However, it is affiliated with Lime, Inc., which has certain authority as described in MC 107636, to transport lime and limestone products from Marblehead Lime Co. in River Rouge, Mich., to points in Indiana, Illinois, Iowa, Kentucky, Ohio, Missouri, New York, Pennsylvania, Wisconsin, and West Virginia, and Weiss Trucking Co., Inc. which has authority described in MC 94430 and Subs. Weiss Trucking Co., Inc., is generally involved in the carriage of cement between certain points in Michigan, Indiana, and Ohio, and petroleum products, feeds and seeds, lumber, livestock, household goods, and farm machinery and implements, between certain points in Indiana and Michigan. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-13352. Application under Section 5(1) of the Interstate Commerce Act for approval of an agreement between common carriers for the pooling of traffic. Applicants: CONSOLIDATED FREIGHTWAYS CORP. OF DELAWARE, 175 Linfield Drive, Menlo Park, Calif. 94025 (MC 42487) with six (6) carriers, namely, (A) JACKSONVILLE-SPRINGFIELD TRANSPORTATION CO., 303 West Lafayette Avenue, Jacksonville, Ill. (MC 54497), (B) LIBERTY-MIDDLETOWN EXPRESS, INC., P.O. Box 630, Liberty, N.Y. 12754, (MC 99340), (C) PUTNAM TRANSFER & STORAGE CO., 1502 Woodlawn Avenue, Zanesville, Ohio 43701 (MC 57311), (D) SOUTHERN MARYLAND TRANSPORTATION CO., 2931 Whittington Avenue, Baltimore, Md. 21230, (MC 96818), (E) GEORGE RIMES TRUCKING CO., 404 Washington Street, Chardon, Ohio 44024

dorf, Waterbury, Wayside, Waysons Corner, Welcome, West Beach, Westwood, White Plains, Wilcomico, and Woodland Beach, Md.; (E) points in Auburn, Auburn Corners, Banbridge, Chagrin Falls, Chagrin Falls Park, Chesterland, Concord, Fowlers Mill, Moreland Hills, Mulberry Corners, Novelty, Parkman, South Russell, and Welshfield, Ohio; (F) points in Center Groton, Coast Guard Academy, Conning Towers, East Haddam, East Lyme, Giants Neck, Groton, Groton Heights, Groton Long Point, Hadlyme, Harrisons, Jordon Village, Laysville, Lyme, Millstone, Millstone Beach, Moodus, Mystic, Naval Submarine Base, Navy Heights, New London, Niantic, Noank, Ocean Beach, Old Lyme, Old Mystic, Pine Grove, Pleasant Valley, Pleasure Beach (New London County), Poquonock Bridge, Reeds Gap, Ridge-wood Park, South Lyme, Still River, Submarine Base, Thames View, U.S. Coast Guard Inst., Waterford, and West Mystic, Conn. Consolidated Freightways Corp. of Delaware is authorized to operate as a common carrier in all the States in the United States (except Hawaii). Applicants' representatives: G. T. West, Vice President-Traffic, 175 Linfield Drive, Menlo Park, Calif. 94025, and Robert M. Bowden, Commerce Supervisor, P.O. Box 362, Portland, Oreg. 97208.

No. MC-F-13353. Authority sought for purchase by GREAT WESTERN TRUCKING CO., INC., Highway 103 East, P.O. Box 1384, Lufkin, Tex. 75901, of a portion of the operating rights of South Eastern Xpress, Inc., 2020 Sycamore School Road, P.O. Box 6985, Fort Worth, Tex. 76115, and for acquisition by Bennie W. Haskins, an individual, Highway 103 East, Lufkin, Tex. 75901, of control of such rights through the purchase. Applicant's representative: Mert Starnes, P.O. Box 2207, Austin, Tex. 78768. Operating rights sought to be transferred: That portion of Certificate MC 118130 which authorizes the transportation of *malt beverages, drinking containers, beverage coolers, chests, and coasters, and bait buckets, as a common carrier over irregular routes*, from Fort Worth, Tex., to points in Mississippi, Arkansas (except Texarkana), and Alabama, with no transportation on return except as otherwise authorized. Vendee is authorized to operate as a common carrier in all states except Alaska and Hawaii. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-13355. Authority sought for merger by B&L MOTOR FREIGHT, INC., 140 Everett Avenue, Newark, Ohio 43055, with PRUNTY MOTOR EXPRESS, INC., 430 29th Street, Parkersburg, W. Va. 26101, and for acquisition by The Capitol Corp., 140 Everett Avenue, Newark, Ohio 43055, of control of such rights through the transaction. Applicant's attorney: John P. McMahon, 100 East Broad Street, Columbus, Ohio 43215. Operating rights sought to be merged: *General commodities*, with ex-

ceptions as a *common carrier over irregular routes between points in Wood County, W. Va., on the one hand, and, on the other, points in Pennsylvania, Ohio, Maryland, and the District of Columbia; between points in Wood County, W. Va., on the one hand, and, on the other, points in that part of Ohio south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, thence along U.S. Highway 40 to Columbus, and east of a line beginning at Columbus and extending along U.S. Highway 23 to Portsmouth, Ohio, including points on the indicated portions of the highways specified; between points in that part of Ohio lying on and south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, and thence along U.S. Highway 40 to Columbus, and on and east of a line extending along U.S. Highway 23 from Columbus to Portsmouth, on the one hand, and, on the other, points in Maryland, Pennsylvania, and the District of Columbia. Vendee is authorized to operate as a common carrier in all the States including the District of Columbia (excluding Alaska and Hawaii). Application has not been filed for temporary authority under section 210a(b).*

NOTE.—Both Transferee and Transferor are under common control by the Capitol Corp., which was granted by the Commission in MC-F-12857. MC 123255 (Sub-No. 124) is directly related matter.

No. MC-F-13357. Authority sought for control by METRO HAULING, INC., 20848, 77th Avenue South, Kent, Wash. 98031, of Hayes Truck Lines, Inc., of 1701 Bay Street, Tacoma, Wash. 98401 and for acquisition by Mike Chimenti, 32231 25th Ave. SW., Federal Way, Wash. 98003 and Nick Jewett, 23232, 15th Ave., Bothell, Wash. 98011, of control of such rights through the transaction. Applicant's attorney: Jack R. Davis, 1100 IBM Building, Seattle, Wash. 98101. Operating rights sought to be controlled: *General commodities*, with exceptions as a *common carrier over irregular routes from Tacoma, Wash., to points in Pierce, King, Snohomish, Lewis, Thurston, Mason, and Grays Harbor Counties, Wash., and between points within 3 miles of Tacoma including Tacoma. General commodities with exceptions over regular routes as a common carrier between Winlock, Washington, and Portland, Oreg. Articles which because of size or weight require the use of special equipment, building materials and chlorine between points in Pierce, King, Snohomish, Lewis, Thurston, Mason, and Grays Harbor Counties, Wash., and between such counties on the one hand, and, on the other, points in Oregon; insulating materials from plantsite of U.S. Gypsum at Tacoma, Wash., to points in Washington and specified counties in Montana and Idaho. Vendee is authorized to operate as a common carrier in Washington and Oregon. Application has been filed for temporary authority under Section 210a(b).*

No. MC-F-13361. Authority sought for purchase by BEYOND EXPRESS, INC., 20 Fairview Place, Freeport, N.Y. 11520, of the operating rights of Robert W. Slott, Assignee for the Benefit of Creditors of Suf-City Trucking, Inc., 1230 Avenue of the Americas, New York, N.Y. 10020, of control of such rights through the purchase. Applicant's attorney: William J. Augello, Augello & Pezold, P.C., 120 Main Street, P.O. Box Z, Huntington, N.Y. 11743. Operating rights sought to be transferred: Under a certificate of Registration in Docket No. MC 121703, covering the transportation of *General Commodities*, with exceptions as a *common carrier between New York, N.Y., on the one hand, and, on the other, points in Suffolk County, N.Y., restricted: (1) against the transportation of household goods, and (2) against the transportation of commodities having a prior or subsequent movement by air. Vendee is authorized to operate as a common carrier New York. Application has been filed for temporary authority under section 210a(b).*

NOTE.—MC 135129 (Sub-No. 2) is a directly related matter. There is also a application pending before the Commission to convert transferors' present authority.

No. MC-F-13364. Authority sought for purchase by EVERETTE TRUCK LINES, INC., P.O. Box 145, Cherry Road, Washington, N.C. 27889 of the operating rights of N.C. Coastal Motor Lines, Inc., P.O. Box 30578, Raleigh, N.C. 37612, and for acquisition by Woodrow Everette, also of Washington, N.C., of control of the rights through the purchase. Applicant's attorney: Harry J. Jordan, 1000 16th Street NW., Washington, D.C. 20036. Operating rights to be purchased: *General commodities*, with exceptions, as a *common carrier over irregular routes*, from New York, N.Y., Newark, Bloomfield, and Seward, N.J., Biglerville and Philadelphia, Pa., Wilmington, Del., Baltimore, Md., and Winchester and Richmond Va., to points in North Carolina on and east of U.S. 1, and irregular routes specified commodities as more fully described in Docket No. MC 42919 and Sub-Nos. 4, 7, 8, and 10 thereof. Vendee is authorized to operate, pursuant to Certificate No. MC 109638 and Sub-Nos. thereof in North Carolina, New York, New Jersey, Pennsylvania, Delaware, Maryland, and Virginia among other states. Approval of this application will, therefore, result in minor duplications of authority. Application has also been filed for temporary authority to lease vendor's authority under Section 210a(b).

OPERATING RIGHTS APPLICATION(S) DIRECTLY RELATED TO FINANCE PROCEEDINGS

NOTICE

The following operating rights application(s) are filed in connection with pending finance applications under Section 5(2) of the Interstate Commerce Act, or seek tacking and/or gateway elimination in connection with transfer applications under Section 212(b) of the Interstate Commerce Act.

NOTICES

An original and two copies of protests to the granting of the authorities must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protests shall comply with Special Rules 247(d) of the Commission's General Rules of Practice (49 CFR 1100.247) and include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon applicant's representative, or applicant if no representative is named.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 108461 (Sub-No. 128), filed September 1, 1977. Applicant: WHITFIELD TRANSPORTATION, INC., 821 East Pasadena, P.O. Box 7676, Phoenix, Ariz. 85011. Applicant's representative: William S. Richards, 48 Post Office Place, P.O. Box 2465, Salt Lake City, Utah 84110. Authority sought to operate as a *common carrier*, by motor vehicle, over regular and irregular routes, as follows: (a) *Irregular routes: General commodities over irregular routes*, within the entire State of Idaho; (b) *regular routes: general commodities* (except household goods as defined by the Commission, commodities in bulk and those requiring special equipment). Between Saint Anthony and Caldwell, Idaho, as follows: From Saint Anthony, Idaho, over U.S. Highways 20 and 191 to the junction of U.S. Highway 91 and Interstate 15 to Idaho Falls, Idaho; thence over U.S. Highway 91 and Interstate 15 to the junction of U.S. Highway 30 and Interstate Highway 15W at Pocatello, Idaho; thence over U.S. Highway 30 and Interstate Highway 15W to the junction of U.S. Highway 30 and Interstate Highway 80; thence over U.S. Highway 80 to Caldwell, Idaho, and return over the same route, serving all intermediate points. (c) Applicant seeks to tack the general commodities irregular route authority sought herein with the authority applicant is acquiring in Docket Nos. MC-F-12312 and MC 108461 (Sub-No. 123) directly related at Pocatello, Idaho Falls, and Mackay, Idaho. The authority sought in Docket No. MC-F-12312 is irregular route for the transportation of general commodities, except household goods, petroleum products, and commodities in bulk, between Salt Lake City and Ogden, Utah, on the one hand, and Pocatello, Idaho Falls, and Mackay, Idaho, on the other hand. By tacking this authority to the applied for authority, applicant will be able to serve between points in California, Arizona, Texas, New Mexico, Salt Lake City and Ogden, Utah, and all points in the State of Idaho. Applicant states that it does not seek duplicating authority; that common control may be involved and that this is a matter directly related to a Section 5 proceeding in MC-F-13311 published in the FEDERAL REG-

ISTER issue of September 8, 1977. If a hearing is deemed necessary, applicant requests it be held at Salt Lake City, Utah, and Boise, Idaho.

No. MC 123255 (Sub-No. 124), filed September 20, 1977. Applicant: B & L MOTOR FREIGHT, INC., 140 Everett Avenue, Newark, Ohio 43055. Applicant's representative: John P. McMahon, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Fertilizer between points in Michigan and points in that part of Indiana east of U.S. Highway 31, on the one hand, and, points in Wood County, W. Va., Maryland, Pennsylvania, and the District of Columbia and that part of Ohio on and south of U.S. Highway 22. (Gateways to be eliminated: Columbus, Ohio and Wood County, W. Va.). (2) Sugar between New York, N.Y., on the one hand, and, points in Wood County, W. Va. and points in that part of Ohio lying on and south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, and thence along U.S. Highway 40 to Columbus, and on and south of a line extending along Interstate Highway 71 to Cincinnati. (Gateways to be eliminated: Columbus, Ohio and Wood County, W. Va.). (3) Oleomargarine, salad dressing, lard substitutes, salad oils, cooking oils, vegetable stearine, cheese, and machinery and equipment used in the manufacture of these commodities between Charleston and Huntington, W. Va., on the one hand, and points in Maryland, Pennsylvania and the District of Columbia. (Gateways to be eliminated: Columbus, Ohio). (4) Canned goods from Washington Court House, Ohio, to points in Maryland, Pennsylvania and the District of Columbia. (Gateways to be eliminated: Wood County, W. Va.). (5) Canned goods, from points in Maryland, Pennsylvania, the District of Columbia and points in that part of Ohio south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, thence along U.S. Highway 40 to Columbus, and east of a line beginning at Columbus and extending along U.S. Highway 23 to Portsmouth, Ohio, including points on the indicated portions of the highways specified, to points in West Virginia, except points in Wood County, W. Va., and those points in West Virginia within 10 miles of the Ohio-West Virginia State line and Kentucky. (Gateways to be eliminated: Wood County, W. Va. and Washington Court House, Ohio.)*

(6) *Washing powder*, in bulk, from from Trenton, Mich., to points in Wood County, W. Va. (Gateway to be eliminated: Columbus, Ohio). (7) *Malt beverages* from Sheboygan and La Crosse, Wis., to points in Wood County, W. Va., and points in Maryland, Pennsylvania and the District of Columbia. (Gateways to be eliminated: Points in the southeastern quarter of Ohio). (8) *Malt beverages and wines and empty containers*, therefore, between St. Louis, Mo., and points in Illinois, Indiana, New Jersey, New York, Pennsylvania, and Wisconsin on the one hand, and, points

in Wood County, W. Va., and points in that part of Ohio south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, thence along U.S. Highway 40 to Columbus, and east of a line beginning at Columbus and extending along U.S. Highway 23 to Portsmouth, Ohio, including points on the indicated portions of the highways specified. (Gateways to be eliminated: Cleveland, Ohio and Wood County, W. Va.) (9) *Malt beverages and wines, and empty containers*, therefor, between Maryland and the District of Columbia on the one hand, and, on the other, St. Louis, Mo., and points in Illinois, Indiana, and Wisconsin. (Gateways to be eliminated: Cleveland, Ohio and Wood County, W. Va.) (10) *Malt and phosphated beverages, wines, cordials, and alcoholic liquors, and empty containers* therefor between points in Massachusetts, on the one hand, and points on or west of U.S. Highway 15 in Pennsylvania and Maryland and points in Wood County, W. Va. (Gateways to be eliminated: Points in the southeastern quarter of Ohio.) (11) *Wine*, in containers from Hammondsport, N.Y. to points in Wood County, W. Va., and points in Pennsylvania on and west of U.S. Highway 219. (Gateways to be eliminated: Points in the southeastern quarter of Ohio.) (12) *Empty wine containers* from points in Wood County, W. Va. and points in Pennsylvania on and west of U.S. Highway 219 to Hammondsport, N.Y. (Gateways to be eliminated: Points in the southeastern quarter of Ohio.) (13) *Malt beverages* from St. Louis, Mo., to points in Wood County, W. Va., and points in Maryland, Pennsylvania, the District of Columbia, and points in that part of Ohio south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, thence along U.S. Highway 40 to Columbus, and south of a line beginning at Columbus and extending along Interstate Highway 71 to Cincinnati, Ohio. (Gateways to be eliminated: Columbus, Ohio and Wood County, W. Va.) (14) *Malt beverages* from Milwaukee, Wis., to points in Wood County, W. Va., and points in Maryland and the District of Columbia. (Gateways to be eliminated: Points in the southeastern quarter of Ohio.) (15) *Malt beverages* from Chicago and Maywood, Ill., to points in Wood County, W. Va., and points in Maryland and the District of Columbia. (Gateways to be eliminated: Points in the southeastern quarter of Ohio.) (16) *Empty malt beverage containers* from points in Wood County, W. Va., and points in Maryland, Pennsylvania, the District of Columbia and points in that part of Ohio south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, thence along U.S. Highway 40 to Columbus and extending along U.S. Highway 23 to Portsmouth, Ohio, including points on the indicated portions of the highways specified to St. Louis, Mo. (Gateways to be eliminated: Columbus, Ohio and Wood County, W. Va.) (17)

Empty beverage containers and cases from points in Wood County, W. Va., and points in Maryland, Pennsylvania, and the District of Columbia to Milwaukee, Wis., and Chicago and Maywood, Ill. (Gateway to be eliminated: Columbus, Ohio.) (18) *Wine* from Chicago, Ill., to points in Wood County, W. Va. (Gateway to be eliminated: Lorain, Ohio.) (19) *Malt beverages in containers and related advertising matter* when moving herewith from points in Wood County, W. Va., to Kansas City, Kans., and points in Mo. (except St. Louis, Mo.). (Gateway to be eliminated: Cleveland, Ohio.) (20) *Advertising matter, and beer can and bottle openers, in mixed shipments with malt beverages* from Milwaukee, Wis., Chicago and Maywood, Ill., and St. Louis, Mo., to points in Wood County, W. Va. and points in Maryland, Pennsylvania, and the District of Columbia. (Gateways to be eliminated: Points in the southeastern quarter of Ohio.) (21) *Malt beverages in containers and related advertising material, and beer can and bottle openers* from Peoria, Ill., to points in Wood County, W. Va., and points in Maryland, Pennsylvania, and the District of Columbia. (Gateways to be eliminated: Points in the southeastern quarter of Ohio.) (22) *Malt beverages, related advertising material, and beer can and bottle openers* from Ft. Wayne, Ind., to points in Wood County, W. Va., and points in Maryland, Pennsylvania, and the District of Columbia. (Gateways to be eliminated: Points in the southeastern quarter of Ohio.) (23) *Foodstuffs and food preparations*, except canned goods and fresh meats, from Detroit, Mich. and points in that part of Michigan within 10 miles of Detroit to points in Maryland, the District of Columbia, and points in Wood County, W. Va., and points in Pennsylvania except Pittsburgh, Pa. (Gateways to be eliminated: Points in the southeastern quarter of Ohio.) (24) *Cereals* from Battle Creek, Mich., to points in Wood County, W. Va., and points in Maryland, Pennsylvania, and the District of Columbia. (Gateways to be eliminated: Points in the southeastern quarter of Ohio.) (25) *Dog Food*, packed other than in hermetically sealed containers, from Battle Creek, Mich., to points in Wood County, W. Va., and points in Maryland, Pennsylvania, and the District of Columbia. (Gateways to be eliminated: Points in the southeastern quarter of Ohio.) (26) *Canned goods* from points in Indiana and those in the Lower Peninsula of Michigan to points in Wood County, W. Va., and points in Maryland, the District of Columbia, and Pennsylvania, except Pittsburgh, Pa. (Gateways to be eliminated: Points in the southeastern quarter of Ohio.) (27) *Foodstuffs and articles sold in grocery stores* from Louisville, Ky.; and Chicago, Ill., to points in Wood County, W. Va., and points in Maryland, Pennsylvania, and the District of Columbia. (Gateways to be eliminated: Points in the southeastern quarter of Ohio.) (28) *Foodstuffs, and articles sold in grocery stores*, from St. Louis, Mo., and

East St. Louis, Ill., to points in Wood County, W. Va., and points in that part of Ohio south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, thence along U.S. Highway 40 to Columbus, and east of a line beginning at Columbus and extending along U.S. Highway 23 to Portsmouth, Ohio, including points on the indicated portions of the highways specified. (Gateways to be eliminated: Sharon, Pa. and Bridgeport, Ohio.) (29) *Foodstuffs, and articles sold in grocery stores* from St. Louis, Mo., and East St. Louis, Ill., to points in Maryland, the District of Columbia, and points in Pennsylvania (except Beaver, Charleroi, McKeesport, Monessen, New Castle, Pittsburgh, and Sharon, Pa.). (Gateways to be eliminated: Sharon, Pa., and points in the southeastern quarter of Ohio.) (30) *Feed*, from Decatur, Ind., to points in that part of Ohio south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, thence along U.S. Highway 40 to Columbus, and east of a line beginning at Columbus and extending along U.S. Highway 23 to Portsmouth, Ohio, including points on the indicated portions of the highways specified, and points in Maryland, the District of Columbia, and points in Wood County, W. Va. (Gateways to be eliminated: Lafayette and Belpre, Ohio and Wood County, W. Va.) (31) *Feed*, from points in Maryland, the District of Columbia, and points in Pennsylvania on and south of U.S. Highway 22 and points in Wood County, W. Va., and points in that part of Ohio south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, thence along U.S. Highway 40 to Columbus, and east of a line beginning at Columbus and extending along U.S. Highway 23 to Portsmouth, Ohio, including points on the indicated portions of the highways specified, to points in Indiana within 60 miles of Muncie, Ind. (Gateways to be eliminated: Belpre and Cincinnati, Ohio and Wood County, W. Va.) (32) *Feed ingredients*, from points in Maryland, the District of Columbia, and points in Pennsylvania, on and south of U.S. Highway 22, and points in Wood County, W. Va., and points in that part of Ohio south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, thence along U.S. Highway 40 to Columbus, and east of a line beginning at Columbus and extending along U.S. Highway 23 to Portsmouth, Ohio, including points on the indicated portions of the highways specified, to Portland, Ind. (Gateways to be eliminated: Belpre and Cincinnati, Ohio and Wood County, W. Va.) (33) *Seeds*, from points in Maryland, the District of Columbia, Pennsylvania, and points in Wood County, W. Va., and points in that part of Ohio south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, thence along U.S. Highway 40 to Columbus, and east of a line beginning at Columbus and extending along U.S. Highway 23 to Portsmouth, Ohio, including points on the indicated portions

of the highways specified, to Muncie, Ind., and points in Indiana within 60 miles of Muncie, Ind. (Gateways to be eliminated: Belpre and Cincinnati, Ohio and Wood County, W. Va.) (34) *Dog food*, from Chicago and Mokenca, Ill., to points in Maryland, Pennsylvania, the District of Columbia, Wood County, W. Va., and points in that part of Ohio south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, thence along U.S. Highway 40 to Columbus, and east of a line beginning at Columbus and extending along U.S. Highway 23 to Portsmouth, Ohio, including points on the indicated portions of the highways specified. (Gateways to be eliminated: Cincinnati and Belpre, Ohio and Wood County, W. Va.) (35) *Tankage, meat scraps, and bone meal*, from points in Maryland, Pennsylvania, the District of Columbia, Wood County, W. Va., and points in that part of Ohio south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, thence along U.S. Highway 40 to Columbus, and east of a line beginning at Columbus and extending along U.S. Highway 23 to Portsmouth, Ohio, including points on the indicated portions of the highways specified, to Decatur, Ind. (Gateways to be eliminated: Wood County, W. Va. and points in the southeastern quarter of Ohio.) (36) *Paper and paper products*, from points in Maryland, Pennsylvania, the District of Columbia, points in Wood County, W. Va., and points in that part of Ohio south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, thence along U.S. Highway 40 to Columbus, and east of a line beginning at Columbus and extending along U.S. Highway 23 to Portsmouth, Ohio, including points in the indicated portions of the highways specified, to Indianapolis, Ind. (Gateways to be eliminated: Chillicothe, Ohio and Wood County, W. Va.)

(37) *Paper and paper products*, from points in Maryland, Pa., the District of Columbia, points in Wood County, W. Va. and points in that part of Ohio south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, thence along U.S. Highway 40 to Columbus, and east of a line beginning at Columbus and extending along U.S. Highway 23 to Portsmouth, Ohio, including points on the indicated portions of the highways specified, to Dunkirk, Ind. (Gateways to be eliminated: Columbus, Ohio and Wood County, W. Va.) (38) *Mineral Wool*, from Alexandria, Ind., to points in Wood County, W. Va., and points in Pennsylvania, Maryland, the District of Columbia, and points in that part of Ohio south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, thence along U.S. Highway 40 to Columbus, and east of a line beginning at Columbus and extending along U.S. Highway 23 to Portsmouth, Ohio, including points on the indicated

portions of the highways specified. (Gateways to be eliminated: Columbus, Ohio and Wood County, W. Va.) (39) *Asphalt products*, from points in Maryland, the District of Columbia, points in Pennsylvania on and south of U.S. Highway 22, points in Wood County, W. Va., and points in that part of Ohio south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, thence along U.S. Highway 40 to Columbus, and east of a line beginning at Columbus and extending along U.S. Highway 23 to Portsmouth, Ohio, including points on the indicated portions of the highways specified, to Kokomo, Ind. (Gateways to be eliminated: Wood County, W. Va. and Lockland, Ohio and points in the southeastern quarter of Ohio.) (40) *Building, insulating, paving, and roofing materials, and gypsum products* from points in Maryland, the District of Columbia, points in Pennsylvania on and south of U.S. Highway 22, points in Wood County, W. Va., points in that part of Ohio south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, thence along U.S. Highway 40 to Columbus, and east of a line beginning at Columbus and extending along U.S. Highway 23 to Portsmouth, Ohio, including points on the indicated portions of the highways specified, to Muncie, Ind., and points in that part of Indiana within 60 miles of Muncie, Ind. (Gateways to be eliminated: Wood County, W. Va.; and Lockland, Ohio; and points in the southeastern quarter of Ohio.)

(41) *Tin cans*, from points in Maryland, District of Columbia, points in Pennsylvania on and south of U.S. Highway 22, and points in Wood County, W. Va., and points in that part of Ohio south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, thence along U.S. Highway 40 to Columbus, and east of a line beginning at Columbus and extending along U.S. Highway 23 to Portsmouth, Ohio, including points on the indicated portions of the highways specified, to Red Key, Ind. (Gateways to be eliminated: Wood County, W. Va. and Hamilton, Ohio and points in the southeastern quarter of Ohio.) (42) *Playground equipment and supplies*, from Kokomo, Ind., to points in Wood County, W. Va., and points in Maryland, Pennsylvania, the District of Columbia, and points in that part of Ohio south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, thence along U.S. Highway 40 to Columbus, and east of a line beginning at Columbus and extending along U.S. Highway 23 to Portsmouth, Ohio, including points on the indicated portions of the highways specified. (Gateways to be eliminated: Wood County, W. Va., and Belpre, Ohio, and points in the Covington, Ky., commercial zone located in Ohio.) (43) *Machinery, used in canning or preserving food, and parts, for such machinery*, between

Swayzee, Ind., on the one hand, and, on the other, points in Wood County, W. Va., and points in Maryland, Pennsylvania, and the District of Columbia. (Gateways to be eliminated: Points in the southeastern quarter of Ohio.) (44) *Glass, glassware, caps, and other closures, paper and fiberboard boxes, rubber jar rings, zinc dry battery shells, stripped zinc, and such materials, supplies and equipment as are used in the manufacture, packing, and shipping of glass, glassware, closures, paper and fiberboard boxes, rubber jar rings, zinc dry battery shells and stripped zinc*, between points in Indiana, (except Gas city, Ind.), Illinois, Ohio, those in the Lower Peninsula of Michigan, those in that part of Iowa within 10 miles of the Iowa-Illinois State line, those in that part of Missouri within 10 miles of the Missouri-Illinois State line, those in that part of Kentucky within 10 miles of the Kentucky-Illinois State line, the Kentucky-Indiana State line, and the Kentucky-Ohio State line, those in that part of West Virginia within 10 miles of the West Virginia-Ohio State line, on the one hand, and, on the other, points in Maryland, the District of Columbia, points in Wood County, W. Va., and points in Pennsylvania (except those in that part of Pennsylvania within 10 miles of the Pennsylvania-Ohio State line, and in Allegheny, Beaver, Butler, Lawrence, Mercer, and Washington Counties, Pa., and Jeannette, Schenley, and South Connellsville, Pa., and points within 10 miles of Jeannette, Schenley, and South Connellsville, Pennsylvania). Restriction: No shipments of the commodities authorized in the paragraph next above other than glass, glassware and closures shall be transported except those which originate or terminate at the site of a glass manufacturing plant. (Gateways to be eliminated: Points in the southeastern quarter of Ohio.) (45) *Glass, glassware, caps, and other closures, paper and fiberboard boxes, rubber jar rings, zinc dry battery shells, stripped zinc, and such materials, supplies and equipment as are used in the manufacture, packing, and shipping of glass, glassware, closures, paper and fiberboard boxes, rubber jar rings, zinc dry battery shells and stripped zinc*, between points in that part of Pennsylvania within 10 miles of the Pennsylvania-Ohio State line, and in Allegheny, Beaver, Butler, Lawrence, Mercer, and Washington Counties, Pa., and Jeannette, Schenley, and South Connellsville, Pa. on the one hand, and, on the other, points in Maryland, and the District of Columbia. Restriction: No shipments of the commodities authorized in the paragraph next above other than glass, glassware and closures shall be transported except those which originate or terminate at the site of a glass manufacturing plant. (Gateways to be eliminated: Points in the southeastern quarter of Ohio.) (46) *Rubber jar rings*, from points in Maryland, the District of Co-

lumbia, points in Pennsylvania on and south of U.S. Highway 22, and points in Wood County, W. Va., to points in Illinois, Indiana, Kentucky, the Lower Peninsula of Michigan, that part of Iowa within 10 miles of the Iowa-Illinois State line, that part of Missouri within 10 miles of the Missouri-Illinois State line, points in Marshall County, West Virginia, and that part of West Virginia within 10 miles of the West Virginia-Ohio State line. (Gateways to be eliminated: Wood County, W. Va. and Char-don, Ohio.) (47) *Salt*, from Cleveland and Fairport, Ohio, to points in Maryland, Pennsylvania and the District of Columbia. (Gateways to be eliminated: Wood County, W. Va.) (48) *Paper and paper articles*, as described in Appendix XI to the report in descriptions in Motor Carrier Certificates, 61 M.C.C. 209, from points in Maryland, Pennsylvania, the District of Columbia, and points in Ohio on and south of U.S. Highway 40, and points in Wood County, W. Va., to Detroit, Mich. (Gateways to be eliminated: Chillicothe, Ohio and Wood County, W. Va.) (49) *Materials used in the manufacture of paper*, from Detroit, Mich., to points in Maryland, Pennsylvania, the District of Columbia, and points in Ohio on and south of U.S. Highway 40, and points in Wood County, W. Va. (Gateways to be eliminated: Chillicothe, Ohio and Wood County, W. Va.)

(50) *Paper and paper products*, from points of Maryland, Pennsylvania, the District of Columbia, points in Ohio on and south of U.S. Highway 40, and points in Wood County, W. Va., to St. Louis, Mo., Louisville, Ky., and points in Indiana (except Indianapolis, Ind.), points in Illinois and those in the Lower Peninsula of Michigan, (except Detroit, Mich.). (Gateways to be eliminated: Chillicothe, Ohio and Wood County, W. Va.) (51) *Machinery, equipment, materials and supplies used in, or in connection with, in the manufacture of paper from St. Louis, Mo., Louisville, Ky., points in Indiana, (except Indianapolis, Ind.) points in Illinois, and those in the Lower Peninsula of Michigan, (except Detroit, Mich.) to points in Maryland, Pennsylvania, the District of Columbia, points in Ohio on and south of U.S. Highway 40, and points in Wood County, W. Va. (Gateway to be eliminated: Chillicothe, Ohio and Wood County, W. Va.) (52) *Corn products, inedible*, from Edinburg, Ind., to points in Maryland, the District of Columbia, points in Wood County, W. Va., and points in Pennsylvania (except those in that part of Pennsylvania within 10 miles of the Pennsylvania-Ohio State line, points in Allegheny, Beaver, Butler, Lawrence, Mercer and Washington Counties, Pa., and Jeannette, Schenley, and South Connellsville, Pa., and points within 10 miles thereof). (Gateways to be eliminated: Points in the southeastern quarter of Ohio.) (53) *Pickles*, from Croswell, Mich. to points in Maryland, the District of Columbia, points in that part of Ohio south of a line beginning*

at Steubenville and extending along U.S. Highway 22 to Zanesville, thence along U.S. Highway 40 to Columbus, and east of a line beginning at Columbus and extending along U.S. Highway 23 to Portsmouth, Ohio, including points on the indicated portions of the highways specified, and points in Pennsylvania, (except Penn. Grove City, and Franklin, Pa.). (Gateways to be eliminated: Parkersburg, W. Va. and points in the southeastern quarter of Ohio.) (54) *Animal feed, packed*, other than in hermetically sealed containers, and *cereals*, from Battle Creek, Mich., and points within 15 miles of Battle Creek, Mich., to points in Maryland, the District of Columbia, and points in that part of Ohio south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, thence along U.S. Highway 40 to Columbus, and east of a line beginning at Columbus and extending along U.S. Highway 23 to Portsmouth, Ohio, including points on the indicated portions of the highways specified, and points in Pennsylvania (except those in Allegheny, Beaver, Butler, Lawrence, Mercer and Washington Counties, Pa.), and to points within 10 miles of Jeannette, Greensburg, South Connellsville and Penn. Pa. (Gateway to be eliminated: Parkersburg, W. Va.)

(55) *Cereal food preparations and bakery goods*, from Fremont, Mich., to points in Maryland, the District of Columbia, points in Wood County, W. Va.; and points in Pennsylvania (except Pittsburgh, Pa.). (Gateways to be eliminated: Wood County, W. Va. and points in the southeastern quarter of Ohio.)

(56) *Equipment, materials and supplies* as are used or useful in the manufacture, packing, shipping and sale of cereal food preparations and bakery goods, from points in Maryland, Pennsylvania (except Pittsburgh), the District of Columbia; and points in Wood County, W. Va., to Fremont, Mich. (Gateways to be eliminated: Points in the southeastern quarter of Ohio.) (57) *Empty tin containers*, from Elwood, Ind., to points in Maryland, Pennsylvania, the District of Columbia, points in Wood County, W. Va., and points in that part of Ohio south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, thence along U.S. Highway 40 to Columbus, and east of a line beginning at Columbus and extending along U.S. Highway 23 to Portsmouth, Ohio, including points on the indicated portions of the highways specified. (Gateways to be eliminated: Wood County, W. Va. and points in the southeastern quarter of Ohio.) (58) *Foodstuffs and food preparations*, except canned goods, from points in that part of Indiana on and south of a line beginning at the Indiana-Ohio State line and extending along U.S. Highway 224 to Peru, Ind., on and east of a line beginning at Peru and extending along U.S. Highway 31 to Columbus, Ind., and on and north of a line beginning at Columbus and extending along Indiana Highway 46 to the Indiana-Ohio State line, to points in Maryland, Pennsylvania,

the District of Columbia and points in Wood County, W. Va. (Gateways to be eliminated: Points in the southeastern quarter of Ohio.) (59) *Foodstuffs and food preparations*, from points in that part of Illinois on and south of a line beginning at the Illinois-Indiana State line, and extending along U.S. Highway 6 to Peru, Ill., on and east of a line beginning at Peru, Ill., and extending along Illinois Highway 29 to Pekin, Ill., and on and north of a line beginning at Pekin, Ill., and extending along Illinois Highway 9 to the Illinois-Indiana State line, to points in Maryland, Pennsylvania, the District of Columbia, and points in Wood County, W. Va. (Gateway to be eliminated: Columbus, Ohio.) (60) *Foodstuffs and food preparations*, from points in those parts of Ohio on and west of U.S. Highway 21 south to U.S. Highway 22 to Zanesville, Ohio and thence along U.S. Highway 40 to Columbus and west of a line extending along U.S. Highway 23 from Columbus to Portsmouth, Ohio, to points in Maryland, Pennsylvania, and the District of Columbia. (Gateway to be eliminated: Parkersburg, W. Va.) (61) *Foodstuffs and food preparations*, from points in Maryland, Pennsylvania and the District of Columbia to points in Illinois, Indiana, the lower Peninsula of Michigan, St. Louis, Mo.; Louisville and Covington, Ky.; Davenport, Iowa; and those in West Virginia within 10 miles of the Ohio-West Virginia State line, and points in Ohio on and east of U.S. Highway 21 to junction U.S. Highways 21 and 50, and on and south of U.S. Highway 50 to the Indiana-Ohio State line. (Gateways to be eliminated: Wood County, W. Va. and Cambridge, Ohio.)

(62) *Foodstuffs and food preparations* (except commodities in bulk, in tank vehicles), from St. Louis, Mo., to points in Maryland, Pennsylvania, the District of Columbia, and Wood County, W. Va. (Gateway to be eliminated: Columbus, Ohio.) (63) *Such baby supplies* (except baby foods) as are sold or distributed by manufacturers of baby foods, from Fremont, Mich., to points in Maryland, the District of Columbia, and points in Wood County, W. Va., and points in Pennsylvania (except Pittsburgh, Pa.). (Gateways to be eliminated: Points in the southeastern quarter of Ohio.) (64) *Empty containers, sheet iron or steel, and parts thereof, and materials and supplies* used or useful in the manufacture, packing and shipping thereof, between points in Maryland, Pennsylvania, the District of Columbia, points in Wood County, W. Va., and points in that part of Ohio south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, thence along U.S. Highway 40 to Columbus, and east of a line beginning at Columbus and extending along U.S. Highway 23 to Portsmouth, Ohio, including points on the indicated portions of the highways specified, and points in that part of Indiana bounded by a line beginning at the Indiana-Ohio State line near Townley, Ind., and extending west along U.S. Highway 30 to junction U.S. Highway 35

near Hamlet, Ind., thence south along U.S. Highway 35 to Logansport, Ind., thence along Indiana Highway 29 to junction U.S. Highway 421, thence along U.S. Highway 421 to Indianapolis, Ind., thence along Indiana Highway 37 to Paoli, Ind., thence along U.S. Highway 150 to the Ohio River, and thence north along the Indiana-Kentucky and the Indiana-Ohio State lines to the point of beginning, including points on the indicated portions of the highways specified. (Gateways to be eliminated: Wood County, W. Va. and Hamilton, Ohio and points in the southeastern quarter of Ohio.) (65) *Used iron or steel barrels*, from points in Maryland, Pennsylvania, the District of Columbia, and points in Wood County, W. Va. to Kalamazoo, Mich. (Gateway to be eliminated: Chillicothe, Ohio.) (66) *Pepper*, in packages, in mixed shipments with salt, from Manistee, St. Clair, and Marysville, Mich., and points within 5 miles thereof, to points in Maryland, the District of Columbia, and points in Pennsylvania (except Allegheny, Beaver, Butler, Mercer and Washington Counties, Pa., and Jeannette, Schenley, and South Connellsville, Pa., and points within 10 miles thereof). (Gateways to be eliminated: Points in the southeastern quarter of Ohio.) (67) *Pulpboard shipping containers*, other than corrugated, from Seymour, Ind., to points in Maryland, Pennsylvania, the District of Columbia, and points in Wood County, W. Va. (Gateway to be eliminated: Columbus, Ohio.)

(68) *Plastic containers and tubing*, between Lapel, Ind., on the one hand, and on the other, points in Maryland, the District of Columbia, and points in Wood County, W. Va., and points in Pennsylvania (except that part of Pennsylvania within 10 miles of the Pennsylvania-Ohio State line, points in Allegheny, Beaver, Butler, Lawrence, Mercer and Washington Counties, Pa., and Brockway, Jeannette, North East, Schenley, and South Connellsville, Pa., and points within 10 miles of Jeannette, Schenley, and South Connellsville, Pa.) (Gateways to be eliminated: Points in the southeastern quarter of Ohio.) (69) *Plastic containers* from Rockdale, Ill., to points in Maryland, the District of Columbia, points in Wood County, W. Va., and points in Pennsylvania (except points in that part of Pennsylvania within 10 miles of the Pennsylvania-Ohio State line, points in Allegheny, Beaver, Butler, Lawrence, Mercer and Washington Counties, Pa., and Brockway, Jeannette, North East, Schenley, and South Connellsville, Pa.) (Gateways to be eliminated: Points in the southeastern quarter of Ohio.) (70) *Dressing and stuffing, bread base, with or without other ingredients, dry, bread crumbs, other than dust and meal, and bread cubes, in boxes*, from Battle Creek, Mich. to points in Maryland, the District of Columbia, points in Wood County, W. Va. and points in Pennsylvania (except that part of Pennsylvania within 10 miles of the Pennsylvania-Ohio State line, points in Allegheny, Beaver, Butler,

Lawrence, Mercer, and Washington Counties, Pa., and Jeannette, Schenley and South Connellsville, Pa., (Gateways to be eliminated: points in the southeastern quarter of Ohio.) (71) *Packaged individual servings of foodstuffs and condiments, in mixed loads with salt*, from St. Clair, Mich., to points in Maryland, Pennsylvania, the District of Columbia, and points in Wood County, W. Va. (Gateways to be eliminated: Points in the southeastern quarter of Ohio.) (72) *Bakery goods*, from the plant site of the Kellogg Co. at Battle Creek, Mich., to points in Maryland, the District of Columbia and points in Wood County, W. Va. and points in Pennsylvania (except that part of Pennsylvania within 10 miles of the Pennsylvania-Ohio State line, points in Allegheny, Beaver, Butler, Lawrence, Mercer, and Washington Counties, Pa., and Jeannette, Schenley, and South Connellsville, Pa., and points within 10 miles of Jeannette, Schenley, and South Connellsville, Pa.). (Gateways to be eliminated: Points in the southeastern quarter of Ohio.)

(73) *Foodstuffs* (except butter and commodities in bulk), from Champaign, Ill., to points in Maryland, the District of Columbia, points in Wood County, W. Va.; and points in Pennsylvania (except points in that part of Pennsylvania within 10 miles of the Pennsylvania-Ohio State line, points in Allegheny, Beaver, Butler, Lawrence, Mercer and Washington Counties, Pa., and points within 10 miles of Jeannette, Schenley, and South Connellsville, Pa.). (Gateways to be eliminated: Points in the southeastern quarter of Ohio.) (74) *Metal containers*, from points in Maryland, Pennsylvania, the District of Columbia, and points in that part of Ohio lying on and south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, and thence along U.S. Highway 40 to Columbus, and on and east of a line extending along U.S. Highway 23 from Columbus to Portsmouth, Ohio, to Detroit, Mich. and points in Indiana and those in Illinois (except those in the Chicago, Ill. commercial zone as defined by the Commission). (Gateways to be eliminated: The plant and warehouse sites of Crown Cork & Seal Co. located at or near Rossford, Ohio and points in the southeastern quarter of Ohio.) (75) *Matches*, from the plant site and storage facilities of Hunt Foods and Industries, Inc., near Rossford, Ohio, to points in Maryland, the District of Columbia, and points in Pennsylvania on and east of a line extending from the West Virginia State line along U.S. Highway 119 north to the junction of U.S. Highway 119 and U.S. Highway 22, and points on and south of U.S. Highway 22 to the Pennsylvania-New Jersey State line and points in Wood County, W. Va. (Gateway to be eliminated: Parkersburg, W. Va.) (76) *Cans and closures* therefor, from Sturgis, Mich., to points in Maryland, Pennsylvania, the District of Columbia, and points in Wood County, W. Va., and points in that part of Ohio south of a line beginning at Steubenville and ex-

tending along U.S. Highway 22 to Zanesville, thence along U.S. Highway 40 to Columbus, and east of a line beginning at Columbus and extending along U.S. Highway 23 to Portsmouth, Ohio, including points on the indicated portions of the highways specified. (Gateways to be eliminated: Columbus, Ohio and Wood County, W. Va.)

(77) *Wine*, in bottles, from the facilities of Mogen David Wine Corp., at Westfield, N.Y., to points in the District of Columbia, and points in Maryland, on and west of a line beginning at the Delaware-Maryland State line and extending south and east of U.S. Highway 301 to the Maryland-Virginia State line and points in Pennsylvania on and south of Interstate Highway 70 and 78 and points in Wood County, W. Va. (Gateway to be eliminated: Steubenville, Ohio.) (78)

Paper and paper products, from the plant and warehouse sites of International Paper Co. at or near Bastrop and Springhill, La., to St. Louis, Mo.; Louisville, Ky.; and points in Illinois, Indiana, the Lower Peninsula of Michigan, and Ohio. (Gateways to be eliminated: Points in Wood County, W. Va., and Chillicothe, Ohio.) (79) *Paper and paper products*, from the plant warehouse sites of International Paper Co. at or near Mobile, Ala., and Moss Point, Miss., to points in Maryland, Ohio, and the District of Columbia, and points in that part of Pennsylvania on the east of U.S. Highway 15, points in New Jersey, and points in that part of New York on and south of New York Highway 7 and on and east of New York Highway 30; Bridgeport, Danbury, and Waterbury, Conn.; Springfield, Mass.; and points in Delaware, Louisville, Kentucky, St. Louis, Mo.; and points in Illinois, Indiana, the Lower Peninsula of Michigan. (Gateways to be eliminated: Wood County, W. Va.; York, Pa.; Philadelphia, Pa.; and Chillicothe, Ohio.) (80) *Paper and paper products*, from plant and warehouse sites of International Paper Co. at or near Jay and Livermore Falls, Maine, to points in Illinois, Indiana, Michigan, Ohio, Louisville, Kentucky; and St. Louis, Mo. (Gateways to be eliminated: Wood County, W. Va., Midland, Pa., and Chillicothe, Ohio.) (81) *Malt beverages*, from Bensenville, Ill., to points in Maryland, Pennsylvania, the District of Columbia, and points in Wood County, W. Va. (Gateways to be eliminated: Points in the Southeastern quarter of Ohio.) (82) *Foodstuffs* (except in bulk, in tank vehicles, and in vehicles equipped with mechanical refrigeration), from Sayreville, N.J., to points in Ohio and points in Wood County, W. Va. (Gateways to be eliminated: Points in Pennsylvania west of U.S. Highway 15 and points in Wood County, W. Va.)

(83) *Paper and paper products*, from points in that part of Ohio lying on and south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, and thence along U.S. Highway 40 to Columbus, and on and east of a line extending along U.S. Highway 23 from Columbus to Portsmouth, and points in Wood County, W. Va., to

Bridgeport, Danbury and Waterbury, Conn.; Springfield, Mass.; and points in New Jersey, Delaware and that part of New York in the New York, N.Y. Commercial Zone, as defined by the Commission. (Gateway to be eliminated: Philadelphia, Pa.) (84) *Paper and paper products*, from points in that part of Ohio on and west of a line beginning at the Ohio-West Virginia State line, thence along Interstate Highway 77 to junction U.S. Highway 36, thence along U.S. Highway 36 to Mount Vernon, thence along Ohio Highway 13 to Fredericktown, thence along U.S. Highway 23 to Carey, thence along Ohio Highway 15 to the Ohio-Indiana State line, to Bridgeport, Danbury and Waterbury, Conn.; Springfield, Mass.; and points in New Jersey, Delaware, and that part of the New York, N.Y. Commercial Zone, as defined by the Commission. (Gateway to be eliminated: Philadelphia, Pa.) (85) *Potato chips*, in boxes, when moving from the plants or retail or wholesale outlets of manufacturers or distributors of bakery products, from New York, N.Y., to points in that part of Ohio lying on and south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, and thence along U.S. Highway 40 to Columbus, and on and east of a line extending along U.S. Highway 23 from Columbus to Portsmouth, Ohio, and points in Indiana, Illinois, the Lower Peninsula of Michigan, Ky.; Davenport, Iowa; and those in West Virginia within 10 miles of the Ohio-West Virginia State line. (Gateways to be eliminated: York, Pa.; points in Wood County, W. Va., points in those parts of Ohio (except Cleveland and Cincinnati) on and west of U.S. Highway 21 to junction U.S. Highway 21 and 50, and on and north of U.S. Highway 50 to the Indiana-Ohio State line.)

(86) *Potato chips*, in boxes, when moving from the plants or retail or wholesale outlets of manufacturers or distributors of bakery products, from New York, N.Y., to points in that part of Ohio on and west of a line beginning at the Ohio-West Virginia State line, thence along Interstate Highway 77 to junction U.S. Highway 36, thence along U.S. Highway 36 to Mount Vernon, thence along Ohio Highway 13 to Fredericktown, thence along U.S. Highway 23 to Carey, thence along Ohio Highway 95 to Marion, thence along Ohio Highway 15 to the Ohio-Indiana State line. (Gateway to be eliminated: York, Pa.) (87) *Bakery products* (including flour, cereals and dog biscuits), car-bracing material, and machinery, materials, supplies, and equipment (including office furniture and supplies) used in or incidental to the production packing, and sale of bakery products, between New York, N.Y., on the one hand, and, on the other, points in that part of Ohio lying on and south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, and thence along U.S. Highway 40 to Columbus, and on and east of a line

extending along U.S. Highway 23 from Columbus to Portsmouth. (Gateways to be eliminated: Allentown, Pa.; Forty Fort, Pa.; Harrisburg, Pa.; Lancaster, Pa.; Scranton, Pa.; Philadelphia, Pa.; Pottsville, Pa.; Reading, Pa.; York, Pa.; and Baltimore, Md.) (88) *Bakery products* (including flour and cereals), from New York, N.Y., to points in Indiana, Illinois, the Lower Peninsula of Michigan; St. Louis, Mo.; Louisville and Covington, Ky.; Davenport, Iowa; and those in West Virginia within 10 miles of Ohio-West Virginia State line. (Gateways to be eliminated: Allentown, Pa.; Forty Fort, Pa.; Harrisburg, Pa.; Lancaster, Pa.; Philadelphia, Pa.; Pottsville, Pa.; Reading, Pa.; Scranton, Pa.; York, Pa.; and Baltimore, Md.; and points in the southeastern quarter of Ohio.) (89) *Bakery products* (including flour, cereals and dog biscuits), car-bracing material, and machinery, materials, supplies, and equipment (including office furniture and supplies) used in or incidental to the production packing, and sale of bakery products, between New York, N.Y., on the one hand, and, on the other, points in that part of Ohio on and west of a line beginning at the Ohio-West Virginia State line, thence along Interstate Highway 77 to junction U.S. Highway 36, thence along U.S. Highway 36 to Mount Vernon, thence along Ohio Highway 13 to Fredericktown, thence along U.S. Highway 23 to Carey, thence along Ohio Highway 95 to Marion, thence along Ohio Highway 15 to the Ohio-Indiana State line. (Gateways to be eliminated: Allentown, Pa.; Harrisburg, Pa.; Lancaster, Pa.; Philadelphia, Pa.; and York, Pa.)

(90) *Bakery products* (including flour, cereals and dog biscuits), car-bracing material, and machinery, materials, supplies, and equipment (including office furniture and supplies) used in or incidental to the production, packing, and sale of bakery products, between Atlantic City, Phillipsburg, Trenton, N.J.; and Wilmington, Del., on the one hand, and, on the other, points in that part of Ohio lying on and south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, and thence along U.S. Highway 40 to Columbus, and on and east of a line extending along U.S. Highway 23 from Columbus to Portsmouth. (Gateway to be eliminated: Philadelphia, Pa.) (91) *Bakery Products* (including flour and cereals) from Atlantic City, Phillipsburg, Trenton, N.J.; and Wilmington, Del., to points in Indiana, Illinois, and the Lower Peninsula of Michigan; St. Louis, Mo.; Louisville and Covington, Ky.; Davenport, Iowa; and those in West Virginia within 10 miles of Ohio-West Virginia State line. (Gateways to be eliminated: Philadelphia, Pa.; and points in that part of Ohio lying on and south of a line beginning at Cambridge extending along U.S. Highway 22 to Zanesville and thence along U.S. Highway 40 to Columbus, and on and east of a line extending along U.S. Highway 23 from Columbus to Chillicothe, Ohio, points north of a line extending east along U.S. Highway 50 to

the Ohio-West Virginia State line.) (92) *Bakery products* (including flour, cereals and dog biscuits), car-bracing material, and machinery, materials supplies, and equipment (including office furniture and supplies) used in or incidental to the production, packing, and sale of bakery products, between Atlantic City, Phillipsburg, Trenton, N.J.; and Wilmington, Del.; and points in that part of Ohio on and west of a line beginning at the Ohio-West Virginia State line, thence along Interstate Highway 77 to junction U.S. Highway 36, thence along U.S. Highway 36 to Mount Vernon, thence along Ohio Highway 13 to Fredericktown, thence along U.S. Highway 23 to Carey, thence along Ohio Highway 95 to Marion, thence along Ohio Highway 15 to the Ohio-Indiana State line. (Gateway to be eliminated: Philadelphia, Pa.) (93) *Paper and paper articles* (including paper boxes and advertising matter), between Beacon, N.Y.; Garfield, N.J.; and Milford, N.J., on the one hand, and on the other, points in that part of Ohio lying on and south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, and thence along U.S. Highway 40 to Columbus, and on and east of a line extending along U.S. Highway 23 from Columbus to Portsmouth. (Gateways to be eliminated: Baltimore, Md.; Philadelphia, Pa.; and York, Pa.)

(94) *Paper and paper articles* (including paper boxes and advertising matter), from Beacon, N.Y.; Garfield, N.J.; and Milford, N.J., to St. Louis, Mo.; Louisville, Ky.; points in Indiana, Illinois, and the Lower Peninsula of Michigan. (Gateways to be eliminated: Baltimore, Md.; Philadelphia, Pa.; York, Pa.; and Chillicothe, Ohio.) (95) *Paper and paper articles* (including paper boxes and advertising matter), between Beacon, N.Y.; Garfield, N.J.; and Milford, N.J., on the one hand, and, on the other, points in that part of Ohio on and west of a line beginning at the Ohio-West Virginia State line, thence along Interstate Highway 77 to junction U.S. Highway 36, thence along U.S. Highway 36 to Mount Vernon, thence along Ohio Highway 13 to Fredericktown, thence along U.S. Highway 23 to Carey, thence along Ohio Highway 95 to Marion, thence along Ohio Highway 15 to the Ohio-Indiana State line. (Gateways to be eliminated: Philadelphia, Pa.; and York, Pa.) (96) *Chocolate, chocolate coating cocoa, and confectionery* from St. Louis, Mo., points in Indiana; Michigan; Chicago, Ill.; Louisville, Ky.; and points in that part of Illinois on and south of a line beginning at the Illinois-Indiana State line, and extending along U.S. Highway 6 to Peru, Ill., on, and east of a line beginning at Peru, Ill., and extending along Illinois Highway 29 to Pekin, Ill., and extending along Illinois Highway 9 to the Illinois-Indiana State line; points in that part of Ohio (except Cleveland and Cincinnati) on, and, west of U.S. Highway 21 to junction U.S. Highways 21 and 50, and on, and north of U.S. Highway 50

to the Indiana-Ohio State line, to New York, N.Y.; and Newark, N.J. (Gateways to be eliminated: Points in the Southeastern quarter of Ohio.) (97) *Paper and paper products* not including paper roofing and paper sheathing in rolls, from points in that part of Ohio lying on and south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, and thence along U.S. Highway 40 to Columbus, and on and east of a line extending along U.S. Highway 23 from Columbus to Portsmouth to points in New Jersey and points in that part of New York on and south of New York Highway 7, and, on and east of New York Highway 30. (Gateway to be eliminated: York, Pa.) (98) *Paper and paper products* not including paper roofing and paper sheathing in rolls, from points in that part of Ohio on and west of a line beginning at the Ohio-West Virginia State line, thence along Interstate Highway 77 to junction U.S. Highway 36, thence along U.S. Highway 36 to Mount Vernon, thence along Ohio Highway 13 to Fredericktown, thence along U.S. Highway 23 to Carey, thence along Ohio Highway 95 to Marion, thence along Ohio Highway 15 to the Ohio-Indiana State line, to points in New Jersey and points in that part of New York on and south of New York Highway 7, and, on, and east of New York Highway 30. (Gateway to be eliminated: York, Pa.)

(99) *Machinery and machinery parts, and supplies*, used in the manufacture of paper and paper products, not including machinery and machinery parts, and supplies used in the manufacture of paper roofing. From points in New Jersey, and points in that part of New York on and south of New York Highway 7 and, on, and east of New York Highway 50, to points in that part of Ohio lying on and south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, and thence along U.S. Highway 40 to Columbus, and on and east of a line extending along U.S. Highway 23 from Columbus to Portsmouth. (Gateway to be eliminated: York, Pa.) (100) *Machinery and machinery parts, and supplies*, used in the manufacture of paper and paper products, not including machinery and machinery parts, and supplies used in the manufacture of paper roofing, from points in New Jersey, and points in that part of New York on and south of New York Highway 7 and, on, and east of New York Highway 50, to points in that part of Ohio on and west of a line beginning at the Ohio-West Virginia State line, thence along Interstate Highway 77 to junction U.S. Highway 36, thence along U.S. Highway 36 to Mount Vernon, thence along Ohio Highway 13 to Fredericktown, thence along U.S. Highway 23 to Carey, thence along Ohio Highway 95 to Marion, thence along Ohio Highway 15 to the Ohio-Indiana State line. (Gateway to be eliminated: York, Pa.) (101) *Asphalt*, in containers, asphalt shingles, in bundles, paper roofing and paper sheathing in rolls, roofing cement,

and machinery and materials used in the manufacture of such commodities, from points in that part of Ohio lying on and south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, and thence along U.S. Highway 40 to Columbus, and on and east of a line extending along U.S. Highway 23 from Columbus to Portsmouth, to points in New York and New Jersey. (Gateway to be eliminated: York, Pa.) (102) *Asphalt*, in containers, asphalt shingles, in bundles, paper roofing and paper sheathing in rolls, roofing cement, and machinery and materials used in the manufacture of such commodities, from points in that part of Ohio on and west of a line beginning at the Ohio-West Virginia State line, thence along Interstate Highway 77 to junction U.S. Highway 36, thence along U.S. Highway 36 to Mount Vernon, thence along Ohio Highway 13 to Fredericktown, thence along U.S. Highway 23 to Carey, thence along Ohio Highway 95 to Marion, thence along Ohio Highway 15 to the Ohio-Indiana State line, to points in New York and New Jersey. (Gateway to be eliminated: York, Pa.)

(103) *Machinery and machinery parts and supplies*, used or useful in the manufacture of roofing, from points in New York and New Jersey, to points in that part of Ohio lying on and south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, and thence along U.S. Highway 40 to Columbus, and on and east of a line extending along U.S. Highway 23 from Columbus to Portsmouth. (Gateway to be eliminated: York, Pa.) (104) *Machinery and machinery parts and supplies*, used or useful in the manufacture of roofing, from points in New York and New Jersey, to points in that part of Ohio on and west of a line beginning at the Ohio-West Virginia State line, thence along Interstate Highway 77 to junction U.S. Highway 36, thence along U.S. Highway 36 to Mount Vernon, thence along Ohio Highway 13 to Fredericktown, thence along U.S. Highway 23 to Carey, thence along Ohio Highway 95 to Marion, thence along Ohio Highway 15 to the Ohio-Indiana State line. (Gateway to be eliminated: York, Pa.) (105) *Bakery products, flour, cereals, dog biscuits, potato chips, car-bracing materials and machinery, supplies and equipment* used in or incidental to the production, packing and sale of bakery products, between the site of National Biscuit Co. plant, at Fair Lawn, N.J., on the one hand, and on the other, points in that part of Ohio lying on and south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, and thence along U.S. Highway 40 to Columbus, and on and east of a line extending along U.S. Highway 23 from Columbus to Portsmouth. (Gateways to be eliminated: Allentown, Pa.; Forty Fort, Pa.; Harrisburg, Pa.; Philadelphia, Pa.; Reading, Pa.; Lancaster, Pa.; Hershey, Pa.; and York, Pa.)

(106) *Bakery products, flour, cereals, dog biscuits, potato chips, car-bracing material and machinery, supplies and*

equipment used in or in incidental to the production, packing and sale of bakery products, between the site of National Biscuit Co. plant at Fair Lawn, N.J., on the one hand, and on the other, points in that part of Ohio on and west of a line beginning at the Ohio-West Virginia State line, thence along Interstate Highway 77 to junction U.S. Highway 36, thence along U.S. Highway 36 to Mount Vernon, thence along Ohio Highway 13 to Fredericktown, thence along U.S. Highway 23 to Carey, thence along Ohio Highway 95 to Marion, thence along Ohio Highway 15 to the Ohio-Indiana State line. (Gateways to be eliminated: Allentown, Pa.; Harrisburg, Pa.; Philadelphia, Pa.; Reading, Pa.; Lancaster, Pa.; Hershey, Pa.; and York, Pa.) (107) *Pretzels*, from Detroit, Mich., and points in that part of Michigan within 10 miles of Detroit: Chicago, Ill.; Louisville, Ky.; St. Louis, Mo.; the plantsite of Kellogg Co. at Battle Creek, Mich.; Champaign, Ill.; and points in that part of Illinois on and south of a line beginning at the Illinois-Indiana State line and extending along U.S. Highway 6 to Peru, Ill., on and east of a line beginning at Peru, Ill., and extending along Illinois Highway 29 to Pekin, Ill., and extending along Illinois Highway 9 to the Illinois-Indiana State line, points in that part of Indiana on and south of a line beginning at the Indiana-Ohio State line and extending along U.S. Highway 224 to Peru, Ind., on and east of a line beginning at Peru and extending along U.S. Highway 31 to Columbus, Ind., and on and north of a line beginning at Columbus and extending along Indiana Highway 46 to the Indiana-Ohio State line, to Belleville, Dunellen, Jersey City, Orange, Paterson, and Livingston, N.J. (Gateways to be eliminated: Points in the Southeastern quarter of Ohio and York, Pa.) (108) *Bakery products*, from Sayreville, N.J., to points in that part of Ohio lying on and south of a line beginning at Steubenville and extending along U.S. Highway 22 to Zanesville, and thence along U.S. Highway 40 to Columbus, and on and east of a line extending along U.S. Highway 23 from Columbus to Portsmouth, and Wood County, W. Va. (Gateway to be eliminated: Allentown, Pa.) (109) *Fertilizer*, from Louisville, Ky., to points in Maryland, Pennsylvania, and the District of Columbia. (Gateway to be eliminated: Columbus, Ohio.) (110) *Fertilizer*, from Chicago, Ill., to points in Maryland, Pennsylvania, District of Columbia, and points in Wood County, W. Va. (Gateway to be eliminated: Columbus, Ohio.) (111) *Fertilizer*, from East St. Louis, Ill., to points in Maryland, Pennsylvania, and the District of Columbia and points in Wood County, W. Va. (Gateway to be eliminated: Columbus, Ohio.) (112) *Fertilizer*, from points in Maryland, Pennsylvania, and the District of Columbia, to points in Illinois. (Gateway to be eliminated: Columbus, Ohio.) (113) *Canned foodstuffs and canned food preparations*, from points in Maryland; and points in that part of Pennsylvania, on and east and south of a line

beginning at the Pennsylvania-New Jersey State line, thence along U.S. Highway 15 to the Maryland-Pennsylvania State line to Green Bay, La Crosse, Milwaukee, Racine, Stevens Point, Wauwatosa, and Wausau, Wis. (Gateways to be eliminated: Points in that part of Ohio north and west of a line beginning at the Indiana-Ohio State line extending east along U.S. Highway 33, thence north along Interstate Highway 75 to Findlay, thence north and west along Ohio Highway 15 to the Ohio-Michigan State line.) (114) *Canned foodstuffs and canned food preparations*, from Rochelle, Mendota and De Kalb, Ill., to points in Maryland, Pennsylvania (except Pittsburgh), and the District of Columbia. (Gateways to be eliminated: Points in the Southeastern quarter of Ohio.) (117) *Foodstuffs and food preparations (except canned goods)*, from Millstadt and Trenton, Ill., to points in Maryland, Pennsylvania, and the District of Columbia. (Gateways to be eliminated: Points in the Southeastern quarter of Ohio.) (118) *Glass containers*, from points in Maryland, and the District of Columbia and points in Pennsylvania (except that part of Pennsylvania within 10 miles of the Pennsylvania-Ohio State line, and points in Allegheny, Beaver, Butler, Lawrence, Mercer, and Washington Counties, Pa., and Jeannett, Schenley, and South Connellsville, Pa., and points within 10 miles of Jeannette, Shenley, and South

Connellsville, Pa.), to Memphis, Tenn. (Gateways to be eliminated: Points in the Southeastern quarter of Ohio.) (119) *Mineral wool roofing materials*, from Waukegan, Ill., to points in Maryland, Pennsylvania, and the District of Columbia. (Gateways to be eliminated: Points in the Southeastern quarter of Ohio.) (120) *Mineral wool, building, insulating and roofing materials*, from Joliet, Ill., to points in Maryland, Pennsylvania, and the District of Columbia. (Gateways to be eliminated: Points in the Southeastern quarter of Ohio.)

(121) *Mineral wool, building, insulation, and roofing materials*, from East St. Louis, Ill.; and Marseilles, Ill., to points in Maryland, Pennsylvania, and the District of Columbia. (Gateways to be eliminated: Points in the Southeastern quarter of Ohio.)

NOTE.—This application is directly related to MC-F 13355 B & L Motor Freight, Inc., Merger Prunty Motor Express, published in a previous section of this FEDERAL REGISTER; both carriers are now commonly controlled by The Capitol Corp. pursuant to authorization at MC-F 12857. Wherever the gateway to be eliminated is referred to above as "points in the Southeastern quarter of Ohio" the exact description of the gateway is "Points in that part of Ohio lying on and south of a line beginning at Steubenville and extending along U.S. Highway 23 to Zanesville, and thence along U.S. Highway 40 to Columbus, and on and east of a line extending along U.S. Highway 23 from Columbus to Portsmouth." If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 135129 (Sub-No. 2), filed September 27, 1977. Applicant: BEYOND EXPRESS, INC., 20 Fairview Place, Freeport, N.Y. 11520. Applicant's representative: William J. Augello, P.O. Box Z, Huntington, N.Y. 11743. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except household goods, explosives, com-

modities in bulk, those of unusual value, and those requiring special equipment, and commodities, baggage, or personal effects having a prior or subsequent movement by air), between points in Nassau County, Suffolk County, and the New York, N.Y., commercial zone, to eliminate the gateway of New York, N.Y.

NOTE.—This application is directly related to a finance proceeding in MC-F-13361, published in a previous section of this FEDERAL REGISTER. If a hearing is deemed necessary, applicant requests that it be held at New York, N.Y.

No. MC 135129 (Sub-No. 3), filed October 5, 1977. Applicant: BEYOND EXPRESS, INC., 20 Fairview Place, Freeport, N.Y. 11520. Applicant's representative: William J. Augello, P.O. Box Z, Huntington, N.Y. 11743. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, in the transportation of: *General commodities* (except household goods, explosives, commodities in bulk, those of unusual value and those requiring special equipment, and commodities, baggage, or personal effects having a prior or subsequent movement by air), between New York, N.Y., and Suffolk County, N.Y.

NOTE.—Applicant states the purpose of this application is to convert a Certificate of Registration to a Certificate of Public Convenience and Necessity, and to simultaneously expand the territorial scope of New York, N.Y., to include all points in the commercial zone of New York, N.Y. This is a matter related to a finance proceeding in MC-F-13361, published in a previous section of this FEDERAL REGISTER. If a hearing is deemed necessary, applicant requests that it be held at New York, N.Y.

By the Commission.

H. G. HOMME, Jr.,
Acting Secretary.

[7020-02]

INTERNATIONAL TRADE COMMISSION.

FEDERAL REGISTER CITATION OF PREVIOUS ANNOUNCEMENT: 42 FR 53717, October 3, 1977.

PREVIOUSLY ANNOUNCED TIME AND DATE OF THE MEETING: October 13, 1977, 9:30 a.m.

CHANGES IN THE MEETING: Additional item added to the agenda as follows:

11. Possible 337 complaint on steel.

CONTACT PERSON FOR MORE INFORMATION:

Kenneth R. Mason, Secretary, 202-523-0161.

[S-1557-77 Filed 10-11-77; 2:22 pm]

[7020-02]

INTERNATIONAL TRADE COMMISSION.

TIME AND DATE: 9:30 a.m., Thursday, October 20, 1977.

PLACE: Room 117, 701 E Street NW., Washington, D.C. 20436.

STATUS: Open to the public.

MATTERS TO BE CONSIDERED:

1. Light Shields (Inv. 337-TA-33)—see recommended determination by the Presiding Officer.
2. Briefing on Inv. 332-82—(Chief Weight-Chief Value).
3. Animal Glue and Inedible Gelatin Inv. AA 1921-169-172)—vote.
4. Any items left over from previous agenda.

CONTACT PERSON FOR MORE INFORMATION:

Kenneth R. Mason, Secretary, 202-523-0161.

[S-1558-77 Filed 10-11-77; 2:22 pm]

[7020-02]

INTERNATIONAL TRADE COMMISSION.

TIME AND DATE: 9:30 a.m., Tuesday, October 18, 1977.

PLACE: Room 117, 701 E Street NW., Washington, D.C. 20436.

STATUS: Open to the public.

MATTERS TO BE CONSIDERED:

1. Agenda.
2. Minutes.
3. Ratifications.
4. Reclosable Plastic Bags (Inv. 337-TA-22)—action by the Commission, if any, on the Presiding Officer's order of October 3, 1977.
5. Status report on the Equal Employment Opportunity.

17

[8010-01]

SECURITIES AND EXCHANGE COMMISSION.

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Pub. L. 94-409, that the Securities and Exchange Commission will hold the following meetings during the week of October 17, 1977, in Room 825, 500 North Capitol Street, Washington, D.C.

A closed meeting will be held on Wednesday, October 19, 1977, at 2 p.m. An open meeting will be held on Thursday, October 20, 1977, at 10 a.m.

The Commissioners, their legal assistants, the Secretary of the Commission, and recording secretaries will attend the closed meeting. Certain staff members who are responsible for the calendared matters may be present.

The General Counsel of the Commission, or his designee, has certified that, in his opinion, the items to be considered at the closed meeting may be so considered pursuant to one or more of the exemptions set forth in 5 U.S.C. 552b(c) (4) (2) (9) A and (10) and 17 CFR 200.402(a) (8) (9) (i) and (10).

Chairman Williams, Commissioners Evans and Karmel determined to hold the aforesaid meeting in closed session.

The subject matter of the closed meeting scheduled for Wednesday, October 19, 1977, at 2 p.m. will be:

Formal orders of investigation.
Institution of injunctive actions.
Settlement of injunctive actions.

Institution of administrative proceedings.
Settlement of administrative proceedings.

**ASSISTANCE UNDER PUBLIC LAW 94-63;
PROJECT GRANTS FOR HOME HEALTH
SERVICES**

Announcement of Availability of Grants

Notice is hereby given that competitive applications are being accepted for Home Health Services project grants under the authority of Section 602(a) of Pub. L. 94-63 (42 U.S.C. 1395x note). Section 602(a) authorizes grants to public and private nonprofit entities for support of the development and expansion of home health services.

Regulations governing such grants, published in the FEDERAL REGISTER on June 3, 1977 (42 FR 28692), stipulate that the Secretary will give preference to approvable applications for projects that will serve catchment areas in which a high percentage of the population is elderly, medically indigent, or both. (42 CFR 51e.107)

Applications which meet the preference criteria in accordance with the regulations can receive consideration for

funding during the first funding cycle. Completed applications must be received at the Regional Office by January 2, 1978. If funds are not exhausted at the end of the first funding cycle, grant applications to serve preference areas or other areas received at the Regional Office by June 1, 1978, will be considered for funding.

Application kits containing the necessary forms, instructions, and information may be obtained from the representative of the Home Health Services Grant Program at the appropriate Regional Office (listed below). The representative may be contacted for consultation and technical assistance relative to development of an application.

Dated: October 3, 1977.

GEORGE I. LYTHCOTT,
*Administrator, Health
Services Administration.*

Food and Drug Administration

[Docket No. 77N-0273]

AMPHETAMINES

Public Hearing

AGENCY: Food and Drug Administration.

ACTION: Notice of Public Hearing.

SUMMARY: This is an announcement that a public hearing will be held on December 2, 1977 before the Commissioner of Food and Drugs to receive information and views from interested persons on the issue of the current patterns of medical use and abuse of amphetamines. Legally manufactured and marketed amphetamines continue to be abused at a level that constitutes an apparently significant public health problem. The Food and Drug Administration (FDA) contemplates undertaking new regulatory actions if the current level of abuse is confirmed, in the administrative record of this hearing, to be unacceptably high.

DATES: Notices of appearance by November 14, 1977; the hearing will be held on December 2, 1977.

ADDRESS: Written notices of appearance to the Hearing Clerk (HFC-20), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Ronald Kartzinell, Bureau of Drugs (HFD-120), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, (301-443-4020).

SUPPLEMENTARY INFORMATION:

DEFINITION

For the purpose of this notice, the term amphetamine, the name ordinarily used to designate the racemic form of the drug, is used to cover several drugs or isomers within a class and the term d1-amphetamine is used when reference to the racemate is intended. The term amphetamine includes dextroamphetamine, d1-amphetamine, methamphetamine (which is used in this notice to cover both the dextro-isomer and the racemate), a mixture of dextroamphetamine and d1-amphetamine, and salts of the drugs unless otherwise stated in the text.

BACKGROUND

Among the earliest attempts to impose Federal controls on distribution of amphetamines in the United States were legislative proposals made in the early 1950's, culminating in congressional hearings in 1954. Although no legislation resulted, in the late 1950's FDA began taking enforcement action under the Federal Food, Drug, and Cosmetic Act ("the act"), as then written, against individuals who were diverting amphetamines from legitimate channels to illicit use, on the grounds that they were dispensing amphetamines without a prescription. During the debates leading to the Drug Amendments of 1962, legislation was again proposed to curb amphetamine usage, but again, no action was taken. A Presidential commission in the same period recommended strong Federal efforts against the diversion and use of amphetamines and other nonnarcotic drugs. Congress enacted the Drug Abuse Control Amendments of 1965 (DACA) which placed responsibility for law enforcement against diversion of nonnarcotic drugs in FDA. Shortly thereafter, FDA created a new unit, the Bureau of Drug Abuse Control (BDAC) whose exclusive mandate was to enforce DACA. In 1968, BDAC was transferred from FDA to the Department of Justice in a move to centralize all drug abuse law enforcement activities into one agency, the Bureau of Narcotics and Dangerous Drugs (BNDD). (In 1973, BNDD was renamed the Drug Enforcement Administration (DEA).)

Congress revised all the Federal statutes relating to narcotic and nonnarcotic drugs in 1970. The enactment of the Controlled Substances Act (CSA) repealed DACA and provided a new range of regulatory controls that could be imposed upon drugs of abuse by administrative, rather than legislative action. In 1971, BNDD and FDA worked together to transfer amphetamines from Schedule III to Schedule II of the CSA (which imposed the strictest regulatory controls possible over drugs having legitimate medical use in the United States). This action required that (1) prescriptions be in writing and be nonrefillable, (2) special order forms issued by BNDD be used for all sales of amphetamines other than those dispensed to patients on prescription, (3) manufacturers and wholesalers utilize stringent precautions to prevent the theft or diversion of amphetamines from their facilities, (4) the drugs not to be imported or exported across boundaries of the United States without prior permission of BNDD, and (5) the quantities that could be manufactured in any given year be subject to quotas imposed by the government.

Beginning in 1972, parallel to the CSA actions to restrict the availability of amphetamines, FDA undertook its anorectic review which included detailed statistical analyses of all of the controlled studies in FDA files regarding the effectiveness of these drugs in the treatment of obesity, as well as meetings with consultants and advisory groups. The scope of the review was extensive, involving over 1,100 volumes of data concerned with 12 anorectic drugs. The products in which these drugs were present, either alone or in combination with other drugs, were marketed by 40 firms. Over 200 double-blind and controlled studies on the effectiveness of the drugs were included in the review. These studies, which had been carried out on almost 10,000 subjects, were then evaluated by the medical staff of the Bureau of Drugs to determine whether there was, for each anorectic drug, substantial evidence that patients taking the drug sustained on the average a greater degree of weight loss over a 12-week period than patients taking a placebo. The 12-week period was selected because it was the longest period for which there were reasonably comparable data on all of the anorectic drugs in the review.

Since completion of the anorectic review and implementation of the Schedule II controls under the CSA in 1972, the following actions have been taken by the Federal government to restrict the availability of and reduce the abuse of amphetamines: (a) in the FEDERAL REGISTER of February 12, 1973 (38 FR 4249), FDA announced its findings of the anorectic review that single-entity oral-anorectic drug products containing dextroamphetamine and d1-amphetamine are effective as a short-term adjunct in the management of obesity; (b) dextroamphetamine, d1-amphetamine, and methamphetamine were the subject of a Drug Efficacy Study (DES) notice published in the FEDERAL REGISTER of July 19, 1974 (39 FR 26459) (in that notice, dextroamphetamine and d1-amphetamine were evaluated as effective for the treatment of narcolepsy and minimal brain dysfunction in children, and all the drugs included in the notice were determined to be effective as short-term adjuncts in the management of obesity); (c) all parenteral forms and all but a very few combination drug products containing amphetamines have been removed from the market; (d) all single-entity anorectic drug products were re-labeled to emphasize warnings about their potential for abuse and the limitations on their effectiveness in the treatment of obesity (this information was also publicized in a December 1972 issue of the "FDA Drug Bulletin"); (e) the production quotas for amphetamines were substantially reduced by DEA, thereby reducing the quantity of amphetamines produced in the United States; (f) all other prescription anorectic drugs were placed within the control system of the CSA to reduce the likelihood that they would replace amphetamines as primary stimulant drugs of abuse; (g) the advertising and promotion of anorectic drugs were under regular surveillance (including 27 regulatory actions in the last 4 years against inadequate or misleading information or implied claims of usefulness in the advertising of these products).

The Commissioner recognized and so stated in the February 12, 1973 notice that use of amphetamines for long periods of time may lead to drug dependence and abuse. The potential for abuse of these drugs is related to their action as a central nervous system stimulant; they can produce intense psychological dependence and severe social dysfunction. When the drugs were approved for use as an adjunct in the management of obesity, they were approved on a benefit/risk basis which took into consideration their potential for abuse. By limiting the use of these drugs to a short period of time and reducing the opportunity for misuse through regulatory action, the Commissioner concluded that

these drugs met the safety requirements of the act, and were appropriate, on a benefit/risk basis, for the treatment of obesity for a few weeks as an adjunct to a regimen of weight reduction based on caloric restriction. However, he also cautioned that persistent abuse of these drugs would necessitate taking further steps to restrict their availability and use.

The supply of these drugs has therefore been reduced, and labeling now restricts their use to a short-term period of time and requires a box warning regarding their potential for abuse. In addition, regulatory actions taken by FDA have removed from the market all injectable products and most combination products containing an amphetamine and/or methamphetamine hydrochloride, because of lack of safety or effectiveness. Those anorectic products now on the market which contain amphetamines are also in the most restricted schedule (Schedule II) under the CSA.

SUMMARY OF CURRENT ABUSE OF
AMPHETAMINES

Recent information made available to FDA has revealed that, in spite of the restrictions imposed over the last 5 years, there is evidence for the following conclusions:

1. Among prescription drugs, the anorectic agents are commonly used for nonmedical purposes.

2. Among the anorectic drugs, amphetamines account for more abuse episodes than other drugs in the class and also have the highest rate of abuse of all drugs in the class.

3. There has been no significant decrease in the rate of abuse of amphetamines over the past 3 years. The major reduction in the abuse of these agents appears to have taken place between 1970 and 1973 as a result of regulatory actions taken during that time, and little incremental change has occurred since then.

4. A significant amount of the amphetamines used for abuse purposes comes from supplies that are legally manufactured, shipped, or prescribed.

5. There is no new evidence to challenge the previous FDA conclusion that amphetamines have no advantage over the nonamphetamine anorectic drugs as an adjunct in the treatment of obesity.

Because of this continuing level of abuse of amphetamines, the Commissioner believes that, consistent with his stated intent in the February 12, 1973 notice, further action under the act may be necessary to protect the public health. The specific actions under consideration and their objectives are described later in this notice.

EVIDENCE RELATING TO THE CONTINUED
ABUSE OF AMPHETAMINES

The following sections describe the evidence available in support of the conclusions enumerated above. The relevant reports, studies, and testimony are summarized below, and full copies of the references have been placed on file with

the Hearing Clerk, Food and Drug Administration.

1. Among prescription drugs the anorectic agents are commonly used for nonmedical purposes. The National Institute on Drug Abuse (NIDA) has reported to FDA the results of a household survey conducted in 1975 and 1976 on drug use among a sample population in communities throughout the United

States (Ref. 1). Questions were asked of 2,590 adults (ages over 18 years) and 986 youth (ages 12 to 17 years) about drug use activity during their lifetimes. The percentages of those questioned who indicated that at some time in their lives they had used a prescription stimulant, tranquilizer, or sedative drug for a nonmedical purpose are given in Table 1 as follows:

TABLE 1.—Nonmedical drug use

Substance	Percent all youth 12 to 17 yr (N*=986)	Percent young adults 18 to 25 yr (N*=882)	Percent older adults 26+ yr (N*=1708)	Percent all adults 18+ yr (N*=2,590)
Rx stimulants.....	4.4	16.6	5.6	7.9
Rx tranquilizers.....	3.3	9.1	2.7	4.0
Rx sedatives.....	2.8	11.9	2.4	4.4

*N= Number of persons.

These data indicate that the non-medical use of prescription stimulants is greater than that for prescription sedatives and prescription tranquilizers in the population sampled. The greatest incidence occurs among young adults aged 18 to 25 years, where approximately one in every six persons reported having engaged in nonmedical use of a stimulant.

A second report was received in 1977 from NIDA from the Client Oriented Data Acquisition Process (CODAP) system (Ref. 2). In the CODAP system, a client is anyone presenting himself or herself to a NIDA-funded clinic for the treatment of drug abuse. The report was based on two studies exploring drug abuse treatment as it affects the rural population of eight States. To learn about the rural abuse client, "urban" clients (clients in communities of 500,000 or more) were compared with "rural" clients (clients in communities of 25,000 or less). Information was obtained through client profiles drawn from admission data on 10,279 persons in 110 treatment units in 8 States (Arizona, Colorado, Georgia, Iowa, Maine, Minnesota, Montana, and Vermont). Table 2 below taken from the report, shows the primary drug of abuse (the drug that has been abused by the client or, in the case of multiple drug users, the one for which the client was seeking treatment) at the time of a client's admission to a rural or urban treatment program. These data indicate that the anorectic stimulants are approximately equal to sedative/hypnotics as the primary drugs of abuse. In this study anorectic stimulants and sedative/hypnotics taken together (the category of prescription drugs of abuse) ranked first in rural settings and second only to opiates in urban settings.

Clients are not admitted to the treatment program when alcohol is the only substance of abuse. Therefore the figure for alcohol in Table 2 is a limited indicator as it represents only multiple drug users who are abusing alcohol as the "primary drug" along with other drugs.

TABLE 2.—Rural and urban admissions—
primary drug at admission

Substance reported	Rural communities of 25,000 or less (N*=2,262) percent of clients	Urban communities of 500,000 or more (N*=8,017) percent of clients
Opiates.....	8.1	65.7
Alcohol.....	5.7	3.8
Sedative/hypnotics.....	16.6	6.9
Anorectic stimulants.....	15.9	5.8
Cocaine.....	1.1	1.5
Marijuana.....	36.7	10.7
Hallucinogens.....	9.5	3.0
Inhalants.....	4.5	.6
Other.....	3.1	.6
None.....	2.6	1.4

*N= Number of persons.

A third report received in 1977 from NIDA stated that next to marijuana, amphetamines are the class of drugs used most commonly by a sample of 571 veterans and 384 nonveterans interviewed in late 1974 (Ref. 3). In addition, next to marijuana, amphetamines were reported to be the drugs most likely to be used more than once a week for a period of more than a month. The report also describes a striking correlation between the degree of amphetamine use in the last 2 years and current adjustment problems, for veterans and nonveterans. The adjustment problems included arrests, job problems, divorces and separations, credit difficulties, transiency, violence, and drinking problems. Not only was the relationship between amphetamine use and adjustment problems high, but for both groups, veterans and nonveterans, it was higher than the correlation between adjustment problems and other drugs investigated, including heroin, cocaine, barbiturates, cocaine, opium, methaqualone, peyote, mescaline, propoxyphene, chlordiazepoxide, LSD, and marijuana. Among regular users of amphetamines, whether veterans or nonveterans, about two-thirds reported using amphetamines to "get high," and one-third of both groups claimed they were only trying to stay awake or work better.

2. Among the anorectic drugs, amphetamines account for more abuse

episodes than other drugs in the class and also have the highest rate of abuse of all drugs in the class. Data have been provided to FDA by the DEA from the Drug Abuse Warning Network (DAWN) system showing the high degree and rate of abuse of amphetamines. The DAWN system is a large-scale data-collecting system, initiated in September of 1972 and operated on contract by IMS America, Ambler, PA. The data include monthly reports, special reports, and computer printouts, used to identify drugs currently abused and or associated with harm to the individual and society. The episodes reported within the DAWN

system are the result of nonmedical use of a drug for psychic effects, dependence, or self-destruction. The data collected by DAWN consist of the number of "mentions" of a drug, as recorded following contact with or treatment of individuals by three types of facilities: emergency rooms (ER) in non-Federal short-term general hospitals (as defined by the American Hospital Association), offices of medical examiners or coroners (ME), and crisis intervention centers (CC) in the continental United States. The "mention" of a drug may range from a telephone call to an overdose death.

Although the DAWN system was initiated in 1972, data obtained before January 1974 are unsuitable for making valid trends of drug abuse. The initial period from September 1972 through December 1973 involved feasibility studies and revisions with the DAWN system to determine the best methods of operation.

Figure 1 shows the number of total DAWN mentions from all facilities for all anorectic drugs for the period from January 1974 through December 1976. It is apparent that the amphetamines have accounted for many more total mentions in this system than any other anorectic drug during the past 3 years.

The use of total DAWN mentions from all facilities as a reliable index of the rate of anorectic drug abuse in our society can be criticized for the following reasons: (1) the category of total mentions includes everything from a telephone inquiry by a concerned parent to a report of a serious event like hospitalization; (2) in many DAWN episodes the name of the drug involved is reported in jargon terms such as "speed," "mini-bennies," and "joy pills," which makes it impossible to assign the mention precisely to a particular drug in the stimu-

lant class; (3) reporting from various crisis centers is erratic and is subject to considerable variation in reliability; and (4) the number and characteristics of the facilities in the DAWN system fluctuate. To minimize errors from these sources and stabilize the drug abuse mention base, FDA conducted an analysis of DAWN mentions for specially named anorectic drugs during the period from January 1974 through December 1976. The analysis of DAWN mentions includes only those mentions that came from emergency rooms and medical examiners

that have consistently reported since January 1974.

These data on consistently reported ER and ME mentions are shown below in Figure 2. Although the scale of the graph has changed relative to Figure 1 in that fewer mentions are involved, the general pattern illustrated in Figure 1 is the same. Whether one looks at total mentions or consistent ER and ME mentions, abuse episodes related to amphetamines are several times greater than for any other anorectic drug.

Figures 3 and 4 below are similar to Figures 1 and 2 except that the number of mentions has in each case been divided by the number of prescriptions (in millions) dispensed for each drug during the relevant time period from January 1974 through December 1976. The ratio of DAWN mentions to total pre-

scriptions is taken to be an index of abuse rate, i.e., of the degree of abuse per amount of drug available for abuse. The data for the number of prescriptions were obtained from the National Prescription Audit, a survey conducted by IMS America (Ref. 4). Figures 3 and 4 again illustrate the same pattern as seen

in Figures 1 and 2. Regardless of whether the numerator in these ratios is taken to be total mentions (Figure 3) or consistently reported ER and ME mentions, the single-entity amphetamines demonstrate a rate of abuse several times higher than that associated with any other anorectic drug.

Figure 3

Figure 4

Although the abuse rate is higher for amphetamines, Figure 5 below indicates that the number of prescriptions prescribed for amphetamines is comparatively low in relation to the total prescriptions prescribed for anorectic drugs (amphetamines comprise only 25 percent of the total prescriptions prescribed for anorectic drugs in 1976).

Figure 5

3. There has been no significant decrease in the rate of abuse of amphetamines over the past 3 years. The major reduction in the abuse (and use) of these agents appears to have taken place between 1970 and 1973 as a result of their control under the CSA and the other regulatory actions cited. No significant change has occurred since 1973.

There is considerable evidence to indicate that the abuse of amphetamines is much reduced today by comparison with the problem that existed in the late 1960's and early 1970's. Many factors have undoubtedly contributed to this reduction, but certainly an important one is the reduced prescribing of amphetamines that has taken place in recent years. Figure 5 shows the number of prescriptions dispensed by retail pharmacies for the amphetamine class and for the class of other anorectic drugs for the 13-year period from 1964 through 1976. The major reduction in usage of the amphetamine class occurred between 1970 and 1973 after these drugs were placed in Schedule II of the CSA. The

withdrawal of parenteral methamphetamine and combination amphetamine products from the market, the revision of the package inserts to indicate that these drugs are effective only as adjunctive therapy for a short-term period, and the requirements that prescriptions be in writing and be nonrefillable have all probably contributed to this decline. Since 1974, prescription sales of amphetamines have remained relatively constant, as have the production quotas approved by DEA. Quotas for the years 1974, 1975, 1976, and 1977 are 3,657.1, 3,291.3, 3,586, and 3,564 kg respectively.

The decline in amphetamine usage since 1970 has been offset to a significant degree by an increase in the use of other anorectic drugs for the treatment of obesity so that overall prescribing of drugs in this class is reduced only moderately since the late 1960's (Figure 5).

It is not possible to quantitate the decline in abuse of amphetamines that has occurred since the 1960's because the DAWN system, which is the only national system providing such data, was

not established until 1972. (Data were not available until 1974 for making valid trends of drug abuse.) There is no reason to doubt, however, the generally held opinion of experts that the decline in prescribing amphetamines has been paralleled by a reasonably comparable decline in the amount of abuse. On the other hand, there is reason to believe from data collected by the DAWN system since 1974 that the rate of abuse of amphetamines is now reasonably stable, albeit at a rate lower than that which once prevailed in the United States.

Figure 6A below shows total DAWN mentions from all facilities divided by prescriptions in millions for each quarter from January 1974 through December 1976 for the anorectic drugs in Schedule II of the CSA. Figure 6B below shows similar data for the anorectic drugs in Schedules III and IV. These figures basically show the data in Figure 3 broken out by quarter and illustrate that no significant change in this index of abuse has occurred over the past 3 years.

Figure 6A

*Includes d-amphetamine, dl-amphetamine, and amphetamine mixtures

Figure 6B

FEDERAL REGISTER, VOL. 42, NO. 199—FRIDAY, OCTOBER 14, 1977

Figures 7A and 7B below are comparable to 6A and 6B, except in this instance the numerator of the ratios shown is consistently reported ER and ME mentions. Figures 7A and 7B thus show the data in Figure 4 broken out by quarter for the years 1974 through 1976, and again no significant time trend is evident.

Figure 7A

UMI

The conclusion that there has been no significant decline in the rate of abuse of amphetamines in the past 3 years is challenged by a report on prescription and drug abuse trends of the anorectic drugs developed by IMS America for the DEA (Ref. 5). Although the Bureau of Drugs and IMS America used the same data in making their analyses (data from DAWN and the National Prescription Audit), IMS America manipulated the data differently and thereby, in the opinion of the Bureau of Drugs, produced some misleading conclusions. In this report (Ref. 5), the conclusion was reached that there is a continuing rate of decline since 1974 in basically the same indices illustrated in Figures 6 and 7. The Bureau of Drugs considers this report to be erroneous in its conclusions for the following reasons:

1. The IMS report used different categories of anorectic drugs in its analysis. Specifically, "speed" (an unidentifiable jargon group) and phenmetrazine (a nonamphetamine) were added to the groups reflective of generic or trade name drugs, i.e., d-amphetamine, dl-amphetamine, amphetamine mixtures (containing more than one amphetamine), amphetamine combinations (containing another drug besides an amphetamine), and methamphetamine. Therefore, the IMS report cannot identify valid trends of abuse for amphetamines when other drugs are included in its analysis.

2. IMS applied a linear regression analysis to the time period from December 1973 through November 1976, thus providing the erroneous conclusion that amphetamine mentions are decreasing (Fig. 8 below). According to the analysis made in the Bureau of Drugs with information from DEA, there was a statistically decreasing trend from January 1974 through August 1974; however, no significant change is apparent after that time and the rate of DAWN mentions has remained relatively constant (Fig. 9

below). A possible explanation for the higher level of mentions in the first half of 1974 may be that amphetamines were being used secondarily with other drugs. If only those mentions are considered where amphetamines were the only drugs of abuse, there is no obvious trend from January 1974 through December 1976 (Fig. 9).

FIGURE 8
MENTIONS OF CSA II
DRUGS FROM ALL
CONSISTENTLY REPORTING FACILITIES

The conclusion that no significant reduction in the rate of abuse of amphetamines has occurred since January 1974 is supported by data from the National Clearinghouse for Poison Control Centers (Ref. 6). The National Clearinghouse records the collective experience of the 580 poison control centers throughout the United States. A standard reporting form, FD-2294, is sent to all centers with the request that it be filled out whenever treatment or response is made to telephone inquiries about poisoning.

Table 3 below summarizes Schedule II amphetamines and Schedule III and IV anorectic reports for the period of 1972 through 1975. These data agree with the DAWN findings; Schedule II drug products containing amphetamines were reported more often each year as causing injury to individuals than the total of the anorectics in Schedules III or IV.

TABLE 3.—Poison control centers

Reports	Number of reports			
	1972	1973	1974	1975
Schedule II amphetamines and methamphetamines	471	423	375	405
Schedule III anorectics	71	79	94	93
Schedule IV anorectics	115	135	138	162

4. A significant amount of the amphetamines used for abuse purposes comes from supplies that are legally manufactured, shipped, or prescribed. Of the total number of amphetamine mentions that are reported by the emergency facilities in the DAWN system, approx-

imately 25 percent identify the drug as having come from legal prescriptions, while the remaining 75 percent are attributed to drugs from other sources, e.g., "street buy," or stolen. Although amphetamines from other sources are not further broken down in the DAWN system as to whether they were legally or illegally manufactured, available information from DEA indicates that the amount of amphetamines diverted from legal sources constitutes a significant supply of these drugs for illicit use. According to the information from DEA, two major sources for the diversion of these drugs from legal sources are: (a) health professionals who engage in illegal or questionable practices with them, e.g., selling them without a prescription or prescribing them for nonmedical purposes, and (b) thefts from pharmacies, physicians, and suppliers.

Reports from Diversion Investigation Units (DIU) indicate that health professionals are involved in diverting a substantial amount of these legal drugs to illicit use (Ref. 7). Diversion Investigation Units are combined Federal-State task forces composed of State and local law enforcement personnel assisted by DEA and funded by the Law Enforcement Assistance Administration. These units identify and seek prosecution of practitioners and others involved in the illegal diversion and selling of legally manufactured drugs.

Of the DIU investigations reported from January 1975 to April 1977 that resulted in arrests, the following types

of health professionals were involved in the illegal diversion of amphetamines:

Category	Arrests in which amphetamine was involved	Arrests in which methamphetamine was involved
Medical doctors and doctors of osteopathy	22	6
Registered pharmacists	3	3
Dentists	1	1
Persons not employed in a health profession	42	17

In addition, the "Amphetamine Diversion" report transmitted to FDA on December 20, 1976 (Ref. 7) reveals the following:

1. There are physicians (cited in the report) who have ordered more than 3 million dosage units of amphetamines per year for their medical practice. This is sufficient to provide 15,000 12-week courses of therapy for the treatment of obesity, and proper use of such an amount would require that physicians initiate between 50 and 60 new patients on amphetamine therapy every day of every week during the year.

2. Some physicians are prescribing amphetamines to their patients for periods of up to 2 years. No substantial evidence of effectiveness for obesity exists after 90 days and significant evidence of tolerance and/or psychological dependence after prolonged use does exist.

3. A substantial amount of the illegal diversion of amphetamines by physicians occurs through the operation of "fat clinics" (a jargon term denoting that

the entire clinical practice is devoted to the treatment of obesity). The clinics usually order the amphetamines directly from the manufacturer or distributor and dispense them directly to the patient.

Currently, DEA is gathering additional information from its field staff to estimate with greater accuracy the amounts of amphetamines it believes are diverted through these mechanisms.

The other major source of diverted amphetamines is theft. Five million dosage units of these drugs were stolen from pharmacies, physicians, and suppliers in 1976 (Table 4 below; data from Ref. 4). The single greatest category of theft of anorectics in 1976 was theft of amphetamines from pharmacies. In fact, those

anorectic drugs in Schedule II of the CSA were stolen from pharmacies in greater amounts than the drugs in Schedules III and IV. A special case in 1976 was the theft of approximately 2 million dosage units of diethylpropion as a single theft of bulk powder from a truck, which accounts for the high figures attributed to this drug. For the amphetamines, about 10 percent of quantities stolen were at the manufacturer/distributor level, while 88 percent of the approximately 5 million dosage units stolen were taken at the retail level. These data indicate that amphetamines are the anorectic drugs most frequently desired by those who steal anorectic drugs to divert them to illicit use.

TABLE 4—Theft of anorectic drugs*—national totals for 1976

	Facility type				Totals
	Pharmacy	Doctor	Manufacturer/distributor	Other	
Schedule II					
Amphetamines	3,198,788	11,997	253,125	64,089	4,073,899
Methamphetamine	729,531	1	235,628	1,559	965,628
Phenmetrazine	711,666	14,708	38,028	3,286	767,690
Total					5,807,181
Schedule III					
Benzphetamine	22,810	0	43,300	4,100	70,210
Phendimetrazine	81,860	18,740	355,000	102,000	725,135
Mazindol	9,266	1	4,422	1,088	14,965
Chlorphentermine	4,304	1	4,700	570	9,974
Chlorfentermine	1,457	0	100	235	1,822
Total					822,106
Schedule IV					
Diethylpropion	42,083	14,828	2,674,031	433	2,731,375
Phentermine	97,572	12,322	265,796	7,196	322,886
Fenfluramine	4,277	720	2,400	876	8,073
Total					3,864,440
Grand total					10,513,727

* Numbers represent dosage units. Data from Ref. 4.

The available data from the DAWN systems indicate that approximately 25 percent of the amphetamines leading to DAWN mentions are from legal prescriptions, and the theft and DIU reports suggest that an additional increment of unknown magnitude can reasonably be attributed to diversion from the medical care system.

Additionally, DEA has provided data to FDA on anorectic drugs submitted to their laboratories for analysis between January 1974 and December 1976 (Ref. 8). Of the samples of 52 million tablets and capsules of anorectics submitted for analysis, only 2 percent (representing approximately 1 million dosage units) were produced by legitimate domestic manufacturers, while 90 percent (representing approximately 47 million dosage units) were identified as clandestinely manufactured. Because most drug samples sent to DEA laboratories are from investigations conducted to expose and prosecute clandestine manufacturing and illicit importation, the large percentage of illegitimate drugs from these laboratories is to be expected. These data, therefore, cannot reasonably be interpreted as suggesting that legally manufactured amphetamines do not con-

tribute significantly to the abuse problem associated with these drugs.

5. *There is no new evidence to challenge the previous FDA conclusion that amphetamines do not have any advantage over the nonamphetamine anorectic drugs as an adjunct in the treatment of obesity.* The anorectic review initiated by FDA in 1972 resulted in the conclusion that there are no significant differences among the anorectic drugs in their effectiveness in enhancing weight loss over the short-term as adjunctive treatments to diet in the management of obesity. Since that time no evidence has been presented to the agency to indicate that this conclusion was in error. Specifically, no adequate and well-controlled trials are known to the Bureau of Drugs which demonstrate that amphetamines carry any relative advantage over other anorectic drugs in the management of obesity.

RECENT EVENTS IN REGARD TO AMPHETAMINES

Testimony was given before the Subcommittee on Monopoly of the Select Committee on Small Business of the United States Senate, at hearings held November 9, 10, 11, 18, and 19, 1976, regarding the safety and effectiveness of

antiobesity drugs (Refs. 9 through 18). Experts brought before the subcommittee offered the following information and opinions:

Lester Grinspoon, M.D., Director of Information and Evaluation at the Massachusetts Mental Health Center, Boston, Mass., stated in response to a question as to whether or not some action should be taken concerning the amphetamines, "The near epidemic extent of amphetamine abuse which exists in this country today is at least in part a result of the medical community's basic unwillingness to recognize that fulfillment of its first responsibility is not always identical with the most immediate alleviation of pain and suffering." Dr. Grinspoon stated that in his opinion there seem to be few conditions that justify the prescribing of amphetamines. The exceptions are a very select group of patients suffering from certain varieties of narcolepsy and a number of truly hyperkinetic children. Dr. Grinspoon indicated that, in these cases, amphetamines should be prescribed only after a careful weighing of their potential dangers against their possible value.

Dr. Thaddeus E. Prout, Associate Professor of Medicine at Johns Hopkins University, Baltimore, Md., testified concerning the use of amphetamines for the treatment of obesity: "It has been demonstrated that the amphetamines and related compounds have such trivial effectiveness in the treatment of obesity that we should look again at questions of whether or not obesity should continue as an indication for their use. Obesity is the major medical excuse for the manufacture of amphetamines. It now seems reasonable to state that the risk of overproduction of the drugs and their excessive abuse far exceeds the benefits that might be cited in the treatment of obesity. Only a few patients believe that the so-called anorectic drugs in association with rigid dieting were the causative agent in their weight reduction. Most patients get no benefit from their use and risk the development of addiction. I would therefore recommend that obesity be withdrawn as an indication for the therapeutic use of these drugs."

Dr. Everett Ellingwood, Professor of Psychiatry at Duke University, stated at the hearing that the more potent stimulants, such as dextroamphetamine, methamphetamine and phenmetrazine currently under Schedule II should be considered for possible discontinuance as anorectics. Dr. Ellingwood also said that the chronic high-dose use of amphetamines, which leads to behavioral aberrations including psychosis, is considered by clinical observers to be a volatile state that is not infrequently implicated in violent or assaultive behavior.

Dr. John Henderson of Ottawa, Canada, representing the Canadian Medical Association, testified that on January 1, 1973, Canadian law designated five conditions as the only medical diagnoses for which the amphetamines could be prescribed. These five conditions were: narcolepsy, hyperkinetic disorders in children, minimal brain dysfunction, epi-

lepsy and Parkinsonism. The amphetamines were not indicated for weight reduction in Canada. Dr. Henderson stated that the Canadians did not feel that amphetamines should be used for the treatment of obesity, especially as other drugs were available for this purpose.

Dr. Thomas Gellert of Huntington, New York, testified that after Huntington physicians had evaluated scientific data concerning the use of amphetamines in the treatment of obesity, the physicians decided that amphetamines have no use in the practice of medicine except in the treatment of rare problems such as narcolepsy and in certain types of hyperactive children. Although the majority of the Huntington physicians cooperated in the implementation of a voluntary ban on the use of amphetamines in the treatment of obesity, Dr. Gellert stated that some physicians are still confining their practices to the treatment of obesity and dispensing an unusually excessive amount of legal amphetamines. According to his calculations, some of the doctors are prescribing more than a million dosage units of amphetamines a year. He felt that additional controls are needed for amphetamines to prevent injudicious distribution of legal amphetamines by a small number of physicians.

Dr. Barrett Scoville, former Director of the Division of Neuropsychopharmacological Drug Products of FDA, discussed the review of anorectic drugs and stated that in his opinion the efficacy decision was proper, but that the decision regarding safety appeared to need revision. Dr. Scoville stated that if the amphetamines continue to be abused, it would seem reasonable to withdraw approval of them for the obesity indication, for which safer drugs are available. Dr. Scoville believes the amphetamines to be the most dangerous class of anorectic drugs, but does not believe that obese patients should be deprived of all drugs for that indication.

Mr. Frederick Rody, Jr., Acting Deputy Administrator of the Drug Enforcement Administration, testified on the history of the control of anorectics under the CSA. Based on data available to DEA, Mr. Rody concluded that increasing amounts of abused amphetamines come from home supplies and these supplies are created largely through prescriptions and direct dispensing by physicians. He suggested that significant numbers of physicians are prescribing and dispensing in excess of the amount of the drug necessary to meet the patient's actual medical needs. Mr. Rody also discussed the problems of drugs that are manufactured within the United States, exported to another country, and then smuggled back into the United States for illicit sale.

Dr. J. Richard Crout, Director of the Bureau of Drugs, testified concerning the activities of FDA with respect to anorectic drugs. Dr. Crout stated that from 1971 through 1973 there was a dramatic decrease in the amount of amphetamines prescribed. However, since 1973 the use of amphetamines has remained fairly constant and at a rate about one-fifth

the use seen during the peak year of 1965. With regard to non-amphetamine anorectics, these drugs have increased in popularity since 1971 and are prescribed approximately twice as often as the amphetamines. Dr. Crout stated that, based on the DAWN data, the amphetamines and to a lesser extent phenmetrazine are associated with more DAWN contacts per number of sales than the other anorectics. Available information indicates that the Schedule II drugs are a greater problem than the other anorectics in Schedules III and IV of the CSA. Dr. Crout stated that FDA would further evaluate in more detail and decide whether definitive action should be taken regarding amphetamine drugs.

On February 3, 1977, the evidence relating to the use of dl-amphetamine, dextroamphetamine, and methamphetamine in the treatment of narcolepsy and of children with hyperkinesia and minimal brain dysfunction was reviewed by the Neurologic Drugs Advisory Committee of FDA (Ref. 19). Representatives of various parties, including the American Medical Association and several drug manufacturers, presented testimony at the meeting. The committee advised FDA that removal of the indication of narcolepsy from dl-amphetamine and dextroamphetamine would have a deleterious effect on patients with this condition. It was also the opinion of the committee that dl-amphetamine, dextroamphetamine, and methamphetamine were needed for the treatment of minimal brain dysfunction, in spite of the availability of methylphenidate and pemoline as alternatives, because not all children respond well enough to these drugs that the amphetamines can be replaced. The Bureau of Drugs has accepted these recommendations and will incorporate them into any plan for regulatory action in regard to this class of drugs.

CONSIDERATION OF ADDITIONAL REGULATORY ACTIONS RELATING TO THE AMPHETAMINES

In view of the evidence in the previous section, the Commissioner is considering initiating new administrative proceedings in regard to these drugs. The intent of such actions would be to limit the approved indications of amphetamines to those in which the drug serves an essential medical purpose and to inform patients taking these drugs of these indications. As a consequence of such actions, the production quotas for these drugs could be reduced to a fraction of their current level, thereby reducing the legal domestic supply available for diversion.

Specifically, the Commissioner is considering the initiation of proceedings intended to accomplish the following:

1. Remove the anorectic indication from the labeling of amphetamine products. Information on legitimate medical usage of Schedule II drugs is provided to DEA for use in setting production quotas. Because at least 88 percent of the legal medical usage of these drugs has been for weight reduction (Ref. 20), the recommended production quotas for amphetamines could be sharply reduced following such action.

2. Retain the indication of narcolepsy for dl-amphetamine and dextroamphetamine, and retain the indication of minimal brain dysfunction for dl-amphetamine, dextroamphetamine, and methamphetamine. These are the indications, other than obesity, for which these drugs are currently labeled.

3. Require patient labeling for amphetamine products. A short insert stating the warnings in layman's terms about using these drugs in weight reduction (and in the treatment of narcolepsy for methamphetamines) would be given to the patient when the drug is dispensed.

Other anorectic drug products, other than amphetamines, will remain on the market labeled for their anorectic indication. At the present time, available evidence from DEA and NIDA does not indicate an unacceptable level of abuse for any of these remaining anorectic drug products; however, these drugs will be reviewed periodically by the Controlled Substances Advisory Committee of FDA to determine whether additional controls are necessary.

If the steps outlined are ultimately taken and are successful in reducing the abuse level of amphetamines, it is possible that the abuse of one or more of these other anorectic drugs will increase. If any one drug in the class could then be shown to have a degree of abuse significantly higher than other drugs in the class (a situation similar to that which exists today with amphetamines), it is anticipated that action would be taken to remove that drug from the market. The regulatory action under consideration should therefore be seen not as an isolated proceeding against amphetamines but rather as the next step in a long-existing policy to take action, on relative safety grounds, against any anorectic drug that becomes abused at a rate substantially higher than other drugs in the class. Implementation of such a policy through the years should result in the long-term marketing of only those anorectic drugs which have the lowest potential for abuse.

PUBLIC HEARING

The Commissioner announces that a public hearing will be held to provide an open forum for comment and dis-

cussion on the information in this notice regarding the abuse of legally manufactured amphetamines. The hearing is open to all interested persons. Participants are invited to comment on the evidence presented in this notice, including the data relating to the abuse of amphetamines, any aspect of the regulatory plan proposed, and on the policies underlying this plan. He specifically seeks well-documented comment on the merits of the following possible course of action:

1. Removal of the anorectic indication from the labeling of amphetamine drug products.

2. Retention of the indication of narcolepsy for dextroamphetamine and dl-amphetamine products, and retention of the indication of minimal brain dysfunction for dextroamphetamine, dl-amphetamine and methamphetamine products.

3. Requiring patient labeling which would provide certain information on use and warnings concerning the potential for abuse of these drugs.

After the completion of the hearing, the Commissioner will consider the administrative record of the hearing to determine whether the abuse of legally manufactured and marketed amphetamines requires additional regulatory action. If a decision is made that additional action is required for these drugs, he will initiate proceedings on the basis of the administrative record of the hearing which includes the information cited in this notice.

The Commissioner advises that the evidence presented in this notice may be taken into account in recommending to DEA changes in the schedules of certain anorectic drugs under the CSA. Separate forums are available for these matters, however, and it is requested that participants not use this particular hearing for discussion of these issues.

The hearing will begin at 9 a.m. on December 2, 1977, in Conference Room E, third floor, Parklawn Building, 5600

Fishers Lane, Rockville, Md. 20857. The presiding officer will be J. Richard Crout, M.D., Director of the Bureau of Drugs.

Persons wishing to comment or present views at this hearing must file by November 14, 1977, a written notice of appearance under 21 CFR 15.21 with the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857. The envelope containing the notice should be prominently marked "Amphetamine Hearing." The notice of appearance shall contain the Hearing Clerk Docket No. (77N-0273); the name, address and telephone number of the person desiring to make a statement; business affiliation, if any; a summary of the presentation; and the approximate amount of time being requested for the presentation. Individuals and organizations with common interests are urged to consolidate or coordinate their presentations. The Commissioner may require joint presentations by persons with common interests. He will allocate the time available for the hearing among the persons who properly file a notice of appearance and will make a schedule of the hearing available to such persons. Persons may use their allotted time on any aspect of the proposed action, consistent with the conduct of a reasonable and orderly hearing. Formal written statements on the issues may be presented to the presiding officer on the day of the hearing for inclusion in the record.

The hearing will be open to the public. At the discretion of the presiding officer, and as time permits, any interested person in attendance may be heard with respect to matters relevant to the issue under consideration.

Dated: October 6, 1977.

SHERWIN GARDNER,
Acting Commissioner
of Food and Drugs.

Title 29—Labor

CHAPTER XIV—EQUAL EMPLOYMENT
OPPORTUNITY COMMISSIONPART 1601—PROCEDURAL
REGULATIONSDelegations of Authority and Other
AmendmentsAGENCY: Equal Employment Opportunity
Commission.

ACTION: Final rule.

SUMMARY: The Equal Employment Opportunity Commission published its procedural regulations on September 22, 1977 (42 FR 47828). Subsequent to the publication of the procedural regulations, the Commission adopted a plan for the reorganization of its headquarters offices. The regulations are herein amended to reflect appropriated delegations of authority stemming from the reorganization, and other, minor changes, as explained below.

EFFECTIVE DATE: October 25, 1977.

FOR FURTHER INFORMATION CON-
TACT:

Constance L. Dupre, Associate General Counsel, Legal Counsel Division, Office of the General Counsel, Room 2224, EEOC, 2401 E Street NW., Washington, D.C. 20506, a/c (202) 634-6460.

SUPPLEMENTARY INFORMATION: On August 19, 1977, the Equal Employment Opportunity Commission published a proposed revision of its procedural regulations (42 FR 42022) which appear at 29 CFR Part 1601. Those regulations were printed in final form on September 22, 1977 (42 FR 47828), effective September 23, 1977.

Subsequent to the publication of the procedural regulations, the Commission adopted a comprehensive plan for the reorganization of its headquarters offices in order to insure effective implementation of the new procedures. Consequently, certain delegations of authority have been changed. All references to the Director of the Office of Compliance Programs have been deleted and, with four exceptions, the Director of the Office of Field Services and the Director of the Office of Systemic Programs have been inserted. In §§ 1601.16(b) and 1601.56(b) the General Counsel has been inserted and in §§ 1601.70(a) and 1601.73 the Director of the Office of Field Services has been inserted.

Section 1601.5 has been changed to clarify the supervisory authority of the Director of the Office of Field Services over regional directors and directors of model offices.

Section 1601.13(d)(1)(ii) has been changed to delete the first sentence and modify the second sentence of the subsection. In order to expedite the processing of charges deferred to 706 Agencies, the Commission will not endeavor before deferral to obtain a charge meeting the requirements of § 1601.12(a). The 706 Agency will perform this function.

RULES AND REGULATIONS

Section 1601.50, and the title to Subpart G, have been modified to indicate expressly that Subpart G only applies to the processing of 707 charges by the General Counsel.

Minor errors in § 1601.13(c)(2) and (d)(2) have been corrected as well as changes to correct the designations of 706 Agencies in § 1601.74.

NOTE.—It is hereby certified that the revised regulation has been assessed for the need of an Inflationary Impact Statement. Because of the nature of the changes this revision does not require an Inflationary Impact Statement.

Dated: October 11, 1977.

ELEANOR HOLMES NORTON,
Chairman, Equal Employment
Opportunity Commission.

Accordingly, the procedural regulations of the Equal Employment Opportunity Commission, 29 CFR Part 1601, are amended to read as follows:

Sec.
1601.1 Purpose.

Subpart A—Definitions

1601.2 Terms defined in Title VII of the Civil Rights Act of 1964, as amended.

1601.3 Other definitions.
1601.4 Vice Chairman's functions.
1601.5 Region; district; supervisory authority.

Subpart B—Procedure for the Prevention of Unlawful Employment Practices

1601.6 Submission of information.
1601.7 Charges by or on behalf of persons claiming to be aggrieved.

1601.8 Where to make a charge.

1601.9 Form of charge.

1601.10 Withdrawal of a charge by a person claiming to be aggrieved.

1601.11 Charges by members of the Commission.

1601.12 Contents of charge; amendment of charge.

1601.13 Filing; deferrals to State and local agencies.

1601.14 Service of charge or notice of charge.

INVESTIGATION OF A CHARGE

1601.15 Investigative authority.

1601.16 Access to and production of evidence; testimony of witnesses; procedure and authority.

1601.17 Witnesses for public hearings.

1601.18 Right to inspect or copy data.

PROCEDURE FOLLOWING FILING OF A CHARGE

1601.19 Dismissal: Procedure and authority.

1601.20 Negotiated settlement.

1601.21 Reasonable cause determination: Procedure and authority.

1601.22 Confidentiality.

PROCEDURE TO RECTIFY UNLAWFUL EMPLOYMENT PRACTICES

1601.23 Preliminary or temporary relief.

1601.24 Conciliation: Procedure and authority.

1601.25 Failure of conciliation; notice.

1601.26 Confidentiality of endeavors.

PROCEDURE CONCERNING THE INSTITUTION OF CIVIL ACTIONS

1601.27 Civil Actions by the Commission.

1601.28 Notice of right to sue: Procedure and authority.

1601.29 Referral to the Attorney General.

Subpart C—Notices to Employees, Applicants for Employment and Union Members

Sec.
1601.30 Notices to be posted.

Subpart D—Interpretations and Opinions by the Commission

1601.31 Request for interpretation or opinion.

1601.32 Contents of request; where to file.

1601.33 Issuance of interpretation or opinion.

Subpart E—Construction of Rules

1601.34 Rules to be liberally construed.

Subpart F—Issuance, Amendment or Repeal of Rules

1601.35 Petitions.

1601.36 Action on petition.

Subpart G—Case Processing by the General Counsel Under Section 707 of Title VII

1601.50 Scope.

1601.51 Delegation of authority.

1601.52 Initiation of section 707 charge.

1601.53 Service of notice of charge.

1601.54 Deferral.

1601.55 Investigation.

1601.56 Issuance of subpoenas; petitions to revoke subpoenas; enforcement of subpoenas.

1601.57 Commission reasonable cause finding.

1601.58 Voluntary compliance; settlements; Commission authority to file suit.

1601.59 Notice to persons claiming to be aggrieved.

Subpart H—706 Agency Designation Procedures

1601.70 706 Agency designation.

1601.71 Commission determinations on 706 Agency applications.

1601.72 706 Agency performance standards.

1601.73 706 Agency conference.

1601.74 Designated 706 and Notice Agencies.

AUTHORITY: Sec. 713(a), Title VII of the Civil Rights Act of 1964, as amended, 42 U.S.C. § 2000e-12(a).

§ 1601.1 Purpose.

The regulations set forth in this part 1601 contain the procedures established by the Equal Employment Opportunity Commission for carrying out its responsibilities in the administration and enforcement of Title VII of the Civil Rights Act of 1964, as amended. Based upon its experience in the administration of the Act and upon its evaluation of suggestions and petitions for amendments submitted by interested persons in accordance with § 1601.35, the Commission may from time to time amend and revise these procedures.

Subpart A—Definitions

§ 1601.2 Terms defined in Title VII of the Civil Rights Act of 1964, as amended.

The terms "person," "employer," "employment agency," "labor organization," "employee," "commerce," "industry affecting commerce," "State" and "region" as used herein shall have the meanings set forth in section 701 of Title VII of the Civil Rights Act of 1964, as amended.

§ 1601.3 Other definitions.

For the purposes of this Part, the term "Title VII" or "the Act" shall mean Title VII of the Civil Rights Act of 1964 as

RULES AND REGULATIONS

amended by the Equal Employment Opportunity Act of 1972; the term "Commission" shall mean the Equal Employment Opportunity Commission or any of its designated representatives; the term "706 Agency" shall mean a state or local agency which the Commission has determined satisfies the criteria stated in section 706(c) of Title VII; and the term "verified" shall mean sworn to or affirmed before a notary public, designated representative of the Commission, or other person duly authorized by law to administer oaths and take acknowledgments, or supported by an unsworn declaration in writing under penalty of perjury.

(b) The delegations of authority in subpart B of this part are applicable to charges filed pursuant to either section 706 or section 707 of Title VII.

§ 1601.4 Vice Chairman's functions.

The member of the Commission designated by the President to serve as Vice Chairman shall act as Chairman in the absence or disability of the Chairman or in the event of a vacancy in that office.

§ 1601.5 Region; district; supervisory authority.

The term "region" as used herein shall mean that part of the United States or any territory thereof fixed by the Commission as a particular region. The term "regional director" shall refer to that person designated as the Commission's chief officer in each region. The term "district" shall mean that area within a region fixed by the Commission as a particular sub-unit of a region. The term "district director" shall refer to that person designated as the Commission's chief officer in each district. The term "model office" shall refer to a district office which, although located within a region, has been designated by the Commission to operate under the supervision of the Executive Director, through the Director of the Office of Field Services, and the General Counsel; a model office does not operate under the supervision of a regional director. The regional director is hereby delegated all of the authority granted in this part to district directors to be exercised within the scope of his or her supervisory authority over each district director in his or her region, except with regard to model offices. The Director of the Office of Field Services is hereby delegated all of the authority granted in this part to regional directors and to directors of model offices to be exercised within the scope of his or her supervisory authority over such directors. The regional offices of the General Counsel are under direct control of the Commission's General Counsel.

Subpart B—Procedure for the Prevention of Unlawful Employment Practices

§ 1601.6 Submission of information.

The Commission shall receive information concerning alleged violations of Title VII from any person. Where the information discloses that a person is entitled to file a charge with the Commission, the

appropriate office shall render assistance in the filing of a charge. Any person or organization may request the issuance of a Commissioner charge for an inquiry into individual or systematic discrimination. Such request, with any pertinent information, should be submitted to the nearest District Office.

§ 1601.7 Charges by or on behalf of persons claiming to be aggrieved.

(a) A charge that any person has engaged in or is engaging in an unlawful employment practice within the meaning of Title VII may be made by or on behalf of any person claiming to be aggrieved. A charge on behalf of a person claiming to be aggrieved may be made by any person, agency, or organization. The written charge need not identify by name the person on whose behalf it is made. The person making the charge, however, must provide the Commission with the name, address and telephone number of the person on whose behalf the charge is made. During the Commission investigation, Commission personnel shall verify the authorization of such charge by the person on whose behalf the charge is made. Any such person may request that the Commission shall keep his or her identity confidential. However, such request for confidentiality shall not prevent the Commission from disclosing the identity to federal, state or local agencies that have agreed to keep such information confidential. If this condition is violated by a recipient agency, the Commission may decline to honor subsequent requests for such information.

(b) The person claiming to be aggrieved has the responsibility to provide the Commission with notice of any change in address and with notice of any prolonged absence from that current address so that he or she can be located when necessary during the Commission's consideration of the charge.

§ 1601.8 Where to make a charge.

A charge may be made in person or by mail at the offices of the Commission in Washington, D.C., or any of its district or regional offices or with any designated representative of the Commission. The addresses of the Commission's district offices appear in § 1610.4.

§ 1601.9 Form of charge.

A charge shall be in writing and signed and shall be verified.

§ 1601.10 Withdrawal of a charge by a person claiming to be aggrieved.

A charge filed by or on behalf of a person claiming to be aggrieved may be withdrawn only by the person claiming to be aggrieved and only with the consent of the Commission. The Commission hereby delegates authority to District Directors, the Director of the Office of Field Services and the Director of the Office of Systemic Programs, or their designees, to grant consent to a request to withdraw a charge, other than a Commissioner charge, where the withdrawal of the charge will not defeat the purposes of Title VII.

§ 1601.11 Charges by members of the Commission.

Any member of the Commission may file a charge with the Commission. Such charge shall be in writing and signed and shall be verified.

§ 1601.12 Contents of charge; amendment of charge.

(a) Each charge should contain the following: (1) The full name, address and telephone number of the person making the charge except as provided in § 1601.7;

(2) The full name and address of the person against whom the charge is made, if known (hereinafter referred to as the respondent);

(3) A clear and concise statement of the facts, including pertinent dates, constituting the alleged unlawful employment practices: See § 1601.15(b);

(4) If known, the approximate number of employees of the respondent employer or the approximate number of members of the respondent labor organization, as the case may be; and

(5) A statement disclosing whether proceedings involving the alleged unlawful employment practice have been commenced before a State or local agency charged with the enforcement of fair employment practice laws and, if so, the date of such commencement and the name of the agency.

(b) Notwithstanding the provisions of paragraph (a) of this section, a charge is sufficient when the Commission receives from the person making the charge a written statement sufficiently precise to identify the parties, and to describe generally the action or practices complained of. A charge may be amended to cure technical defects or omissions, including failure to verify the charge, or to clarify and amplify allegations made therein. Such amendments and amendments alleging additional acts which constitute unlawful employment practices related to or growing out of the subject matter of the original charge will relate back to the date the charge was first received. A charge that has been so amended shall not be required to be redeferred.

§ 1601.13 Filing; deferrals to State and local agencies.

(a) The timeliness of a charge shall be measured for purposes of satisfying the filing requirements of section 706(e) of Title VII by the date on which the charge is received by the Commission.

(b) The Commission shall assume jurisdiction over charges not subject to the jurisdiction of a 706 agency upon receipt.

(c) Deferral policy. (1) In order to give full weight to the policy of section 706(c) of the Act, which affords State and local fair employment practice agencies that come within the provisions of that section an opportunity to remedy alleged discrimination concurrently regulated by Title VII and State or local law, the Commission adopts the following procedures with respect to allegations of discrimination filed with the Commission where there is no evidence

that such allegations were earlier presented to an appropriate 706 Agency. It is the intent of the Commission to thereby encourage the maximum degree of effectiveness in the State and local agencies. The Commission shall endeavor to maintain close communication with the State and local agencies with respect to all matters forwarded to such agencies and shall provide such assistance to State and local agencies as is permitted by law and as is practicable.

(2) Section 706(c) of Title VII grants States and their political subdivisions the exclusive right to process allegations of discrimination filed by a person other than a Commissioner for a period of sixty days or 120 days during the first year after the effective date of the qualifying State or local law. This right exists where pursuant to Subpart H of this part it has been demonstrated to the Commission that a State or local law prohibits the employment practice alleged to be unlawful and a State or local agency has been authorized to enforce and does enforce that law through civil or criminal proceedings. After the expiration of the exclusive processing period, the Commission may commence processing the allegation of discrimination.

(3) A 706 Agency may waive its right to the period of exclusive processing of charges provided under section 706(c) of Title VII with respect to any charge or category of charges. Where a 706 Agency has waived its right to the exclusive processing period with respect to any category of charges, the Commission will assume jurisdiction over charges within that category upon receipt. Copies of such charges shall be forwarded to the appropriate 706 Agency.

(d) The following procedures shall be followed with respect to cases arising in the jurisdiction of "706 Agencies."

(1) Where any document, whether or not verified, is received by the Commission as provided in § 1601.8 which may constitute a charge cognizable under Title VII, and where the 706 Agency has not waived its right to the period of exclusive processing with respect to that document, that document shall be deferred to the appropriate 706 Agency as provided in the procedures set forth below:

(i) All such documents shall be dated and time stamped upon receipt.

(ii) A copy of the original document shall be transmitted by registered mail, return receipt requested, to the appropriate State or local agency, or, where the State or local agency has consented thereto, by certified mail, by regular mail or by hand delivery. State or local proceedings are deemed to have commenced on the date such document is mailed or hand delivered.

(iii) The person claiming to be aggrieved and any person filing a charge on behalf of such person shall be notified, in writing, that the document which he or she sent to the Commission has been forwarded to the State or local agency pursuant to the provisions of section 706(c).

(2) For purposes of satisfying the filing requirement of section 706(c) of

Title VII, the Commission shall assume jurisdiction over a document described in paragraph (d)(1) of this section as follows:

(i) Where the document on its face constitutes a charge within a category of charges over which the 706 Agency has waived its right to the period of exclusive processing referred to in paragraph (b)(3) of this section, the Commission will assume jurisdiction over the charge upon receipt of the document;

(ii) Where the document is submitted to the Commission within 180 days from the date of the alleged violation but beyond the period of limitation of the appropriate 706 Agency, the Commission shall assume jurisdiction over the charge upon receipt of the document;

(iii) Where the proceedings of a 706 Agency have been commenced pursuant to paragraph (d)(1) of this section, the Commission shall assume jurisdiction sixty (or where appropriate 120) days after the 706 Agency proceedings have been commenced, except where the Commission is earlier notified of the termination of State proceedings. It shall immediately assume jurisdiction upon receipt of such notice.

(iv) Where the proceedings of a 706 Agency have been commenced less than sixty (or, where appropriate, 120) days prior to the time the Commission receives the document and those proceedings have not previously been terminated, the Commission shall assume jurisdiction 60 (or, where appropriate, 120) days after the 706 Agency proceedings have been commenced, except where the Commission is earlier notified of the termination of state proceedings. It shall immediately assume jurisdiction upon receipt of such notice.

(e) In addition to the provisions in paragraphs (a), (b), and (c) of this section and pursuant to section 705(g)(1) and section 709(b) of Title VII, the Commission shall endeavor to enter into agreements with 706 Agencies and other fair employment practice agencies to establish effective and integrated resolution procedures. Such agreements may include, but need not be limited to, cooperative arrangements to provide for processing of certain charges by the Commission, rather than by the 706 Agency during the period specified in section 706(c) and section 706(d) of Title VII.

(f) Notwithstanding the deferral provisions of this section, the Commission may make a preliminary investigation and commence judicial action for immediate, temporary or preliminary relief pursuant to section 706(f)(2) of Title VII.

(g) A charge made by a member of the Commission shall be deemed filed upon receipt by the Commission office responsible for investigating the charge. The Commission will notify a 706 Agency when an allegation of discrimination is made by a member of the Commission concerning an employment practice occurring within the jurisdiction of the 706 Agency. The 706 Agency will be entitled to process the charge exclusively for a period of not less than

sixty days if the 706 Agency makes a written request to the Commission within ten days of receiving notice that the allegation has been filed. The sixty day period shall be extended to one-hundred and twenty days during the first year after the effective date of the qualifying State or local law.

§ 1601.14 Service of charge or notice of charge.

(a) Within ten days after the filing of a charge in the appropriate Commission office, the Commission shall serve respondent a copy of the charge, by mail or in person, except when it is determined that providing a copy of the charge would impede the law enforcement functions of the Commission. Where a copy of the charge is not provided, the respondent will be served with a notice of the charge within ten days after the filing of the charge (including the date, place, circumstances and identity of the person filing the charge, or, in the case of a charge filed on behalf of any individual, the identity of the person or organization so filing).

(b) The District Directors, the Director of the Office of Field Services and the Director of the Office of Systemic Programs, or their designees, are hereby delegated the authority to issue the notice described in paragraph (a) of this section.

INVESTIGATION OF A CHARGE

§ 1601.15 Investigative authority.

(a) The investigation of a charge shall be made by the Commission, its investigators, or any other representative designated by the Commission. During the course of such investigation, the Commission may utilize the services of State and local agencies which are charged with the administration of fair employment practice laws or appropriate Federal agencies, and may utilize the information gathered by such authorities or agencies. As part of each investigation, the Commission will accept any statement of position or evidence with respect to the allegations of the charge which the person claiming to be aggrieved, the person making the charge on behalf of such person, if any, or the respondent wishes to submit.

(b) As part of the Commission's investigation, the Commission may require the person claiming to be aggrieved to provide a statement which includes:

(1) a statement of each specific harm that the person has suffered and the date on which each harm occurred;

(2) for each harm, a statement specifying the act, policy or practice which is alleged to be unlawful;

(3) for each act, policy, or practice alleged to have harmed the person claiming to be aggrieved, a statement of the facts which lead the person claiming to be aggrieved to believe that the act, policy or practice is discriminatory.

(c) The Commission may require a fact-finding conference with the parties prior to a determination on a charge of discrimination. The conference is primarily an investigative forum intended to define the issues, to determine which

elements are undisputed, to resolve those issues that can be resolved and to ascertain whether there is a basis for negotiated settlement of the charge.

(d) The Commission's authority to investigate a charge is not limited to the procedures outlined in paragraphs (a), (b) and (c) of this section.

§ 1601.16 Access to and production of evidence; testimony of witnesses; procedure and authority.

(a) To effectuate the purposes of Title VII, any member of the Commission shall have the authority to sign and issue a subpoena requiring:

(i) the attendance and testimony of witnesses;

(ii) the production of evidence including, but not limited to, books, records, correspondence, or documents, in the possession or under the control of the person subpoenaed; and

(iii) access to evidence for the purposes of examination and the right to copy.

Any District Director, the Director of the Office of Field Services and the Director of the Office of Systemic Programs, or any representatives designated by the Commission, may sign and issue a subpoena on behalf of the Commission. The subpoena shall state the name and address of its issuer, identify the person or evidence subpoenaed, the person to whom and the place, date, and the time at which it is returnable or the nature of the evidence to be examined or copied, and the date and time when access is requested. A subpoena shall be returnable to a duly authorized investigator or other representative of the Commission. Neither the person claiming to be aggrieved, the person filing a charge on behalf of such person nor the respondent shall have the right to demand that a subpoena be issued.

(b) Any person served with a subpoena who intends not to comply therewith shall within five days (excluding Saturdays, Sundays and Federal legal holidays) after the date of service of the subpoena upon him or her, petition the General Counsel by mail to revoke or modify the subpoena. Such petition shall be mailed to 2401 E Street NW., Washington, D.C. 20506, and a copy thereof shall be served on the person who issued the subpoena. The petition shall separately identify each portion of the subpoena with which the petitioner does not intend to comply and shall state, with respect to each such portion, the grounds upon which the petitioner relies. A copy of the subpoena shall be attached to the petition and shall be designated "Attachment A." Within eight days after receipt thereof or as soon thereafter as practicable, the General Counsel shall make a determination upon the petition, stating reasons, and shall submit the petition and determination to the Commission for its review. The Commission shall review the petition and make a final determination. A commissioner who has issued a subpoena shall abstain from reviewing any petition to modify or revoke the subpoena. The Commission shall

serve a copy of the final determination of the petition upon the petitioner. For purposes of this section, service shall be made and proof thereof established pursuant to section 11(4) of the National Labor Relations Act, as amended, 29 U.S.C. 161(4), as made applicable to Commission hearings and investigations by section 710 of Title VII: *Provided, however*, That whenever the subpoena was issued by the Director of a Model Office, the petition to revoke or modify the subpoena shall be mailed to that Director, within the 5-day period specified above, who will make a determination on the petition. Any petitioner who wishes to appeal the determination of the Director shall do so by following the standard procedures specified above. Such appeal shall, in addition, be clearly labeled as "Appeal of Petition to Revoke or Modify Subpoena," and shall attach the initial petition and determination, designated as "Attachments B and C." No argument not presented to the Director of the Model Office will be considered by the Commission.

(c) Upon the failure of any person to comply with a subpoena issued under this section, the Commission may utilize the procedures of section 11(2) of the National Labor Relations Act, as amended, 29 U.S.C. 161(2), to compel enforcement of the subpoena.

(d) Witnesses who are subpoenaed pursuant to § 1601.16(a) shall be entitled to the same fees and mileage that are paid witnesses in the courts of the United States.

§ 1601.17 Witnesses for public hearings.

(a) To effectuate the purposes of Title VII, any Commissioner, upon approval of the Commission, may demand in writing that a person appear at a stated time and place within the State in which such person resides, transacts business, or is served with the demand, for the purpose of testifying under oath before the Commission or its representative. If there be noncompliance with any such demand, the Commission may utilize the procedures of section 710 of Title VII to compel such person to testify. A transcript of testimony may be made a part of the record of each investigation.

(b) Witnesses who testify as provided in paragraph (a) of this section shall be entitled to the same fees and mileage that are paid witnesses in the courts of the United States.

§ 1601.18 Right to inspect or copy data.

A person who submits data or evidence to the Commission may retain or, on payment of lawfully prescribed costs, procure a copy of transcript thereof, except that a witness may for good cause be limited to inspection of the official transcript of his or her testimony.

PROCEDURE FOLLOWING FILING OF A CHARGE

§ 1601.19 Dismissal: Procedure and authority.

(a) Where a charge on its face, or as amplified by the statements of the person claiming to be aggrieved discloses,

or where after investigation the Commission determines, that the charge and every portion thereof is not timely filed, or otherwise fails to state a claim under Title VII, the Commission shall dismiss the charge. A charge which raises a claim exclusively under section 717 of Title VII shall not be taken and persons seeking to raise such claims shall be referred to the appropriate federal agency.

(b) Where the Commission determines after investigation that there is not reasonable cause to believe that Title VII has been violated, the Commission shall dismiss the charge.

(c) Where the person claiming to be aggrieved fails to provide requested necessary information, fails or refuses to appear or to be available for interviews or conferences as necessary, fails or refuses to provide information requested by the Commission pursuant to § 1601.15 (b), or otherwise refuses to cooperate to the extent that the Commission is unable to resolve the charge, and after due notice, the charging party has had thirty days in which to respond, the Commission may dismiss the charge.

(d) Where the person claiming to be aggrieved cannot be located, the Commission may dismiss the charge: *Provided*, That reasonable efforts have been made to locate the charging party and the charging party has not responded within 30 days to a notice sent by the Commission to the person's last known address.

(e) Where a respondent has made a settlement offer described in § 1601.20 which is in writing and specific in its terms, the Commission may dismiss the charge if the person claiming to be aggrieved refuses to accept the offer: *Provided*, That the offer would afford full relief for the harm alleged by the person claiming to be aggrieved and the person claiming to be aggrieved fails to accept such an offer within 30 days after actual notice of the offer.

(f) Written notice of disposition, pursuant to paragraphs (a), (b), (c), (d), or (e) of this section, shall be issued to the person claiming to be aggrieved and to the person making the charge on behalf of such person, where applicable; in the case of a Commissioner charge, to all persons specified in § 1601.28(b)(2); and to the respondent. Appropriate notices of right to sue shall be issued pursuant to § 1601.28.

(g) The Commission hereby delegates authority to District Directors, the Director of the Office of Field Services and the Director of the Office of Systemic Programs, as appropriate, to dismiss charges, as limited by § 1601.21(d). The authority of the Commission to reconsider decisions and determinations as set forth in § 1601.21 (b) and (d) shall be applicable to this section.

§ 1601.20 Negotiated settlement.

(a) Prior to the issuance of a determination as to reasonable cause, the Commission will encourage the parties to settle the charge on terms that are mutually agreeable. District Directors, the Director of the Office of Field Services and the Director of the Office of Sys-

temic Programs, or their designees, shall have the authority to sign any settlement agreement which is agreeable to both parties. The Commission shall limit its undertaking in such settlements to an agreement not to process that charge further. Such settlements shall note that the Commission has made no judgment on the merits of the charge. Such an agreement shall not affect the processing of any other charge, including, but not limited to, a Commissioner charge or a charge, the allegations of which are like or related to the individual allegations settled.

(b) In the alternative, the Commission may facilitate a settlement between the person claiming to be aggrieved and the respondent by permitting withdrawal of the charge pursuant to § 1601.10.

§ 1601.21 Reasonable cause determination: Procedure and authority.

(a) Where a charge has not been settled or dismissed, the Commission shall, after making investigative efforts, determine whether reasonable cause exists to believe that Title VII has been violated. A determination as to reasonable cause is based on, and limited to, evidence obtained by the Commission and does not reflect any judgment on the merits of allegations not addressed in the determination.

(b) The Commission shall provide prompt notification of its determination under paragraph (a) of this section to the person claiming to be aggrieved, the person making the charge on behalf of such person, if any, and the respondent, or in the case of a Commissioner charge, the person named in the charge or identified by the Commissioner in the third-party certificate, if any, and the respondent. The Commission's determination is final when issued. The Commission may, however, on its own initiative reconsider its decision or the determination of any of its designated officers who have authority to issue Letters of Determination. When it does reconsider, the Commission shall provide prompt notification of its decision to amend, alter or revoke such decision or Letter of Determination to the person claiming to be aggrieved, the person making the charge on behalf of such person, if any, and the respondent, or in the case of a Commissioner charge, the person named in the charge or identified by the Commissioner in the third-party certificate, if any, and the respondent.

(c) Where a member of the Commission has filed a Commissioner charge, he or she shall abstain from making a determination in that case.

(d) The Commission hereby delegates to District Directors, the Director of the Office of Field Services and the Director of the Office of Systemic Programs the authority, in those cases in which previously issued Commission Decisions serve as precedent for the determination and in those cases in which the Commission's Guidelines provides a statement of policy which serves as authority for the determination, upon completion of an investigation, to dismiss a charge, make a determination, issue a Letter of Determination

and serve a copy thereof upon the parties. Such determination is final when the Letter of Determination is issued. However, the Director of the Office of Field Services, the Director of the Office of Systemic Programs and each District Director for determinations issued by his or her office may on his or her own initiative reconsider determinations. When he or she has done so, the issuing Director shall promptly notify the person claiming to be aggrieved, the person making the charge on behalf of such person, if any, and the respondent, or in the case of a Commissioner charge, the person named in the charge or identified by the Commissioner in the third-party certificate, if any, and the respondent of his or her decision to amend, alter or revoke such Letter of Determination.

(e) In making a determination as to whether reasonable cause exists, substantial weight shall be accorded final findings and orders made by designated 706 Agencies to which the Commission defers charges pursuant to § 1601.13. For the purposes of this section, the following definitions shall apply:

(1) "Final findings and orders" shall mean: (i) The findings of fact and order incident thereto issued by a 706 Agency on the merits of a charge; or

(ii) The consent order or consent decree entered into by the 706 Agency on the merits of a charge.

Provided, however, That no findings and order of a 706 Agency shall be considered final for purposes of this section unless the 706 Agency shall have served a copy of such findings and order upon the Commission and upon the person claiming to be aggrieved and shall have informed such person of his or her rights of appeal or to request reconsideration, or rehearing or similar rights; and the time for such appeal, reconsideration, or rehearing request shall have expired or the issues of such appeal, reconsideration or rehearing shall have been determined.

(2) "Substantial weight" shall mean that such full and careful consideration shall be accorded to final findings and orders, as defined above, as is appropriate in light of the facts supporting them when they meet all of the prerequisites set forth below:

(i) The proceedings were fair and regular; and

(ii) The practices prohibited by the State or local law are comparable in scope to the practices prohibited by Federal law; and

(iii) The final findings and order serve the interest of the effective enforcement of Title VII: *Provided,* That giving substantial weight to final findings and orders of a 706 Agency does not include according weight, for purposes of applying Federal law, to such Agency's conclusions of law.

§ 1601.22 Confidentiality.

Neither a charge, nor information obtained pursuant to section 709(a) of Title VII, nor information obtained from records required to be kept or reports required to be filed pursuant to section 709 (c) and (d) of Title VII, shall

be made matters of public information by the Commission prior to the institution of any proceedings under this Title involving such charge or information. This provision does not apply to such earlier disclosures to charging parties, or their attorneys, respondents or their attorneys, or witnesses where disclosure is deemed necessary for securing appropriate relief. This provision also does not apply to such earlier disclosures to representatives of interested Federal, State, and local authorities as may be appropriate or necessary to the carrying out of the Commission's function under Title VII, nor to the publication of data derived from such information in a form which does not reveal the identity of charging parties, respondents, or persons supplying the information.

PROCEDURE TO RECTIFY UNLAWFUL EMPLOYMENT PRACTICES

§ 1601.23 Preliminary or temporary relief.

(a) In the interest of the expeditious procedure required by section 706(f) (2) of Title VII, the Commission hereby delegates to the Director of the Office of Field Services, the Director of the Office of Systemic Programs and each District Director the authority, upon the basis of a preliminary investigation, to make the initial determination on its behalf that prompt judicial action is necessary to carry out the purposes of the Act and recommend such action to the General Counsel. The Commission authorizes the General Counsel to institute an appropriate action on behalf of the Commission in such a case not involving a government, governmental agency, or political subdivision.

(b) In a case involving a government, governmental agency, or political subdivision, any recommendation for preliminary or temporary relief shall be transmitted directly to the Attorney General by the Director of the Office of Field Services, the Director of the Office of Systemic Programs or the District Director.

(c) Nothing in this section shall be construed to prohibit private individuals from exercising their rights to seek temporary or preliminary relief on their own motion.

§ 1601.24 Conciliation: Procedure and authority.

(a) Where the Commission determines that there is reasonable cause to believe that an unlawful employment practice has occurred or is occurring, it shall endeavor to eliminate such practice by informal methods of conference, conciliation, and persuasion. In conciliating a case in which a determination of reasonable cause has been made, the Commission shall attempt to achieve a just resolution of all violations found and to obtain agreement that the respondent will eliminate the unlawful employment practice and provide appropriate affirmative relief. Where such conciliation attempts are successful, the terms of the conciliation agreement shall be reduced to writing and shall be signed

by the Commission's designated representative and the parties. A copy of the signed agreement shall be sent to the respondent and the person claiming to be aggrieved who are signatories thereto.

(b) District Directors, the Director of the Office of Field Services and the Director of the Office of Systemic Programs, or their designees, are hereby delegated authority to enter into informal conciliation efforts. District Directors, the Director of the Office of Field Service and the Director of the Office of Systemic Programs are hereby delegated the authority to sign conciliation agreements. When a suit brought by the Commission is in litigation, the General Counsel is hereby delegated the authority to negotiate and sign conciliation agreements where, pursuant to section 706(f) (1) of Title VII, a court has stayed proceedings in the case pending further efforts of the Commission to obtain voluntary compliance.

(c) Proof of compliance with Title VII in accordance with the terms of the agreement shall be obtained by the Commission before the case is closed. In those instances in which a person claiming to be aggrieved or a member of the class claimed to be aggrieved by the practices alleged in the charge is not a party to such an agreement, the agreement shall not extinguish or in any way prejudice the rights of such person to proceed in court under section 706(f) (1) of Title VII.

§ 1601.25 Failure of conciliation; notice.

Where the Commission is unable to obtain voluntary compliance as provided by Title VII and it determines that further efforts to do so would be futile or nonproductive, it shall, through the appropriate District Director, the Director of the Office of Field Services and the Director of the Office of Systemic Programs, or their designees, so notify the respondent in writing.

§ 1601.26 Confidentiality of endeavors.

(a) Nothing that is said or done during and as part of the informal endeavors of the Commission to eliminate unlawful employment practices by informal methods of conference, conciliation, and persuasion may be made a matter of public information by the Commission, its officers or employees, or used as evidence in a subsequent proceeding without the written consent of the persons concerned. This provision does not apply to such disclosures to the representatives of Federal, State or local agencies as may be appropriate or necessary to the carrying out of the Commission's functions under Title VII: *Provided, however,* That the Commission may refuse to make disclosures to any such agency which does not maintain the confidentiality of such endeavors in accord with this section or in any circumstances where the disclosures will not serve the purposes of the effective enforcement of Title VII.

(b) Factual information obtained by the Commission during such informal

endeavors, if such information is otherwise obtainable by the Commission under section 709 of Title VII, for disclosure purposes will be considered by the Commission as obtained during the investigatory process.

PROCEDURE CONCERNING THE INSTITUTION OF CIVIL ACTIONS

§ 1601.27 Civil actions by the Commission.

The Commission may bring a civil action against any respondent named in a charge not a government, governmental agency or political subdivision, after thirty (30) days from the date of the filing of a charge with the Commission unless a conciliation agreement acceptable to the Commission has been secured: *Provided, however,* That the Commission may seek preliminary or temporary relief pursuant to section 706(f) (2) of Title VII, according to the procedures set forth in § 1601.23 hereof, at any time.

§ 1601.28 Notice of right to sue: Procedure and authority.

(a) Issuance of notice of right to sue upon request. (1) When a person claiming to be aggrieved requests, in writing, that a notice of right to sue be issued and the charge to which the request relates is filed against a respondent other than a government, governmental agency or political subdivision, the Commission shall promptly issue such notice as described in § 1601.28(e) to all parties, at any time after the expiration of one hundred eighty (180) days from the date of filing of the charge with the Commission, or in the case of a Commissioner charge 180 days after the filing of the charge or 180 days after the expiration of any period of reference under section 706(d) of Title VII as appropriate.

(2) When a person claiming to be aggrieved requests, in writing, that a notice of right to sue be issued, and the charge to which the request relates is filed against a respondent other than a government, governmental agency or political subdivision, the Commission may issue such notice as described in § 1601.28(e) with copies to all parties, at any time prior to the expiration of 180 days from the date of filing the charge with the Commission; *Provided,* that the District Director, the Director of the Office of Field Services or the Director of the Office of Systemic Programs has determined that it is probable that the Commission will be unable to complete its administrative processing of the charge within 180 days from the filing of the charge and has attached a written certificate to that effect.

(3) Issuance of a notice of right to sue shall terminate further processing of any charge not a Commissioner charge unless the Director of the Office of Field Services, the Director of the Office of Systemic Programs, the appropriate District Director, or the General Counsel, determines at that time or at a later time that it would effectuate the purposes of Title VII to further process the charge. Issuance of a notice of right to sue shall

not terminate the processing of a Commissioner charge.

(4) The issuance of a notice of right to sue does not preclude the Commission from offering such assistance to a person issued such notice as the Commission deems necessary or appropriate.

(b) Issuance of notice of right to sue following Commission disposition of a charge.

(1) Where the Commission has found reasonable cause to believe that the Act has been violated, has been unable to obtain voluntary compliance with Title VII, and where the Commission has decided not to bring a civil action against the respondent, it will issue a notice of right to sue on the charge as described in § 1601.28(e) to:

(i) The person claiming to be aggrieved, or

(ii) In the case of a Commissioner charge, to any member of the class who is named in the charge, identified by the Commissioner in a third-party certificate, or otherwise identified by the Commission as a member of the class,

and provide a copy thereof to all parties.

(2) Where the Commission has entered into a conciliation agreement to which the person claiming to be aggrieved is not a party, the Commission shall issue a notice of right to sue on the charge to the person claiming to be aggrieved.

(3) Where the Commission has dismissed a charge pursuant to § 1601.19, it shall issue a notice of right to sue as described in § 1601.28(e) to:

(i) The person claiming to be aggrieved, or

(ii) In the case of a Commissioner charge, to any member of the class who is named in the charge, identified by the Commissioner in a third-party certificate, or otherwise identified by the Commission as a member of the class,

and provide a copy thereof to all parties.

(4) The issuance of a notice of right to sue does not preclude the Commission from offering such assistance to a person issued such notice as the Commission deems necessary or appropriate.

(c) The Commission hereby delegates authority to District Directors, the Director of the Office of Field Services and the Director of the Office of Systemic Programs, or their designees, to issue notices of right to sue, in accordance with this section, on behalf of the Commission.¹

(d) Notices of right to sue for charges against Governmental respondents. Notices of right to sue in cases where the respondent is a government, governmental agency, or a political subdivision thereof, shall be issued by the Attorney

¹ *Formal Ratification*—Notice is hereby given that the EEOC at a Commission meeting on March 12, 1974, formally ratified the acts of the District Directors of EEOC District Offices in issuing notices of right to sue pursuant to Commission practice instituted on October 15, 1969, and continued through March 18, 1974, 39 FR 10178 (March 18, 1974).

General, who has the authority to issue such notices.

(e) Content of notice of right to sue. The notice of right to sue shall include:

- (1) Authorization to the aggrieved person to bring a civil action pursuant to section 706(f)(1) of the Act within 90 days from receipt of such authorization;
- (2) Advice concerning the institution of such civil action by the person claiming to be aggrieved, where appropriate;
- (3) A copy of the charge;
- (4) The Commission's decision, determination, or dismissal, as appropriate.

§ 1601.29 Referral to the Attorney General.

If the Commission is unable to obtain voluntary compliance in a charge involving a government, governmental agency or political subdivision, it shall inform the Attorney General of the appropriate facts in the case with recommendations for the institution of a civil action by him or her against such respondent or for intervention by him or her in a civil action previously instituted by the person claiming to be aggrieved.

Subpart C—Notices to Employees, Applicants for Employment and Union Members

§ 1601.30 Notices to be posted.

(a) Every employer, employment agency, labor organization, and joint labor-management committee controlling an apprenticeship or other training program, as the case may be, shall post and keep posted in conspicuous places upon its premises where notices to employees, applicants for employment, members, and trainees, are customarily posted the following notice:

EQUAL EMPLOYMENT OPPORTUNITY IS THE LAW
DISCRIMINATION IS PROHIBITED

By the Civil Rights Act of 1964, as amended, and by Executive Order Numbers 11246 and 11375.

Title VII of the Civil Rights Act of 1964, as amended, administered by the Equal Employment Opportunity Commission prohibits discrimination because of Race, Color, Religion, Sex, or National Origin by employers with 15 or more employees, by Labor Organizations having a hiring hall or 15 or more members, by Employment Agencies, and by Joint Labor-Management Committees for Apprenticeship or Training.

Any person who believes he or she has been discriminated against should contact:

The Equal Employment Opportunity Commission, 2401 E Street N.W., Washington, D.C. 20506 or any of its district offices.

Executive Order Numbers 11246 and 11375 administered by the Office of Federal Contract Compliance Programs prohibits discrimination because of Race, Color, Religion, Sex or National Origin, and requires affirmative action to ensure equality of opportunity in all aspects of employment by all Federal Government Contractors and Subcontractors, and by contractors and subcontractors performing work under a Federally assisted construction contract regardless of the number of employees in either case.

Any person who believes he or she has been discriminated against should contact: The Office of Federal Contract Compliance Programs, U.S. Department of Labor, Washington, D.C. 20210.

Any person who believes he or she has been discriminated against should contact: The Office of Federal Contract Compliance Programs, U.S. Department of Labor, Washington, D.C. 20210.

(b) Copies of such notice may be obtained on request from the Commission.

(c) Section 711(b) of Title VII makes failure to comply with this section punishable by a fine of not more than \$100 for each separate offense.

Subpart D—Interpretations and Opinions by the Commission

§ 1601.31 Request for interpretation or opinion.

Any interested person desiring a written interpretation or opinion from the Commission may make a request therefor. However, issuance of such interpretations or opinions is discretionary.

§ 1601.32 Contents of request; where to file.

A request for an "opinion letter" shall be in writing, signed by the person making the request, addressed to the Chairman, Equal Employment Opportunity Commission, 2401 E Street N.W., Washington, D.C. 20506, and shall contain:

- (a) The names and addresses of the person making the request and of other interested persons.
- (b) A statement of all known relevant facts.
- (c) A statement of reasons why the interpretation or opinion should be issued.

§ 1601.33 Issuance of interpretation or opinion.

Only (a) a letter entitled "opinion letter" and signed by the General Counsel on behalf of the Commission or (b) matter published and specifically designated as such in the FEDERAL REGISTER may be relied upon as "written interpretation or opinion of the Commission" within the meaning of section 713 of Title VII.

Subpart E—Construction of Rules

§ 1601.34 Rules to be literally construed.

These rules and regulations shall be literally construed to effectuate the purpose and provisions of Title VII.

Subpart F—Issuance, Amendment, or Repeal of Rules

§ 1601.35 Petitions.

Any interested person may petition the Commission, in writing, for the issuance, amendment, or repeal of a rule or regulation. Such petition shall be filed with the Equal Employment Opportunity Commission, 2401 E Street N.W., Washington, D.C. 20506, and shall state the rule or regulation proposed to be issued, amended, or repealed, together with a statement of grounds in support of such petition.

§ 1601.36 Action on petition.

Upon the filing of such petition, the Commission shall consider the same and may thereupon either grant or deny the petition in whole or in part, conduct an appropriate proceeding thereon, or make other disposition of the petition. Should the petition be denied in whole or in part, prompt notice shall be given of the denial, accompanied by a simple statement of the grounds unless the denial be self-explanatory.

Subpart G—Case Processing by the General Counsel Under Section 707 of Title VII

§ 1601.50 Scope.

When the General Counsel processes charges under the Commission's authority as set forth in section 707 of the Act, the General Counsel shall process such charges in accordance with this subpart. When the General Counsel does not process such charges, the provisions of this subpart shall not apply and such charges shall be processed under Subpart B of part.

§ 1601.51 Delegation of authority.

The General Counsel is hereby delegated authority to give notice of and to defer charges to State and local 706 Agencies as defined in § 1601.3, to give notice of charges to respondents, to investigate charges, to sign and issue subpoenas, and to conciliate charges of employment discrimination.

§ 1601.52 Initiation of Section 707 charge.

Any member of the Commission may designate a charge for section 707 processing under this subpart. Any related charge shall be processed under this subpart if the General Counsel determines that it should be consolidated with the charge designated for section 707 processing by a member of the Commission.

§ 1601.53 Service of notice of charge.

Within 10 days of the filing of a charge, the General Counsel shall furnish the respondent with a notice of the charge (including the date, place and circumstances of the alleged unlawful employment practice) by mail or in person. The General Counsel need not furnish such notice if, prior to the designation of the charge for section 707 processing, the notice has been furnished pursuant to § 1601.14.

§ 1601.54 Deferral.

(a) Where the alleged unlawful employment practice occurs in a State or political subdivision of a State which has a State or local law prohibiting the practice alleged and establishing or authorizing a State or local agency to grant or seek relief from such practice (or to institute criminal proceedings), the General Counsel shall notify, on behalf of the Commission, the appropriate State or local 706 Agency, as defined in § 1601.3, before taking any action with respect to a Commissioner charge.

(b) The General Counsel, on behalf of the Commission, shall not defer such Commissioner charge unless the State or political subdivision notified in paragraph (a) of this section within 10 days of receipt of such notice requests submission of the charge to its jurisdiction.

(c) Where deferral is made by the General Counsel in paragraph (b) of this section, the deferral shall be for no less than 60 days, unless a shorter period is requested.

(d) Charges filed by individuals shall be deferred pursuant to the provisions

of § 1601.13, except that they shall be deferred by the General Counsel.

§ 1601.55 Investigation.

The General Counsel shall investigate any charge designated for Section 707 processing or any charges consolidated with that charge pursuant to § 1601.52.

§ 1601.56 Issuance of subpoenas; petitions to revoke subpoenas; enforcement of subpoenas.

(a) To effectuate the purposes of Title VII the General Counsel of the Commission shall have the authority to sign and issue a subpoena requiring:

- (1) The attendance and testimony of witnesses;
- (2) The production of evidence including, but not limited to, books, records, correspondence, or documents, in the possession or under the control of the person subpoenaed; and
- (3) Access to evidence for the purposes of examination and the right to copy.

The subpoena shall state the name and address of the issuer; and identify the person or evidence subpoenaed, and the person to whom and the place, date, and time at which it is returnable or the nature of the evidence to be examined or copied, and the date and time when access is requested. A subpoena may be returnable to any attorney designated in the subpoena. The General Counsel shall not issue a subpoena upon the request of a person filing a charge, a person on whose behalf a charge was filed or a respondent.

(b) Any person served with a subpoena who intends not to comply with the subpoena shall, within five days (excluding Saturdays, Sundays and Federal legal holidays) of the service of the subpoena, petition the Commission in writing to revoke or modify the subpoena. The petition shall be served on the General Counsel by mail at the Equal Employment Opportunity Commission, 2401 E Street, N.W., Washington, D.C. 20506, and a copy shall be served on the Commission attorney to whom the subpoena is returnable. The petition shall separately identify each portion of the subpoena with which the petitioner does not intend to comply and shall state, with respect to each portion, the grounds upon which petitioner relies. A copy of the subpoena shall be attached to the petition and shall be designated "Attachment A." Within eight days of receipt, or as soon thereafter as practicable, the Commission shall pass on the petition and shall serve a copy of its determination on the petitioner. For the purposes of this section, service shall be made and proof thereof established pursuant to Section 11(4) of the National Labor Relations Act, as amended, 29 U.S.C. Section 161(4), as made applicable to the proceeding hereunder by Section 710 of Title VII, 42 U.S.C. (Supp. II) 2000e9.

(c) If any person fails to comply with a subpoena, the General Counsel may institute enforcement proceedings in the appropriate district court pursuant to

of § 1601.13, except that they shall be deferred by the General Counsel.

§ 1601.55 Investigation.

The General Counsel shall investigate any charge designated for Section 707 processing or any charges consolidated with that charge pursuant to § 1601.52.

§ 1601.56 Issuance of subpoenas; petitions to revoke subpoenas; enforcement of subpoenas.

(a) To effectuate the purposes of Title VII the General Counsel of the Commission shall have the authority to sign and issue a subpoena requiring:

- (1) The attendance and testimony of witnesses;
- (2) The production of evidence including, but not limited to, books, records, correspondence, or documents, in the possession or under the control of the person subpoenaed; and
- (3) Access to evidence for the purposes of examination and the right to copy.

The subpoena shall state the name and address of the issuer; and identify the person or evidence subpoenaed, and the person to whom and the place, date, and time at which it is returnable or the nature of the evidence to be examined or copied, and the date and time when access is requested. A subpoena may be returnable to any attorney designated in the subpoena. The General Counsel shall not issue a subpoena upon the request of a person filing a charge, a person on whose behalf a charge was filed or a respondent.

(b) Any person served with a subpoena who intends not to comply with the subpoena shall, within five days (excluding Saturdays, Sundays and Federal legal holidays) of the service of the subpoena, petition the Commission in writing to revoke or modify the subpoena. The petition shall be served on the General Counsel by mail at the Equal Employment Opportunity Commission, 2401 E Street, N.W., Washington, D.C. 20506, and a copy shall be served on the Commission attorney to whom the subpoena is returnable. The petition shall separately identify each portion of the subpoena with which the petitioner does not intend to comply and shall state, with respect to each portion, the grounds upon which petitioner relies. A copy of the subpoena shall be attached to the petition and shall be designated "Attachment A." Within eight days of receipt, or as soon thereafter as practicable, the Commission shall pass on the petition and shall serve a copy of its determination on the petitioner. For the purposes of this section, service shall be made and proof thereof established pursuant to Section 11(4) of the National Labor Relations Act, as amended, 29 U.S.C. Section 161(4), as made applicable to the proceeding hereunder by Section 710 of Title VII, 42 U.S.C. (Supp. II) 2000e9.

(c) If any person fails to comply with a subpoena, the General Counsel may institute enforcement proceedings in the appropriate district court pursuant to

Section 11(2) of the National Labor Relations Act, as amended, 29 U.S.C. 161(2).

(d) Witnesses who are subpoenaed pursuant to § 1601.56(a) shall be entitled to the same fees and mileage that are paid witnesses in the courts of the United States.

§ 1601.57 Commission reasonable cause finding.

Upon completion of the investigation, the Commission shall determine whether there exists reasonable cause to believe that the respondent is engaged in a pattern or practice of unlawful discrimination within the meaning of section 707 (a) of Title VII. A finding of no reasonable cause shall constitute dismissal of the charge.

§ 1601.58 Voluntary compliance; settlements; Commission authority to file suit.

A finding of reasonable cause by the Commission shall be deemed to authorize the General Counsel to endeavor to eliminate the alleged unlawful employment practices by informal methods of conference, conciliation and persuasion. Should such endeavors fail to produce a conciliation agreement satisfactory to the General Counsel, the General Counsel may commence litigation upon approval by the Commission.

§ 1601.59 Notice to persons claiming to be aggrieved.

In any charge designated for processing under this subpart, the General Council shall issue the notice as required by § 1601.28.

Subpart H—706 Agency Designation Procedures

§ 1601.70 706 Agency Designation.

(a) Because of the large number of State and local fair employment practice agencies, only those agencies which notify the Commission of their qualifications under section 706(c) of Title VII and this section and request designation as "706 Agencies" or "Notice Agencies" or both will be eligible for such designation. Such notification must be submitted by written request to the Director of the Office of Field Services. The request shall include the following materials and information:

- (1) A copy of the agency's fair employment practices law and any rules, regulations and guidelines of general interpretation issued pursuant thereto.
- (2) A chart of the organization of the agency responsible for administering and enforcing said law.
- (3) The amount of funds made available to or allocated by the agency for fair employment purposes.
- (4) The identity and telephone number of the agency attorney whom the Commission may contact in reference to any legal questions that may arise in the process of its review of the agency's application.
- (5) A statement certifying the following:

(i) That the State or political subdivision has a fair employment practice law;

(ii) That such law authorizes the applicant agency to grant or seek relief from employment practices found to be illegal under such law or that it authorizes the agency to institute criminal proceedings; and

(iii) That such agency has been established and is operational and processing charges filed under such law.

(b) Where both State and local 706 Agencies exist, the Commission reserves the right to defer to the State 706 Agency only. However, if the Commission determines that it would best serve the purposes of the Act, it may defer to either or both State and local 706 Agencies.

(c) The continued designation of a 706 Agency for certain bases of discrimination will be dependent upon the 706 Agency's continuing operation and ability to grant or seek relief or to institute criminal proceedings with respect to those bases of discrimination.

§ 1601.71 Commission determinations on 706 Agency applications.

The Commission, after examining the materials and application required in § 1601.70(a) and after applying criteria outlined in section 706(c) of Title VII, shall make a determination.

(1) If the Commission determines that an agency shall be designated as a 706 Agency, it shall notify the agency that it proposes to issue such designation. Such proposed designation shall be published in the FEDERAL REGISTER and shall provide any person or organization not less than 15 days in which to file written comments with the Commission. If after evaluating any comments so received, the Commission is still of the opinion that issuance of the proposed designation as published in the FEDERAL REGISTER is appropriate, it shall effect such designation by issuance and publication of an amendment to § 1601.74. Thereafter, the procedure in § 1601.13(c) and § 1601.13(f) shall be followed for charges in the jurisdiction of the 706 Agency, except as modified by agreement pursuant to § 1601.13(d).

(2) If the Commission determines that any agency shall not be designated as a 706 Agency, it shall notify the applicant agency of its decision and such notice shall provide the reason(s) why it proposes not to designate the agency and shall grant it not less than 15 days to request a conference concerning the matter in accordance with § 1601.73.

(3) Where the Commission determines that a State or local agency does not come within the definition of a 706 Agency for purposes of a particular basis of discrimination or where the agency applies for designation as a Notice Agency, the Commission shall notify that agency of the filing of charges for which the agency is not a 706 Agency. For such purposes that State or local agency will be deemed a Notice Agency.

§ 1601.72 706 Agency performance standards.

(a) The continued designation of a 706 Agency will be dependent upon the 706 Agency's willingness and ability to

§ 1601.73

§ 1601.74

§ 1601.75

§ 1601.76

§ 1601.77

§ 1601.78

§ 1601.79

§ 1601.80

§ 1601.81

§ 1601.82

§ 1601.83

§ 1601.84

§ 1601.85

§ 1601.86

§ 1601.87

RULES AND REGULATIONS

administer its law in such a manner that, in fact, the practices prohibited are comparable in scope to those practices prohibited under Federal law and satisfy the performance standards set forth below:

(1) In all cases where the 706 Agency finds cause to credit the allegations of a charge, it shall effectively eliminate the discrimination and provide for full compensatory and prospective relief consistent with applicable Federal law, except where State or local law authorizes no relief except to allow the agency to institute criminal proceedings. Where State or local law does no more than authorize the agency to institute criminal proceedings, the agency must utilize its authority effectively to eliminate the discrimination.

(2) In all cases where the 706 Agency enters into a conciliation agreement, consent order, or order after public hearing, it shall include in any such agreement or order mechanisms for monitoring compliance with the terms thereof and mechanisms for enforcing compliance in the event any terms thereof are not implemented.

(b) The Commission may upon its own motion, withdraw the designation as a 706 Agency previously issued to any agency based upon:

(1) Reconsideration of the request and materials and the information referenced in § 1601.70; or,

(2) Consideration of the agency's performance as set forth in paragraph (a) of this section.

Whenever the Commission has reason to believe that such designation as a 706 Agency no longer serves the interest of effective enforcement of Title VII, it may, after following the procedures below, including the opportunity for a conference provided for in § 1601.73, withdraw such designation. Before taking such action it shall notify the 706 Agency of its proposed withdrawal of such designation. Such notification shall set forth the reasons for the proposed withdrawal and provide the agency not less than 15 days to submit data, views, and arguments in opposition and to request a conference in accordance with § 1601.73. Such proposed withdrawal of designation shall also be published in the FEDERAL REGISTER and shall provide any persons or organizations who take an interest at least 15 days in which to file written comments on the proposal with the Commission and to request a conference. If a request for a conference in accordance with § 1601.73 is not received within the time period provided, the Commission shall evaluate any arguments or comments it has received from the agency and from any persons and organizations who take an interest. If, after such evaluation, the Commission still is of the opinion that designation should be withdrawn because it has determined that such designation no longer serves the interest of effective enforcement of Title VII, the Commission shall so notify the Agency. The withdrawal shall be effected by the issuance and publication of an amendment to § 1601.74.

§ 1601.73 706 Agency Conference.

In order to provide a State or local agency full opportunity to present its views whenever, pursuant to § 1601.71 or § 1601.72(b), a conference is requested within the time allowed by said section for making such request, the Director of the Office of Field Services or his or her designee shall hold such a conference. Said conference official shall issue a pre-conference order. The order shall indicate the issues to be resolved and any initial procedural instructions which might be appropriate for the particular conference. It shall fix the date, time, and place of the conference. The date shall not be less than 20 days after the date of the order. The date and place shall be subject to change for good cause.

(1) A copy of such pre-conference order shall be served on the State or local agency. After service of the order or of a notice designating a conference officer, and until such officer submits his or her recommended determination, all communications relating to the subject matter of the conference shall be addressed to him or her. The conference officer shall have authority to regulate the course and conduct of the conference. A transcript shall be made of the proceedings at the conference. The transcript and all comments and petitions relating to the proceedings shall be made available for inspection by interested persons.

(2) The conference officer shall prepare his or her proposed findings and recommended determination, a copy of which shall be served on the agency. Within 20 days after such service the agency may file written exceptions. After the expiration of the period for filing exceptions, the conference officer shall certify the entire record, including his or her proposed findings, and recommended determination and exceptions thereto to the Commission, which shall review the record and issue a final determination.

(3) Such determination shall become effective by the issuance and publication of an amendment to § 1601.74.

§ 1601.74 Designated 706 and notice agencies.

(a) The designated 706 Agencies are:

Alaska Commission for Human Rights.
Alexandria Human Rights Office.
Allentown Human Relations Commission.
Arizona Civil Rights Division.
Baltimore Community Relations Commission.

DEPARTMENT OF LABOR

Employment Standards Administration
MINIMUM WAGES FOR FEDERAL AND
FEDERALLY ASSISTED CONSTRUCTION
General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 12-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

NOTICES

MODIFICATIONS AND SUPERSEDES DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and Supersedes Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedes Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 12-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedes Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

SUPERSEDES DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

The numbers of the decisions being superseded and their dates of publication in the FEDERAL REGISTER are listed with each State.

Supersedes Decision numbers are in parentheses following the numbers of the decisions being superseded.

Alabama:
AL77-1086 (AL77-1112).... July 1, 1977.
Connecticut:
CT77-5001 (CT77-3135).... Jan. 4, 1977.
Delaware:
DE77-5001 (CT77-3135).... Do
Maine:
CT77-5001 (CT77-3135).... Do
Maryland:
CT77-5001 (CT77-3135).... Do
Massachusetts:
CT77-5001 (CT77-3135).... Do
New Hampshire:
CT77-5001 (CT77-3135).... Do
New Jersey:
CT77-5001 (CT77-3135).... Do
New York:
CT77-5001 (CT77-3135).... Do
Pennsylvania:
CT77-5001 (CT77-3135).... Do
Rhode Island:
CT77-5001 (CT77-3135).... Do
Tennessee:
CT77-5001 (CT77-3135).... Do
TN77-1051 (TN77-1131).... May 6, 1977.
Washington:
WA77-5076 (WA77-5096).... Aug. 19, 1977.

Signed at Washington, D.C., this 7th day of October 1977.

RAY J. DOLAN,
Assistant Administrator,
Wage and Hour Division.

Group 6: Blower Distributors and Mulch Seeding Operator; Oil Distributors
Group 7: Locomotive (Dinkey-air, diesel, electric, gas, steam)
Group 8: Equipment Service Oilier; Oilier Driver on Truck Cranes (100 tons and over)
Group 9: Pump (water); Tractors (Farmall type, over 60 h.p.)
Group 10: Post Hole Diggers (mechanical)
Group 11: Brooms (power, Wayne, Saginaw and similar types); Bulldozers (under D9 or similar); Loaders (Fork Lifts or Lumber Stackers - on construction job site - Drott Travel Lift); Rollers, Tampers and Vibrators (twin engine); Saw (concrete); Scrapers (carry-all type, single)
Group 12: Batch Plant (batch and mixer, 200 yards per hour and under); Cranes ("A" Frame Trucks, single power drum); Conveyors; Crusher (rock); Washing and Screening Plants; Finishing Machine Operator, Concrete Paving; Hoists, Air Tuggers, Strato Tower Bucket, Elevators and Deck Winches (power); Loaders (Elevating-Athey, Barber Greene and similar types, and Overhead and Front-end, under 24 yards); Mixers (asphalt up to 4 tons per batch, and concrete mixer and batch - 200 yards per hour and under); Power Plant Operators; Pumps (Fuller Kenyon and Concrete and Pumpcrete); Rollers, Tampers and Vibrators (on plant, road mix or multi-lift materials); Sced Man; Spreaders (Blaw Knox, Cedarapids, Jaeger, Flarety or similar types); Trenching Machine (under 16 inches)

POWER EQUIPMENT OPERATORS (Areas 1 and 2)
(DREDGING)

- Group 1: Assistant Mate (deckhand)
Group 2: Fireman; Oiler
Group 3: Assistant Engineer (Electric, Diesel, Steam or Booster pump);
Mates and Bosmen
Group 4: Engineer Welder; Craneman
Group 5: Assistant Engineer (Electric Generator Operator for primary
pump, power barge or dredge)
Group 6: Leverman, Hydraulic
Group 7: Leverman, Dipper:
(a) 5 yards and under
(b) Over 5 yards

POWER EQUIPMENT OPERATORS (Area 3)
(DREDGING)

- Group 1: Leverman, Hydraulic
Group 1A: Leverman, Dipper
Group 2: Assistant Engineer (Including Hatch Engineer, Welder, Mechanic,
and Machinist) and Mate
Group 3: Tenderman (Boatman, Attending Dredge Plant); Fireman
Group 4: Assistant Mate (Deckhand), Oiler

NOTICES

Group 1: Escort Driver or Pilot Car; Flat Bed Truck, single rear axle,
fork lift, 3000 lbs. and under; Helper and Swamper; Leverperson loading
trucks at bunkers; Pickup hauling employees or material; Seeds and
Mulcher; Stationary Fuel Operator; Team Driver; Water Tank Truck; up to
1800 gallons; Tractor (small, rubber-tired, pulling trailer or similar
equipment)

Group 2: Bus Driver or Employeehaul; Flatbed Truck, dual rear axle; Power
boat hauling employees or material; Tireperson No. 1
Group 3: Buggy Mobile and similar; Bulk Cement Tanker; Straddle Carrier
(Rosa, Hyster and similar); Oil Tank Driver; Power Operated Sweeper;
Transite Mixers and Trucks hauling concrete; 3 yards and under; Trucks,
side, end and bottom dump: under 6 yards; Water Tank Truck: 1801-4000
gallons

Group 4: Auto Crane; 2000 lb. capacity; Bulk Cement Spreader; Dumptrior;
6 yards and under; Flat Bed Truck, using power takeoff; Flaherty Spreader;
Box Driver; Fork Lift: 3001-16,000 lbs.; Fuel Truck Driver (steam cleaner
and washer); Rubber-tired Tunnel Jumbo; Scissors Truck; Slurry Truck Driver;
Transite Mixers and Trucks hauling concrete: over 3 yards to and including
6 yards; Warehouseperson; Water Tank Truck: 4001-6000 gallons; Wrecker
and Tow Truck

FRINGE BENEFITS: Health & welfare \$1.07 Pension \$.75

INTERSTATE COMMERCE COMMISSION PRIVACY ACT OF 1974

System of Records; Annual Publication

Pursuant to 5 U.S.C. 552a(e)(4), as added by section 3 of the Privacy Act of 1974, the Interstate Commerce Commission hereby publishes the System of Records as currently maintained by this agency. The Systems of Records identified in the notice published in the Federal Register, at 41 FR 40430, continue in effect and are republished in their entirety without change.

JOHN P. KRATZKE,
Privacy Officer

ICC—I

System name: Operating personnel files (Nonpermanent records), ICC

System location: ICC Headquarters Bureaus and Offices Washington, D.C., and Regional Detached Offices (49 CFR 1001)

Categories of individuals covered by the system: ICC employees

Categories of records in the system: Working papers and documents developed during the course of an individual's employment which are not permanently retained. These will include the Standard Form 7B (OF 4B), Employee Record Card, and nonofficial records generally limited to information on experience, education, training, special qualifications and skills, position descriptions, performance appraisals and conduct. The Regional Managers' files may contain duplicate copies of official documents (SF 171, SF 50, etc.)

Authority for maintenance of the system: Federal Personnel Manual Supplement 293-31

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: For the use of operating officials as a source of data to initiate requests for personnel actions, to plan and schedule employee training, to counsel employees on their performance, to establish a basis for proposing commendations or disciplinary actions, and to carry out their personnel management responsibilities in general. In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto. The information contained in this system of records will be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.

Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Maintained in individual file folders.

Retrievability: Indexed by name.

Safeguards: Kept in locked file cabinets under direct control of responsible official.

Retention and disposal: Retained until employee leaves the agency through transfer or other separation and then forward to the Personnel Office where it is screened to insure that it contains no documents that should be permanently filed in the Official Personnel Folder, and then is destroyed.

System manager(s) and address:

Administrative Officer (Assistant), ICC
Headquarters Bureaus and Offices, Washington, D.C.
Regional Managers and Officer-in-charge—Detached Offices

Notification procedure: Same as above

Record access procedures: Same as above
Contesting record procedures: Same as above
Record source categories: Employees and their supervisors
Systems exempted from certain provisions of the act: None

ICC—II

System name: National Defense Executive Reserve files, ICC

System location: Recruitment and assignment files Bureau of Operations, Interstate Commerce Commission, 12th and Constitution Avenue, Northwest, Washington, D.C. 20423 Appointment files Personnel Office, Interstate Commerce Commission, 12th and Constitution Avenue, Northwest, Washington, D.C. 20423

Categories of individuals covered by the system: Letters and/or memorandums addressed to members of the Commission's National Defense Executive Reserve or to staff involving recruitment of reservists.

Categories of records in the system: Letters, Memorandum or NDER Forms 1, 2, and 3, or Form BOP D11 concerning reservists' assignments or responsibilities in connection with the National Defense Executive Reserve program, letters of appointment and statement of understanding.

Authority for maintenance of the system: EO 11179 and EO 11490

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Maintaining management control system of the Commission's membership and staff responsibilities in connection therewith and of individuals selected to participate in the National Defense Executive Reserve program. The information in this system of records will be exchanged as a matter of routine use with the Federal Preparedness Agency, General Services Administration, in connection with both agencies' responsibilities for administering the National Defense Executive Reserve and Emergency Preparedness programs, assigned by Executive Orders Nos. 11179, dated September 22, 1964, and 11490, dated October 30, 1969. In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulations, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto. The information contained in this system of records will be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.

Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: File folders and card file, 3 inch x 5 inch cards, basic control of quarterly computer printouts, membership listing of National Defense Executive Reserves, listing names; addresses and employment information about each reservist.

Retrievability: Files maintained by individual name.

Safeguards: Kept in locked file cabinets under control of responsible official.

Retention and disposal: Permanent for card file; correspondence and rosters, etc., three-year active file and then destroyed.

ICC—III

System name: Health Unit Medical Records, ICC

System location: Occupational Health Unit, ICC 12th and Constitution Avenue, Northwest Washington, D.C. 20423

Categories of individuals covered by the system: ICC employees

Categories of records in the system: Contains employee's Name, date of birth, address, telephone number, Bureau or Office where employed, name of person to contact in case of emergency, name of employee's personal physician, Nurse's Notes visits and treatment in the Health Unit, records pertaining to blood donations and individual records of physical examinations, laboratory test results, x-rays and other individual health records with pertinent medical opinions.

Authority for maintenance of the system: Federal Personnel Manual Supplement 792-1

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Maintained expressly for the well-being of employees in relation to work assignments. For use of Director of Personnel providing counseling services to employees and agency officials. In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto. The information contained in this system of records will be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.

Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Maintained in individual file folders.

Retrievability: Indexed by name.

Safeguards: Kept in locked file, with access only by the Occupational Health Nurse and/or Physician.

Retention and disposal: Retained until one year after the employee leaves the agency, and then destroyed. Upon separation, will be given to employee at his request or to his personal physician, if so desired.

System location: Section of Systems Development, ICC 12th and Constitution Avenue, Northwest Washington, D.C. 20423

Categories of individuals covered by the system: ICC employees

Categories of records in the system: Contains the name, social security number, employee number, date of birth, employment status, leave status, pay status, tax status, insurance status, saving bond and charity deductions, time and attendance data, and the organization of each ICC employee.

Authority for maintenance of the system: 49 U.S.C. 12

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: File is used for the: Transfer of information to the Internal Revenue Service for wage, levy and tax requirements—transfer of information to the Treasury Department for completion of payroll processing—transfer of information to the American Federation of Government Employees, Graphic Arts International Union, and the Professional Association of the ICC for the processing of union dues—transfer of information to state and city revenue offices for tax unemployment processing—transfer of information to the Civil Service Commission for personnel requirements—employee separation and retirement processing—employee time attendance accounting—employee salary payment and deduction control—employee bond, charity and health benefits processing—employee leave control—employee parking assignment control—employee telephone directory—employee personnel action processing and control—Commission budget planning, monitoring and control—creation of internal management reports, summaries and work files which are located throughout the agency.

In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing implementing the statute, or rule, regulation or order issued pursuant thereto.

The information contained in this system of records will be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.

Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Maintained on magnetic tape.

Retrievability: Indexed by social security number.

Safeguards: Stored in secure computer facility under the supervision of the tape librarian.

Retention and disposal: Fifty-two week retention for files. A five-year retention period for year-end files. At the end of each of these periods, files are destroyed.

System manager(s) and address:

ICC—V

System name: Case Status System (Formal Case Control), ICC

System location: Section of Systems Development, ICC 12th and Constitution Avenue, Northwest Washington, D.C. 20423

Categories of individuals covered by the system: Administrative Law Judges and Attorney-Advisers who have been assigned to work on cases before the Commission—parties of record and parties to be advised of all proceedings.

Categories of records in the system: Contains the various processing stages that a case passes through as it is reviewed by the Commission—contains Administrative Law Judge and Attorney-Adviser names who are responsible for various processing stages of the case—contains the names of parties of record and parties to be advised of all proceedings—contains hearing locations, when applicable—contains carrier identity.

Authority for maintenance of the system: Commission directive
Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Provides identification of

all pending cases before the Commission—identifies older cases to expedite processing—identifies cases which normal time allowances—provides an are being processed within inventory of pending cases by stage of processing—identifies the responsible Administrative Law Judge or Attorney-Adviser and organizational unit responsible for various stages of case processing—identifies parties of record and parties to be advised of all proceedings for a given case—used to produce management reports located throughout the agency. In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

The information contained in this system of records will be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.

Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Maintained on magnetic tape and computer disk files.

Retrievability: Indexed by case and carrier identity and Administrative Law Judge or Attorney-Adviser name.

Safeguards: Stored in secure computer facility. Data base access is under the supervision of a data base administrator.

Retention and disposal: Records are maintained on each case until it has been decided. The record is then transferred to an inactive history file for permanent retention.

Systems exempted from certain provisions of the act: None

ICC—VI

System name: Correspondence and Management Control, ICC

System location: ICC Headquarters Bureaus and Offices Washington, D.C., and Regional Detached Offices (49 CFR 1001)

Categories of individuals covered by the system: Names of assignments with a control slip, including due dates for either individuals or sections within various organizational elements of the Commission covering letters, memoranda, or other inquiries for which responsibility to reply exists, normal business production transactions, time frames on special projects, and all aspects of overall correspondence and work load control, as well as individual signed records for government property accountability.

Categories of records in the system: The overall Commission performance monitoring system incorporates a series of subsystems which identify the various measurements of productivity which are implicit in the operation of the Commission. Maintenance of records on the performance and the production of Branches, Sections, Offices and individual employees is necessary to enable the Commission to effectively manage its work load. These records include the names of individuals assigned to specific activities, the dates of assignments, dates products received, name of signer for correspondence which is going out, and general evaluation criteria of the individual performance of the element being monitored.

Authority for maintenance of the system: 49 U.S.C. 12, 18

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Control of the production of the total employee force of the Interstate Commerce Commission and assurance that productivity is achieved by the em-

ployees assigned individual organizational elements. Additionally, to maintain a suspense on specific actions being levied upon an individual to assure that the response is timely, as well as qualitative. Used for control of government property assuring individual accountability.

In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

The information contained in this system of records will be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.

Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Both card, suspense special forms, and computer-related assignment records are maintained to control the overall system. Maintained in sequence by the organizational element and/or the individual assigned to a specific task, as well as cross-referenced by the number of the task involved.

Safeguards: Maintained at supervisory levels on an informal basis with access prohibited outside of the Commission.

Retention and disposal: One-year active operation and subsequently destroyed.

Systems exempted from certain provisions of the act: None

ICC—VII

System name: Consumer Complaint System, ICC

System location: Public Information and Consumer Affairs Office, ICC 12th and Constitution Avenue, Northwest Washington, D.C. 20423 Headquarters ICC Bureau and Offices and Regional Detached Offices (49 CFR 1001)

Categories of individuals covered by the system: Letters received from consumers and/or shippers regarding the operation of the ICC or carriers subject to its regulations.

Categories of records in the system: These records include letters on virtually every subject.

Categories of records in the system: These records include letters on virtually every subject. They are concentrated in three areas: complaints from individual consumers on household goods shipments, complaints from travelers on rail passenger facilities, and complaints from passenger on motor passenger facilities. Additionally, information on general subjects of the operation of the Interstate Commerce Commission and, specifically, shipper complaints against carrier practices and/or tariffs are included in overall complaint files. Files generally are accessed by name of individual complaining or subject of the complaint or name of the carrier against which the complaint is tendered. Notice is given that when complaints generate an investigative file portions of this overall file are extracted and exempted under the provisions and notice provided in the publication of ICC VIII, Preliminary Investigative Files, and ICC IX, Enforcement Files.

Authority for maintenance of the system: 49 U.S.C. 12, 18

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: To respond to complaints from individuals, to correlate information received from individuals to assure policies are developed supporting the overall

public interest in the regulatory process, to provide information to carries relative to shortcomings they are experiencing, and take informal compliance action, as well as to transfer the files to formal investigative or enforcement action, when justified. This is a public file available for public review under the terms of the Freedom of Information Act. Individuals submitting special complaint correspondence to the Commission, unless identifying their desire to remain anonymous, will not be protected from disclosure of the information contained within the complaint letter. In the event that a system of records maintained by this agency to carry its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

The information contained in this system of records will be disclosed to the Office of Management and Budget in connection with the review of private legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: In conventional file cabinets, alphabetically, by sender, and potentially by subject of complaint, dispersed for filing to office having primary operational use.

Retrievability: Maintained in alphabetical order, by complainant, with potential cross-index for identification of entity against which the complaint has been made, and further cross-reference by subject of complaint.

Safeguards: Minimal, since the files are public in nature.

Retention and disposal: Maintained for approximately two years and then destroyed.

ICC—VIII

System name: Preliminary Investigative Files, ICC

System location: Bureau of Operations Interstate Commerce Commission 12th and Constitution Avenue, Northwest Washington, D.C. 20423, and Regional Detached Offices (49 CFR 1001)

Categories of individuals covered by the system: Suspected violators of the Interstate Commerce Act or ICC orders or regulations.

Categories of records in the system: These files contain information indicating or alleging that an individual or entity could be in violation of the Interstate Commerce Act. Such records could be arrest records from the various states received pursuant to Public Law 89-170, which allows cooperative agreements between the states and this Commission in the provision of information. For example, these files could contain warning letters involving alleged violations, miscellaneous correspondence, newspaper clippings, records of contacts with entities or individuals by Commission personnel, copies of preliminary investigation reports, and prior enforcement actions taken by the Interstate Commerce Commission or the courts because of violations of the Interstate Commerce Act.

Authority for maintenance of the system: 49 U.S.C. 12

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used employees of the Interstate Commerce Commission to administer the Act, increase compliance with orders, regulations and statutes for the regulation of surface transportation, and initiate appropriate enforcement action.

In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

The information contained in this system of records will be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.

Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Maintained in individual file folders.

Retrievability: Indexed by name of entity of individual.

Safeguards: Kept in locked file cabinets under direct control of responsible official

Retention and disposal: Maintained for a minimum of five years and then destroyed.

Systems exempted from certain provisions of the act: Under the provisions of Section (j)(2), this file is exempted from any part of Section 5 U.S.C. 552(a), except Subsections (b), (c)(1) and (2), (c)(4)(A) through (F), (e)(6), (7), (9), (10), and (11), and (1). This material is collected in the process of investigating all potential violations of the Interstate Commerce Act, whether civil or criminal, and is exempted for the reasons expressed in 5 U.S.C. 552(b)(7). Under the provisions of Section (k)(2), this file is exempted from Subsections (c)(3), (d), (e)(1), (e)(4)(G), (H), and (I), and (f). This material is collected in the process of investigating all potential violations of the Interstate Commerce Act, whether civil or criminal, and is exempted for the reasons expressed in U.S.C. 552(b)(7).

ICC—IX

System name: Investigative and Enforcement Records, cross-indexed, ICC

System location: Bureau of Enforcement (cross-indexed and central file) Interstate Commerce Commission 12th and Constitution Avenue, Northwest Washington, D.C. 20423, and ICC Regional Offices (investigative files with assigned geographical jurisdiction)

Categories of individuals covered by the system: Individual, corporation, partnership or sole proprietorship, subject to enforcement actions being taken by the Interstate Commerce Commission as a result of preliminary investigations.

Categories of records in the system: The central cross-index contains the name and address of individual, partnership, corporation, or sole proprietorship, and includes a cross-reference to the enforcement file containing the investigative reports, as well as other information gathered as part of the criminal prosecution and/or civil forfeiture action. The basic cross reference file does not contain significant information other than the name and address of the entity involved, but the cross-reference to the investigative file, which is maintained by case number, does provide access based upon individual name. Individual investigative and enforcement files are

maintained by Enforcement file number, both at Headquarters and Regions.

Authority for maintenance of the system: 49 U.S.C. 12.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Used to monitor and control the progress of enforcement actions, both within the Commission for civil forfeitures and in relationship with the Department of Justice on those actions that are going through the courts. The central cross index is the only practical method for access to the appropriate file based upon any individual identifier. Actual file information is used for prosecution of civil and criminal actions. In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, or regulation or order issued pursuant thereto. The information contained in this system of records will be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.

Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Maintained on folding 5 inch by 8 inch index cards.

Retrievability: Indexed by individual, partnership, corporation, or sole proprietorship (index). Actual files retrieved by enforcement file number.

Safeguards: Stored in a special room of the Bureau of Enforcement with Commission employees present during all duty hours (index).

Retention and disposal: Cards are maintained in the active cross-reference and indexing file while the file is open and transferred to the closed card section after the file is concluded.

System manager(s) and address:

Assistant Director
Bureau of Enforcement
Interstate Commerce Commission
12th and Constitution Avenue, Northwest
Washington, D.C. 20423

Notification procedure: Same as above

Record access procedures: Same as above

Contesting record procedures: Same as above

Record source categories: Preliminary investigative files (ICC VII)

Systems exempted from certain provisions of the act: Under the provisions of Section (j)(2), this file is exempted from any part of Section 5 U.S.C. 552(a) except Subsections (b), (c) (1) and (2), (e)(4)(A) through (f), (e)(6), (7), (9), (10) and (11), and (i). This material is collected in the process of investigating all potential violations of the Interstate Commerce Act, whether civil or criminal, and is exempted for the reasons expressed in 5 U.S.C. 552(b)(7). Under the provisions of Section (k)(2) this file is exempted from Subsections (3), (d), (e)(4)(G), and (1) and (f). This material is collected in the process of investigating all potential violations of the Interstate Commerce Act, whether civil or criminal, and is exempted for the reasons expressed in 5 U.S.C. 552(b)(7).

ICC-X

System name: ICC employee parking permit applications for carpools, ICC

System location: Section of Administrative Services, ICC 12th and Constitution Avenue, Northwest Washington, D.C. 20423

Categories of individuals covered by the system: All individuals applying for, or assigned, parking facilities

Categories of records in the system: ICC Form MD-21; Revised 3/75, Interstate Commerce Commission Application for Parking Space, Contents: Carpool member names, home address, office telephone number, bureau or office, service computation date,

vehicle license number, distance between residence and ICC and the name of the employer.

Authority for maintenance of the system: FDMR Temporary Regulation D-47, May 22, 1974.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Use is to maintain control of assigned parking spaces. In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto. The information contained in this system of records will be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.

Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Maintained on 5 inch by 8 inch cards.

Retrievability: Indexed by location of parking space, number of carpool members and order of parking permit number.

Safeguards: Secured in locked metal, lateral file cabinet under the supervision of the space and services unit.

Retention and disposal: Cards are maintained for a three-year period and then discarded.

ICC-XII

System name: Employee Travel Records, ICC

System location: Budget and Fiscal Office, ICC 12th and Constitution Avenue, Northwest Washington, D.C. 20423

Categories of individuals covered by the system: ICC employees

Categories of records in the system: The record consists primarily of a series of Standard And Commission forms and index file cards designed to record pertinent travel information. The information usually includes the employee's name address and organization, the mode, purpose, dates and places of travel, the method and amount of reimbursement and the amount of travel advance outstanding.

Authority for maintenance of the system: 49 U.S.C. 18

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The records are available

for any use by any person. The Commission uses these records to establish approval for travel on official business, the reimbursement of the employee for approved expenses, control of annual budget estimates, input to the Commission's internal accounting system and periodic and special report required by agencies outside the Commission, and the compilation of information for internal management purposes. Portions of the file are made available to Commission management personnel for monitoring assigned functional and geographical areas of responsibility. In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use to the appropriate agency, whether Federal, state local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto. The information contained in this system of records will be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular No. A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.

Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Maintained in individual file folders.

Retrievability: Indexed by employee name.

Safeguards: Kept in locked file cabinet under supervision of Budget and Fiscal Officer.

Retention and disposal: Records are destroyed in accordance with GSA retention schedules.

Title 49—Transportation
CHAPTER X—INTERSTATE COMMERCE COMMISSION

PART 1007—RECORDS CONTAINING INFORMATION ABOUT INDIVIDUALS

Sec.	
1007.1	Purpose and scope.
1007.2	Definitions.
1007.3	Requests by an individual for information or access.
1007.4	Procedures for identifying the individual making the request.
1007.5	Disclosure of requested information to individuals; fees for copies of records.
1007.6	Disclosure to third parties.
1007.7	Content of systems or records.
1007.8	Amendment of a record.
1007.9	Appeals to the Chairman.
1007.10	Information supplied by the Commission when collecting information from an individual.
1007.11	Public notice of record systems.
1007.12	Exemptions.

AUTHORITY: Secs. 552, 553, and 559, Administrative Procedure Act (5 U.S.C. 552, 553, and 559).

§ 1007.1 Purpose and scope.

(a) This part contains the rules of the Interstate Commerce Commission implementing the Privacy Act of 1974 (5 U.S.C. 552a). These rules apply to all records maintained by this Commission which are not excepted or exempted as provided for in § 1007.12, insofar as they contain personal information concerning an individual, identify that individual by name or other symbol and are contained in a system of records from which information is retrieved by the individual's name or identifying symbol. Among the primary purposes of these rules are to permit individuals to determine whether information about them is contained in Commission files and, if so, to obtain access to that information; to establish procedures whereby individuals may have inaccurate and incomplete information corrected; and, to restrict access by unauthorized persons to that information.

(b) In this part the Commission is also exempting certain Commission systems of records from some of the provisions of the Privacy Act of 1974 that would otherwise be applicable to those systems.

§ 1007.2 Definitions.

As used in this part: "Commission" means the Interstate Commerce Commission.

"Chairman" means the Presidentially appointed Commissioner who is the administrative head of the Interstate Commerce Commission.

"Privacy Officer" refers to the individual designated to process requests and handle various other matters relating to the Commission's implementation of the Privacy Act of 1974.

"Individual" means a citizen of the United States or an alien lawfully admitted for permanent residence.

"Maintain" means the maintenance, collection, use, or dissemination (of records).

"Record" means any item, collection or grouping of information about an individual that is maintained by an agency, including, but not limited to, his educa-

tion, financial transactions, medical history, and criminal or employment history and that contains his name, or the identifying number, symbol, or other identifying particular assigned to the individual, such as a finger or voice print or a photograph.

"Statistical Record" means a record in a system of records maintained for statistical research or reporting purposes only and not used in whole or in part in making any determination about an identifiable individual, except as provided by section 8 of Title 13 of the United States Code.

"System of records" means a group of any records under the control of the Commission retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual.

"Routine use" means, with respect to the disclosure of a record, the use of such record for a purpose which is compatible with the purpose of which the record was compiled.

"Agency" means any executive department, military department, Government corporation, Government-controlled corporation or other establishment in the Executive Branch of the Government or any independent regulatory agency.

§ 1007.3 Requests by an individual for information or access.

(a) Any individual may request information on whether a system of records maintained by the Commission contains any information pertaining to him or her, or may request access to his or her record or to any information pertaining to him or her which is contained in a system of records. All requests shall be directed to the Privacy Officer, Office of the Managing Director, Interstate Commerce Commission, Twelfth Street and Constitution Avenue NW, Washington, D.C. 20423.

(b) A request for information or for access to records under this part may be made by mail or in person. The request shall: (1) Be in writing and signed by the individual making the request; and, (2) Include the full name of the individual seeking the information or record, along with his or her home and business addresses and telephone numbers.

(c) For each system of records from which information is sought, the request shall: (1) Specify the title and identifying number as it appears in the system notice published by the Commission; (2) provide such additional identifying information, if any, as may be required by the system notice; (3) describe the specific information or kind of information sought within that system of records; and, (4) set forth any unusual arrangements sought concerning the time, place, or form of access.

(d) The Commission will respond in writing to a request made under this section within ten days (excluding Saturdays, Sundays and legal public holidays) after receipt of the request. If a definitive reply cannot be given within ten days, the request will be acknowledged and an explanation will be given of the status of the request.

(e) The individual either will be noti-

fied in writing of where and when he or she may obtain access to the records requested or will be given the name, address and telephone number of the member of the Commission staff with whom he or she should communicate to make further arrangements for access.

§ 1007.4 Procedures for identifying the individual making the request.

When a request for information or for access to records has been made pursuant to § 1007.3, before information is given or access is granted pursuant to § 1007.5 of these rules, the Commission shall require reasonable identification of the person making the request to insure that information is given and records are disclosed only to the proper person.

(a) An individual may establish his identity by:

(1) Submitting with his written request for information or for access to photocopy, two pieces of identification bearing his or her name and signature, one of which shall bear his or her current home or business address; or

(2) Appearing at any office of the Commission during the regular working hours for that office and presenting either:

(i) One piece of identification containing a photograph and signature, such as a driver's license or passport, or, in the case of a Commission employee, his or her ICC identification card; or

(ii) Two pieces of identification bearing the individual's name and signature, one of which shows the individual's current home or business address; and

(3) Providing such other proof of identity as the Commission deems satisfactory in the circumstances of a particular request.

(b) Nothing in this section shall preclude the Commission from requiring additional identification before granting access to the records if there is reason to believe that the person making the request may not be the individual to whom the record pertains, or where the sensitivity of the data may warrant.

(c) The requirements of this subsection shall not apply if the records involved would be available to any person under the Freedom of Information Act.

§ 1007.5 Disclosure of requested information to individuals; fees for copies of records.

(a) Any individual who has requested access to his or her record or to any information pertaining to that individual in the manner prescribed in § 1007.3 and has identified himself or herself as prescribed in § 1007.4 shall be permitted to review the record and have a copy made of all or any portion thereof in a form comprehensible to the individual, subject to fees for copying services set forth in paragraph (f) of this section. Upon request, persons of the individual's own choosing may accompany the individual, provided that the individual has furnished a written statement authorizing discussion of his or her record in the accompanying person's presence.

(b) Access will generally be granted in the office of the Commission where the records are maintained during normal business hours, but for good cause shown

the Commission may grant access at another office of the Commission or at different times for the convenience of the individual making the request. When a request for access is from a Commission employee, this request may be granted by forwarding the information desired through registered mail, return receipt requested.

(c) Where a document containing information about an individual also contains information not pertaining to him or her, the portion not pertaining to the individual shall not be disclosed except to the extent the information is available to any person under the Freedom of Information Act. If the records sought cannot be provided for review and copying in a meaningful form, the Commission shall provide to the individual a summary of the information concerning the individual contained in the record or records which shall be complete and accurate in all material aspects.

(d) Where the disclosure involves medical records, the Privacy Officer may determine that such information will be provided only to a physician designated by the individual.

(e) Requests for copies of documents may be directed to the Privacy Officer or to the member of the Commission's staff through whom arrangements for access were made.

(f) Fees for copies of records shall be charged at the rate of 10 cents per letter-size or legal-size exposure duplicated electrostatically. Fees for requests requiring the use of a computer shall be charged at the actual cost for machine time. Payment should be made by check or money order payable to the Treasury of the United States. When it is determined to be in the best interest of the public, the Privacy Officer may waive the fee provision.

(g) Nothing in this subsection or in § 1007.3 shall:

(1) Require the disclosure of records exempted under § 1007.12 of these rules including the exemption relating to investigative records;

(2) Allow an individual access to any information compiled in reasonable anticipation of a civil action or proceeding or a criminal proceeding; or

(3) Require the furnishing of information or records which in the regular course of business cannot be retrieved by the name or other identifier of the individual making the request.

§ 1007.6 Disclosure to third parties.

(a) The Commission shall not disclose to any agency or to any person by any means of communication a record pertaining to an individual which is contained in a system of records, except under the following circumstances:

(1) The individual to whom the record pertains has given his written consent to the disclosure;

(2) The disclosure is to officers and employees of the Commission who need it in the performance of their duties;

(3) Disclosure is required under the Freedom of Information Act (5 U.S.C. 552);

(4) Disclosure is for a routine use as defined in § 1007.2 of these rules and described in the system notice for that system of records;

(5) The disclosure is made to the Bureau of the Census for the purposes of planning or carrying out a census or survey or related activity;

(6) The disclosure is made to a recipient who has provided the agency with advance adequate written assurance that the record will be used solely as a statistical research or reporting record, and the record is to be transferred in a form that is not individually identifiable;

(7) The disclosure is made to another agency or to an instrumentality of any Governmental jurisdiction within or under the control of the United States for a civil or criminal law enforcement activity if the activity is authorized by law and if the head of the agency or instrumentality has made a written request to the Commission specifying the particular portion desired and the law enforcement activity for which the record is sought;

(8) The disclosure is made to the National Archives of the United States as a record which has sufficient historical or other value to warrant its continued preservation by the United States Government, or for evaluation by the Administrator of General Services or his designee to determine whether the record has such value.

(9) The disclosure is made to a person pursuant to a showing of compelling circumstances affecting the health or safety of an individual if upon such disclosure notification is transmitted to the last known address of such individual;

(10) The disclosure is made to either House of Congress, or, to the extent of matter(s) within its jurisdiction, any committee or subcommittee thereof, any joint committee of Congress or subcommittee of any such joint committee;

(11) The disclosure is made to the Comptroller General, or any of his authorized representatives, in the course of the performance of the duties of the General Accounting Office; or,

(12) Pursuant to the order of a court of competent jurisdiction.

(b) The Commission, with respect to each system of records under its control, shall keep for at least five years an accurate accounting of certain disclosures:

(1) A record shall be kept of all disclosures made under paragraph (a) of this section, except disclosures made with the consent of the individual to whom the record pertains (paragraph (a)(1) of this section), disclosures to authorize employees (paragraph (a)(2) of this section), and disclosures required under the Freedom of Information Act (paragraph (a)(3) of this section).

(2) The record shall include:

(i) The date, nature, and purpose of each disclosure of a record made to any person or to another agency;

(ii) The name and address of the person or agency to whom the disclosure was made.

(c) The accounting described in paragraph (b) of this section will be made available to the individual named in the record upon his written request, directed to the Privacy Officer, Interstate Commerce Commission, Twelfth Street and Constitution Avenue NW, Washington, D.C. 20423, except that the accounting

will not be revealed with respect to disclosures made under paragraph (a)(7) of this § 1007.6 pertaining to law enforcement activity, and will not be maintained as to disclosures involving systems of records exempted under § 1007.12.

(d) Whenever an amendment or correction of a record or a notation of dispute concerning the accuracy of records is made by the Commission in accordance with §§ 1007.8 and 1007.9, the Commission will inform any person or other agency to whom the record was previously disclosed, if an accounting of the disclosure was made pursuant to the requirements of paragraph (b) of this section.

§ 1007.7 Content of systems or records.

(a) The Commission will maintain in its records only such information about an individual as is relevant and necessary to accomplish the purposes of the Interstate Commerce Act and other purposes required to be accomplished by statute or by Executive Order of the President.

(b) The Commission will maintain no record describing how any individual exercises rights guaranteed by the First Amendment of the United States Constitution unless expressly authorized by statute or by the individual about whom the record is maintained or unless pertinent to and within the scope of an authorized law enforcement activity.

(c) The Commission will collect information to the greatest extent practicable directly from the subject individual when the information may result in adverse determinations about an individual's rights, benefits, and privileges under Federal programs.

(d) The Commission will maintain all records which are used by the Commission in making any determination about any individual with such accuracy, relevance, timeliness, and completeness as is reasonably necessary to assure fairness to the individual in the determination.

§ 1007.8 Amendment of a record.

(a) Any individual may request amendment of information pertaining to him which is contained in a system of records maintained by the Commission and which is filed under his name or other individual identifier if he believes the information is not accurate, relevant, timely or complete. A request for amendment shall be directed to the Privacy Officer.

(b) A request for amendment may be made by mail or in person and shall: (1) Be in writing and signed by the person making the request; (2) describe the particular record to be amended with sufficient specificity to permit the record to be located among those maintained by the Commission; and (3) specify the nature of the amendment sought and the justification for the requested change. The person making the request may be required to provide the information specified in §§ 1007.3 and 1007.4 in order to simplify identification of the record and permit verification of the identity of the person making the request for amendment.

(c) Receipt of a request for amendment will be acknowledged in writing within ten days (excluding Saturdays,

PRIVACY ACT ISSUANCES

Sundays and legal public holidays); except that if the individual is given notice within the ten-day period that his or her request will or will not be complied with, no acknowledgement is required.

(d) Assistance in preparing a request to amend a record may be obtained from the Privacy Officer, Office of the Managing Director, Interstate Commerce Commission, Twelfth Street and Constitution Avenue NW., Washington, D.C. 20423.

(e) Upon receipt of a request for amendment the Privacy Officer or a person designated by him shall promptly determine whether the record is materially inaccurate, incomplete, misleading, or is irrelevant or not timely, as claimed by the individual, and, if so, shall cause the record to be amended in accordance with the individual's request.

(f) If the Privacy Officer or designee grants the request to amend the record, the individual shall promptly be advised of the decision and of the action taken, and notice shall be given of the correction and its substance to each person or agency to whom the record had previously been disclosed, as shown on the record of disclosures maintained in accordance with § 1007.6(b).

(g) If the Privacy Officer or designee disagrees in whole or in part with a request for amendment of a record, the individual shall promptly be notified of the complete or partial denial of his request and the reasons for the refusal. The individual shall also be notified of the procedures for administrative review by the Chairman of any complete or partial denial of a request for amendment, which are set forth in § 1007.9.

(h) If a request is received for amendment of a record prepared by another agency which is in the possession or control of the Commission, the request for amendment will be forwarded to that agency. If that agency determines that the correction should be made, the Commission will amend its records accordingly and notify the individual making the request for amendment of the change. If the other agency declines to make the amendment, the Privacy Officer or designee will independently determine whether the amendment will be made to the record in the Commission's possession or control, considering any explanation given by the other agency for its decision.

§ 1007.9 Appeals to the Chairman.

(a) Any individual may petition the Chairman:

(1) To review a refusal to comply with an individual request for access to records pursuant to the Privacy Act (5 U.S.C. 552a(d)(1)), and §§ 1007.3 and 1007.5 in this part;

(2) To review denial of a request for amendment made pursuant to § 1007.8;

(3) To correct any determination that may have been made adverse to the individual based in whole or in part upon inaccurate, irrelevant, untimely or incomplete information; and,

(4) To correct a failure to comply with any other provision of the Privacy Act and the rules of this Part 1007, which has had an adverse effect on the individual.

(b) The petition to the Chairman shall be in writing and shall: (1) State in what manner it is claimed the Com-

mission or any Commission employee has failed or refused to comply with provisions of the Privacy Act or of the rules contained in this Part 1007, and (2) set forth the corrective action the petitioner wishes the Commission to take. The petitioner may, if he or she wishes, state such facts and cite such legal or other authorities as are considered appropriate.

(c) The Chairman will make a determination of any petition filed pursuant to this subsection within thirty days (excluding Saturdays, Sundays, and legal public holidays) after receipt of the petition, unless for good cause shown, the Chairman extends the 30-day period. If a petition is denied, the petitioner will be notified in writing of the reasons for such denial, and the provisions for judicial review of that determination which are set forth in section 552a(g)(1)(A) and (2)(A), of Title 5 of the United States Code and the provisions for disputed records set forth in paragraph (d) of this section.

(d) If, after review, the Chairman declines to amend the records as the individual has requested, the individual may file with the Privacy Officer a concise statement setting forth why he or she disagrees with the Chairman's denial of the request. Any subsequent disclosure containing information about which a statement of disagreement has been filed shall clearly note the portion which is disputed and include a copy of a concise statement explaining its reasons for not making the amendments requested. Prior recipients of the disputed record will be provided a copy of any statement of dispute to the extent that an accounting of disclosures was maintained.

§ 1007.10 Information supplied by the Commission when collecting information from an individual.

The Commission will inform each individual whom it asks to supply information, on the form which it uses to collect the information or on a separate form that can be retained by the individual, of:

(a) The authority which authorizes the solicitation of the information and whether disclosure of such information is mandatory or voluntary;

(b) The principal purpose or purposes for which the information is intended to be used;

(c) The routine uses which may be made of the information, as published in the FEDERAL REGISTER; and,

(d) The effects on the individual of not providing all or any part of the requested information.

§ 1007.11 Public notice of records systems.

(a) The Commission will publish in the FEDERAL REGISTER, at least annually, a notice of the existence and character of each of its system of records, which notice shall include:

(1) The name and location of the system;

(2) The categories of individuals on whom records are maintained in the system;

(3) The categories of records maintained in the system;

(4) Each routine use of the records contained in the system, including the categories of users and purpose of such use;

(5) The policies and practices of the Commission regarding storage, retrieval, access controls, retention, and disposal of the records;

(6) The title and business address of the Commission official who is responsible for the system of records;

(7) The procedures whereby an individual can be notified at his or her request if the system of records contains a record pertaining to that individual;

(8) The procedures whereby an individual can be notified at his or her request how he or she can gain access to any record pertaining to that individual contained in the system of records, and how the content of the record can be contested; and,

(9) The categories of sources of records in the system.

(b) Copies of the notices as printed in the FEDERAL REGISTER will be available in each office of the Commission. Mail requests should be directed to the Privacy Officer, Office of the Managing Director, Interstate Commerce Commission, Twelfth Street and Constitution Avenue NW., Washington, D.C. 20423. The first copy will be provided free of charge; additional copies are subject to charge provided for in paragraph (c) of this § 1007.5.

§ 1007.12 Exemptions.

(a) Investigatory materials compiled for law enforcement purposes are exempt from portions of the Privacy Act of 1974 and of these rules on the basis and to the extent that individual access to these files could impair the effectiveness and orderly conduct of the Commission's enforcement program. Provided, however, that if any individual is denied any right, privilege, or benefit to which he or she would otherwise be entitled by Federal law, or for which he or she would otherwise be eligible, as a result of the maintenance of such material, such materials shall be provided to the individual; except to the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence, or, prior to the effective date of this section, under an implied promise that the identity of the source would be held in confidence.

(b) Investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for employment with or contracts with the Commission are exempt from portions of the Privacy Act of 1974 and of these rules to the extent that it identifies a confidential source. This is done in order to encourage persons from whom information is sought to provide information to the Commission which, absent assurances of confidentiality, they might otherwise be unwilling to give. However, if practicable, material identifying a confidential source shall be extracted or summarized in a manner which protects the source, and the summary or extract shall be provided to the requesting individual.

NEW BILLING PROCEDURES FOR AGENCIES

As part of the new billing procedures announced in the FEDERAL REGISTER of August 24, 1977, and to insure that each agency is correctly billed for only its own documents, the Office of the Federal Register requests agencies to insert the proper billing code on all of their documents. The six-digit billing code should be typed or handwritten in ink at the top of the first page on all three copies of documents submitted to the Office of the Federal Register for publication, as follows:

BILLING CODE: 0000-00

The list of agency billing codes assigned by the Government Printing Office follows:

Department	Billing Code	Department	Billing Code
Action	6050-01	Federal Maritime Commission.....	6730-01
Administrative Conference of the United States.....	6110-01	Federal Mediation and Conciliation Service.....	6732-01
